

Last Building on Earth Chapter 201-205

Chapter 201

"There's such a thing..." Even though Wan Qianying was wearing a mask, Wang Xuan could feel her face change, and she could tell by the look in her eyes that she was a little helpless.

After all, for the five leaders, the five major cities behind them are their greatest support, and now it is suddenly said that something may have happened to the five major cities above. The shock and panic reached their peak.

The leader of the dynasty murmured: "Although I have heard before that the first seven safe areas were destroyed, but after all, I only heard about it, I have not experienced it personally... No one would have thought that this No. 8 safe area would also be destroyed."

After taking a long breath, Wan Qianying slowly calmed down and said, "Since the No. 8 elevator is no longer available, we can only wait for the upward passage of No. 9 elevator to open. Let's go up and see what's going on."

The leader of the Justice League nodded slightly and said: "There is no other way now, but this is the only way, I only hope that the area to which the No. 9 elevator leads is not far from the five major cities. I believe that people in the five major cities must be looking for the safety of No. 9. area."

The six then discussed it, and agreed to gather at the No. 9 elevator tomorrow morning and head to the third floor together. After that, Wan Qianying and the other four leaders left, leaving only Wang Xuan and Xu Jian in the hall.

"There is no other way now. We can only wait and hope that there will be good news tomorrow." After Xu Jian finished speaking, he sighed again.

Seeing Xu Jian's heavy heart, Wang Xuan deliberately changed the subject and said, "Brother Jian, among the five leaders of you, I only know the names of you and Wan Qianying. What are the names of the other three?"

Xu Jian said: "The leader of the dynasty is called Huang Qingzhi, the guy from the Justice League is called Qiao Jingping, and the new leader of Rakshasa is called Gongyangxuan."

"Gongyangxuan?" Wang Xuan immediately thought of Gongyangjun who was killed by him before. The two have the same surname and similar names. Could they be brothers? This made him immediately alert to the new leader of Rakshasa. .

Xu Jian knew what Wang Xuan was thinking, and said, "I heard that Gongyangxuan and Gongyangjun are cousins. They came to this world together and entered the Rakshasa City together, which is relatively rare, but it is said that this is very rare. He had a bad relationship with his cousin because of a woman, and Gongyang Xuan's personality was different from Gongyang Jun. He was a well-known old man in Rakshasa City. Rakshasa City sent him to take over as the leader of Rakshasa, so it should not be the case. I hope that there will continue to be conflicts with our Xuan Gang."

"Of course, in any case, it's definitely right to be more wary of him."

Wang Xuan snorted, thinking that this Gongyangxuan looked very low-key and seemed harmless to humans and animals, but instead he felt that this was the most terrifying.

After chatting for a while, Wang Xuan left and returned to the three-story building where he lived. Seeing that there was no one in it, Gu Manyao and others left, and they should have gone to Scorpion City.

He frowned slightly, thinking that Xu Jian had two close subordinates beside him, who lived in the small castle for a long time, and it was really convenient to directly instruct them to do anything.

Unlike himself, although there seems to be a group of subordinates now, these people are all thinking about improving their strength. They stay in Bug Town for very little time. Most of them are in Scorpion City or Centipede Island. If he has anything now, or find someone, he will need to go out in person.

"It seems that I have to accept one or two personal subordinates, so it will be much more convenient for anything."

While talking to himself, Wang Xuan let out Xiaojiao, let him guard the door, and went upstairs to rest by himself.

He hardly had a good rest after the bug wave.

After waking up, I saw that it was about to get dark outside. As soon as I went downstairs, I saw Cheng Aiguo, Meng Lian, Lu Weichao, Feng Yuan and others coming. They had been waiting outside for a long time, and there were five others with them.

However, there is a little girl guarding the door, no one can break in without Wang Xuan's permission, they can only wait outside.

Wang Xuan saw it and invited them in.

"Wang Xuan, look who's here." Cheng Aiguo blushed and was in a good mood.

Wang Xuan had seen it early, and he was familiar with the people behind them, that is, He Mingli, Shi Lei, Zhang Mingbo, and Fang Linhan who had allied with him in the lobby on the first floor.

They came up a few days ago, but I haven't seen them, and I only met them today.

"How is it? Are they all in shape?" Wang Xuan asked with a smile.

He Mingli and Shi Lei were both excited and nervous. They understood that Wang Xuan was not what it used to be. They had already heard about Wang Xuan's name, whether it was the tavern incident or the killing of the three messengers of Rakshasa City, whichever one is a major event in the sensational insect town.

"The five of us are all grown up." He Mingli smiled at Wang Xuan. She liked to have two ponytails, and she still looked so cute and cute.

"Not bad." Wang Xuan smiled and nodded, looked at Cheng Aiguo and Meng Lian and said, "How about you guys, how are you feeling now?"

Cheng Aiguo said: "Today we went to Centipede Island, and there has not been much change for the time being."

Wang Xuan nodded, knowing that if they want to break through to the perfect state, they need to obtain enough energy first, and then slowly transform the hatching beast before it is possible to break through. It will take some time.

After chatting with everyone for a while, he took out a small piece of hatching corpse, divided it into five parts, and gave it to He Mingli and Shi Lei.

These are the people who came up with me from the novice area of Longmao Square. Now they have joined the Xuan Gang, they are my own team. If they can be trained to become strong, or even break through the super state, this will be a great A fighting force that cannot be underestimated.

He Mingli and Shi Lei took the hatching corpse and fell asleep. Wang Xuan asked Cheng Aiguo and Meng Lian to stay and rest, while he went to the trading area alone to take a look.

Every night, the trading area is still quite lively, and many people set up stalls to sell some supplies obtained by hunting monsters.

Tomorrow morning, he was going to enter the third-layer world, and Wang Xuan didn't know what he would encounter, so he decided to prepare more supplies just in case.

After looking around, most of them were things that he didn't like. In the end, he only bought two explosive crystals, one smoke crystal, a bottle of physical strength water and a bottle of healing water, which was better than nothing.

These things are expensive, and it cost 3 medium crystal scales plus 600 small crystal scales.

Insect Town under the darkness of the night looked exceptionally quiet. After experiencing this insect wave, although hundreds of people died, many who survived had their strength improved in this life-and-death battle.

Wang Xuan returned to his bedroom and slept during the day. Now that he couldn't sleep, he took off his armor and only wore loose pajamas. He sat cross-legged on the bed and tried to sense the white light from his right hand.

Although he has assimilated with the beasts, he still has a little understanding of the existence of hatching beasts, and he cannot have a deeper understanding.

After going to Xuancheng last time, he saw the elders and others who were attacked by the hatched beasts and learned more about the hatched beasts. It's not impossible for a superstate.

Once you reach the super state, you need to face the possibility of being attacked by hatched beasts.

Of course, according to Xu Jian, not all people who enter the super state will be attacked, and whether there will be a backlash will involve many factors.

Among them, super-states with average or medium-level strength are basically less likely to be backlashed, and the stronger the hatching beast, the greater the possibility of backlash.

"Assuming that we humans are the masters, and the hatching beasts are the servants, if the master is weak and the servant is strong, the servant will bully the master and may be attacked. After all, there are still hidden dangers, but the most perfect solution is to assimilate the two into one, and there is no division between master and servant, so that the full potential of the human body and the hatching beast can be fully realized."

"But I got this blue crystal scale with consciousness because of chance. It hurts both sides of the beast, so I picked it up cheaply. In addition, it is the fruit of the tree of origin that they said..."

Wang Xuan slowly closed his eyes, and while sensing the white light in his right hand, he thought, the fruit of the tree of the source is just a legend, and we cannot fully rely on this ethereal legend.

"The elders of this Xuancheng have already reached the super state, and there is a backlash situation. If they can come up with such a simple solution, they don't need to be immersed in potions every day, just like staying in a prison..."

When Wang Xuan thought of this, he suddenly felt the white light in his right hand that had never been moving, changed slightly, and a faint aura appeared from it, and a picture suddenly appeared in his mind, that is, a ghost car with nine heads and nine wings. The scene of the bird and the white tiger fighting.

On the back on the right, there was a slight hot itching, and a piece of steel feathers cut through his pajamas, stretched out from it, raised it high, and turned into a black steel wing.

"Ghost Wings... Ghost Car..."

Wang Xuan's brows furrowed slightly, and he immediately sensed the extremely thin aura that suddenly appeared, and a terrifying thought rose in his heart.

"Isn't that ghost car dead? Is it still a last wisp of consciousness? I obtained the essence liquid, inherited the power of this ghost wing, and also parasitized the residual consciousness of the ghost car into my body?"

Wang Xuan didn't know it well, he managed to assimilate the consciousness of the monsters and the blue crystal scales, leaving no hidden danger of backlash. If the consciousness of the ghost car was left because of the ghost wings, it would be troublesome. Thinking of the ghost car The power of the bird, if this ray of consciousness grows and becomes stronger, no one can guarantee whether it will bite back and take away its body.

With this awareness, Wang Xuan immediately concentrated his mind, and even opened the Eye of Fear on his forehead.

A rune faintly appeared in his Eye of Fear. This was the Eye of Fear that had grown into the second form, and its power was enhanced. With the help of the power of the Eye of Fear, he immediately locked this ray of consciousness in the white light. .

If it weren't for the fact that I couldn't sleep tonight, suddenly on a whim, I meditated cross-legged in boredom, and sensed the white light with my heart, I would not have discovered this hidden consciousness at all.

This ray of consciousness is too thin and seems to be absent. At this moment, it is locked by the Eye of Fear, and there is a trace of fear in it.

It seems that no matter how powerful an existence was, it is impossible to escape this source of fear after falling into such an end.

Sensing this trace of the source of fear, Wang Xuan's heart was settled, and he immediately smashed the Eye of Fear with all his strength. He wanted to erase this ray of consciousness and turn it into pure soul energy, just like the monsters and blue crystal scales. , and then absorb it and turn it into a part of your own soul energy.

He could sense this wisp of unconscious struggle, but unfortunately it was too weak. It was like a candle in the wind. With the power of the Eye of Fear he activated, he immediately wiped it away. , From the ghost wing that stretched out from his back, a powerful force suddenly surged out. This force was suddenly uncontrollable, poured into his body, and instantly merged with that faint consciousness. .

This consciousness gained strength, became stronger, stretched out from the white light, and wanted to tear the white light from it.

Wang Xuan never expected such a reaction from the ghost car. He can no longer control the ghost wings, and only feels that his right hand is about to be torn apart. What's more terrifying is the severe pain in his head, like a needle stick. went in.

Wang Xuan immediately understood that the consciousness hidden in the ghost wings wanted to devour his own consciousness.

Originally, this consciousness was hidden in the white light of his right hand, lurking still, obviously wanting to gradually become stronger, and finally swallow his soul consciousness and occupy his body.

I don't want to be discovered by Wang Xuan tonight. Under the power of the Eye of Fear, it has nowhere to hide. It can only use the power hidden in the ghost wings to prepare for the last fight and launch it in advance. I want to use Wang Xuan's soul consciousness. devour.

The power of the demon beast and the blue crystal scales were activated almost simultaneously. In Wang Xuan's right hand, four metal tentacles stretched out instantly, claws and claws in the void, each of these metal tentacles lit up with a dazzling blue light, and now he Already in a super state, his body is

tyrannical, and the strongest power he can withstand is several times that of his prime state, which allows him to burst out the power hidden in the more powerful blue crystal scales.

Several kinds of power erupted in an instant, and the four metal tentacles moved back, entangling the open ghost wings, and the blue dim light was released, almost covering the ghost wings.

The power of the magical beast and the blue crystal scales is combined to suppress the ghost wings with all their strength. Wang Xuan understands that the reason why this ray of consciousness is powerful is because the ghost wings provide it with powerful energy. Cut off, it's just a wispy remnant of the soul, nothing to be afraid of.

In the bedroom, a strange scene happened. The metal tentacles controlled by Wang Xuan were fighting against the ghost wings that grew out of his back.

The metal tentacles completely entangled the ghost wings and kept shrinking, and the ability of "twisting and strangling" was activated. These four tentacles were squirming and shrinking, trying to smash the ghost wings.

The ghost wings kept vibrating, trying to break the metal tentacles in turn.

Between life and death, Wang Xuan's mind was calm, and his left hand quickly opened the Xumi mustard space and took out the Book of Giants. If the situation was not right, he would do whatever it takes to activate the Book of Giants and summon the existence hidden at the end of the darkness. , to erase a wisp of remnant soul consciousness in this ghost wing.

When Wang Xuan fully activated the energy in the blue crystal scales, he realized for the first time that the energy in the blue crystal scales was more powerful than he imagined. The strength of the body in this state was still unbearable, and immediately there was a slight brittle sound of dense accumulation, which was the sound of strained muscles that could not bear it.

This surprised Wang Xuan. He was busy concentrating a part of the energy of the blue crystal scales. He could only hear the crunchy sound of "kecha" and "kecha". The blue dim light released by the four metal tentacles completely covered the ghost wings. Under the entanglement of the metal tentacles, the wings twisted like a twist and squeezed toward the center.

The power of the ghost wings was suppressed and cut off. Without the support of this power, the ghost car remnant that originally wanted to devour Wang Xuan's soul consciousness immediately became invisible and fragile again. This impact not only failed to swallow it. Wang Xuan, on the contrary, was equivalent to throwing himself into the net. When he hit it, it was like an egg hitting a stone, and it shattered immediately.

Wang Xuan's original pain suddenly disappeared, followed by a clear brain, and a cool breath seemed to pour in, making him feel that his brain seemed to be spinning faster. Emerging one by one gave him a better memory.

Wang Xuan understands that this is because he has absorbed the broken soul of the ghost car, which further strengthens his soul. It can be said that his current soul is equivalent to absorbing and

assimilating the soul fragments of monsters, blue crystal scales and ghost cars. Compared to ordinary people, his soul is much stronger.

The energy of the blue crystal scales in the body shrank, and the four metal tentacles also shrank back, but the ghost wings that were twisted and deformed were changing, and black lights appeared on the surface, which were twisted and deformed. Steel feathers stretched straight again. Not only that, but the muscles on Wang Xuan's left back began to itch and protrude outwards. Suddenly, a steel feather appeared, cut through the pajamas outside, and stretched out.

He completely fused the remaining soul of the ghost car, and it was only at this moment that he truly mastered the power of ghost wings.

With the complete mastery of this power, under the control of Wang Xuan, a hidden power burst in the ghost wing. The ghost wing on the right was raised high. The ghost wing formed by steel feathers was two meters long. There was also a steel feather sticking out from his left back, but it was weak and unable to fully extend the ghost wing on the left.

Wang Xuan understands that this is because the ghost wing lacks energy, and it needs to draw more powerful energy to fully grow the ghost wing on the left.

If the ghost wing in the past existed only by relying on his magical beast, then as he assimilated the ghost car remnant and completely mastered the ghost wing, Wang Xuan had a feeling that the ghost wing, or more accurately, it should be The ghost car is almost equivalent to owning a second hatching beast.

This feeling is very strange.

"It's unbelievable... The ghost car, it feels like I have a second hatching beast, but the only downside is that the evolution of the beast requires energy, this ghost car needs to draw enough energy to become stronger, I You have to kill more monsters and draw more energy than the average person."

His heart shook, Wang Xuan took a deep breath, his face was full of joy, and then slowly retracted the ghost wings on his back, submerged in his body, everything returned to normal, and put away the Book of Giants held in his left hand again.

Chapter 202

Although the ghost car is like the second hatching beast he owns, the actual ghost car is still very different from his monster.

For example, ghost cars do not have a clear growth pattern like Warcraft, and certain conditions are needed to grow and break through. These ghost cars do not have any.

What he can perceive is that the ghost car lacks enough energy now, so the second wing cannot grow out completely. As long as it absorbs enough energy, the ghost car can grow, which is obviously different from normal hatching beasts.

Thinking of the ghost car, the scene of the ghost car bird fighting with the white giant tiger appeared again in my mind.

"Then Tang Ruoyu knows the ghost car, but she doesn't know what she has to do with the ghost car."

Wang Xuan thought that Tang Ruoyu had recognized the ghost car after winning the hatching corpse that day, and she seemed to have some connection with the ghost car.

"This Tang Ruoyu is mysterious and mysterious. It is said that she is suspected of coming from above, but she does not belong to the five major cities."

Wang Xuan's thoughts fluctuated, he thought a lot, and finally calmed down and fell asleep slowly.

When he woke up again, it was already bright outside, so he was busy getting up to wash, put on four ghost equipment and a silver scale helmet, and went downstairs. He Mingli and Shi Lei were already awake, but they and Cheng Aiguo, Meng Liandu stayed here, waiting for him to go downstairs.

Xiaogairu is a guardian deity guarding the door. Now it is majestic and terrifying, and even the powerhouse at the peak of its state may not be its opponent. It can be said that without Wang Xuan's order, it is true that strangers should not approach.

Wang Xuan beckoned and put the little girl away. He thought of the appointment with the five leaders, and the time had come, so he briefly said a few words to Cheng Aiguo and He Mingli, and asked them to go to Centipede Island to practice and strive to break through as soon as possible. After being promoted to the perfect state, he rushed to the glass column in the center of the square.

When he arrived, the five chiefs had already arrived by the glass column's No. 9 elevator, and were only waiting for him.

Beside them, there are also important figures from the five major forces, such as Qiu Yuanfeng, Chu Boyu, and Chen Daolin, but about what happened to the world above, the five leaders did not elaborate, and even they did not know.

At present, they only know that the five leaders and Wang Xuan will enter the No. 9 elevator together and go to the upper world.

Seeing Wang Xuan coming, Wan Qianying opened the door of the No. 9 elevator and said, "Everyone is here, let's go."

After speaking, she walked in first.

Dynasty leader Huang Qingzhi and Justice League leader Qiao Jingping walked in one after another.

Xu Jian nodded towards Wang Xuan. He hadn't seen him all night. Wang Xuan saw that Xu Jian looked haggard. It seemed that he was in a heavy heart, and he probably didn't sleep well last night.

Gongyangxuan and Xu Jian, the new leaders of the Rakshasa, walked in one after another, and Wang Xuan was the last to enter.

Qiu Yuanfeng, Chu Boyu and others were not qualified to enter, so they could only watch the leader leave.

"Chu Boyu, you may not be able to get down soon after going up this trip. You are responsible for the affairs of the dynasty." Huang Qingzhi looked at Chu Boyu outside and gave an order.

"Understood, leader." Chu Boyu nodded in command.

The elevator door was closed, and everyone was immediately cut off from the outside world.

Wan Qianying pressed the button leading to the third floor. A circle of light appeared on the surface of the button. After that, the elevator vibrated slightly and began to ascend.

Soon, the elevator stopped the slight vibration, and the door in front of him silently reopened.

The six people in the elevator all showed vigilance and alertness, observing the situation outside the elevator.

There is nothing to see outside, only a layer of white light curtain.

Wan Qianying was startled and walked out first.

She passed through the white light curtain and was bounced back right after.

Gongyang Xuan, who followed closely, also touched the light curtain and was also pushed back by an invisible force.

Wang Xuan released the metal tentacles and passed through the white light, feeling that he had touched an invisible force. When he exerted force, the invisible force bounced back his metal tentacles.

At the same moment, a message appeared in his mind.

"In and out of the third floor, you need a **** clown mask to exchange for a permanent pass."

Upon sensing this information, Wang Xuan immediately understood that he had followed Xu Jian from the No. 8 elevator to the third floor. He did not need a pass and could enter directly because the No. 8 elevator had broken down at that time.

If there is no fault, under normal circumstances, if you want to enter the third layer of the world, you must use the "Hell Clown Mask" to exchange for the pass, just like when he entered the insect town on the second floor from the first floor, he also needs the clown mask to exchange for the pass.

Everyone tried it, and they were bounced back by the light curtain, looking at each other and looking at each other.

Wan Qianying said: "It seems that if we want to go up, we need to get this 'Hell Clown Mask' first."

"Hell clown mask, that should be in the **** tower at the end of the insect kingdom." Xu Jian thought for a while.

Wan Qianying's eyes flashed slightly, and she said, "Let's talk about it first." As she spoke, she pressed the button on the second floor, and the elevator door closed again.

The elevator vibrated slightly, taking them down again.

When the slight vibration stopped, the elevator door opened, and the six of them returned to Insect Town.

When they got out of the elevator, Qiu Yuanfeng, Chu Boyu, Chen Daolin and others had dispersed, leaving only some members of the five major forces. Their main task was to receive and register the newcomers coming up from the downstairs here.

Suddenly, the five leaders came out again, and they were busy salute.

The mood of the five leaders was a little heavy, and they just waved their hands at them, then left the elevator and walked towards a building.

Qiao Jingping said: "What do we do next? Let's go to the Hell Tower together to find this **** clown mask?"

Wan Qianying said: "That's the only way. The six of us need six masks. If you have no problem, we will go now."

Huang Qingzhi spread his hands and said, "I'm fine, how about you?"

Wan Qianying saw Wang Xuan and Xu Jian nodded one after another, and said, "Okay, then let's set off immediately and go to the Hell Tower."

While talking, he took out the heart of the mechanical beast from the storage space of the storage belt tied around his waist, and threw it to the ground, turning it into a huge mechanical giant bear.

She jumped up and rode on.

Xu Jian, Huang Qingzhi, Qiao Jingping, and Gong Yangxuan all took out the heart of the mechanical beast and summoned the mechanical beast, and Wang Xuan also summoned Xiaojiao.

Among the six major mechanical beasts, Xiaojiao has the largest body and seems to be a standout. The other leaders are a little envious when they see it.

Everyone turned over and mounted the mechanical beast one after another, still headed by Wan Qianying, she shouted: "Go!"

Riding a mechanical giant bear, he took the lead and rushed towards the north gate.

Several other leaders followed closely, and Wang Xuan was not in a hurry when he rode Xiaojiao.

His little girl was the fastest, and he didn't want to steal the limelight, so he let her slow down and follow behind.

Six people and six riders whizzed past, and the mechanical beast stepped on the ground of the square and made a crisp sound, attracting the attention of many people.

Although everyone didn't know what happened, but in the battle of the insect tide, the people in Insect Town were no longer unfamiliar with Wang Xuan and the five leaders. Suddenly they saw that the most powerful and powerful six people in Insect Town gathered together and moved Beimian ran wild, and immediately understood that something big must have happened.

These people talked a lot in private, and they were all guessing why the six went to the Beimian insect country.

There are five people guarding the North Gate, one from each of the five major forces, but the North Gate is usually deserted, and basically no one comes in or out. These five people are chatting lazily, and suddenly they see six people riding mechanical beasts. After sprinting over, the momentum was amazing, and everyone was shocked. The first reaction was to jump up from the ground.

When they saw the equipment they were wearing, they knew their identities. All five of them straightened their waists and wanted to salute. The six people, headed by Wan Qianying, had already rushed out of the north gate. A puff of smoke rose.

Outside the north gate is the country of insects. You can see a lot of rolling hills and weeds between the hills.

Wang Xuan rode Xiaojiao and followed the five people. There was a bug wave before. He and everyone came here once, but they came here again so quickly.

Looking far into the distance, I could vaguely see the shadow of a tower in Mohu. There is the end of the North Country, the Hell Tower.

The six mechanical beasts ran all the way, and soon climbed a hill, alarming the hordes of giant insects ahead.

These are all armor bugs. Wang Xuan had seen them in the bug wave before, and only three stars were dangerous, comparable to the sub-body among hatching beasts.

Groups of armor bugs appeared, but they were not afraid of death, and they came surging forward without being intimidated by the momentum of the six people.

Wan Qianying was disdainful of shooting at them. The giant mechanical bear she was riding was like a tank rolling over. This three-star dangerous armor bug was vulnerable to a single blow.

The speed of the six people kept going, and the hundreds of armor bugs that poured out couldn't stop the crowd at all.

Afterwards, everyone encountered various insects from time to time, which were basically what Wang Xuan had seen during the insect wave, but the number was not so terrifying, there were giant armor insects with a three-and-half danger degree, and fiery red bullet ants with strength comparable to adults. and four-star spiders.

Basically, there are hundreds of insects in each group, and the six people crushed them all the way, basically no need to shoot, relying on the mechanical beast to lead them to rush over.

Of course, among these insects, occasionally there will be a few powerful insects, and the danger level can reach the five-star or five-and-half-star level. resolved quickly.

The six people rode the mechanical beasts, and they all retained their physical strength as much as possible, and would not shoot at will.

Wang Xuan looked into the distance, and the Hell Tower, which was originally extremely model lake, seemed clearer and taller. He understood that they were constantly approaching. According to this speed, they kept going all the way. After about half an hour, they should be able to reach the Hell Tower.

This journey has been running wildly until now. Except for the six of them, no one has been seen. Although the insects around are not enough to threaten everyone, but after entering the insect country, everyone felt an invisible sense of oppression in their hearts.

This is the oppression of the king bug.

The worm country is the kingdom of king worms. Although king worms are generally sleeping, everyone still feels a little uneasy when they enter here.

"The deeper you go, the closer you get to the place where the king worm is sleeping. Everyone should try to restrain themselves as much as possible, and try not to make a move if they can."

Wan Qianying reminded everyone with a light drink, and then patted the mechanical giant bear who stepped down to avoid the insects that came up.

"Yeah, it's best not to make a loud noise. If you really wake up Wang Zong, it will be over." Qiao Jingping added, with a trace of nervousness on his face.

Wang Xuan glanced at the leader of the Justice League, and found that among the five leaders, Qiao Jingping was the youngest in terms of courage.

Gongyangxuan's face has always been shy as if he has never entered the world, but after Wang Xuan learned about his relationship with Gongyangjun, he was very wary of him in his heart.

"There's something wrong there." Xu Jian suddenly raised his head and looked into the distance, frowning slightly.

Wang Xuan also saw that on a distant hill, there were piles of various insect corpses. Above these piled insect corpses, there seemed to be something hidden in the void. Flickering slightly.

Everyone noticed it, and they were all slightly surprised, but they were too far away to see it clearly.

Wan Qianying saw it, and immediately changed the direction of the mechanical giant bear, obviously wanting to see what happened.

Others have no objection. Everyone is a little curious, and they feel that there seems to be something there. If there is a genius and treasure born, no one wants to miss this opportunity.

As they approached, everyone noticed the vague phantom that shrouded the hill. It was suspected to be a giant tiger. Tiger roar, that imposing manner is unpredictable, in addition to the insect corpses piled up on the hills, there are more insects around, including the bullet giant ant that Wang Xuan had seen in the insect tide, and the spider with six stars on its back. These are all insects with a five-star danger level comparable to the powerhouses.

It's just that these insects seem to be afraid at this moment and slowly recede around.

When Wang Xuan saw it, his heart trembled slightly. This giant tiger phantom was somewhat similar to the giant white tiger he had seen in the illusory world created by the strange tree.

When Xu Jian, Wan Qianying and the others saw it, there was a soft sound in their mouths. The six people appeared on the mechanical beast, which alarmed the insects that were retreating. They turned around and suddenly retreated like a tide. .

Soon around this hill, except for the insect corpses all over the ground, there was not a single living insect left.

"It's her?" Wan Qianying was slightly surprised.

Wang Xuan saw a woman sitting cross-legged among the swarms of insect corpses on the hill.

This woman, with an excellent figure, closed her eyes, and the phantom-shaped white tiger was shrouded in all directions. She seemed to be under the protection of this phantom, cutting off all contact with the outside world.

This woman is Tang Ruoyu.

"She is..." Xu Jian frowned and said suddenly, "She passed the threshold of life and death?"

Wan Qianying nodded slightly and said, "Insect Town has another super state, which is a good thing."

The six people rode mechanical beasts, stepped on the corpses all over the ground, and slowly went up the hill.

Suddenly, the tiger-shaped phantom that enveloped the void converged and disappeared. At the same moment, Tang Ruoyu, who was sitting cross-legged on the top of the hill, opened his eyes and saw them.

"Congratulations, Tang Ruoyu." Wan Qianying showed a rare smile.

Tang Ruoyu didn't speak, just stood up from the ground, stretched out his right hand, and a long white sword appeared.

This long sword began to show amazing changes. Originally, the blade was ten centimeters wide and about one meter five long. At this moment, the long sword was changing. The width increased to twenty centimeters, and the length extended to two meters. It turned into a white giant sword.

There are white substances floating on the giant sword, and soon the two tiger claws on the sword body and the tiger claws at the end of the sword hilt are combined together to form a white tiger, lying on the giant sword, the overall shape, but there is a bit of hideousness and murderousness in the weirdness.

She clasped the giant sword lying on the white tiger in her hands, as if she was feeling something, and slowly let go of her hands again. The giant sword converged and quickly disappeared into her right hand.

"Miss Tang, congratulations on breaking through to the super state." Xu Jian stepped forward and said, "Now there is a big problem with the elevator leading to the third floor, the spare elevator No. 9 has been activated, and we must go to the **** tower to get the **** clown. Only with a mask can you enter the third floor, since you are supernatural, are you willing to join us?"

Going up from the No. 9 elevator, no one knows where it leads to the third-layer world. There are all kinds of sinister possibilities. Xu Jian naturally hopes that the more people go up together, the better.

Tang Ruoyu heard the news, a look of surprise crossed his face, looked at them, and nodded.

Xu Jian let out a breath and said, "Okay, then let's go to the Hell Tower together."

Wan Qianying glanced at Tang Ruoyu and seemed to be accustomed to her indifference. Seeing her nodding, she tapped the mechanical giant bear, changed direction, and continued to run towards the Hell Tower.

Tang Ruoyu took out the heart of a mechanical beast~www.mtlnovel.com~ and turned it into a giant mechanical tiger. She rode on the giant tiger and fell to the back of the team, looking very out of place and out of tune with everyone.

Along the way, everyone encountered swarms of insects from time to time. Fortunately, these insects were not enough to threaten the seven super-powerful people. Everyone still passed through relatively easily. As the **** tower in the distance gradually became clear, everyone slowly approached.

As they got closer, Wang Xuancai could see that the **** tower was divided into nine floors. From the outside, it was blue-gray, and the surface seemed to be covered with a layer of fluorescent light. , Wang Xuan noticed the grandeur of this **** tower.

"Brother Jian, why is this called the Hell Tower? There are also a lot of insects in it?" Wang Xuan asked Xiao Gao to catch up with Xu Jian and run alongside him.

Xu Jian said: "The Hell Tower should be regarded as the most special place in the entire insect town. It is said that this tower is not a product of this world, so it is not bound by the rules of this world, and even if it exerts its supernatural power, it will not be suppressed by the power of the world. "

Within one kilometer of the **** tower, there will be no insects. Those insects will only approach the edge of one kilometer at most, and they will not come closer. It seems that they have an instinctive fear of this **** tower.

Wan Qianying, who was headed by him, rode the mechanical giant bear, and also began to slow down.

Everyone breathed a sigh of relief, from starting to crossing the insect country and arriving at the **** tower at the end of the insect country, although everyone did not encounter too powerful insects, they still felt that it was not easy.

"It is said that this tower is from hell, and some say that this is the entrance to hell." Wan Qianying said: "The purpose of our visit this time is the masks of the clowns of hell. When we collect seven clown masks, we will immediately Leave, don't stay in the tower for too long, lest you be attacked."

Chapter 203

When Wang Xuan heard what she said, his heart froze slightly, and said, "Boss Wan, if you stay in this **** tower for too long, will it backfire?"

"Yes, it is said that this tower is the entrance to hell. It seems to be filled with some indescribable power. If it stays for a long time, it will be affected, the will of people will become weak, and the hatching beast will also be affected, which is prone to bite. In the case of the Lord, once this happens, it will be troublesome, so you must not stay in this **** tower for a long time."

Wan Qianying's words made Wang Xuan's brows wrinkle. Looking at Xu Jian's serious expressions, it was obvious that these leaders should all know about this situation.

Xu Jian said: "Actually, it depends on the individual. As long as we are strong-minded, we will basically not be affected too much. Besides, the purpose of our coming here is the clown mask of hell. As long as we have all the pieces together, we can leave immediately. It will be fine. , don't worry too much, let's go."

After he finished riding the mechanical beast, he headed to the Hell Tower first.

The others followed closely, and Wang Xuan fell to the back of the team. Seeing that Tang Ruoyu was still silent, there was no expression on his face, and he just followed behind the crowd.

The seven people arrived at the tower one after another, and the two tower doors on the front were closed. Xu Jian came to the door, turned over and got off the mechanical beast, and entered a state of integration with the mechanical beast. There were four beast arms that stretched out more than one meter behind him. In the state of battle, he pushed the door with both hands.

With a soft sound, the two closed doors were slowly pushed open.

Everyone got off the mechanical beast, or entered a state of integration with the mechanical beast, or directly put away the mechanical beast.

Wang Xuan rolled over to the ground, and looked inside along the opened tower door, but saw a darkness inside, and he could barely reach out his fingers. With his current vision, it was difficult to see five meters away.

Wan Qianying took out an illuminating crystal from the storage belt with her left hand, and rubbed it on the surface, and soon a dazzling light appeared in the illuminating crystal, shining towards it.

With the help of the light from the lighting crystal, Wang Xuan saw that inside the tower gate on the first floor of the Hell Tower, a giant stone slab was raised on the ground. Below the stone slab was a cave. What, and apart from the giant stone slabs lifted up and the cave below, this tower is empty and empty, and there is no stairs to go to the second tower.

Xu Jian also took out a lighting crystal and walked in slowly, followed by Wan Qianying.

Xu Jian and Wan Qianying walked to the edge of the cave under the stone slab, and Wan Qianying threw the lighting crystal in her hand and observed the situation in the cave with the light released by the falling lighting crystal.

Seeing that Wang Xuan was constantly looking around, with a hint of doubt on his face, he understood what he was thinking, and said, "Wang Xuan, is it strange that there are no passages or stairs going up here?"

Wang Xuan glanced at him and nodded slightly, he was indeed a little puzzled.

Huang Qingzhi said: "That's why this tower is called the Hell Tower. From the outside, the tower has nine floors, but when you enter here, you will find that the top and bottom of the tower are upside down, and there is no upward passage. Only On the way down, there is a nine-story tower from the outside, and the nine-story underground on the inside."

Wang Xuan showed a surprised look and said, "Is there such a thing?"

"Yes, this ground cave is the entrance of the passage. Entering here is considered to be truly entering the Hell Tower. There is also a rumor that whoever enters the ninth underground floor of the Hell Tower can obtain the certificate of king."

"The certificate of the king who can leave this building?"

"Yes, it is the certificate of the king that you can leave here. It is said that every floor of this building has the certificate of king. The first floor is the north area of the corridor, and the second floor is the ninth underground floor of the **** tower. I don't know where the King's Certificate on the third floor is." Huang Qingzhi shook his head when he said this.

Wang Xuan's mind became active. Since these two places hide the certificate of the king, it may be difficult for others to obtain it, but if he owns the Book of Giants, he may be able to give it a try.

If you directly summon the Book of Giants, can you use this existence hidden in the bottom of the darkness to obtain the certificate of king?

Xu Jian turned his head to look at Huang Qingzhi, and then said to Wang Xuan: "You don't want to listen to him, in fact, what he said was just a legend passed down from above. No one knows what the truth is, at least no one has heard it so far. Those who can obtain the king's certificate, don't take the rumors as facts and take risks."

Wang Xuan nodded and said, "I see."

At this moment, Wan Qianying was the first to get into the cave and began to slide down.

"Everyone, be careful to prevent the fallen." Wan Qianying's voice came from below the cave, apparently she had fallen to the bottom of the cave.

Xu Jian followed and slid down.

Wang Xuan noticed that the cave was sloping down, and the walls were very smooth, and it was easy to slide down the slope.

Huang Qingzhi, Qiao Jingping and Gong Yangxuan slid down one after another, and then Wang Xuan motioned for Tang Ruoyu to go down.

This time Tang Ruoyu did not refuse, and slid down behind Gongyangxuan.

Wang Xuan followed closely, and finally Xiaojiao.

The **** of the cave was about thirty meters. When Wang Xuan fell to the ground, Wan Qianying, Xu Jian, and Qiao Jingping were each holding a lighting crystal and observing their surroundings.

"This is the real first floor of the Hell Tower." Huang Qingzhi said while introducing to Wang Xuan.

He knew that Wang Xuan was entering this place for the first time, and he was a better teacher.

Wang Xuan said: "What is the fallen person that the leader Wan said just now?" Wan Qianying can remind everyone to be careful, this fallen person must not be simple.

"The Fallen..." The expression on Huang Qingzhi's face changed slightly, as he was about to explain, when suddenly in the darkness ahead, a black shadow appeared silently, rushing towards Wan Qianying at the forefront.

Although the shadow came suddenly and the speed was astonishingly fast, although Wan Qianying had been on guard for a long time, it was still too late to dodge.

In the light of several illuminating crystals, the black shadow that suddenly popped out showed its true appearance. It was a huge dog as big as a calf, but it had a human face and a clown mask on its face, making it look like Unspeakably funny and weird.

Its raised claws were cast like steel, and a layer of black mist lingered faintly on the surface.

The black mist claws caught on Wan Qianying's rising white fireball. With a thud, the fireball burst. Its claws suddenly surged forward, cutting through the two layers of defense on Wan Qianying's body and grabbed it into her chest. .

Wan Qianying groaned and fell back, while Xu Jian's six beast arms spread out together, like a six-clawed spider, and six fists slammed wildly.

When Wang Xuan saw the monster with the head and body of a dog wearing a clown mask, he immediately understood that this monster must be the **** clown they were looking for this time.

Here, without the power of the world to suppress, the super state can fully exert its true power. This **** clown can hurt Wan Qianying with one blow, which is definitely the strength of the super state.

For the first time, Wang Xuan saw Xu Jian's true power without the power of the world. On the six beast arms he swung out, the scales were slightly tilted up, making a squeaking sound, and there were faint hints in the scales. The light appeared, and these shimmering lights converged on his six fists. These six fists were punched with a faint sound of tearing the air, and the speed was as fast as lightning.

"Bang bang bang-"

In an instant, there were six dull and loud noises. Xu Jian's power that did not need to be suppressed completely exploded, but he failed to hit the **** clown. A black mist rose up on the surface of his body, and all the six punches penetrated into the black mist. .

Xu Jian was unsteady, feeling like he was stuck in a pile of cotton, unable to concentrate, and felt an indescribable discomfort.

Wan Qianying was injured and retreated, Xu Jian was blocked by the black mist, Qiao Jingping and Gong Yangxuan shot one after another.

Qiao Jingping let out a low shout, and a giant blade with a length of two meters appeared in his hand. He swung the giant blade away and slashed in the air. A blade wind broke through the darkness and flew out in the air.

Without suppression, the power of this volley slash was more than two or three times greater than the last time in the insect wave.

Gongyang Xuan still raised his right hand, and glass mirrors appeared one after another, surrounding the **** clown.

Tang Ruoyu stretched out his right hand, a white giant sword twenty centimeters wide and two meters long appeared, and the white tiger lying on the giant sword came alive like a living creature.

However, like Wang Xuan, she didn't make a move. Several leaders surrounded him and trapped the **** clown. They had no room to intervene.

Although the **** clown is powerful, it is not inferior to the general super powerhouse, but it can't hold back several leaders at the same time. It just showed a cloud of black mist to block Xu Jian's attack, and the giant blade that Qiao Jingping slashed was lifted by it. In the harsh sound, it couldn't resist, one claw was cut off, and it flew out.

Gong Yangxuan pointed his right hand at the back, and a dozen glass mirrors slammed into it and shattered. The **** clown groaned. Like the glass mirror, there were a lot of cracks on the surface of the body. The injuries were visible to the bones, and a lot of blood flowed out.

Huang Qingzhi jumped up, his right hand dropped, and a wind blade fell from top to bottom, entering the body of the **** clown, and then propped it open from the inside out.

Wang Xuan saw that a huge crack was torn open from the back crest of the **** clown by invisible force, and even the vertebrae of the crest were exposed.

A white scale appeared and sank into Huang Qingzhi's right hand. Obviously, he had just hit the **** clown just now.

Watching the corpse of the **** clown fall down, Huang Qingzhi grabbed his right hand from the air, and a whirlwind appeared, wrapping the clown mask on the monster's face and falling onto his right hand.

"Here's the clown mask from hell, and we're still six short of it," he said as he tucked it into his storage belt.

Wan Qianying's injuries were not light, but fortunately, she quickly took out a bottle of primary healing water and drank it. The wound on her chest showed a gleaming white light, and the wound healed quickly.

"Let's go, we can leave after killing six more." This time Huang Qingzhi took the lead, and Qiao Jingping followed behind with the lighting crystal.

Wang Xuan and Tang Ruoyu took Xiaojiao to the back of the team.

He has just opened the "eye of the illustrated book" to capture the information of this **** clown. In terms of danger, it is six-star, but it is also a six-star danger, but its strength is terrifying, at least much stronger than the scorpion lord of Scorpion City. .

The first floor of the **** tower is surrounded by darkness. With the help of the light of the illuminating crystal, Wang Xuan can see that this is a huge passage, about 20 meters wide and 20 to 30 meters high, with walls on both sides. Engraved with some complex symbols, it looks like some kind of text, but everyone doesn't know it.

Everyone walked along the front of the giant passage. They had just walked less than 30 meters. After Wang Xuan and Tang Ruoyu broke up, they looked around and behind from time to time.

Even so, Wang Xuan still felt uneasy in his heart, and suddenly felt that something was wrong, and it was almost too late to turn around or dodge, the ghost wings behind him instantly appeared, covering his head, face and body.

With a "bang", something appeared in the air, and the slanting thorns swooped down, hitting the open ghost wings hard. Wang Xuan felt like he was hit by a crazy rhino, and the huge force hit him and fell forward.

Fortunately, he reacted very quickly, the four metal tentacles spread out together, propped on the ground, immediately stabilized his body, moved laterally at the same time, and turned his head, only to see a **** clown silently appeared where he was standing just now. Huang Qingzhi killed exactly the same.

If it weren't for Wang Xuan's instinctive vigilance and quick reaction, he would have been seriously injured if he didn't die now.

One blow failed to kill Wang Xuan, the **** clown twisted and wanted to continue to attack Wang Xuan, but Tang Ruoyu on the side shot, and the two-meter-long white giant sword swept across.

A cloud of black mist rose from the body of the **** clown, and the white giant sword slashed on it, as if it was cut into a pile of cotton, with nowhere to bear.

Tang Ruoyu's eyes flickered, and he shook the sword in his right hand. The white tiger lying on his stomach suddenly swelled up, and jumped out along the sword. A pair of tiger claws caught in the black mist, and with a snort, blood splashed out, this **** clown. Shaking back, he was caught with a huge **** wound on his body.

Xiaojiao rushed from behind, a pair of flaming claws caught the back of the **** clown, opened his **** mouth, exposed metal fangs, and bit the **** clown's crest viciously.

Wang Xuan supported the ground with the help of the metal tentacles, stabilized his body, then turned around, waved his right hand, and the four metal tentacles were drawn like whips.

"Papapapa" followed by four crisp sounds, and the clown of **** stood up, trying to get rid of the little girl who was pressing on it, just as a pair of front claws came out, they were connected by the metal tentacles controlled by Wang Xuan. draw.

There is no need to suppress the power, the power of each draw is astonishing, and the air faintly sounded a sonic boom.

The body of the **** clown who had just stood up was pulled down again, and the little girl's metal fangs bit into the vertebrae of its back.

The metal tentacles controlled by Wang Xuan wrapped around from all around, and immediately bound the limbs of the **** clown together with the body.

No matter how it struggled to react, Wang Xuan launched "Twisting and Strangulation" with all his strength, and the four metal tentacles lit up with a blue light, which was the power of the blue crystal scales being triggered.

The crackling sound of the cricket was incessant, and blood spurted out of the open mouth of the **** clown, and the body and limbs were twisted like a twist. Come.

Seeing that Wang Xuan had succeeded, the others watched, but Huang Qingzhi nodded and smiled: "Yes, now there are two clown masks."

Qiao Jingping said: "According to this speed, it will take a while to complete."

Xu Jian said solemnly: "Don't be careless, it's best for everyone to take out a lighting crystal and illuminate it as far as possible. If they quietly approach us and then attack us suddenly, it is still very dangerous. These clowns from **** will Attack from wherever possible."

Wang Xuan understood that what Xu Jian said was very reasonable. Thanks to his assimilation with Warcraft, he instinctively sensed that something was wrong. He could react in an instant, protect him with ghost wings, and if another person was suddenly attacked by the **** clown, it would be dangerous.

Qiao Jingping said: "This makes sense, especially the above, everyone will easily ignore..."

He raised his head as he spoke, and then a black shadow appeared from above, silently, suddenly magnifying in front of him.

Suddenly, he received a blow on his raised face.

This came down too suddenly, without the slightest sign in advance, even if Qiao Jingping was a super-powerful person, it was too late to react.

It was too late when he saw the black shadow above and wanted to dodge. The other party was too fast, faster than the two **** clowns who had just appeared. Qiao Jingping didn't even have time to see what the other party was, and his head exploded in an instant. .

Even if Wang Xuan possessed the super instinctive sense of Warcraft, at the moment he only felt a strong sense of uneasiness, he turned his head reluctantly, and saw a black shadow falling from the sky, even if he wanted to save it, it was too late. Qiao Jingping's face was hit by the shadow, and his head exploded like a watermelon hit by a hammer.

Without a head, even a super-powerful person with a strong self-healing ability would have to die immediately.

When the incident happened suddenly, everyone was shocked. Wang Xuan reacted the most quickly. Four metal tentacles wrapped the body of the **** clown who had been squeezed to death.

Immediately after Wan Qianying, Xu Jian, Gongyangxuan and Huang Qingzhi reacted, the first reaction was to distance themselves.

"Boom", Wang Xuan's attack was too fast, the shadow was hit, and a terrifying loud noise broke out. The four metal tentacles wrapped around it opened, like four giant pythons with their teeth and claws, wrapping around the shadow. go.

The headless corpse of Qiao Jingping is falling down, and a white light emerges from his right hand. This white light contains powerful life energy. This is the body of the hatching beast. It has evolved to a super state. With a certain autonomy, it struggled out and wanted to escape. Suddenly, some invisible force appeared, and this force was everywhere, even in the **** tower that was not a product of this world.

Without the protection of the human body, even a super-state hatching beast could not survive, and was instantly wiped out by the power of the conscious soul, turned into a pure energy, and absorbed by the shadow.

Killing Qiao Jingping and absorbing the energy of his hatched beast, is the opponent also human?

All of this happened in the blink of an eye. The corpse of the **** clown that Wang Xuan threw apart in the huge impact force, and the four metal tentacles he controlled instantly entangled the shadow. At this time, he finally saw clearly. Appearance of black shadow.

Chapter 204

This is a human being, looking around thirty, with a faint black-red light in his eyes, which looks extremely strange and terrifying in the dark.

His chest, front and back are covered with red and black hard shells. These hard shells are knotted together, like turtle shells. The surfaces of his arms and legs are also covered with this kind of red and black hard shells. When clenched into a fist, the red and black hard shells on the surface of both hands are combined together, like two round hammers, extremely hard and powerful.

It was he who swooped down in the air just now and smashed Qiao Jingping's head to pieces with this kind of hard-shelled round hammer.

The four metal tentacles launched by Wang Xuan caught him and wrapped around his whole body. He grinned and seemed to be laughing silently.

Suddenly, a tyrannical force erupted, and the red and black turtle shells covering his whole body were lifted up, and the four metal tentacles controlled by Wang Xuan could not entangle him. , pulled Wang Xuan's body into the air, and smashed towards Xu Jian who was just about to pounce on the other side.

At this moment, the images of Elder Xuancheng and the five people sitting on the blue stone seat flashed in Wang Xuan's mind.

They were attacked by the hatching beast and became half-human and half-beast. The person in front of them is very similar to them. The only difference is that the eyes of this person are glowing with red and black light. Apart from killing and madness, they can no longer see the normal feelings that humans should have. .

Wang Xuan suddenly realized that the soul and consciousness of this human being had been completely swallowed by the hatching beast, and he had turned into a real monster.

This is the true power of the hatching beast. Its power and speed are far superior to those of the **** clown that just appeared. If the strength of the five leaders is equivalent to the medium powerhouse in the super state, then the speed and power it shows at the moment are at least the same. above average.

It grabbed Wang Xuan's metal tentacles and threw it out, so fast that Xu Jian was dazzled.

Just as he opened his six arms, Wang Xuan was in front of him, and he didn't have time to dodge or resist.

It was Wang Xuan who reacted. Because the speed was too fast, it was too late to take back the metal tentacles. Behind him, there was a ghost wing, and a faint blue light appeared on the edge of the sharp steel feather, cutting along the four metal tentacles. However, the four metal tentacles immediately broke from it.

After he assimilates with the ghost car, ghost wings, like metal tentacles, can fuse with the energy of blue crystal scales to enhance their power.

At this moment, Ghost Wing borrowed the power of the blue crystal scales to cut off the metal tentacles, grabbed Xu Jian's raised beast arm with both hands, propped it up, rose into the air, and rolled over from Xu Jian's body.

"It's the Fallen!" Wan Qianying shouted with shock in her voice. Gong Yangxuan raised his right hand, and the glass mirrors rose from the ground, immediately surrounding the Fallen.

Huang Qingzhi roared and shot with all his strength.

Witnessing the death of Qiao Jingping, his heart shook. Among the five chiefs, he and Qiao Jingping had a good relationship.

The crisp sound of "Kaocha" can be heard incessantly. Gongyangxuan has just summoned a dozen glass mirrors, but it has not yet formed a complete encirclement. Form a set of defensive armor and rush up.

The glass mirrors shattered in an instant, and more than a dozen glass mirrors could not resist. Gong Yangxuan felt bad, and quickly took out a defensive crystal with his left hand and was busy crushing it.

With a bang, the defensive crystal shattered, and a defensive light curtain appeared.

The Fallen collided with the defensive light curtain, and the light curtain fluctuated endlessly.

Gongyangxuan stepped back in succession, cold sweat faintly appeared on his forehead, the shyness on his face disappeared, and for the first time he showed a solemn expression.

He raised his hands and folded them together. Suddenly, dozens of glass mirrors appeared around him. Above his head, more glass mirrors were taking shape. Although this fallen person was terrible, he kept hitting and shattering the glass mirrors. As Xuan Zai stepped back, he summoned more glass mirrors.

This is his true strength without being suppressed by the power of the world. He summoned hundreds of glass mirrors at one time, and these mirrors were arranged with each other to form a mirror world.

Countless mirrors reflect and refract, and the fallen one is in it, looking at it in all directions, it is exactly the same.

It was in it, and there was a momentary daze.

Xu Jian kicked his feet and rose into the air. The six animal arms were raised high, and the six hands joined together to form a fist mark.

This is his most powerful killer move. At this moment, there is no suppression, and he launches it with all his strength. In an instant, he reaches a height of more than ten meters, and then falls down, setting off a gust of wind, volleying towards the slightly stunned fallen man. hit.

The fallen person seemed to have come to his senses because he felt the horror of this blow. He lifted his arms up, and the black and red turtle shells on his arms were covered and smashed together, shaped like a shield, to carry Xu Jian's volley. .

There was a loud "bang", and the Fallen was hit by this blow and his body sank. Small cracks appeared where his feet stepped on, and the black and red turtle shell covering his arms immediately shattered and splashed.

Huang Qingyi didn't say a word, he waved his right hand, and a giant wind blade with a length of three or four meters flew out. He seized the opportunity of Xu Jian's volley. To cut this fallen man in half.

At this moment, an astonishing scene appeared.

The black and red tortoise shells on the fallen man's arms were all smashed, and there was blood splashing inside. It can be seen how terrifying the power of Xu Jian's blow, but the immediate reaction changed, it was faster than Xu Jian, and he flipped his hands. He stretched out, grabbed Xu Jian's two animal arms, and lifted the giant wind blade that he smashed towards Huang Qingzhi.

Huang Qingzhi was shocked, it was too late to take back the wind blade at this moment, and when he saw the wind blade, he was going to cut Xu Jian from it.

Suddenly, a figure appeared silently, two giant arms crossed, and the giant wind blade swept over by Huang Qingzhi was hit first.

It was Wang Xuan who made the sudden move. He re-manifested the four severed metal tentacles. Two of the metal tentacles wrapped around his arms, and the flesh and metal fused to reveal the giant arms of the beast.

Seeing that Xu Jian was in danger, he stretched out his arms and burst out the power of blue crystal scales. Combined with the power of the giant arm of the beast, he smashed the wind blade from top to bottom.

There are also two metal tentacles, one on the left and one on the right, like two large pythons, circling close to the ground, quietly approaching the fallen, wrapped around its feet, and pulled hard.

The Fallen was unsteady and fell out with Xu Jian, but its reaction was too fast. In this case, it still waved its arms, trying to smash Xu Jian towards Wang Xuan.

Xu Jian is not weak either, his body is shrunk, and his legs are wrapped around the Fallen's arms. He has six arms, two of which are caught, and the other four arms are wildly waving fists, like a violent storm hitting the Fallen. head face.

"No no no no" four times in a row, all the four punches he slammed were blocked by the black and red tortoise shells that appeared on the Fallen's face.

But the Fallen also wrapped his arms around him. Wang Xuan wrapped its legs with metal tentacles, and both sides pulled hard at the same time, causing it to fall heavily to the ground.

Tang Ruoyu seized the opportunity, jumped up, clasped the white giant sword in his hands, and slashed it down.

The Fallen fell to the ground and rolled with force, so powerful that Wang Xuan and Xu Jian could not control it.

A terrifying sword qi appeared, almost slashing down against its body, Tang Ruoyu missed the shot, and the ghost wings behind Wang Xuan appeared, slammed into the ground, and a gust of wind blew up. A pair of monster arms smashed down almost no slower than Tang Ruoyu.

"Boom", this time the Fallen couldn't dodge, and he hit the chest with the giant arm of the beast.

The black-red tortoise shell covering his chest shattered, and blue dim lights lit up in Wang Xuan's giant arm of the beast.

The power of the blue crystal scales exploded, combined with the super-state strength of his demon beast and the power of the original liquid to strengthen the body, all of them exploded. The power that burst out at this moment definitely surpassed the medium powerhouse in the super state.

The "Boom" sounded again, and the Fallen suddenly opened his mouth, spurting a stream of blood, the broken black-red turtle shell sank, his chest collapsed, and there was a sound of broken bones.

At the same moment, the flesh in the broken turtle shell of the fallen person cracked open, and a mass of black and red flesh wriggled, like a terrifying monster parasitic in this person's body. At this moment, he finally stopped hiding and broke the human flesh outside. Broken out.

A black-red claws with tiny hard shells on the surface broke out and grabbed Wang Xuan's chest. Those five sharp claws grabbed the ghost armor outside, inserted deeply into the chest, and pulled it fiercely.

Even the flesh and ghost armor tore off a palm-sized piece, immediately leaving a blood hole in Wang Xuan's chest.

Wang Xuan groaned in pain, the demon beast grabbed the claws with one huge arm, and waved the other huge arm, wanting to smash the head of the fallen person, when suddenly a terrifying force fell from below. The person surging out of the body, this force is too strong, directly overturned his body and fell out.

The human flesh of the fallen was completely abandoned, and a black and red humanoid monster drilled out of it.

The white flame rising from Wan Qianying's right hand formed the shape of a giant python. She grabbed the tail of the giant python with her right hand and swept it in the air.

She was suppressed by the power of the world before, and she was unable to exert the true power of the cold fire. Now there is no power to suppress the world. The giant python formed by the cold fire is majestic, with surging flames all over the body, rushing into the air, Huang Qingzhi on the other side, the talisman in the right hand. The pattern continued to rotate, and a gust of wind rose from the ground, forming a tornado. He controlled the tornado and wanted to entangle the humanoid monster and create a chance for Wan Qianying.

At this moment, he saw an incredible scene. The tornado he launched with all his strength was torn apart by the human-shaped monster with a pair of claws. It disappeared in a flash, and the flame python controlled by Wan Qianying was shot down. , was involved in this tornado, and instantly ignited the tornado, turning it into a huge pillar of fire, completely illuminating this space.

And the disappearing humanoid monster has silently appeared beside Wan Qianying.

"Be careful!" Xu Jian looked in his eyes, let out a loud roar, and rushed forward with all his strength, but it was too late at his speed.

Wan Qianying's heart froze, knowing that it was not good. Fortunately, after she recognized the fallen, she made preparations with both hands, and she had already prepared two defense crystals in her left hand to prevent accidents.

Hearing Xu Jian yelling at herself, she immediately crushed one of the defense crystals.

Almost at the same time when the defensive light curtain appeared, a claw stretched out, only a tiny difference, and was almost blocked by the defensive light curtain. As long as it slowed down for a moment, her face would be cut open by this claw, and she would be the same as Qiao Jingping. kill.

Although she escaped, Wan Qianying was already in a cold sweat. Beside her, Gong Yangxuan had a solemn expression on her face. She seized the moment when the humanoid monster was blocked by the defensive light curtain, and controlled hundreds of glass mirrors to gather together. Forming a stream of mirrors, it was like a waterfall falling from the sky, smashing down frantically, like a violent storm. The strength of this scene is simply appalling.

In Worm Town, which is suppressed by the power of the world, the strength of the five leaders seems to be similar. When everyone can show their true strength after reaching the Hell Tower, the strength gap between these leaders also appeared.

Among these leaders, the newly appointed Rakshasa leader, Gongyang Xuan, is the strongest.

The harsh sound of glass mirrors shattering continued. This terrifying humanoid monster was smashed to the ground by this round. When all the more than 100 glass mirrors were smashed and shattered, everyone saw that the humanoid monster was half-hearted. Kneeling on the ground, the black and red tortoise shells all over his body were smashed, the flesh was rolled up, and his body was covered in blood.

Gong Yangxuan controlled hundreds of glass mirrors in one breath and smashed them down. This was already his strongest blow. After the blow, he also needed to stop and breathe back.

The half-kneeling humanoid monster suddenly leaped into the air and hit Gong Yangxuan. A pair of claws stretched out and grabbed into his belly and chest.

Although it was smashed to pieces, it was seriously injured, but it has an amazing healing ability. Every wound is faintly glowing with white light, and it is healing at a speed visible to the naked eye.

A trace of shock finally flashed across Gong Yangxuan's eyes.

The power of a blow from these hundreds of glass mirrors has surpassed that of a super-powerful mid-level powerhouse. It can be said that a super-powerful powerhouse under the upper-level power can't stand it.

There is only one possibility that this humanoid monster can withstand it, it already has the superior strength in the super state.

The humanoid monster's claws had just caught in Gong Yangxuan's body when another figure appeared, hitting the humanoid monster sideways.

With a "bang", the humanoid monster flew out instantly as if it was run over by a truck.

It was Wang Xuan who suddenly appeared and hit the humanoid monster. The wound on his chest was healing, his eyes were glowing with terrifying light, and there was a faint blue light flickering inside. , forming a huge airflow, with the help of this airflow, almost at the same time that he hit the humanoid monster, he followed closely, his fists came out, and the ground shook, but was caught by the claws of the humanoid monster that fell out. .

The reaction of the humanoid monster was equally terrifying, grabbing Wang Xuan's fists with both claws, and then taking advantage of the situation, he wanted to smash Wang Xuan out.

"Okay!" Wang Xuan growled, a dazzling blue light lit up in his arms, and the power of the blue crystal scales in his body exploded at this moment to the limit he can bear now.

In the competition of strength, he has never been afraid of anyone, his arms turned to press the opponent's two claws, and he pushed forward.

"Boom", the giant arm of the beast slammed firmly on the opponent's chest.

And the speed of the humanoid monster is not slower than him, with its two claws, it grabs to his chest.

"Combined!"

At the same time, Wang Xuan summoned Xiaojiao and entered a state of fusion.

Xiaojiao turned into a rainbow light, attached to his body, stretched out, turned into a layer of mechanical shell, opened the energy shield, and added the ghost suit to form a triple defense.

The humanoid monster's claws first broke through the energy shield outside, and then cut through the mechanical shell and ghost equipment. It was blocked by these three layers of defense. Its claws were slightly slower, and before it caught Wang Xuan's body, Wang Xuan's monster arm exploded. The energy has exploded in its chest.

The shattered black-red hard shell exploded together with the flesh and blood, and the bones inside were broken and brittle.

This humanoid monster roared wildly, and blood spurted wildly from its open mouth.

Later, Huang Qingzhi seized the opportunity, volleyed vertically, the rune in his hand spun, and a giant wind blade with a length of two or three meters appeared in his hands.

This humanoid monster flew upside down, hit the wind blade, blood spurted out from the chest, and the body was pierced by the wind blade, but the force of the impact was too great, the speed was too fast, Huang Qingzhi felt bad, he was busy releasing the wind blade, wanting to Sideways dodge.

Behind the humanoid monster that was hit hard by Wang Xuan and was pierced by the wind blade, two rows of black and red turtle shells appeared inside the cracked hard shells~www.mtlnovel.com~ These turtle shells are different, each The turtle shells are the size of a palm, with exquisite patterns on the surface.

The sound of "chichichi" could not be heard, and Huang Qingzhi, who wanted to dodge, let out a miserable roar, and suddenly there were more than a dozen transparent blood holes the size of a slap in his body. Then, it emerged from his back.

The dozen or so black and red turtle shells spun in the air and returned to the humanoid monster.

Tang Ruoyu waved his right hand, and the two-meter giant sword slashed from the other side. Wan Qianying released a flaming python from his right hand and pounced on it from behind. Xu Jian jumped up, and his six hands formed fist marks, from top to bottom. , launch the strongest volley strike.

The three of them could see that the monster had suffered heavy damage and its movement speed was obviously slow.

With a "chi", the humanoid monster raised its left arm, grabbed the giant sword that Tang Ruoyu had cut down, pulled the giant sword, and smashed it towards the flame python that Wan Qianying had brought over. With a bang, Tang Ruoyu couldn't help but smash. Entering the flame python, a large amount of white flames splashed around, and she was instantly swallowed by the flames.

Wan Qianying was taken aback, and was busy trying to restrain her cold fire.

As soon as Xu Jian's volley hit the air, the monster rolled over to dodge, and with a swipe of his right paw, it grabbed into his stomach, lifted him up in the air, and smashed towards Wang Xuan, who was rushing up silently.

This monster has been severely injured, and its body is almost broken and exploded into two pieces, but at this moment, the terrifying power is still erupting, which is enough to crush the average middle-level super powerhouse.

Wang Xuan stretched out his hands and grabbed Xu Jian who was smashing it over. The power in the giant arm of the beast exploded, pulling Xu Jian and throwing it up together.

Chapter 205

The humanoid monster was busy letting go, and was about to land on the ground and stand firm when suddenly it felt bad, and was busy looking up, only to see the glass mirror flow controlled by Gong Yangxuan slammed down again.

Hundreds of glass mirrors slammed down at one time, and it was unavoidable. It was instantly submerged by countless glass mirrors, and the harsh cracking sound continued.

At the end of this round of mirror attack, it was already unsteady and fell to the ground. Wang Xuan let go of Xu Jian, who was holding on to his hands, and a ghost wing flapped his back, and pounced on it again.

On the back of this humanoid monster, more than a dozen black and red turtle shells appeared, shooting like a hurricane.

Wang Xuan had been prepared for a long time, and when the ghost wings were covered, all the dozen or so black and red turtle shells were blocked by the ghost wings. After feeling the power of these more than ten black turtle shells, he understood that although this humanoid monster was powerful, by now, after all, it is exhausted, and it is already the end of the battle.

However, he was not at all careless in order to prevent it from being a disguise and deceived him. He used ghost wings to cover the black and red tortoise shell. In addition to the two metal tentacles that fused with his arms to form the giant arm of the beast, the other two metal tentacles appeared and volleyed. past.

The humanoid monster stretched out his hands and grabbed the metal tentacles he had just drawn. Wang Xuan had already appeared in front of it, and the giant arm of the monster on the right smashed it down.

Knowing that it couldn't resist it, it reluctantly moved its body and wanted to avoid it. Wang Xuan's giant arm of beast changed direction and swept across its forehead with a snap. The monster's head that looked like a turtle immediately collapsed and twisted, and the black-red hard shell covered on the surface shattered.

The giant arm of the beast on Wang Xuan's left immediately fell, from top to bottom, hitting its forehead non-stop.

This time, he directly broke the neck of the monster, slapped its head into the chest cavity, and disappeared.

Its chest was originally tattered, but now it slapped its head in, this force exploded in its chest, and the hard shell on its back tore apart the flesh and flew out, and the vertebrae inside. , the ribs are all broken.

Watching its body distorted irregularly, and a mass of white light appeared, Wang Xuan let out a long sigh of relief.

This guy is not only terrifying in strength, but also tenacious in vitality. Until now, it is truly dead.

In the white light that appeared, there was a strong breath of life struggling, but it was quickly erased by the power in the dark and turned into pure energy, part of which was absorbed by the white light in his right hand, and part of it was Sucked away by the ghost wings in his body.

Just after the first battle, the loss of physical energy was a bit serious. Wang Xuan looked at the people around him, but saw that the wounds on their bodies were glowing with white light. Obviously, they all drank the healing water immediately after being injured, and tried their best to survive. Recover the injury in the shortest time.

In this **** tower, there are dangers everywhere, and no one knows what danger will come next.

The right hand stretched out, the metal tentacles extended out, and took off the clown mask on the face of the torn **** clown. Now they have two clown masks, Qiao Jingping is dead, they only need to get four more clown masks, they can left.

After drinking the healing water, more than a dozen blood holes in Huang Qingzhi's body healed quickly. He sighed and looked at Qiao Jingping, who had turned into a headless corpse, and murmured, "Old Qiao, I can't think of you. will be killed by the Fallen."

Wang Xuan couldn't help but ask: "What the **** is this Fallen?" He couldn't capture the information of this Fallen with the eye of the illustrated book, so he could only guess that he was a person who lost his mind after being attacked by the hatching beast, and finally the humanoid monster that got out of it. It may be the true appearance of this hatching beast.

Huang Qingzhi sighed and said, "The Fallen, like us, were originally people with hatching beasts, but they have been completely devoured by the hatching beasts, we call them the Fallen... It's all said in this **** tower. After staying for a long time, it is easy to be attacked by hatching beasts, but not everyone knows

it, especially before, many people did not know it and entered here, but something happened and they became corrupted."

Hearing this, Wang Xuan took a slight breath.

Xu Jian replied: "Wang Xuan, you should also know that if you want to enter the north area on the first floor, you need the Cerberus Teeth as a pass, and this Cerberus Teeth is hidden in this **** tower. Tooth, or other reasons, such as we want to take this **** clown mask, and the most terrifying thing is the inside of this **** tower, which is connected to a hundred towns, and on average, one town in one town has a person who enters the **** tower into a fallen person. , there are 100, even if many towns have been destroyed now, let's count the less, and let's say there are 50 towns left, that's also 50 fallen ones, this is the real scary place."

Hearing this, even Wang Xuan changed his face.

Is the space inside the **** tower connected? Anyone who enters the Hell Tower or the Fallen from Hundred Towns is likely to meet here?

Huang Qingzhi naively said: "Ordinary perfection has no courage or strength to enter here. Those who can come here are basically superpowers, even ordinary superpowers, once they are attacked by hatching beasts, they will become Monsters are also much stronger, and before this person becomes a monster, he is at most an ordinary or medium-strength super-state, but after becoming a monster, it is terrifying."

Huang Qingyi shook his head as he spoke, with a heart-wrenching look on his face, and then looked up from time to time, fearing that a new degenerate would appear.

Wan Qianying said solemnly: "Don't say more, get out of here first, there was such a big noise just now, it's easy to attract new fallen people."

As she spoke, she hurriedly walked to Qiao Jingping's headless corpse, took off the storage belt tied around his waist, and said, "I'll keep his relics for the time being, until we get out of the Hell Tower. , don't waste time."

Xu Jian stepped forward to help, and took off the remaining four ghost suits from Qiao Jingping's body, stuffed them into Qiao Jingping's storage belt, and handed them over to Wan Qianying for temporary safekeeping.

After that, the six quickly left here and continued to move forward along the passage.

With Qiao Jingping's lesson, everyone became more and more cautious, Wang Xuan took out a bottle of elementary night vision water and drank it.

After drinking this night vision water, within six hours, you can see things in the dark. Although everyone is holding lighting crystals, it is not as convenient as direct night vision.

Soon, they encountered the **** clown again.

This time, two **** clowns appeared at the same time, one left and one right, emerging from the darkness and rushing towards them.

Everyone went all out, no longer hiding their strength, and wanted to make a quick decision.

Gongyang Xuan directly summoned hundreds of glass mirrors, one after another fell from the sky, turned into a waterfall, and directly smashed the **** clown who rushed up from the left.

The strength of this **** clown is far inferior to the fallen one, how can he resist this terrifying blow.

Another **** clown was severely injured by Xu Jian and Tang Ruoyu, and was finally cut in half by the wind blade swung out by Huang Qingzhi.

"Two more, soon."

Wan Qianying's eyes flashed slightly, and everyone stayed in this **** tower, even the super-powerful ones were afraid, for fear of encountering terrifying fallen people again.

Fortunately, they didn't encounter the Fallen again. After everyone continued to walk for about 100 meters, they encountered the fifth **** clown.

Wang Xuan has night vision ability. When the **** clown appeared 20 meters away, he found out in advance. He launched the attack first, and everyone followed him. In the end, Wang Xuan controlled the four metal tentacles and took the **** out of it. The clown entangled, successfully strangled, and obtained the fifth **** clown mask.

"It's the last one." Xu Jian let out a soft sigh.

Wan Qianying stepped forward without saying a word, Wang Xuan looked forward, and suddenly found that there was a huge stone wall 100 meters away, and they followed this passage to the end.

Wang Xuan saw that there were no **** clowns or fallen people around, and as he approached, he saw a door in the stone wall at the end.

The others, relying on the light from the illuminating crystal, finally noticed the stone wall and the door above it.

The six stopped by the stone wall, Gong Yangxuan made a move with his right hand, and mirrors were erected beside the stone wall door to protect everyone.

Wang Xuan stretched out his metal tentacles, pressed against the stone gate, and pushed it away slowly with force.

The Shimen was pushed open, and no danger was seen inside. Gong Yangxuan then put away the mirror that was erected like a shield. Wang Xuan, who had night vision eyes, looked into the Shimen, and suddenly froze for a moment.

Inside this stone gate is a huge space with a large number of corpses lying on the ground.

These are all the corpses of **** clowns, these corpses are twisted irregularly, and every surface has signs of melting and festering.

Wang Xuan saw that the clown masks on their faces had been removed.

This scene made him feel awe-inspiring, slowly approaching Shimen, and soon saw that these clown masks were all piled up. At a glance, there were at least thirty or forty clown masks.

And beside these piled up clown masks, a figure is wandering.

Although they pushed open the stone door and the light from the illuminating crystals came in, they did not attract the attention of the figure.

Wang Xuan looked at this figure, half of his body was human-like, while the other half was melted and festered, and a large amount of translucent white matter grew inside. These white matter had no fixed shape and was constantly fluctuating and changing, like a slug. Wherever, there was a viscous liquid left on the ground, which seemed strange and disgusting to say.

Wang Xuan saw signs of melting and festering on the corpses of the **** clowns all over the ground, and he already understood in his heart that these **** clowns were all killed by this half-human, half-monster.

Wan Qianying took the lighting crystal and came to the stone gate. She also saw all this in front of her, and her eyes showed indescribable shock.

What kind of strength does it take to kill so many **** clowns in a row?

Looking at the half-human monsters wandering around the clown mask, she didn't seem to pay attention to them at all, she suddenly whispered: "This is the lost..."

Wang Xuan opened the eyes of the illustrated book, but was unable to capture the information of this monster. He had already guessed in his heart that it should be a fallen person. He used to be a super-powerful among human beings. He just entered the **** tower. After seeing such a monster, only after listening to what Wan Qianying said, did I know that in addition to the fallen, there were also the lost.

"What is the lost?" Wang Xuan asked softly.

Wan Qianying explained to him in a rare way: "Like the Fallen, they were originally human, but they were attacked by the hatching beast, but unlike the Fallen, the Fallen is that the human soul consciousness is basically devoured by the hatching beast. Become a monster dominated by the hatched beast, and the soul consciousness of the lost and the hatched beast are equivalent to perishing together, and finally become a body with only instinct and no soul consciousness, as if lost, in order to distinguish it from the fallen. Come on, let's call such a lost person, but the person who can become a lost person and die with the soul consciousness of hatching beasts used to be very terrifying powerhouses, at least the superior powerhouses in the super state. Even the top level...it is absolutely incomparable."

Xu Jian also squeezed in, seeing all of this, he sighed softly: "The lost person will not attack people deliberately because they only have instinct, as long as we don't disturb it, or attack it, it won't pay attention to it. our."

While talking, looking at the dozens of **** clown masks piled up, he muttered: "The trouble now is that it is too close to these masks, it is not easy for us to sneak in, and it is easy to disturb it if we are too close. "

Huang Qingzhi said: "There is only one missing, as long as we take one, we can leave."

While talking, rubbing his hands, he seemed a little hesitant. The lost person in front of him can kill so many **** clowns, and his strength can be imagined, at least not weaker than the fallen ones they encountered before, or even stronger.

Xu Jian said: "This kind of lost person is too scary. Once alerted, we are all in danger. I don't know if we return now, can we meet other **** clowns again?"

Wan Qianying shook her head and said, "It's useless, all the **** clowns alive in this passage have just been killed by us, and the rest of the **** clowns should be in this stone gate, and it is impossible for us to encounter other clowns when we return. The only way now is to enter the stone gate and get the clown mask."

Hearing Wan Qianying say this, Xu Jian's faces were a little ugly.

Wang Xuan pondered slightly, and said, "Or if you go back, I will go in alone, get the clown mask as quickly as possible, and then look back for you."

After the battle with the Fallen just now, everyone understands that Wang Xuan is the strongest among them now. If anyone can go in and get the clown mask, he is naturally the most likely.

Wan Qianying's personality is simple, not a hypocritical person, she immediately nodded and said: "This method is the best, then we will go back immediately, Wang Xuan go in and get the **** clown mask, by the way, I remember that your hatching beast can extend to six or seven. Rice, it's best to get it quietly, and it's best not to disturb it."

Wang Xuan nodded towards her, Gongyang Xuan said: "I'll accompany him. If the lost person is really disturbed, I can temporarily trap it with a mirror and buy time to escape."

Wang Xuan shook his head and said: "No, you all go back, I have a defense crystal, you don't have to worry about me, I try not to disturb it as much as possible, and get the clown mask."

He saw that although Gongyangxuan's strength was the highest among these leaders, his only strength was the one-time attack of the hundreds of glass mirrors. He could be crushed to death, but other than that, he was not much stronger than Xu Jian and Wan Qianying in terms of speed and reflexes. With him, once the lost were alerted, he would be a burden.

It's just that it's not good to say it directly.

Seeing Wang Xuan's insistence, Gong Yangxuan didn't say anything, just nodded slightly, stretched out his hand and took out three crystals from the storage belt, and said, "These are three defensive crystals, bring them with you just in case."

Gongyangxuan's actions surprised Wang Xuan.

This defensive crystal is different from other crystals. It is very precious. Now Wang Xuan only has five, and it is impossible for Gongyang Xuan to have many. Now it is very rare to be able to take out three defensive crystals at one time.

Seeing the sincere look on Gongyangxuan's face, Wang Xuan didn't know what he was thinking.

After thinking about it, I took these three defense crystals.

A defensive crystal can sometimes represent a life, which can be said to be very precious.

Wan Qianying, Xu Jian, and Huang Qingzhi looked at them with a hint of surprise, as if they didn't expect Gongyangxuan to be so generous.

"You all go, the sooner the better, it's better to wait for me at the exit." Seeing that everyone agreed, Wang Xuan asked them to return immediately. In order to prevent the lost person from being alerted, if the other party was too fast, they would catch up with everyone. , that would be troublesome~www.mtnovel.com~ The five of them did not hesitate, immediately under the leadership of Wan Qianying, they turned around and went back. Wang Xuan drank the water of night vision, no need for lighting crystals, and watched the five people lead the way. Looking back at the lighting crystal, when he saw Tang Ruoyu was leaving, he looked back at him.

Wang Xuan did not enter the Shimen immediately, but waited for a while to make sure that the five people were far away, and then began to release the metal tentacles and slowly entered the Shimen.

Slowing down as much as possible, approaching quietly, the four metal tentacles extended to the limit of seven meters long, he only needed to approach the pile of clown masks six or seven meters, and he could use the metal tentacles to take away the clown masks.

Wang Xuan stared at the lost person silently, holding several crystals in his left hand and right hand, a few water flame spar and explosive crystal in his left hand, and a defense crystal in his right hand.

Originally, he was going to use the smoke crystal, but considering the darkness here, the lost person doesn't seem to be affected. It is possible that the smoke crystal is ineffective for it, so he replaced it with the flame spar.

The lost person was like a walking corpse, wandering aimlessly around the pile of clown masks, and suddenly, it turned around and faced where Wang Xuan was.

Wang Xuan immediately stopped.

Fortunately, the lost man seemed to be looking at him, but in reality his eyes were empty, and he didn't pay attention to him at all, but walked towards him blankly.

Wang Xuan's brows were slightly wrinkled, and he moved silently to avoid it.

Suddenly, the lost man's empty eyes moved as he traversed, as if noticing him.

At the same moment, unease rose in his heart.

In his induction, the lost person always seemed to be empty and nothing existed, but at this moment, a strong unease rose in his heart, and for the first time he felt the horror of this lost person.
