

Last Building on Earth Chapter 56-60

Chapter 56

Everyone practiced for two or three hours. Seeing that the surroundings were completely dark, they stopped one after another and returned to the car to rest.

Wang Xuan re-entered the off-road vehicle, locked the door, took off a seat cushion, and sealed the smashed side window. If there is a monster attack, no matter which side the monster enters from, as long as there is a slight movement, he can be awakened immediately. .

Because I slept in the car and locked the doors and closed the windows, it was relatively safe, so there was no need to arrange a night watchman.

Before fighting with monsters, they practiced for a while. Everyone was exhausted. They got into the car and lay down, and soon fell asleep.

When Wang Xuan woke up, the outside of the car was no longer dark, but much brighter.

He understood that this was the reason why it was daylight outside the parking lot.

Everyone woke up one after another, and Zhao Lei and Gu Manyao still distributed food and water to everyone.

"The food can still be managed for a few days, but the water is not enough. It is estimated that the savings will last until tomorrow and the day after tomorrow." Zhao Lei looked at the remaining two boxes of mineral water, and looked at Wang Xuan with a headache.

Wang Xuandao: "There is no way out in the sky. It shouldn't be difficult to find food in such a large parking lot."

Tie Jun said slowly: "That's right, if there is no food, there are still those monsters..."

Zhao Lei was shocked and said, "You mean to eat the flesh of those monsters and drink the blood of those monsters?"

Tie Jun nodded slightly and said, "It hasn't reached that extreme situation yet, but people are really pushed to that point, and it's not unusual to eat meat and drink blood."

"Let's go, it's time to go." Wang Xuan finished eating the last ham sausage in his hand and stood up.

After a night's rest, he only felt that his body was full of strength and energy, and an urge surged in his body, thinking of killing a few monsters to release this excess energy.

"Wang Xuan, Zhao Lei, are we sure we will return to the second floor?" Gu Manyao looked at the ramp lane leading to the second floor not far away.

Zhao Lei said: "We tried to go back once before, but we ran into those tree roots. This time we will try again. If we can go back to the second floor, according to my speculation, the monster on the second floor must be one negative. The weaker layer, we first find a way to hunt the weaker monsters, it is best that all seven of us can successfully hatch, which is much safer than rushing into this negative layer."

Gu Manyao snorted and stopped talking. Wang Xuan was still taking the lead, and a group of seven people were preparing to return to the second floor.

Just after taking two steps, before walking into the down-going lane, there was suddenly a "quack" in the distance on the negative floor.

Everyone heard the voice, and they turned their heads and looked to the left.

Everyone was very familiar with this howling sound, and Wang Xuan immediately shouted, "Everyone will take their place according to what Brother Tie taught last night."

Wang Xuan turned to the left while talking, Gu Manyao retreated to his left, Zhang Haofei moved to the right, and the three formed a positive triangle. Among the three, Tie Jun, Zhao Lei, and Li Haotian also formed a team. Triangle, Xu Mengyun grabbed the curved blade in her hand and stood in the middle of the team.

With another croaking sound, I saw a monster as big as a car, covered with sarcomas, and it was the giant toad on the wide driveway on the first floor in the distance.

Yesterday, the giant toad passed through the big tree and then disappeared. Now everyone can be sure that it also came to this negative floor.

It appeared from a distance, kept jumping vertically, rushing towards the crowd at a very fast speed, and croaking continuously from its open mouth, it looked extremely ferocious.

Everyone knows the horror of the giant toad. Although Wang Xuan has evolved the beast to the beginning of the second-order state, he still feels nervous when facing it again.

"Everyone, remember what I said last night, in the face of such a powerful monster, you must be calm, don't take action rashly, first find a way to protect yourself, and then cooperate with each other to attack more, and you must cooperate well with each other."

Tie Jun stood right behind Wang Xuan, reminding everyone in a deep voice.

The giant toad appeared from a distance, and in the blink of an eye, the distance between the two sides was reduced to within 50 meters. Its speed was too fast. Among the crowd, only Wang Xuan, who had evolved to the second-order initial state, was able to compete with it. The remaining six Even if people don't want to fight with it, it's too late to escape, so everyone heard its whistle and didn't think about escaping.

"Huh? It's not right!" Wang Xuan waited, the metal tentacle in his right hand extended, watching the giant toad rush not far in front of them, ready to fight, but found that the giant toad was covered in

blood, everywhere. They are all wounds of different sizes, especially a terrible wound on the abdomen, which cracks from time to time as it runs, and internal organs are faintly visible inside.

"It's not trying to attack us, it's running away?" Zhao Lei had a flash of inspiration and suddenly let out a soft cry.

Almost at the same moment, everyone saw a figure rise above the back of the giant toad.

The figure stepped on the back of the giant toad, because the speed was so fast that even Wang Xuan couldn't see the true face of the figure.

The giant toad seemed to sense something was wrong, and instinctively twisted its body, waved its right front limb, and wanted to pat it on its back.

With a "chi" sound, a faint white light flashed, and the forelimbs swung out by the giant toad flew out with a stream of blood, and fell to the ground with a soft click.

The giant toad opened its **** mouth and let out an earth-shattering roar. It looked like a madman. It rammed the figure on its back towards the bearing column on the side, trying to smash the figure into meat sauce.

The figure was as slippery as a loach, sliding down the back of the giant toad, toes a little, and his right hand raised.

This time, Wang Xuan could see clearly that the figure was holding a sword-shaped weapon in his right hand, and a faint white light shrouded the surface.

"Sword-shaped weapon?" Wang Xuan's heart moved, and he vaguely felt familiar, as if he had seen it somewhere.

Watching the sword-shaped weapon swept sideways, the giant toad roared again, and one of its hind limbs was severed. As if pushing a golden mountain down a jade pillar, he fell down heavily.

The figure with the sword-shaped weapon jumped up, this time holding the sword in both hands, a white light flashed, and with a bang, it cut into the head of the fallen giant toad.

A burst of fresh blood shot out, and most of the giant toad's head was chopped off. The blood mixed with white pulp and flowed out. The giant toad shook all over, and the sarcoid covering the body surface twitched and shrank. There are crystal scales peeling from the inside out.

Wang Xuan, Zhao Lei and Gu Manyao, who were standing on the side, were almost stunned. No one would have imagined that such a powerful giant toad would be beheaded like a melon and vegetable. A dozen crystal scales.

The figure with the sword-shaped weapon stopped, and everyone finally saw it clearly.

This person is wearing a leather helmet, leather armor, knee pads, gauntlets, and leather boots. The five kinds of leather armor that can be purchased in the vending machine are all dressed up.

This kind of leather armor can automatically change its shape according to the fat and thinness of the human body because of the nano crystals contained in it. A woman with an almost perfect body curve.

Even Gu Manyao, who thought she had a good figure, couldn't help but sighed after taking a look, feeling a little envious.

The helmet did not cover her face, and the woman also noticed Wang Xuanqi gathered on the other side, but she just turned her head and glanced at them and then did not look at them, but concentrated on collecting the dozen or so crystal scales that had just fallen. .

This woman's glance also made everyone see her appearance clearly.

Chapter 57

Looking at the age of about 24 or 5 years old, with a melon face, willow eyebrows, and single eyelids, although she is not a peerless beauty, she has a heroic and sassy temperament, especially a pair of single eyelids. It is like an unsheathed sword, with a sharp edge that makes people not dare to provoke it easily.

She is holding a snow-white long sword in her right hand. The sword is about one meter long and has a strange shape. Five sharp white claws stick out from the end of the hilt. The sharp claws bite into her right hand and merge with her flesh and blood. together.

After beheading the giant toad, the long sword in her right hand converged and quickly disappeared in her right hand.

Wang Xuan sees all this in his eyes, and understands that the long sword in the woman's right hand should be her hatching beast. Judging by the terrifying speed and strength of her just killing the giant toad, her hatching beast is at least in the beginning state of the second order. even stronger.

Looking at this familiar figure, Wang Xuan's heart moved slightly, and he suddenly remembered that he had been trapped on the second floor of the parking lot. When he was resting at night, he suddenly saw a figure with a sword-shaped weapon in the car far away. The figure beheaded a group of scaly monsters and disappeared.

Wang Xuan was very impressed by this figure with a sword-shaped weapon. Seeing this woman at this moment, he compared the two, and his heart suddenly became clear.

Nine times out of ten, the dark shadow with a sword-shaped weapon that I saw that night was the woman in front of me.

Watching the woman bent down and picked up more than a dozen crystal scales, Wang Xuan and the others stopped in place and only dared to watch silently. Seeing the woman's ability to kill the giant toad just now, no one dared to approach casually. .

Changed to Zhang Haofei from the past, seeing such a powerful woman, he would have whistled a long time ago, but now he is standing in the queue, daring not to speak.

He is not stupid, he understands who can be offended and who can't be offended.

The woman picked up all the crystal scales and put them away. Then she glanced at Wang Xuan and the others again, then turned around and left.

Wang Xuan watched the woman leave. Zhao Lei tried to open his mouth several times, but was blocked by Wang Xuan.

Since this woman is unwilling to communicate with them, they rashly strike up a conversation. Without knowing each other's character and good and evil, it is easy to cause trouble and even danger.

Although Wang Xuan also wanted to learn more about the underground parking lot through this woman, he still held back.

The woman was so fast that she bypassed a row of parked vehicles in front of her and disappeared from their sight.

It was not until he could no longer see her that Wang Xuan let out a light sigh of relief.

Zhao Lei finally couldn't bear it any longer and said, "This woman is amazing. I don't know what she is from, and will she know something about this parking lot."

Wang Xuan shook his head and said, "She doesn't want to have too much contact with us. We'd better not take the initiative to disturb her."

Gu Manyao sighed: "I guess she may be the same person trapped here as us, but earlier than us, so she will be more powerful, she doesn't necessarily know more about this parking lot than us. ."

Li Haotian replied: "It's strange, if she is trapped here like us, how could she have such an attitude when she sees us? Isn't it safer to have more people? No matter how powerful she is, she is only one person. There is no one to take care of."

He shook his head as he spoke, somewhat incomprehensible.

Zhao Lei said: "Maybe she is not the one trapped here, but maybe she has another background."

Zhang Haofei said: "This girl is really hot, but it's a pity that she is a thorny rose, and she killed this toad in a few seconds. Grandma's, I don't know which form her hatching beast has evolved to, Wang Xuan, your beast is the beginning. Form, can you kill the toad like she did?"

Wang Xuan frowned slightly, deduced it in his mind, then shook his head and said, "It's hard to guess, you can only know if you really fight."

"Let's go, no matter what happened to this woman, we still follow the plan and see if we can return to the second floor."

After Wang Xuan finished speaking, he turned around and looked at the **** passage behind.

Gu Manyao approached Zhao Lei and said, "Zhao Lei, what do you mean when you said that the woman is not trapped here, but has a different background?"

Zhao Lei said: "This is my speculation. For example, have you thought about it, who put this vending machine?"

As he spoke, he pointed to the vending machine that was placed not far from the aisle.

His words made everyone stunned for a moment. Zhang Haofei replied, "Yeah, who put this? There shouldn't be such a thing in the parking lot of Longmao Plaza."

Zhao Lei said: "For example, this vending machine, such as the helmets, leather armor and knee pads inside... These things need to be manufactured, and they need to be transported here. If the helmets and leather inside are bought out, they need to be replenished... These should all need people to do it."

"So, who are the people who do these things?"

Hearing Zhao Lei say this, everyone understood, Gu Manyao said, "You mean this woman is the one who does these things?"

Zhao Lei said: "Of course this is just my guess, otherwise it's hard to explain why she sees us with such an attitude, just like Li Haotian said just now, if she is like us, she is trapped here and has a team. Naturally, it is much safer than going alone. Think for yourself, are you willing to go alone or in a group? So the most reasonable explanation is that she is not the one trapped here, she is different from us."

Gu Manyao said: "It seems reasonable to hear your analysis, but I still think it's weird, Wang Xuan, what do you think..."

She now likes to ask Wang Xuan's opinion more and more.

Wang Xuandao: "I think both possibilities exist. Zhao Lei's speculation is somewhat reasonable, but it cannot be said that it must be true. For example, this woman may be withdrawn and like to act alone. You can't say there is absolutely no, so it's pointless to discuss this now."

When he said this, he stopped.

Everyone just walked and chatted, entered the **** passage and went down. Now after turning the corner, what they saw was not the underground parking lot on the second floor. What they saw was a door made of a large number of metal frames, with a food court on it. Three characters.

There are lights hanging on both sides of this metal frame. It will be very beautiful when the lights are turned on, but now the power is out, which makes it dark and cold.

"Sure enough, it has changed again... It seems that it is impossible for us to go back to the negative second floor." Wang Xuan took a light breath.

Zhao Lei rubbed his nose with a look of disappointment on his face, and said, "I originally thought about returning to the second floor, would it be less dangerous, but now it seems that the situation is the same whether it is on the second floor or the first floor~ www.mtlnovel.com~ It doesn't make sense which way we go, the time and space here are constantly changing."

Gu Manyao said, "I've been to this underground food court in Longmao Plaza several times. It's on the negative floor. We clearly descended the **** just now, but it turned out to be on the negative floor. This kind of time-space disorder is really scary."

Zhang Haofei said: "Then what should we do now? Enter this food court to have a look, or go back?"

Zhao Lei said: "Of course you have to go in. Since it is a food city, you can definitely find food and water."

Li Haotian said: "I'm afraid it's not safe here." He licked his lips while speaking, looking at the food town that looked a little gloomy because of the power outage.

Gu Manyao frowned slightly and said, "Although this food court is on the basement level, it is usually very lively. Every time there are many people, do you think these people will be trapped here or will they be able to leave normally?"

Zhang Haofei said, "I can't even see a single person inside. They must have all left, and of course they may all be dead..."

Wang Xuan suddenly said, "Be quiet for a while." As he spoke, he took a step forward and listened attentively.

Everyone went quiet.

Wang Xuan's Warcraft is already in the initial state, and his hearing has improved compared to the prototype state. He is the crown of the crowd. At this moment, he concentrates on listening, and the sound that was originally vague gradually became clearer.

After confirming, Wang Xuan looked at everyone and said solemnly: "I heard a voice in the depths of this food court. It sounded like a lot of noise from people eating and drinking."

After saying this, everyone looked at each other in dismay.

If there are really a lot of people eating and drinking in this food city, does that mean that they have walked out of the trapped parking lot unwittingly?

They returned to the original normal world?

Chapter 58

Zhao Lei hesitated and said, "Wang Xuan, are you sure you heard it right?"

Wang Xuan said, "I can't be sure, but it does sound like that..."

As he spoke, he took a few steps forward, listened carefully again, then nodded and said, "It can't be wrong, I can be sure now."

Hearing Wang Xuan say this, Gu Manyao stretched out his right hand, and the Yaochi knife stretched out from his right hand, and said, "It seems that we are going to enter this food city."

Li Haotian murmured, "This is really weird. Do many people eat and drink here in the food court? But this place doesn't even have lights, and it looks gloomy inside. No matter how you think about it, it's abnormal."

Zhang Haofei looked at the crowd and said, "What should I do now? Leave here and go back, or go in and see what's going on."

Xu Mengyun couldn't help but said, "Didn't Wang Xuan say that there are many people eating here? Then we will be safe when we find them. Maybe... Maybe we can leave this parking lot from here."

She was so eager to leave. At this moment, it was like a drowning person caught a life-saving straw, for fear that everyone would not go, so she was busy speaking first.

Li Haotian glanced at her and said, "This food court looks too weird. It's even more weird when there are many people eating in it. I think this place gives people a very unsafe feeling. It's best not to enter. It's better to return safely. According to the rules that everyone said, as long as we pass through the parking areas on the negative floor, we have a good chance of leaving, so why take this risk."

The two had completely opposite opinions, and they all sounded reasonable, and everyone was a little undecided for a while.

Zhao Lei had a pensive look on his face, his eyes squinted slightly, leaving only a slit. He habitually squinted every time he thought. He used to push the glasses on the bridge of his nose, but now he doesn't wear them. Glasses are gone, and he touches his nose instead.

Wang Xuan saw his demeanor and said, "Zhao Lei, what did you think of?"

Although Zhao Lei is often a bit of an afterthought, he likes to use his brain to think. Fools think a lot, and occasionally get things. Besides, he is not a fool. He thinks too many problems, and he can always come up with some problems that others can't think of, so Wang Xuan is still pay more attention to his advice.

Zhao Lei pondered: "Everyone probably doesn't know how to choose now. Actually, I think this is an easy choice."

Gu Manyao originally showed that Yaochi Dao wanted to enter the Food City, but after listening to Li Haotian's words, he felt that what he said was very reasonable, and he was hesitant. Hearing Zhao Lei say this, he immediately said: "Then stop talking nonsense and say the result directly. ."

Zhao Lei was not in a hurry and said, "There are two choices in front of us now, one is to enter the food city, and the other is to leave."

Wang Xuan wanted to say something nonsense, but he was used to Zhao Lei's long-winded words, so he listened silently.

"We can analyze them one by one. For example, in the first case, we didn't enter the food city and returned to the D area of the negative floor. There is a high probability that we will encounter monsters. According to the previous rules, the monsters we may encounter are still very powerful. The result is unclear. It is possible that we kill the monsters, or there may be casualties. Of course, if we are lucky, we can kill the monster leader in the D area and successfully leave the D area and enter the C area. "

Everyone stopped talking, and understood that what Zhao Lei said was the truth.

"Let's analyze the second situation, we choose to enter the food city, there are two possibilities, one is the same as returning, we will encounter danger and encounter monsters, the result is also two, or we win, Or the monster won, and another possibility is that there are no monsters in this food court, we really saw a lot of people eating and drinking, and we managed to escape this **** place."

Zhang Haofei nodded and said, "Although you are talking nonsense, this time I understand, we should choose to enter the food court."

Gu Manyao glanced at Li Haotian and said, "When you enter the food court, you may encounter monsters, and you may also leave here, but when you return, you may encounter monsters. I think we should take a gamble."

Li Haotian moved his lips and wanted to speak, but seeing that most people chose to enter the food court, he couldn't change it any more, so he stopped talking.

Wang Xuandao: "Zhao Lei, in fact, you still have the most important thing to say."

Zhao Lei was stunned and said, "Which point?"

Wang Xuan said slowly: "We chose to return to the second floor, but when we went down the slope, we saw the Food City clearly on the negative first floor. This is some kind of force that caused the chaos of time and space. Since this force wants us to see the Food City, which means that no matter where we choose to go, the actual result is the same."

As soon as he said this, smarter people like Gu Manyao and Zhao Lei immediately understood, but Zhang Haofei didn't understand, and said at a loss, "Wang Xuan, what do you mean, and what results are the same?"

Gu Manyao sighed: "It means that even if we choose to go back now, I'm afraid we will still see the food city, just like the tree roots we saw before, no matter which direction we choose, the tree roots we see will only get more and more more."

Wang Xuan nodded slightly and said, "We thought we were making a choice, but in reality there is a kind of power that controls everything here. Our choice is not important at all, the important thing is to do everything possible to strengthen ourselves, and then... ..to live."

Li Haotian showed a hint of doubt and couldn't help but said, "Do we really see the Food City when we go back?"

Although he had seen those tree roots before, he drove in and was chased by giant toads. He didn't experience the sense of despair that he was trapped in the root world and couldn't get out.

Wang Xuan glanced at him and said, "Let's go, we choose to go back. It would be better if we really couldn't see the Food City."

After he finished speaking, he turned around and walked back.

Zhang Haofei was taken aback and said, "I won't enter the food court anymore? Don't you mean there are a lot of people in it? Are you still looking for food and water?"

Wang Xuandao: "As Li Haotian said, this food court is too weird, no matter how you look at it, it doesn't look right. Although I heard the voices of many people deep inside, there is always a strong sense of unease in my ears. No, I won't go in and take risks."

Seeing Wang Xuan say this, everyone stopped talking, and immediately followed him back. Li Haotian breathed a sigh of relief. He felt uncomfortable just looking at this food court, and told himself not to enter.

Everyone returned and went up the **** passage again, turned half a turn along the slope, and then all stopped.

Gu Manyao took a deep breath and said, "Wang Xuan, you guessed it right."

Not far in front of them, the parking lot in the D-area on the first negative floor could no longer be seen, but a door made of a metal frame with the three characters of Food City hanging on it.

They really saw Food City again.

Li Haotian's face became ugly, and he murmured, "It's really evil, although I know something is wrong here, and it's hard to find an exit after being trapped, but... but it's still unbelievable like this."

While talking, he looked at Wang Xuan with a look of admiration on his face.

He was originally just because Wang Xuan's strength was the crown of the crowd, and he wanted to flatter him. Wang Xuan started.

Wang Xuandao: "As I said, there is a certain force that makes us have to enter the Food City~www.mtlnovel.com~ No matter which direction we choose, we will see the Food City."

"Of course, we can also choose not to enter and stay here forever."

Zhao Lei smiled bitterly and said, "Stay where you are and wait to die? Since God told us to go in, let's go in and see what's going on."

Wang Xuan said: "Everyone is ready to fight, let's go in."

Now that it was confirmed that it was impossible to avoid this food court, Wang Xuan no longer hesitated, and gave an order. A metal tentacle appeared on his right hand, and he headed towards the food court in front of him.

According to Tie Jun's previous arrangement, Gu Manyao walked on the left side of the team, and Zhang Haofei walked on the right with a skeleton hand, forming a triangle formation with Wang Xuan.

The seven-member team carefully followed the door of the metal frame and walked in. There was a passage facing the front, and there were facades on both sides. Wang Xuan glanced at it, but saw "beggar chicken", "net celebrity small skewer", "roasted pig's trotter" " Beef vermicelli pot", "Spicy pot" and other food and snack signs.

In the past, this place was brightly lit, and various signboards flashed colorful lights. As soon as you entered this place, you could smell all kinds of delicious food, and the aisle in the middle was crowded with people.

But now it has become dark and dark, with no lights, no crowds, and no smell of delicious food.

The storefronts on both sides had their glass doors closed, making them quiet.

Through the glass door of a Mala Hotpot store, Wang Xuan could see tables and chairs inside, but it was empty and no one could be seen.

The first feeling of everyone entering here is the silence like death.

"Wang Xuan, did you really hear the sound of many people eating and drinking in the depths?" Zhao Lei was a little skeptical. From his point of view, the place was dark and silent, and it looked like a ghost realm.

Chapter 59

Wang Xuan frowned slightly. As he entered the food court, the voice he heard became clearer and clearer. Hearing Zhao Lei's question, he nodded slightly and said, "Yes, it's in the distance."

As he spoke, he stretched out his hand and pointed to the end of the street.

Everyone followed his fingers towards the end, where it was dark and could not see anything.

"Let's go, let's go and see what the **** is going on with those voices?" Zhao Lei believed in Wang Xuan very much. Seeing that he was so sure, he decided to go to see what happened.

Wang Xuan quickened his speed and walked in front of the voice. Gu Manyao and Zhang Haofei soon showed a look of surprise on their faces.

They also vaguely heard the noisy voice at last.

"There really is a voice, grandma, it's so strange." Zhang Haofei's right hand tightened, and he immediately sped up, following Wang Xuan's side.

As they continued to walk forward, everyone heard voices one after another.

"Listening to this voice, there are really a lot of people." Zhao Lei licked his lips, a nervous look on his face.

Among the crowd, only Xu Mengyun showed uncontrollable excitement. She hoped that this time she could really leave the **** parking lot and return to the normal world.

Wang Xuan, who was walking at the front, stopped and looked forward to the left.

There is a hot pot restaurant with a large area in front of the left, and the noisy voice is coming from this hot pot restaurant.

Wang Xuan stopped, and the other six people behind him also stopped, and everyone's eyes were focused on the door of this hot pot restaurant.

Through the row of floor-to-ceiling glass in the hot pot restaurant, it can be seen that the hot pot restaurant looks very dark, and there are some vague figures inside.

"Are all the survivors in this food city concentrated in this hot pot restaurant?" Zhao Lei frowned and expressed his conjecture. At present, this is the most likely possibility.

Wang Xuan pursed his lips tightly, the beast in his right hand was ready to activate at any time, and stepped up again, he wanted to see what happened.

Finally, he walked to the door of this hot pot restaurant.

The door of the hot pot restaurant is open. Through the door, you can see that the hall is full of people. The hot air is boiling in the hot pot. Flowing oil.

In the hall, there were waiters serving dishes on trays. Some people drank too much and went to the bathroom to vomit and then came back to drink again. Several children were playing and running in the middle aisle, almost knocking over a waiter with a hot oil pan in his hand. .

A man and a woman each picked up a bottle of beer and blew it. The woman picked up a bottle of beer against her mouth and shook the bottle violently. The beer formed a vortex in the bottle, and she drank it in one breath.

A few more men and women were guessing and drinking.

In the whole hall, the atmosphere was warm. Everyone stood outside the door, stunned. Except that the lights were not turned on in this hot pot restaurant, everything else seemed normal. This restaurant is not small. , At least there are nearly a hundred people.

Looking at this lively scene, it's not like Zhao Lei guessed that these are the survivors of the food city.

Could it be that they really walked out of that terrible parking lot and returned to the normal world?

A waitress stood at the door to welcome guests. She looked at Wang Xuanqi and the others who were approaching, and showed them her signature smile.

"Everyone, please, there is just one last table for you."

The waitress's voice was very sweet, and her eyes were slightly bent when she smiled, like two small crescent moons.

Among the crowd, Xu Mengyun was the most excited. Seeing this lively and familiar scene, she was so excited that she was about to cry.

She understood that they had really returned to the real world.

If you were still trapped in that terrifying world, it would be impossible to have this lively scene in front of you.

The waitress's voice was in her ears, and it was kinder than any other voice in the world. She couldn't bear it any longer, so she immediately rushed up two steps faster.

Zhao Lei didn't expect her to be so impulsive. He tried to pull her but didn't hold back, but seeing Xu Mengyun bypassed Wang Xuan and Tie Jun who were standing in front of her, and rushed into the hot pot restaurant first.

"Mobile phone, do you have a mobile phone? I want to make a call!"

She screamed loudly. Now that she was back in the real world, her first reaction was to call the police.

Everything she had experienced before was so terrifying and grotesque, the only thing she could think of was to ask the police for help.

Xu Mengyun's voice was too loud, causing many customers to look sideways. The guests at several tables near the door lifted up and looked towards them.

Among the crowd, not everyone was as excited as Xu Mengyun. Although everything in front of them seemed to be normal, it seemed that they had really returned to the real world, but in this seemingly normal, it was faintly revealed. Kind of weird and abnormal.

These people use an induction cooker to cook the hot pot. Since there is electricity, why don't they turn on the lights?

In such a dark environment, there are still so many people eating hot pot and drinking wine in full swing. This is the first time Wang Xuan has seen it. This is too abnormal.

"You said that the last table was prepared for us, did you know in advance that we were coming?"

Wang Xuan suddenly stared at the waitress and asked.

The waitress had a professional smile on her face, which was stiff, like wearing a smile mask.

She didn't seem to be able to hear Xu Mengyun asking her for her cell phone and Wang Xuan's questioning, but took a step back, made a gesture of inviting in, and raised her voice: "There are new customers, there are seven in total!"

"Seven, please come with me!" Another male waiter greeted him.

The male waiter also had the exact same professional smile on his face, and the appearance of his skin and flesh but not a smile has been seen for a long time, and it has an inexplicable creepiness.

"Hey, did you hear what I said?"

Xu Mengyun became anxious and raised her voice again. She also noticed that many customers turned their heads to look at her. She suddenly discovered a strange phenomenon.

Whether it was the waiter or the customers who turned to look at them, there was a professional smirk on their faces.

It's okay to laugh alone. When everyone was giving her this kind of stiff smile, her heart skipped a beat, and she suddenly felt scared.

"Get out!" Wang Xuan suddenly shouted, grabbing Xu Mengyun's arm and pulling her back together.

Just now, he finally saw clearly. One of the hot pots placed on the table near the door was boiling hot pot soup, but red blood. A customer took chopsticks from the boiling blood. An eyeball was clipped out of it, and it was put into his mouth and chewed.

His mouth was not stained with hot pot sauce, but blood.

Following Wang Xuan's low drink, everyone retreated outside the door.

The male waiter who greeted them with a smile on his face suddenly changed his face when he saw them suddenly back out.

The first waitress also changed her face, and her sweet voice became a little sharper.

"You haven't eaten, why are you leaving?"

As he spoke, he rushed out and stretched out his right hand to grab Xu Mengyun.

The nails of her five fingers became longer, the flesh was split, and there were faint black hairs growing out of them, turning into sharp claws with dense black hairs.

When these claws probed, they were like five sharp knives stabbed into Xu Mengyun's chest.

The waitress had a smile on her face: "You are all customers, come in with me quickly..."

Xu Mengyun let out a scream, and Wang Xuan pulled her back with his left hand. Seeing that he was still a step late, he opened his right hand, and the metal tentacles rushed out like a giant python.

With a snap, it wrapped around the waitress's neck.

Wang Xuan pulled his right hand, and the metal tentacles wrapped around the waitress's neck and pulled her out into the air. Her head hit the hard street floor, and her brain burst immediately.

A piece of white debris appeared in her cracked head, which looked like a piece of white scales shattering.

The white fragments did not fly to Wang Xuan, but turned into a faint white light, and disappeared at the end of the food court in an instant.

Wang Xuan frowned. It was the first time he had seen this kind of situation.

With a thought, the metal tentacles loosened the neck of the waitress and retracted it.

Xu Mengyun's injuries were serious, and five blood holes were scratched out of her chest. Fortunately, she now has two white scales in her right hand. This injury is nothing to her and will heal soon.

But she was greatly frightened, and with a face full of horror, she retreated towards the crowd.

Inside the hot pot restaurant, the male waiter who had greeted them also rushed out.

His body was swelling, and the clothes he was wearing were torn, revealing strong and swollen muscles, with a lot of black hair growing on the muscles, and a pair of sharp claws, turning into a half-human, half-beast appearance.

Without saying a word, Gu Manyao leaned forward to meet her, and swept out the demon chi knife in her right hand.

With a "chi", the waitress who had transformed into a half-human, half-animal appearance was wiped by her neck, and a head rolled with blood and flew out.

The headless body of the male waiter took two steps forward under the action of inertia, and then fell to the ground.

A white shard also appeared in his body, and it did not fly to Gu Manyao, but disappeared into the distance.

Wang Xuan looked at the corpses of two waiters, a man and a woman, on the ground. After watching the white fragments in their bodies disappear, the original half-human, half-beast appearance was like a leaking ball, and it shrank back to normal human appearance.

"Aren't they monsters? They were controlled by white fragments and turned into monsters?"

Wang Xuan's face changed slightly, and when he looked up, he suddenly realized that at some point, nearly 100 customers in the entire hot pot restaurant stood up.

They stopped eating and drinking, but walked towards the door, with blood-red light in their eyes, and with strange and stiff smiles on their faces, they rushed towards the crowd.

"Follow me all!" Wang Xuan rushed first, towards the end of the food street where the two white shards flew.

These customers and waiters don't look like monsters, they look like controlled humans, and the things that control them are most likely at the end of the food street where the two white shards flew.

Wang Xuan's speed was very fast, he stepped forward, and he was ten meters away. Although he didn't use all his strength, only Gu Manyao and Zhang Haofei could barely keep up with him.

Nearly a hundred customers of the hot pot restaurant are mutating. Their muscles swelled, their clothes were torn apart, black body hair grew, and they turned into half-human, half-beast appearances.

They rushed out of the hot pot restaurant and roared like wild beasts after chasing the crowd.

Tie Jun and Zhao Lei pulled Xu Mengyun's arms from left to right and ran with all their strength, followed by Wang Xuan, gradually throwing away the customers who had turned into monsters.

The street of the food street is not too long. When the seven people rushed to the end, they saw a wall.

This wall is as white as jade, vaguely translucent, and you can vaguely see a black shadow inside the wall, like a tree with its umbrella open, and like a giant jellyfish in the deep sea.

The umbrella was covered within the wall, slowly shrinking and wriggling, with countless long beards as thin as hair protruding below it.

These long whiskers stick out from the wall, hanging like weeping willow branches, and they are densely packed and I don't know how many.

A few white fragments gathered at the tip of each long whisker, faintly glowing faintly.

From a distance, it seems to be full of small white flowers.

Chapter 60

Everyone looked at the scene in front of them with amazement, and no one knew what it was.

Wang Xuan noticed that the white fragments at the tip of these long whiskers could fuse with each other, and several white fragments fused together, slowly turning into a white scale he was familiar with.

When the white scales at the tip of the long whiskers formed, the long whiskers with the white scales shrank back into the wall and disappeared, and then new long whiskers extended from the wall.

Seeing this, Wang Xuan understood. The two waiters, the man and the woman, that he killed just now had all the white fragments that appeared in their bodies absorbed by these long whiskers, and several white fragments could be fused to form a white scale.

Could it be that the white scales in those monsters are formed like this?

Can this tree-like and jellyfish-like creature embedded in the wall create a monster with white scales?

Seeing this change, everyone thought about it with Wang Xuan, Gu Manyao shook the Yaochi knife in his right hand and said, "Could those monsters be created by this thing, can you really leave after killing it? this **** place?"

Zhao Lei put down the backpack he was carrying, nodded and said, "No matter what, we have to give it a try. Anyway, there is no way to escape now."

He turned his head as he spoke, and saw the beast-like roar from the rear getting closer and closer, and the nearly 100 half-human, half-beast monsters turned from customers were approaching.

Wang Xuan stretched out his right hand, and the metal tentacles extended to the limit of three meters long, like a giant python twisting in the air. To prevent the wall and the long beard from being weird, he did not approach, but came to a place two or three meters away from the wall. , using metal tentacles to destroy these long whiskers.

Just as the metal tentacles were stretched out, a human figure suddenly bulged out of the translucent wall. He was slightly startled. The translucent wall with the bulge protruding from the human figure suddenly split open, and a humanoid monster stepped out from it.

This monster is about two meters tall, with swollen muscles and black hairs all over its body, like a giant black ape, with a white scale inlaid in the middle of its forehead, which is particularly eye-catching among the black hairs on its head.

A monster suddenly appeared in the wall, and everyone was shocked. The monster moved forward and rushed towards Wang Xuan, who was closest to the wall.

Obviously, it is protecting those long whiskers on the wall.

With a thought, Wang Xuan waved his right hand, and the three-meter-long metal tentacle slammed onto the humanoid monster's forehead with a slam, knocking the humanoid monster's brains apart, and the body that rushed over fell heavily.

Wang Xuan dodged to avoid being splashed with blood, and a white scale appeared. This time, instead of flying to the large number of long whiskers on the wall, it sank into his right hand and was absorbed by the beast.

The demon beast devoured the energy of this white scale, without any fluctuation or reaction.

For the magical beast that has evolved to the second form, the energy contained in this white scale is too weak, and it is no longer helpful to its growth, and can only be used as a loss in daily battles.

Wang Xuan had just killed the humanoid monster, but he saw the translucent wall facing him, white fragments on a large number of long beards constantly merging to form scales, and each long beard with white scales retracted back into the wall, and there was a humanoid. The monster broke through the wall and rushed towards the crowd.

Wang Xuan found out that this kind of humanoid monster is not strong, it is only equivalent to their scaly monster with wolf head and ape body, which is the weakest type of monster.

The metal tentacles easily opened their bows from left to right, and then shattered the heads of two humanoid monsters that were thrown from the wall. Gu Manyao, Zhang Haofei, Zhao Lei, Tie Jun, and Li Haotian all shot and killed these humanoid monsters with ease.

Wang Xuan controlled the metal tentacles and slashed into the air.

There was a crisp "pop", and the metal tentacles slammed into a large number of long whiskers emerging from the wall.

These long beards were drawn by the metal tentacles and broke one after another.

The broken long whiskers fell down, immediately shrank and turned black, and soon turned into black fine gray, and the white fragments at the tip of the long whiskers got rid of these broken long whiskers, like white butterflies flying all over the sky, flying to other long whiskers. The tip of the whiskers.

Because the long whiskers were attacked and broken, the black jellyfish-like figure in the wall wriggled violently and began to struggle inside the wall. The long whiskers that were sticking out began to shrink back into the wall.

As these long beards all retracted to the wall, the blurry shadow inside began to expand, and the umbrella cover suddenly changed enormously. From the outside of the wall, the diameter of the umbrella cover was at least five meters, and it propped up the wall to expand outward. Suddenly, there was a sudden "boo" sound like a bubble burst, and the snow-white wall cracked a large crack, and a large amount of white juice splashed out.

Everyone didn't know whether the juice was poisonous or not, so they all avoided it, not daring to approach for a while.

The gap in the wall shivered for a while, shrinking continuously, like layers of live meat, suddenly opened from the inside out, spewing out a lot of juice.

A flesh-colored giant cocoon was wrapped in the juice. The diameter of the giant cocoon was more than one meter. As soon as it landed, it immediately made a crisp "click" sound, and a spider web-like crack appeared on the surface, which was then burst from the inside. The creature emerges from the cocoon.

This creature is in the shape of a human~www.mtlnovel.com~ swelled out of the cocoon and grew to about two meters high. It has hands, feet and limbs.

It was dripping with white juice all over its body, and as soon as it broke out of the cocoon, it immediately strode forward and came towards the crowd.

When everyone saw this scene, they all felt their scalps go numb in the face of this unprecedented jelly-like humanoid monster.

It was Wang Xuan who made the first move. He was the fastest. He grabbed the metal tentacle with his right hand and swept it out like a steel whip.

"Poor" hit the head of this humanoid monster head-on, and immediately split it apart.

There was no blood or brain pulp in this cracked head, it was all jelly-colored translucent jelly.

Seeing that Wang Xuan succeeded with one blow, everyone was relieved.

I didn't want this humanoid monster to fall down because its head was shattered. Instead, it stretched out its hands and stretched out its arms, rushing towards Wang Xuan.

He was taken aback, but fortunately, he reacted quickly, and immediately slanted to avoid it. The metal tentacles were like a snake, entangling the right arm of the humanoid monster.

With a forceful pull, he pulled the humanoid monster into the air and smashed it to the ground.

The monster hit the ground, and there was a dull sound in its body. When it just broke out of the cocoon, its body was like a translucent jelly. As it came into contact with the air, its skin color was like pigmentation, changing its color.

From the original translucent jelly to a human-like flesh color, sarcomas of different sizes began to protrude all over the body, densely packed, making the scalp tingling in the eyes.

And the most terrifying thing is that its head, which had just been blown up by Wang Xuan, is healing at an astonishing speed.

Even Wang Xuan, the strongest among the people, does not have such a terrifying healing ability. If his head is broken, he will die.
