

## Last Building on Earth Chapter 21-25

### Chapter 21

Seeing that Wang Xuan also agreed, a few people rested on the spot.

For safety, they smashed a window glass of an off-road vehicle, entered the car to rest, and distributed four bottles of mineral water and the bag of egg yolk pie. The food and water soon entered their stomachs.

Zhao Lei crumpled the plastic bag used to hold water and food, put it in his pocket, and said, "Everyone talks about the next action, should we find a way to find an exit first, or should we stay in these cars first? Looking for food?"

Gu Manyao said: "Let's find the exit first. Maybe we are lucky, we can find the stairs going up in this G area and leave here directly."

Wang Xuan and Zhang Haofei both nodded in agreement. Now that they have just eaten and drank water, they can carry it for a while. If they can't find an exit, it's not too late to find food when they are hungry.

The four of them left the off-road vehicle after a short rest. Before leaving, Zhao Lei opened the trunk of the off-road vehicle and took a look. He saw a set of high-end fishing gear inside. For him, the fishing gear was useless. A bag of fishing gear.

Then he took out the fishing rods and other fishing gear inside, and took away the fishing gear bag.

Zhang Haofei smiled when he saw it in his eyes: "What are you doing with this thing?"

Zhao Lei ignored him, just looked at Wang Xuan and Gu Manyao and explained: "This bag is very sturdy, and it's good for carrying things. It's best for everyone to find a similar bag to carry on the back. If you find supplies or anything useful on the way, you can do it. Put it in."

Wang Xuan nodded and understood that Zhao Lei was preparing in advance. If they could not escape temporarily, they would need to make long-term preparations. A backpack like this for storing supplies was essential.

Gu Manyao said, "Zhao Lei, it's you who thought it through, I haven't thought about it yet."

Zhang Haofei saw that both Wang Xuan and Gu Manyao had recognized Zhao Lei, so he asked himself for a lack of fun, pouted, and walked forward first.

The other three followed behind him. Although the light here was much brighter, the four of them were still vigilant and looked around from time to time to prevent being attacked by monsters.

While walking, Wang Xuan paid attention to the number of parking spaces, and soon saw the words G189, which represented that this parking space was the 189th parking space in the G area.

"It seems that we are still trapped in Area G. I clearly remember that the underground parking lot in Longmao Plaza is divided into 12 areas, and each area has only 88 parking spaces. The parking spaces in Area G are only up to No. 88 at most. Now it's way beyond that."

Listening to Wang Xuan's words, Zhao Lei, Gu Manyao and Zhang Haofei all looked at the numbers on the ground in front of the cars on both sides.

Zhang Haofei said with a surprised face: "Yes, I also remember that the parking spaces in each district here are limited to No. 88 at most. Is this an increase?"

Zhao Lei pushed the glasses on the bridge of his nose and glanced at Zhang Haofei, thinking that this guy is really well-developed and simple-minded.

"It's normal. Everything here is out of the norm. We can't use the set of the car park at Longmao Plaza to cover the current situation here. If it weren't for this, we wouldn't be stuck here and couldn't find an exit."

Gu Manyao listened to Zhao Lei's words, sighed, and said, "Yes, it seems that we have little hope of finding an exit in this G area."

Just as he was talking about this, Wang Xuan suddenly accelerated his pace and walked towards the row of parked cars on the left.

Zhao Lei also found out, and hurriedly followed.

Between the row of cars, a small trolley was parked in one of the parking spaces, and cardboard boxes were stacked on the trolley.

Seeing these cardboard boxes, Zhao Lei's expression was a little excited, because he saw the words on the cardboard boxes, such as ham sausage and instant noodles.

Wang Xuandang first tore open the top cardboard box and found that there were neatly arranged ham sausages. There were hundreds of sausages in this box.

"It's really food." Wang Xuan's face showed joy, and Zhao Lei also came to help. He opened another instant noodle carton and found that it was full of instant noodles.

Gu Manyao and Zhang Haofei also saw it. Zhang Haofei let out a strange cry and laughed, "Now we don't have to look for food slowly. I didn't expect so many to be piled up here."

A few people moved all the boxes of food on the trolley together and checked them one by one. There were ham, instant noodles, chocolate, biscuits and whole wheat bread, and at the bottom were four boxes of mineral water.

Seeing so much food, the four of them all looked excited. Zhang Haofei immediately picked up a bag of biscuits and ate it.

Wang Xuan picked up a ham sausage and stuffed it into his mouth, then took another bottle of mineral water.

Just now, the egg yolk pie was not full at all. Now that they saw so much food, the four of them were not polite and just let it go.

Wang Xuan looked at Zhao Lei and said with a smile: "Zhao Lei, you still have foresight. It's not easy to take away so much food. We need to find a few bags that are big enough."

Zhao Lei narrowed his eyes slightly, smiled, and put a piece of chocolate into his mouth.

Wang Xuan finished eating one ham sausage, and just took the second ham sausage in his hand, suddenly raised his head to look into the distance, and said, "It seems that there is a sound there."

"What's the sound?" Zhao Lei looked up and looked into the distance.

"It sounds like a car..." Wang Xuan frowned. UU reading [www.uukanshu.com](http://www.uukanshu.com) was sure that he heard it correctly. He held the ham sausage in his left hand, and the steel bar with the bloodstained solidified in his right hand, showing an alert look.

Soon Gu Manyao, Zhang Haofei, and Zhao Lei also heard the sound of a car coming from a distance, and immediately saw the lights, and a luxury car appeared from a distance.

Behind the limousine was an off-road vehicle. The two vehicles were parked about 20 to 30 meters away from Wang Xuan and the others. There were two empty parking spaces.

"This is a rich man. The imported car in front seems to cost more than 3 million." Zhang Haofei's eyes narrowed.

Zhao Lei said: "The off-road vehicle in the back is not cheap. The landing price is conservatively estimated to be 200 Dabuliu."

Gu Manyao sighed lightly and said, "No matter how expensive or luxurious a car is, it won't have any value here, it's no different from scrap metal."

Zhang Haofei's eyes flashed and he said, "How could it be worthless? Grandma, I never dreamed that I would drive such a luxury car, but now I have the opportunity."

Zhao Lei also showed a smile and said, "I was still worried about how to take the food away, but it's easier to have a car."

Although the parking lot was full of cars, they couldn't start it without the car keys. They were a little excited when they finally saw the two cars that had just driven in.

Zhao Lei said: "Those who can afford to drive such expensive cars must be rich people, and of course they may be drivers."

During the low-pitched chat of the four, the two cars stopped into two empty parking spaces, the car turned off, the doors on both sides opened one after another, and the people in the car started to get out of the car, talking and laughing. Thirty meters away were Wang Xuan and Zhao Lei.

The four Wang Xuan did not step forward immediately, but first observed the situation.

## **Chapter 22**

A total of nine people got off the two cars, six men and three women. When they got out of the car, they were busy beside the two cars, and no one noticed Wang Xuan and the four.

Wang Xuan saw one of the women was wearing a very conspicuous ancient costume and exquisite makeup, and the other woman was holding a bead crown in her hand and was carefully putting it on her head.

A man is carrying a camera, looking around and choosing a suitable shooting angle.

There was another young man wearing a classical robe, also wearing make-up, his face was very delicate, and he seemed to be a pair with the woman in ancient clothes.

The four of Wang Xuan watched from a distance, and Zhao Lei suddenly pushed the glasses on the bridge of his nose with a surprised expression: "Isn't this Mengyun? Why did she come here?"

"Who is Mengyun?" Wang Xuan glanced at him and said, "Do you know her?"

Zhao Lei said: "A very famous big internet celebrity. She has made many short videos of ancient costumes, and the quality is quite high. Her popularity is not worse than some celebrities. They should be here to shoot videos."

Gu Manyao said, "No wonder it's so pompous, but wouldn't it be very strange to be filming videos in the parking lot wearing ancient costumes?"

Zhao Lei said: "Maybe it's not to shoot in the parking lot, maybe it's to go to Longmao Square, let's go, we have to remind them of the danger here."

As he spoke, he stood up with excitement on his face, obviously he was very interested in this Mengyun.

Zhang Haofei also stood up and said, "Is it so rich to be an internet celebrity? These two cars are not cheap."

Gu Manyao said: "It should be a rented car. I remember last time I read on the Internet that many Internet celebrities used luxury cars to make jokes and rented everything."

The four stood up one after another, and the nine people over there finally noticed them.

The first person to notice the four was a fat man with a mustache.

Holding a stack of paper in his hand, the fat man directed someone to carry some filming equipment from the trunks of the two cars. He looked around, and suddenly noticed four people walking out from behind a parked car not far away.

It is not uncommon to encounter people in the parking lot. After all, in such a large parking lot, there are not many people. What is strange is that these four people are all stained with blood, and they are holding steel pipes or steel bars in their hands. Weapons, no matter how you look at it, are bad comers.

The fat man was startled, and immediately abducted another burly man beside him, and said in a low voice, "Something's wrong, look at these four..."

However, he quickly realized that there are nine people here, and even if the other party holds a weapon such as a steel pipe, they don't need to be afraid of them.

This burly man is similar to the role of the bodyguard and driver of the filming team. He has practiced Sanda for several years, and his skills are good. It is no problem for one person to fight two or three ordinary people. He came over with a weapon, there seemed to be blood on his clothes, and he knew something was wrong, so he quickly went to the back of the off-road vehicle, took out a large wrench from the trunk, and held it in his hand.

Meng Yun, who was holding a piece of paper and was talking to the man in costume, also stopped.

The man in ancient costume turned his back to Wang Xuan and the others. At this moment, when Meng Yun suddenly raised her head and looked towards the back, he turned his head and looked over. Suddenly, he saw Wang Xuan and the others, and was slightly startled.

These nine people all stopped communicating and moving, all looked at Wang Xuan and the others, and at the same time quickly approached the two cars that they drove. If something goes wrong, you can get in the car and escape at any time.

Zhao Lei, who was walking at the front, noticed that the nine people had retreated to the side of the car. Nine pairs of eyes were swiping towards him. Seeing the nervous and guarded expressions on their faces, Wei Wei suddenly understood, and hurriedly spread out. With both hands raised, he raised his voice and said, "Don't be nervous, we are not bad people, we have no malice!"

The more he said that, the more alert the nine people were. The burly man walked to the car with a big wrench. The fat man with a mustache was the director of this shooting, and immediately whispered to the three girls in Mengyun. Said: "Hurry up and get in the car, these people are afraid of causing trouble. If the situation is not right, call the police immediately."

Mengyun nodded and got into the car with the other two girls. The man dressed in ancient costume also got into the car.

"Who are you? What do you want to do?" The strong man took the initiative to meet Zhao Lei.

Seeing the burly man with a big wrench in his hand, and knowing his skill, Director Fatty and the others were obviously relieved.

Zhao Lei saw their expressions of alertness, afraid of conflict, he stopped three or four meters in front of them, and said: "Don't get me wrong, we want to tell you that it is very dangerous here, what can you do to protect yourself? Get all your weapons, and it's best to get in the car right away."

Hearing Zhao Lei's words, the burly man frowned. The fat director behind him and the other men looked at each other and looked at Zhao Lei, feeling that his mind seemed a little abnormal.

One of the young women sitting in the car whispered to Mengyun, "Sister Mengyun, if you want to call the police, I feel that this person is a bit mentally ill."

Meng Yun said: "Don't worry, with Brother Tie here, and we have so many people, nothing will happen."

After Zhao Lei saw the expressions of these people, he knew that they wouldn't believe what they said~www.mtlnovel.com~ Zhang Haofei whispered to himself: "There are nine of them, and with us, these two cars can't sit. "

The sturdy man Tie Ge vaguely heard Zhang Haofei's self-talk, and felt more and more that there was something wrong with the three men and one woman in front of him, his eyes sharpened, and he said solemnly, "No matter what you want to do, please leave immediately, otherwise we will call the police. already."

Although Wang Xuan and Zhao Lei all had weapons such as steel pipes and steel bars in their hands, Brother Tie was not afraid, but felt a little ridiculous. He vaguely guessed that the four people in front of him saw them driving luxury cars. , want to blackmail them, but unfortunately they have the wrong target.

As for the suspected blood stains on the clothes of Wang Xuan and the four, Brother Tie guessed that it was not real blood, but some kind of dye that was intentionally smeared to scare ordinary people, but it could not scare the well-informed him.

Hearing what the burly man in front of him said, Zhao Lei sighed, shook his head, and suddenly shouted into the car: "You are Mengyun, I've seen the video you shot, why did you suddenly think of Longmao Plaza to shoot?"

Her tone was full of regret, and she understood that her life and death were unpredictable when she entered this parking lot. Even if she was a famous internet celebrity, she would not lose her life more than ordinary people when she arrived here.

Hearing Zhao Lei say this suddenly, these people looked at each other and were a little dumbfounded.

It seems that the person in front of him is actually a fan of Mengyun, and now it is probably because of Mengyun's attention that he is acting like a ghost.

Sitting in the car, Meng Yun heard Zhao Lei calling her, but she didn't show up. She looked outside through the car window at the appearance of Zhao Lei and the four holding steel pipes and other weapons. Even if she was her own fan, her behavior made her feel uncomfortable. very disgusting.

## **Chapter 23**

Fatty forced a smile, he seemed polite, but his tone was a little blunt, and said, "I can understand the excitement of seeing Mengyun, but now we have to work, Mengyun doesn't want to be disturbed, and please ask her to leave first."

Zhang Haofei became impatient, and said, "What is it about Meng Yun Meng Yu? I saw that she was very excited. Since you don't believe it, forget it. There are good words to say, but good words are hard to persuade you damned ghost. You can die if you want. Who's to blame, just give us this car now."

While talking, he overtook Zhao Lei and strode toward the oncoming limousine.

Hearing Zhang Haofei's words, these people looked at each other with anger on their faces, and the fat director suddenly shouted, "Are you trying to rob our car?"

He almost thought he had heard it wrong. There were nine people on his side, and it was in broad daylight. The four people in front of him actually wanted to rob their car? Even if it is really given to them, as soon as I call the police, I am afraid that they will be caught as soon as they leave the parking lot. This is simply absurd to the extreme. I have never seen such a bold robber before. Are these people crazy?

"Call the police." Mengyun, who was sitting in the car, whispered to the girls beside her. She didn't want to entangle with these people at the bottom, so it was better to call the police directly.

This girl is her assistant. She had already held her cell phone in her hand and wanted to call the police. After Mengyun's order, she immediately started calling the police.

"Hey, I can't get through, the signal in the parking lot is too bad." The female assistant quickly found that there was no signal on the phone.

Outside the car, Zhang Haofei had already strode forward, and Brother Tie immediately stood in front of him with a big wrench, his face sank, and said, "I warn you, don't be ashamed."

Behind him, in addition to Director Fatty, several other men also came over, looking at Zhang Haofei and the others with anger on their faces.

Zhang Haofei's arrogance angered them.

Several people in the car took out their mobile phones to call the police, but they all found that there was no signal and they couldn't get through.

But they didn't think much about it, they all thought it was the reason for the poor signal in the parking lot.

Facing Brother Tie's warning, Zhang Haofei pouted in disdain.

With three white scales, his speed, strength, and reflexes have surpassed that of ordinary people. He even killed that terrifying scale monster. How could he see these people in front of him.

He ignored Brother Tie at all and went straight forward, seeing that he was about to collide with Brother Tie standing in front of him.

Brother Tie's eyes flashed with anger. He held a wrench in his right hand and stretched out his left hand, trying to grab the steel pipe from Zhang Haofei's hand first.

He didn't take Zhang Haofei seriously, but he still didn't dare to underestimate the steel pipe in his hand.

Zhang Haofei let out a heck, and also stretched out his left hand. He shot much faster than Brother Tie. Brother Tie only felt a flower in front of him, and Zhang Haofei grabbed him as soon as his neck tightened.

He was taken aback, he reached out and tried to twist Zhang Haofei's arm to fight back.

"Go away!" Zhang Haofei shouted, his left arm grabbed Brother Tie's neck and pushed his sturdy body, like an eagle grabbing a chicken, and pushed him upside down onto the limousine behind him. , Brother Tie slammed his head into the car, and with a "bang", the world was spinning, and there was a buzzing sound in his head.

The fat director and the cameraman's eyes widened. They never expected that the most capable iron brother in their opinion would encounter Zhang Haofei so vulnerable.

Zhang Haofei grabbed Brother Tie's neck and loosened his left hand, Brother Tie's body slid down softly along the car, and there was no room for resistance.

After a small test, Zhang Haofei realized that now he is much stronger than ordinary people, with a look of excitement on his face, he couldn't help but laugh, enjoying the horrified eyes of the fat director and a few people in front of him.

He likes to see others afraid of him.

"You guys, get out of the car quickly, this car is now requisitioned by the uncle." Zhang Haofei couldn't put it down in love with this luxury car, and scolded the two women, Meng Yun, who were sitting in the car, but he didn't mean to pity Xiangxiyu at all.

Wang Xuan and Gu Manyao also came over, Zhao Lei once again explained to the fat director and several people in front of him: "This place is very dangerous, if you enter this underground parking lot, you will not be able to get out. There may be monsters at any time, so you should hurry up and find weapons. Protect yourself."

Gu Manyao said, "Needless to say, they wouldn't believe it if they didn't see it with their own eyes. It's useless for you to say anything."

Director Fatty couldn't hide his anger: "Have you considered the consequences of doing this?"

Zhang Haofei ignored him, pushed the photographer away and got into the cab of the car.

Meng Yun took her female assistant out of the car with an ugly face, and even Tie Ge, who was able to fight like this, was easily defeated by them. Although there were many people on their side, they were all cowardly and did not dare to do anything.

Zhang Haofei stroked the leather steering wheel with both hands and murmured, "Grandma's, a luxury car is a luxury car, it feels different..."

Zhao Lei looked at Meng Yun who got out of the car, his lips moved, and he wanted to speak, but he found that he didn't know what to say to make her believe in him. UU Reading [www.uukanshu.com](http://www.uukanshu.com)

He has seen a lot of Mengyun's filming, as well as her live broadcasts. He is a loyal fan of her. He never imagined that he would meet her on such an occasion.

Gu Manyao tugged at him and said, "Don't be stunned, get in the car."

The four of them happened to be in a car, and they brought the food they just found. It would be no problem to stay here for a few days.

Zhao Lei couldn't bear it. He knew that if these people encountered monsters, it would be more fortunate than good luck. He decided to make his last effort. Looking at Meng Yun, he said, "Would you like to go with us, our car just fits another person, you stay. It's really dangerous to come down, I didn't lie to you, there are monsters in this parking lot, they are monsters that can kill, two of my best friends are dead, do you see the blood on our bodies? It's when we were fighting those monsters left."

As he pulled up his shirt, he was about to show his belly so that they could see the serious injury he suffered before, so that they could believe what he said more.

After exposing his stomach, he realized that not to mention the wound on his stomach, there was not even a trace of scar left. Zhao Lei thought of the special ability he possessed after obtaining the white scales, which could speed up the healing of the wound.

Meng Yun and the female assistant were frightened by Zhao Lei's actions and took a step back. Seeing that he suddenly pulled up his shirt, they thought he wanted to molest them.

Although the fat director and the photographers were a little afraid of Zhao Lei and the others, they all embraced them at the moment and protected Mengyun and the girls. If the other party really wanted to cheat on Mengyun and the others, even if they knew they couldn't beat them, that would be fine. To work hard, they still have this blood.

Seeing their reaction, Zhao Lei let go of his clothes and said helplessly: "I originally wanted you to see the scars left on my body, but I can't think of it... Forget it, it seems that you won't believe me no matter how much I say. ."

## **Chapter 24**

Zhao Lei finally gave up his persuasion, shook his head slightly and got into the car.

Zhang Haofei sat in the cab, glared at Director Fatty and said, "Bring the car keys!" He saw that the group of people seemed to be headed by the Fatty.

With the help of another off-road vehicle driver, Brother Tie stood up staggeringly, shook his head, still felt a little dizzy, and was horrified by Zhang Haofei's strength. How can ordinary people have such great strength?

Director Fatty looked at Brother Tie and said, "Give him the car keys."

He made up his mind not to have a conflict with Zhang Haofei and the others now, and only waited for the four to drive away. He had a hundred ways to deal with them.

Brother Tie took out the car keys on his body, and when he was about to hand it over to Zhang Haofei, he suddenly said, "Is it true what you just said?"

Zhang Haofei's skills made him suspicious. The behavior of these four people was really abnormal. How could simple robbers rob like them?

Brother Tie has practiced Sanda for several years. He thinks that he is not weak, and he has seen some Sanda masters, but none of them can match the strength and speed of Zhang Haofei just now. How could such a character become a robber?

With his skills, he wants money, whether he is a bodyguard for the top rich, or participates in Sanda or boxing competitions, it is easy to get ahead.

What's wrong with Brother Tie? Could it be that what these four people just said was true?

Taking the car keys from Brother Tie's hand, seeing the look of doubt on Brother Tie's face, he seemed to believe what he said, Zhang Haofei let out a snort and said, "Do you think we are joking?"

While talking, he closed the car door and started the car, he didn't bother to say any more.

When Zhao Lei heard Brother Tie's words, he immediately said, "Everything I just said is true. It's very dangerous here, you all have to be careful."

Zhang Haofei twitched the corners of his mouth, disliking Zhao Lei's mother-in-law very much.

Seeing the car start, Meng Yun and the others who were standing beside the car just moved away. Zhang Haofei drove the car, turned left, and drove out of the parking space.

Watching them drive away, Director Fatty immediately wiped the cold sweat from his forehead and said, "Hurry up and call the police."

While talking, she took out her mobile phone.

"There is no signal at all. The signal on the negative second floor is so bad that we can't even get through to the alarm call. We have to go out." The photographer beside him said.

Director Fatty also saw that his mobile phone had no signal, so he could only give up calling the police temporarily. He looked at the car that Zhang Haofei drove out and said fiercely, "Let you all run wild now, and soon it will be time for you to cry and beg for mercy."

Brother Tie had a complicated expression on his face, and suddenly said, "Everyone, get in the car quickly. These four people are a little weird, and what they say is weird. We'd rather believe it than not."

Holding the wrench as he spoke, he walked to another off-road vehicle.

Hearing this, the young man in ancient costume couldn't help but sarcastically said, "Brother Tie, you won't believe the words of these lunatics."

Originally, they all admired Brother Tie's skills and respected him, but just after seeing Brother Tie being knocked down by Zhang Haofei, they inevitably had other thoughts in their hearts.

Brother Tie looked back at him, didn't say anything, he just opened the door of the off-road vehicle.

Director Fatty said, "There are nine of us, and we can't sit in a single car. Tie Jun, take Mengyun and Li Luo out first. Remember to call the police immediately when there is a signal, and then come back to pick us up."

Tie Jun is the name of Brother Tie. Among these people, only the director Fatty is older and more senior than him, so he calls him by his first name.

Tie Jun nodded in agreement. Director Fatty asked Meng Yun and the others to get into the car and leave first. He and the four photographers stayed for a while, but turned his head and found that the luxury car that Zhang Haofei and the four drove away did not leave, but stopped at After 20 to 30 meters away, Wang Xuan, Zhao Lei, Gu Manyao, and Zhang Haofei got out of the car again.

"What are they trying to do?" The fat director had a strange look on his face, turned his head to look over there, but found that Zhang Haofei had opened the trunk, and Wang Xuan brought Zhao Lei and Gu Manyao to carry the cardboard box and put it in the trunk of the car. go.

These cartons are filled with food such as ham, bread, and biscuits, as well as four boxes of mineral water. These are important supplies, and they naturally have to bring them with them.

Seeing that Zhao Lei was moving things, Gu Manyao couldn't help but look at the other side, and couldn't help but chuckle: "Zhao Lei, you still can't bear your little sister on the Internet? I don't see you being a nympho, forget it. Well, people don't believe us at all, so it's useless to say anything."

Zhao Lei sighed and said, "No, I'm thinking about one thing."

Gu Manyao said, "What's the matter?"

Zhao Lei shook his head, but didn't answer. He just put a box of mineral water in his hand into the trunk, and suddenly heard a thud on the roof of the car. When he looked up, he saw something more on the roof of the car in front of him.

This is a large lizard, two or three meters long, with scorpion-like barbs behind it, bluish-gray body, and a white scale in the middle of its forehead, which is very conspicuous.

It seemed to suddenly fall from above and onto the roof of the car, which startled Zhao Lei.

"finally come!"

Zhang Haofei and Zhao Lei also noticed the scorpion-tailed lizard that suddenly fell onto the roof of the car~www.mtlnovel.com~ with a grin on their faces. Holding the steel pipe in their right hand, they stabbed the scorpion-tailed lizard on the roof of the car.

At the same moment, between the vehicles parked on both sides, scorpion-tailed lizards sprang out one after another, or at least six or seven, forming an encirclement, rushing towards Wang Xuan and the others.

Unlike the monster with wolf-headed ape body that I encountered before, this is the first time I have seen this scorpion-tailed lizard. This is a brand new monster.

Wang Xuan clenched the steel bars in his hand, turned around, and met a scorpion-tailed lizard that was running towards him.

When they were carrying food, they were always on the lookout for the surrounding situation. These scorpion-tailed lizards that they had never seen before suddenly appeared. Although they were surprised, they were not surprised. They immediately attacked.

Almost at the same moment, twenty or thirty meters away, there was a sudden scream, followed by a few screams and screams of horror.

Hearing the screams and screams, Zhao Lei couldn't help but look over there. Wang Xuan listened in his ears and understood that Meng Yun and Fatty Director nine were also attacked by monsters. Now this place is also besieged by monsters, and it is difficult to protect itself. Now even if you want to save those people, you can't save it.

Twenty or thirty meters away from them, Tie Jun just got into the off-road vehicle. Under the arrangement of the fat director, Meng Yun and the female assistant got into the car, and the other woman got into the car. Pain, a huge force tore her out of the car.

This woman is in charge of the shape and makeup of Meng Yun and the short video hero Li Luo. She didn't understand what happened, and she was pulled back and fell out during the screaming, her back hit the ground, and she felt like something was running away. When she got to herself, she saw a \*\*\*\* mouth in horror, biting her neck viciously.

## **Chapter 25**

It was dark before her eyes, and in the severe pain and despair, she didn't know anything.

What jumped up to her and tore her neck apart was a large blue-gray lizard with a barb like a scorpion tail.

It suddenly came out from the back of the off-road vehicle and grabbed the female stylist. When everyone saw it, they exclaimed.

Director Fatty was horrified, and his eyes shot an unbelievable look.

Now he finally understood that what Zhang Haofei and Zhao Lei, who he regarded as the robber, said were all true. There really were monsters in this parking lot, and they were wrong for their kindness.

Among the crowd, Tie Jun reacted the most quickly. When he heard the screams and saw the female stylist being pulled out of the car, he had already started the off-road vehicle. He didn't even have time to close the rear door, so he left it on. The car rushed out.

"Get in the car!" He roared at the fat director and the photographer.

Director Fatty recovered from his shock and rushed towards the car.

There was another scream, and a scorpion-tailed lizard sprang out from behind again. Another driver who was following the fatty director had no time to react and was knocked over by the scorpion-tailed lizard.

In the panic, the driver struggled desperately to resist, using his hands to resist the scorpion-tailed lizard's open mouth.

Between life and death, the driver let out a hoarse howl, his hands tightly holding the upper and lower jaws of the scorpion-tailed lizard's open mouth, and under the desire to survive, he exploded with far more power than usual, making the scorpion-tailed lizard unable to bite for a while. to him.

Seeing that the bite could not be hit, the scorpion-tailed lizard suddenly retracted its head and released him, as if to turn away.

To escape from death, the driver could hardly believe his eyes. He was busy getting up and trying to escape. Suddenly, a dark shadow flashed, and a blue-gray barb was pulled down like a whip, and it hit him with a "snap". facial.

The sharp hook hooked into his mouth, passed through his mouth, and emerged from the back of his head.

This pain made him lose his mind.

His eyes turned white because of the severe pain, and his whole body was twitching, but he couldn't let out a scream. Out of instinct, he grabbed the barb running through his mouth with both hands, trying to pull it out.

The scorpion-tailed lizard swung its tail, and the barb that hooked his mouth dragged him to the back. Unlike those scaly monsters with wolf-headed ape who were just for pure killing, it seemed to want to drag him to a corner behind. Here, enjoy the food alone.

He was like a fish caught by a hook. He struggled desperately, but he couldn't help himself. of blood.

Tie Jun drove in front of the fat director and the photographer, stopped the car, and yelled at them to get them in the car.

Meng Yun and the female assistant were sitting in the back row, and the rear car door close to Director Fatty was not closed. Although Director Fatty was the closest, he was in his 40s, and his reaction was slightly slower than that of young people. The other one behind him was younger. The man rushed up faster than him.

The young man was mainly in charge of the lighting and sound of the shooting team. He was always in awe of the Fatty Director, but at this time he could not care about any director or boss, so he rushed to the back of the car and got into it after surpassing the Fatty Director.

Unexpectedly, at this moment, the scorpion-tailed lizard that tore the female stylist's neck raised its head, dashed forward a few meters, hit the young man, and slammed into the open car door together.

With a loud bang, the young man screamed and the scorpion-tailed lizard was thrown out by the rebound of the car door.

The barb on the tail of the scorpion-tailed lizard swung over, plunged into his belly with a snort, hooked the intestines in his abdomen and pulled it out, pulling the young man away. The intestines in the stomach were dragged out.

This scene made Director Fatty look as pale as death.

"Get in the car!" Tie Jun shouted again.

Li Luo, who was beside him, grabbed the wrench and screamed: "Drive, drive!" He saw a scorpion-tailed lizard rushing towards them through the window glass on the side of the passenger, and he was terrified.

Director Fatty finally rushed up, followed by the photographer behind him.

Although there were only three people in the back row of the car, now Meng Yun and the female assistant are sitting, but this time, he can't take care of much anymore. As soon as the fat director entered the back row, the cameraman pulled the door and rushed in, and the back The four huddled together.

A scorpion-tailed lizard rushed to the co-pilot's side, jumped up, almost stood up, and hit the window glass with its head, making a loud noise.

Tie Jun stepped on the accelerator and drove out of the off-road vehicle.

The direction he was heading towards was exactly where the four Wang Xuan were.

At this moment, Wang Xuan and the others were fighting with the scorpion-tailed lizards that came from all around.

Zhang Haofei held the steel pipe and stabbed at the scorpion-tailed lizard that had fallen on the roof of the car. With a "snap", a black shadow flashed. The barb from the back of the lizard's tail swooped like a whip, hitting the steel pipe, and its body went up. As soon as he lifted it, he jumped into the air and rushed towards Zhang Haofei.

Zhang Hao flew back and smashed the steel pipe in his hand.

The white scale on this scorpion-tailed lizard's forehead peeled off and flew into his right palm. This was the fourth white scale he obtained.

Wang Xuan, Gu Manyao and Zhao Lei were also attacked by the scorpion-tailed lizard at the same moment.

Around them, at least six or seven scorpion-tailed lizards appeared, besieging them.

After fighting with monsters several times before, even killing the elite monster with two white scales, now Wang Xuan is more and more calm, and when he sees the scorpion-tailed lizard, he turns around, and he holds the steel bar in his right hand. It shot out like lightning.

Whether it is speed or strength, with seven white scales, he has crushed this scorpion-tailed lizard.

With a "chi" sound, the very sharp steel bars pierced through the head of the scorpion-tailed lizard that rushed over, pierced through the left eye, and slanted out from the right forehead.

The scorpion-tailed lizard opened its mouth, snarled, and with a flick of its tail, a sharp hook came over.

In Wang Xuan's eyes, the speed of the hook was a bit slow. He moved his body to avoid it easily, and with a stroke of his right hand, the steel bar was pulled out with a stream of blood, and a scorpion-tailed lizard was strung on it. Huge eyes.
