

Last Building on Earth Chapter 20

"We're in Zone G!"

The two were surprised and happy in their voices.

This underground negative two-story parking lot is divided into four areas of EFGH. They were trapped here before. No matter how they walked, they always shuttled between areas E and F. Wang Xuan drove at least tens of kilometers in his car, but he failed. Get out of Zones E and F.

And now no one knew what was going on, so they just chose a random direction, just hoping to stay away from those monster corpses as much as possible.

Zhang Haofei came later than them. Before meeting Wang Xuan and the others, they didn't realize that they were trapped here and couldn't get out. Later, although they heard Wang Xuan and the others say it, they didn't experience the sense of despair that they could never get out. , so there is no such strong feeling as the three of them, on the contrary, I doubt whether they lied before, thinking that these guys are not Lu Chi.

Gu Manyao said, "We always wanted to escape from here, but we couldn't find an exit. Now we suddenly came to the G area. What's the reason?" She said while looking at Zhao Lei and Wang Xuan.

Zhao Lei pushed the glasses on the bridge of his nose, his eyes narrowed slightly, and said: "It is possible that if you want to get out of this parking lot, you need to abide by certain rules and touch some specific conditions. We must have accidentally touched this specific condition just now. , so I successfully reached the G area."

He said this with an excited look on his face, and said, "We just need to find out this rule, and then do it according to the rule, and maybe we can get out of this parking lot."

Wang Xuan pondered slightly, and said, "What are the rules of this parking lot? What could it be..."

Gu Manyao said, "Could it have something to do with you killing that monster with two white scales?"

Wang Xuandao: "It's hard to say right now, but we're able to go to Area G, which is a good phenomenon, and there may be hope to find an exit."

Gu Manyao hummed.

"Let's go, I hope to find an upward exit here." Wang Xuan lifted his spirits and continued to walk forward.

Going forward along the G area, Wang Xuan noticed the parking space signs on the ground, and soon saw an elevator.

The four people gathered around, but the elevator still couldn't start, and there was no response.

"It's a pity." Wang Xuan frowned slightly.

Zhao Lei suddenly said: "I thought of a way, maybe there is hope to get out of trouble."

Gu Manyao said, "What can I do?"

Zhao Lei pointed to the elevator in front of him: "Although this elevator can't run, the elevator has a cable leading to it. If we can enter the elevator shaft, can't we use the cable to climb up?"

Gu Manyao's eyes lit up and said, "Yes, this is a way, as long as we reach the ground floor, we can leave."

Zhao Lei said: "I'm afraid the elevator didn't stop on this floor, but it's not a big problem. Let's go into the elevator shaft first to see what's going on."

The four said they did what they said. Wang Xuan inserted the sharp end of the steel bar in his hand into the middle of the elevator door, trying to pry it open.

The seven white scales in his right hand were activated together, and an endless stream of energy was released, concentrated in his arms. Under the action of his huge strength, the steel bars vibrated slightly, and there were faint signs of bending, but the elevator door in front of him remained motionless. Not a single gap was exposed.

Wang Xuan tried three times in a row, and his face was flushed red.

Among the four, he has the largest number of scales and the greatest strength. Even he can't open the elevator door, let alone the other three.

Zhang Haofei lifted the steel pipe in his hand and slammed it towards the elevator door with all his strength, making a loud "bang". The force of the steel pipe's anti-vibration made him grin, but there was not even a trace on the elevator door.

Gu Manyao also tried it, but the shock also made her arm go numb.

Zhao Lei's eyes narrowed into a slit, and he nodded slightly without seeming to be surprised: "Sure enough... everything here is beyond common sense, and all the escape methods we can think of will not work here, there is no shortcut to take, or we must You have to abide by certain rules here before you can leave."

Zhang Haofei looked at his appearance and said, "Zhao Lei, you don't have to pretend to be a clever man after the fact. Since you know that, why don't you let us open the elevator door?"

Zhao Lei now also has white scales. He doesn't show weakness. He looks at Zhang Haofei with an idiot's eyes: "If you don't try it, how do you know if my guess is accurate?"

Gu Manyao was afraid that they would fight, so she hurriedly said, "This road will not work, we should think of other ways and stop wasting time here."

Zhang Haofei looked like a thorn, but surprisingly, he listened to Gu Manyao's words. Seeing that she had spoken, he snorted in his nostrils and stopped talking.

"Have you noticed that the sky is a little brighter?" Wang Xuan raised his head and looked up, then looked around, and suddenly said.

When he said this, the other three people also came to their senses. Before, the surroundings were dark and dark, and there was a blurry shadow in a little distance.

Zhang Haofei asked, "Is it dawn?" As he spoke, he took out his phone to check the time.

"Damn the phone, it will automatically shut down when it runs out of power."

While talking, he was indignant to smash the mobile phone in his hand, but he was reluctant to smash it out. This is the latest imported mobile phone that he just bought. It cost him a few thousand dollars. Here, if you just smashed and walked out, it would be a big loss.

Thinking of this, Zhang Haofei put the phone back in his trousers pocket.

Wang Xuan also took out his mobile phone and glanced at it. It was already 7:20 in the morning, and he saw that the battery was only 12%, and it was not far from the automatic shutdown.

Putting away the phone, the four of them continued to move forward.

"I'm a little hungry, why don't you eat that bag of egg yolk pie first." Zhang Haofei touched his stomach and suggested.

Gu Manyao said, "This is the only food left, we have to save some and wait."

Zhang Haofei pointed to the cars parked on both sides and said, "There are so many cars parked here. As long as you spend some time, you can always find food. You can't kill monsters when you're hungry."

Gu Manyao couldn't do anything about him, she hesitated for a while and said, "Okay, let's take a break and eat something, what do you think." She looked at Wang Xuan and Zhao Lei and asked what they meant.

Wang Xuan has been hungry for a long time, especially with white scales, he has been fighting with monsters repeatedly. Although his strength has increased, he has also lost a lot of energy and needs food supplements. From yesterday to today, he has eaten a tea egg. And two pieces of bread, I was so hungry that my chest was on my back, but I just kept on enduring it.
