

## Last Building on Earth Chapter 16

This time, Wang Xuan could hardly feel the pain in his right palm, only a white light flashed, and a fourth white scale appeared in the palm of his right palm.

These four white scales are combined together, like a white flower with four petals, which is very strange.

After obtaining two scales in a row, the energy in his body was boiling. The wounds on Wang Xuan's arms and legs were healing at a speed visible to the naked eye. The original severe pain disappeared, and his whole body was filled with a powerful force.

This strength caused him to exert only a slight force on his hands and feet, and he lifted his upper body up, and his body stood up straight from the ground.

The monster that was kicked up by him before climbed up from the ground, and just got the first half of its body into the side of the car, Wang Xuan rushed up.

Hearing Zhang Qianwen's hissing and screaming and the monster's terrifying growl in the car, he understood that a monster got into the car. He didn't hear Zhao Lei's movement. , I am afraid that even Zhang Qianwen will not be able to live.

Before he could think about it, Wang Xuan rushed up to grab one of the monster's hind legs, and with all his strength, he pulled it up.

At least this monster weighs one or two hundred kilograms. Wang Xuan never imagined that he had such a strong arm that he could easily lift such a heavy monster.

He smashed the monster into another car parked next to it, and the monster's head hit the windshield in front of the car sideways.

With a loud noise, the windshield in front of the car shattered and burst open, and the pillar between the front door and the windshield was immediately twisted and deformed, like crumpled paper.

The monster roared and spit out blood, Wang Xuan swung it up again and smashed it towards the ground in front of him this time.

With a crisp sound, the monster's head exploded like a watermelon, and the red and white splashed out together. Although it was protected by scales, the head couldn't resist the impact with the hard concrete floor, and immediately shattered. .

The head shattered, the monster died, and the white scale at the center of its neck peeled off and flew to Wang Xuan's right hand.

This is the fifth white scale he got.

When Wang Xuan killed three monsters in a row, Gu Manyao also succeeded. She was knocked horizontally by a monster and flew out, and was attacked by two monsters on the left and the right.

Zhang Haofei swung the baseball bat in his hand and threw it at one of the monsters. The other monster attacked Gu Manyao on the ground with a swipe of his claws, trying to disembowel her.

Gu Manyao grabbed the steel bar with both hands and lifted it up. The monster's claws slammed the steel bar from top to bottom. She felt a huge force hit the steel bar, her arms vibrated, and her palms felt numb, and the steel bar was about to fly away.

At this moment, the white scale in her right hand changed.

From the moment she obtained this white scale, her right hand was swollen and uncomfortable, and there was an urge to dig it out.

At this moment, this swollen and uncomfortable feeling suddenly intensified, and the right hand seemed to swell from it.

This monster didn't expect Gu Manyao to react so quickly. Before it could dodge, it was stabbed in the chin by this steel bar.

Gu Manyao fell to the ground and lifted her upper body up. The monster was above her body. The steel bar that had been sharpened and used as a weapon by Zhang Haofei and a group of people had been sharpened like a short spear. The head, coming out from the upper forehead, pierced the entire head of the monster.

Having been pierced through the brain, the monster opened its mouth wide and wailed. Gu Manyao pulled it down again, and the steel bar was pulled out with a stream of blood, and the surface was also stained with some white matter, which was the monster's brain.

The steel bar was pulled out, and the monster trembled like a deflated ball, stopped howling, and fell forward.

Gu Manyao turned to avoid it, quickly got up, and suddenly saw a flash of white light in front of her eyes, a pain on the back of her right hand, and a white scale broke through the flesh on the back of her hand and entered the palm of her hand.

She got a second scale.

Excited and excited, Gu Manyao rushed towards the monster that bit Wang Xuan's leg and dragged him to the ground. He kicked his feet, only to feel two white scales merging in the palm of his right hand, releasing one after another of energy. , the energy concentrated on her feet, and a powerful force erupted, making her rush out faster.

In the blink of an eye, she was in front of this monster, and the blood-stained steel bar in her right hand stabbed head-on.

This monster originally wanted to attack Wang Xuan, but Gu Manyao threw himself in front of it. It let out a low growl, raised its claws, and grabbed at the steel bar that Gu Manyao had stabbed. The other claw stretched out and grabbed at Gu Manyao's chest.

The monster successfully grabbed Gu Manyao and stabbed the steel bar, but it couldn't stand the power that Gu Manyao burst out at the moment. .

The monster's other claw grabbed Gu Manyao's chest, UU reading [www.uukanshu.com](http://www.uukanshu.com) tore off a piece of clothing, leaving four shallow bloodstains on the exposed snow-white skin.

Gu Manyao loosened the rebar in her hand, and when she moved her body, she was now slightly faster than the monster. She immediately circled behind it, and twisted the monster's neck with her arms in a circle.

She learned this trick from Wang Xuan. Before, in Zhao Lei's car, Wang Xuan relied on his arms to break the neck of the monster to kill the first monster.

Her current strength is much greater than that of Wang Xuan who hadn't obtained the white scales at that time. As soon as she exerted

force, the monster's head was twisted 180 degrees by her. Face to face with her, mouth There was a gurgling sound, and blood was constantly pouring out.

The monster's neck was completely broken by her, and she quickly died. The white scales on the neck and neck peeled off, like a living thing, submerged in her right palm, combined with the original two white scales, forming a three-dimensional Petal flower pattern.

At this moment, Zhang Haofei was throwing the baseball bat that was so twisted and deformed that it could no longer be used at the monster that attacked Gu Manyao. The monster was hit in the head by the baseball bat. Grab it in his face.

Zhang Haofei was not afraid at all, and came up to meet him, only to feel the two white scales in the palm of his right hand releasing energy endlessly.

This energy spread throughout his body, increasing his strength and speed. He grabbed the claws that grabbed the monster, and tried hard to lift the monster and throw it out.

Sudden severe stomach pain, but was caught by the monster's other claw.

"Beast!"

Under the severe pain, Zhang Haofei roared furiously, and with force on his hands, he snapped and broke the bones of the monster's forelimbs.

The monster's head landed on the ground, and its brains splattered all of a sudden.
