

Last Building on Earth Chapter 19

Seeing that the elite monster was no longer moving, Wang Xuan felt his limbs weak, unable to stand, and slowly sat down on the spot.

At this moment, the two white scales under the neck of this elite monster automatically fell off and disappeared into his right hand.

The two white scales entered his right hand and merged with the original five white scales to form a small white flower with seven petals.

A new energy emerged from it, slowly moisturizing the whole body. Wang Xuan felt as if he was immersed in a hot spring. The wounds on his whole body were healing at an accelerated rate, and the severely depleted physical energy was also recovering.

Feeling the changes in his body, Wang Xuan felt that his strength was further improved. Originally, the surroundings were very dark, but now it has become a little brighter, and things in the distance have become much clearer.

This is not because the light is brighter, but because more and more white scales are obtained, his body is constantly strengthening, and his eyesight has also improved significantly.

His physical strength was slowly recovering, Wang Xuan gained some strength and slowly stood up from the ground, watching Gu Manyao and Zhang Haofei still lying on the ground, both of them were seriously injured, even if they had white scales, it would take some time to be possible full recovery.

Wang Xuan didn't dare to relax his vigilance. Although this elite monster was killed, no one knew whether new monsters would appear.

He had been observing the surroundings and listening to the movement. Fortunately, no new monsters or other monsters were found for the time being. danger.

Suddenly there was a soft noise from the car on the way, and Zhao Lei climbed out of the back seat.

Zhao Lei was still in shock, looking at the monster corpses all over the ground, surrounded by a mess, his face could not hide his shock.

When he looked up and saw Wang Xuan, he breathed a sigh of relief.

When Wang Xuan saw that Zhao Lei was still alive, he understood that the monster in the car was killed by him. He obtained a white scale, so he could be rescued.

Even Zhang Qianwen's head was smashed by an elite monster, and he knew he would die without looking at it. The five of them originally came to the underground parking lot of Longmao Plaza, but now Wang Qin and Zhang Qianwen have died one after another, and Wang Xuan felt sad that he was in such a strange and dangerous place, who knows how long he will live?

"Wang Xuan, I'm still alive, and I got scales..." Zhao Lei was a little excited.

The first time I got white scales, this feeling is indescribable without personal experience.

"Well." Wang Xuan nodded at him, walked to Gu Manyao's side, and said, "How is it, can you still move? We need to leave here early."

In just a short period of time, so many monsters appeared here, and a more powerful elite monster appeared, which made Wang Xuan have a bad premonition. Is it because there are too many monster corpses gathered here, so the Are other monsters attracted?

"I...I can..." Gu Manyao gritted her teeth, slowly supporting herself and trying to stand up.

Seeing that she was struggling, Wang Xuan immediately stretched out his hand to support her and said to Zhao Lei, "Zhao Lei, support Zhang Haofei, let's get out of here quickly."

Although Zhang Qianwen's headless corpse is on the side, he can't take care of it now, so he can only discard the corpse. The most important thing now is to get out of here as soon as possible.

"Okay." Zhao Lei nodded in agreement and walked towards Zhang Haofei, trying to help him up.

Zhang Haofei is not a fool either. When he saw the monsters appearing here, he knew it was not safe and had to move immediately, but he pushed Zhao Lei's hand away and said, "I can go by myself."

While speaking, he struggled to stand up and muttered, "These **** beasts..."

Seeing that he had rejected him, Zhao Lei didn't speak, he went straight to the corpse of the monster he killed, and pulled out the steel rod and steel pipe stuck on the corpse of the monster.

Just after the first battle, Wang Xuan's own steel pipe and Zhang Haofei's baseball bat were both damaged and unusable. Now Wang Xuan is holding the steel bar that was originally Gu Manyao. He feels

that the sharpened steel bar is very useful. If it weren't for this steel bar, It is not easy to kill that elite monster.

Wang Xuan supported Gu Manyao and walked towards the place where the van was parked before.

Zhao Lei followed closely with a steel rod and a steel pipe. He was seriously injured, but fortunately, the white scales he obtained worked. Most of his injuries have recovered, and he has no problem walking.

Zhang Haofei fell to the rear. He had several broken ribs, and it would be difficult for him to heal completely in a short time.

Gu Manyao glanced at Zhang Qianwen's headless corpse on the ground, her eyes were dim, and her face showed a sad expression.

Zhang Qianwen was naturally timid and relied on Gu Manyao very much. In Gu Manyao's heart, Zhang Qianwen was just like her own sister. She usually took good care of her. , unspeakably uncomfortable.

In this weird underground parking lot, the ground is as hard as iron, even if you want to dig a pit to bury her, it is impossible to bury her, and cremation is even more unrealistic, so you can only abandon it on the spot.

A few people didn't dare to wait, and quickly returned to the front of the van. Zhao Lei found a plastic bag in the van and filled it with the remaining four bottles of mineral water and a bag of egg yolk pie~www.mtlnovel.com~ This is the only few people left. A little material is more important than anything.

Zhao Lei kept the steel rod as a weapon, and handed the other steel rod to Gu Manyao.

Zhang Haofei's original baseball bat could not be used and had been discarded. Fortunately, there were other weapons left on the ground around the van. These weapons were used by his original four companions. He picked up a steel pipe and carried it around him.

The purpose of coming back to the van was to get this little material. After getting it, the four no longer hesitated, and immediately walked towards the distance, as far as possible from here.

The surroundings were still dark, and Wang Xuan used both his eyes and ears. He now has seven white scales, and his hearing and eyesight have been greatly enhanced. In the front, Zhao Lei in the back, and Zhang Haofei in the end.

In this underground parking lot, all they could see were cars. The four of them walked along the road between the two rows of cars, all wanting to get away from those corpses as soon as possible.

After a while, Gu Manyao didn't need his support and could walk alone. Although she was seriously injured, she had three white scales, and her ability to recover and heal was much stronger than when she had only one scale.

Zhang Haofei, who was at the back, started to walk a little hard, but the three white scales were constantly releasing energy, moisturizing the whole body, repairing and healing the wounds on the body, which made him gradually become less strenuous, and his physical energy was constantly recovering. People also become spiritual.

Wang Xuan, who was walking at the front, suddenly stopped and looked at a load-bearing column on his left, with a hint of ecstasy on his face.

"Look!" He reached out and pointed to the load-bearing column, which had the "G Zone" sign on it.

Zhang Haofei didn't respond yet, Zhao Lei and Gu Manyao couldn't help but screamed.
