

Last Building on Earth Chapter 271-275

Chapter 271

The King of Trolls

When he saw the six-armed trolls appearing one by one, Wang Xuan's heart sank, knowing that something was wrong.

At this moment, twenty or thirty meters in front of them are the Justice City Lord, Rakshasa Elder, Xuancheng Elder, and four black-robed men, and behind them are thousands of Ala trolls and troll elites rushing up in a fan shape.

This number is still increasing, and will soon exceed 2,000.

The seven of them were between the two sides, and the situation suddenly became sinister.

Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong, Chang Jing, and Bao Chong all changed their expressions. Elder Luosha, Elder Xuancheng and the other four men in black robes also changed slightly. The eyes can feel their fear is increasing, but the fear of the justice city lord has not only not deepened, but has weakened.

Seeing so many humanoid monsters, he was not only not afraid, but felt excited.

He slowly took a few steps back again, and now Wang Xuan and the seven encountered Ara trolls surging from behind them. They either desperately fought against Ara trolls, or they could only flee in the direction away from the giant ship.

As long as you stay away from the giant ship, are not affected by the power of fear, and have no rune formation to suppress, the Justice City Lord has full confidence in killing Wang Xuan.

Although Wang Xuan is indeed very powerful, he is even more terrifying than the average super powerhouse. It can be said that he is infinitely close to the seventh form powerhouse.

However, he is not a real seventh form powerhouse after all.

Once thousands of Ara trolls rushed up, in this chaos, Mei Xiaosen's iron cast dragon flag was better, and it was impossible for Bai Qianxue to continue maintaining the rune formation without being disturbed.

Wang Xuan, Mei Xiaosen and others can think of what the Lord of Justice City can think of. Seeing that the closest troll in the rear has rushed within 100 meters, the expressions on everyone's faces are changing slightly.

Suddenly, Wang Xuan turned around and rushed towards the giant ship, taking the initiative to meet these trolls of God, who were still increasing in number.

Wang Xuan's actions surprised the City Lord of Justice, and Mei Xiaosen and Bai Qianxue were also stunned.

Although ordinary Ala trolls are only equivalent to the super-top level, thousands of Ala trolls rush out, which still makes people feel fearful. Once they are trapped, it will be troublesome.

Although they didn't understand Wang Xuan's actions, Mei Xiaosen, Bai Qianxue, and Wu Tian followed up without hesitation, chasing after Wang Xuan and rushing towards Troll Ala.

The brows of the righteous city lord frowned slightly. He didn't move. He suspected that Wang Xuan was deliberately tempting him to chase and approach the giant ship, and then used his fear to influence himself.

After all, the closer you get to the giant ship, the stronger the fear.

"Wang Xuan, what are we going to do now?" Wu Tian asked in a low voice, holding the cyan war spear. From the moment they fought all the way up to now, most of the people have drunk a bottle of physical strength water, otherwise it would be a bit difficult to support, let's see now To the hordes of God trolls, they all felt their scalps tingle. With so many monsters, they could be exhausted to death.

"These God trolls rushed over, and Bai Qianxue's rune formation could not suppress the Justice City Lord. It is too dangerous for us to fight against him. It is better to rush into these God trolls. These monsters attack indiscriminately, which will affect us. It will also affect them, taking advantage of the chaos, there may be a chance of survival, you must remember that you must not be washed away."

Wang Xuan whispered to everyone, and soon, in a roar of filial piety, these three-meter-high Ala trolls had already rushed in front of him.

He took the initiative to meet the Ala trolls and open the distance between him and the Justice City Lord. On the one hand, the reason was what he just said, and the more important reason was that he wanted to use these Ala trolls to hatch his fourth ghost wing.

He killed the elder justice and the three black-robed men in a row before, and absorbed their energy. The energy in the outside of his left arm was surging, and he could break through at any time.

As long as the fourth ghost wing grows and the ghost car grows further, he may have hope that he can really fight against the Justice City Lord.

The pair of ghost wings behind him flapped, generating a huge thrust. His figure was like electricity, and he fell into the hordes of Ala trolls.

These Ala trolls were three meters high, and they let out an earth-shattering roar of filial piety. Immediately, several Ala trolls waved their huge arms and rushed towards Wang Xuan who fell.

Although Wang Xuan did not open the Eye of Fear, he could feel the endless source of fear. The Eye of Fear in his forehead was frantically collecting this fear energy to supplement the serious loss just now.

This place is very close to the giant ship. Even if there are thousands of God trolls, no matter how crazy they are, their bodies are also faintly releasing fear.

Obviously, this fear comes from this giant ship, even the Ara trolls are no exception.

With a "bang", the giant arm of the beast swung out, but the arms of the troll Ara who rushed towards him couldn't resist it. There was a cracking sound of the arm bone, and the huge body flew backwards in the air. Wang Xuan kicked his feet. It rushed up to a height of seven or eight meters, fell down with a bang, waved his left arm, and the giant arm of the beast disappeared in the air, and when it reappeared, it hit the face of the fallen troll.

The bronze-colored skin immediately collapsed and twisted, and a huge force exploded from its face. When its body fell heavily and hit another Ara troll behind it, it had become a headless corpse.

A white light appeared in the body, and there were life and consciousness struggling, exactly the same as the hatching beast they had.

The power of the world came, erasing the consciousness belonging to the troll Ala, and turning it into pure energy, which was absorbed by Wang Xuan.

Sensing the surging energy in his left arm, Wang Xuan's face showed a hint of frenzy. He turned around to avoid the attack of the two Ara trolls behind him. He swung his right arm out, and the third ghost wing on the outside slashed out in the air. An afterimage was left.

The edge of the ghost wing was as sharp as a knife, and an God troll didn't even have time to let out a scream.

After killing two Ara trolls in a row, Wang Xuan jumped up and hit the third Ara troll facing him.

The God troll was pounced by him, and there was a loud "bang" in the chest, and the terrifying energy exploded from its back, and the blood flew, mixed with a large number of broken internal organs and broken bones.

With Wang Xuan's current strength, killing these trolls of God would be like destroying the dead, and none of the trolls of God could stop him.

Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong, Chang Jing, and Bao Chong gathered together to form a team. The six ultrextreme powerhouses joined together, closely following Wang Xuan, and could also crush this. A group of God trolls.

The number of God trolls, who had exceeded 2,000, surged in, and soon the Justice City Lord, Rakshasa Elder and others, who were separated by a distance of twenty or thirty meters, were also attacked by the God trolls, and conflicts broke out.

The righteous city lord frowned, staring at the performance of Wang Xuan and several others from a distance, and he did not pay attention to this group of Ara trolls who rushed up.

The right hand was controlled from the air, the yellow sand on the soles of the feet surged up, turned into a big hand of yellow sand, and slapped at the rushing Ala troll, almost slapped one, and the most powerful Ala troll was hit by this big hand of yellow sand. Hit, the bones will rot and the flesh will rot, and immediately die.

He slowly moved two steps in the direction of Wang Xuan, hesitating whether to approach.

It's just that the closer you get to the giant ship, the deeper the fear, and it is easy to be influenced by Wang Xuan, so he is hesitant.

However, Wang Xuan simply ignored what the current Justice City Lord was thinking, but hunted and killed as many trolls as possible to gain energy.

Now the two sides are separated by a distance of 20 to 30 meters, and they are all caught in a group of Ala trolls. Only the Ala trolls fell and died, and gradually the distant Ala troll elites appeared, and their strength was one point stronger, comparable to the peak powerhouses in the super state.

Wang Xuan noticed that more and more troll elites appeared in front of him, and it was a little more difficult to kill such troll elites in an instant. The power has shown signs of fusion.

The power of the ghost car, the power of monsters, and the power of the blue crystal scales, the combination of the three powers has made Wang Xuan's explosive strength reach a level that is infinitely close to the seventh form, even if he is facing the four-armed Ara troll elite, can kill with one blow, no Ara troll elite can block his blow.

As the troll elites fell down, the energy that Wang Xuan absorbed became more and more huge, and the energy in his left arm boiled more and more violently. Wang Xuan understood that the fourth ghost wing of the ghost car could grow at any time. come out.

Killing a troll elite again, a roar of filial piety sounded, but saw a six-armed Ala troll jumping up in the distance.

Wang Xuan had been prepared for a long time. At this moment, there were still a steady stream of Ala trolls appearing in the gap of the distant giant ship. Among them, six-armed God trolls began to appear one after another.

He was a little worried in his heart. If this goes on, this army of God trolls is afraid that it can sweep everything.

Although he killed the Ara trolls in succession, he gradually felt some pressure as the numbers piled up around him.

The six Mei Xiaosen gathered together, relying on the iron cast dragon flag to suppress the strength of the surrounding Ala trolls, which made them a little easier.

The righteous city lord twenty or thirty meters behind is the most relaxed among the crowd. Without the suppression of the iron cast dragon flag and the rune formation, and the enhanced halo of the elder Rakshasa, his strength is simply monstrous, and Huangsha strikes with a big hand. , whether it is Ara troll or troll elite, it can be easily killed.

He did not attack Wang Xuan, but was still waiting, waiting for the best time.

With the appearance of the six-armed God troll, Wang Xuan felt the pressure.

The two six-armed God trolls attacked together. They noticed Wang Xuan's strength, shot from left to right, and rushed towards him with all their strength.

The other two six-armed God trolls bypassed them and headed towards the Justice City Lord behind.

In their eyes, the most powerful and terrifying of these enemies are Wang Xuan and the righteous city lord, so these six-armed God trolls are targeting them.

In the melee and slaughter of everyone, in the gap of the giant ship in the distance, the Ara trolls who were swarming out suddenly stopped. It seemed that the hidden Ara trolls rushed out of the gap. After a pause for a few seconds, An God troll appeared again.

This God troll is the same as the ordinary God troll, it only has two arms, but it is different from the general God troll. The bronze skin surface of its whole body is faintly flowing with a faint layer of bronze light, which looks like a treasure. , is very obvious in the night.

It has very exaggerated bronze-colored muscles all over its body, and the muscles swell like a set of muscle armor covering its body.

In addition, it is holding a bronze-colored weapon in its right hand. This is a giant spear that is nearly three meters long. All the God trolls that appear have no weapons, and it is the only one with weapons.

It appeared from the gap of the giant ship, and did not jump down immediately, but narrowed its eyes slightly, looking down at the battle that appeared hundreds of meters away.

After that, it jumped and jumped down from the gap.

It fell behind silently, and flew again and again, tens of meters away, wherever it fell, the God troll was avoiding it, and seemed to be in awe of it.

After it jumped off the gap of the giant ship, the Ara troll immediately reappeared in the gap and continued to swarm out.

Obviously, not all the God trolls in the gap came out, but just out of awe, no God troll dared to compete with the weapon-wielding God troll, and emerged from the gap together.

This kind of treatment, even the powerful six-armed God troll has never had.

All of this means that this troll holding a giant spear and possessing exaggerated muscles has the status of an God troll, and is above the six-armed God troll.

Their speed was terrifying, and when it approached Wang Xuan, Wang Xuan just successfully killed two six-armed Ala trolls.

Combined with the Eye of Fear to magnify the fear in the hearts of the two six-armed God trolls, Wang Xuan succeeded and once again absorbed the energy of two powerful white rays of light. Immediately, there was a slight sound in his left arm. This was the fourth ghost wing. Growth, signs that will grow.

Suddenly, Wang Xuan felt his breath suffocate, and in front of the group of Ala trolls, there appeared an Ala troll with a faint layer of light on the surface. The nearly three-meter-long giant spear it held in its right hand was silent Breath stabbed in the face.

The power, speed and strength of this spear have reached a terrifying level. It is as heavy as a mountain. Before the giant spear can pierce it, Wang Xuan can't stand it anymore.

This is the power of the true seventh form without any repression.

The God troll in front of him has the strength to rival the seventh-form powerhouse.

"The King of God Trolls—"

After Wang Xuan went to the direction of the city lord of justice, some of the black-robed men shouted in a low voice.

Wang Xuan immediately understood that the one holding the giant spear in front of him should be the King of Ala trolls. Hearing the name, he knew that he was the king of Ala trolls, and his strength was a terrifying existence that could rival the Lord of Justice.

At this moment, Wang Xuan had no time to dodge. In his thoughts, two metal tentacles appeared and wrapped around him, trying to stop the giant spear stabbing.

"Clap" two crisp sounds, even the metal tentacles containing the power of blue crystal scales couldn't wrap around the giant spear, just when it was drawn on it, it immediately exploded into a large number of iron pieces and scattered.

Wang Xuan followed closely, and the ghost wing on the outside of the monster's right arm immediately accelerated, and the monster's huge arm swung out horizontally with a bang, hitting the giant spear from the slope.

The giant spear vibrated, and the power that erupted from it bounced back his monster beast arm.

However, after hitting the giant spear twice in a row, the stabbed giant spear finally veered in the direction and was avoided by Wang Xuan.

The righteous city lord, who stopped twenty or thirty meters away, was attacking Wang Xuan when the king of trolls Ala suddenly gave up and continued to attack the trolls around him. Wang Xuan from Miwai.

He finally seized the opportunity and prepared to strike with all his strength, killing Wang Xuan first.

In his eyes, Wang Xuan, who is not yet the seventh form, is far more terrifying than the King of Trolls God.

Wang Xuan suddenly became attacked by the enemy, and Wang Xuan was not surprised. Almost at the same time as the righteous city lord attacked, a white light lit up on his left arm, and immediately condensed into a large number of luminous parts. These parts combined to form a giant two-meter long arm.

He did not use the left arm of the mechanical **** against the king of trolls, because he had been on guard against the justice city lord behind him.

The Eye of Fear on the forehead also opened at the same moment, fully unleashing the power of fear, affecting the Justice City Lord and the King of God Trolls.

All of this was in his calculations. While he was shaken by the giant spear, the righteous city lord who rushed up was suddenly affected by the Eye of Fear, his body was slightly stagnant, and a huge glowing arm volleyed into the air. Going down, fortunately, he barely turned his hand, and a big hand of yellow sand as big as a round table lifted it up, supporting the arm of the mechanical **** that was slammed down.

The big hand condensed by the yellow sand could not withstand the blow of the mechanical god's arm, and it was immediately pierced and exploded. The justice city lord took advantage of the situation and slanted to avoid it.

The King of Ara Trolls facing him was also affected. The giant spear in his hand was about to be swept out horizontally. Originally, Wang Xuan was shaken and it was difficult to dodge or parry. The demon beast raised his left arm immediately, blocking the sweeping giant spear.

At the same moment, on the outside of Warcraft's left arm, steel feathers appeared one by one, combining to form a wing.

The fourth ghost wing of the ghost car~www.mtlnovel.com~ has finally grown out.

A terrifying voice sounded, the giant spear swept across the left arm of the beast, Wang Xuan was beaten and flew out into the air, hitting an Ara troll. A burst of blood.

Wang Xuan landed heavily and quickly took out a bottle of physical strength water and drank it. The power of the ghost car in his body almost boiled.

As the fourth ghost wing grew and appeared, the ghost car grew further, and the image of Wang Xuan, who fell to the ground, was lifted up by an invisible force, and he stood up straight.

The righteous city lord who was just about to attack suddenly felt a little uneasy instinctively, and he stopped, but saw Wang Xuan's posture was a little strange. He stood there, the two wings behind his back and the two wings on the outside of his arms were shaking, faintly sending Weird sound.

The sound was like the sound of a vehicle driving. He suddenly thought of something and whispered softly, "Ancient totem...ghost car?"

In Wang Xuan's body, there seemed to be a vague phantom that was expanding, struggling as if to get out of his body. This phantom was combined with the four ghost wings, and it shrouded him faintly.

Wang Xuan felt the earth-shaking changes in his body. The power of the ghost car was boiling, at least twice as strong. The second special ability was realized. Inside the body, a ghostly image of the lake appeared, and the four ghost wings seemed to be separated from Wang Xuan's body. The phantoms of the lake were combined and vibrated continuously, faintly making the strange sound of vehicles rolling over the void.

Chapter 272

The sound of breaking wind sounded, and a giant bronze spear nearly three meters long came out of the sky.

The troll king of God appeared silently several meters away, holding a giant spear in his right hand. A spear pierced, and a sonic boom appeared at the tip of the spear. Even in the dark, you could clearly see the white conical air waves generated by the sonic boom.

The giant spear passed through the air waves and went straight to Wang Xuan's heart.

This spear contained the power of thunder, and before the spear arrived, the burst of power had already suppressed the mechanical shell on Wang Xuan's chest slightly twisting downwards.

He and Xiaojiao are in a state of integration. In addition to this layer of mechanical shell, he can also activate the energy shield that Xiaojiao possesses, but the energy shield in its initial state will collapse at the touch of a single touch in a battle of their size, and it can hardly provide any defense. Effect.

Later, the justice city owner seized the opportunity. He did not approach Wang Xuan, but condensed the big hand of yellow sand in the air and shot it towards Wang Xuan from top to bottom.

Feeling the changes in his body, Wang Xuan's eyes narrowed slightly, and the four open ghost wings suddenly retracted together, all the steel feathers vibrated slightly, and suddenly, he swayed, and a large number of afterimages appeared. A strange sound is produced by the vehicle running at high speed and rolling over the void.

This sound is the origin of the name of the ghost car. According to legend, the ghost car appears at night. It looks like a ghost and cannot be recognized by ordinary people. You can only hear the strange sounds of vehicles driving in the distance in the night sky. Ghost car name.

At this moment, what Wang Xuan is using is his second ability to grasp and comprehend, "ghost car driving at night".

The righteous city lord in the rear opened his eyes wide, his pale face without blood twitched slightly, showing an incredible look.

In his eyes, the passage of time around him seemed to be slowing down, and Wang Xuan overlapped and merged with the vague shadows outside his body. Human-shaped phantoms, with four jet-black wings, overlapped one after another, forming a large number of afterimages, forming a semi-arc shape, bypassing the giant spear slowly pierced by the king of trolls.

Everything in front of him seems to have become slow motion, including the big hand of yellow sand that he casts, and the giant spear stabbed by the king of trolls, all of which have become very slow.

And Wang Xuan's incarnation of Mohu's phantom, which is convenient for this slowness, continues to overlap and advance, bypassing and slowly stabbing the giant spear, suddenly, all Mohu phantoms are collected, and the afterimages merge into one, turning into a belt Arms with wings.

The giant arm of the beast appeared, dragging a phantom of the black wings of the lake, and hit the shrugged shoulder of the troll king of God.

All the sounds between heaven and earth seemed to have disappeared, leaving only the sound of ghostly vehicles rolling over.

"Ghost car..." This thought popped up again in the mind of the justice city lord.

Everything returned to normal again. The big hand of the justice city lord, Huangsha, hit the ground heavily and shot a hole in the ground. The king of trolls roared wildly, blood spurted from his mouth, his shoulders exploded, and flesh and blood flew. The huge body fell sideways.

Wang Xuan secretly said it was a pity, he took advantage of it and suddenly broke out the "ghost car at night" that he had just realized, and exploded all the power to the strongest level. .

It's a pity that the opponent is comparable to the seventh form. At the last critical moment, it shrugged its shoulders and tilted its head to the side, barely avoiding the danger of its head being blasted, and carrying Wang Xuan's giant arm of monster with its shoulders. .

The shoulder was beaten to death by Wang Xuan, and a left arm broke off at the shoulder and flew out.

Wang Xuan's attack greatly shocked the justice city lord, and he immediately wanted to retreat.

"As expected of an ancient totem..."

With a thought, the surrounding yellow sand swept up, forming a huge tornado, pushing away the Ala trolls in all directions, protecting himself, and retreating.

Suddenly, a black shadow of a lake appeared in the yellow sand. The shadow was a lake, and the exact shape could not be seen clearly. Only the four pitch-black wings were stretched so long that even the whistling sandstorm could not cover up the high speed of this vehicle. The sound of driving crushing.

The Lord of Justice City knew something was wrong, and let out a violent roar, his face split open from it, his face rolled to both sides, revealing a fist-sized one-eyed, one-eyed with a fierce light, locked on the black shadow of the lake, as if to see After clearing everything, he flipped his left hand and quickly took out a few defensive crystals.

He has always had a condescending mentality and didn't take everyone's attention at all. No matter how powerful Wang Xuan is, it is not enough to threaten him in his opinion, so even if he has the defense crystal, he never thinks of using it.

But now he really felt threatened for the first time.

The strange ability that Wang Xuan just displayed, hit the king of trolls hard with one punch, and the lord of Justice City was sweating on his back.

The terrifying yellow sand roared up and protected the righteous city lord. The yellow sand condensed into a big hand above. Across the yellow sand, it fiercely grabbed the black shadow of Namo Lake. The justice city lord tapped the ground with his feet and used He tried his best to go backwards, not only that, but in order to prevent Wang Xuan's power to control terror, he decisively crushed a defensive crystal.

Wang Xuan once again entered the "Ghost Car Night Walk".

The ghost car travels at night, and Zhou is like a ghost realm.

The four pitch-black wings spread out, and the black shadow of Mohu left behind afterimages in the yellow sand. These afterimages overlapped and formed a circular arc. The big hand of the yellow sand slammed down by the justice city lord slapped the ground heavily, crashing into the air, and the residue The shadow has appeared in front of the Justice City Lord.

Breathing cold air in his heart, the one-eyed city lord of Justice who revealed his true face was turning frantically, trying his best to capture Wang Xuan's trajectory in this "ghost car at night", and a defensive light curtain appeared to completely protect his front.

As he had guessed, Wang Xuan launched the Eye of Fear with all his strength at the same moment, spewing out a terrifying force of fear, causing the Justice City Lord to stagnate for a moment.

The Eye of Fear cooperates with "Ghost Car Night Walk", coupled with the power of monsters and blue crystal scales, it can be said that this is the strongest blow that Wang Xuan can break apart from the arm of the mechanical god. Lieutenant General Justice City Lord killed.

Otherwise, once he was allowed to escape back, the consequences would be disastrous.

The city lord of justice stagnated for a moment, but fortunately, the defensive light curtain appeared at the same moment, and the afterimages left in the air by "Ghost Car Night" hit the light curtain and bounced out. The afterimages overlapped and turned into an incredible half-arc in the air. , go around to the rear of the Justice City Lord.

Fortunately, the righteous city lord recovered from the power of fear, opened his mouth, let out a roar, and the muscles of the whole body swelled. At this moment, it was too late to even crush the defense crystal, so he could only barely turn his body halfway.

With a "bang", a giant arm of a demon beast slammed out against his half waist, digging out half of the waist and abdomen of the righteous city lord, forming half a huge blood hole.

Flesh and flesh mixed with viscera and broken bones, and the right arm of the righteous city lord swung out at the same moment, a large amount of flesh and blood mixed with yellow sand, combined to form

a giant arm similar to the arm of a mechanical god, and slammed heavily in the shadow of the lake formed by Wang Xuan.

A strange sound rang out, and the four pitch-black wings converged and vibrated together. Most of the power of the blow was offset by the vibration. Wang Xuan pushed his feet to the ground, and the ground collapsed like tofu. On the surface, it looks like a ghost armor.

At this moment, the huge and lake-like phantom in his body converges and covers the surface of his body, and within the phantom, there are blue dim lights appearing.

The power of the ghost car, the power of the beast, and the power of the blue crystal scales, the three powers exploded together.

"Boom!" With an earth-shattering loud noise, Wang Xuan's fists hit the just raised arm of the justice city lord, immediately breaking the justice city lord's arms, and then breaking his chest, carrying a lot of blood and internal organs from the back. sprayed out.

One punch pierced the body of the city lord of justice, and the other punch followed closely and slammed into his head.

The righteous city lord's arms have been broken, and even the defense crystal he is holding can no longer be used. Wang Xuan just hit him in the head with another punch, and suddenly found that the fist hit a mass of yellow sand, and the justice city lord's head decomposed into yellow sand. Spread out, the fist-sized eyeballs fell down, and disappeared into the chest cavity through the neck and neck.

Wang Xuan's heart froze, and the righteous city lord raised his arms. Flesh and yellow sand appeared in the originally broken arms, which merged into new hands.

"Boom" hit Wang Xuan in the chest.

Wang Xuan first launched the "Ghost Car Armor", the steel feathers lined up closely, using slight vibrations to offset the attack force, two metal tentacles appeared, silently entangled the Justice City Lord left and right, and the two giant arms of monsters followed closely. superior.

A large amount of yellow sand was sprayed out from the head of the city lord of Justice who was knocked off, and the ground under his feet disintegrated and collapsed at a terrifying speed. Soon a huge yellow sand sinkhole was formed in a radius of ten meters. sink.

At this moment, the righteous city lord is no longer hidden, and all the power has fully erupted. He is like the incarnation of the lord of yellow sand, and he is everywhere. Mei Xiaosen, Bai Qianxue, Wu Tian and Fang Taozhong are resisting the increasingly powerful Ala Ju. The Demon, the God troll elite, and the six-armed God troll cannot protect themselves. They are already struggling to support themselves at the moment, and they simply can't make time to help Wang Xuan.

Wang Xuan felt that he was sinking, and the terrifying yellow sand was surging in all directions. He and the righteous city lord were both swallowed up by the yellow sand in an instant. The two were entangled with each other, fist to fist, each fighting with the strongest strength. .

There was an incessant sound of rumbling, and the yellow sand that had collapsed was lifted up, with a faint white light flickering inside, and countless light-emitting parts appeared.

Wang Xuan activated the mechanical arm again.

With the improvement of his strength, the power of the mechanical god's arm has risen, and it has become stronger again. The volley strikes down, and directly blasts the deep pit of yellow sand below. Wang Xuan simultaneously launched the Eye of Terror in it, infinitely magnifying justice. Fear in the main body of the city, enter the "Ghost Car Night Walk".

The phantom of Mohu appeared, dragging four jet-black wings, and the afterimages were like paper figures, stacked and elongated, shuttled in the yellow sand, forming a semi-arc, bypassing the big hand attack of the yellow sand launched by the justice city lord, he just launched his full force against the mechanical **** arm. He didn't want the power of the mechanical **** arm to increase. He couldn't resist it. A human-shaped skeleton was revealed, and among the ribs of the skeleton, a huge eyeball the size of a fist was glowing.

The afterimages appeared one after another, and suddenly converged into one, turning into a giant arm of beast, from top to bottom, hit the neck and neck of the skeleton, hitting the huge eyeball in the middle.

This was Wang Xuan's full-strength blow. His eyeballs couldn't bear it, and they burst open in an instant. A blazing white light appeared inside, with a strong aura of life and consciousness, faintly carrying the despair of the righteous city lord.

Wang Xuan just smashed the head of the righteous city lord, and when he saw the eyeball falling into his chest, he understood that this eyeball is the body of the justice city lord, and it is also his real fatal point. As long as the eyeball is not damaged, even if the whole body is smashed, can survive.

The power of the world came silently, and immediately wiped out the consciousness of the justice city lord in the white light, turned it into pure energy, and disappeared into Wang Xuan's body.

Absorbing the pure energy of the righteous city lord, Wang Xuan felt refreshed. The energy swelled in his body, and soon went down his body and fell to the outside of his right leg.

Wang Xuan's heart moved.

"Could it be that the ghost car can grow a fifth wing?"

With the death of the righteous city lord, the surrounding yellow sand began to solidify gradually and turned into earth and stone again. Wang Xuan rushed out of the sand pit, but he saw all the trolls Ala, the king of trolls who had an arm broken by himself. The broken arm has been reborn, and Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong, and Bao Chong are in a hard fight. A group of six-armed Ala trolls appeared around them. If they didn't rely on Mei Xiaosen's iron cast dragon Qi and Bai Qianxue's large rune formation suppressed their combat power, and they had already suffered casualties.

Looking at the other side, I found that Elder Rakshasa, Elder Xuancheng, and the four black-robed men were similar to those of Mei Xiaosen. They were also in a hard fight. Fortunately, with Elder Rakshasa's enhanced halo, they retreated while fighting, and moved at full speed. Escape from afar.

When they saw Wang Xuan's sudden eruption and one blow interrupted the arm of the King of Trolls, they realized that it was not good. They had the same idea as the justice city lord, and they wanted to retreat. Taking advantage of Wang Xuan, he set the target on the justice city lord. , began to break out of the siege at full speed, trying to escape.

Seeing this, Wang Xuan immediately accelerated and rushed up.

"Follow me!" Wang Xuan shouted at the same time, reminding Mei Xiaosen and the others that they could follow him and get out of here.

Now that the Lord of Justice is dead, Elder Rakshasa, Elder Xuancheng and others cannot let them escape. As for King Ala, although powerful, comparable to the seventh form, it is not his primary goal.

The six Mei Xiaosen heard Wang Xuan's voice and saw that he was the only one who jumped out of the deep pit.

Suddenly, a huge figure appeared above, a force as heavy as a mountain pressed over him, and a huge bronze-colored spear volleyed into the sky, turning into countless spear shadows, covering him from top to bottom.

The king of the trolls of God, who was reborn from the broken arm, was not afraid of it. He shot again and attacked Wang Xuan.

Surrounded by countless spear shadows, Wang Xuan had no choice but to take the initiative to meet him, while activating the Eye of Fear to fully influence and control the King of Trolls Ara, while entering the "Ghost Car Night Walk".

The Mohu phantom in his body appeared and merged into one with his body. The four ghost wings on his back and arms stretched and merged with the Mohu phantom. The space-time image was affected, and everything was changing.

Every time Wang Xuan took a step, he would leave an afterimage in the air. These afterimages were one after another, like paper figures that overlapped and stretched out. There was a strange sound of vehicles rolling over the void. The strange trajectory passed through the spear shadows coming from the sky, shuttled through it, and appeared in front of the king of the trolls of God.

The beast of beast struck horizontally, trying to smash the head of the king of trolls, but the opponent barely raised his arm to block it. Wang Xuan had previous experience, and the other giant arm of the beast followed closely, and without a sound, hit the front. The face of the troll king of God.

Affected by the power of fear, the King of God Trolls was slightly stagnant in his reaction. Although he could barely block the first blow, he could not avoid the attack that followed.

The head of the troll king of God was blown up in an instant. Wang Xuan was afraid that it would not die, and the right arm of the beast made another blow and slammed it on its chest.

The chest exploded, and the flesh and blood flew. The headless body of the troll king of God was beaten into the air and flew out. The flesh and blood at the chest exploded into a huge hole that was similar to a circle.

Wang Xuan shook his body slightly, and hurriedly took out a water of physical strength and drank it.

Before launching a blow of the mechanical god's arm, and then killing the justice city lord, two punches smashed the king of trolls of God. His physical strength was severely depleted, and he had to take out a bottle of physical strength water and drink it again.

Watching the tattered body of Ala Troll King fly out, Wang Xuan noticed that there was no white light, and immediately understood that it was not dead. With a thought, he stepped up again, wanting to completely destroy its body. .

A roar of filial piety sounded, but one after another, six-armed Ala trolls appeared, frantically besieging them, preventing him from continuing to attack the king of Ala trolls.

Every six-armed Ara troll is comparable to a super-extreme powerhouse. A group of people surrounded him, as powerful as Wang Xuan. He also felt the pressure. Now he can either continue to find a way to attack and kill the Ara troll king, or turn around and go. After chasing the black-robed people such as Elder Rakshasa and Elder Xuancheng who had fled a few hundred meters away.

Their goal is the teleportation array in the No. 10 safe area. They only need to enter the central city through the teleportation array, and then return to the five major cities through the teleportation array in the central city.

After a little hesitation, UU reading [www. uukanshu.com](http://www.uukanshu.com) Wang Xuan gave up chasing after the Rakshasa elders and others, but went to kill the severely injured Ara Troll King.

It is almost impossible to hunt down Elder Rakshasa and others who have fled a few hundred meters away, especially if they run away separately, it is even more impossible to kill them all, but kill the King of Trolls. , to obtain its white light energy, plus the white light energy of the Justice City Lord just obtained, this is the hatching beast energy of the two seventh-form powerhouses.

If these energies are fused, there is a certain possibility that a fifth ghost wing will grow.

Now that he has been able to kill the seventh-form powerhouse in a special environment, if he can grow another ghost wing, what level will the power of the ghost car be improved to?

I am afraid that at that time, even if I face a few seventh-form powerhouses, I will not be afraid.

These thoughts disappeared in a flash, Wang Xuan avoided the attack of these six-armed Ara trolls without hesitation, and rushed to the king of Ara trolls who fell to the ground and was severely injured, wanting to kill it.

At this moment, at the gap of the distant giant ship, a black baby appeared, condescendingly, with a pair of cold eyes watching everything that happened hundreds of meters away.

Chapter 273

Wang Xuan shuttled through the six-armed Ala trolls facing him, and slammed down the Ala troll king who was on the ground.

The troll king of God was badly wounded and lay there barely moving.

When Wang Xuan rushed towards it, his heart suddenly became uneasy, his heart froze, and he immediately left two points, but he saw the king of trolls on the ground.

The body emits a strong bronze light.

The light is like a flame, burning out from its body, covering its whole body.

There was a huge sound, and a mountain-heavy force pushed him away.

Wang Xuan took a step back and was shocked, this troll king still has such a terrifying power hidden in his body?

This power has surpassed the strongest attack of the Justice City Lord.

In Wang Xuan's astonishment, he saw that King God's body seemed to be twisted and lifted by an invisible force, standing upright, bronze flames sprayed from the blasted head, and there was also a blazing scar on the opening of his chest. The flame was burning, and it turned into a half-flesh, half-flame combination. A terrifying coercion was released in its body, causing everyone in all directions to vibrate, including those Ara trolls who were dodging and retreating.

Looking at the performance of Ala Troll King, Wang Xuan was relieved. In the existence of the seventh form, there is no weak person, and each one has a strong vitality.

Neither one is easy to kill. The King of Trolls of God has such a performance. Thinking about it carefully, it is also reasonable.

A series of complicated and incomprehensible language came out from the mouth of Ala Troll King, as if chanting. It slammed into the ground, humming.

It stretched out its right hand, grabbed the giant spear shrouded in divine light, swung it away, and turned into a dazzling light wheel. Wang Xuan found himself caught in the light wheel, surrounded by dazzling rays of light, crushing him.

Suddenly a big flag appeared, and Mei Xiaosen threw his iron cast dragon flag and began to suppress the power of the Ala Troll King, followed by Bai Qianxue's rune formation.

The power of repression appeared, and the surrounding dazzling light wheel weakened slightly. The eye of fear on Wang Xuan's forehead sprayed the power of fear, using the fear in its body to affect it.

Affected by his fear, King God's attack immediately stagnated slightly. Wang Xuan seized the opportunity, waved his right hand, and a metal tentacle appeared, grabbed the giant spear precisely, and wrapped it around it.

With a low roar, Wang Xuan pulled hard, and blue halos lit up on the metal tentacles. The power of the blue crystal scales combined with the power of the demon beast completely exploded.

It's just that the power of the troll king of God is too strong, Wang Xuan can only pull it forward, but Wang Xuan seizes the opportunity, the ghost wings behind him flap, rise into the air, and fall to the giant. Above the Demon King's head, the giant arm of the monster on the left appeared and hit it.

At this moment, Wang Xuan felt a black figure jumping in the sky at the distant giant ship, drawing a perfect parabola and projecting it towards them.

The strange baby that appeared from the gap of the giant ship jumped out of the sky, jumped a distance of hundreds of meters, and then volleyed down. With a bang, it stepped on the ground and stepped out of a pothole. The Ala trolls around the pothole immediately festered. With a roar of fear, they retreated and dodged, and soon the skin and flesh on the surface of the body rotted away, leaving only the skeletons that fell to the ground.

Wang Xuan noticed the appearance of the strange baby, and his heart froze slightly. The attack of the giant arm of the beast broke into a blazing flame, and the body of the king of trolls seemed to liquefy in this strong bronze flame. The arm descended down his head, and all the liquid it touched was even faster than his attack. Wherever his fist fell, his body would liquefy and melt first, making Wang Xuan's punch seem like a punch. In the air, there is an unspeakable pain in my heart.

Immediately after, a large group of blazing flames shot out. Wang Xuan knew that it was not good, and activated the "ghost car armor" to protect his body.

The flames sprayed on the armor of the ghost car, making a sizzling sound. Wang Xuan felt that he was hit by an overwhelming force, and he rolled in the air and fell out.

"Retreat! Go to the teleportation formation—" While rolling, Wang Xuan shouted loudly, reminding Mei Xiaosen and Bai Qianxue.

The strange baby appeared. In this world, there is no force of the world to suppress. No one knows what level the current strange baby has grown to. It is very likely that it is aimed at them. If they don't escape, they may not be able to escape.

Now that he can no longer kill the King of Ala Trolls, he rolled and landed heavily, and the "ghost car armor" covering his body opened and turned into four ghost wings, two of which were guarded in front of him to defend against the rushing Ala trolls. The king, two slapped the ground, soared into the air, and fled in the direction of the teleportation array in the safe area.

Hearing Wang Xuan's reminder, Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong, Chang Jing and Bao Chong didn't dare to hesitate.

At this moment, Elder Luosha, Elder Xuancheng and the four black-robed men had just entered the teleportation formation in the distance, and with the help of the teleportation formation, they escaped into the central city.

This area has been completely chaotic, and the situation is getting more and more sinister. If you don't escape, even the super-extreme powerhouse will be unable to protect himself here.

The speed of the strange baby is very frightening. Wherever it goes, countless Ara trolls dodge and get out of the way. Those who let it late are immediately swept away by the power of decay, and the flesh of the whole body rots and melts, turning into a skeleton and falling down.

The rotten power contained in its body has become stronger and stronger.

The appearance of the strange baby caused riots among thousands of Ala trolls, including the king of Ala trolls, who forgot to continue chasing Wang Xuan, but turned his head and looked at the strange baby rushing towards the distance.

Wang Xuan's sense of unease became stronger and stronger, and he didn't have to look back to know that the strange baby was coming for him.

He ran at full speed and quickly got rid of Mei Xiaosen and Bai Qianxue, but he was still quickly caught up by the strange baby.

A large number of God trolls around Wang Xuan were falling down, and the surface of his body was rotting.

Wang Xuan's Eye of Fear was unable to sense the fear in the monster's body, and the monster seemed to be fearless.

His Eye of Terror has no effect on the Babies.

Noticing that the Ala trolls on both sides were falling to the ground, Wang Xuan knew something was wrong, let out a low roar, kicked his feet, almost leaped in the air, and quickly took out a few defensive crystals, crushing them without hesitation. One of them.

A defensive light curtain appeared, and the rotten power carried by the strange baby slammed into the light curtain. As long as Wang Xuan was a little slower for half a second, he was the one who was attacked, and the future would be unimaginable.

The defensive light curtain was hit by the strange baby, and immediately fluctuated violently, with signs of decay on the surface.

The power of this strange baby is simply appalling, and it can even corrode this defensive light curtain.

While Wang Xuan crushed a defensive crystal, his left arm was glowing, and a large amount of light gathered together to form metal parts one by one. The combination of these parts turned into a mechanical arm that was two meters long.

This is his strongest blow.

Mei Xiaosen and Bai Qianxue, who had fallen far behind, saw the strange baby's performance, and their hearts were horrified.

What kind of monster is this? How can it be so scary?

Mei Xiaosen reacted and threw the Iron Cast Dragon Banner from a distance. The only thing he could help Wang Xuan was to use the Iron Cast Dragon Banner to suppress the terrifying power of this strange baby.

It is a pity that the iron cast dragon flag has just approached, and there are signs of decay.

Wang Xuan launched the mechanical **** arm with all his strength, and with a volley, the mechanical **** arm formed by the combination of countless luminous metal parts hit the rotten power shrouded around the body of the monster. The white light on the surface fought against the rotten power to protect the mechanical **** arm. signs of decay.

It can be seen that the power of the mechanical **** is enough to fight against the power of decay.

For the first time, Wang Xuan saw that there was power to block a blow from the mechanical god's arm.

The strange baby fell to the ground, and its body was shrouded in a layer of power like a black mist. The luminous mechanical arms of the gods kept approaching in this black fog, buzzing, but they couldn't get close to the strange baby.

It used the power of decay to block the attack of the mechanical god's arm.

This power blow, even the Justice City Lord and the King of Trolls of God can't stop it, but now they can't touch the strange baby at all.

Wang Xuan quickly took out a bottle of stamina water and drank it, followed by throwing several explosive crystals, flame spar and smoke crystal.

These crystals cracked, and a large cloud of smoke appeared, which became billowing black smoke, and the flames burned from it, turning into a sea of fire, and there was a continuous huge explosion.

Although Wang Xuan knew that none of these would hurt the strange baby, his only purpose was to influence it and delay it a little, while he turned around and continued rushing towards the teleportation formation in the distance.

The four ghost wings opened, and his speed reached the limit. As long as he escaped to the teleportation array in the safe area, it would be safe. No matter how powerful the monster was, he could not enter the central city through the teleportation array.

After sweeping 20 to 30 meters, he heard a loud bang from behind. Wang Xuan's heart was slightly shocked, and he realized that the arm of the mechanical **** had been shaken and re-turned into a large number of luminous parts, which began to flow back to his left arm. Inside.

The speed of the strange baby was faster than him. Although Wang Xuan rushed out dozens of meters at full speed, the strange baby still caught up in an instant. No matter the explosion crystal, the flame spar or the smoke crystal could not stop it.

The rotten power carried by the strange baby swept away, and the ground and vegetation in all directions were withering and necrotic. Watching it chased behind him, Wang Xuan sighed secretly, and could only open the Sumeru mustard space and take out the book of giant gods.

Although the Book of Giants was damaged and had cracks on the surface, it should not be able to be summoned for the time being, but he was forced to be helpless.

The current monster is something he can't resist. As long as it is swept away by its rotten power, he is afraid that he will immediately rot into a skeleton.

While crushing the defense crystal and propping up a defensive light curtain, he opened his mouth and spurted several mouthfuls of blood toward the Book of Giants.

The blood stained the Book of the Giant God, and the cracked Book of the Giant God absorbed the blood, and a faint luster appeared on the surface.

The strange baby who was about to pounce suddenly stopped when he saw the Book of Giants.

For the Book of Giants, it seems to have a natural fear, and the rotten power that swept it was taken back by it.

It hesitated a little. The surface of the Book of Giants that Wang Xuan held in his hand faintly flickered with golden light. The pattern of a pentagram fluctuated constantly, but it was always missing a corner and could not be fully revealed.

Seeing that there was something wrong with the Book of Giants, the strange baby immediately jumped at him again, waved his right hand, and released a strong rotten power from his body, rushing towards Wang Xuan.

Wang Xuan's face changed color, and he spat out a mouthful of blood again. The Book of the Giant God in his hand was only emitting a faint light that was constantly fluctuating. The pentagram could not be brought out. If the pentagram was not formed, it could not be Summons something that hides in the depths of endless darkness.

Seeing the rotting power rushing in, Wang Xuan was forced to help, so he could only continue to step back to keep a distance. At the same time, he wanted to crush the defensive light curtain again, and suddenly found that this time, the rotten power was sweeping from all directions, completely covering him. He had no way to retreat, and even the defensive light curtain was useless.

The defensive light curtain can only protect one side and cannot block all the ground.

During the thought, only the "ghost car armor" can be activated, and four ghost wings appear, covering the whole body and turning into armor to resist the rotten power that is submerged in all directions.

Although the ghost car armor is powerful, it can rely on the resonance between all the steel feathers to counteract the attack power, but it cannot prevent the rotten power.

Soon, a large number of steel feathers began to corrode, melt and disappear. Wang Xuan could not escape. He tightly grasped the Book of Giants in his left hand, watching the rotten power intruding in, he was going to devour him together with the Book of Giants.

Although the Book of Giants cannot form a pentagram and cannot summon the existence hidden at the end of the endless darkness, the golden light it radiates touches the incoming rotten power and blocks it.

Wang Xuan noticed this, his heart moved, and he immediately waved the Book of Giants, relying on the golden light released on the surface to fight against the rotten power.

As long as these rotten powers come into contact with the golden light, they will dissolve immediately, as if returning to nature and disappearing without a trace.

The strange baby didn't seem to expect such a situation, and suddenly stopped, Wang Xuan held the Book of Giants in his left hand, and suddenly stepped forward, the four ghost wings appeared again, stretched back and stretched, and a phantom in the body swelled out.

"Ghost Car Night Walk" starts again.

As the sound of vehicles rolling over, Wang Xuan overlapped with the blurred phantom, the passage of time and space around him seemed to slow down, and he fell into an indescribable ghost realm. In this ghost realm, Wang Xuan appeared one after another afterimages. .

These afterimages overlapped, forming a half-arc and appearing in front of the strange baby. Among them, a hand appeared, holding a piece of golden paper that shone with light, and shot the strange baby.

What is really scary about the strange baby is the ubiquitous rotten power. When the rotten power encounters golden light, such as ice and snow touching the sun, and begins to melt and disappear, the strange baby is like a tiger whose claws have been pulled out. could not be avoided.

It didn't seem to think that the gold paper would melt away its rotten power and appear in front of itself.

It was hit by the golden thread, and the small body rolled upside down like a ball and flew out.

Only then did Wang Xuan breathe a sigh of relief, turned around quickly, and continued towards the teleportation channel of the No. 10 safe zone.

Although he took advantage of the special nature of the book of giant gods while taking advantage of the strange baby's unpreparedness, he shot it away with one blow, but Wang Xuan understood that it was impossible to kill the strange baby. Its rotten power is just broken. Once it recovers, whether it is strength or speed, he is no match for it.

The strange baby was thrown into the air, rolled on the ground, and stood up again. A look of anger flashed across his face. He seemed to be provoked by Wang Xuan. He suddenly opened his mouth and let out a very harsh scream. The air pulled, and immediately terrifying black smoke gushed out, which contained a thick rotten aura, forming a tornado that swept toward Wang Xuan who was fleeing.

Wherever the power of rot swept, the trolls of God were rotting and fell down, and all life was harvested. The strange baby who really exploded in anger was extremely terrifying. The power of rot that swept in was too fast. Xuan didn't have time to escape, he could only let out an angry shout, and once again used the Book of Giants in his hand to fight.

The Book of Giants was dripping with blood, and it was constantly releasing golden light. This light was constantly trying to form a pentagram, but it was always a little short.

Although the power of decay that rushed over was terrifying, it immediately collapsed and disappeared when it encountered the golden light. Wang Xuan held the Book of Giants and felt the impact of the power. The four ghost wings behind him stretched out, watching the constant reorganization. The pentagram, which kept collapsing, spewed out a mouthful of blood again.

He didn't know how to fix the Book of Giants, the only thing he could think of was blood.

The blood was sprayed on the broken pentagram, and the pentagram absorbed the blood, and the surface lightened slightly. Wang Xuan was overjoyed, thinking that it was effective, and did not want to dim again soon.

The strange baby controls the huge tornado formed by the rotten power, with a height of more than 20 meters. It is condescending, and it floats and sinks in this tornado.

The power of decay it released became stronger and stronger, and the tornado formed became stronger and stronger, and its scope continued to expand, gradually swallowing Wang Xuan into it.

Mei Xiaosen kept trying to throw the iron-cast dragon flag, but unfortunately the dragon flag was rotted and melted away before it could be used.

At this moment, they all surpassed Wang Xuan. The teleportation array in the safe area is not far ahead. They can enter the central city through the teleportation array at any time, but Wang Xuan is trapped.

The monster is far more terrifying than the Justice City Lord, and this is not a monster they can fight against.

Wang Xuan was relying on the Book of Giants for support, and the strange baby slowly descended along the tornado. As it continued to descend, the golden light released on the surface of the Book of Giants was gradually dimming.

Seeing that it was impossible to support him any longer, when Wang Xuan was about to spray blood at the Book of Giants again, a blue rainbow suddenly appeared and slammed into the coming monster.

With a "huh" ~www.mtlnovel.com~ dragged the strange baby that was wrapped up in the air, and disappeared instantly.

The strange baby was dragged away, and the tornado formed by the power of decay immediately disintegrated and disappeared. Wang Xuan sighed secretly and was busy looking up, but he saw a cyan fox with a length of 100 meters appeared under the night.

This fox stepped on the canopy of the tree, looking very handsome and exuding a sacred aura.

A pair of fox eyes, looking down at the common people.

Its cyan tail, curled with a strange baby, is raised high and stretched into the air.

Chapter 274:

Bones of Gods and Buddhas

Wang Xuan seized the opportunity, jumped, and with the help of the four ghost wings, he instantly landed on the teleportation formation in the safe area, and joined Mei Xiaosen, Bai Qianxue, and Fang Taozhong.

He didn't feel at ease until he got here, but he saw the cyan fox standing far away on the canopy, opening his mouth slightly, the cyan tail that wrapped around the strange baby gradually tightened, and the tail slowly released a cyan light.

The strange baby opened his mouth and let out a scream, and the scream was full of pain.

It is constantly struggling, with black rotten power surging in its body, fighting against the cyan fox.

Wang Xuan and Mei Xiaosen all stood on the side of the teleportation formation, but they did not enter and leave immediately. As for the situation of the cyan fox and the strange baby, he wanted to see the results.

If the situation is not right, he can enter the teleportation array at any time, open the channel, and leave here.

The strange baby was constantly struggling, and all the rotten power was suppressed by the blue light. Obviously, it was no match for the blue fox.

At this moment, there are still a steady stream of Ala trolls surging out of the giant ship. The number of Ala trolls gathered in this area has reached an astonishing 5,000. This is such a powerful force that it can sweep everything.

At this moment, they seemed to be affected by the screaming screams of the strange baby.

The cyan fox still stood on top of it, motionless, but opened its mouth, and a cyan light began to appear in its mouth. The light converged, and it sucked at the thousands of Ara trolls who had gathered.

Under a single breath, the flesh and blood of these madly surging Ala trolls began to disappear. The original muscles collapsed and quickly turned into skinny skeletons. They fell heavily while running, and white rays of light appeared. Fly towards its open mouth.

This scene shocked Wang Xuan and Mei Xiaosen, and everyone showed an unbelievable look.

The cyan fox just took a breath and sucked these thousands of Ala trolls into mummified skeletons?

Among them are the powerful six-armed God trolls, and even the troll king who can rival the seventh form.

Thousands of white rays of light appeared, like fireflies in the sky. They cast white rainbow rays one after another, and concentrated towards the mouth of the cyan fox. Countless white rays of light gathered together and collapsed into its mouth, like a vortex of light. .

The cyan fox is devouring the white light.

The seven Wang Xuan who stood in the teleportation array were unscathed, and the cyan fox's damage did not affect them.

Wang Xuan suddenly thought of something. He once heard Xu Jian and the others say that there are seven totems in this third-layer world. Some of them hate humans, such as the white rhinoceros, and some are neutral, such as the ancient tree totem, and the totem that is close to humans. .

Could it be that the cyan fox in front of me belongs to the totem that is close to humans?

Everyone stood beside the teleportation array, watching the cyan fox swallowing thousands of white rays of light, each of which represented a hatching beast that had grown to a super state. So many white rays of light gathered together, how huge it must be. energy of?

Wang Xuan thought that the cyan fox devoured the energy of the white rhino before, and now it has devoured these thousands of white rays of light. The energy it has absorbed has reached an unimaginable level.

Could it be that it threw the monster baby to the giant ship before, and the real purpose was to use the monster baby to corrode the giant ship, release these Ala trolls, and then use them as rations to devour?

While swallowing thousands of white rays of light, the cyan fox shrank its cyan tail, tightening it continuously, entangling the strange baby.

The strange baby kept screaming, the rotten power could not resist, and the body began to twist.

Wang Xuan and the others looked at it from a distance and felt thrilled. He understood that the cyan fox was about to kill the strange baby.

"It's amazing," Wang Xuan heard Mei Xiaosen muttering beside him.

Perhaps deterred by the fear of the cyan fox, even the trolls of Ala no longer appeared in the gap of the distant giant ship. The dark shadows of Mohu that were struggling there disappeared, and the giant ship became silent.

In this darkness, there was only the shrill hissing that the monster baby kept making.

The hissing sound became more and more intense, and there was a rustling sound in the distant forest. Wang Xuan felt it, and turned his head to look into the distance, but he saw that in the night, I do not know when, a huge figure appeared in the darkness in the distance.

This figure emerged from the canopy of trees as high as 40 to 50 meters high, striding forward, each step can reach hundreds of meters, stepping on a large number of towering trees, that huge body, at least hundreds of meters high.

Mei Xiaosen, Bai Qianxue, Wu Tian, Fang Taozhong, Chang Jing, and Bao Chong were all disturbed, and turned their heads to look into the distance, with expressions of astonishment on their faces.

The strange baby's screaming became more and more violent, it struggled desperately, the cyan fox was slowly digesting the more than 5,000 white rays of light, and the cyan tail was only slowly shrinking, pressing the strange baby, forcing out the stronger rotten power in the body .

The speed of the huge figure in the distance was very fast. When it appeared from the darkness in the distance, it quickly approached within a few kilometers. Wang Xuan could clearly see that it was a human-shaped skeleton with a height of 100 meters, and its head was as big as a hill. Qiu, when he appeared a few kilometers away, Wang Xuan took a deep breath and finally understood.

He had seen this human-shaped skeleton before. The strange baby was born from the human-shaped skeleton. This human-shaped skeleton has forty teeth. According to legend, only gods and Buddhas have forty teeth. This human-shaped skeleton is suspected to be the remains of gods and Buddhas.

"I didn't expect a human-shaped skeleton to have life?" Wang Xuan looked at the human-shaped skeleton that appeared in the distance, and then watched the cyan fox swallow thousands of white rays of light completely. , and suddenly he understood.

The cyan fox deliberately tortured the baby, as if its real purpose was to use the baby to summon the humanoid skeleton.

"What is the purpose of this cyan fox?" Wang Xuanyue felt that this cyan fox was unfathomable.

The strange baby was still screaming, and the humanoid skeleton took another stride. Suddenly, it raised its arm bone and slapped it across a few kilometers.

An invisible air wave was emptied, and the air in the area of several kilometers began to fluctuate violently, and the humanoid skeleton moved towards the cyan fox.

As soon as it made a move, it was earth-shattering. The cyan fox stood above the tree canopy, its body swayed slightly, it curled the tail of the strange baby, and swept out sideways. A cyan rainbow light shot the bullfight, dyeing the night into cyan.

It is indescribable how terrifying the power is. Wang Xuan's current strength is comparable to that of the seventh-form powerhouse. At this moment, it is still incalculable. Such a level is beyond human imagination.

The humanoid skeleton approached, stretched out its palm, pulled out a towering tree that was 40 to 50 meters long, used it as a weapon, and threw it into the air.

With a snort, the towering tree, driven by the terrifying force, broke through the heavy air waves, and countless branches and leaves could not stand it, and they were broken and shattered. It shrank rapidly in the air friction, and a flame rose up. The front end was sharp like a spear, surrounded by flames, and shot at the cyan fox.

There was a loud bang, and the cyan fox's cyan tail waved, hitting the tree pole that was shot, and the burning tree pole was blown up in an instant.

The humanoid skeleton swayed its body, grabbed it out with both hands, pulled up the trees around it, used it as a weapon, and threw it towards the blue fox from the air. Cover the cyan fox.

The humanoid skeleton stepped forward and approached the cyan fox.

The azure fox waved the tail of the strange baby, constantly waving, and the green rainbows staggered one after another, and the flaming trees that shot over exploded and shattered in a violent explosion. This void was like a feast of fireworks, filling the sky. All the flames that exploded, splendid and splendid.

The cyan fox stood still, but the humanoid skeleton was constantly approaching, and the distance between the two sides was getting closer and closer. Suddenly, the humanoid skeleton reached out and grabbed the cyan fox's tail. It wanted to rescue the victim. A weird baby with a curled tail.

A strong cyan rainbow light was released from the cyan tail, the cyan fox swayed slightly, and a cyan rainbow light suddenly rushed out from behind, turning into a second tail.

With a "bang", the second cyan tail that appeared, slammed into the head of the humanoid skeleton.

This blow made the head violently shake, and a looming phantom burst out on the head. The phantom appeared, and the second tail of the cyan fox was shaken back.

When noticing the phantom shadows appearing on the humanoid skeleton, the cyan fox immediately turned around completely and pressed towards the humanoid skeleton. Behind him, cyan rainbow lights rose into the sky one after another, Wang Xuan and Mei Xiaosen It was only then that the seven people were shocked to discover that every azure rainbow light rising into the sky was a tail.

At this moment, the cyan fox has shown his true power.

The loud noise of "Boom" is endless, and one tail after another turns into a blue rainbow light, continuously whipping the skull of the humanoid skeleton, and the terrifying force vibrates down the head, this humanoid skeleton up to 100 meters, shaking violently, Soon, a lot of fine marks appeared on its body bones, and the bones began to be unable to withstand the power attack of the cyan fox.

biquge.name

Strange to say, although the skeletons of its whole body began to show fine cracks, on the contrary, the head that was continuously whipped by the cyan tail not only did not have fine cracks, but became brighter, and the surface faintly appeared a layer of crystal clear and jade-like luster.

The power of the cyan fox is monstrous, and its mighty energy is mighty. It looks like a **** coming into the world, looking down at the world. The strips of cyan tails continue to be beaten out, and the humanoid bones that are suspected to be the remains of gods and Buddhas have no power to parry. Passing down, there was a continuous crackling sound like popping beans all over the body.

Finally, there was a loud noise. The right calf bone of the humanoid skeleton couldn't stand it at first, and it burst open, breaking into countless pieces, followed by the shattering of the left calf bone, and then the thigh bone, vertebrae, ribs, neck bone

In the terrifying sound, Wang Xuan watched as the bones of the humanoid skeleton in the distance shattered and exploded. Only the skull became brighter and brighter, and it became crystal clear. Even if it suffered the continuous attacks of the cyan fox, there was still no wear and tear. Obviously, this There is something special about the head.

Wang Xuan's heart suddenly moved, thinking that this head has forty teeth, could it be said that this head is really the remains of a god?

Watching the humanoid skeleton collapse and shatter, the head was glowing, but the cyan fox's attack became more and more violent. The whole world is shaking.

"What is this cyan fox trying to do?"

Mei Xiaosen and the others looked at them, their hearts jumped, and they all felt fear.

The powerful monster was completely suppressed by the cyan rainbow light at this moment, and it didn't even have the strength to struggle, but the cyan fox didn't really kill it, just wrapped it around with one of its tails, neither killing it nor letting go open it.

In the gap of the distant giant ship, there is no more Ara trolls. All the trees in this area have been destroyed. The humanoid bones up to 100 meters high, except for the head, the body is completely shattered, and the remaining head as big as a house follows. Constantly attacking, more and more fluorescent light appeared on the surface, and the whole body shimmered with brilliance, and there was a faint shadow of some kind of lake flickering in it, which seemed extremely strange.

Wang Xuan slowly saw that there must be something hidden in this head. The real purpose of the blue fox should be this head, but he didn't know what was hidden in the head.

After such continuous beating, it was not known how long it took, and countless Qinghongs completely drowned the head. Finally, the head's bearing capacity seemed to have reached its limit, and there was a humming sound inside.

With this sound, a ray of light suddenly shot out of his head.

The ray of light soared into the sky and shot a beam of light, which ripped apart the sky for a long time.

The cyan fox immediately retracted all its tails and returned to its original appearance, but saw the glowing head ringing continuously, a huge beam of light reaching the sky, and in this beam of light, various runes emerged, among which a large number of The complex and incomprehensible rune formations may emerge, or disappear and shatter. This piece of heaven and earth is vibrating. Gradually, in this pillar of light, the phantom of the lake appears, and the phantom keeps falling down. Void appeared, sagging down.

This scene change shocked everyone, including Wang Xuan, everyone opened their eyes wide, showing an incredible look.

No one would have thought that this strange scene would appear after the head was whipped to the end.

The slowly descending Mohu phantom gradually became real. It was suspected to be an ancient city, but the surface was dilapidated. I couldn't see how big it was. I could only see the magnificent and broken city walls, incomplete city towers, and towering towers. The Buddhist pagodas and monasteries in the temple are filled with Sanskrit sounds.

This is a Buddhist city that looks like it has been destroyed.

As the sky-penetrating beam of light released by the head gradually converged, in the end, the Buddha City, which descended from the sky, stopped at a place about 20 to 30 meters above the ground, and appeared from the void, revealing the iceberg of the Buddha City from mid-air. corner.

The head that had been slapped countless times by the cyan fox was originally crystal clear, but at this moment it appeared dark and headless, as if it had lost all spirituality and turned into an ordinary skeleton.

The cyan fox rolled around the strange baby that had stopped struggling, and suddenly jumped up. The body that was 100 meters long rose into the air, and easily caught up with the Buddha City, which was only 20 to 30 meters above the floating void, and crossed the towering city wall. The image was sucked in by this Buddhist city, and the huge body was thrown into it, and soon disappeared.

The surroundings became silent. In addition to the thousand-meter giant ship in the distance, there was a Buddhist city hanging down at this moment. In addition, there were the skeletons left by the trolls full of God.

This skeleton is densely packed, and the number exceeds more than 5,000.

Except for the head, the humanoid skeleton suspected to be the remains of a **** and Buddha has been completely shattered. The cyan fox brought the strange baby into the Buddha City and disappeared. Elder Luosha and Elder Xuancheng also disappeared with the help of the teleportation array. Thousands of them disappeared. The God trolls have all turned into dead bones, and now there are only seven of them left here.

After being stunned for a minute or two, the seven talents slowly recovered from the shock just now. Looking at each other, they all felt like they had a thousand words, but they didn't know where to start.

Suddenly, in the gap of the distant giant ship, after being quiet for a while, figures appeared again. These figures surged out, but they were trolls of God one after another.

They appeared again and jumped out one after another along the gap, one after another, like dumplings, and in the blink of an eye, hundreds of Ala trolls jumped out.

These Ala trolls jumped out, looking like crazy, not rushing in the direction of Wang Xuan and others, but rushing towards the broken Buddha city suspended in the void twenty or thirty meters.

With their strength, they can easily jump up 20 to 30 meters in the air, jump over the Buddha City, lie down on the city wall, and then follow the city wall, and they scramble inside. It seems that in this Buddha City, hidden Some kind of treasure that has a fatal temptation to them.

Seeing the hordes of Ala trolls appear, and then madly rush towards the Buddha City suspended in the void, Wang Xuan and seven people felt a strange feeling in their hearts.

Mei Xiaosen said: "Everyone, do you feel that there seems to be something hidden in this strange city?"

Wu Tiandao: "I can see that the real purpose of the blue fox is this city, but I don't know what the head is, and it can summon this city."

There are a lot of runes floating around Bai Qianxue's body, and there are runes flickering in her brows, she unfolded the Eye of the Rune King, and said slowly: "This head is the real bones of gods and Buddhas, this summoned It is the city of the Buddha country, there is a Buddha treasure to obtain this treasure, to be able to transcend it, and there is also a hidden Buddha fruit in it, whoever can obtain it can become a **** and Buddha, I think this is the purpose of the blue fox."

"Go out and become gods and Buddhas" When everyone heard these words, their hearts moved slightly, and they all became curious.

Fang Taozhong shook his head and said, "It's a pity that this cyan fox is too powerful~www.mtlnovel.com~ Even if there is a Buddha treasure or Buddha fruit hidden in this Buddhist city, no one can grab it, it's a pity."

Bai Qianxue shook her head and said, "That's not necessarily true. Treasures like this are destined to live there, not entirely by strength. Although the azure fox is powerful, it's not necessarily its own."

Mei Xiaosen said: "So, if we go in, there is hope of getting this chance?"

Bai Qianxue snorted: "So those trolls of God rushed in, if my Rune King's Eye is not wrong, this should be a great opportunity, whoever can get this opportunity can truly detach, even To become a **** and Buddha is to not know who will fall into the hands."

Wu Tian grabbed the blue spear in his hand and said, "If it's not entirely by force, then we can go in and try our luck."

Although everyone has different understandings of gods and Buddhas, what the cyan foxes are so eager to obtain must be a supreme treasure. If they can obtain this opportunity, the benefits they can get will be unimaginable.

Everyone was excited at this moment.

Chapter 275

The City of Buddha Country

Heart touching treasure.

Although I don't know what Buddha treasure or Buddha fruit is hidden in the ruined city of Buddhaland, but they are all moved to the idea of entering the chance encounter.

"What do you say? Would you like to go in and try it?" Wu Tian turned his head to look at Mei Xiaosen and Wang Xuan, and watched the Ala trolls in the distance keep jumping up and rushing towards the Buddha City. Bai Qianxue's words made her heart itch.

Several other people were both excited and hesitant. After all, no one knew what kind of danger was in the Buddha City.

Mei Xiaosen raised his head with a hint of hesitation on his face, and said, "So many Ala trolls rushed in, and there were no screams. It seems that it is safe inside for the time being?"

He wanted to convince himself, but he was full of indecision.

"Wang Xuan, what do you think?" Mei Xiaosen looked at Wang Xuan hesitantly.

Wang Xuan was about to speak when suddenly there was a sound of ground shaking in the distance. He was busy looking up, but at some point, a towering tree appeared in the forest in the distance.

This is an ancient tree with a height of 100 meters. It has a towering canopy, and there are roots below it. Relying on the roots, it keeps moving and is approaching here.

Ancient tree totem.

The ancient tree totem that almost died after fighting the translucent mushroom-like unknown ancient relic finally reappeared.

The appearance of this Buddhist city obviously attracted it.

The arrival of the ancient tree totem caused a lot of turmoil of Ala trolls. Many Ala trolls instinctively retreated and did not dare to approach. Soon, the ancient tree totem appeared on the edge of the Buddha City in the distance, and the huge ancient tree that covered the sky went to Reaching out into the Buddha City, a hundred-meter-long tree root builds on the city wall and extends up. With the help of these tree roots, it continues to rise, and soon enters the Buddha City and disappears.

"Even the ancient tree totems have entered, it seems that there is a treasure." Wu Tian's face showed an uninspiring look.

Bai Qianxue suddenly said, "We don't have to rush in."

Mei Xiaosen said, "Qianxue, what do you say?"

Bai Qianxue said: "I just saw something with the help of the Rune King's Eye. This city is not easy. Even if there is a chance, it should not be easy to get, especially the cyan fox and the ancient tree totem have entered. I don't know what terrifying existence will enter, there must be a dispute, even if we want to enter, we don't have to rush in now, we might as well wait."

Mei Xiaosen understood and said, "You mean the snipe and mussels fight, and the fisherman wins? Let them fight first, and we will be the fisherman?"

Bai Qianxue nodded and said: "Yes, this kind of treasure opportunity is not so easy to obtain, I have another idea, we take this opportunity to seize the time to break through and advance to the seventh form, as long as we can break through, then The situation we face will be completely different."

Mei Xiaosen's eyes flashed, and he nodded, expressing his agreement with Bai Qianxue, then looked at Wang Xuan and said, "Wang Xuan, what do you think?"

Originally, Wang Xuan was just a newcomer among them, but before he knew it, Wang Xuan had become their leader, using the sixth form of the super state to kill the powerhouse in the seventh form, and jumping to one form to kill people. So far, only Wang Xuan can do it. Although they consider themselves geniuses, they are convinced by Wang Xuan.

Wang Xuan nodded and said, "Then everyone, hurry up and strive to break through to the seventh form, and I'll hunt down the elders who escaped."

Although he also wanted to break through the super state, his savings were not enough. Although he had sensed the power of the world and tried to control it before, he could not control it precisely. Now he hastily introduced the power of the world into his body. The power of the world can detonate his body. If he wants to break through, it will take at least a long time to accumulate and try to control it, not just a day or two.

Hearing what Wang Xuan said, Mei Xiaosen was slightly taken aback and said, "Are you going to hunt down those elders?"

Wang Xuan nodded and said: "A few elders came, but only one justice city lord came, no accident, the other city lords should not be in the five major cities, just let the elders and the black-robed people

escape, they will definitely escape back to the five major cities, instead of letting them wait until the city lord, tip off the news, and find a way to deal with us, it is better to chase after them and kill them all."

Wang Xuan's idea was a little crazy. Mei Xiaosen and Bai Qianxue looked at each other and felt moved.

Wu Tian nodded and said, "Wang Xuan, you still have the guts. Now the upward passage has been opened, and I don't know what the situation is in the world above. If you can really kill these well-informed elders and black-robed people, it will be preempted. Got a head start..."

As soon as I said this, I found that Wang Xuan took a step and entered the transmission channel. The transmission channel was activated, and a halo began to rise.

Others looked at it, and they never imagined that Wang Xuan was so decisive.

Mei Xiaosen's lips moved slightly, and he couldn't help but shout, "Wang Xuan..."

Wang Xuan waved his hand and said: "Everyone hurry up and try to break through as much as possible. I will kill these elders and black-robed people who have turned into monsters and come back. Even if the remaining city lords appear, their primary target will only be me. It can be said that it is the safest for you to break through now."

As he spoke, he was enveloped by a light curtain, and when the light curtain converged, he had disappeared into the transmission channel.

Seeing Wang Xuan disappear, Mei Xiaosen gritted his teeth, and immediately planted the iron cast dragon flag on the ground, sat down with his knees crossed, and said solemnly: "Everyone, don't hesitate, whether it can be done depends on this fight. already."

After saying that, he closed his eyes.

If they do, one day later, all six of them will be the seventh-form powerhouses. Only then will they hope to truly control the five major cities and open the channel for the true growth and evolution of human beings.

The fate and future of their human beings must be in the hands of human beings themselves, and they are by no means the host of monsters.

Bai Qianxue, Wu Tian, Fang Taozhong, Chang Jing, and Bao Chong didn't speak anymore, each with a determined look on their faces, sitting cross-legged and starting to break through.

They are different from Wang Xuan. Wang Xuan only tried to sense the power of controlling the world. Now they are not sure that they will go wrong. They have tried countless times. Before, they were only clouded by the five city masters, and they did not dare to break through. Once they broke through, they would be erased Consciousness, the fate of becoming a monster.

Now that the opportunity finally appeared, they did not turn back, and all began to advance to breakthrough.

As for the Ala trolls appearing constantly in the distance, these Ala trolls are not interested in them at all now, and all the Ala trolls that appear are all rushing towards the Buddha City.

Wang Xuan entered the central city through the teleportation passage, followed by the teleportation passage of the central city, and was teleported to the No. 9 safe area.

Open Xumi's belt and take out a tracking crystal.

He now has four tracking crystals. Although they are all elementary, the elders and the others have escaped for less than 24 hours. This elementary tracking crystal is enough. At the same time, he secretly cried out in his heart that it was a pity, even though he killed the mysterious master in succession. And the righteous city lord, as well as the justice elders and a few black-robed men, but nothing was gained, because the storage belts of these people were either damaged in the battle, or because of the appearance of the trolls of God and the cyan fox, the corpses and the storage belts were all destroyed. Yes, my heart hurts.

"The stronger the strength, the more difficult it will be to kill them. Even if they are killed, the storage belt will probably be difficult to preserve, which is a pity."

Wang Xuan secretly shouted a pity, and stepped out of the transmission channel of the No. 9 safe area.

The five major cities are in the surrounding forests of the No. 9 security zone. The primary tracking crystal was activated, and sure enough, he captured the aura of Elder Xuancheng, which he was familiar with, representing the elders and the others returning here.

It was already the second half of the night, and the No. 9 safe area was relatively quiet in the dark. Only a few people were busy rushing to the road, or rushing to which elevator to go to a certain town, or exiting the elevator and heading for the direction of the five major cities.

These are people who desperately want to do everything possible to improve themselves. Even at night, they are unwilling to rest. They race against time and want to strengthen themselves.

Now more and more people are entering the third-layer world, and with the discovery of the central city, most of the super-powerful people are now working hard to do various tasks, strive to earn enough crystal scales, enter the skill stone gate, and improve their own skills. strength.

The three skill stone gates are equivalent to giving all super-states the hope of advancing to the super-state peak or even the super-state limit.

Wang Xuan swept around, and suddenly his eyes fell on the edge of the restored glass column, where a man in black robe was standing.

Looking at the sign on his black robe, it was a black robed man from Rakshasa City, and he sensed the breath. It was the black robed man who followed the Rakshasa Elder he had seen before.

He just stood there alone, as if waiting for something.

Wang Xuan watched him stay there and suddenly understood.

King Rakshasa entered the fourth floor and has not returned. He should have stayed here and waited for King Rakshasa to return, so that King Rakshasa could be informed of what happened here as soon as possible.

When Wang Xuan suddenly saw him, the man in black robe also saw Wang Xuan.

Their eyes met, and the first reaction of the man in black robe was to press the elevator button in front of him, trying to escape.

He understood that with his own speed, it would be too late to escape to other places at this moment.

Although his response was fast, Wang Xuan's speed was even more terrifying, and he entered "Ghost Car Night Walk" almost with a single thought.

Everything around them seems to have slowed down, and the passage of time in this piece of heaven and earth has slowed down.

Four wings appeared, stretched out, and a black shadow of the lake appeared from Wang Xuan's body, overlapping with his body, the four pitch-black wings flapped, and there was a strange sound made by the high-speed rolling of vehicles. In the darkness, Getting weirder.

In the "Ghost Car Night Walk", his speed reached the seventh form. In this slow passage of time, he left a trail of afterimages in the air. These afterimages were stacked and approached the black-robed man.

The man in black robe watched the elevator door open in front of him, but he had no time to enter, and Wang Xuan came to him.

He opened his mouth and let out a violent roar. This was to remind the other elders and the black-robed man. At the same time, he was also roaring for his own despair. He was extremely afraid of Wang Xuan, who could kill the righteous city lord.

The biggest possibility they guess is that Wang Xuan and others will seize the opportunity to seek to break through the seventh form. They never thought that he would dare to be so bold and directly chase after them in the five major cities.

Aren't they afraid that if the five major cities have three other city lords sitting here? They are chasing here, is it not self-inflicted?

It's just that no matter how much confusion and puzzlement there are now, there is no answer. He tried his best to explode with the strongest power. He opened the black robe, and black thorns burst out from his body, like a hedgehog, with his arms up to protect him. Keeping his head down, the only thing he can do now is defense.

As for the defense crystal, although he has it, it is too late to take it out now.

All the afterimages left in the space disappeared, leaving only a giant arm that was half metal and half flesh.

With a "no" sound, the giant arm of the beast descended from top to bottom, like a battle axe, slashing in the air on the raised arms of the black-robed man.

The arms were twisted and broken immediately, and the bones inside came out, followed by falling, hitting his forehead.

The forehead collapsed down, and there was blood mixed with white brains splashing out.

When Wang Xuan put away the "Ghost Car at Night" and everything around him returned to normal, the man in black robe had turned into a headless corpse and fell down.

A white light appeared and disappeared into his body. Wang Xuan did not let go of the storage belt this time. He stretched out his hand and pulled the storage belt off his waist. Shaking his body, he left here quickly.

Everything happened here so fast, a few people in the safe area saw it by accident, all of them opened their eyes wide, showing a shocking look, it was hard for them to believe what they saw.

The black-robed man, who is a big man whose strength and status in the five major cities are only below the five elders, was suddenly killed at this moment?

They looked at Wang Xuan with fear in their eyes.

Some of them did not know Wang Xuan, and there were people who had seen Wang Xuan and felt familiar.

It's just, whether they know it or not, they don't understand, how could Wang Xuan suddenly kill a black-robed man?

Wang Xuan ignored them at all. According to the tracking crystal, he caught the breath of the elder Xuancheng, whom he was most familiar with. He shook his body and left here without a sound, heading in the direction of the elder Xuancheng's breath.

It was not the direction of Xuancheng. Obviously, after Elder Xuancheng returned to the No. 9 safe area, he did not return to Xuancheng.

Leaving the No. 9 safe area and entering the forest, he soon saw a quaint town that was cleared out. When he saw the flag sign above it was "Phoenix", Wang Xuan understood that this was "Phoenix City".

"Looks like they fled back to safety and they went to Phoenix."

Wang Xuan thought about it and didn't stop. Even if all the elders and the black-robed people gathered together, he would still make a breakthrough.

Under the darkness of night, he rose into the air, jumped over the ten-meter-high city wall of "Phoenix City" in an instant, and fell into the city like a ghost, heading towards the building where Elder Xuancheng's breath was.

"Phoenix City" seemed relatively quiet at the moment. There were inspectors on the surrounding city walls. Wang Xuan suddenly jumped over the city wall, attracting their attention, and immediately someone shouted: "Who!"

The two inspectors jumped off the city wall, trying to chase Wang Xuan.

These two inspectors are just ordinary super powerhouses, how can they catch up with Wang Xuan's speed?

When they shouted to the ground, Wang Xuan was already 100 meters away. He could sense the aura of Elder Xuancheng by tracking the crystal. He was in the most magnificent building 100 meters ahead, where a lot of powerful auras gathered. , If nothing else, the elders of several cities and the people in black robes should have all gathered there.

"That's right, I'll save one by one." Wang Xuan showed a sneer on his face. He guessed that when these people returned to the No. 9 safe area, they should have gathered in Phoenix City immediately. A black-robed man was waiting for the Rakshasa King or other city lords to return at the glass column, and on the one hand, they gathered in Phoenix City to discuss the next countermeasures.

The shouts of the two inspectors came from afar in the night sky, and the gathered elders and the black-robed men all felt it. Two of the black-robed men flashed and came out of the building, wanting to see what happened.

For a while, they didn't expect Wang Xuan to catch up. In their opinion, no matter how daring Wang Xuan was, he would not dare to chase after him. After all, only two of the five major city lords died, and there were still King Rakshasa, City Lord Phoenix, and City Lord Wangcheng alive.

No one knows which city lords are in the five major cities now, and which ones are not. Under normal circumstances, most people would not dare to take this risk.

Almost as soon as they walked out of the building, they suddenly felt a flower in front of them, and everything around them became blurred.

Wang Xuan once again entered the "Ghost Car Night Walk".

If you want to kill these black-robed people who have reached the super-state limit level, you can only do it by entering the "Ghost Car Night Walk" or activating the mechanical arm.

The phantom of Mohu appeared, and the four jet-black wings stretched. The two men in black robes were all from "Phoenix City".

"Phoenix City" is powerful~www.mtnovel.com~ In addition to Elder Phoenix, there are six people in black robes whose strength has reached the limit of super state.

At this moment, the two men in black robes had just come out. They still didn't understand what was going on. Suddenly a flower appeared in front of them, and a giant arm of a beast appeared. They didn't even have time to even think of resisting.

With a "no" sound, one of the black-robed men took a blow to the head and immediately shattered, even spattering his brain.

The other man in black robe was shocked, he reacted and let out a violent roar. The first reaction was to activate the strongest force, put up an air shield, protect himself first, and at the same time stepped back, busy opening the storage belt, I want to take out the defense crystal.

Wang Xuan's strength is too terrifying, and can kill a dignified super-state limit with one blow, only the seventh-shaped powerhouse can do it.

In the eyes of the black-robed man, Wang Xuan was the seventh form of a terrifying powerhouse.

At the same time when he just used the air shield to protect himself, Wang Xuan's figure stretched, showing a large number of afterimages. These afterimages were like paper figures, overlapping one after another, forming a perfect half-arc, bypassing the air shield. , appeared on the side of the black-robed man, and when all the afterimages converged into one, Wang Xuan reappeared his true appearance, his fist appeared and hit the black-robed man's chest and abdomen firmly.

The terrifying power contained in it erupted, and the black-robed man didn't even have time to scream, his chest and abdomen exploded, and with a bang, his body exploded into two pieces and flew out.
