

Last Building on Earth Chapter 41-45

Chapter 41

Wang Xuan walked in the front, and Gu Manyao followed him. The surroundings seemed very quiet, except for the sound of the seven of them walking.

Walking forward for about ten minutes, there was no danger or anyone else on the way. Wang Xuan saw that the area marked on the load-bearing column on the left was still H, which meant that they were now trapped in H. Can't get out of the area.

Because there are only 88 parking spaces in the normal H area, the floor space is not large, it is not difficult to go out, and now the number of parking spaces in the H area he saw has exceeded 300.

Zhao Lei suddenly said: "Do you think the toad that we saw before is the monster leader of this district?"

Hearing this, Wang Xuan stopped, put the backpack in his left hand on the ground, and said, "If it is, then we are in trouble."

Zhao Lei interlaced: "Yes, if the rules we speculated before are correct, we must kill the monster leader of a district to leave this district, then if we want to leave the H district, we must kill the big toad."

Zhang Haofei looked surprised and said, "That big toad is so powerful that it can easily crush a car, it is more terrifying than all the monsters we have encountered before, trying to kill it... It's just a joke, as long as I think about it, I feel Sweaty palms, grandma, **** such a monster."

The terrifying nature of that giant toad was clearly seen by everyone before, and even Zhang Haofei's fearless personality felt guilty when he thought of it.

Thinking of the possibility of needing to kill it to get out of here, everyone's scalp was numb.

Gu Manyao said: "It's a pity that the toad appeared too early before, otherwise we can kill some more mantises and hope to hatch what is in the white ball in the right hand. If they can be as powerful as Wang Xuan's magical beast, then we will work together. There is hope."

Wang Xuan said: "The monsters we encounter now are more powerful than the other, and the giant toad is even more outrageous." Having said that, he raised his head and looked into the distance again, thinking that if the giant toad suddenly appeared at this time, That would be dangerous. Thinking of this, he felt a little uneasy in his heart, and the idea of wanting to become stronger in his heart became stronger.

He desperately hopes that the beasts can grow and evolve again and become stronger, so that maybe there is no need to be afraid of that giant toad.

Zhao Lei sighed and said, "What I'm most afraid of now is that we will be suddenly attacked by that toad."

Gu Manyao immediately said, "Zhao Lei, please don't crow your mouth any more?"

Zhao Lei touched the bridge of his nose embarrassingly. Now that he has no glasses to push, he touched the bridge of his nose instead.

Director Fatty suddenly said, "Everyone, is there a possibility... that the toad has no ill will towards us?"

"Huh?" Zhang Haofei turned his head to look at him and said, "Fatty, what nonsense are you talking about, monsters don't have any ill will towards us, do you still have good intentions to make friends with us?"

Director Fatty was slapped by him, his lips moved, and he couldn't speak any longer. Tie Jun, who had been silent, suddenly said, "I think Director Chen's words have some truth. At that time, the toad just attacked those gray praying mantises, and didn't show any signs of it. interest in us."

Zhang Haofei said, "Stupid, that's because we hid in the bathroom and it just couldn't get in."

Tie Jun said: "If it really has an idea for us, it can hide and attack when we come out."

Zhang Haofei was at a loss for words, then stared at Tie Jun twice before saying, "These monsters are all lunatics, who knows what they think, maybe they left when they were full, and will show up next time when they are hungry."

Zhao Lei was shocked and said: "This is very likely, then we really have to stay away from here as much as possible."

Wang Xuandao: "It's pointless to discuss this now. If this toad is really the leader of the monsters in this H area, and you have to kill it to leave, then... we can only find a way to kill it."

Speaking of which, his eyes gleamed with determination, he picked up the backpack on the ground with his left hand, and said, "Let's go, I hope we won't be so unlucky to encounter it now."

Gu Manyao said, "Wang Xuan, I don't think we can go any further."

Wang Xuan looked at her.

Gu Manyao explained: "Although I don't know how big this H area is, I feel that the possibility of running forward and encountering this toad is too great. We might as well go back and return to G area as much as possible."

Zhao Lei immediately understood what she meant and said, "What do you mean, let's find a way to find some not-so-powerful monsters first, and then we'll improve our strength, and then we'll find a way to deal with this toad."

Gu Manyao said with a sigh: "Yes, it is better to go back in this adventure, and hope to find some monsters that we can deal with. Everyone should improve their strength as much as possible, and then find a way to deal with them when they have enough confidence. The toad."

Wang Xuan thought that this H area could trap them, but he was afraid that the time and space would be chaotic. Even if he walked back, he might not be able to go back to the G area, but he did not object, but agreed with Gu Manyao's suggestion. Look, no one knows what's going on.

Afterwards, the seven people changed direction and walked back. After walking less than 100 meters, Wang Xuan stopped and stretched out his left hand~www.mtlnovel.com~ to stop everyone behind him.

He stared at a load-bearing column not far away, showing a vigilant look.

Gu Manyao, Zhao Lei, Zhang Haofei, Tie Jun and the others immediately tightened their muscles, ready to fight at any time.

The load-bearing column Wang Xuan was looking at had a crack on the surface, and a tree root appeared in the crack. From a distance, it looked like a strange snake had drilled out of it.

The seven people stopped in place and waited in full force.

"Could that be some kind of special monster?" Gu Manyao said softly, her original intention was to find some relatively weak monsters, hunt them to obtain white scales, and enhance their strength, but suddenly they emerged from a load-bearing column. The roots of the tree that came out were really weird, and everyone was a little uneasy.

Zhao Lei said: "We didn't see this root when we came here just now. It seems that the time and space here is really chaotic. Even if we continue to go back, I'm afraid we won't be able to return to Area G."

Wang Xuan said in a low voice, "The tree roots suddenly appeared here. It's a little weird. Let's change direction."

If a monster appeared, he would not be afraid, but this tree root that suddenly emerged from the load-bearing column made people feel very wrong. Although Wang Xuan didn't know if it was a real tree root, he felt a little bit in his heart. Uneasy, he immediately gave up and continued to move forward, but chose to turn back and leave quickly with everyone.

This time, after walking less than twenty meters, Wang Xuan stopped again because he noticed more roots.

Cracks also appeared on the surface of the two load-bearing columns that appeared in front of them, and two tree roots emerged from each of the cracks.

Everyone looked at each other in dismay.

"What's going on? There was nothing there just now, so why did it suddenly appear?" Although Zhang Haofei was bold, he was a little worried at the moment.

Chapter 42

Wang Xuan didn't say a word and changed his direction again.

This time, he chose to intersperse between the row of vehicles on the right, and the metal tentacles slowly extended from the skin of the right hand.

He knew in his heart that there was some terrible change around him, and danger could come at any time.

Everyone followed him closely, and they all felt that the atmosphere was not right, and they felt uneasy.

Gu Manyao, Zhao Lei, and Zhang Haofei showed solemn expressions on their faces.

Tie Jun was carrying a backpack and holding a curved blade. His muscles were tensed, and he was ready to fight at any time. He knew that Director Fatty and Xu Mengyun were too weak to adapt, so he took the initiative to lag behind them a little so that they would be relatively safe. Check back later.

He didn't carry the backpack in his hand like Wang Xuan did because he was at the back of the team. If he was attacked from behind, this backpack full of food might be able to defend himself against part of the attack.

Director Fatty gasped slightly, clenched the curved blade to protect his chest, and sweat appeared on his forehead.

Years of alcoholism and wealth have long hollowed out his body. Although he has now obtained a white scale, he cannot fully restore the vitality that has been lost over the years. It can be said that his current physical fitness is the weakest among the others, even Xu Mengyun is not as good as this one. After traveling for a while, he felt that his body was a little overwhelmed.

Xu Mengyun walked side by side with him, her eyes were full of fear and unwillingness.

She came from an ordinary working family and was not wealthy. She suffered so much and made so many sacrifices before. Now she has finally become a top-notch internet celebrity. She has not yet started to enjoy life, but she is trapped in this in a hellish world.

She was unwilling, unwilling to die here before enjoying it.

She still has so much money that she hasn't spent, but it's all her hard work and hard work.

"These are not true. There can't be monsters in this world, and there can't be such absurd things. Yes, I must be having a long, long dream. I am in a dream... This is a dream, It's all a dream..."

Xu Mengyun kept comforting herself in her heart, hoping that she would wake up suddenly from her dream, and when she opened her eyes, it turned out that she was lying on that luxurious big bed with her ragdoll beside her.

But the reality was that she never woke up from this dream. She could only be forced to follow everyone closely, carrying a heavy backpack and speeding up.

Wang Xuan, who took the lead, stopped again. A row of vehicles appeared in front of him. Many of the vehicles were pierced by tree roots. These tree roots extended from the windows, roofs and surroundings of these vehicles.

Just now, they changed several directions in succession, but no matter where they went, they saw more and more tree roots, and they seemed to be slowly surrounded by these tree roots.

"What are these things? Are they monsters or tree roots? Fucking beasts, they are staring at us? I can't take it anymore!" Zhang Haofei finally couldn't bear it anymore, his eyes were wide open, the muscles on his face twitched slightly, faintly showing a hideous look.

Zhao Lei said slowly: "It is said that they are monsters, but they don't attack us, and I don't see them moving. They say they are tree roots, but what tree roots can penetrate the load-bearing columns and these cars, and there are more and more. How did you do it? Wang Xuan, do you think we are hallucinating? Or are we dreaming?"

When Wang Xuan heard Zhao Lei say this, he glanced at him who was standing on his left, and suddenly his heart moved. He put down the backpack held in his left hand, grabbed the soft flesh around his waist, and turned it to the left.

He remembered reading a book before, which said that if you are in a dream, you will not feel pain, but if you are hallucinated, you can pinch yourself to produce severe pain, and use this pain to relieve the hallucination.

Zhao Lei suddenly let out a scream, which startled Gu Manyao, Zhang Haofei, and Tie Jun. They thought he had suffered some kind of attack, so they all jumped away immediately to distance themselves from Zhao Lei.

But looking at Zhao Lei again, I saw that he was clutching his right waist with a distorted expression, but he couldn't see any monsters.

"Wang Xuan, what are you doing?" Zhao Lei sucked in the cold air with a shocked and angry expression on his face.

Wang Xuan looked at him with a solemn expression and said solemnly: "You just mentioned hallucinations and dreams, I think it makes sense, so I pinched the meat and tried to see if I could feel the pain."

Zhao Lei said angrily, "Then you pinch yourself, why are you pinch me?"

"You can't be ruthless if you pinch yourself."

"Damn it!" Zhao Lei couldn't keep his usual polite appearance any longer, so he made a foul language.

Gu Manyao and Zhang Haofei looked at each other, and only then did they know why Zhao Lei suddenly screamed. It seemed that this kid Wang Xuan was ruthless.

This little episode eased the original tension slightly, and everyone was no longer as nervous as at the beginning.

Wang Xuan stretched out his hand and patted Zhao Lei's shoulder lightly, and said, "At least now we can be sure that everything we have seen is real, it will not be a dream or hallucination, since no matter which direction you choose, there will be more and more Roots, then there is no choice, let's go, let's go and see what these roots really look like."

"Yes, since we can't escape, then let's go up and do shit. Damn, I just don't believe it. We will be intimidated by these immobile roots." Zhang Haofei said fiercely, but The more vicious he is, the more it represents the guilty conscience deep in his heart, saying these cruel words just to strengthen himself.

Wang Xuan no longer evaded, he took the lead and walked forward. The metal tentacle on his right hand was like a flexible little snake. UU Reading www.uukanshu.com was swaying slightly. As long as the situation was not right, he could shoot it out in an instant. attack.

Everyone was on guard, followed Wang Xuan and moved forward slowly.

Soon Wang Xuan walked up to a car.

The car was pierced by seven or eight tree roots, and these tree roots extended from all around the car, looking unspeakably weird.

When they got close, everyone looked at them carefully. No matter how they looked at it, they were all ordinary tree roots, and they really didn't look like a monster at all.

"Would you like to cut one off and try to see what it is?" Zhang Haofei had some hands and couldn't help suggesting.

Zhao Lei immediately said: "It's best not to, although these tree roots appear strange, but now we have not been attacked, no matter what the nature of these tree roots is, without knowing the details, we better not take the initiative to provoke ."

Wang Xuan hummed, agreeing with Zhao Lei's opinion, and then carefully avoided the car in front of him.

"Everyone should try not to approach these roots as much as possible." Zhao Lei turned his head and reminded Xu Mengyun and the director Fatty behind him.

The Fat Director nodded nervously.

Wang Xuan walked around the car in front of him and found that behind the car, more tree roots appeared on the ground.

These tree roots can be long or short, thick or thin, like strange snakes burrowing out of the ground, but they have no ability to move, they just fall quietly on the ground, and at a glance, I don't know how many there are. root.

The crowd slowly moved forward, and more and more tree roots appeared around them. These tree roots either pierced through the giant load-bearing columns, hung down from above, or emerged from the ground. It's like walking into a world full of tree roots.

"My God—" Zhao Lei looked into the distance and suddenly let out a soft cry.

Chapter 43

At the end in front of them, a giant leaning tree appeared, penetrating the underground parking lot on the second negative floor from bottom to top. From a distance, it seemed that there was a **** leading to the upper floor in this parking lot.

There are a lot of branches on this slope-like tree pole, and these branches extend upwards in a criss-cross pattern, most of which penetrate the upper floor.

Around this giant tree, there are many vehicles piled up, and these vehicles are covered with tree roots of varying thickness.

It is impossible to describe the strangeness and shock of this scene. No one would have thought that such a huge tree would grow in the underground parking lot on the negative second floor, and even penetrated the floor between the negative second floor and the negative first floor of the parking lot. , can grow so huge, this tree is only a thousand years old.

Zhao Lei couldn't help but let out a soft cry, Wang Xuan and Gu Manyao all showed incredible expressions.

There is a giant tree growing here, and the large number of roots around it can also be explained.

"It's unbelievable. If I hadn't seen it with my own eyes, I wouldn't have believed it even if others said it was broken." Zhao Lei murmured, shaking his head slightly as he spoke.

Wang Xuan took a slow breath and said, "Too many incredible things have happened here, and it's not unusual to add a tree like this now."

Gu Manyao suddenly said: "This big tree runs through the floor above. We climbed up this big tree, did we just go out?"

As soon as he said this, Director Fatty immediately showed an excited look on his face. Even Xu Mengyun, who had been silent for a long time, couldn't help but take a step forward, her voice trembling slightly: "So, can we go out?"

She is so eager to get out of here, the sooner the better, she can't even stay in this hellish place for a moment.

Gu Manyao looked back at her, but didn't respond, she didn't like Xu Mengyun.

Zhao Lei replied, "According to common sense, Gu Manyao is right. We should be able to go up as long as we follow this tree, but this place is too evil, so it's hard to say what it actually is."

When Xu Mengyun heard this, her eyes showed deep disappointment.

"Whether you can go out, you'll know after a try." Zhang Haofei clenched the curved blade in his right hand and said, "Go, let's try it!"

He looked at the crowd while talking, and wanted to move forward, but found that neither Zhao Lei nor Gu Manyao moved, they were waiting for Wang Xuan's meaning.

"This tree is so weird that it may be dangerous. We approached it rashly, I'm afraid it's not right." Zhao Lei stared at the big tree in the distance and expressed his opinion.

Zhang Haofei was a little anxious, and said, "So what? Is there no danger if you stay here? You're so afraid that there will be a bird use for this? Why don't you just go up and do it."

Gu Manyao said, "Wang Xuan, what do you say?" She was also a little undecided.

Zhao Lei said: "Yes, Wang Xuan, do you have an idea, should you go up and have a look, or avoid it as much as possible?"

Wang Xuan stared at this ridiculously large tree in the distance. According to his visual estimation, the diameter of the tree's pole was at least seven or eight meters. He has been concentrating and carefully observing this large tree, hoping to see something.

Seeing everyone looking at him now, when he made up his mind, he opened his mouth and said, "This tree is too weird. If you can avoid it, it's best to avoid it. If you're afraid, you're afraid..."

Speaking of which, he took a deep breath and said, "I'm afraid I can't avoid it."

Hearing his words, everyone's heart sank. Thinking of this journey, no matter which direction they changed, they saw more and more tree roots. It seemed that there was some kind of power invisibly forcing them. Must see this big tree.

Now that they see the tree, can they still avoid it?

Zhang Haofei, who had always advocated going up the tree to take a look at it, heard Wang Xuan's words, but also showed a hint of hesitation, and said, "So you can be sure that there must be something wrong with the tree? Then let's look in another direction and see what the result is?"

Wang Xuan nodded and said, "Let's try another direction first. If we really don't have a choice, let's go to the tree and take a look."

After making the decision, everyone heaved a sigh of relief and stopped thinking about it. They immediately chose to walk in the opposite direction to this big tree.

This time, just after walking less than 100 meters, there was a sudden roar of cars in the distance. Following Wang Xuan, he saw dazzling lights at the end of the distance. An SUV appeared from a distance and was heading in their direction. Opened up.

The ground in front was full of tangled roots, and the SUV had to stop.

Everyone stopped and looked into the distance, only to see that the four doors of the SUV were all opened, and people came out one after another.

At this moment, a huge black shadow suddenly appeared from the rear of the SUV.

The black image suddenly appeared, rose from the back of the car, and then dropped heavily, pressing down on the SUV.

The sound of the window glass shattered, the SUV collapsed almost instantly, and there was a shrill scream in the car. In addition to the four people who had just got out of the car, there was another person sitting in the middle of the back row of the car. Flattened.

"Li Ying!"

Among the four people who got out of the car, a man let out a shrill scream, turned around abruptly, and rushed towards the huge black shadow that had just crushed the SUV.

Obviously, this man has a very deep relationship with Li Ying, who was crushed into meat sauce in the car~www.mtlnovel.com~ Suddenly seeing her crushed, he immediately went crazy and rushed forward desperately, thinking of killing Huge Shadow.

Wang Xuan, Zhao Lei and others in the distance were shocked when they saw all this.

The huge black shadow that suddenly appeared was the giant toad they had seen before.

No one would have thought that it would suddenly appear here.

How terrifying is this giant toad, it first squashed the SUV, then raised its forelimbs and patted it, the man who rushed towards it was like a piece of paper, and immediately rolled upside down and flew out. It exploded, and it exploded into a rain of blood.

Seeing this scene, Wang Xuan's eyelids twitched, he sucked in a breath of cold air, turned around without hesitation, and let out a low voice, "Let's go!"

This monster is too terrifying, terrifying beyond imagination, it is simply not something they can fight against now. Once they are caught up, they will all die.

Wang Xuan turned around and rushed out, followed by Zhao Lei, Gu Manyao, Zhang Haofei, Tie Jun and others running wildly.

The man who slapped the giant toad in the distance was slapped and slapped the sky into a rain of blood. The remaining three men were all dead, turning around and running towards Wang Xuan's group's escape. Everyone only hated their parents. I lost two legs.

In the face of such a monster, no one has the courage to stay and confront it head-on.

This giant toad's **** mouth opened wide, and its blood-red tongue shot out like an arrow.

The man who escaped the slowest only felt a chill on his back and felt something drenched on his face. Knowing that it was not good, he couldn't help shouting, "Brother Tian, save me!"

Brother Tian, who was the fastest of the three men, couldn't help but turn his head to look, only to see that the man was wrapped around his head by a blood-red tongue, and flew towards the giant toad's open mouth of blood.

Chapter 44

"Beast!"

Brother Tian has a very good relationship with this man. He is an iron buddy who can wear a pair of trousers. At this moment, he heard his best brother's scream for help, and he couldn't help it.

Letting out a violent roar, he turned his upper body and threw a steel pipe in his hand towards the giant toad.

He saw Wang Xuan's seven people fleeing in the distance, and he understood that as long as he caught up with these seven people, and then surpassed them, and let these people become food for giant toads, he would have a chance to survive.

This day, my brother is not weak, he is the most powerful among them. The steel pipe was thrown very accurately, and flew straight into the huge mouth of the giant toad, and swallowed it together with the man who was caught in it. go down.

Swallowing the steel pipe, the giant toad froze in place, his throat kept stirring, suddenly opened his mouth again, and spit out the man who had swallowed it along with the steel pipe.

It seemed to be provoked, raised its forelegs forward, and stepped on the man who was spit on the ground by it.

The man didn't even have time to let out a scream, his stomach burst with one foot, and then he pushed his limbs to the ground, and his body as big as a car rose into the air, hitting a large number of tree roots hanging from the top, and moving towards the fleeing Brother Tian and another man pressed him.

Some of the tree roots that were hit could not withstand this terrifying force, and broke apart, and red juice dripped from the crack.

This day, brother felt the cold wind blowing over his head, knowing that it was not good, he kicked his feet and rolled to the side with all his strength, narrowly avoiding, but the other man did not have his ability to react, and was immediately pinned down by the giant toad.

The man did not have any resistance, and was pressed into meat patties like paper paste. The giant toad did not immediately chase after Brother Tian who rolled to the side, but stretched out his tongue and licked the man who was pressed into meat patties.

Brother Tian escaped the catastrophe, covered in cold sweat, seized the opportunity of the giant toad to lick the meat pie on the ground, got up, and fled at full speed towards the distance.

His running speed is very fast, not slower than Zhang Haofei and Gu Manyao who are running with all their strength. It can be seen that the number of white scales he has will not be less than nine.

Wang Xuan, who fled in the distance, also opened the gap. Wang Xuan was the fastest, followed by Gu Manyao and Zhang Haofei, followed by Zhao Lei.

Director Fatty and Xu Mengyun fell to the back, and Tie Jun turned around anxiously as he ran. Fortunately, the giant toad was still dozens of meters away from them.

Brother Tian was gradually closing the distance between the Fatty Director who was at the back and Xu Mengyun. Suddenly, there was a "quack" from behind. He knew something was wrong, and when he looked back, sure enough, the giant toad pushed the ground. The meat patty on the top was licked clean, his limbs flicked, and the huge body slanted upward, breaking a lot of tree roots hanging down from above, and chasing him.

His running speed is not as fast as that of the giant toad. He wanted to support Wang Xuan and the others who were fleeing in front of him, but he was still 30 to 40 meters away from the fat director who was at the back and Xu Mengyun, and the giant toad would soon be catch up.

Seeing the giant toad rushing towards him again, Brother Tian felt anxious, knowing that it was too late, he gritted his teeth and changed direction, rushing towards the row of stacked vehicles on the left.

These vehicles were stacked together, and the surface was covered with various thick tree roots. He chose one of the gaps and drilled into it.

The giant toad changed direction and made a loud bang. It crashed like a bulldozer, and the piled up vehicles shook immediately. A large number of tree roots covered on the surface were broken, and red liquid flowed from the break, like the blood of these roots.

Brother Tian used these vehicles and tree roots to block its blow, and then drilled out from the gap on the other side. Suddenly, a flash of blood flashed, and the giant toad licked its blood-red tongue.

Brother Tian blocked the giant toad with the help of vehicles and tree roots, but these also affected his movement and dodge, and he didn't have time to dodge this blow.

At this moment, something popped up, and it turned out to be a thick tree root across the roof of the car.

The tip of the tree root split open, revealing two dense rows of tiny teeth, like a boa constrictor with an open mouth. A vertical eye was opened in the middle of the top, with a faint green light, which looked strange and inexplicable.

The thick tree root seemed to be disturbed suddenly, it transformed from a dead plant state into an animal, it fell off the root and turned into a strange one-eyed python with a length of four or five meters.

It shot up like a javelin, biting the blood-red tongue that the giant toad spit out.

It happened suddenly, let alone Brother Tian didn't expect it, stronger than the giant toad could not escape.

The blood-red tongue was suddenly bitten, and the giant toad screamed in pain. It didn't bother to attack Brother Tian, and waved its forelimbs to tear the one-eyed monster apart.

Around it, the originally motionless tree roots seemed to have opened their one-eyed lives because of its disturbance. They twisted their bodies like pythons, fell off their roots, and turned into one-eyed monsters of varying thickness and length. The python, or entanglement or bite, in the blink of an eye, the whole body of the giant toad is covered with this strange snake.

The change in this scene was too strange and terrifying. Brother Tian, who had escaped the catastrophe, was stunned when he saw it. He only recovered after the severe pain in his palm. His left palm was bitten by a one-eyed monster.

In his heart, he grabbed the one-eyed monster and pulled it. The one-eyed monster bit his left palm and the flesh of the belt, and the pain caused his face to twist.

The seven Wang Xuan who fled towards the distance, UU reading [www. uukanshu.com](http://www.uukanshu.com) also encountered the one-eyed monster at this time.

Around them, the roots of these trees, which were originally dead and still, have transformed and come to life.

As soon as they opened their one eye, they immediately twisted their bodies, fell off their roots, and turned into independent individuals that can move freely. , in the blink of an eye, seven or eight of these one-eyed strange pythons appeared around them, moving towards them.

Wang Xuan rushed the fastest, and he was confronted by a one-eyed monster that had transformed into a living creature. This one-eyed monster was more than four meters long, its head was raised above his shoulders, its pointed mouth was open, and it rushed towards his face. .

Wang Xuan didn't have time to think about it. With a wave of his right hand, the metal tentacle was pulled out.

With a crisp sound, the one-eyed python's head was shattered, blood splashed out, and a white scale appeared in it, which turned into a white light and sank into his right palm.

The demon beast in his right hand was not afraid, like a whale swallowing a dragon, sucking the white scale in, and there was a faint fluctuation.

It seems that the white scales of this one-eyed monster python are stronger than the scales of the gray insect before, and it can barely make the beasts wave.

There are thousands of tree roots in this area, and they are gradually transforming into one-eyed monsters.

Wang Xuanshun killed a one-eyed monster that came at him, and Gu Manyao, Zhang Haofei, Zhao Lei and others who followed him were attacked one after another, and the Fatty Director and Xu Mengyun, who were at the back, were no exception.

Gu Manyao and the others have gone through several fights. Although the changes in front of them shocked them, they all reacted quickly, and immediately slashed towards the one-eyed monster with a curved blade in their hands.

Blood splattered, and immediately several one-eyed monsters that rushed over were cut off from it.

Chapter 45

After this one-eyed monster is killed, it will turn into a tree root again.

This is a creature that can change form between animals and plants.

Director Fatty and Xu Mengyun didn't have the ability to adapt. They didn't understand what happened. Director Fatty suddenly felt a pain in his left leg. He looked down and saw a strange snake with a vertical eye biting his thigh.

He let out a scream, and rushed to pat with his hands, followed by severe pain in his left hand, and his left palm was also bitten.

Xu Mengyun's reaction was more sluggish than his. When she ran away, her legs tightened, and she was entangled by two one-eyed monsters. She fell and saw the two monsters crawling up her legs. Screaming incessantly, waving the curved sharp blade in his hand indiscriminately, hitting it straight, and cutting off the head of a one-eyed monster.

The one-eyed python's head was chopped off, and a white scale appeared immediately, which sank into her right hand.

She was still in shock, but she didn't calm down because she got the second scale. Her right hand was in severe pain and was bitten by another one-eyed monster. She instinctively let go of the pain, and the curved sharp blade in her hand fell off.

She wanted to tear the one-eyed monster that was biting her right hand away. With a flower in front of her, a one-eyed monster opened its mouth full of fine teeth, bit her cheeks, and bit off a piece of flesh and blood from her cheeks.

Her pretty face immediately became bloody.

She screamed in pain.

Zhao Lei had just killed a one-eyed monster when he heard Xu Mengyun scream, and turned around in a hurry. He saw Xu Mengyun lying on the ground with several one-eyed monsters crawling on his body. Cut out in succession.

This kind of curved blade is very sharp, and the few one-eyed monsters wrapped around Xu Mengyun's body were quickly killed by him.

"Get up quickly!" Zhao Lei released the food in his left hand while resisting the one-eyed monster rushing towards him, trying to pull Xu Mengyun up.

On the other side, Tie Jun beheaded a one-eyed monster that was rushing towards him. Seeing that Director Fatty was in danger, he walked around to him and killed the two one-eyed monsters that were biting on Director Fatty.

Every time you kill a one-eyed monster, you can harvest a white scale, and Tie Jun quickly harvested nine scales, forming a nine-petal flower in the palm of his right hand.

An endless stream of energy was released from the nine-petaled flower to the whole body, and the speed and strength were improving. With his original Sanda skills, the sharpness and power of the curved blade in his hand was no less than Zhao Lei's.

The seven or eight one-eyed monsters that woke up in the first wave were killed by them in the blink of an eye, but more one-eyed monsters followed. The number of one-eyed pythons has exceeded forty.

Not only that, these awakened one-eyed monsters are getting bigger and bigger. The bigger they are, the more aggressive they are, and the more terrifying their speed and strength are. Wang Xuan understands that if they don't have a way to break out of the siege, they will be in danger.

"Follow me!" He let out a loud shout, turned and ran back.

He chose to charge towards the direction of the giant toad behind him.

At this moment, there are countless tree roots in all directions, and more and more one-eyed monsters appear. No matter which direction you choose, you will face more and more terrifying one-eyed monsters. In the distance, there are even more terrifying one-eyed monsters awakening. , their chances of getting out are very slim.

Wang Xuan understood that their only hope was on the giant toad.

The strength of this giant toad is terrifying. At the moment, it is being besieged by a group of one-eyed strange pythons. It is covered with one-eyed strange pythons, but it doesn't seem to care. Like a strip, he stuffed it into his big mouth.

"With the help of this toad, there may be a chance of life."

Wang Xuan's thoughts turned, and the metal tentacles in his right hand slashed out. Every time he slashed out, he could accurately hit the head of a one-eyed monster. The power of this kind of metal

tentacles was terrifying, like a heavy steel whip. On the head, there is a faint sonic boom, which can directly smash the skull of the one-eyed monster.

He started getting the metal tentacles, and went through several life-and-death battles. It can be said that he has accumulated a lot of combat experience in the shortest time from a newcomer who didn't understand anything.

These experiences were not taught by others or learned from books, but were honed and comprehended by themselves in the battle of life and death. Perhaps many attacking postures are not beautiful, or even ugly, but they have the most lethal effect. Kill monsters in the shortest time without any bells and whistles.

He is now more and more familiar with the use of metal tentacles, and the accuracy is constantly improving. This one-eyed monster has a small head. Every time he swings out, no matter how the monsters dodge, he can accurately hit the target. Hit kill.

The number of one-eyed monster pythons he killed quickly exceeded ten, and he harvested more than ten white scales in a row.

Gu Manyao and Zhang Haoifei, who followed closely behind, did their best to resist the one-eyed monsters that were rushing towards them as much as possible. Although they did not kill as many one-eyed monsters as Wang Xuan, they killed at least five of them each. One-eyed python.

Absorbing the white scales of these one-eyed pythons~www.mtlnovel.com~ The life energy in the white ball in their right hand became stronger and stronger.

Zhang Haoifei's eyes gradually glowed with fiery heat. He had a feeling that the white ball in his right hand was about to hatch.

Like Wang Xuan, he will soon have his own hatchlings.

At the rear of the team, Zhao Lei was protecting Xu Mengyun, while Tie Jun was beside Director Fatty, pushing him to Wang Xuan's direction while fighting and fleeing.

Under the leadership of Wang Xuan, the seven people rushed to kill with all their might, smashed a **** path from the group of one-eyed monsters, and approached the giant toad.

The one-eyed pythons that appeared around were getting bigger and bigger. The largest one was over seven meters long. It was not only biting with its mouth, but also knew how to swipe its tail and beat it.

Stronger than Zhao Lei, he was pulled by its tail on the curved sharp blade in his hand, his palm became hot, and his right arm felt numb for a while, and the curved sharp blade almost flew out of his hand.

He was startled.

Among this group of one-eyed monsters, the number of giant monsters like this is increasing.

They are under increasing pressure.

Zhang Haofei and Gu Manyao's faces showed signs of difficulty, and their faces gradually became ugly.

In front of them, the giant toad was also besieged by the giant monster after swallowing an unknown number of one-eyed monsters.

Although this seven-to-eight-meter-long strange python couldn't really reach it, it also felt something was wrong. With its limbs propped up, its huge body jumped up like a mountain of meat, and was pressed against a pile of vehicles in front of it.

With a rattling sound, these vehicles were crushed to sag.

Further forward, it jumped more than ten meters away, and I don't know how many one-eyed monsters that rushed over. The giant toad finally had the idea of retreating and was ready to leave here.
