

Last Building on Earth Chapter 51-55

Chapter 51

But I saw that the tree roots and the corpse of the one-eyed monster were gone. It turned into an ordinary parking lot. There were many badly damaged vehicles parked on both sides. Only the fat director was beaten in two. The corpse lay there quietly.

The big tree, the roots, the corpses of the giant python and the one-eyed monster were all gone. What just happened seemed like a strange dream.

Sensing the beast in the right hand, it can be determined that it has evolved to the initial form of the second stage, which means that everything that has just happened is not a dream.

Everyone turned their heads and looked at each other in disbelief.

"Damn, what the **** happened here? We just fought to the death with those monsters, isn't it all fake?" Zhang Haofei showed a look of surprise on his face.

Gu Manyao raised the black machete in her hand and said, "Of course not. My Yaochi was just hatched. Now that the Yaochi knife is still in my hand, how could it be fake."

"Yaochi? Yaochi knife..." Zhao Lei looked at the black machete in Gu Manyao's hand, thinking how sharp this knife could cut the python's head, he couldn't help but envy, looked at Zhang Haofei and said, "Your bone claws. What is it?"

Zhang Haofei said: "I finally know now that each of us hatches different things. Wang Xuan's is a monster, Gu Manyao's is a monster, and mine is a skeleton."

Brother Tian nodded secretly, realizing that he had guessed correctly before. After obtaining nine white scales in his right hand, he could slowly form a white sphere. This white sphere reached a certain limit and could be hatched.

Gu Manyao looked at Wang Xuan and said, "Wang Xuan, have your beasts evolved?"

Wang Xuan finally fused with the metal tentacles, and punched the giant python's head with one punch. The scene shocked everyone. Hearing Gu Manyao's question, they immediately turned to Wang Xuan.

Wang Xuan said: "Yes, the current form is called Chu Kai."

Gu Manyao snorted and said, "As expected, it seems that the first form that has just hatched is called the rudimentary form, and the second form that grows later is called the first form. I guess there should be a third or even a fourth form."

Everyone remembered the prototype and the first revelation in their hearts, and looked at Wang Xuan with envy in their eyes.

Zhao Lei and the others haven't even succeeded in hatching, and Wang Xuan's Warcraft has already reached the second initial form, which makes them a little disappointed.

"By the way, what's your boy's name?" Zhang Haofei looked at Brother Tian with a stingy look and asked.

Brother Tian was very humble, and was busy saying politely: "My name is Li Haotian, brothers and sisters, thank you for your help just now, but I still don't know your names."

Zhao Lei said everyone's names, Xu Mengyun kept staring at the **** not far away, her lips moved slightly, she tried to speak a few times, but she endured it. He opened his mouth and said, "Aren't we... going up?" As he said that, he pointed at the oncoming **** passage.

Zhao Lei replied: "Of course I have to go up, but... I'm afraid that after going up, what I will see is not the exit, but other more terrifying monsters... I have been disappointed too many times along the way. I hope this time is the real way out."

In the battle just now, although the one-eyed monster was defeated, everyone was exhausted and had lingering fears. Looking at the **** leading to the top for a while, they didn't dare to go up easily.

Gu Manyao took a deep breath, put away the Yaochi knife in her hand, and said, "Let's go, whether this is the real exit or not, we have to go and see it, it's not the way to stay here forever."

Zhang Haofei was still muttering: "Don't you all wonder what happened to this big tree just now? Why did those tree roots and monster corpses disappear all of a sudden? Is this **** real or fake? , or half-truth? Lao Tzu is really confused."

Although he was chatting with everyone just now, he has been thinking about the big tree and these roots. The more he thinks about it, the more weird he feels, and he can't understand it.

Zhao Lei said: "Of course what happened just now is true, but... the big tree is a little hard to tell. It looks fake and not real, but I always feel that the big tree is a little weird."

Wang Xuan had a contemplative look on his face and said, "Yes, at that time the giant toad was about to approach the big tree, and the five giant pythons suddenly appeared, as if they were guarding something, and now not only the big tree has disappeared, but also these tree roots and The corpses of the pythons have disappeared together. From this, it can be seen that the appearance of these giant python monsters must be related to the big tree. It is even possible that these pythons are part of it. It can turn tree roots from plants into animals. Turning into a python can also make the python and tree roots disappear from this space completely, as if they never existed."

Gu Manyao opened her eyes wide and said in surprise, "Wang Xuan, you think a tree has such abilities, so is it still a tree?"

Wang Xuan raised his eyes slightly, narrowed his eyes, looked at the oncoming **** passage, and said, "Maybe we are trapped in the parking lot because of this tree. If this is the case, then it also has the ability to confuse time and space."

Everyone sucked in a breath of cold air, feeling the cold all over their bodies. UU reading www.uukanshu.com

Zhao Lei murmured, "What kind of existence is this tree..."

Wang Xuandao: "Of course, this is just my guess. No one can tell what it really is."

As he spoke, he turned back and found the backpack of food that had been discarded on the ground.

When they were fighting just now, everyone threw their backpacks on the ground. Now those monsters and tree roots disappeared. The backpacks and food on the ground were still there, and everyone returned to find the backpacks and put them on again.

Director Fatty died, Tie Jun silently watched his round eyes staring blankly, with a gloomy expression on his face, he stretched out his hand to close his eyes.

After that, he smashed the window glass of a car, opened the car, carried the body of the fat director, which had been broken in two, into the car, and then locked the door.

Everyone watched quietly, and they all saw that Tie Jun had a deep affection for Director Fatty. Although locking his body in the car might not prevent him from being eaten by monsters, it was better than nothing.

Xu Mengyun's expression was a little sullen. Nine of them entered the parking lot, but within a day, now only she and Tie Jun were left dead.

It's not that she is not sad, but that her tense spirit is close to the brink of collapse, and that's why she shows a blank expression.

Zhao Lei glanced at her, and there was a hint of worry in his eyes. He understood that if he wanted to survive in this parking lot, he had to have a strong enough mental quality. If he was too weak, he might be eliminated at any time. Xu Mengyun's performance was very dangerous. .

After Tie Jun was busy with everything, he picked up the backpack belonging to Director Fatty, and carried it along with his own backpack.

Only Li Haotian did not have a backpack, but instead of helping Tie Jun who carried two backpacks, he ran to Wang Xuan's side and was very attentive to help him carry the backpack.

Chapter 52

Wang Xuan glanced at him, and Li Haotian hurriedly said: "Wang Xuan, you are the most powerful among us now. If you encounter danger, you will mainly rely on you. Carrying a backpack in your left hand will affect the speed. I will help you."

As he spoke, he took the backpack from Wang Xuan's hand. Wang Xuan was not polite. He was really tired after the battle just now.

This exhaustion is both physical and mental.

Li Haotian held his backpack and followed Wang Xuan like a valet.

In his previous team, Li Haotian was the leader of the team, and those few people looked at his face and listened to his arrangements.

But now that he is in the new team of Wang Xuan, he quickly adapts to his new identity. He understands that he has just joined this team, and he is equal to a newcomer. harm.

He wanted Wang Xuan's protection.

As long as Wang Xuannian thought of his benefits at a critical moment and stepped in to help, he might be able to save his life.

It's a matter of life and death, so what is a little diligence?

Zhang Haofei watched Li Haotian flatter Wang Xuan with disdain in his heart. He snorted slightly in his nostrils, but he didn't show it. When it was another person, he laughed loudly.

Although he is short-tempered and his mouth is open, he is actually not stupid. He knows who can be bullied at will, and who is best not to provoke.

He had just hatched a skeleton. He originally thought that he could raise his eyebrows, and he would never have to look at Wang Xuan's face again, but he didn't want Wang Xuan to be more ruthless. He had already evolved the Warcraft to the second initial form, and he didn't know how much his strength had improved. The python's head was pierced, which made his scalp numb, and he dared to provoke it casually.

"It's a pity that this kid Wang Xuan took the lead again. My skeleton has just hatched successfully. If I want to grow into the initial stage like his monster, I'm afraid I still need a lot of scales. I have to find a way to kill a few powerful monsters. Catch up with him."

Zhang Haofei thought silently in his heart, and slowly clenched his right hand. He liked the feeling of being held by others and wanted to be the leader of the team.

"Let's go." Wang Xuan glanced at everyone, turned and headed towards the **** not far away.

This is a lane that can accommodate two vehicles to pass each other, and everyone follows this lane up.

Director Fatty died, but there was another Li Haotian in the team. It was still a team of seven people. Wang Xuan was at the forefront. Although he didn't show any metal tentacles, he was always vigilant.

His magical beast has evolved into the second initial form, and his eyesight and hearing have been improved again. While looking forward, he carefully listens to all kinds of movements around him.

Li Haotian helped him carry the backpack, with a curved blade in his right hand, and followed behind him.

This time, Gu Manyao took the initiative to fall to the back of the team. Now, among the crowd, only she, Wang Xuan, and Zhang Haofei have successfully hatched. Except for them, she is the strongest, so she decided to end the fight.

Zhang Haofei saw that she was behind, and he fell behind the team intentionally or unintentionally, but Gu Manyao didn't pay much attention to him, and just watched around very seriously from time to time to prevent the sudden attack of monsters from behind.

Xu Mengyun walked in the middle of the team. She was the most nervous among the crowd. She was eager to get out of this aisle to get out of this **** parking lot. She couldn't imagine what she would do if this was not the way out.

"Li Haotian, how did you get in here?" On the way, Zhang Haofei was bored. Seeing Li Haotian following behind Wang Xuan like a pug, he was a little upset and suddenly asked.

Although Zhang Haofei's tone was not polite to himself, Li Haotian didn't show any anger, and immediately replied: "My girlfriend's birthday is going to be soon, I brought her here to buy jewelry, and one of my friends came with me at that time. Brother, there are three of us, and when we got out of the car, we found that something was wrong and we couldn't find a way out."

Zhang Haofei said, "No, I remember when your kid just drove over, there were more than three people in the car."

Li Haotian said: "There are three others who came across them later."

Zhao Lei remembered something and asked, "Li Haotian, your girlfriend's name is Li Ying?" He had some impressions. It seemed that when Li Haotian's car was crushed by a giant toad, someone was calling Li Ying's name.

Li Haotian said: "No, that Li Ying is someone else's wife. I met a couple later. My girlfriend...she died at the beginning."

When he talked about the death of his girlfriend, his expression was a little dull, as if he was talking about an irrelevant outsider, and he didn't see any emotional fluctuations.

Zhao Lei snorted, and Zhang Haofei said, "You don't have a good relationship with your girlfriend, I don't see any sadness in you."

Li Haotian said lightly, "It's all my fault for what kind of jewelry this woman wants, otherwise I wouldn't be here, and I wouldn't be trapped. Maybe I'll die sometime next. Do I still need to feel sorry for her?"

Wang Xuan couldn't help but glance back at him, but found that Li Haotian's eyes were slightly red. It seemed that the real thoughts in his heart were not as calm as he was now.

Zhang Haofei couldn't see the expression on Li Haotian's face. Hearing what he said, he said with some contempt, "You are so **** ruthless, anyway, it's your girlfriend. You still talk about her like that when everyone is dead. It's really your girlfriend. Eight lifetimes of bad luck."

Gu Manyao also looked at Li Haotian's back with a hint of dissatisfaction.

Li Haotian's mouth moved slightly, like a silent smile, but did not respond.

After that, no one spoke any more, and the surroundings became quiet, except for the footsteps of everyone walking.

The seven people walked up the ramp and walked out in about half a circle. They saw the load-bearing columns on both sides and a row of parked vehicles~www.mtlnovel.com~ Wang Xuan looked at the wall and immediately stopped. Saw the word negative layer.

From this **** passage, they came to the parking lot on the negative first floor from the second floor.

Everyone sees it, both disappointed and excited.

The disappointment is that this is not the real exit from the parking lot. They just came from the negative second floor parking lot to the negative first floor. The excitement is that at least the time and space here is not disordered. Since they can go from the negative second floor to the negative first floor, it is also It means that they have the hope to go up from the negative floor to the higher floor and find the exit that really leaves the parking lot of Longmao Plaza.

"This is the D area on the negative floor. There are four areas ABCD on the negative floor. Since we can come to this negative floor, as long as we find the exit here, we can really leave." Zhao Lei saw Xu Mengyun's face beside him with an ugly face. Like a dead man, he said it at once with a look full of excitement and excitement.

Sure enough, after hearing Zhao Lei's words, Xu Mengyun's face softened a little. She felt that what Zhao Lei said made sense. Since it was possible to go from the second floor to the negative first floor, if there was an upward exit from the negative first floor, then it would be true. able to leave.

This gave her a glimmer of hope.

"What is this?" Zhang Haofei suddenly walked to the right with a hint of curiosity.

On the right hand side of the exit of this passage, there is a huge container against the wall. The front of the container is glass, and there are things in it. It looks like a self-service vending machine, but it is much larger than the average vending machine.

Everyone noticed it and walked over.

This vending machine is divided into six layers from top to bottom, and items are placed inside. Through the glass, Wang Xuan can see that the top layer is all helmets.

These helmets look like they are made of cattle leather, and the workmanship is relatively rough and simple.

Chapter 53

The second layer is placed on the upper body leather armor, which is made of leather like the helmet.

The third layer is the leather knee pads worn by the lower body, the fourth layer is the leather handguards, and the fifth layer is the leather grip boots.

These five pieces together are exactly a set of full-body protective gear.

As for the last layer below, it is empty and has nothing.

The crowd gathered in front of the vending machine, looking from the top to the bottom, and then to the top from the bottom, showing a hint of surprise and curiosity.

Zhang Haofei murmured, "Grandma's, is this someone who sells protective gear? These leather armors don't look very well made."

As he spoke, he showed his skeleton hands, and prepared to shatter the glass in front of him and took out these helmets and leather armor. Although he disliked the rough workmanship of these leather armors, they were much stronger than the clothes he was wearing now.

They have been fighting all the way to the present, and I don't know how many times they have been injured. Although the injuries can be recovered, the damaged clothes cannot be recovered automatically. The clothes that everyone is wearing now are all tattered *** used by beggars on the street. better than.

Wang Xuan looked to the right of the vending machine. There was a line of small characters on it, which introduced the process of buying these helmet leather armors. They are similar to ordinary self-service vending machines. The only difference is that ordinary vending machines need to put coins, and here you need to put in crystal scales. .

Each crystal scale can buy one item.

"Crystal scale..." Wang Xuan's heart moved, and he immediately thought of a crystal scale he had obtained by killing the giant lizard earlier.

He had been wondering the purpose of this crystal scale before, but now he finally knew that this crystal scale could be used to buy helmet leather armor in this self-service vending machine.

"I didn't expect that there would be such an instrument. You can buy the contents through the crystal scales..." Wang Xuan was a little surprised. He thought of the giant toad before, and the sarcomas all over his body had a faint crystal luster, and it seemed that every sarcoma was filled with There is a crystal scale hidden, if you kill it, how many crystal scales will you get?

It's a pity that this giant toad is too strong, and now it has disappeared.

Zhang Haofei's skeleton hand overlapped with his right hand, clenched into a fist, and punched the glass head-on.

There was a loud bang, and the glass in front of him received his punch without moving at all. He was bounced back by an invisible force, which made his bone fist squeak and almost dissipate.

"What the **** is this glass? Why is it so weird?" Zhang Haofei cried out, not convinced, he took a deep breath, hesitantly, and punched him hard again.

This time, he chose a corner of the glass. He remembered that generally tempered glass needs to be hit on the corner of the glass to be easily broken.

He used enough strength for this punch, and with a bang, his fist hit the glass. The vending machine and the glass didn't move at all, and his bone fist was directly shaken to pieces.

He let out a strange scream, and his body swayed and fell back. The scattered white bone fist slowly disappeared into the air. Everyone saw that his right hand was cracked, and blood was flowing out.

The anti-shock force of this machine is so powerful that everyone's face changed when they saw it.

Gu Manyao stretched out her right hand, and a black demon chi knife appeared from it. She held the handle of the knife and said, "I'll try it."

Wang Xuan understood Zhang Haofei's situation. This kind of machine is about the same as the elevator he encountered before. What they can destroy now, no matter how sharp Gu Manyao's Yaochi knife is, it shouldn't be able to cut it.

Sure enough, Gu Manyao's demon chi knife, which is enough to sever the hard head of a giant python, can be called a real slashing iron like mud.

After trying it once, Gu Manyao shook her head and realized that she couldn't do it. She looked at Wang Xuan and said, "Wang Xuan, do you want to try it with your demon beast?"

She thought that Wang Xuan had blown the giant python's head with a punch before, and the power was very violent. She wondered if she could destroy this vending machine with violence.

Seeing that everyone was looking at him with anticipation, Wang Xuan nodded. He was also a little curious about the true power of his Demonic Arm.

The mind moved slightly, the beast activated, and immediately there was a metal tentacle on his right hand extending from it, following his right hand and wrist all the way up, quickly wrapping one of his right arms completely.

The second ability of the Demonic Beast, "the arm of the Beast", was activated. The metal tentacles wrapped around his right arm merged with his flesh and blood, turning into a half-flesh, half-metallic giant arm.

With the five fingers that had also grown thick, Wang Xuan could only feel the surging energy in his right arm, and a violent force burst out.

Taking a step forward, with a bang, the arm of the beast left an afterimage in the air. In the eyes of everyone, it seemed that the arm suddenly disappeared from his shoulder. There was a loud noise, and

the eardrums of everyone standing around shook. Xu Mengyun's face showed a painful look, and she hurriedly covered her ears.

The loud sound of this blow made everyone's face change. Wang Xuan suddenly groaned, and his body swayed and fell back a step. There were small cracks, the vending machine was intact, and all the power that erupted from it was bounced back. Even this metalized flesh and blood couldn't withstand the explosion of this power. UU Reading www.uukanshu.com

Wang Xuan looked at it, and was secretly horrified, knowing that this kind of vending machine could not be destroyed by violence at all.

He retracted the arm of the beast, and his right hand, which had returned to normal, showed a small wound, which was slowly oozing blood. The special ability in his body was activated.

Zhang Haofei saw that Wang Xuan's arm of monsters couldn't break the vending machine, so he felt a little more balanced, and said, "This machine is a little perverted, grandma, this is because we are afraid that we will break it, it seems that we can't imagine what is inside. Helmet leather armor."

Wang Xuan took out the crystal scale he had obtained before, and put it into a slot on the right side of the vending machine according to the instructions above.

As the crystal scales fell into the slot, there was only a ding sound, and a screen appeared above the slot, with five choices of helmet, leather armor, knee pads, gauntlets, and boots.

Wang Xuan saw that his body was about to become a piece of cloth-like shirt, so he chose the leather armor.

He clicked on the leather armor option on the screen, and dense small characters appeared on the screen immediately, but it was an introduction to this leather armor.

"Name: Inferior leather armor, the main material is yellow rhinoceros skin, with inferior nano crystals added, which can activate nano crystals through blood, have a certain defensive effect, can resist ordinary swords and stabs, inferior nano crystals have primary automatic repair function, damaged It can be repaired automatically if the area does not exceed one-third of the leather armor, and the purchase price: a crystal scale."

Below are the two options to buy and to give up.

Wang Xuan became interested when he saw the introduction about inferior leather armor.

This seemingly ordinary leather armor is actually an ultrahigh-tech product, and the inferior nano crystals added inside can also have an automatic repair function.

Chapter 54

Out of curiosity, Wang Xuan chose to give up, and then clicked on the helmet to view the introduction. The content was similar to the inferior leather armor.

"Inferior helmet, inferior leather armor, inferior knee pads..."

Wang Xuan looked at all five, and they were all inferior. Gu Manyao, who was on the side, squeezed beside him, also looked at these introductions, showing a surprised look, and said, "This helmet leather armor can really repair itself? That is also Amazing."

Wang Xuan said: "I don't know, just try it and know." While talking, he chose to buy the inferior leather armor.

As he confirmed, there was a slight noise from the vending machine, and a piece of leather armor fell into the empty glass cabinet at the bottom, and then the glass rose automatically.

He reached out and took out the leather armor, and found that the leather armor looked rough in workmanship, but it had a lot of weight and looked solid.

"You need to activate the nanocrystals inside with fresh blood..." Wang Xuan thought for a while, it seemed a bit like recognizing the master by a drop of blood. It happened that he had just punched the glass, injured his right hand, and there was still some blood on the back of his hand. The blood rubbed on the leather armor.

As the blood came into contact with the leather armor, Wang Xuan saw that the blood penetrated at a speed visible to the naked eye, and there was a slight vibration in the leather armor, which automatically opened from both sides.

Seeing that the leather armor was opened, he slipped it through his head and put it on his body.

As soon as he put it on, he found that the leather armor was a size larger, and it was a little awkward to wear it on his body. Wang Xuan just frowned, and immediately noticed that the leather armor was vibrating slightly, and it slowly contracted.

It quickly fitted his figure perfectly, neither big nor small.

"It can automatically change the size according to the body, what kind of technology is this." Wang Xuan touched the leather armor and understood that this might also be the effect of the nano crystals there. Now he believes it without trying it. This leather armor should be real Has self-healing capabilities.

Of course, this repair function has a limit, and the damaged area cannot exceed one-third of the leather armor.

Zhang Haofei was amazed and said, "I don't know who made this leather armor. Is there such a technology now, or is it that we are no longer on the earth."

Witnessing the magic of this leather armor, everyone became more curious about this underground parking lot, and also had more awe and fear.

This is a sense of fear of the unknown.

An inferior leather armor is already so incredible, so what if it is not an inferior leather armor?

What kind of technology made this vending machine and these helmet leather armors, and what kind of advanced civilization was able to do all this.

Zhao Lei glanced at Xu Mengyun beside him, thinking that she was too eager to leave, but seeing what was in front of him, he doubted that even if they walked out from the ground floor, they might not be able to return to the earth they were familiar with. But she didn't dare to say it in front of Xu Mengyun, otherwise she was afraid that she would really collapse.

"It's getting a lot darker. It should be night outside now, right?" Gu Manyao looked around and found that it was getting darker and darker, and the range of vision she could see was shrinking.

Zhao Lei hummed: "I guess it's almost night time."

Everyone's mobile phone was lost or automatically shut down when there was no electricity. They didn't wear a watch, so they couldn't know the specific time. They could only guess the approximate time based on the changes in the surrounding light.

Zhang Haofei said, "Everyone, should we rest in place or look around here?" As he spoke, he looked at Wang Xuan and Gu Manyao, the only two people in the team who could catch his eye.

Gu Manyao looked at Wang Xuan and said, "Wang Xuan, what do you think?"

Wang Xuandao: "I believe everyone is hungry. Let's find a place to rest here and have something to eat. We'll talk about the next step when everyone has enough energy."

After his Warcraft has evolved to the second-order initial state, the energy it needs is getting bigger and bigger. Until now, he has felt hungry and thirsty. Even if Gu Manyao didn't ask him what he meant, he decided to take a good rest here. Yes, eat something to replenish your energy.

Gu Manyao hummed and said, "Then let's listen to Wang Xuan and rest on the spot."

Everyone went through the previous battle, and now they are tired and hungry, but no one asked to take a rest, and they were all holding on. Now they heard Wang Xuan's words, and they all agreed.

The food was put down on the spot, and Zhao Lei and Gu Manyao were responsible for distributing the food. Each person had one serving. The food was limited, and everyone did not know what the next situation would be.

After dividing the food, Zhang Haofei took his share and walked towards an SUV on the way.

"Everyone get in the car and rest." Wang Xuan walked to another off-road vehicle. This car has a lot of space. With the rear seats down, you can lie down and rest in it, which will make people feel much more comfortable.

For the sake of safety, everyone tried their best to take a break in two cars. Zhao Lei followed Wang Xuan in a car, Gu Manyao and Xu Mengyun in a car, Li Haotian and Tie Jun in a car, Zhang Haofei because of his unpleasant personality, and everyone was reluctant to go with him. The car, but he was alone in the car, he was upset, and he put on an indifferent look on his face.

Wang Xuan finished eating, drank another bottle of mineral water, and was about to lie down to rest when Tie Jun got out of the car and came to his car with a hesitant look on his face.

"What's wrong?" Wang Xuan felt like something was wrong with him.

Tie Jun hesitated before saying, "Wang Xuan, I want to ask you for something."

Wang Xuan said, "Brother Tie, if you have anything to say, it's fine."

He has a very good impression of Tie Jun. I saw that he was affectionate and righteous to the Fatty Director, and even wanted to protect the Fatty Director even when he was in danger. He was stronger than many people in this regard.

Such a person Wang Xuan is willing to make friends with. Once a friendship is established, this is a truly trustworthy partner.

Hearing Wang Xuan calling him Brother Tie, Tie Jun was stunned and shook his head: "You can just call me Tie Jun, I want to ask you about it... I hope you can help me remember a mobile number, this is my wife's mobile number. , if you go out, call this number and contact my wife."

Zhao Lei, who was sitting next to Wang Xuan, also finished his food~www.mtlnovel.com~ Hearing this, he was a little surprised: "Did you tell Wang Xuan your wife's mobile phone number?"

He didn't react for a while, but Wang Xuan suddenly understood and said, "Brother Tie, stop thinking about it, if I can go out, you can definitely go out, and we will all go out."

Tie Jun smiled lightly, but the smile was a little helpless and a little desolate, and he lowered his voice: "Let's not deceive ourselves, although we have come from the second floor to the first floor, we seem to see hope, and we are not far away from going out. , but I have a feeling that the monsters we encounter next will be more and more terrifying, and our hope of surviving is slim."

He paused for a moment before continuing: "Who among us has the most hope of going out, Wang Xuan, only you, so I hope... you can do me a favor, if I die, you can go out, Remember to call my wife and tell her that I have deposits in several banks, and the deposit slips are placed under the bottom drawer on the left side of the wardrobe in our room, and the drawer must be taken out to see..."

"Although the money is not much, if you live frugally, it will be enough for her and her daughter to last for a while... By the way, she is still young, if she wants to remarry, she will remarry, but she must take good care of our daughter... Wang Xuan , if you can see my daughter, tell her for me that my father will always love her."

Tie Jun said this, his eyes were red, and Wang Xuan seemed to have tears flashing inside. He didn't expect this man with tough face and dark skin like iron bumps, when he talked about his wife and daughter, It will look like this.

Zhao Lei also understood what Tie Jun meant, and his face became a little sad because of his emotions: "Brother Tie, don't be discouraged, we will be fine, you can see that I am not stronger than you, I am full of confidence, what are you afraid of? "

Chapter 55

Tie Jun shook his head and said, "We walked all the way here, and the monsters we encountered were stronger each time. This time we came to this negative first floor from the second floor. I'm afraid..."

He didn't say what he said next, but Wang Xuan also understood that he was afraid that he would encounter more terrifying monsters next, and who would die in the next battle?

Thinking of those monsters that are more terrifying than the next, let alone Tie Jun's lack of confidence, even if Wang Xuan himself, ask himself, and have absolute confidence that he will definitely live?

For a while, Wang Xuan didn't know how to comfort Tie Jun.

Zhao Lei suddenly said: "You are right. The monsters we encounter are indeed more powerful the further we go, and the risks for everyone are also great. I have a suggestion. If it is feasible, it feels safer."

"What advice?" Wang Xuan looked at him.

Zhao Lei said: "Brother Tie is afraid that we will encounter more dangerous monsters in the D area of the negative first floor next, and everyone will encounter great danger. I think this makes sense. In this case, why don't we return to the negative second floor? Find some monsters that are not too powerful, let everyone get hatching beasts as much as possible, and even evolve hatching beasts to the initial state like Wang Xuan, so that the overall strength of all of us will be enhanced. Is it safer?"

Hearing Zhao Lei's words, Tie Jun's eyes lit up slightly. He felt that this method was feasible. Compared with entering this negative first floor, returning to the second negative floor was much safer.

"Not only that, we should also spend some time practicing how to cooperate with each other, such as how to deal with the siege of a group of monsters, and how to join forces when we encounter powerful monsters, so as to achieve the effect of one plus one greater than two. "

"Now this is the negative first floor area D. According to the previous negative second floor rules, we have to go through four areas to find the exit from this negative first floor. We don't know how many battles we will have to go through. If we can learn to each other By working together to form a strong team, everyone's chances of survival will be greatly improved."

Zhao Lei talked eloquently, and Wang Xuan nodded slightly, feeling that his suggestions were all very good.

"This proposal is very good, Brother Tie, I see that you have fought against those monsters before, and the movements look like you have practiced, which is a little different from those of us who are reckless purely by strength. If you have practiced, you can be responsible for training us. ."

Tie Jun knew that everyone's safety was at stake, so he nodded and said, "Yes, I have practiced Sanda for many years, and have also dabbled in various martial arts and boxing. Of course, I can't compare to those national-level professional Sanda athletes. Really want to train with each other, and I should be able to help with that."

Wang Xuan said: "Then it's settled, it's not too late, we'll start right away."

As he spoke, he opened the car door and jumped down first.

Zhao Lei said, "Don't take a break before starting again?" He felt a little tired.

Wang Xuan looked back at him and said, "In such a place, danger may come at any time. Could it be that the monster will wait for us to rest and everything is ready before appearing?"

Seeing Wang Xuan say this, Zhao Lei immediately closed his mouth, opened the door and got out of the car.

"Everyone, come here, I have something to say."

Wang Xuan raised his voice slightly.

Hearing his voice, Li Haotian hurriedly got up from the car, followed by Gu Manyao and got out of the car. Zhang Haofei on the other side, although a hint of reluctance flashed on his face, still got out of the car diligently.

The last person to get off was Xu Mengyun.

Seeing everyone gathered, Wang Xuan repeated the suggestion that Zhao Lei just made, and said, "I think Zhao Lei's suggestion is very good. There are four areas on the negative floor. It may not be so simple for us to go out. In addition, we may encounter more and more powerful monsters. In order to improve everyone's chances of survival, we need to improve our strength as much as possible, and we must learn to cooperate, and we can no longer fight each other as we did before."

Everyone listened quietly, and when Wang Xuan finished speaking, Li Haotian immediately responded: "Yes, it should have been this way, I support it."

Gu Manyao said: "It's easy to go back to the second floor. It's just about cooperation. How should we cooperate?"

Wang Xuandao: "Brother Tie has practiced Sanda for many years, and is proficient in many martial arts. He is professional in fighting. How to cooperate with our team will be trained by Brother Tie."

Seeing that everyone was looking at him, Tie Jun didn't show any humility. He said solemnly, "If everyone is willing, I can share my opinion. Teaching doesn't count, it can only be said that it is to communicate with everyone."

Zhang Haofei yawned, and said lazily, "What sanda or fighting is useless here. How to find a way to hatch early and let the hatching beast evolve to a higher form is the most important thing."

Wang Xuan frowned slightly when he saw Zhang Haofei sing the opposite tone: "Zhang Haofei, if you don't want us, we won't force it, then let's practice if we are willing."

Hearing the displeasure in Wang Xuan's tone, Zhang Haofei was stunned for a moment, then said with a dry smile, "Wang Xuan, you have misunderstood. I'm not unwilling. If Tie Jun's teaching is really useful, of course I'm willing to learn it."

When Wang Xuan heard Zhang Haofei say this, he ignored him, looked at Tie Jun and said, "Let's all start."

Tie Jun nodded and said, "I just thought about it. The seven of us can form two small three-talented formations to cooperate."

Gu Manyao asked curiously, "What is the Three Talents Formation?"

Tie Jundao: "You can understand it as two iron triangles, one outside and one inside, which cooperate with each other. At present, the hatching beasts are Wang Xuan, Gu Manyao and Zhang Haofei. You form an outer triangle, and I, Zhao Lei and Li Haotian form one. The inner triangle formation, the two triangle formations can cooperate with each other. For example, my partner Wang Xuan, Zhao Lei and Gu Manyao, Li Haotian and your partner Zhang Haofei... Of course, this is only a preliminary idea~www.mtlnovel.com~ If we A few people can also hatch successfully, and then further adjustments will be made according to the characteristics of everyone's hatching beasts."

"As for Mengyun, as a substitute for our formation, you will help whichever side is in a hurry."

As Tie Jun spoke, he instructed everyone to practice, and the seven people quickly took their positions in the open space.

"The advantage of this formation is that it can be flexible and changeable. If we are suddenly besieged by a group of monsters and the number of monsters is limited, we can use this formation to break out quickly, and then you will be headed by Wang Xuan, Gu Manyao and Zhang Haofei. Shrinking to both sides, the formation changes from a regular triangle to a pointed triangle."

"Assuming that there are too many monsters, we can't break through the encirclement quickly in a short time, and the battle situation is prolonged. At this time, we need to consider maintaining our physical strength, then the two inner and outer triangles can alternately fight with each other to prevent physical exhaustion."

"If we encounter a powerful monster, such as the giant toad, we can attack with multiple points at this time..."

Tie Jun assumed several situations of encountering monsters, instructing everyone on how to cooperate and deal with them one by one, and also pointed out the characteristics of each person.

At first Zhang Haofei was very dissatisfied with Tiejun. He was originally a street gangster who fought a lot since he was a child. He considered himself to be a half-fighting expert, and he didn't like fighting and boxing at all. That's it.

However, with the guidance of Tie Jun, he immediately noticed the difference between professional fighting and his street gangster, and he also punched a punch. The punch he punched according to the method instructed by Tie Jun was stronger than his habitual style of punching. Much fiercer.

Under the guidance of Tie Jun, Wang Xuan practiced very seriously. Among all the people, Tie Jun gave him the most attention.
