

Last Building on Earth Chapter 196-200

Chapter 196:

The Elevator Falls

"What's going on?" This is the first time Xu Jian has encountered such a situation. As soon as he finished speaking, he saw that the button on the second floor that was on was suddenly turned off, followed by the violent vibration of the elevator and abruptly going down. fall.

Both were shocked.

Wang Xuan couldn't help but let out a foul language, "Damn it, is it because he casually pressed the button on the fourth floor and the elevator broke down?"

Immediately after that, there was a loud rumbling sound from the four walls of the elevator. Xu Jian suddenly understood, and exclaimed in horror, "There was an attack outside the elevator?"

There used to be ten glass columns that reached the sky and hundreds of elevators. Later, they were damaged. The glass columns that reached the sky were cut down and the passage to the top was cut off. The hundreds of elevators were also damaged, and many people in the small town could not get up to three level, and people from the third-level world can no longer enter these towns.

Now that the elevator suddenly vibrated violently, Xu Jian understood that it was the glass cylinder and the elevator that were attacked again.

"Isn't this a safe area? How come those rune stone carvings didn't work!" Xu Jian panicked and desperately pressed the button to open the door. Unfortunately, there was no response. Wang Xuan stretched out his metal tentacles and wanted to insert them into the crack of the elevator door. Open the elevator door.

Suddenly, there was a loud bang, and the elevator fell down again. The two felt a strong sense of weightlessness, as if they had suddenly fallen from a height of tens of meters. Some of their qi and blood were surging, and the bones of both legs were a little painful from the huge impact, but they couldn't hurt them.

The vibrations all around suddenly stopped, the door button Xu Jian pressed lit up with a circle of light, and the elevator door reopened.

He almost rushed out in a single stride.

Wang Xuan used the two split metal tentacles to protect him, and then rushed out of the elevator, but suddenly froze.

He saw a row of parked vehicles and load-bearing columns. This scene was very familiar. He could tell at a glance that it was a huge underground parking lot.

"What's the matter? Did the elevator drop directly into the parking lot on the third floor?" Wang Xuan's heart was shocked, and he was busy looking back, only to see that the elevator was closed, and he was busy pressing the open button again, but there was no response.

Xu Jian also looked around silently, then heaved a sigh of relief and muttered, "So that's the case..."

"Brother Jian, do you know what's going on?"

Xu Jian nodded and said: "This should be the underground parking lot of Jiangmao Mall. The No. 8 elevator was attacked in the third-floor world. When it malfunctioned, it fell directly from the third floor to the third underground floor. I remember No. 8. The place where the newcomers appear from the elevator is the parking lot of Jiangmao Mall."

Wang Xuan originally thought that this would be the parking lot of Longmao Plaza, but after hearing Xu Jian explain it clearly, although they are both parking lots, they are actually different. The one who entered the parking lot of Longmao Plaza and finally took the elevator to enter Bug Town was ten. Elevator No. 8, and the elevator he had just taken was No. 8. It fell down and came to the underground parking lot of Jiangmao Mall.

He is not very familiar with Jiangmao Mall, but the scale of this underground parking lot is not small, it should be a large shopping mall in a certain city.

"I just don't know how the third floor is now. If even those elevators are destroyed, it will be troublesome." Xu Jian murmured: "What kind of power is it that can pass through the power of the rune stone carvings? , attack the elevator."

"Let's go first, this elevator will definitely not be able to open again. We can only find a way out like those newcomers who enter here, and go up layer by layer." Xu Jian said as he stepped forward.

Knowing that this is the underground parking lot where newcomers enter, the two of them have nothing to be afraid of. The only thing they worry about is that the elevator on the third floor has just been attacked. I don't know what the situation is now, but I can't do anything no matter how anxious I am now. If it really can destroy the elevator Power, that's not something they can fight against.

Wang Xuan looked at the picture of a very cute cartoon pig drawn on the load-bearing columns facing him, and there were numbers below, representing the parking lot numbers in this area, and said: "The parking lot of Jiangmao Mall is quite creative. Yes, instead of using the letters of the old street like ABCD to divide the division, it uses the zodiac signs to divide the division."

Xu Jian sighed: "It is indeed a bit creative. There are three floors of parking lots, four areas on each floor, and the third floor is exactly the zodiac sign. Here is the zodiac pig, and it should be the zodiac dog ahead."

The speed of the two was not slow, and they both wanted to leave here early. Suddenly there was a sound from the front, but an off-road vehicle turned from the front and drove towards them.

"It seems that a newcomer has come in." Xu Jian slowed down and sighed softly.

Wang Xuan, however, was refreshed and said, "It's a good thing that there are new people coming in. It means that the world outside this building is still normal, at least there are people, otherwise there will be no new people."

Hearing this, Xu Jian nodded slightly and said, "It makes sense. There is one thing that I have never understood."

"What's up?"

"Think about it, there used to be one hundred elevators on the third floor, which could lead to one hundred towns, and under each town, there were ten areas where novices entered. A thousand novice areas."

"Even if these thousand novice areas are distributed all over the earth, the number of people who go missing every year when they enter these thousand novice areas is definitely not a small number. It is calculated based on the number of newcomers appearing in Bug Town, plus the number of newcomers in the novice area. For those who die, I estimate that each novice area needs at least tens of thousands of people to enter each year. We will use the minimum standard. One novice area disappears every year as 10,000 people. For this thousand novice areas, that is also 10 million. people."

"Don't you think it's strange that so many people go missing around the world every year without seeing the reports?"

Wang Xuan heard from Xu Jian that the elders had been trapped for many years and knew that this situation did not happen just now, but started very early. It is really strange to think about it carefully, including Longmao Square, which has been built for some years. Why have I never heard of such a large-scale disappearance of people?

"It's really hard to explain, I can barely explain it. It can only be said that this building has some kind of power beyond reality, which can directly erase the earth's human beings' memories or traces of life about these missing people, so even if there are more missing people. People, people outside won't notice..."

When Wang Xuan said this, his heart was suddenly shocked. If his guess is true, it does not mean that he is missing, and that his parents will be wiped out of all memories and traces about him, and he will completely forget himself?

Xu Jian murmured, "Was the memory of us erased? In the eyes of outsiders, we never existed..."

He seemed to have thought of something, and his mood suddenly became low.

The oncoming SUV stopped not far in front of them.

There were five people sitting in the car, all with big eyes and small eyes, looking at the two people in front of them with surprised expressions.

These five people, two men and three women, are all young people. The three women are dressed in fancy dress, and the two young men also wear earrings, which are airy.

"Is there any comic exhibition going on here, and I don't know what COS characters are these two? They just look a bit like cowards."

The young man driving the car had rings on his hands and a large gold chain around his neck, and he chuckled lowly. He saw Wang Xuan and Xu Jian, who were wearing full-body armor and helmets. Think they're cosplaying, COS what comic book characters.

Sitting in the co-pilot was a girl with dyed blue hair. Although she was dressed very revealingly and maturely, her actual age was not too old, definitely not more than 20 years old. She also laughed and said, "You take care of others, Hurry up and park the car, I'm going to drink and burn the fairy grass..."

As soon as I said this, I suddenly felt that there was a sound of winter on the roof of the carriage, as if something had fallen on it.

"Damn, what fell?" The young man wearing the big gold chain was so distressed that his face was crooked, and while scolding, he was busy parking the car and opening the door to get out.

Wang Xuan and Xu Jian slowly walked to the front of the car and stopped. They saw an ape-like monster covered with black scales suddenly appearing from above and falling onto the roof of the off-road vehicle.

However, it did not attack immediately, but lay on the roof of the car, looking at Wang Xuan and Xu Jian, with a pair of violent and ferocious eyes, showing uncertainty.

For ordinary humans, it represents ferocity, horror, and terror.

But in the eyes of Wang Xuan and Xu Jian, this kind of monster is too weak to be attacked.

As super-states, although their power is severely suppressed here, let alone the perfect state, it is difficult to exert their full-body strength, but for such a primary black-scaled monster, they are still powerful and terrifying. There is a faint aura that exudes, making it a little hesitant.

The scaly monster was frightened by the breath of Wang Xuan and Xu Jian, and fell to the roof of the car, lying there, not daring to move for a while, while the young man with the big golden chain scolded and got out of the car, and looked up at the roof.

Seeing this, his hair stood up all over his body, and he couldn't help shouting, "Mummy!" The first reaction was to get back into the car and slammed the door tightly again.

The other four were sitting in the car, and seeing his reaction, they were amused and surprised.

"What are you doing, it's like seeing a ghost!" the blue-haired girl in the co-pilot yelled.

"Ghost... It's a **** ghost..." The young man with a big golden chain said that when he saw Wang Xuan and Xu Jian standing in front of the car, he suddenly reacted.

Then the half-human, half-ape-like monster lying on the car just now is not played by human COS like them, right? Did you intentionally scare yourself?

That's right, if it was a monster, it would have attacked him long ago, and when these two people stood in front of the car, they must have seen the monster lying on the car, but they were not afraid at all. It was obvious that these three people were accomplices.

Thinking of this, I suddenly became angry, thinking that I was almost scared to the point of **** just now, and immediately shouted: "Get out of the car, damn!"

2k novel

Immediately opened the door and got out of the car again.

The other four people were all confused and didn't know what was going on, but after listening to his words, they opened the doors and got out of the car one after another.

Wang Xuan and Xu Jian stood in front of the car and watched all this. Wang Xuan looked at the monster covered in scales, but felt a little nostalgia.

When I was trapped in the underground parking lot of Longmao Plaza, the first monster I encountered was this scaly monster. Unexpectedly, I saw it again now, thinking of my fear at that time, and thinking of myself now I can squeeze it with one hand. When he died, there was a sense of emotion in his heart. If he hadn't experienced all this in person, no matter who said he would never believe it, in this world, there are still so many strange beings, and there are so many supernatural things.

The shadows flashed from the rear again, and another scale monster appeared and jumped behind the car.

"Brother Jian, shall we take action?"

Wang Xuan could see that the scale monster that jumped out from behind was about to attack. A man and two women sitting in the back row had just gotten out of the car, but he hadn't noticed the scale monster that suddenly appeared behind.

This scaly monster had just appeared. He didn't notice Wang Xuan and Xu Jian. When he saw a human being in front of him, his first reaction was to jump up and slam the back of a girl wearing a tight skirt behind her.

Wang Xuan shot while talking. He just casually asked Xu Jian what he meant. Seeing that a newcomer was suddenly attacked by a monster, whether he knew it or not, he still did not hesitate to help him.

No matter how much life and death he has experienced, how many monsters and enemies he has killed, and how much blood he has on his hands, deep in his heart, there is still an instinctive kindness. Come to the rescue.

He understands that if he doesn't take action, this girl will definitely die.

A metal tentacle suddenly burst out, stretched straight, traversed a distance of several meters, snorted, bypassed the girl in the short skirt, pierced the belly of this scaly monster, and hit it so hard that it fell to the ground.

Wang Xuan shot too fast, these five are just ordinary people, and they couldn't understand what happened. Wang Xuan suddenly shortened the distance between the two sides and came to them.

He didn't kill the scale monster, just nailed it to the ground, making it powerless to resist.

"If you want to survive, kill it." Wang Xuan looked at the short skirt girl he had just rescued.

At this moment, the scaly monster lying on the roof of the car finally jumped up, but it did not attack everyone, but wanted to escape.

It was frightened by Wang Xuan and Xu Jian.

Xu Jian waved his right hand, but he didn't see any movement. The scaly monster that jumped into the air suddenly tightened its neck and was grabbed with one hand. He threw it to the ground, and stepped on one foot, saying: "It's cheap for you, killing it will increase your chances of surviving here."

The young man wearing the big golden chain was originally annoyed and angry, thinking that Wang Xuan and the others were deliberately playing tricks on him, but he never imagined that what happened suddenly in front of him was completely beyond his imagination. But bend.

Wang Xuan looked at the two men and three women with stunned expressions, including the girl in short skirt that he had rescued. The monster was so frightened that its upper and lower teeth collided, making a loud noise.

Wang Xuan frowned, the mental quality of these five people was too poor, which made him disappointed, and he was too lazy to say anything, and immediately put away the metal tentacles, saying: "If you want to survive, you have to rely on yourself, you can only kill this monster. It is possible to live, if you are blindly afraid, you will not live long here, Brother Jian, let's go."

After speaking, he walked forward and ignored the five people.

Xu Jian smiled, looked at the five newcomers, and said, "Welcome to this **** on earth, from now on, if you want to survive, kill these monsters as much as possible. If you can live forever, maybe In the future, you can go up to the third floor and meet us."

After he finished speaking, he stepped on it, stomped off a row of bones in the body of the scaled monster he was stepping on, severely injured it, and then followed Wang Xuan away.

He believed that these five people should still kill the two severely wounded scale monsters after the initial panic. There are two people in the team who have absorbed the white scales, their strength has increased, and they have the possibility of survival. will be much bigger.

After watching the two leave, these five people came back to their senses, but they didn't kill the two monsters that were badly injured by them, as Xu Jian imagined, but turned around and went into the car. Their first reaction was to flee here by car and call the police for help.

"Quick, quick, get in the car! Hurry up and call the police!"

The young man with the big golden chain got into the car in a panic, started the car, and screamed in a low voice, his face full of fear.

Wang Xuan and Xu Jian, who were in the distance, both stopped, watching this scene, they looked at each other, and they were speechless.

This was indeed somewhat unexpected.

"I didn't expect that we severely injured those two monsters and were powerless to resist. Let them kill them. They all missed it." Xu Jian shook his head and said, "It seems that this is really fate."

Wang Xuan also understood that these five people drove away from here, and if they missed such an opportunity, it would be difficult to survive.

The five people got into the car, and the off-road vehicle immediately increased its horsepower and rushed out along the front.

The two battered scale monsters lay there, motionless.

"Let's go, I hope other newcomers will come. These two severely wounded monsters may be able to complete other newcomers."

As Wang Xuan spoke, he sped up his speed and headed forward. Suddenly, in front of them, between the cars parked on both sides, jumped out one after another of scale monsters, and the head of the scale monster looked particularly sturdy. , Under the neck, there are two white scales, which means that it is the leader of this group of scale monsters.

They suddenly appeared and surrounded them, and only then did they feel that the two humans in front of them seemed very unusual, and they felt a huge pressure.

Unfortunately, it is too late to retreat now. Wang Xuan saw the scale monster with two white scales. He stretched out his right hand, and a metal tentacle instantly soared to seven meters. This is his metal tentacle. It shattered the monster's head.

Xu Jian followed suit, but instead of killing the scaled monsters that appeared around him, he broke their limbs and bones one by one, inflicting heavy damage.

He hopes to leave some hope here. If a new person comes in, he can directly kill these severely wounded scale monsters and start his own growth path.

"If the previous rules haven't changed, kill the leader of this scale monster and you should be able to go to the next area."

Chapter 197

Helping Others

Wang Xuan continued to walk forward as he spoke, and Xu Jian followed behind. Although they were super strong, they had entered this novice area. In this chaotic world, they also had to abide by the rules here. Just leave.

"really....."

Wang Xuan saw the image of a cartoon dog appearing on a load-bearing column in front of him, and immediately understood that they had left the area of the zodiac pig and now entered another parking area marked by the dog in the zodiac.

"The four parking areas on the third underground floor should be pigs, dogs, chickens and monkeys..."

When Xu Jian said this, he saw two scaly monster corpses and three human corpses appeared not far ahead.

Wang Xuan stepped up, there was a large pool of blood on the ground, two scale monsters, one had his neck broken, the other had his head smashed with blood, and even the eyeballs burst out.

Look at the three dead humans, two males and one female, their bodies twisted irregularly and died horribly.

However, Wang Xuan and Xu Jian were used to seeing too many **** scenes like this, and now they didn't feel any discomfort when they saw these corpses.

"It should be a newcomer who just came in. Yes, it's not easy to kill two monsters." Xu Jian nodded slightly, looking at the **** footprints on the ground, he understood that it should be a few humans who were attacked by two scale monsters and died. Three people were killed, and the remaining people killed two scale monsters, and the living people have left.

Wang Xuan opened the Xumi belt on the left and took out a piece of parchment.

The task of this parchment is called "helping others with pleasure". The content of the task is very simple, that is, to help ordinary people obtain hatching beasts and grow. The more people you help, the higher the growth rate and the greater the reward. Less than ten people get hatched beasts, grow to sub-body, and can reward a bronze treasure chest.

This task is not difficult for him now, but the difficulty is that it takes a lot of time.

After looking at it, he still shook his head and put it away, ready to go with the flow and not force it, he didn't want to waste too much time here.

The two of them were fast, bypassing the corpse on the ground in front of them and moving forward quickly. Wang Xuan saw the number of parking spaces around him and understood that although they were not newcomers, they also needed to abide by the rules here.

At their speed, they were running wildly just now, and they should have left the parking lot long ago, but on the load-bearing column that they saw now, it still belongs to the parking area of the zodiac dog.

"Brother Jian, is there any way to get out of here quickly?" Wang Xuan understood that he couldn't leave in this way. They needed to find the monster leader in this area and kill him before they could open the passage to the next area.

Xu Jian stopped and said: "There is no good way, monsters in this kind of place are not terrible, but the trouble is that we are trapped here and can't get out, we mainly have fewer people, if there are more people, monsters and monster leaders The higher the probability of appearance, we want to leave, it is best to find more new people to attract monsters, but it is not so easy to find new people, it still depends on luck."

Wang Xuan's heart moved, looking for more new people? He had a way, and immediately opened the eye of fear on his forehead.

As the crystal eyes popped out of his forehead, he immediately began to sense fear energy from all directions.

Newcomers entering here are bound to be full of fear. Just by capturing the source of fear, newcomers will surely be discovered.

Now his Eye of Fear has grown from the original first-level form to the second-layer form. As soon as he opened it, he immediately felt a faint fear energy coming from afar. Maybe it was because he was far away, so this fear The energy is very thin, and it is almost difficult to sense it if the Eye of Fear is not opened.

Xu Jian saw his third eye open on his forehead. Although he didn't know it was the Eye of Fear, he understood that it should be some kind of special ability, so he watched quietly.

"Go, go this way." Wang Xuan caught this trace of fearful energy and immediately ran over there.

Xu Jian believed that he must have discovered something, and immediately followed.

The two dashed down the middle lane, faster than the usual vehicles running here.

Wang Xuan felt that the breath of fear was getting stronger and stronger, and soon saw a moving car in front of them.

The glass of the car was broken, and it seemed to have been attacked. At this moment, the speed was not fast, and they were driving forward. They were faster than the car and were constantly approaching.

Restraining the eye of fear that appeared on his forehead, Wang Xuan slowed down and kept a distance of 20 to 30 meters from the moving car. He was afraid that if he got closer to Xu Jian, he would frighten the monsters and prevent them from appearing.

He and Xu Jian followed unhurriedly. There were four people sitting in the car. The two men in the back row were full of fear and were looking around nervously from time to time when they suddenly turned their heads and found that there were two men behind them wearing clothes. The people in full armor were surprised that they could keep up with the speed of their cars.

"Ning, look, there are two people behind!" Among the two men in the back row, one of them was in his twenties and a man with a large black mole on his left eyebrow cried out.

The driver was a man about his age. He was not ugly. It was Aning in his mouth. Hearing this, he immediately saw Wang Xuan and Xu Jian following the car from the rearview mirror.

His eyes narrowed slightly, and his forehead was covered in dense fine sweat.

Just now, they encountered a monster covered with scales. The monster got into the car and was killed by him. After that, the four of them drove all the way to escape. They wanted to leave here. , At this time, he suddenly saw two people in armor behind the car, his first reaction was not excitement, but fear.

Two mysterious armored men suddenly appeared in this parking lot with monsters, how strange it looks? Are these two also monsters?

At this moment, the roof of the car suddenly squeaked and something fell. His heart shuddered, and he stepped on the accelerator, trying to throw the thing off the roof of the car. The black shadow jumped up in the air, and the car moved forward, just hitting the windshield in front.

With the harsh sound, the windshield shattered and collapsed inward, and a girl sitting in the co-pilot couldn't help but let out a low voice.

This Aning is still calm, holding the steering wheel tightly with both hands, growling in his mouth, almost stepping on the accelerator to the bottom, he didn't want to hear a bang at this moment, unexpectedly, an off-road vehicle suddenly rushed out in front of them. The car hit directly.

The off-road vehicle that rushed out sideways was hit and rolled out, and the rear of their car was raised high under the huge impact.

The four people in the car let out a loud exclamation and collided into a ball. There were screams and broken bones, and blood spurted out.

The impact this time was severe. The car turned over vertically, and then fell heavily on the ground. The surrounding glass was all shattered, and the two scaly monsters that hit the windshield were also thrown out.

Wang Xuan and Xu Jian approached at a faster pace.

The scaly monster that jumped to the roof just fell down in front of them.

The scaly monster struggled up, and seeing two people suddenly appeared in front of him, his first reaction was to pounce and attack them.

"I don't know whether to live or die!" Xu Jian smiled in the sun, but he didn't even bother to do anything. As soon as he stepped out, he stepped on the monster's chest with a click. The sound of broken bones sounded inside, and the chest collapsed when he stepped on it. Just add a little more force, The monster's chest had to burst open.

Wang Xuan walked to the side of the overturned car, stretched out his right hand, a metal tentacle stretched out, followed by dividing into two, and then he activated the sixth ability to enter super state comprehension, "second split".

With the launch of the second split, the two metal tentacles that were divided into two split again and became four metal tentacles.

Every time it splits, the metal tentacles will become slightly thinner. With his right hand, he controls four metal tentacles that are seven meters long. Wang Xuan sees it, and his mind is like an octopus in the depths of the ocean. Become a tentacle monster.

Four metal tentacles entangled the four wheels of the upside-down car one after another, and with force, they lifted it up easily, then turned it over and placed it on the ground.

The car, plus the four people inside, weighed more than a ton, but in Wang Xuan's hands, it turned over and straightened like a big toy car.

The vehicle was straightened, and Wang Xuan saw that the two scaled monsters that had just been thrown out were climbing up. Two of the metal tentacles shot out lightning, instantly piercing them and nailing them to the ground, unable to move, and the other two metal tentacles were twisted and deformed. door, pull it off.

There was a young man sitting in the driver's seat with blood all over his face. Among the four, he was the only one who was still awake. At this moment, he raised his head and looked at Wang Xuan, his face full of fear and some surprise.

At close range, he could see that Wang Xuan was a human, but what kind of human would grow such a metal tentacle on his right hand? And has such a terrifying ability? The twisted and stuck car door was easily torn off.

He was the only one who got a white scale among the four people in the car. He had a strong fighting ability. Although he suffered a serious impact, fortunately, the recovery ability of the white scale was working, and it would take a while to fully heal.

The other three are not as lucky as him. They are just ordinary people. They were seriously injured by the impact, and their heads were bleeding. Especially the girl sitting on the co-pilot was the most seriously injured. Wang Xuan saw her belly bleeding heavily. Her face was pale, her lips trembled slightly, and she seemed to want to say something. Every time she breathed, a large amount of blood poured out. Depending on her situation, as long as she delayed for a while, she might die at any time.

Although the two men sitting in the back row were not lightly injured, one of the men had a broken arm and was screaming and moaning, but it was less injured than the girl.

Wang Xuan saw that these four people were dressed in normal clothes, and they should all be serious ordinary people. Unlike the five people he met before, their hair was dyed colorful and airy. He didn't like it. The first impression is much better.

Seeing that the girl was in danger, she didn't think much about it. One of the metal tentacles immediately reached in. Regardless of whether the girl was frightened or not, she wrapped her around her waist and moved out of the car.

"If you want to survive, kill a monster yourself, and you can get white scales by killing them." Wang Xuan glanced at the young man in the driver's seat and said, "You should know."

He saw that the young man's injury healed faster, because he had already obtained white scales.

When the young man saw Wang Xuan's actions, he immediately understood that he should have come to save the four of them.

Although what happened today has completely exceeded his previous cognition, he usually likes to read some similar novels, and he often fantasizes about himself becoming the protagonist in the novel countless times, so his ability to accept all the things in front of him and The ability to understand is far more than the few companions around.

This made him calm down quickly, and he immediately shouted anxiously: "Zuo Hui, what he said is true, kill that monster quickly and you can live!"

He also saw that the female companion beside him was seriously injured, and if he didn't get the white scales, he would probably die.

Wang Xuan opened the Xumi mustard seed space, and there were still a lot of weapons stored in it, including military thorns, dozens of muskets, and stainless steel knives, all of which were left over from the past, and he never cleaned them up. Now it comes in handy.

He took out a musket from it, loaded the musket, and threw it to the girl named Zuo Hui.

"Aim at the monster's head and pull the trigger."

Although Zuo Hui was seriously injured, she was still awake. What happened in front of her was like a dream, and her strong desire to survive made her take the musket that Wang Xuan handed over. Wang Xuan saw that her hands were shaking so badly that she couldn't be sure of the target. , then used metal tentacles to help her straighten the position of the gun muzzle.

"quick!"

With his low voice, Zuo Hui pulled the trigger, and with a loud bang, knocked off the head of the scaled monster that was pinned to the ground and unable to move.

This musket comes from the musket goblin on the first floor, and it is extremely powerful.

Musket Diqing is a monster with a two-star danger level, and its strength is much stronger than this scale monster without a star.

As the head of the scale monster was blasted off, a white scale appeared, which immediately disappeared into Zuo Hui's right hand and disappeared.

Knowing that she was not dead, Wang Xuan released her easily, thinking that he helped an ordinary person get white scales. If he wanted to complete the task of helping others, he needed nine more.

Looking at the two men in the back row, they had already crawled out by themselves, and there happened to be two living scale monsters, one for each of them, and two muskets were thrown at them.

"There are also two scale monsters. If you kill one each, you can survive."

That Aning also staggered out of the car. The white scales he possessed were playing a huge role, and the injury was slowly recovering.

Xu Jian checked the off-road vehicle that was knocked over. There was only the driver in the car, his body was twisted and deformed due to the huge impact, his face was covered in blood, and he was already dead.

With Zuo Hui's demonstration, the two men who were originally sitting in the back row knocked off the heads of two scale monsters with muskets, and both successfully obtained a white scale.

The scales entered the right hand, and they immediately felt the magic of the scales. Not only would the power they possess increase, but the most important thing was that the injuries they received would heal at an astonishing speed.

"Three, not bad..." Although Wang Xuan didn't want to deliberately complete the task of "helping others", Xu Jian was right. The more newcomers there are, the higher the probability of attracting monster leaders. He needs to use these people to lead them out. Monster leader, if you want to leave here, then you can complete this task by the way.

"What are you guys called?" Wang Xuan also took out a musket and threw it to this young man named Aning. This musket is an artifact for the newcomers. It is absolutely necessary to deal with this kind of monster without a star. It was one shot, which made him sigh in his heart. If the five of them could meet an old man like him to lead them that day, Wang Qin and Zhang Qianwen would not have died, and they would not have worked so hard.

"But there are advantages and disadvantages. If someone brings it, I'm afraid that I may not have such strength today." Wang Xuan thought to himself, at least the blue crystal scales will definitely not be obtained by himself, even if they encounter them, they will be led. taken away.

"My name is Fang Ning, this is Zuo Hui, this is Xin Benjun, this is He Long." Fang Ning was busy introducing their names to Wang Xuan and Xu Jian.

Wang Xuan snorted, and said the names of himself and Xu Jian, and said, "With these four muskets, ordinary monsters don't have to be afraid. Every time you kill a monster, you can get a white scale. Collect all nine. There is hope to hatch a hatching beast."

"The so-called hatching beast, you can understand it as a fighting machine with life." Wang Xuan stretched out a metal tentacle as he said, "It's like this."

"Fairy Wood"

"Trapped here, you can't get out for the time being. The only thing you can do is to keep getting stronger and finally get the certificate of king."

Wang Xuan could not bear to let them despair, but gave them a glimmer of hope.

Zuo Hui hesitated for a while, and then said timidly: "Can I... ask? Are the two... are also trapped here?"

Wang Xuan nodded towards her and said, "Yes, we are trapped here just like you, but a little longer than when you came."

Hearing Wang Xuan say this, Zuo Hui let out a soft sigh.

No matter how unbelievable Wang Xuan said~www.mtlnovel.com~, all the supernatural phenomena she saw now made her have to believe that it was all true.

"Let's go, we will scare away those monsters with you, you go first, we are behind, we will take action if there is danger, you just go forward boldly, your main task now is to lead the monster leader, as long as you kill the leader, you can Leave this area." Xu Jian didn't speak for a while, but now he spoke.

Fang Ning and Zuo Hui were all slowly recovering from the injuries they had just received. They loaded their guns with muskets in their hands. After hearing Xu Jian's words, they didn't dare to disobey them, so they started to walk forward cautiously, from time to time. Watch back and forth for fear of being attacked.

Wang Xuan and Xu Jian did not keep up, but watched from a distance.

"Hopefully they'll make a difference."

As soon as Xu Jian finished saying this, he saw a black figure suddenly fall from the load-bearing column above, volleying at the four of them.

Although Xin Benjun already had a white scale, he was caught off guard with a musket in his hand, but was still attacked by the scale monster and immediately rolled to the ground.

He exclaimed, that Fang Ning responded calmly, raised the musket in his hand, and immediately shot.

"Boom", a huge blood hole was blasted out of the back of this scale monster, and blood was mixed with flesh and blood.

Between the vehicles parked on both sides, one after another scaly monsters jumped out, adding the previous one, and five appeared in the blink of an eye.

In addition to Fang Ning, what surprised Wang Xuan was the performance of the girl named Zuo Hui. Although she was shocked, her reaction was not slow. She immediately raised her musket and shot a scaly monster that was about to pounce in front of her. .

Chapter 198

With a flash of fire from the muzzle, the head of the scale monster was blasted off, and a white scale appeared, submerging into her right hand.

Xu Jian nodded slightly and said, "This Fang Ning and Zuo Hui are not bad, they are a bit of talent and worth training."

The five scaled monsters that were thrown out were quickly eliminated by them. This musket was simply a big killer. Basically, one shot can solve one.

Fang Ning and Zuo Hui each dealt with two, He Long killed one, only Xin Benjun was thrown to the ground at the beginning, injured, the musket was suppressed by the scale monster, and failed to kill the monster.

The four of them killed five scale monsters, and gained a little experience, especially Fang Ning and Zuo Hui, who each had three white scales, felt the strength in their bodies had improved, and their courage became much stronger. Much calmer.

They were preparing to rest on the spot, allowing the injured Xin Benjun to recover from his injuries. They didn't want to see a sudden flash of black shadows around them, and scaly monsters appeared again one after another. The two white scales are the leaders of this group of monsters.

"Finally out." Xu Jian showed a smile on the corner of his mouth.

Suddenly surrounded by so many monsters, the four of them were all shocked. Fang Ning and Zuo Hui immediately shot, and the fire flashed, they knocked down two scale monsters, but the remaining seven or eight scale monsters were already surrounded, especially It was the monster leader who jumped up and rushed towards Xin Benjun who just got up.

Without Wang Xuan and Xu Jian, Xin Benjun would be dead. With his current reaction ability, he could not avoid the attack of this leader monster.

Wang Xuan swept his body and rushed out ten meters in an instant. He stretched out his right hand, and the seven-meter-long metal tentacles were like a super-long javelin. The leader's chest was pierced, and then it was wrapped around its back and wrapped around its neck. Wang Xuan pulled it at random, and the leader monster flew into the sky and hit the ground hard. There was a sound of bones breaking in the body. was hit hard.

Wang Xuan retracted the metal tentacles and let them kill the battered leader monster.

That Fang Ning was very clever, he turned around immediately, raised the musket in his hand, pressed it against the head of the fallen leader monster, and shot it down.

The blood mixed with the brain spattered, and there was a trace of excitement on his face.

He quickly overcame his initial fear, and now watching the flesh and blood fly, he found a kind of pleasure in hunting monsters.

After killing the leader monster, they got two white scales at one time. Wang Xuan and Xu Jian didn't take any more shots, watching the four of them resist these swarming scale monsters, relying on the powerful muskets in their hands to successfully destroy these scales. Monsters are killed.

According to this speed, it won't take long for them to successfully hatch hatching beasts.

Seeing that they had killed all the scale monsters, Wang Xuan and Xu Jian walked up slowly.

"How is it, can we continue?" Xu Jian asked.

Fang Ning nodded, Zuo Hui hesitated before saying, "I'm just a little thirsty..."

They have been trapped here for some time, and they have been fighting for a while, and the wear and tear has been serious, and they all feel hungry.

Wang Xuan opened the Xumi mustard seed space, took out four bottles of primary nutrient solution, handed them to them, and said, "Drink one bottle per person, so that you won't be hungry all day."

After taking out four bottles, he still had 51 bottles of primary nutrient solution in the Xumi mustard seed space. By the way, he took out two bottles of advanced nutrient solution, kept one bottle for himself, and handed the other bottle to Xu Jian.

Xu Jian himself was not short of advanced nutrient solution. Seeing him hand it over, he was stunned for a moment, then took it with a smile.

Fang Ning knew that since Wang Xuan and the two were willing to save the four of them, they would naturally not harm them, so without the slightest doubt, he took the primary nutrient solution and drank it.

Seeing that Fang Ning drank, Zuo Hui and He Long also drank, but Xin Benjun hesitated for a while, seeing that all three of them drank, and there was no bad reaction, so he drank it.

Wang Xuan looked in his eyes, smiled secretly, and saw that among the four, Xin Benjun had the most careful eyes.

He and Xu Jian also drank a bottle of high-grade nutrient solution each. Fang Ning and the four of them drank the nutrient solution and immediately felt all thirsty and thirsty.

"Wang... Brother Wang, what is this? Where can I get it?" Fang Ning asked cautiously.

"This is called nutrient solution. It is unique in this building. You can buy crystal scales. As for crystal scales, you can hunt these monsters to get them. You will understand soon."

Wang Xuan explained: "Let's go, get out of here early."

After the four of them drank the nutrient solution, they all felt much refreshed. The four were still in the front, while Wang Xuan and Xu Jian fell behind.

This time, Fang Ning and Zuo Hui only walked 20 to 30 meters before they were attacked again.

And the monster that attacked them was no longer a scale monster, but a small dwarf monster with green skin.

They were much faster than the scale monsters, and suddenly rushed out from between the parked vehicles on either side, with a hoarse screeching from their mouths.

Fang Ning and Zuo Hui's expressions changed. They raised the muskets in their hands and were busy firing them. With a bang, they all failed. These green-skinned dwarf monsters could dodge the attacks of their muskets.

Wang Xuan and Xu Jian, who had fallen behind, changed their expressions slightly when they saw this green-skinned dwarf monster, and immediately rushed towards it.

This green-skinned dwarf monster is very similar to the goblins you only encounter on the first floor, but they are shorter than ordinary goblins, only about one meter tall.

Wang Xuan opened the eyes of the illustrated book and immediately captured their information.

"Name: Juvenile Goblin, Race: Goblin Clan, Dangerousness: ★ (one star), they are the juvenile state of ordinary goblins, they are ordinary goblins when they grow up, although they are not yet adults, they are powerful Not weak, able to fight against the embryonic hatching beast."

Wang Xuan did not expect that the four of them would encounter such a juvenile goblin with a one-star level of danger. We must know that the strength of this juvenile goblin is already comparable to that of a hatchling beast. Fang Ning and Zuo Hui, among them The most powerful Fang Ning got only eight white scales, and even the minimum nine white scales had not been collected, let alone hatched the hatching beast.

"The only explanation for this happening is that Xu Jian and I interfered with their growth, so the monsters in the parking lot are also making corresponding adjustments. They have the muskets of the musket goblins, which are considered a killer. So it made it more difficult."

Wang Xuan's thoughts turned and thought of this possibility, but the speed of the baby goblins was too fast, Fang Ning and Zuo Hui couldn't keep up with their speed. .

A juvenile goblin slammed into the air, Zuo Hui exclaimed that she was hit, and screamed and fell back.

A metal tentacle appeared, entangled her from behind, and held her firmly to the ground. The other three metal tentacles extended out together with a crisp sound. The three seven-meter-long metal tentacles were left and right. The juvenile goblin that followed was knocked away and thrown out.

Xu Jian didn't even need to take a shot. Wang Xuan now controlled four metal tentacles. After a small test, he easily eliminated the group of juvenile goblins that rushed out.

After that, Fang Ning and the others only needed to attack with muskets one by one and knock out their heads.

The strength of the monsters that appeared had increased, but it was a good thing for Wang Xuan.

The stronger the monster, the more powerful the energy contained in the white scales in its body. The four Fang Ning and the four obtained these white scales, the easier it was to evolve.

This kind of juvenile goblin, one can be worth the hatching beast, the energy contained in their white scales is so powerful for Fang Ning and the four, Fang Ning obtained three white scales in a row, Immediately, there was a slight growl from his throat, and the muscles all over his body tensed.

Wang Xuan understood at a glance that he had successfully hatched a hatching beast.

Although Zuo Hui and He Long have not hatched, the energy needed to absorb the white scales of this juvenile goblin must be enough, and they should be able to hatch successfully at any time.

"Look, we've arrived at the parking area for the zodiac chicken." Xu Jian stretched out his hand, and Wang Xuan saw a cartoon chicken painted on a load-bearing column not far from him.

Wang Xuan snorted, watching Fang Ning's right hand stretched out, with metal material extending from the palm of his hand, quickly forming black scales. These black scales covered each other and protected his right hand. Five fingernails extended forward. Only the right hand became a claw covered with black scales.

Zuo Hui, He Long, and Xin Benjun looked at the mutation of Fang Ning's right hand, all with expressions of surprise.

Although they were accustomed to the strength of Wang Xuan and Xu Jian, after all, they were too unfamiliar to them. They were like the legendary high-ranking people, but Fang Ning was someone they knew well. Seeing his right hand mutated, this kind of It feels completely different.

"Fang Ning, what is the name of your hatching beast, and what abilities does it have?" Wang Xuan smiled.

Fang Ning looked excited and said, "Brother Wang, it's called a mountain ghost, and its right hand can mutate into a mountain ghost's claw."

While talking, he tried to stretch out the claws of the mountain ghost, and grabbed the corpse of a juvenile goblin in front of him.

The five ghost claws were very sharp, and they easily cut into the skin of this juvenile goblin, and when they slid down, they grabbed a piece of **** flesh.

"It's amazing..." He Long looked envious, then excitedly said, "I don't know what my hatching beast is."

Wang Xuandao: "Fang Ning has successfully hatched a mountain ghost, you have to work hard."

Of the four, he had the best look at Fang Ning, but unfortunately Fang Ning was not included in his mission, only Zuo Hui was the three.

"Let's go." Xu Jian said and started to walk forward.

Fang Ning hurriedly led Zuo Hui and the three to speed up and overtake them. He remembered that Wang Xuan and Xu Jian had said that the four of them needed to lead out the monsters in front, and the two of them needed to hide behind to avoid scaring the monsters.

Soon Wang Xuan sensed a strong aura of fear coming from the front, followed by the sound of fighting.

"There is someone ahead." Wang Xuan immediately accelerated forward, surpassing Fang Ning and the other four. Fang Ning's hearing was not as good as theirs. They hadn't heard any movement yet. They just saw Wang Xuan suddenly speeding forward, and they were a little unclear.

Wang Xuan and Xu Jian speeded forward. Although they didn't know what was going on, they also ran after them.

Soon they also heard the movement and saw a large number of tree roots appearing ahead.

The roots of these trees range from thick to thin, some as thin as a child's arm, or as thick as an adult's waistline.

Some of these roots emerged from the ground, some extended from above, and some passed through the huge load-bearing column and emerged from it.

Some tree roots covered a large number of vehicles parked around, and even penetrated through the window glass and got into the car.

Fang Ning and the four were stunned, their instincts stopped, and their eyes widened, seeing so many tree roots in front of them, they couldn't believe their eyes.

What kind of tree has so many roots and can penetrate these reinforced concrete walls and load-bearing walls?

"How is that possible?" Xin Benjun rubbed his eyes and murmured.

Seeing these tree roots, Wang Xuan's expression changed slightly.

Among the countless tree roots in front of them, a group of people gathered together. Around them, two scaly monsters were frantically attacking and biting. These people were also very tenacious. , grabbed the limbs of these two scale monsters, and fought with them desperately.

There were ten people in this group, but two fell to the ground and were already dead. The remaining eight people tried their best to pull the two scale monsters. A scream rang out, and another person was bitten by the scale monster and tore his throat open. Come.

The man whose throat was bitten roared and fell back, clutching his neck and falling to the sky.

Wang Xuan couldn't think about these tree roots that suddenly appeared. Finally, he saw a group of newcomers who didn't get white scales. This was exactly what he needed. He immediately accelerated and rushed up.

With a wave of his right hand, two metal tentacles burst forth, instantly piercing the bodies of these two scale monsters, and then smashing them to the ground, smashing them to the point of spurting blood, hitting the ground heavily, and losing the ability to resist.

He swayed and drew closer, and the speed was so fast that these people screamed and instinctively retreated, but Wang Xuan ignored them. Mikako took out a musket in the space, loaded it, then held the man's right hand, pulled the trigger with his fingers, and blasted at a scale monster that was hit by him on the ground.

I don't know if I can survive Wang Xuan, but since I have a chance, I have to give it a try.

Xu Jian watched from the side, his eyes lighted slightly, and he nodded slightly.

Before in Worm Town, watching Wang Xuan kill the three envoys from Rakshasa City in a row, it can be said that the means are ruthless. All are heartbroken.

At the moment of real contact, Wang Xuan's image has changed a bit in Xu Jian's mind.

With a flash of the musket, the head of the scaled monster was blasted off. Wang Xuan saw a white scale appear in the monster's body, and it fell into the right hand of the man whose throat was torn open. A white light appeared, and the wound began to heal at a speed visible to the naked eye.

Wang Xuan let out a sigh of relief and let go of his hand, realizing that this man's fate was picked up.

In the rear, Fang Ning, Zuo Hui, and He Long also ran all the way, they ran with all their strength, panting.

The seven people standing here are all older, four men and three women, basically in their 40s and 50s. At this moment, they are all looking at Wang Xuan, Xu Jian, and again with fear, confusion, and confusion on their faces. The four Fang Ning who had just rushed over, especially the muskets they were holding, made them feel extremely frightened.

Fang Ning could understand their feelings, immediately lowered the musket in his hand, and said loudly: "My name is Fang Ning, don't be afraid, just like you, I just arrived in this parking lot, and now I'm stuck

here and can't get out for the time being. , there are these scaly ape-like beasts in this parking lot, they will attack us, if we want to survive, we must kill them, and then find an exit to get out of here!"

Following Fang Ning's words, the fears of these seven people were obviously better.

Wang Xuan glanced at Fang Ning. He didn't expect that this kid has good organizational skills and is very particular about his language. For example, he said that he had just come here like them. He called these scale monsters into beasts, in order to weaken their influence on everyone. The sense of fear that comes, and then it is to find an outlet to bring hope to everyone.

Seemingly simple words, the effect of the words brought to everyone a completely different feeling.

Sure enough, after Fang Ning finished speaking, the seven people immediately started chatting.

"How can there be beasts in this parking lot?" "How can you have guns?" "What kind of weapon was that metal whip just now?"

Wang Xuan saw that they mistook his metal tentacles for a whip-like weapon, and he was dumbfounded. He glanced at Fang Ning and asked him to explain.

Fang Ning saw Wang Xuan looking at him, understood what he meant, coughed lightly, took a step, pointed to the injured man on the ground and said, "This is your companion, look at his injured neck. "

It was only then that everyone noticed that the wound on the neck of the man whose throat had just been torn open had healed for the most part, and the speed of this healing was visible to the naked eye.

"Chen Dong, what's the matter with you?" Everyone was shocked~www.mtlnovel.com~ The injured Chen Dong touched his neck and muttered: "Kill this beast and there will be a white scale, it's the white scale. The scales are healing my wounds."

His appearance is more effective than any language. Fang Ning listened to him before he said, "Everyone has seen it, killing this beast will give you a white scale, and this white scale can heal wounds. , no matter how serious an injury is, it can heal easily."

Before he could fully say what he said, someone ran towards the other scale monster that was hit by Wang Xuan and fell to the ground, trying to kill it and **** the white scales.

A smile appeared on Wang Xuan's face. This Fang Ning had a lot of skills. Rather than explaining too much, these people were only half-believing, and the living example in front of him was more useful than anything else.

In particular, these people are older, and they are not as easy to accept new things as young people. Even if they patiently explain too many so-called so-called hatching beasts, growth, evolution, etc., it is not as convincing as such an example.

Several people rushed up to kill the last scaled monster that fell to the ground. Wang Xuan took out the muskets from Xumi's belt one after another and threw them at them one by one.

"Every time you use it, you need to load it. This gun is very powerful. Be careful when using it, and don't accidentally hurt your companions."

Wang Xuan explained as he tossed it, he was in a good mood, these eight people plus Zuo Hui three people, that is eleven people, more than the minimum ten people needed to help others, if they can grow to sub-body, their own task Even if it is completed, you can get a bronze treasure chest as a reward.

Wang Xuan took out the musket and handed it to these people, while Xu Jian stared at a huge tree that appeared at the end of a large number of tree roots not far away, with a solemn expression on his face.

Chapter 199

Wang Xuan was no stranger to these tree roots around him.

That day, he was trapped in the underground parking lot of Longmao Plaza. He had encountered similar tree roots and this incomparably thick tree pole, but he didn't expect to come to the third underground parking lot of Jiangmao Mall, and he would also encounter similar tree roots and this extremely thick tree pole. It's almost exactly the same tree.

Looking at this tree, it seems to grow from the ground below, piercing the floor above, and no one knows where it grows.

"Brother Jian, have you seen this big tree before?"

Xu Jian shook his head slightly and said, "No, it's just that this tree is a little weird... It made me feel very uneasy."

Wang Xuan snorted. His feeling was stronger than Xu Jian. He was assimilated with the beast, and his instinct was very sensitive. The tree pole exposed in front of him gave him a feeling of fear.

In addition, he had seen this big tree before, and knew that this tree was very strange. At that time, they passed through the big tree, and then the big tree disappeared mysteriously. It seemed that everything that happened before was an illusion.

"Brother Jian, let's go up and have a look." Wang Xuan thought for a while, then said to Fang Ning, Zuo Hui and the others, "You all take the muskets and walk towards the big tree. There should be an exit above the big tree."

Fang Ning, Zuo Hui, He Long, Xin Benjun, and eight others, including Chen Dong, who had just obtained the musket, slowly approached after hearing Wang Xuan's words. You and Zuo Hui should be much calmer.

They also saw that this big tree was growing strangely. The sloping giant tree trunk went up like a slope, piercing the ceiling above. From this trunk up, is it possible to enter the negative second-floor parking lot above?

"Let's go." Fang Ning had absolute trust in Wang Xuan, and he immediately stepped forward.

Wang Xuan and Xu Jian fell to the back, and they wanted to see if these newcomers stepped forward and what would happen.

"This tree is so strange, how did it grow into this building? Isn't Jiangmao Mall a dangerous building?" A woman in her forties with a curly hair couldn't help but speak.

Next to her was a woman with yellow-dyed hair that was also permed and curly: "Sister Li, let me tell you, I didn't seem to see it when I was there last time, and now there are beasts, it's really here. It's weird, we all have to be careful."

In their whispers, as the group of Fang Ning approached, the roots of the tree that were standing still finally reacted.

Among these tree roots, a tree root suddenly wriggled, followed by as if it had come to life, rushing out and rushing towards them.

Fang Ning, Zuo Hui, He Long, and Xin Benjun were surprised, but they were still able to react. They immediately retreated, raised their muskets, and fired them forward.

It's just that the target of the tree root that turned into a giant python is too small to hit, and the muskets in several people's hands are empty.

But Chen Dong and other eight people who followed behind couldn't help but screamed.

"It's not a tree root, it's a snake—" Sister Li screamed with curly hair.

The other five men who followed them, although surprised, reacted relatively quickly and did not rush.

The five men, including Chen Dong, were about the same age as Sister Li. They were all in their 40s and 50s. They had experienced a lot of things. Now they were shocked by these incomprehensible situations. Raise your gun, aim and shoot.

Among them, two tree-root snakes and pythons that rushed up were hit, and immediately burst and broke.

Wang Xuan and Xu Jian, one left and one right, rushed up, and Wang Xuan was waiting for these tree roots to mutate.

This time he wanted to take a closer look at what this strange tree really was.

When he stretched out his right hand, four metal tentacles were released, which were far more vicious than the snakes and pythons formed by these tree roots. When they were pulled out, they immediately swept away seven or eight of the snakes and pythons that came up.

"Quick, remember to refill your guns!"

Wang Xuan shouted loudly, and he was merciful, severely injured these snakes and pythons, and left them to hunt and kill.

Zuo Hui immediately took a step forward, shot at a snake python that fell on the ground, killed the snake python, and harvested a white scale. Immediately, she was about to hatch and felt the energy fluctuations in her right hand. , successfully hatched her hatchling beast.

Fang Ning felt that the musket in his hand was inconvenient to deal with this kind of snake and python, and finally couldn't bear it any longer.

Xu Jian's arms mutated to form a pair of beast arms. He relied on the beast arms to easily grab the roots of these rushing trees, and then threw them towards the crowd, giving them the final blow.

Sister Li and the others killed a snake and python one after another, and obtained white scales. They felt surprised when the scales entered their right hand.

No matter how incomprehensible this fact is, the reality is more convincing than any words, and they have to accept what they are going through now.

With a "bang", a thick tree root appeared and turned into a giant python with a length of more than ten meters.

Behind this giant python, tree roots as thick as buckets appeared one by one. These tree roots broke from the roots, turned into giant pythons of the same thickness, and rushed up.

How terrifying these giant pythons are, just the momentum of the mad rushing makes everyone's scalp numb.

Fang Ning, Zuo Hui and the others changed their expressions.

Zuo Hui and He Long fired muskets in succession. One of the giant pythons that rushed up was hit by the gun, and its flesh flew. It only made a huge blood hole in its body, but the monster was injured, but it was even more crazy. rushed up.

Even the musket of the musket goblin can't kill it, its strength has surpassed the embryonic form in incubation, at least it has reached the strength of the initial opening or even above.

Wang Xuan saw it in his eyes, a strange color flashed across his face, Xu Jian let out a loud shout, and turned his body, he did not show the strongest state of six arms, only two animal arms, but this strength also reached Above the sub-body, but he tried his best to restrain himself, not exceeding the adult.

Because in this novice area, if the strength exceeds that of the adult, it will attract the suppression of the power of the world, and even backlash.

Xu Jian's lateral movement speed was very fast, and he immediately intercepted the injured python that was rushing towards him. With a horizontal beast arm on the left, he confronted the ramming python head-on, and then grabbed it again. , his feet were firmly nailed to the ground, and the giant python that was more than ten meters long and weighed a ton was lifted up.

Chen Dong, Sister Li, and the others were stunned. This guy dressed in full body armor and dressed like an ancient general is so powerful?

They always thought that Wang Xuan and Xu Jian were probably some extras or that they were going to participate in some performances or performances in the Jiangmao mall, so the armor they wore was just trapped here like them.

But now Xu Jian's strength surprised them. Looking at the four metal tentacles that appeared on Wang Xuan's right hand, they finally recognized it. This is not a weapon like a metal whip.

With a "bang", Xu Jian hugged the giant python, kicked with both feet, and slammed the python's head into the load-bearing column in front of him.

There was a loud noise in the load-bearing column, and the python's head immediately blossomed, and the brains splashed out.

After killing the giant python, Xu Jian shouted: "Wang Xuan, the situation here is very wrong, they are just a group of newcomers, it is impossible for such a powerful monster to appear!"

"Yes, this is for us!"

As Wang Xuan spoke, he strengthened his strength, and the four metal tentacles were pulled out together. There were two crisp snaps. The heads of the two giant pythons were hit, their skulls shattered, and blood splattered.

"Fang Ning, you guys, hurry up and rush towards the big tree!"

Thinking of the previous experience, Wang Xuan immediately turned around and stopped drinking at Fang Ning. .

Xu Jian finally showed the remaining four animal arms, and appeared in the form of six arms.

Chen Dong, Sister Li and other eight people opened their eyes wide. Now they understand that Wang Xuan and Xu Jian are not ordinary people.

Sister Li is more superstitious, and at this moment, the image of Nezha with three heads and six arms even appeared in her mind.

Six animal arms appeared, suppressing the power as much as possible below the adult body, Xu Jian's body flashed, and rushed into the giant python that appeared on the side.

The strength of these giant pythons is getting stronger and stronger, causing pressure on Wang Xuan and Xu Jian, who can only exert their full combat power.

Fang Ning, Zuo Hui, Xin Benjun, He Long took Chen Dong, Li Jie and others and started running towards the big tree.

They believed Wang Xuan's words and thought that they could enter the upper floor by following the sloping trunk.

Wang Xuan noticed a detail. The pythons that appeared were basically attacking himself and Xu Jian, and there were almost no pythons attacking newcomers like Fang Ning and Zuo Hui.

"Sure enough, what is the origin of this big tree? It can deliberately target us?"

Wang Xuan felt that it was a little difficult, he did not dare to exert too strong combat power, and the strength of these giant pythons had gradually surpassed the sub-body.

"Brother Jian, let's go!" Wang Xuan made sure that these giant pythons would not attack Fang Ning and the newcomers, he breathed a sigh of relief, kicked his feet, and immediately rushed towards the big tree.

The last time I ran through the big tree, I was able to leave. How about this time? Will it be the same?

His speed was very fast, surpassing Fang Ning, Zuo Hui and the others in the blink of an eye, and a giant python rushed out from the big tree facing him, opened its **** mouth, and rushed towards him.

Wang Xuan jumped up and punched out with his right hand. A metal tentacle wrapped around his right arm, fused with flesh and blood, and turned into a giant arm of beast.

With a "no" sound, the punch hit the python's head, and the python's head exploded immediately, killing him instantly.

Almost at the same moment, Wang Xuan slammed into the big tree, but there was no obstruction in front of him, and he rushed straight over.

Almost as soon as he walked through the big tree, the scene before his eyes changed, and he actually appeared in a virgin forest full of towering trees.

The ground of this forest is full of terrifying cracks, and a tree with a height of tens of meters is toppled and broken.

"What is this?" Wang Xuan was greatly shocked, and he was busy turning his head, and suddenly found Xu Jian standing behind him, he was only a second later than Wang Xuan through the tree, never expected to suddenly rush here, watching Everything in front of him, he was equally stunned and horrified.

"This...it seems to be the third layer of the world?" Xu Jian was in shock, he was busy reaching out to touch it, and suddenly found that his hand passed through a fallen tree in front of him.

"What's the matter? Are these hallucinations?"

Wang Xuan also quickly discovered that the metal tentacles he extended could not touch the ground and trees around him. It seemed that everything that appeared in front of him was not real.

At this moment, an earth-shattering tiger roar sounded, and with this tiger roar like cracking rocks and piercing clouds, Wang Xuan saw a tree falling down in the distance. It was crushed and collapsed by a terrifying force. Between the fallen trees, a giant tiger appeared.

This giant tiger, more than 20 meters tall, has a body length of 40 to 50 meters, and is covered with snow-white hair. It is opening its mouth and emitting an earth-shattering tiger roar. , so that Wang Xuan instinctively covered his ears.

"White Tiger—" Xu Jian also covered his ears with a shocked look on his face.

At the same time as the giant white tiger roared in filial piety, a huge black shadow suddenly fell down from the sky. Wang Xuan was busy looking at it, but he saw a pitch-black strange bird descending from the cracked stone and piercing the clouds. .

This strange bird has nine heads and nine wings, and its whole body is like cast iron. When the nine wings are opened, it seems to cover the sky, and it flies down into the sky with a sharp whistle.

The white giant tiger let out a deafening roar, kicked its four claws, rose into the air, and leaped hundreds of meters into the sky, colliding with the nine-headed monster bird that swooped down.

Wang Xuan was stunned, and Xu Jian, who was standing beside him, had already cried out, "Ghost car and bird?"

Wang Xuan's heart trembled, and he felt a tickling on his back, almost without his summoning.

He remembered that Tang Ruoyu once said that the hatching corpse he obtained grew out of the corpse of a powerful hatching beast called a ghost car, and the power of ghost wings he inherited now comes from this ghost car .

What is the relationship between this hatchling beast ghost car and the ghost car bird that appears now?

There was an earth-shattering loud noise in the air. The ghost car bird and the white tiger fought each other and fell from a height of hundreds of meters. With a loud bang, a large number of trees were broken and planted, and a large pit was smashed into the ground. , The two terrifying giant beasts rolled against the ground, and wherever they went, the ground couldn't bear their power and kept breaking apart.

Wang Xuan felt the ghost wings vibrate slightly behind him, and seemed to be sensing something. He was covered in cold sweat, and the nine sharp beaks of the ghost car and bird frantically pecked out, and soon the white tiger giant beast was drenched in blood. One bite can take out a large piece of flesh.

And the big mouth of the white tiger bit its belly, and the sharp tiger claws scratched the ghost car bird into scary wounds, pieces of steel feathers were ripped off, flying in the air.

Wang Xuan and Xu Jian were dumbfounded, watching the two giant beasts entangled with each other, the power was simply earth-shattering, they rolled against the ground, and the towering trees were crushed and broken.

Suddenly, at the end of the void, cyan tails appeared one after another, and in the blink of an eye, nine tails appeared in a row, each of which was extremely huge, and slammed into the sky.

"Boom" with an earth-shattering loud noise, this virgin forest shattered like a mirror together with the ghost car bird, the white giant tiger and the nine cyan tails.

Suddenly, Wang Xuan and Xu Jian were taken aback and instinctively retreated, only to find that there was a sudden darkness in front of them. When they came back to their senses, they saw the vehicles parked on both sides, and there was a ramp on the opposite side. They had already returned. The underground parking lot of Jiangmao Mall.

Fang Ning, Zuo Hui, Xin Benjun, He Long, Chen Dong, Li Jie, and others were all there. Everyone was panting and looked tired. The big tree that had penetrated the ground and the upper floors just now had its roots and Those giant pythons have disappeared, and everything that has just been experienced is like a dream.

Wang Xuan looked at the **** passage that appeared in front of him, and knew in his heart that this **** passage must lead to the parking lot on the second floor. What did the white giant tiger and the ghost car bird, and the nine cyan tails that appeared later, represent?

Was this a sight that the mysterious tree intended for them to see?

Xu Jian wiped the sweat on his forehead and restrained the four animal arms on his back.

Wang Xuan also put away the ghost wings behind him. The two looked at each other and could see the shock and doubt in each other's eyes.

"Strange... I walked through this big tree, but suddenly everything disappeared? Was everything just a trick?" Sister Li looked puzzled.

"It's not a blindfold. Look, my arm was bitten, and the snake mark is still there." Chen Dong asked her to look at his arm. There was a snake mark on it, but at the moment the snake mark was slowly healing.

"What the **** is that?" Everyone was puzzled.

Hearing their discussion, Wang Xuan understood that only himself and Xu Jian were the only ones who saw the scene of the white giant tiger and the ghost car bird. Fang Ning and the others didn't see it.

"Let's go, let's see if it's an upward exit." Wang Xuan quickly calmed down and pointed to the **** passage ahead.

Chen Dong, Sister Li, and other eight people are still discussing what just happened, while Fang Ning and Zuo Hui are silent. It's all normal. Now that you're here, you can't use outside common sense to speculate about what's going on here.

Everyone went up the slope, but Wang Xuan and Xu Jian still fell to the back of the team.

"Brother Jian, what I just saw... what do you think?"

Xu Jian said slowly: "There should be some reason. Maybe this tree has some kind of mysterious power, and it is what let us see this scene. As for its purpose, I don't know."

"How did Brother Jian know that bird with nine heads and nine wings is called Ghost Car Bird?"

"The ghost car bird used to be the totem of the third-layer world. I heard the elder say that it has nine heads and nine wings, so I can see it at a glance, but according to the elder, this ghost car bird used to be called nine heads. Birds, nine-headed gods and nine-phoenix gods, the source is very complicated. The elder once obtained a note. According to the note, this ghost car was trapped in the third-layer world. It used to have the destiny of God... Of course, These have been involved for too long, and no one knows the specific truth, including the records in this note, which are also inconsistent."

Chapter 200

Wang Xuan asked curiously, "Why do you say that?"

Xu Jian said: "Of course, I also listened to the elder. His note said that this ghost car and bird once had the destiny of a god, but he also said that the real **** in this world is only a giant god."

"Giant God?" Wang Xuan was startled, and immediately thought of the book of the giant **** that he was storing in the Xumi mustard space.

"Yes, giant god, how to describe it specifically, if you use the words of an elder, it is equivalent to a **** without a form, and it cannot appear in front of people. Whether it actually exists or not exists, for us, it is not very interesting, in short, some Mysterious and mysterious taste."

Seeing the thoughtful look on Wang Xuan's face, Xu Jian continued: "It may be that the two sides have completely different forms or dimensions of existence. If we are compared to bacteria on the earth, then this giant **** may be the human beings on the earth. , you say that the bacteria on the earth can understand the meaning of human existence?"

Wang Xuan shook his head slightly, and Xu Jian continued: "Of course, there is a medium that allows the Giant God to communicate with us, or even borrow the power of the Giant God. This method is the Book of the Giant God."

Wang Xuan's heart trembled slightly, what Xu Jian said was really the Book of Giants.

"The elder said that the so-called book of giant gods recorded in the note is actually a contract. Through this contract, the giant **** can be brought down, but to conclude a contract requires a great price."

The two chatted in a low voice as they walked, and soon followed Fang Ning, Zuo Hui and a group of people, and walked up the ramp.

Wang Xuancheng saw a cartoon sheep drawing on a load-bearing column not far away, and understood that they came to the parking lot on the negative second floor.

According to the order of the Chinese zodiac, the four zodiac signs in the negative third layer are pig, dog, rooster and monkey, then the negative second layer should be sheep, horse, snake and dragon.

Fang Ning, Zuo Hui, Xin Benjun, He Long and the others all stopped in front of them, carrying their muskets in full alert.

Wang Xuan and Xu Jian were also stunned. Not far away, they saw a large number of tree roots again. This time, the tree roots looked even more terrifying. , many parked vehicles were pierced by tree roots.

Above, the thick tree roots hang down one after another, like giant pythons hanging down.

When Wang Xuan and Xu Jian saw it, their expressions changed.

At a glance, there are thousands of these giant tree roots. If they are all turned into snakes and pythons, they are thousands of giant pythons. These giant pythons have the strength beyond the sub-body, and their strength is suppressed here. , unable to exert their full combat power, if they were to encounter so many python attacks, even if the two of them could protect themselves, it would be difficult to ensure the safety of Fang Ning and others.

Wang Xuan looked at the end of the countless giant tree roots, and the giant tree trunk appeared again. This time the tree trunk appeared to be even bigger. Based on his current visual estimation, the diameter of the tree trunk that appeared this time reached at least 20 meters. .

How huge does a tree with a diameter of more than 20 meters have to be?

"Wang Xuan, the situation is not right, this tree statue is staring at us." Xu Jian immediately stretched out four beast arms covered with scales behind him.

"Fang Ning, Zuo Hui, back up immediately." Wang Xuan said in a deep voice.

Fang Ning, Zuo Hui and the others had already seen these tree roots and felt that something was wrong, but after hearing Wang Xuan's words, they immediately retreated.

"Brother Wang, what should I do?" Fang Ning thought that the roots of the trees he had just encountered had all turned into pythons, and that any python was far stronger than himself. Although Wang Xuan and Xu Jian were by his side, he also felt it. disturbed.

"This tree should be aimed at me and Brother Jian. If you want to stay with us again, I'm afraid it will affect you."

Wang Xuan took a light breath and said, "We can only leave separately."

As soon as these words came out, Fang Ning, Zuo Hui and the others were startled.

"You are all newcomers here. You shouldn't encounter these powerful monsters. It's because of the appearance of Brother Jian and I. The only way now is to split up."

"Fortunately, you all got white scales. Fang Ning and you guys have successfully hatched your own hatchling beasts. As long as you are cautious, it's not difficult to go out."

"From this parking lot, you can go to the first floor. There is an elevator on the first floor to go to the insect town on the second floor."

When Wang Xuan said this, Xu Jian smiled and said, "We will wait for you on the second floor when we arrive. By the way, when you arrive at the insect town on the second floor, you can directly mention Wang Xuan's name and apply to enter the Xuan Gang, he is now the insect town. The leader of the Xuan Gang."

Chen Dong, Sister Li and the others were at a loss, while Fang Ning seemed to understand.

"Okay, everyone take care, hunt down as many monsters as possible, get white scales, and you all hatch the hatching beasts early." Wang Xuan said while looking at Chen Dong and Sister Li.

Although they are older, they are basically slowly accepting the fact that hatching beasts exist.

"Let's go, let's go in the direction of the trunk, you change the direction to the left and go to that side." After Wang Xuan explained, he took out the remaining 51 bottles of primary nutrient solution in the Xumi mustard space and handed them over together. Fang Ning, said: "These are all for you, it will probably last for a few days, and the rest is up to you. I hope you can all come to Insect Town to find me."

"Knowing Big Brother Wang, I will definitely bring everyone to Insect Town to find you." Fang Ning had a determined look on his face as he spoke.

Wang Xuan nodded towards him, then reached out and patted his shoulder, saying, "Okay, I hope we can meet again soon."

Afterwards, Fang Ning took Zuo Hui and the others and started to walk towards the left lane, while Wang Xuan and Xu Jian walked towards the tree trunk on the right.

Strange to say, this time they walked all the way to the front of the tree trunk, and none of these giant tree roots turned into giant pythons to attack them.

"It seems... we guessed right, the real purpose of this tree is to force us to separate from these newcomers, and it is strictly forbidden for us to continue to intervene and lead them. In this way, the real identity of this tree is to maintain a certain order in this building. Like the Guardian of Order?" Xu Jian said his guess, and then turned around to see that Fang Ning and the other group of people had already walked away, and they couldn't see their backs.

Wang Xuan snorted and walked towards the oncoming tree trunk, saying: "Even if it's not to maintain the order of the whole building, at least this novice area is managed by it, not just this Jiangmao shopping mall, but the parking lot of Longmao Plaza I entered before. , also encountered it."

Xu Jian murmured: "What is the real face of this building, it's really making people more and more curious..."

The two passed through the oncoming tree without any hindrance, and were not attacked. In front of them, a long staircase appeared, leading to the top.

"If I guessed correctly, this should be the upward exit. It seems that this tree does not welcome us to stay here, but wants us to leave early." Xu Jian smiled bitterly.

Wang Xuan and Xu Jian guessed the same. Originally, he wanted to complete the task of helping others, but now it is difficult to think about it. At present, he has helped Zuo Hui and Chen Dong and other eleven people to obtain white scales. If they can survive all the way. , In the end, at least ten people must grow to the sub-body before they can get the reward of the bronze treasure chest.

But in Wang Xuan's view, this is difficult.

"It's no wonder that there are basically no people above to help the newcomers. If we stay here any longer, I'm afraid that even we will be in danger. I feel this is just a warning. If we don't let go, I don't know what will change. ."

While talking, Wang Xuan and Xu Jian walked towards the oncoming staircase. The staircase was very long. When they reached the end, they saw two closed doors. Wang Xuan released a metal tentacle and pushed it against the door. Come.

A soft white light shone from the door. Wang Xuan had a very familiar feeling. As soon as his heart moved, he walked out through the door and saw a huge hall. There was a glass column in the center of the hall. , People come and go, all seem to be in a hurry.

Xu Jian also walked over, seeing everything in front of them, the two of them were all too familiar, this was the lobby on the first floor.

"Sure enough, this strange tree is really well-intentioned. I'm afraid we won't leave, so we won't let us go to the first floor, but sent us directly to this floor."

Wang Xuan looked around, it was almost the same as the lobby on the first floor that he had entered in Longmao Plaza, with access passages, glass columns and elevators, rest areas, and corridors leading to the four districts in the south, south, and northwest.

The appearance of Wang Xuan and Xu Jian attracted some people in the hall. The two of them were fully armored, with a faint light flowing on the surface. At first glance, they were not simple second-order equipment. They could occasionally see the clothes coming down from the top. People with Tier 3 alloy equipment, but they have almost never seen such sophisticated Tier 3 equipment that is higher than Tier 3 alloy equipment.

Wang Xuan looked at the people in the hall, basically all of them were novice or sub-body. He didn't care about their amazement, curiosity, and a little bit of awe, and walked straight towards the glass column in the center.

"Brother Jian, I thought of something. The elevator was attacked before, and we fell directly from the third floor to the bottom floor. Do you think this elevator can still be used?" Wang Xuan approached the elevator and suddenly thought of a terrible thing.

What if this elevator is damaged and cannot be used? Doesn't it mean they're going to be stuck on this floor all the time? Can't even go back to Insect Town?

Xu Jian was also caught by Wang Xuan's question. After thinking about it, he said, "It shouldn't be. If the elevator is attacked, even if it is affected, the third floor may be affected. I haven't heard of the way to the second floor. The elevator was also affected."

Hearing this, Wang Xuan felt a little relieved. Xu Jian walked to the elevator and pressed the open button. Although he comforted Wang Xuan, he was actually very nervous. If the elevator really couldn't be used, it would be completely over. , even he didn't know what to do.

Press and hold the button, fortunately, a circle of light appeared around the button, and the closed elevator door opened immediately.

Both of them breathed a sigh of relief in their hearts. Many people in the hall were paying attention to them. When they saw them, they walked straight to the elevator, realizing that they were people who came down from above. They strike up a conversation, only dare to look from a distance.

The two walked into the elevator, Xu Jian immediately pressed the button to go to the third floor, and wanted to go back to the third floor to see what happened. The elevator on the third floor was attacked, and what was the situation now.

I don't want to press it this time, but there is no response.

"How could it be?" Xu Jian's heart skipped a beat, and he was busy pressing it several times, but still no response. Then he pressed the button on the second floor, a circle of light appeared on the button, and the elevator door began to close.

"Damn, is there really a problem?" Xu Jian pressed all the buttons on the third, fourth, and fifth floors in succession, and there were faint beads of sweat on his forehead.

Wang Xuan felt the elevator vibrate slightly, and understood that the elevator was going up to the second floor. Soon the slight vibration stopped, the elevator door opened, and they saw a familiar scene, and they returned to the insect town on the second floor.

It was already bright outside the elevator.

But Xu Jian did not come out immediately, but tried again to enter the third floor, but no matter how much he pressed the button on the third floor, there was no response.

In the end, he could only walk out sullenly, his face extremely ugly.

"It's over, this elevator can only go to Insect Town, or downstairs. It can't go to the third floor. I can't go back to Xuancheng... Then what should I do?" Xu Jian looked at Wang Xuan. There was a trace of fear in his eyes.

Wang Xuan turned his head and saw that the door of the No. 8 elevator was slowly closing. There were some people from the five major forces who were staying around. They were originally going to receive newcomers who might come up at any time. Suddenly, he saw Xu Jian and Wang Xuan, these people they were all taken aback, especially the members of the Xuan Gang, who were busy salutes.

Xu Jian had no intention of meeting them, Wang Xuan saw Xu Jian, who had always been calm, so anxious, he suddenly thought of something, and hurriedly said: "Brother Jian, didn't you tell me before that if the previous elevator breaks down, the next elevator will fail. The elevator will be activated, and now the No. 8 elevator is broken and cannot lead to the third floor, does that mean that the No. 9 elevator can be used to enter the third floor?"

Xu Jian also thought about it, nodded and said: "Yes, all the seven elevators before can not enter the third-floor world, only the eighth elevator can, according to the elder, if the eighth elevator can not enter. Above, the building will activate the backup number nine elevator."

As he spoke, he stepped to the front of the No. 9 elevator.

When he opened the door of elevator No. 9, it suddenly stopped.

"What's wrong?" Wang Xuan looked at him with some incomprehension.

Xu Jian took a deep breath and said, "Remember what I said before? All ten elevators in Insect Town can lead to the third floor. Although they all go to the same world, the area from each elevator is different. Yes, the passages leading to the third floor of the previous seven elevators have long been destroyed, so let's not mention it. Exiting the No. 8 elevator is the No. 8 safe area, surrounded by five major cities such as Xuancheng and Rakshasa City, and the size of the area. An independent force from different parties, and this No. 9 elevator... No one knows where it leads to the third floor."

Wang Xuan nodded and said, "I remember you mentioned that although these elevators lead to the third-layer world, the areas that appear may be different, but even if the areas are different, as long as they are still in the same world, it shouldn't be difficult. Find Xuancheng."

"Well, I hope so." Xu Jian took a deep breath and walked in.

Wang Xuan followed suit. Unlike Xu Jian, he was more curious. After all, he was very unfamiliar with the world on the third floor and had no feelings for it.

The two entered the elevator, Xu Jian pressed the button on the third floor again, this time a light circle appeared on the button on the third floor, which meant it was valid.

But the elevator didn't start, Xu Jian withdrew his hand, and the light circle above it went out again.

Wang Xuan said, "Is it still not possible?"

Xu Jian shook his head and said, "No, the passage from the No. 9 elevator to the third floor has already started, but it will take twenty-four hours to actually use it to go to the third floor, and it can't be used for the time being."

When Wang Xuan was talking, he also reached out and pressed the button leading to the third floor. Immediately, he sensed a message in his mind. Just like what Xu Jian said, the No. 9 elevator corridor is now open, and it takes twenty-four hours before it can be used.

"Then we'll have to wait twenty-four hours."

The two walked out of the elevator again, Xu Jian's face was always very solemn, and he summoned the members of the Xuan Gang who were guarding outside the elevator.

"You guys inform Qiu Yuanfeng, say it's my order, let him find the other four leaders, and let them come to me to discuss important matters. This matter involves the upper world, it is very important, you must come."

"Yes." The members of the Xuan Gang were startled and rushed towards the building in the distance.

Wang Xuan followed Xu Jian back to the small castle-like five-story building where only the leader was qualified to live.

This small castle is splendid and magnificent, UU reading [www. uukanshu](http://www.uukanshu.com). The com was decorated in a very high-end style, and there were two young people guarding it. Wang Xuan had met Xu Jian for the first time, so he was very familiar with them.

The two young people were busy bowing respectfully, Xu Jian was a little irritable, he just waved slightly to let them back down, and he walked in with Wang Xuan.

"This is where you live in the future. I will give you the roster of all the members of the Xuan Gang later. You will be the leader of the Xuan Gang in the future."

Wang Xuandao: "Brother Jian, let's not talk about this for now. I think it's better to take the No. 9 elevator to the third floor to see what's going on."

Xu Jian snorted and felt that what he said made sense. If he really lost contact with Xuancheng and he was no longer the leader of the Xuan Gang, why would he have nowhere to go?

The two waited for about half an hour. Wan Qianying, the leader of the Phoenix, came first, followed by the leader of the dynasty, the new leader of the Rakshasa, and the leader of the Justice League.

In the end, Qiu Yuanfeng also came, but at Xu Jian's signal, he retreated to the door, and then gently closed the door. Only the five leaders and Wang Xuan were left in the hall.

Xu Jian didn't talk nonsense, and directly entered himself and Wang Xuan into the third-floor world. When he was about to take the elevator to go down, he was suddenly attacked and the elevator fell straight to the bottom.

"When we come back, the No. 8 elevator can no longer enter the third floor. I can be sure that the safe area that the No. 8 elevator leads to has been attacked and completely destroyed. As for the current situation of the five major cities, we are going up now. Don't go, I don't know the specific situation."

These leaders really didn't know about this matter. After Xu Jian finished speaking, everyone had a shocked look on their faces, and the leader of the Justice League took a deep breath.
