

Last Building on Earth Chapter 211-215

Chapter 211

Wang Xuan watched countless tree demons rush towards the ancient ruins a few kilometers away. The moving speed of the 100-meter tree in the distance was terrifying. He couldn't see how it moved at all. In this forest, the giant mushrooms that appeared above the ancient ruins were constantly approaching.

It's strange to say that those towering trees, one by one, seem to have come to life, actively bending to both sides to make way for a road, like the gods opening the sea, this ancient tree totem, this piece of virgin forest is divided into two .

"This forest seems to have come to life completely..." Wang Xuan watched this miraculous scene from a distance, his heart was shocked, and it was indescribable.

The large trees around the ancient ruins showed signs of struggle and resistance. They swayed automatically without wind, and the ocean of light and liquid formed by the gathering fluctuated and oscillated, and the speed slowed down.

The 100-meter tree continued to approach along the automatically separated forest passage, and soon rushed into the light-liquid ocean. The light-liquid ocean fluctuated violently, and there were signs of tearing. Half of the light-liquid cracked and flowed back. .

Wang Xuan, Wan Qianying and others were separated by a few kilometers. They were afraid that they could not look carefully enough, and climbed up the towering tree beside them.

For their own safety, everyone did not dare to get too close. They were separated by a distance of several kilometers. No matter how powerful this 100-meter tree and the translucent mushroom-shaped ancient relic were, they would not be able to spread to this place. Now the groups of tree demons have also left. It's safe for everyone to stay here for the time being.

The six climbed to the canopy of a big tree and immediately saw everything that happened in the distance.

A few kilometers away, the tree totem has descended on the ruins, and the sea of light and liquid formed by the gathering has been torn apart. On this 100-meter tree, the crown spreads out, and countless thick branches extend out, like a root. javelin.

It was only at this time that everyone knew why the crown of this 100-meter tree was so lush. It was only because it curled a lot of branches together. Now these curled branches are stretched out, and the short branches are also 20 to 30 meters long. The long branches can reach more than 100 meters.

This 100-meter tree fell toward the translucent Mushroom, and the thousands of branches that opened were like the thorns of a hedgehog, all of which came towards the Mushroom.

When attacked, the mushroom gull launched a counterattack, a translucent giant tentacle differentiated from the translucent flesh column below, the tentacle was lifted and volleyed.

Although everyone was far apart, they could still vaguely hear the whistling of the wind that was surging with energy. Countless branches were plunged into the huge mushroom canopy of this mushroom, and there were a lot of translucent liquid splashes inside. out.

The translucent tentacles swung out by the giant mushroom also hit the 100-meter tree, and cut off the branches that extended over. With the sound of the branches breaking off, a large number of branches fell down with the green tree.

Wang Xuan and the six watched the battle between these two super beings. They didn't expect that their fighting method was so straightforward and simple, which was very different from what they had imagined. It was just a face-to-face, that is, the way of losing both sides, which was far more tragic than their battle. much more.

The countless branches plunged into this giant mushroom body, because this mushroom is translucent, everyone can see these branches grow wildly inside its mushroom cover from a distance, and the cylinder below the mushroom is On the top, more and more giant tentacles split off. These tentacles are infinitely powerful. They beat the 100-meter tree, breaking a lot of branches, and then wrapped around the 100-meter-high giant trunk. The tentacles began to glow, as if they wanted to The life essence of this 100-meter tree is sucked away.

"No, the tree totem seems to be downwind!" Wang Xuan heard Huang Qingzhi whispering beside him. In his opinion, a lot of branches of the 100-meter tree were cut off, and even the trunk was entangled. It seems that the situation is not good. .

Wan Qianying said: "It's hard to say now, until the last moment, it's hard to say who wins and who loses."

Wang Xuan watched the battle at a height of 100 meters in the distance. The huge tree up to 100 meters fell to the giant mushroom, and the branches that pierced into the umbrella of the mushroom expanded in all directions, like a sharp knife. The mushroom umbrella cover was scratched into pieces, and a large amount of translucent liquid was spilled down.

Thousands of tree demons have already rushed to the ancient ruins. They climbed frantically over the high wall outside, rushed in, and started to attack from the root of this giant mushroom.

From the bottom of the 100-meter tree, thick roots appeared one by one, like a prehistoric giant python, rising from the ground, entangled with the translucent tentacles split by the other party, pulling each other, these roots and tentacles All contain the power to pull mountains. During the pulling, the roots and tentacles are constantly broken, and the blood-red juice and translucent liquid are constantly spewing along the break.

More and more tree roots and tentacles appeared on both sides, and they were entangled with each other. The 100-meter trunk and the giant mushroom were completely squeezed together. The top of the tree crown and the mushroom umbrella were colliding with each other, and they continued to rumble. bang.

The battle between the two sides became more and more fierce. Wang Xuan watched the roots of the 100-meter tree from a distance and swung out casually. Mushroom solitary.

This giant mushroom has no time to absorb the life essence of the surrounding plants in the battle. The mushroom canopy above it becomes tattered, and the translucent tentacles under the canopy fight against the towering trees that come over, and continue to fight back. draw out.

The crown above the 100-meter tree was beaten to pieces, and a large number of branches fell off. Suddenly, the 100-meter tree reached out dozens of giant roots, entangled the giant mushroom, and wanted to pull it up.

"Boom--"

In the earth-shattering loud noise, the 100-meter tree pulled up the giant mushroom, but all the tentacles of the giant mushroom completely entangled the 100-meter tree, like pushing a golden mountain down a jade pillar, and both sides fell down together.

Everyone was separated by a distance of several kilometers, watching this scene, and they were shocked. The two super-life fell together in the ancient ruins, crushing the buildings covered with plants, and the buildings were crushed and collapsed. All kinds of harsh sounds continued to sound, and the rumbling sound was endless.

The entire ancient ruins were filled with rubble and dust. After the two behemoths fell to the ground, they rolled and fought against the ground. The blood-red liquid flowing out of the ancient tree totem and the translucent liquid in the unknown ancient object kept surging outwards, and the scene became more and more tragic. .

As the two sides fell, a strange howl came from the center of the ancient ruins. These strange howls were like tsunamis, and the waves were bigger than the waves, one after another.

Standing on the canopy of the tree, Wang Xuan and the six all showed a surprised look. They were busy looking around, but they saw more tree demons appearing on the towering trees in the distance. These tree demons are like apes. The canopy flew up and down, rushing towards the ancient ruins.

There are so many tree demons that at first glance, there are thousands of them.

Everyone sucked in a breath of cold air, never expecting so many tree demons hidden in the forest in the distance.

In addition to these tree demons, standing up vines appeared on the other side of the ancient ruins. Between these countless swinging vines, green monsters crawled out. These vines are their tentacles. .

With sharp eyes, Wang Xuan immediately recognized that these green monsters with rattan tentacles were the perennial vines he had encountered before.

These perennial vines are parasitic in the big trees. At this moment, they are climbing with all their strength, relying on the vines to entangle the branches and swing out. The speed is not much slower

than that of the tree demon. From Wang Xuan's view, these perennial vines are like green tides, surging close to the ancient ruins. .

In addition to the tree demons and perennial vines flying on the canopy, in the grass below, among the towering trees, there are more figures approaching quickly. Time turned into a sea of monsters.

"So many monsters are gathering towards the ancient ruins, and the ancient tree totem is calling them." Wan Qianying whispered to herself.

An earth-shattering roar of filial piety sounded from afar, and Wang Xuan saw that among the thousands of tree demons, a giant tree demon suddenly flew out and landed steadily on a towering tree.

This tree monster is several times larger than ordinary tree monsters. It stands above the canopy and is ten meters high. It opens its mouth and sends out a huge filial piety towards the ancient ruins. Under its command, the surrounding tree monsters More and more crazy, rushing into the ancient ruins.

"That's the tree demon king." Xu Jian shouted.

Huang Qingzhi's face changed color and said: "Let's go quickly, it's getting more and more unsafe here, and if we don't leave, we'll be in danger."

Wan Qianying shouted in a low voice, "Come on!" She also saw that not far away, there was a figure covered with bacterial plaques quickly approaching here, although it was not aimed at them deliberately, but once caught in it, it would be troublesome.

Wang Xuan also saw a group of figures appearing in the distance. These figures looked like human-shaped fungi, their surfaces were covered with bacterial plaques, and there were dense small mushrooms growing on the surface of their bodies. , as long as you look at it, you will be horrified, and it will appear unspeakably uncomfortable.

He took a look with the eye of the illustrated book and immediately obtained their information.

Mushroom Man has the terrifying ability to spray Mushroom Bombs, and the danger level is the same as that of Dryads and Persistent Vine, reaching six stars.

Wang Xuan saw an article in the information about the mushroom people. They are born to hate humans. Once they find humans, they will try their best to kill them.

When he noticed this information, he understood the trouble.

Groups of Mushroom Guys appeared from afar and were gathering towards them.

Everyone felt that the situation around them was very wrong. Not only were there more and more monsters gathered in the ancient ruins, but also a large number of monsters began to gather here.

Wan Qianying slid down the trunk of the big tree quickly as she spoke, Wang Xuan and the others descended one after another, and soon fell to the ground.

Those weird Mushrooms had already appeared more than 20 meters away from them. Although their main target was the direction of the ancient ruins, when they noticed Wang Xuanliu, many of them still began to charge towards them. Come.

"Let's go!" Wan Qianying turned over on the back of the mechanical giant bear, let out a shout, and immediately rushed into the distance.

The other five followed closely, and the fastest chasing Mushroom man had already rushed within ten meters, and immediately started to launch Mushroom bombs.

The dense mushrooms growing on the surface of their bodies are a special kind of mushroom bombs. These mushroom bombs grow on special organs. These organs can compress and eject powerful airflow, so that these mushroom bombs fly out like bullets. When it hits an enemy, it immediately explodes violently.

In terms of power, a mushroom bomb is almost as powerful as an exploding crystal.

Gong Yangxuan was busy summoning pieces of glass mirrors and guarding them behind the crowd. Those flying mushroom bombs hit the glass mirrors and exploded immediately, blowing these glass mirrors into pieces.

Everyone didn't dare to fight, and rode on the mechanical beast, running at full speed in the direction where there was no Mushroom Guren in the distance.

Now the directions to the five major cities are all tree demons, and on both sides are Mushroom Gu and Su Shengteng. The only direction everyone can escape is the No. 9 area where they took the elevator.

These mushrooms are proficient in powerful long-range attacks, but in terms of movement speed, it is not their strong point, and they cannot catch up with mechanical beasts.

The six people ran all the way, and soon the group of mushrooms who appeared was far away, and suddenly, a group of monsters like a king flower appeared in front of them.

This monster is full of bright colors, about two or three meters high, has a huge corolla, and relies on the centipede-like rhizomes below to move.

Wang Xuan checked their data and captured their data.

Piranha, can spray corrosive venom, and has a six-star danger.

A group of piranhas suddenly appeared in front, but fortunately they did not target them, but moved in the direction of the ancient ruins.

The six people rode the mechanical beasts, bypassing these moving piranhas, and ran at full speed.

Wang Xuan looked in the direction of the ancient ruins. There were almost all kinds of strange creatures in the forest. The battle between the ancient tree totem and the translucent mushroom seems to be coming to an end, and the movement gradually became smaller.

"This tree totem has summoned so many monsters to help out, it should be able to win."

Wang Xuan guessed in his heart.

Right now, they can only give up the direction of going to the five major cities and go back to the No. 9 area first. They don't want to see more and more monsters appearing around. Even in the direction of the No. 9 area, a large number of monsters began to appear.

The six were still attacked.

They were attacked by a group of piranhas.

They shrink the petals, form venom from them, and spray it out.

Their venom can be sprayed as far as more than 20 meters, and it is powerful. These venoms will not corrode flowers, plants and trees, but they can corrode the human body, and even steel. As long as they are contaminated, it will be very troublesome.

Gong Xuanyang's glass mirror once again played a huge role. He kept raising his right hand and summoned the mirror to appear as a shield to resist the venom that was sprayed over.

Wang Xuan stretched out his right hand, and the four metal tentacles stretched to the limit of seven meters. Since these piranhas were attacking them, he would no longer be polite.

Four metal tentacles waved, and before the venom of these piranhas was sprayed, they were hit by the metal tentacles, and immediately became tattered.

Wang Xuan's metal tentacles contain the power of blue crystal scales. Every blow seems simple, but it is actually powerful. The venom of this piranha's long-range attack is powerful, but its body is very fragile.

Wang Xuan took the white scales that appeared in their bodies, and took the lead, killing these piranha monsters.

Soon the tree demons appeared above the head, they appeared in the crown above, fell into the sky, and rushed towards the crowd.

Everyone fought back one after another. Wang Xuan saw that the ten glass pillars in the No. 9 area had appeared two or three kilometers away. With the speed of their mechanical beasts, they could reach them soon, but at this moment, the area around the No. 9 area actually gathered. A large number of monsters, they want to return, it is not easy.

Wan Qianying followed closely behind Wang Xuan, Gongyangxuan summoned a glass mirror from time to time to defend against the piranha.

After Xu Jian and Huang Qing broke up, they knew it was hard to resist, so they took out the flame spar and explosive crystal, and threw them towards the back to block the piranhas who were rushing towards them.

Wang Xuan was the first to clear the way, and with the crowd, he ran at full speed in the direction of the ten glass columns in the distance.

In the direction of the ancient ruins, the movement is getting smaller and smaller, only the screams of countless monsters rise and fall.

Wang Xuan didn't know how many piranhas he had killed in front of him. The ghost wings that appeared behind him turned into steel feathers, shooting volleys into the sky. The body of this piranha was very fragile. The steel feather hits, and it will soon wither and die.

Wang Xuan continued to absorb the white scales, and the steel feather on the left side of the back gradually became larger, and now it has become the size of a palm fan.

As he gradually approached the No. 9 area, Wang Xuan saw groups of tree demons and mushrooms gathered around the ten glass cylinders, but they did not enter the circle surrounded by the stone runes, but gathered together. At the edge of the circle, they are gathering towards them ~www.mtlnovel.com~ trying to block them.

Looking up at the tip of the iceberg that appeared to be a building in the sky, Wang Xuan took a deep breath. The four metal tentacles exploded with full force, just like four tumbling pythons. He activated the energy of blue crystal scales. The most powerful force, whether it is a piranha or a tree demon, can kill it in an instant.

Taking such an all-out shot is very exhausting. He has just drank a bottle of primary physical strength water to continue to maintain his frenzied outbreak.

The others followed closely behind, watching the power of Wang Xuan's shot, and they were secretly shocked. In their opinion, Wang Xuan's strength was getting stronger and stronger.

Finally, when they approached the rune stone carving, Wang Xuan let out a loud shout, and the four metal tentacles volleyed down with a crisp snap, knocking a tree demon out of it. He rushed through the rune stone carving and entered the stone carving.

Strange to say, these monsters such as tree demons and mushrooms seem to be intimidated by this rune stone carving. As soon as they approach the rune stone carving, they immediately stop and no longer enter.

Wan Qianying, Tang Ruoyu, Xu Jian, and Gongyangxuan rushed past the rune stone carvings and entered the No. 9 area.

Outside the rune stone carvings on the ground, groups of tree demons were screaming at them, showing their teeth and claws, as if they wanted to attack them, but these tree monsters just gathered outside the circle of the stone carvings on the ground, not close to the circle at all .

Wang Xuan looked in his eyes, secretly amazed.

Just a round of rushing, I don't know how many monsters I killed, I harvested a lot of white scale energy, the ghost wing on the left changed a lot, and then looked at the direction of the ancient ruins in the distance, it became quiet, the tree totem and the shape of a mushroom. The antiquities war, no one knows what the outcome will be.

Chapter 212

"It became quiet over there. It seems that the battle is over, but I don't know who wins and who loses." Xu Jian looked into the distance, and now he could only see the towering trees and the gathering of tree demons and mushrooms. Waiting for monsters, you can't even see the ancient ruins, let alone the life and death of the tree totem and the unknown ancient relic.

Outside the rune stone carvings, the number of various monsters gathered is increasing. This forest has an unusual atmosphere. These monsters have also become irritable and keep roaring. Among them are many tree demons and mushrooms. Staring at them who had retreated into the rune stone carvings, their eyes glowed with fierce light, as if they were ready to attack at any time.

The atmosphere around them became very depressed, which brought strong unease to everyone's heart.

"This situation doesn't seem right..." Wan Qianying just said here, suddenly a mushroom bomb was launched, and it shot at the people standing behind the rune stone carvings.

When the mushroom bomb was about to pass over the rune stone carvings, the rune stone carvings on the ground were suddenly activated, and with a loud bang, a sky-high white light rose up and turned into a light curtain.

These mushroom bombs hit the light curtain, causing a violent explosion, and everyone was protected without injury.

A look of surprise appeared on Wang Xuan's face. Looking around, he saw a semi-circular light curtain rising from the rune stone carvings around the ten glass cylinders, covering the area like a light mask.

At this moment, he finally understood the meaning of this safe zone.

This rune stone carving has incredible ability, humans can come and go freely, and these monsters, whether they are approaching or attacking, will immediately activate the rune stone carving to generate a mask to protect it.

A tree demon screamed, like suddenly going crazy, and rushed towards the light curtain.

The tree demon fell out, followed by at least a dozen tree demons and mushroom Guren rushing towards the mask.

Wang Xuan saw that the mask did not fluctuate in the slightest, but the tree demons and mushrooms who rushed up were bounced off one after another. When he saw this, he understood that the defensive mask formed by this rune stone carving was extremely powerful. These monsters Can't be destroyed at all.

It's a pity that the glass cylinder is too high, and the top is not protected by this kind of defensive light cover, so it will be attacked and crushed.

Looking at these tree demons and mushrooms who were madly rushing into the light curtain, Wan Qianying sighed and said: "The ancient tree totem is probably in a bad situation, which is why the monsters in this forest are collectively restless. Fortunately, let's first If you escaped back in one step, it would be dangerous if you stayed there."

"Everyone, tell me, what should we do now?" Huang Qingzhi said as he sat down and rested, looking at the tree demon and other monsters that were rushing wildly outside the mask, with a wry smile on his face.

Although these monsters couldn't get in, they became so crazy that they didn't dare to go out casually, let alone travel through this virgin forest to the five major cities.

Everyone sat down to rest, and they were all very tired just after rushing to escape.

Xu Jian murmured: "We can only wait for these monsters to quiet down. After they disperse, we want to go to the five major cities. Going out now is almost like dying."

"If this tree totem is really defeated, what will happen to the monster like the big mushroom solitary?" Huang Qingzhi asked curiously.

Wang Xuan said: "It is also possible that both sides will suffer."

Wan Qianying nodded and said, "Yes, there are all kinds of possibilities. The most troublesome thing now is not knowing how long it will take for these monsters to disperse."

As soon as she said this, a slight voice suddenly came from behind, everyone heard it, and turned back immediately.

But at a glass column not far away, the door of an elevator opened, and someone came out.

This person walked out and suddenly saw the scene in front of him.

The people who suddenly came out of the elevator were all men. The youngest was in his twenties, wearing a full set of ghost equipment, and the older one was about forty, wearing a suit of silver scales.

They saw the semi-circular mask as soon as they saw it, and saw a group of monsters roaring and filial piety outside attacking the mask, and also saw Wang Xuanliu sitting on the ground, then raised their heads, their faces full of incredible His expression was shocked by the scene in the sky.

Wang Xuan saw the word "ghost town" above the elevator they walked out of, and immediately understood that the four came from a ghost town among the hundred towns.

Those who can enter here now not only need the hatching beast to grow to a super state, but also need the **** clown mask as a pass. These four people can get the **** clown mask and enter here, it is not easy.

The six people who were sitting on the ground stood up one after another.

The four recovered from their brief shock and started walking towards them.

Wang Xuan saw that these four people were all wearing logos, one was wearing a phoenix badge, one had a red crystal-like belt around his waist, one had a metal plate hanging from his neck, and the other had a yellow scarf on his forehead, representing them. From "Phoenix", "Rakshasa", "Justice League" and "Dynasty".

"It seems that Ghost Town, like Insect Town, also has these major forces, and now only the Xuan Gang is missing." Wang Xuan's heart moved slightly.

These four people were also looking at Wang Xuan and six people, and seeing the signs they were wearing, they could probably guess seven, seven, eight, eight.

"We are from a ghost town, my name is Youkai, this is Gu Zijian, Sun Yaofei and Yi Wu."

The leader was the eldest man in his forties. He clasped his hands into fists, his face was valiant, and he seemed very polite. He first reported the names of the four of them.

Wan Qianying took two steps forward and reported her names and origins.

Wang Xuan soon learned that the four Yukai were the leaders of the ghost town "Phoenix", "Rakshasa", "Justice League" and "Dynasty". As for the leader of the ghost town "Xuan Gang", they entered the **** tower. Died there while looking for the **** clown mask.

Their status and status are the same as those of Wan Qianying and others. They are also appointed by the five major cities as the leaders of the five major forces in the ghost town. Now that the No. 8 elevator is out of order, they come up from the No. 9 elevator after they find out. The experience is similar to theirs, but A little later than them, they were the second group of people who entered the third-layer world through the No. 9 elevator.

After knowing the identities of these four people, Wan Qianying let out a sigh of relief. Now that the situation is serious, it is naturally a good thing to have four more super-powerful people appear.

Through Wan Qianying, the four of You Kai also roughly understood the current situation on the third floor, You Kai immediately said solemnly: "The most important thing now is to find the five major cities. Although there are many monsters in front of them, they are not enough to be afraid of. I think the leaders of Hundred Towns should all know that something happened here, and they will come here one after another, as long as we all unite, how difficult is it to find the five major cities."

Hearing this, Xu Jian nodded slightly. Although many towns on the second floor were destroyed, as long as half of the towns are normal like the worm towns, then these towns have leaders from the five major forces, and the number of these leaders increases. Together they are quite amazing.

So many super powerhouses can really organize, it will be an extremely powerful force.

"The truth is so good, and we hope so too. If the leaders of the towns can really come up, if we unite together, there should be hope to pass through this virgin forest and find the five major cities."

Wan Qianying looked forward as she spoke, but saw that the rune stone carving was still emitting a light curtain. There were more and more tree demons, mushrooms and piranhas gathered around the light curtain, and they kept rushing towards the light curtain. , Although he knew that the light curtain could not be destroyed, he kept going one after another.

This scene was seen by everyone, and they all showed some nervous expressions, and the atmosphere became depressed again.

Wang Xuan, who had been sitting and resting all the time, suddenly stood up, stretched out his right hand, summoned Xiaojiao, entered a state of fusion, and with a sway, fell to the edge of the light curtain, extending four metal tentacles.

The four metal tentacles lit up with a blue light, and the power of the blue crystal scales was activated, and there were two crisp sounds. These four metal tentacles passed through the light curtain without any obstruction. The tree demon of the light curtain immediately blew up the two tree demons.

Harvesting two white scales, Wang Xuan was overjoyed, there is such a good thing?

He can stand inside the light curtain and rely on the metal tentacles to attack these monsters such as tree demons and mushrooms who are attacking the light curtain, but these monsters are blocked by the light curtain and cannot attack him.

This is an excellent place to harvest energy. He doesn't need to think about defense or worry about being injured. He can only concentrate on harvesting and hunting these monsters that are approaching or jumping on the light curtain.

What could be easier than this?

The four metal tentacles were pulled out like four steel whips in a row. One by one, monsters such as tree demons and mushrooms were killed by him, and ten white scales were easily harvested in a row.

Everyone else was dumbfounded, there is such an operation?

Immediately after everyone reacted, what are you waiting for? Following the example, they also stood within the light curtain, showing their hatching beasts, and under the protection of the light curtain, they easily harvested the lives of these monsters.

These monsters are not stupid, they quickly realized the problem and started to stop hitting the light curtain with their bodies.

Those Mushrooms are proficient in long-range attacks. Even if they are separated by a distance of 20 to 30 meters, they can still launch Mushroom bombs and continuously project them on the light screen.

More and more mushrooms appeared, and they all stood 20 to 30 meters away from the light curtain, launched a large number of mushroom bombs, and concentrated on attacking one place of the light curtain. The curtain finally fluctuated, and the fluctuations gradually became violent.

"It's not good. If this continues, I'm afraid they will really break the light curtain." Wan Qianying saw that they had withdrawn from the attack range, so she had no choice but to stop.

Although her flames can attack twenty or thirty meters away, their power is too weak to harm these monsters.

Wang Xuan saw these monsters retreating, without saying a word, he stepped through the light curtain and killed the retreating monsters.

Suddenly seeing Wang Xuan rushing out of the light curtain, everyone was taken aback, especially the four ghost town leaders Yukai who had just arrived.

And these monsters immediately became excited, and the tree demon who had retreated immediately stopped and rushed towards him.

Wang Xuan needs to hunt down a lot of monsters, not only the white light in his right hand needs enough energy, but also his second ghost wing needs enough energy to grow.

With four seven-meter-long metal tentacles, combined with the energy of the blue crystal scales, it launched with full force, attacking the surging tree demons in all directions, the ghost wings behind it spread out, and fired steel feathers from time to time, shooting those tree demons. Piranha in the rear.

The others stayed in the light curtain and watched Wang Xuan kill him alone. Facing the hordes of six-star monsters, they were not afraid at all, and secretly admired them.

"Okay!" Yu Kai, who belonged to the leader of the ghost town Rakshasa, let out a soft drink and said, "It just so happens that I will also exercise my muscles and bones."

After speaking, he leaned forward slightly, followed by kicking his feet, and almost rushed out in the air. At the same moment, he threw out a mechanical beast's heart and entered a state of fusion. In addition to the silver scale suit on his body, he formed the first Two-layer mechanical shell.

He fell not far from Wang Xuan, and immediately attracted a group of tree demons and other monsters to attack.

He let out a loud laugh, raised his arms, slammed his fists into the center, and with a loud thud, a rock-like substance surged out of his body.

This rock-like substance was attached to his back, forming a human-shaped appearance, rising up, and soon gathered behind him to form a half-rock giant appearance.

This rock giant, with only the upper body and missing legs, was two meters tall with only the upper body, and jumped out with his movement.

The half-rock giant waved a giant fist, and with a loud bang, a tree demon was hit by the giant fist, and it split into pieces in an instant. Hold on to this power and split directly from it.

Watching Yukai kill two tree demons in a row, Wan Qianying, Xu Jian and the others opened their eyes wide.

Although this tree demon can only be compared with ordinary super powerhouses, it can kill them so easily. Wan Qianying and Xu Jian think that they can't do it, unless they have superior combat power in super power. only possible.

"I remembered. I heard before that there was a super-powerful person with superior combat power in Rakshasa City who took the initiative to go to the town below to be the leader... I understand, it turned out to be him." Xu Jian He suddenly realized, and then looked at Gongyangxuan and said, "Gongyangxuan, you have been in Rakshasa City before, you should know about this, right?"

Gongyangxuan nodded slightly towards him, indicating that he had heard it.

"Having superior combat power, but taking the initiative to go to the town, why?" Huang Qingzhi was a little puzzled.

Xu Jian said: "I don't know either, Gongyangxuan, you should know."

Gongyangxuan said softly: "It is said that he has reached the bottleneck of breakthrough. He took the initiative to go ahead, hoping to change the environment and find a way to break through the bottleneck."

When he said this, everyone was slightly taken aback, including Gu Zijian and Sun Yaofei, who belonged to the same ghost town as You Kai, also knew it for the first time.

"Has reached the breakthrough bottleneck? That doesn't mean... If he can break through again, wouldn't he be the top?" Xu Jian showed a look of surprise on his face.

The most super-status is the middle-level combat power like him, and the high-level combat power is very rare, let alone the top-level super-status powerhouse.

During their conversation, the strength that Yukai burst out became stronger and stronger. The half rock giant floating behind him moved with his movement. A pair of rock giant fists were invincible, whether it was a tree demon or a mushroom People, or piranhas, are all vulnerable.

Wang Xuan's strength gradually became stronger and faster.

The two of them seemed to be secretly competing, and they seemed to be unwilling to accept the other. Now they are fighting against the monsters in front of them. They are desperately hunting and killing them. They both want to kill as many monsters as possible and crush each other.

"You said, this Youkai went to the ghost town to find a way to break through the bottleneck. Did you find it? It's too powerful..." Huang Qingzhi murmured, he noticed the surface of the half rock giant behind Youkai, A faint halo appeared.

When his strength was pushed to a certain limit, this halo appeared naturally, which was a halo formed by the high-speed explosion of the rock giant rubbing the air.

Now every time it attacks, it can blast two monsters in an instant.

Wang Xuan originally controlled four metal tentacles, but now two of the metal tentacles are turned upside down, wrapping around his arms, showing the giant arms of beasts.

His strength has been raised to a new level, attacking simultaneously with two giant arms and two metal tentacles.

He didn't know how many monsters he had killed and how many white scales he had absorbed. The second ghost wing on the left side of the back was originally about the size of a palm fan, but now it has grown to half a meter long.

This growth rate is really amazing. You must know that the complete ghost wing on his right is only two meters in length.

Everyone in the light curtain looked at their amazing performance and felt their blood was boiling. Soon, all eight of them rushed out of the light curtain and killed the monsters facing them~www.mtlnovel.com~ Youkai laughed wildly: "Killing happily, I haven't been so happy for a long time!"

He was short and leaned forward, and a half-rock giant two meters tall behind him suddenly flew out of his back.

"Boom" rushed into a group of Mushroom Guys gathered together, causing a deafening loud noise, at least five Mushroom Guys shattered in an instant.

The power of this blow is simply monstrous.

Wang Xuan saw in his eyes, secretly heartbroken, this Youkai is indeed powerful, this is the real super-class powerhouse, and even there are faint signs of surpassing the superior.

With a thought, two ghost wings, one large and one small, slammed into the back. As the ghost wing on the left grew to half a meter, the power of these two ghost wings was greatly improved, and a hurricane blew up. With the help of this hurricane, his body spun into the group of tree demons on the left, and a pair of giant arms of beasts erupted, and the surface lit up with blue dim lights.

There was a loud "bang", and the two tree demons that were hit flew upside down at the same time, tumbling and flying more than ten meters away, and their bodies exploded from where they were hit.

Wang Xuan landed steadily, the ghost wing behind him swiped down, and with a snort, he cut a tree demon who had just pounced on it in half.

"Wang Xuan, that's not bad!" You Kai looked in his eyes, laughed, and gave him a thumbs up with an undisguised look of admiration on his face.

At this moment, in the ancient ruins in the distance, a strange whistling sound suddenly came.

Following this whistling, these crazy tree demons, mushrooms, and piranhas suddenly froze like petrification, as if they had been summoned by some kind of power, they turned their bodies one after another and looked in the direction of the ancient ruins. .

"Ancient tree totem!" Xu Jian immediately called out.

Chapter 213

Wang Xuan also stopped and looked up in the direction of the ancient ruins.

With the whistling, a towering tree swayed up from the ancient ruins, it was the totem of the ancient tree.

At this moment, it has become dilapidated, the original lush canopy above it no longer exists, thousands of thick branches are broken, and a large number of cracks have appeared on the trunk up to 100 meters.

A tree root appeared below, lifted high, surpassed the city wall of the ancient ruins, and extended to the surrounding forest. This ancient tree totem, which was as high as 100 meters, began to move.

Its appearance shocked all the monsters in the forest in all directions. They all became quiet and looked towards the ancient tree totem together.

Look at the direction in which the ancient tree totem moves, it is coming towards them.

Crowds of tree demons and mushrooms made way out one after another.

"Fast back!" Wan Qianying shouted, and was busy retreating into the mask where the rune stone carvings appeared.

Although the ancient tree totem has a neutral position towards human beings, at this moment, suddenly seeing the ancient tree totem from afar coming here, it still brings great pressure to everyone.

Totem is an existence that truly stands at the pinnacle of the third-layer world. This kind of super life is like the **** of the third-layer world, which cannot be confronted by human beings.

Everyone retreated towards the safe area inside the mask, as strong as Wang Xuan and You Kai, and at this moment did not dare to be brave, and followed back.

Although this ancient tree totem looks scarred and dilapidated, its speed is terrifying. Everyone saw it erected from the ancient ruins and soon appeared a thousand meters away.

It was the first time to approach the totem at such a close distance. At this moment, Wang Xuan and others retreated into the mask, and they were still under the protection of the mask. Everyone still felt nervous in their hearts.

After all, no one knows whether this mask can resist the totem.

As the totem of the ancient tree kept approaching, everyone felt like a heavy stone was pressed against their hearts, and they felt like they couldn't breathe. This invisible coercion was suffocating.

The ancient tree totem is getting closer and closer, and outside the mask, countless monsters such as tree demons, piranhas, and mushroom gulls have all made way, lowered their heads, and expressed their surrender.

For the first time seeing the ancient tree totem so close, Wang Xuan finally saw how it moved.

This ancient tree totem is like a towering tree that has been uprooted. There are countless thick roots below. These roots are strong and powerful, like the tentacles of squid and octopus. It relies on these roots to support its body and can move on the ground. .

The totem of the ancient tree is getting closer and closer, and everyone hiding in the mask is retreating. Soon the totem of the ancient tree is approaching the mask. Everyone is only separated by a layer of mask, and they feel the totem of the ancient tree more and more. Magnificent, huge, and oppressive as heavy as a mountain.

"What is it trying to do, does it want to destroy the mask and attack us?"

Everyone watched the ancient tree totem stop in front of the mask and lifted the root of the tree, their hearts were beating like a drum, and their hearts were filled with fear.

Huang Qingzhi has quickly retreated to a glass column, and behind him is the elevator to "Insect Town". He opened the elevator door. If the situation is not right, he plans to take the elevator to return to "Insect Town" immediately.

Although this ancient tree totem is powerful, it is impossible to enter the elevator to reach the "worm town".

The roots of the prehistoric giant python were lifted up and touched the mask. The mask was fluctuating slightly. Obviously, even if it was the totem of this world, it was resisted by the mask and could not walk freely through the light like a human being. cover.

These tree roots extend up along the mask, and the ancient tree totem climbs up along the semi-circular mask with these roots.

Everyone was greatly surprised, raised their heads, and watched the ancient tree totem climb up along the mask, approaching the ten glass cylinders that passed through the mask.

"What is it trying to do?" Wang Xuan was puzzled, looking up at the totem of the ancient tree that had climbed to the mask above their heads, watching its roots stick out one by one, tightly entangled in one of them. The glass cylinder began to rise up along the cylinder.

Although the surface of the glass cylinder is very smooth, they can't climb up, but the ancient tree totem relies on these giant tree roots to wrap around the glass cylinder and easily climbs up the glass cylinder.

"Is its target the building above..." Wang Xuan suddenly heard Wan Qianying whispering softly beside him.

"Yes, it's very possible." Xu Jian murmured with a solemn face: "Could it be that he is as curious as we are about the building that looks like a building in a corner? So he wants to go up and have a look?"

Huang Qingzhi said in a low voice: "Do you still remember that there was an iron-winged owl approaching there before? It suddenly shattered, like a picture, and it was fixed there forever. You said that the ancient tree totem is really going to go up, what will happen? "

Wan Qianying shook her head. Although she was well-informed, she didn't know what would happen next.

Around the mask, countless monsters are looking up silently. The ancient tree totem is very fast. It climbs up along the mask, and then climbs up one of the glass cylinders, and soon it reaches hundreds of meters. High in the sky, the broken canopy has approached the broken space above.

It has climbed to the end of the glass column.

The top of the ten glass cylinders was pressed down by the building that appeared to be a building in the middle of the sky, and the surrounding space showed signs of shattering.

The ancient tree totem stopped, and most of the hundreds of branches that originally formed the lush canopy were broken, and the remaining small branches stretched out towards the broken space above, as if they wanted to touch the broken space. Revealed buildings.

The branches had just extended past, and suddenly began to shatter and fall.

Everyone understands when they see this. Although this ancient tree totem is powerful, it is afraid that it cannot resist the power that can shatter space. The branches it stretches into will shatter silently. How scary.

At this time, an astonishing scene appeared. Knowing that the power of the broken space was so terrifying, the ancient tree totem actually climbed up again and stretched out its remnant canopy, as if trying to touch the broken space. out of the building.

The tree crowns that protruded in shattered immediately, and a large number of broken branches fell down, hitting the top of the mask below, like a heavy rain.

Everyone looked surprised, is this ancient tree totem crazy?

The roots of the trees wrapped around the glass column are constantly shrinking, squirming upward, and the ancient tree totem is constantly rising. Here comes the sound of cracking.

In the sound of the tree trunk cracking, everyone suddenly saw a translucent substance, like a liquid, emerging from the crack of the tree trunk.

The translucent liquid jumped up suddenly, touched the building above, stuck on it, and drilled into it along the exposed window of the building above.

The totem of the ancient tree is constantly rising and shattering, and in the thick trunk with a diameter of more than ten meters, there is a translucent liquid protected by the trunk, and it drills into the window of the building in an endless stream.

Inside the mask, everyone was stunned. You Kai and the other four did not know that the ancient tree totem was fighting the unknown ancient relic like a giant mushroom. At this point, I have understood.

The unknown ancient object occupied the body of the ancient tree totem, relying on the control and sacrifice of the ancient tree totem to resist the terrifying space fragmentation ability around it, and then let it successfully drill into the building above the tip of the iceberg.

In just a short period of time, half of the thick trunk of the ancient tree totem, which was originally 100 meters long, disappeared. The translucent liquid hidden in the trunk finally completely got into the window of the building above and disappeared.

As the translucent liquid disappeared, the totem of the ancient tree with forty or fifty meters remaining, finally stopped and continued to climb. The roots of the trees that were originally tightly wrapped around the glass cylinder suddenly hung down like a powerless release. The ancient tree totem hundreds of meters high fell into the sky.

There was a loud bang, hitting the mask below, causing violent fluctuations in the mask. Ten people including Wang Xuan and Wan Qianying under the mask all looked up at the mask above and fell on the ancient tree totem. , instinctively dodge.

Fortunately, the mask was not broken. The ancient tree totem smashed above it and bounced again under a huge rebound force. After two consecutive times, it finally slid down the arc-shaped mask to the ground.

The ancient tree totem, which was originally 100 meters high, is now only a small half of its body. The giant tree trunk, which is only 40 to 50 meters long, has become empty, as if it has been hollowed out.

Everyone and countless monsters such as tree demons, mushrooms, and piranhas all witnessed all of this. They were all silent or chilling. Looking at the sky, the translucent unknown antiquities drilled into the building that revealed the tip of the iceberg and disappeared. No one knows its origin, let alone what will happen to it when it gets into that building.

After a brief dead silence, a giant tree demon suddenly appeared in the distance, rushing towards here at an extremely fast speed.

This tree demon is ten meters high, fast as lightning, it appeared on the top of the tree canopy in the distance, and came flying, and the groups of tree demons below dodged and moved away.

Wang Xuan opened the eye of the map and immediately captured the information of this giant tree demon.

"Name: Tree Demon King, Race: Tree Clan, Dangerous Degree: ★★★★★☆ (six and a half stars), the Tree Demon King is the leader of the tree monsters, and evolved from the most powerful tree monsters. It can command all tree monsters, it is not only the most powerful king among all tree monsters, but also has wisdom that ordinary tree monsters cannot possess, and it is a member of the higher intelligent race."

The information about the tree demon king is very simple. This is the first monster with a six-and-half-star danger level among the monsters captured by the Eye of the Pokédex.

The existences encountered before are stronger than ancient tree totems or unknown antiquities. His Illustrated Eye cannot capture their data, but can capture the data, whether it is the tree demon or the mushroom man seen in the third-layer world. , piranha, perennial vine, iron-winged demon owl, or the giant king mantis, seven-star spider king, giant king ant queen and ghost mantis king encountered by the insect tide, or the sand scorpion lord and the green poison lord in the scorpion city , Although the strength of these monsters is very different from each other, they are all six-star dangers.

The tree demon king in front of him is the first monster to reach the six-star and half-dangerous level.

The speed of the tree demon king was very fast, and he appeared in front of everyone after a while. He jumped up in the air and landed next to the ancient tree totem, which was lying motionless on the ground. It stretched out a pair of claws and moved towards the large number of ancient tree totems. Grab the roots.

The tree demon king suddenly shot at the ancient tree totem, and everyone was surprised and surprised.

Wan Qianying woke up and shouted, "It wants to seize the essence left by the ancient tree totem."

Only half of this ancient tree totem is left, and it has become half dead. Most of it has been hollowed out by the unknown unknown, but after it fell, since the body is not destroyed, there may still be essence left. With the fusion of this essence, you can become stronger.

Wan Qianying woke up, and Yukai suddenly let out a snort, kicked his feet, and shot out.

He also understood that this is a once-in-lifetime opportunity. If he can obtain the residual essence of this ancient tree totem, he will definitely be able to break through the bottleneck and become stronger.

Although there were many monsters outside, he didn't pay attention to it. Only the rock giant in his upper body appeared behind him. As he rushed out of the mask, a tree demon immediately wanted to stop him.

Seeing Yukai rushing out, the others followed closely, all wanting to try their luck.

The tree demon king's claws grabbed the two roots of the two ancient tree totems, and grabbed them towards the roots where these tree roots gathered. It understood that this is the root of the ancient tree totems. If there is still essence left, it must also be hidden here.

It had just caught it, and its sharp claws had not yet caught it, and Yukai who was behind had knocked over two dryads and rushed towards the sky.

The assembled dryads couldn't stop Yukai at all.

"Boom", You Kai came quickly, the tree demon king didn't dare to be careless, twisted his body, and the two sides collided.

The tree demon king swayed and almost fell over, while Yukai was directly knocked back and flew back.

The first face-to-face confrontation between the two sides was a head-to-head confrontation. You Kai suffered a big loss. Obviously, although he is already a superior powerhouse in the super state, the tree demon king is stronger than him.

Wang Xuan rushed out with Wan Qianying, Xu Jian, Tang Ruoyu and others, and there were groups of tree demons blocking them.

Wang Xuan controlled the four metal tentacles, attacked the tree demon in a row, and harvested white scales. As for the essence that the tree demon king and the ancient tree totem might have left behind, he did not immediately fight for it.

Whether it is the Tree Demon King or Yukai, they are both strong. It is not easy to easily obtain the essence of the ancient tree totem. It is better to hide it first and see the situation.

A faint whistling sounded, and among the mushroom people gathered not far away, a giant mushroom person suddenly appeared. It was much taller than the average mushroom person, reaching five meters high. With a big stride, with a wave of both hands, a large number of mushroom bombs suddenly spewed out, focusing on the direction of the Dryad King and Yukai.

Wang Xuan used the eye of the illustrated book to capture the information of this giant mushroom.

Mushroom King is the leader of the Mushroom People. Like the Tree Demon King, he belongs to a terrifying monster with a six-star and half-dangerous degree.

The Dryad King and Youkai were busy dodging, and a large number of mushroom bombs exploded. The Mushroom King approached with strides. The mushroom bombs launched from his body could quickly regenerate and grow again. Seeing the Dryad King and Youkai want to shoot at it, a large number of mushroom bombs all over its body were sprayed again.

"Damn it!" You Kai burst out with a foul language. He really couldn't do anything about King Mushroom's almost rogue style of play. The sky was full of powerful mushroom bombs. The rock giant stood in front of him, defending against these mushroom bombs.

The target of the ten-meter-high tree demon king is too obvious, and more mushroom bombs are shot at it. Although it is continuously dodging, it is still hit by several mushroom bombs. Several rods rolled and fell, and it was so angry that it screamed and screamed, obviously it was extremely angry.

Yukai relied on the rock giant to block the explosive power, and many tree demons around were also affected and killed.

It swayed between a large number of tree roots below the ancient tree totem. Here, it just threw a few mushroom bombs in a row, and blew off a few tree roots. In the center of these tree roots, a piece of smooth bark was revealed. Faintly glowing, slightly bulging outwards, it looks like a human belly.

On the surface of King Mushroom's clean body, a new mushroom bomb is growing at a speed visible to the naked eye. It stretches out its right hand and grows claws on it, digging towards this complete bark~www.mtlnovel .com~ want to dig out the essence that may be hidden inside.

With its two claws attached, it dug out a hole in the smooth and raised bark, with red sap oozing out like blood.

King Mushroom Gu was overjoyed. He knew in his heart that the ancient tree totem was not dead, or that it was not completely sucked up by the unknown antiquity. There was still the last bit of its essence left here. There is hope to grow into a new totem in this virgin forest.

At this moment, it suddenly felt bad, and was busy trying to dodge.

Behind it, a dark red strange flower appeared, with a large number of rhizomes growing below it, and it moved quickly. The strange flower swaying above gave birth to bursts of rancidity. , blow it away.

This dark red strange flower that has just appeared is the King of Piranha. Like the Demon King and King Mushroom, they are all monsters with a six-and-half-star level of danger. It is the king of the Piranha family.

Originally, they all obeyed the order of the ancient tree totem, but now the ancient tree totem is about to die, and they fight, all wanting to devour the essence of the ancient tree totem and become a new generation of totems.

Heavy damage to the Mushroom King, the strange flower on the head of the Piranha Kawang shrank, suddenly enlarged, and ejected a dark red juice from it, like a swift arrow, shooting at the tree demon king who just wanted to approach.

At the same time, it lifted the rhizome several meters long and swept out horizontally, hitting the rock giant Yukai smashed over.

This blow was so powerful that Yukai's rock giant was directly knocked into the air, and he fell back with a groan.

Compared with the kings of these three races, Yukai's strength is, after all, slightly inferior.

Chapter 214

"Wang Xuan, you can also fight." Xu Jian was by Wang Xuan's side, and they joined forces to defend against the hordes of tree demons and mushrooms who rushed up. Seeing the fighting on the other side, Xu Jian couldn't help it. Now, whispering softly, he felt that Wang Xuan's strength was not inferior to Yukai, and he could also compete with these monsters.

Wang Xuan didn't say anything, he decided to wait a little longer, it's better that these monsters fight to lose both sides, he will pick up a bargain, otherwise it will be difficult to **** the essence of the ancient tree totem from these three six-and-half-star monsters .

Yukai's strength has reached the upper limit in the super state, and he is almost infinitely close to the top powerhouse level in the super state, but he is still invincible, and he is blown away by the cannibal flower king.

The tree demon king's tall body swayed, avoiding the poisonous arrows sprayed by the man-eating flower king, and the tentacles under him propped up to the ground, and it rose into the air, suddenly rising 20 to 30 meters high, from top to bottom, pressing to the ground. The piranha flower below.

The tree demon king just jumped into the air when a tree root suddenly burst out from below, stretched out into the air, wrapped it around with a bang, and then dragged it down.

The tree demon king had no room to resist and struggle, it didn't even understand what happened, and was dragged down in an instant.

The group of tree roots below the ancient tree totem suddenly opened, and the smooth bark that was slightly raised in the center suddenly swelled outwards, splitting from the center to the outside, just like a flower that suddenly bloomed. Each flower is covered with tiny teeth.

Suddenly, everyone was shocked. The tree demon king suddenly screamed with fear. In this scream, there was a meaning of begging for mercy. Unfortunately, it was too late. The roots of the tree were twisted and twisted, twisted into a giant ball, shaped like a twist, and stuffed into the giant mouthparts that opened like petals.

The petal-shaped mouthparts contracted and covered, and there was the sound of squirming and chewing.

The ancient tree totem, which was originally half-dead and had almost no vitality, suddenly became stronger as it devoured the tree demon king.

Cannibal King and Mushroom King realized that something was wrong, and they were busy trying to escape, but unfortunately it was too late. Two tree roots stretched out and caught them.

Yukai reacted very quickly. He had been pulled upside down by Kao Kao with a rhizome, and was very close to the mask. When he saw the Demon King of the Dryad suddenly entangled by the roots of the tree, he knew that it was not good. He turned over and rolled in. into the mask.

Almost half a second later, a thick tree root stretched out, but he rolled into the mask first. The root stuck in the mask, causing the mask to fluctuate violently.

As long as he is half a second later, he will be caught by the root of the tree, and the end will be the same as that of the tree demon king.

Yukai escaped and stayed in the mask, watching the tree demon king twisted into a twist and swallowed by a twist, he was covered in cold sweat and his face was pale.

Wang Xuan, Wan Qianying and others were also busy stepping back.

This ancient tree totem seems to have clear grievances and grievances. It only shoots at the tree demon king, mushroom king, cannibal king flower and You Kai who want to fight it. As for Wang Xuan and Wan Qianying, it did not attack and arrest them. .

The nine people fled back to the mask. Wang Xuan secretly screamed that it was dangerous. He originally wanted to fight the ancient tree totem, but he just wanted to wait for them to lose both. Can survive, devour the tree demon king, and at the same time capture the man-eating flower king and the mushroom king.

Both the Piranha King and the Mushroom King screamed, which was the sound of begging for mercy.

Wang Xuan's Eye of Fear sensed that their hearts were full of fear, but unfortunately the ancient tree totem did not respond to them, but wrapped and compressed them into a ball, opened the giant petal-like mouthpart below, and stuffed them one after another. .

Connecting to the leaders who devoured the three major races, the ancient tree totem's vitality recovered a little. Although only half of its body remained, it slowly stood up as it swayed. Countless monsters in all directions did not dare to move. Wang Xuan When ten people stayed in the mask, they did not dare to go out.

Especially Yokai.

The ancient tree totem was erected in front of the mask, and Wang Xuan sensed a vague awareness covering the surroundings. Yu Kai, who was beside him, suddenly fell back a few steps, and his face became extremely ugly.

Although this ancient tree totem does not have eyes, for some reason, everyone has a feeling that it is staring at Yukai hiding in the mask through the mask.

"This guy seems to be very vengeful." Wang Xuan passed a thought in his heart, watching the ancient tree totem lift up the roots of the roots, and suddenly poked on the mask, as if he wanted to break through the mask and capture the inside. Yokai.

The mask, which covers this area like a pot lid, begins to fluctuate violently. Although the strength of the ancient tree totem has declined and is no longer in its former heyday, its power is still extremely powerful for everyone, even stronger than the super state. Even the more powerful Tree Demon King and Mushroom King are vulnerable when faced with it.

Whether this mask can stop its attack, no one knows.

One by one, the roots of the trees were poking on the mask, and the fluctuation of the mask became more and more violent, and everyone felt a strong sense of unease, especially Yukai, who kept retreating.

Wan Qianying suddenly said: "Yukai, it seems to be coming for you, or you should return to the ghost town now, and come up later, it can't see you, maybe it will leave."

Yukai nodded, turned quickly, and rushed towards the elevator to "Ghost Town".

The ancient tree totem above attacked the mask more and more violently, Yukai quickly opened the elevator door, rushed in, and the elevator door closed immediately.

It is strange to say that after the elevator door was closed, the ancient tree totem's attack on the mask became weaker, and then the tree roots were pulled down towards the mask. Although the mask fluctuated violently, the surface of the mask grew. The strong rebound force bounced the roots back.

Wan Qianying guessed right, after the totem of the ancient tree did not see Youkai, it slowly shrank back to the root of the tree, began to turn, and showed signs of leaving.

The people under the protection of the mask saw this and secretly let out a sigh of relief. Gu Zijian, Sun Yaofei and Yi Wu, who were from the ghost town like You Kai, wiped away the cold sweat that appeared on their foreheads.

Except for Wang Xuan, who was relatively calm, everyone else was quite frightened.

The speed of the ancient tree totem left was very slow. Obviously, although it was lucky to survive this time, its vitality was severely damaged. Only half of the original tree trunk that was as high as 100 meters remained, and the lush tree crown disappeared.

It dragged its stump, moved slowly, and finally disappeared into the distant forest.

Until the ancient tree totem completely left and disappeared, everyone breathed a sigh of relief, but although the ancient tree totem left, the various monsters surrounding the mask showed no signs of leaving. They kept staring and hiding in the mask. The crowd seemed to want to attack them at any time.

The elevator doors in "Ghost Town" reopened, and Yukai appeared again, but didn't get out of the elevator right away.

"It's alright." Gu Zijian waved to him while saying, and he came out.

Youkai stepped out of the elevator and saw that the ancient tree totems outside had disappeared, so he breathed a sigh of relief and said with a wry smile: "I can't believe that this guy didn't die, and he still hates me. Fortunately, there is a safe area here, otherwise I'm in big trouble."

Huang Qingzhi said: "It's getting dark, what should we do now? Continue to stay here? Or go back to town first?"

Wang Xuan looked up at the sky, and found that the sky was obviously much darker. He came here this morning, and after so many things happened, night was about to come.

Gu Zijian said, "There are monsters all around, and it will only be more dangerous at night. If you want to find the five major cities, you can only look at it in the daytime tomorrow. Brother Kai, why don't we go back to the ghost town first?"

Yukai nodded in agreement.

Seeing that Yukai and Gu Zijian were about to return, Wan Qianying also decided to go back to Insect Town to rest first, and wait until tomorrow morning before returning here to see the situation.

After the two parties agreed to come back here tomorrow morning to meet, You Kai took Gu Zijian, Sun Yaofei and Yi Wu into the elevator to "Ghost Town" and left here.

Wan Qianying also walked to the elevator to "Insect Town" and said, "Let's go back to Insect Town first, have a good night's rest, and come up tomorrow morning to see if these monsters are scattered."

Xu Jian, Huang Qingzhi, and Gongyang Xuan all followed to the elevator, but Wang Xuan didn't move, saying, "You go down first, I'll be back later."

Wan Qianying was stunned for a moment, looked at him and said, "You still want to stay and continue to hunt monsters?"

Wang Xuan nodded to her.

Xu Jian understood and said, "Wang Xuan has just broken through to the super state, and he needs a lot of energy from white scales. It's not like we need enough energy, and we don't need to hunt monsters anymore."

Wan Qianying can understand Wang Xuan's mentality. He has just broken through. The hatching beast needs enough energy. Only when the required energy is full can he seek further breakthroughs, especially his second ghost wing, which is growing continuously today. Everyone was watching, seeing that Wang Xuan wanted to stay, Wan Qianying didn't persuade him any more, just nodded and said, "Be careful, if the situation is not right, go back to town immediately."

After that, Wan Qianying, Gongyangxuan, Xu Jian, and Huang Qingzhi entered the elevator and returned to Insect Town, while Tang Ruoyu also stayed.

Like Wang Xuan, she only broke through to the super state and needs to hunt monsters to gain energy.

The sky gradually darkened, and now in the safety area of No. 9, only Wang Xuan and Tang Ruoyu were left in the mask.

"Follow me, don't get too far." Wang Xuan walked towards the outside of the mask, and at the same time whispered, as long as Tang Ruoyu was within seven meters away from him, even if there was any danger, he could save her with his metal tentacles.

Although there are tree demons, mushrooms, and piranha monsters all around, it is difficult to threaten him with these monsters alone, and he is still confident that he can protect Tang Ruoyu.

Tang Ruoyu understood what he meant and did not refuse, but just gave a soft hum.

After that, the two passed through the mask and walked out.

As the surrounding monsters quieted down, the mask that originally appeared was slowly fading away.

The two just walked out of the mask less than five meters, and a group of tree demons in front immediately let out a sharp hissing and surrounded them in a fan shape. The more distant Mushrooms were even more direct, and they launched Mushroom bombs at a distance of more than ten meters. .

Wang Xuan swayed, and the four metal tentacles stretched to the limit of seven meters long. Each metal tentacle lit up with a blue light. If he wanted to instantly kill this six-star dangerous monster, he had to use blue crystal scales. energy can do it.

With a sway of his body, he accelerated and sprinted over, dodging these mushroom bombs, and four metal tentacles swept out from left to right like a giant python. When it exploded, white scales appeared one after another, submerged in his right hand, and then half were absorbed by his ghost wings, and half were swallowed by the white light in his right hand.

Tang Ruoyu showed a two-meter-long white giant sword in his right hand. He swung the giant sword in both hands and chopped it out horizontally. The white tiger lying on top jumped out, turned into a three- or four-meter-long tiger, and hit a tree demon. , frantically biting.

She only broke through the super state, and her strength is not enough. It is difficult to kill the tree demon instantly. She needs to cooperate with the white tiger to kill a tree demon.

She was beheading the tree demon that was attacked by the white tiger, and the back was attacked. When it was in danger, a metal tentacle came around from the front and killed the tree demon.

While Wang Xuan shot and killed these tree demons, he could also take care of Tang Ruoyu, otherwise it would be difficult to support Tang Ruoyu alone under the siege of this group of tree demons.

The sky was getting dark, but there were more and more monsters gathered around. In addition to the tree demon, the solitary mushroom and the piranha, a group of perennial vines also appeared, and they came surging like a green tide.

Wang Xuan and Tang Ruoyu joined forces, and I don't know how many tree demons, mushrooms, piranhas, and perennial vines were killed. There were corpses on the ground all around. After getting tired, Wang Xuan took Tang Ruoyu back to the mask to rest. .

Enough rest, let's rush out together.

Repeating this, Wang Xuan's second ghost wing gradually grew, and Tang Ruoyu's strength also gradually improved.

She entered a super state and realized the power at her disposal. Originally, she had not fully mastered it and could not exert it to the fullest. Now, with the constant hunting of monsters, her strength is increasing at an alarming rate.

Originally, Wang Xuan didn't care, she just thought that she was familiar with the power of super-state, and now she fully exerts it, the improvement of her strength is normal.

Just like Xu Jian and Wan Qianying, when they first broke through the super state, they could only be regarded as the ordinary level in the super state. Later, after being tempered, they fully grasped the power and various abilities of comprehending the super state, and they could play it perfectly. Come out, and gradually reach the middle level of the super state.

Soon after becoming a super state, as long as the fighting talent is not too bad, basically you can reach the super state medium level.

Tang Ruoyu's situation is obviously a little different from Xu Jian and the others, because her strength is slowly improving, and after reaching the super-moderate level, she has no intention of stopping, her strength is still slowly improving, this feeling is very Like the ghost wings that keep growing after he draws energy.

"What's going on? Could it be that her hatching beast is special, like my ghost wings?"

In Wang Xuan's mind, he thought of the scene of the ghost car and bird fighting the white tiger that day. Now Tang Ruoyu's sword is lying on a white tiger, and his ghost wings are the power of the ghost car. Coincidence, or is the hatching beast obtained by Tang Ruoyu really related to the white tiger?

At this moment, the white tiger summoned by Tang Ruoyu's sword was huge. The tiger that could only change to three or four meters in length at first had grown to four meters in length.

The white tiger, which has grown a circle, has improved a lot in terms of speed and lethality. When he saw the white tiger pounce on a tree demon, the tiger claws grabbed it and killed the tree demon. .

And Tang Ruoyu's speed, strength and reaction ability are also improving.

Originally, she needed her own care, and he didn't know how many times he killed the tree monster that almost hurt her, but now she is completely independent, and she doesn't need his help and care among the group of tree monsters.

The white scales were picked up again, and Tang Ruoyu suddenly whistled slightly in his mouth. The four-meter-long white tiger fell backwards and overlapped with Tang Ruoyu's body. She raised the two-meter giant sword in her hands, and suddenly slashed into the air. go out.

The two-meter giant sword fell with a faint tiger roar, and slammed on the ground in front of her. With a single blow from the giant sword, countless huge tiger claws suddenly rushed out of it and flew out in the air.

A group of tree demons were caught by these huge tiger claws and died immediately.

Wang Xuan looked in his eyes with a hint of surprise.

The power of Tang Ruoyu's blow has surpassed the super-moderate level and entered the ranks of the more powerful superior powerhouses.

"There must be some reason why her strength has improved too quickly." Wang Xuan took a deep breath, realizing that she must have some kind of secret hidden within her, otherwise she would never have improved so quickly.

Killing several tree demons in a row, Tang Ruoyu stopped, her eyes closed slightly~www.mtlnovel.com~ seems to be feeling something, she slowly raised the giant sword with both hands, but saw the white tiger overlapping her body, is constantly merging into her body.

The Biying suit she was wearing was slowly being covered by a layer of white substance.

She seems to be undergoing some kind of transformation.

Wang Xuan saw that, and some understood why she was the peak powerhouse in the real state when she was in the real state before.

It seems that she has special abilities. As long as the hatching beast grows into a certain form, after constant battles and absorbing the energy of the white scales, her combat power can continue to increase, and eventually she will grow to the peak of this form.

So when she was in the state of being at the peak of the state, if it was calculated based on this, as long as she kept fighting, sooner or later, she would grow into the peak powerhouse in the super-state?

As powerful as Yukai, it is only infinitely close to the top level in the super state, and what level of super state peak powerhouse is stronger than the top level?

Seeing that Tang Ruoyu and the white tiger were completely merged into one, a layer of white material appeared on the surface of her body, with tiger stripes on it, which represented that she had completed the fusion. Suddenly, she kicked her feet and made a sound, and the white shadow flashed. Rush into a group of piranhas faster than just now.

Grasp the two-meter giant sword in her right hand, and swirl it in the air. The group of piranhas were suddenly cut in half, and a large amount of dark red juice splashed out. She swayed, and she had already withdrawn and rushed into another group of mushrooms.

The two-meter giant sword in the right hand revolved around her body, forming a huge sword wheel. Wherever the sword wheel rotated, the Mushroom Guren screamed and shattered.

One after another, white scales kept appearing, pouring into her body incessantly and being absorbed by her.

Chapter 215

Seeing this, Wang Xuan nodded secretly. In just a short period of time, Tang Ruoyu's strength has more than doubled. Of course, his ghost wings are also growing, and his strength has also been greatly improved on this day.

The length of the ghost wing growing out of his left back now is close to one meter, but as the ghost wing gets bigger and bigger, the growth rate is slower.

After some attempts, Tang Ruoyu retreated. She felt strong fatigue, put away the giant sword, and retreated into the mask.

Wang Xuan was just as tired and backed away.

Looking at the dark sky and the corpses of monsters on the ground outside the mask, Wang Xuan and Tang Ruoyu had no idea how many times they had taken a break. After such a long period of high-intensity fighting, both of them felt very tired and intense. Feeling tired, Wang Xuan understood that it was time to take a break, otherwise it would be harmful to the body and mind.

"Why don't you stop here tonight, take a good night's rest in Huiworm Town, and continue tomorrow morning?"

Wang Xuan looked at Tang Ruoyu. The two of them had a tacit understanding of working together just now. The strength of both parties was improving, and they both felt satisfied.

"Okay." Tang Ruoyu nodded.

Wang Xuan looked at the ten glass columns hundreds of meters high and hundreds of elevators in front of him, opened the elevator door with "Insect Town" written on it, and walked in together with Tang Ruoyu.

"It's strange to say that there are places for selling weapons and equipment on the first and second floors of this building, but there is nothing on the third floor." Wang Xuan seemed to be talking to himself, and he seemed to be asking Tang Ruoyu. He pressed the button on the second floor, and the elevator door slowly closed.

"There is also this third floor."

To Wang Xuan's surprise, Tang Ruoyu suddenly replied.

"Huh? Is there one here too?" Wang Xuan looked at her in surprise, accustomed to her taciturnity. Tang Ruoyu was speaking now, and he was in the narrow space of the elevator, which made him feel a little subtle.

Tang Ruoyu nodded slightly and said softly: "Every floor has it. There is a central city on the third floor, which is in the center of the ten safe areas, but now it has undergone drastic changes, and many roads have been broken, and even the ten safe areas are closed. Eight are destroyed, and this ninth safe zone is not complete, otherwise there will be a direct passage to the central city."

Wang Xuan showed a look of surprise. I'm afraid Wan Qianying and Xu Jian didn't know the news, otherwise they would definitely say it, so how did Tang Ruoyu know? In his opinion, Tang Ruoyu is hiding more and more secrets, he originally thought that Tang Ruoyu had something to do with the five major cities on the third floor, but after entering Xuancheng, he didn't feel the same. Could it be that this Tang Ruoyu is bigger than he thought?

At this moment, the elevator moved slightly, the door opened by itself, and the second floor of Insect Town had arrived.

The two walked out one after the other.

Insect Town under the darkness of night is extraordinarily quiet, the night is deep, and now the people of Insect Town are basically falling asleep.

Tang Ruoyu didn't speak, but suddenly speeded up and walked towards the building in the distance.

Wang Xuan shook his head slightly, did not speak, and walked towards his three-story building.

He now temporarily lent the three-story building to Cheng Aiguo, Meng Lian and others to live in. He quietly returned and saw that they were all back, but he did not disturb them, and went straight back to his bedroom on the third floor, then washed and slept.

After taking a good bath, I washed off the **** smell on my body, I just felt a lot more comfortable physically and mentally, and then I lay down on the large and soft bed.

Xiaojiao was released by him, lying quietly on the side, keeping watch for himself, if there was any emergency, Xiaojiao would wake him up immediately.

This time, Wang Xuan slept very deeply. When he woke up, the sun was already rising. Cheng Aiguo, Meng Lian, and others all left, apparently continuing to go to Centipede Island to hunt monsters, in order to break through to the state as soon as possible.

To his surprise, Gu Manyao, Zhao Lei and Zhang Haofei still did not come back.

"It's been a few days since they went to Scorpion City. If they haven't come back, there will be nothing wrong, right?"

When Wang Xuan woke up, his exhausted spirit completely recovered. Thinking of Gu Manyao, Zhao Lei, and others, he was a little worried, but his magical beast instinct seemed to tell them that nothing would happen to them. Thinking of this, they should just work hard in Scorpion City. Hunting scorpions, I haven't returned to Bug Town for the time being, so it shouldn't be a problem.

After taking out a bottle of high-grade nutrient solution and drinking it, Wang Xuan put on the ghost suit, put away the little girl, and went straight to the elevator in the center of Bug Town Square.

Wan Qianying and Xu Jian all arrived, but they did not enter the elevator, but waited for him while chatting outside.

"I'm sorry, I'm late, you can go up first." Wang Xuan felt a little embarrassed.

Wan Qianying smiled and said, "It's okay, we just arrived, let's go, I hope those monsters will disperse today."

As he spoke, he opened the elevator.

Wang Xuan glanced at Tang Ruoyu, rested for a night, her face was obviously filled with heroism, thinking that in just half a day, her current strength has surpassed Wan Qianying and Xu Jian and the others, and she has become a super-status. The superior powerhouses would be surprised if they knew about it.

The six people took the elevator and quickly rose to the third floor. When they got out of the elevator, the mask outside had disappeared, but there were more than a dozen people at the edge of the rune stone carving not far away.

These more than a dozen people gathered together and were chatting about something. Wang Xuan saw that there were four people he knew very well. It was You Kai, Gu Zijian, Sun Yaofei and Yi Wu from "Ghost Town".

The remaining eight people should be leaders from other towns.

Seeing Wang Xuan and Wan Qianying appear, You Kai immediately stood up and greeted them from a distance.

Xu Jian and Huang Qingzhi also responded with a smile. Wang Xuan looked around. Those tree demons, piranhas, mushrooms, and perennial vines did not completely disperse, but they basically retreated to twenty meters away from the rune stone carvings. In addition, because there is no attack, the mask will automatically disappear after maintaining for a period of time.

Of course, if attacked, the mask will automatically appear again to protect this safe area.

Everyone walked in the direction of Youkai and the others. Wang Xuan fell behind and whispered to Tang Ruoyu: "You said last night that there is a passage to the central city, but where is that passage?"

If there is a place to sell weapons and equipment in the central city on the third floor, according to the previous practice, the weapons and equipment sold here must be better than those of the insect town, which makes him curious and wants to enter the central city to see .

Tang Ruoyu glanced at him and said, "That's a teleportation channel, but maybe it was affected in some way and didn't work..."

As she spoke, she stretched out her hand and pointed to the ground not far away.

Wang Xuan saw that she was referring to the central area of the ten glass cylinders. Looking closely, there seemed to be a small rune stone carving on the ground, which was about four or five meters in

diameter, but the rune stone carving on the ground was very similar. The lake, if present or absent, showed signs of rupture.

When he saw this, he understood. Tang Ruoyu didn't lie. There should really be a teleportation channel in the center of the ten glass cylinders. Entering it, activating this channel can directly teleport into the central city on the third floor.

However, for some reason, the transmission channel was damaged, or appeared incomplete, and the transmission channel could not be activated.

"It may be related to the appearance of the building above." Wang Xuan looked up at the building that appeared in the sky above, guessing.

And the No. 8 security zone where the five major cities were located has been damaged even more seriously. Naturally, the transmission channel in the center has long since lost its function, so the people in the five major cities do not know about it, and Wan Qianying, Xu Jian and others do not know about the central city. existence can be understood.

Everyone gathered together, and after Yukai's introduction, the eight new people, five from "Sand Town" and three from "Beast Town", are all among the dozens of towns that have not been destroyed in the Hundred Towns. one.

They were originally the leaders of the five major forces in these towns. Their encounters were similar to those of Wang Xuan and others. When they found that the No. 8 elevator was malfunctioning, they took the No. 9 elevator, but if they wanted to enter from the No. 9 elevator, they needed a **** clown mask, and because of this The reason is that of the five leaders of Beast Town, two have been lost. The three who can come up now are the leaders of the "Xuan Gang", "Phoenix" and "Justice League".

None of the five leaders of Sha Town lost, and they all came up, which caught Wang Xuan's attention.

After all, when they entered the Hell Tower, they were able to get five clown masks, and no one was injured or killed.

These five people can survive, either because they are very lucky, or because the strength of the five people is not trivial.

They introduced their names to each other. The five leaders from "Sha Town", four men and one woman, were named Mou Xing, Hao Yuantong, Chu Dong, Zhao Jinsong, and Xi Murong.

The other three from "Beast Town" are Su Tang, Zhu Han and Qi Yingzhi.

With the continuous evolution and growth, everyone is not only powerful, but also has excellent memory. Although there are many characters, basically they can remember each other's name after one introduction.

"I have told them what happened on the third floor. Now we are discussing whether to go to the five major cities now, or wait until more town leaders come up?"

Youkai said while looking at Wang Xuan, Wan Qianying and others.

One of the five people from Sand Town, Mu Xing, who looks short and chubby, said in a stern voice: "My opinion, we have more than a dozen people, and we can go to the five major cities. Now that we have lost our organization, I always feel panic in my heart. ."

Hao Yuantong, who is also one of the five people in Shazhen, nodded and said, "I agree with Mou Xing. There are eighteen of us now. Although there are many monsters outside, they shouldn't threaten us."

Wan Qianying said: "I have no opinion. There are so many of us, we can indeed give it a try. If the situation is not right, it is not too late for us to return."

You Kai snorted, then looked at the three people from "Beast Town", and said, "How about you, Su Tang? What do you say?"

Su Tangdan smiled and said, "I listen to everyone."

Zhu Sai and Qi Yingzhi, who were standing beside him, also nodded together.

Seeing that everyone agreed, Yukai said: "That's nothing to say, let's try it out, hoping to find the five major cities."

Huang Qingzhi couldn't help but said curiously: "Youkai, are you not afraid to leave this safe area, the ancient tree totem will come to you again?"

After saying this, Yukai's expression changed, and then he looked up and looked around, and said: "I came very early today, just to try the ancient tree totem, I have been here for so long, if it I really can't forget it, it should have appeared long ago, it has not shown up until now, it should be fine."

Gu Zijian nodded and said, "Yes, it must be fine. Brother Kai is our backbone. If he wants to go, we don't want to."

The four from "Ghost Town" obviously follow Yukai's lead and basically listen to Yukai.

Wan Qianying said: "You Kai, your judgment is good. It should have appeared long ago. Since it didn't show up, it's fine. Let's discuss the matter of going to the five major cities."

Huang Qingzhi said: "What if I said..."

Youkai smiled and said: "No matter what, you can't hide here and dare not go out because you are afraid of it, that's not my Yukai's character, if it is really so obsessed with me, it will die in its hands. , that's worth it, besides, when it's really dangerous, I may not necessarily die, if I can get away with it, I should be able to break through the bottleneck." Speaking of this, he exuded an absolute confidence in his own strength.

Wang Xuan looked at You Kai, and admired his courage and self-confidence from the bottom of his heart.

Xu Jian, Huang Qingzhi, and the others all had thoughtful expressions when they heard it. They vaguely understood why You Kai was able to become a superior powerhouse in the super state, and when they reached the bottleneck that was about to break through, if they could break through again. In the past, that was the top powerhouse in the super state.

But for so long, he has always been only a medium powerhouse in the super state.

They asked themselves, they thought they had changed Yukai's position, and when they were not 100% sure that the ancient tree totem would never appear to seek revenge, they would never dare to take this risk to leave the mask and enter the forest to find the five Cheng, this guy is really crazy, he is not even afraid of the ancient tree totem.

"Perhaps, this is the reason why we are inferior to him." Xu Jian sighed secretly, his eyes narrowed slightly, and there was a faint realization in his heart.

Su Tang from "Beast Town" said: "Then let's discuss how to find the five major cities. This forest looks vast and boundless. We need to determine the direction of the five major cities first."

Wan Qianying said: "We know the direction, as long as we follow this side, we can find the five major cities."

"Why?" Mou Xing glanced at her curiously.

Wan Qianying said: "You can find a big tree to climb up and have a look and you will understand." Then he said that there was a giant ship that fell from a kilometer high in the distance. No accident, it should be No. 8. The safe zone is the place where the five major cities and the forces of all parties gather.

Although everyone believed what she said, out of curiosity, Mou Xing, Su Tang and the others walked out of the rune stone carvings, looked for a big tree, climbed up, and looked into the distance.

As they walked out of the safe area of the rune stone carvings, immediately, the Dryads, Mushrooms, Piranhas, and Persistent Vine, who were wandering around, started to attack them.

Those who can enter here are all super strong, and everyone is fully prepared, calmly, and immediately counterattack.

Among the eighteen people, several of them are proficient in long-range attacks. The only woman among the five from "Sand Town" is Xi Murong. The hatching beast she appears looks like a Gatling machine gun, but this machine gun doesn't look like metal. cast, but cast from black crystal.

This is a huge machine gun with multiple rotating barrels, reaching an astonishing two meters long, with eight barrels as thick as an adult arm, looking heavy and clumsy.

Xi Murong was petite, only 1.6 meters tall, this giant Gatling machine gun seemed bigger than her, but she was carrying it in her hand, but it was as light as nothing.

Seeing a group of dryads and mushrooms rushing towards her, she showed the giant Gatling machine gun in her right hand, lifted it with both hands, and the eight huge gun barrels began to rotate, spraying fire.

"Boom boom boom-"

In an instant, the sound of bang bang rang continuously, everyone got close, and they felt the eardrums vibrate slightly, and the bullets poured out like a storm.

The fastest group of tree demons were immediately beaten into sieves, and rolled backwards and fell out.

The Mushroom man who followed closely had a Mushroom Bomb on his body. He was swept away by this round of Gatling machine guns and detonated the Mushroom Bomb on his body. A huge explosion sounded immediately, and it was directly blown to pieces. Even the monsters around him were blown apart. suffered.

Except for the four people in Sand Town, everyone else was stunned when they saw it.

This Xi Murong is a petite and cute type. No one would have expected her to be so powerful. Her hatchling beast is even more unique. This power is much more terrifying than a real Gatling machine gun. The bullets it fires are not only It is fast, numerous and dense, and it has a huge lethality. Once it hits the target, it can explode.

Of course, the most important thing is that the bullets fired by this weapon are almost infinite. The bullets fired are pure energy condensation. As long as her physical strength can persist, she can continue to fire.

"I can't tell~www.mtlnovel.com~ This woman's hatching beast is amazing." Huang Qingzhi whispered softly.

After a round of strafing, a piece of tree demon and mushroom man fell, and a large number of white scales appeared, flying into Xi Murong's right hand.

In addition to Xi Murong, Zhu Han, one of the three from "Beast Town", is also a super strong person who is good at long-range attacks.

Zhu Han's hatching beast is an ice beast. When he raised his right hand, a strange beast like an ice withered bulge on his right arm. The whole body was crystal clear, like a little panda lying on it.

Zhu Han took a right hand, the ice beast on the right arm opened its mouth, and the ice-cold aura gathered together, condensing into a burst of ice arrows.

Although the power of these ice arrows is not as crazy as Xi Murong's Gatling machine guns, they have other magical effects. As long as they are hit by the ice arrows, the ice arrows melt, and the icy air in them bursts, which can freeze the monsters. This ability can seriously weaken the enemy's combat power when dealing with powerful monsters.

Mou Xing, Su Tang and the others climbed up the canopy and were amazed when they saw this scene in the distance.

There were more and more monsters coming up around, Wang Xuan, Tang Ruoyu and others took action one after another, and more than a dozen super-powerful people joined together, no matter how many monsters appeared around them, it was not enough to threaten them.

Wang Xuan controlled four metal tentacles that became larger and larger, and easily killed the approaching tree demons, harvesting white scales.

As soon as Tang Ruoyu made her move, her strength immediately attracted the attention of Wan Qianying and Xu Jian. Originally, her strength was the weakest among them, but now she is as fast as a ghost, and the two-meter giant sword in her right hand will Like a scythe that harvests life, those monsters swept away by the giant sword shattered and fell down. Even Wan Qianying and Xu Jian couldn't do it with ease for Tang Ruoyu to kill them.
