

Last Building on Earth Chapter 86-90

Chapter 86

Wang Xuan's Warcraft has now grown to the sub-body state of the third form. He tried to walk into the elevator, but there was still a faint energy sweeping across his body, and then disappeared. There was no invisible force to stop him. , let him walk in successfully.

"It seems that you can enter the elevator when you grow into a sub-body." Wang Xuan walked into the elevator out of curiosity, and then looked around the elevator from the inside.

Everyone else was watching from the outside, and when they saw Wang Xuan suddenly walk in, they immediately surrounded him and stood at the elevator door. No one could actually walk into the elevator except him.

Zhang Haofei was the first to shout: "Wang Xuan, is this elevator the same as a normal elevator?"

Wang Xuan sighed: "Almost, just bigger."

Then Li Tao said strangely: "Why don't you go in and see for yourself?"

Zhang Haofei turned his head to look at him and said, "Nonsense, this elevator can't even enter the first lift, only the hatching beasts grow to the sub-body."

When Li Tao came here, he didn't understand anything. He was stunned when he heard this. He couldn't help but wanted to try to walk in. He was pushed out by an invisible force. Feeling the information in his mind, he That's how I understand what's going on.

Wang Xuan stood in the elevator, and it looked like an ordinary elevator. The only difference was that the elevator was larger, two or three times larger than ordinary elevators, and it was no problem to squeeze 20 or 30 people.

Look at the floor buttons in the elevator. The highest floor displayed above is the ninth floor, and there are buttons for minus one, minus two, and minus three below.

Wang Xuan didn't know which floor the woman had just reached, but according to the rules, there is a high probability that he would go to the second floor first, and he was also full of curiosity, what was there on the second, third and the highest ninth floor? ?

He really wanted to take this elevator to a higher floor to see what happened, but he just thought about it and didn't actually go up, but got out of the elevator again.

Seeing Wang Xuan come out, Zhao Lei let out a sigh of relief and said, "I'm really afraid that you will go up suddenly, and I was just about to remind you, but fortunately, you will come out."

Wang Xuan smiled and said, "I really wanted to go up to see what other floors are like, but I'm afraid that if I go up, I won't be able to come down, it would be troublesome, so I'd better wait for you all to arrive at Yatai, let's go up together to be safer. ."

Zhao Lei said: "It's not just that I can't get down, I'm afraid that I can get down, but the place where I get down is different, which is more troublesome. Don't you remember that the underground parking lot is like a time-space disorder?"

Gu Manyao said: "It shouldn't be here, at least now that we are on the first floor, there is no more situation like the underground parking lot."

Wang Xuandao: "The possibility that Zhao Lei said also exists, after all, I haven't tried it, everything is unknown, it's always good to be cautious, in short, everyone should work hard to grow into a sub-body form, so that we can go up together. "

Gu Manyao said: "Now that we know that we can reach the sub-body, as long as we find a suitable monster, all five of us will be promoted to the sub-body, and it should not take long."

Zhao Lei said, "Wang Xuan, how many buttons are there in the elevator?"

"Up to the ninth floor, and a button to the third basement."

Hearing Wang Xuan say this, Zhao Lei was startled, shook his head and said, "I remember that there are only five floors in Longmao Plaza, but I didn't expect the elevator to show that there are nine floors."

Gu Manyao rolled his eyes at him and said, "Do you think we are still in Longmao Plaza? Not to mention the ninth floor, I don't think it's strange even if it becomes a hundredth floor."

Zhao Lei touched his nose and smiled bitterly: "This is probably called a mindset. I habitually regard this place as Longmao Square. Once I encounter a place that is different from Longmao Square, I will habitually question it."

The six of them were chatting as if no one else was around, then Li Tao, Xu Haimeng, and Wen Wei were listening quietly.

Wang Xuan glanced at Wang Hai's corpse on the ground, and accidentally found that the bloodstains flowing around the corpse had disappeared, as if it had been absorbed by the ground in this hall. Light, this light is slowly swallowing and melting the corpse.

Seeing Wang Xuan looking at Wang Hai's body on the ground, everyone else looked over and noticed this detail.

"It seems that this hall has a self-cleaning function. If you die here, even if you don't deal with the corpse, it will be slowly cleaned up in this hall." Wang Xuan now understands that there are no cleaning personnel in this hall, but it seems that Spotless.

Li Tao and Xu Haimeng also saw that Wang Hai's body was slowly being melted and swallowed by this hall. They just watched silently. Originally they were struggling with what to do with this corpse, but now it was slowly swallowed and melted by this hall. Still a good way.

At this moment, the door to the third underground parking lot in the distance opened automatically, and someone came out.

Everyone noticed it and looked over there. Li Tao, Wen Wei and Xu Haimeng were busy turning their heads and looking over.

But I saw seven people walking out of the door.

With amazement and curiosity on their faces, these people kept looking around, apparently entering this place for the first time.

Wang Xuan immediately understood that seven newcomers had come up on the first floor below the ground.

"There are more and more people here." Zhao Lei muttered to himself.

Tie Jun said: "This is a good phenomenon. The more people there are, the greater the power. We can join forces to find the certificate of the king, and the hope of going out is great."

Zhang Haofei sneered and said, "That's not necessarily true. Didn't you see a corpse lying on the ground? The more people there are, the greater the possibility of conflict."

The seven newcomers who had just entered also noticed a group of people such as Wang Xuan standing in front of the giant glass pillar in the center. After a little hesitation, the seven people began to walk towards them.

"Let's go." Wang Xuan understands that these seven people are here, and they will definitely ask about this hall again. In fact, they know that the information is also limited. These people only need to look around the hall to understand.

Li Tao watched Wang Xuan and the six people leave, and couldn't help but said, "Can you tell us what exactly is this place?"

Wang Xuan stopped, looked back at him, and said, "Like you, we have only entered here not long ago. As for this hall, it is half a safe area, so you don't need to worry about monsters here, the only thing you need to worry about is other people. There are several gates around here, all with different functions, you can go and see for yourself first, and you will understand naturally, if there is anything you don't understand, come back and ask us."

After speaking, he stopped and walked towards the rest area.

Li Tao originally wanted to follow, but when he heard Wang Xuan say this, he didn't move, and then looked to the other side, the seven people who had just entered were already walking towards them.

Wang Xuan and the six entered the rest area, and went to the place where the armor was sold to make up for the inferior equipment that everyone lacked.

Except for Wang Xuan, the other five had only three pieces of equipment on them. Gu Manyao and Zhang Haofei lacked helmets and gauntlets, Zhao Lei lacked gauntlets and leather boots, and Tie Jun and Li Haotian lacked helmets and leather boots.

Wang Xuan took out ten crystal scales and bought all the inferior armor that everyone lacked.

After that, he spent another six crystal scales to buy some daily necessities in the selling room, one for each person, and finally entered the rest area.

All of a sudden, sixteen crystal scales were spent, and Wang Xuan's remaining crystal scales now turned into eighty-two.

Although the remaining crystal scales can be purchased for two second-order quality equipment, Wang Xuan gave it up temporarily after thinking about it, and plans to wait until he saves more crystal scales.

The rest area was still quiet, and there was no human voice. The six of them walked in, and Zhang Haofei said, "One room for every two people, we can just open three rooms for the six of us."

Gu Manyao immediately shook his head and said, "This is not possible."

In the past, the situation was special. It was okay for six people to squeeze into one room. Now that there are three rooms, no matter who she is in a room with, she will be alone and share the same room. This is too dangerous, she does not agree.

Wang Xuan thought of the scene of sleeping with her in the same bed with a quilt in between, and felt a little weird in his heart. Although he really wanted to sleep in the same room with Gu Manyao, he knew that in this case, she would definitely be unable to agree, he said, "Then open another room."

As he spoke, he took out a crystal scale and put it into a slot in a room on the right. As the crystal scale was put in, there was a slight sound in the door, and the door was unlocked.

Gu Manyao immediately opened the door and walked in, saying, "This room belongs to me." Then he closed the door, fearing that someone would come in.

"What about the five of us, is it one room for one or two?" Zhang Haofei looked at Wang Xuan.

Zhao Lei said: "One room is too extravagant. I think the bed is big enough to sleep two or three people. Let's open two rooms."

Wang Xuan nodded in agreement. In the end, he shared a room with Zhao Lei, and Zhang Haofei, Tie Jun and Li Haotian shared a room.

"Wang Xuan, do you think we can still go out?"

Entering the room, looking at this hotel-like room, Zhao Lei lay down on the bed, groaned in comfort, and suddenly asked.

Wang Xuan untied his armor and was about to take a bath. Hearing his question, he paused and said, "Since there is an access channel, we should be able to go out, but even if we go out, Zhao Lei, you said Earth... or we knew it before. the earth?"

Zhao Lei sat up from the bed, his expression darkened, and said, "I don't know, I don't even dare to think about it, if there is a problem with the earth, I don't dare to think about what will happen to my parents... "

He said this with a trace of pain on his face.

Wang Xuan stretched out his hand and grabbed his shoulder, lowered his voice, and said slowly: "Don't think like that, I believe that since there is such a world in this building, there must be a reason, and have you noticed that entering here? It seems that there are more and more people, I'm afraid it's not all people who are simply trapped in Longmao Square."

Zhao Lei said: "Actually, I am very scared. You said... If our parents knew that we were missing here, would they come to Longmao Square to find us, and would they also be trapped here?"

When he said this, Wang Xuan's face became ugly.

"I don't know, probably not. Even if we know that we are missing here, it is the police who come here to investigate and collect evidence, and with the terrifying technology here, no one knows what is going on. I don't think it's that simple to disappear, because it means that in this short period of time, a large number of people have disappeared in Longmao Square, and the news has already caused a sensation in the whole country."

Wang Xuan continued: "For example, the woman with a snow-white sword that the hatching beast we met just now, she had the hatching beast when we were trapped, she must have been trapped here earlier than us, but We never heard news of someone missing here before we entered Longmao Plaza, so there must be something we don't know about."

Zhao Lei felt a little relieved when he heard this, and said, "Your analysis makes sense. I just hope that everything is safe outside, and it is still the original earth. We can find the proof of the king earlier and leave here."

Wang Xuandao: "If this king's certificate is really hidden somewhere in the four districts, it will not be difficult to find. Now the east district can be ruled out, there are still three districts left, we will go to the south district to take a look after we have rested. "

When Wang Xuan said this, he felt a little thirsty, so he took out a tube of primary nutrient solution and drank it.

Zhao Lei didn't feel hungry, and said strangely: "Are you hungry again? Didn't you say that this tube of nutrient solution can last a day? I don't feel hungry at all now. Could it be that after growing into a sub-body, the body needs nutrition? Is the volume increasing?"

Wang Xuan felt much more comfortable after drinking it, and said, "This is the only explanation. I'm afraid that if I grow up, this primary nutrient solution will no longer work. The intermediate nutrient solution is not cheap."

He remembered that the intermediate nutrient solution needed a crystal scale for one tube.

Zhao Lei smiled and said, "But we will continue to become stronger, and it will become easier and easier to obtain crystal scales. Buying some intermediate nutrient solution should not be a problem."

After chatting for a while, the two felt sleepy and began to rest. After waking up, the six gathered in Wang Xuan and Zhao Lei's room and began to discuss their next actions. They soon decided to enter the southern area to find out.

After I decided to leave the room, I saw in the corridor outside that the door of another room was opened, and five people walked out.

It seems that these five people did not expect to meet Wang Xuan and several others, and they were all slightly startled.

These five are all men, aged between 20 and 40. They are more or less wearing several inferior leather armors. Only one person is wearing a full set of five inferior armors. He should be the leader of the five.

They noticed the goblin scales on Wang Xuan's body at first sight, and there was a hint of surprise in their eyes.

Wang Xuan saw that these five people were very unfamiliar, and he had never seen any of them. He guessed that he was a newcomer who had just arrived. He was resting here, and now he happened to meet him when he went out.

They didn't speak to each other. The five people looked at Wang Xuan's green-scaled armor, and it was not easy at first glance, so they didn't dare to say hello.

Wang Xuan and several others were still very interested in seeing the newcomers who entered, and wanted to communicate, but now they were too lazy to talk when they met the newcomers, and went straight out of the rest area.

The five fell behind and walked out slowly.

When he came to the hall, Wang Xuan was slightly surprised.

He didn't see Li Tao, Wen Wei, and Xu Haimeng, nor did he see the seven newcomers who came in at that time, but there were three groups of completely unfamiliar faces in the hall.

These three groups of people, with only four less people, were gathering in front of the elevator with the glass column in the center. They opened the elevator and tried to go inside, but were blocked by an invisible force, and their hatching beasts failed to grow to Asia body form, inaccessible.

There were nine people in the extra group, who gathered at the entrance and exit, talking in a low voice, and a group of six people were walking in the direction of the corridor.

These people have more or less inferior armor, only one or two less, three or four more, but only a few people can collect five sets of inferior armor.

"There are so many people here all of a sudden?"

Not only Wang Xuan was surprised, but Zhao Lei, Gu Manyao, Zhang Haofei, Tie Jun and others also opened their eyes wide and looked at each other. There were nineteen people in the hall in front of them, and they were still walking out slowly behind them. of five people, that's twenty-four people.

If you add Li Tao and Xu Haimeng, the seven newcomers who appeared at that time, and Cheng Aiguo, the total number is close to fifty.

The appearance of Wang Xuan and six people also attracted the attention of these people, and they all looked over with surprise in their eyes.

Wang Xuan and the six all have five-piece suits, especially Wang Xuan, who wears a distinctive rhino horn helmet on his head and goblin scales on his body. , This young man is afraid that the background is not small and cannot be provoked.

"We've only been here for a day or two. This change is really amazing." Zhang Haofei opened his mouth wide with an incredible expression on his face.

Tie Jun also couldn't believe it: "An underground parking lot in Longmao Plaza has trapped so many people in such a short period of time?"

In the three-story parking lot, ordinary people are trapped in it, and the casualty rate is extremely high. Now he is the only one left in the Tiejun group of nine people to walk into the lobby of this floor. Now there are forty or fifty people gathered here, including casualties. rate, the number of people trapped must be at least hundreds of people.

Gu Manyao said: "Wang Xuan, you said earlier that the rest area was prepared for a lot of people, but you really guessed it, and now there are a lot of people."

Li Haotian said: "It's not a bad thing to have a lot of people. At least it's more lively here, and I won't be so flustered. Even if we can't get out, there are still so many people with us."

When Li Haotian said this, everyone looked at him speechlessly, and it seemed reasonable to think about it carefully.

Wang Xuandao: "No matter how many new people come, we should all hurry up to raise the hatching beast to the sub-body, and finding the certificate of the king is the most important thing."

While talking, he walked in the direction of the corridor first.

The few new recruits in the hall were just observing Wang Xuan and six people from a distance, and no one approached casually. Soon they walked into the corridor leading to the four districts of the south, south, north and west, and came to the curved corridor.

Not far ahead of the curved corridor, outside the entrance to the east side, they saw six people.

These six people, four men and two women, are all unfamiliar faces, and they should be newcomers who have just entered. They gathered at the entrance of the East District and are discussing whether to enter the East District to see what happened, or to follow the curved corridor to the end first, look at this Where does the corridor lead.

Wang Xuan and six people came over, the six people stopped talking, and all looked at them.

"Let's all let him--" Zhang Haofei smiled when he saw these six people, he could see that the six people's eyes were full of curiosity and fear, and there was a hint of fear, and he enjoyed this kind of vision.

Compared with these six newcomers who just entered here, they are already old people and seniors.

Looking at the shabby armors on these six newcomers, two of them only have one, and the most one is three inferior armors. Compared with the six of them, they have a full set of armor, and Wang Xuan, the leader, is wearing a second-order sophisticated brother. Brin Scale Armor, these newcomers can't help but feel awe.

Hearing Zhang Haofei suddenly speak, they immediately stepped aside and made way out. In fact, even if Zhang Haofei didn't speak, they would voluntarily give way, and no one dared to stand in front of them.

Wang Xuan saw the restrained appearances of them standing by the side, he wanted to say hello to some of them, but he didn't dare to say hello. He thought that when they saw the single-eyed woman, they were also this kind of jealous and uneasy. When a few of them made other newcomers feel uneasy, they couldn't help showing their teeth and smiling and nodding at them.

Seeing that Wang Xuan's expression was gentle and did not seem malicious, the six of them secretly breathed a sigh of relief, and a strange feeling of flattery arose in their hearts.

Wang Xuan walked past them with the five people and walked towards the southern district in front. Zhang Haofei's eyes swept across the faces and bodies of the two women among the six people, and he was greatly disappointed. She has freckles on her face, and it doesn't matter if she doesn't look good. As a result, her body looks flat.

"It's boring..." Zhang Haofei passed in front of them and muttered something. The two women listened to them, but they didn't know what he meant by muttering.

Watching Wang Xuan and the six walking towards the depths of the curved corridor~www.mtlnovel.com~ Among the six newcomers, the woman with freckles said softly, "Bai Yan, do you think we should enter the East District to see or follow them? Look behind you?"

The man she called Bai Yan was a man in his twenties. He was wearing inferior leather armor, inferior knee pads, and inferior leather boots. He was the one with the most armor among the six, and he was also the leader of the six.

This Bai Yan hesitated for a while and said, "These six people look very powerful. I don't know where they came from. Let's follow up and take a look, but don't get too close."

They followed Wang Xuanliu from a distance and watched Wang Xuanliu open the door that said "Southern District" and walked in.

"It turns out that there is still the South District, Bai Yan, what should we do now? Should we go to the South District or go back to the East District just now?" The freckled woman liked Bai Yan a little, and kept following him closely, asking again white rock meaning.

Another dark-skinned woman said, "Since you've come here, let's go to the southern district to have a look, and then go to the eastern district to have a look later."

Bai Yan nodded and said: "I think so too. Seeing that this curved corridor has not come to an end, there may be the West District and the North District. Let's take a look at each district. It's not a bad thing to know more about the situation here."

While talking, the six pushed open the door of the southern district and walked in.

Chapter 87

Wang Xuan and six people have entered the southern area. What they can see is the front hall of a movie theater. They can see the counter selling movie tickets, drinks and snacks. There are tables and chairs in the waiting area. There are several self-service ticket machines on the left and on the right. There are several electric massage chairs, and at the end is the viewing channel.

Wang Xuan just glanced at it and felt familiar, and immediately recognized it. This is the "Wanxing Cinema" in Longmao Square. The layout is exactly the same. The only difference is that the original "Wanxing Cinema" in Longmao Square is located on the fifth floor. But in front of him appeared on the first floor.

"This is Wanxing Cinema, I've watched several movies, no wonder it looks familiar..." Zhao Lei also recognized it. Just as he said this, Wang Xuan suddenly said, "There are corpses there."

Everyone looked towards the end of the front, and there were five human corpses lying on the ground of the viewing channel. From a distance, these corpses had blood holes one by one, which were suspected to be wounds caused by the explosion, and one of them had a big half head. gone.

"It seems that someone came in before us." Wang Xuan released the metal tentacles while speaking, and said solemnly: "Everyone be careful."

Fortunately, with the previous experience in the Eastern District, everyone guessed that the Southern District should be similar to the Eastern District. It is a lair where monsters are entrenched. At this moment, they suddenly saw five corpses on the ground in the distance. , enter the combat state.

Li Haotian showed the Orion bow in his right hand, and said, "How miserable, it was destroyed by the regiment, I don't know what monsters are in the southern district, and how does it compare to the eastern district."

He just said this when he heard a voice coming from behind. He turned his head and saw that the door to the entrance and exit of the southern district was open, and six people came in.

The leader of the six was Bai Yan, who was followed by a freckled woman, then a dark-skinned woman and three men who finally walked in.

Wang Xuan glanced back at them, and recognized that these six people were the six newcomers who had just been in the curved corridor. It seems that they should have followed in the South District out of curiosity.

Bai Yan walked in with the six people and saw Wang Xuan turn his head to look at them. In his heart, he was most impressed by Wang Xuan in green scaled armor. He instinctively regarded him as the leader of the team, and he showed goodwill. Just as he was about to speak and become friends, he suddenly saw Wang Xuan's face change, and shouted at him, "Flicker!"

Hearing this, Bai Yan was stunned. He reacted very quickly. Although he didn't know what was going on, he instinctively flicked to the side.

At the same moment, there was only a "bang" sound. He had just moved half a foot, and a spark flashed from the corner of his eyes. The face of a fatter man standing behind him blossomed, blood was flying, and a lot of brains were mixed. The blood exploded, and most of his head was blown off.

"Wu Yong-"

Bai Yan screamed in horror, the man named Wu Yong had no response, and fell backwards.

The head is the key to the human body, even if it has the powerful self-healing ability of hatching beasts, if most of the head is blown up, it must be killed immediately.

Almost at the same moment, the sound of "Boom Boom" sounded in succession, and everyone was attacked.

Behind the counter selling movie tickets and drinks in front, there appeared one after another humanoid monsters with gray skin. They had bulging eyes and a white crystal scale in the middle of their foreheads. They were short and basically no larger than One meter six, they are holding weapons that are suspected to be muskets, and they can fire a kind of black marbles. Wherever the black marbles shoot, they explode wherever they go. Just now, Wu Yong was shot by one of the black marbles. In the middle of the face, half of his head was blown off immediately.

Fortunately, the speed of this black marble is slightly slower than that of normal bullets, and those who have grown to the initial state can barely dodge or resist with their full concentration.

Wang Xuan reacted the fastest, and noticed these gray-skinned monsters the moment they appeared.

He now controls the metal tentacles just like his own arm, accurately and instantly connecting the three black marbles that came from the volley.

The three black marbles were hit by the metal tentacles and immediately exploded in the air. Wang Xuan was too fast, swept a few meters, and rushed towards the oncoming ticket counter, while Gu Manyao, Zhao Lei and others could only do this. have responded.

Tie Jun lifted his diamond shield to block the black marbles that were shot at his head and face. The black marbles exploded on the diamond shield, leaving no trace behind.

Gu Manyao swayed, avoiding the black marbles that shot at him, kicked with both feet, and charged forward with the Yaochi knife.

Zhang Haofei raised his skeleton arm to block a marble shot at him. The marble exploded on the skeleton arm. He groaned slightly and shook his body slightly. Can't blast his skeleton arm.

Their strength has reached the initial state, and they have the previous experience in the Eastern District. As soon as they enter here, they are fully focused. The gray monster that suddenly appeared shot black marbles. Although everyone was not confused, they avoided or blocked, but none of them were injured. Among them, Wang Xuan, the fastest, rushed to the front counter in an instant, and it can be said that he responded quickly.

The six people, Bai Yan and the freckled woman, were miserable. Among the six people, only Bai Yan, who was the leader, had grown to the beginning, and the other five were all in their embryonic state.

Even if they were just starting out, they needed their full attention to be able to dodge or resist the attack of the black marbles. They were not strong enough. Even if they saw the black marbles, it was too late to dodge. With the flash of Bai Yan, Wu Yong took the lead. Shot.

Followed by the dark-skinned woman standing on the other side, she was hit by two black marbles in a row, and a hole was blown out in her heart and belly, and she screamed and fell back.

One face to face, two died, Bai Yan and the remaining three were shocked, and immediately turned around and fled to the exit.

When they turned around, they realized that at some point, there were several more gray-skinned humanoid monsters at the exit. Each monster held a musket in their hands, aimed them at them, and pulled the trigger.

Wang Xuan waved the metal tentacle in his right hand, and attached the black marbles that were shot in the air. The marbles looked extremely terrifying in the eyes of others, but in his eyes, the speed was not fast. He could take it easy. of hitting or dodging with metal tentacles.

An eyeball appeared on the metal tentacle, and there was a faint green light inside. The "eye of the illustrated book" opened, and immediately captured the information of these gray-skinned humanoid monsters.

"Name: Musket Goblin, Race: Goblin Race, Dangerousness: ★★ (two stars), Musket Goblins are the regular army in the Goblin family, well-trained, they are good at using muskets and firing powerful musket shells, which can be effectively carried out Long-range attack, the disadvantage is that it is weak in melee combat, as long as you get close, you can easily kill them."

While sensing the information, Wang Xuan volleyed the metal tentacles.

The metal tentacles stretched to the limit of four meters, and suddenly split in mid-air when they were drawn towards the counter, turning into two pieces. With a harsh sound, the ticket counter on the front was drawn, and immediately tore apart. Wang Xuan rushed in front of them and saw this. A look of panic shot from the bulging eyes of the musket goblin who was hiding behind the ticket counter.

Their long-range attack power is comparable to that of the beginning, but once they get close, they are vulnerable.

The two metal tentacles moved forward and wrapped around the heads and necks of two of the musket goblins. Wang Xuan pulled them up and smashed them at the other musket goblins as weapons.

The musket goblins in this row were in chaos immediately, and the four musket goblins collided, making a sound of broken bones.

Wang Xuan discovered that the bodies of these musket goblins were unexpectedly fragile, not even as good as ordinary humans. The four musket goblins collided with each other, killing them immediately, and four white scales appeared and submerged in his right hand.

Following closely behind, Gu Manyao rushed up, and the Yaochi knife in his right hand blocked a horizontal block, blocking a musket bullet that came over.

The musket shell exploded on her knife, and she rushed up with her knife and hit a musket goblin.

Once it got close, the musket goblin was vulnerable to a single blow, and Gu Manyao immediately cut his head with a knife.

Wang Xuan noticed that the musket in the hand of the musket goblin cannot fire continuously. After each shot, it needs to be reloaded. Although this time is very short, it is an opportunity for everyone.

He started a killing spree, and he killed all the seven or eight musket goblins who had been hiding behind the counter in the blink of an eye.

There was a sound of an explosion on the other side, but a group of musket goblins rushed out of the waiting area and stopped at a distance of 20 or 30 meters from them, holding their muskets and firing them at them.

This group of musket goblins numbered more than thirty, and they were fired together, and dozens of musket shells immediately enveloped them.

Tie Jun shouted loudly and took the initiative to take a step forward to meet the group of musket goblins.

"Hide behind me!" He shielded his head and face with a diamond shield and blocked it in front of him.

While Li Haotian retreated behind him~www.mtlnovel.com~, he activated "Three Arrows in One Shot", three white light arrows shot out, and the three musket goblins were hit and fell over.

Zhao Lei activated the "Scar of the Holy Spirit", and a white light flickered faintly in the cross crack on the back of his right hand. This "Scar of the Holy" could not only gain insight into the weakness, but also capture the trajectory of the musket bullet, allowing him to accurately grasp the shot. The musket bullets came over, and then dodged.

Wang Xuan had just killed this group of musket goblins. He didn't want more goblins to rush out from the other side. The two metal tentacles he controlled extended out, grabbed the half-broken counter, lifted it up, and protected it in front of him. The musket bullets that came over accelerated their speed and rushed towards the group of musket goblins in the waiting area.

"Boom boom-"

There were consecutive explosions, and the muskets shot one after another on the half of the counter, causing a huge explosion. Soon the half of the counter was blown to pieces. Wang Xuan controlled the metal tentacles and grabbed a table in the waiting area to block it in front of him. , another metal tentacle wrapped around a chair and volleyed it out.

With a whistle, the chair smashed away under the terrifying power of the metal tentacles. These musket goblins were just powerful muskets in their hands, but they were very fragile, and there was no time to dodge. One musket goblin was hit, and its body, together with The chair shattered together, killing him instantly.

Chapter 88

Wang Xuan has a way to deal with this kind of musket goblin. One metal tentacle raised the table to block the musket bullets in front of him. The table was blown up and replaced with another one immediately. The other metal tentacle rolled up the chair and kept throwing it. go out.

He threw it so accurately that almost every chair flew out to kill a musket goblin, and soon he killed six musket goblins, and rushed in front of them, causing their commotion and confusion, and began to go to the Back rout.

Bai Yan took the freckled woman and two other men, turned around in panic and wanted to escape from the South District, but found that the door at the exit of the South District had already been closed, and six or seven musket goblins were gathering there, raising their muskets and firing at them. .

Bai Yan was the only one among these people, who was much faster than the other three, let out a violent roar, squatted down, suddenly grabbed Wu Yong's body on the ground, raised his arms with all his strength, and threw it. go out.

Suddenly, this group of musket goblins didn't expect Bai Yan to do such a thing, and instinctively shot the musket at the flying Wu Yong's body.

With the sound of explosions, Wu Yong's corpse immediately became bloody.

Bai Yan followed and jumped up and hit a musket goblin. The blood-like substance on his right hand flew out. He grabbed the musket from the musket goblin's hand, and the blood substance was like a living thing, and immediately extended to on the musket.

Bai Yan didn't expect these gray-skinned humanoid monsters to be so fragile. When they were hit by him, they flew upside down and hit the wall behind them, killing them instantly.

He held the musket, and before he could study how to use it, he used it as a stick and smashed it at the other musket goblin beside him.

With a "bang", the blood-covered musket from his right hand hit the musket goblin's head, and the musket goblin's head was smashed to pieces.

The freckled girl and the other two men rushed up at this time. The freckled girl put her hands up, and an octagonal light curtain appeared. Two muskets were ejected on it and exploded, sending the octagonal light curtain out. It exploded in waves, but failed to destroy it completely.

Bai Yan tried out that these musket goblins were vulnerable to melee combat, and his heart was relieved. The muskets in his hand were smashed out, and these musket goblins were quickly resolved.

After harvesting the white scales, he felt the energy fluctuations of the hatching beasts in his right hand, and there was excitement. Bai Yan's heart moved, and he was suddenly reluctant to leave. He understood that if he stayed here and continued to hunt these gray-skinned monsters with muskets, he would There is hope to break through the promotion and let the hatching beast grow to a higher form.

Just as Bai Yan had this idea, a shrill scream suddenly came from behind him, and he was busy turning his head, but at some point, a gray-skinned monster appeared behind the freckled woman and the other two men. This monster looked like a musket. The goblin is almost the same, with white crystal scales in the middle of the forehead, and bulging eyes, but the body is much stronger, nearly 1.8 meters tall, covered with pieces of muscle, and the surface is blue like an earthworm. It is conceivable that its body must contain terror. strength.

It was wearing simple leather armor and had no muskets in its hands. It was holding a thick wooden stick that was over one meter five in length. The wooden stick was tied with iron wire and stuck with iron nails, like a simple homemade mace.

It appeared suddenly, moving much faster than the musket goblin, holding this homemade mace in his right hand, and swung it out sideways.

"Poor" hit one of the short men from behind.

This short man was hiding behind the octagonal light curtain held up by the freckled woman, with a nervous expression on his face. He just wanted to escape from this southern district as soon as possible. How could he think of being attacked suddenly in the back, causing severe pain in his back, and instinctively opened his mouth and let out a miserable cry. Yelling, there was a crackling sound, his mouth was full of blood, and his upper body was broken off by a mace.

Bai Yan turned his head to see this **** scene, sucked in a breath of cold air, and with all his strength, swung the blood-covered musket out into the air.

The musket was swung by him, and the blood covered on it immediately splashed out, covering the whole body of the goblin monster. The blood splashed on it was like a living thing, and penetrated into its skin.

It sensed that something was wrong, and it ignored the freckled woman and the other man, grabbed the mace in both hands, and rushed towards Bai Yan.

On the other side, Wang Xuan controlled two metal tentacles, one held a table as a shield to defend against musket bullets, and the other rolled up the chairs in the waiting area and threw them out as weapons.

The more you use it, the more powerful these two metal tentacles feel. They are like arms and fingers, and they move with one's thoughts. It seems that they have two more arms that are four meters long. .

In a short period of time, this group of goblins was killed by him. Although Gu Manyao rushed behind, but before she could catch up with Wang Xuan, the remaining musket goblins were killed and scattered by Wang Xuan.

It was only at this moment that she realized how strong Wang Xuan, who had grown into a sub-body, was, and how far he was from herself.

Tie Jun defended the attack of musket **** with his diamond shield, and Li Haotian kept shooting white light arrows. In this round of fights, apart from Wang Xuan, he killed the most musket goblins.

Zhao Lei and Zhang Haofei chased Gu Manyao and wanted to rush in front of these musket goblins to attack. Unexpectedly, the remaining musket goblins would be defeated by Wang Xuan after a while, and it was their turn to take action.

Suddenly there was a low roar and whistling sound, and the remaining musket goblins retreated to the viewing channel at the end, and one after another gray figures rushed out of the viewing channel. These gray figures were similar in appearance to the musket goblins, but they were taller. A lot of muscles, swollen muscles, and a simple mace made of a huge wooden stick wrapped around iron wire and nails.

They let out a huge roar and rushed towards the crowd.

Compared with the Musket Goblins, their speed and momentum are much stronger, and in terms of the speed of rushing towards them, they are even faster than Gu Manyao and Zhang Haofei.

Wang Xuan's eye of the illustrated book immediately captured the information of these giant goblins.

"Name: Goblin Warrior, Race: Goblin Race, Danger: ★★☆ (two and a half stars), Goblin warriors are melee troops in the goblin race, they have undergone rigorous and brutal training, have excellent physical quality, flexible steps Law, powerful strength, good at using all kinds of melee weapons, which makes them almost no shortcomings and weaknesses in melee combat. I must say that there are any

shortcomings, that is, their brains are not as smart as intelligent races, and occasionally they appear insufficient. Aura, of course, is not low in IQ compared to alien beasts who are generally not smart enough."

A group of goblin warriors with a two-and-half-star danger level rushed out of the viewing channel, and they let out a huge roar. Measured according to the level of danger, their strength even surpassed the general beginning.

Except for this group of goblin fighters who rushed out of the viewing channel, from the destroyed ticket counter and behind a row of massage chairs, all goblin fighters appeared. At first glance, there were thirty or forty at least. .

They held simple homemade mace and surrounded them from all sides.

Wang Xuan knew that the situation was not good, and he was not afraid of these goblin warriors, but once Gu Manyao and Zhao Lei were surrounded by groups of goblin warriors, it would be troublesome. He gave up rushing up and immediately stepped back, said solemnly. : "Everyone gathers!"

Following his voice, Gu Manyao, Zhao Lei, Zhang Haofei and Tie Jun quickly gathered together. When Wang Xuan retreated to their side, Bai Yan on the other side brought the remaining freckled woman and another inch-haired man towards them. They rushed over here, wanting to join them.

Bai Yan originally wanted to take them out of the Southern District, but he didn't want to go in and out of the Southern District. There were goblin warriors standing there, waving a simple mace and smashing them at them. Even Bai Yan felt fearful of that terrifying aura.

With their current strength, it is impossible to rush out. Once surrounded by goblin warriors, there will be no life. The only way to survive now is to rush to the place where Wang Xuan and the six people are and join forces to fight against these monsters, or there is a chance of survival.

The fastest goblin warrior smashed towards Bai Yan with a mace, and the freckled woman opened the octagonal light curtain.

With a sound of "Boom", the octagonal light curtain fluctuated violently. It only lasted for a second, and then shattered immediately. The freckled woman spat out a mouthful of blood and flew backwards screaming.

Bai Yan screamed, "Shanshan!" He stretched out his left hand, grabbed her, and led her to the place where Wang Xuan and the six gathered.

In all directions, goblin warriors surrounded one by one, murderous, and everyone had a solemn look on their faces. Li Haotian stood among the crowd and kept firing white arrows, but goblin warriors were different from gun goblins. These white It is difficult for the light arrows to threaten them in the front, and it can only slightly hinder their approaching speed.

Wang Xuan glanced at the three of them. The freckled woman was dragged by Bai Yan and rushed over. Another inch-haired man was a little slower, and a goblin warrior swept his back with his mace.

Once swept away, he will be beaten to the point of being broken and killed instantly.

This inch-haired man is just a prototype, unable to resist or dodge at all. He feels the pressure of a terrifying wind on his back, but he can't deal with it.

With a snort, a four-meter-long metal tentacle appeared, bypassing the inch-haired man, like a flexible python, wrapping around the swept mace, Wang Xuan appeared silently, and another metal tentacle stretched out. , wrap the neck of the goblin warrior along with the head, and you don't even need to use the "twisting and strangling". Simply relying on these two metal tentacles, lift the goblin warrior and smash it sideways towards the other goblin warrior.

With a bang, the two goblin warriors collided with each other, and the sound of bones breaking sounded in their bodies. Although this goblin warrior was much tougher than the musket goblin, it couldn't stand the strength of the metal tentacles. The two bodies collided. It was as if two **** of paper were rubbed together, twisted and deformed, and blood spurted out along their seven holes.

The goblin warrior who was entangled in the head and neck by the metal tentacles broke many bones, but did not die immediately. Wang Xuan used the metal tentacles as a weapon, swung it out, and smashed it towards the other goblin warriors who rushed up. .

"Peng", "Peng" and "Peng" made three huge bangs in a row, and three more goblin warriors were smashed and thrown out by him, and the goblin warrior he used as a weapon hit three times in a row, and his body finally couldn't stand it. , completely burst open, torn apart.

All this is just a breath of time. Wang Xuan killed five powerful goblin warriors in a row, and the inch-haired man, Bai Yan, and the freckled woman Shanshan were dumbfounded.

They had guessed that Wang Xuan must not be weak, otherwise it would be impossible to wear such a beautiful green scale armor, but they still didn't expect him to be so powerful. Facing these goblin warriors, it would be a one-sided slaughter.

"Is this the sub-body?" Gu Manyao and Zhang Haofei cooperated with each other to resist the attack of the hordes of goblin warriors. They all felt the pressure and it was not easy, but they found that Wang Xuan was killing goblin warriors like a dog, which made them feel When it reaches a strong gap, it is more and more eager to grow into a sub-body.

They all want to break through and become stronger.

In terms of individual strength, the goblin warriors are stronger than the general Beginning, and the danger level has reached two and a half stars, but they are fighting each other without any cooperation.

Gu Manyao, Zhao Lei, Zhang Haofei, Tie Jun, and Li Haotian have fought all the way until now. I don't know how many times they have fought together, and they have become very tacit understanding of each other. They joined together and formed a circle. Concentrate on dealing with the goblin warriors in front, and activate their own special abilities to master and comprehend, not only blocking the impact of this group of goblin warriors, but also instantly counter-killing.

Tie Jun held a diamond shield to block a mace smashed by a goblin warrior, and then launched a "savage collision". A layer of golden light appeared on the diamond shield, and extended to the whole body along his shield. The shield slammed into the face of the goblin warrior.

With a muffled groan, the goblin warrior's head rang out with the sound of a skull shattering, and his body volleyed and fell backwards.

Gu Manyao held the knife in both hands and launched the "Demon Chi Slash", a pale light shot out from the knife, like a crescent moon, cut off the swept mace, swept over the body of the goblin warrior, and a large amount of blood spurted out, the goblin warrior Her body split from it, and was split into two by her "Demon Chi Slash".

Zhang Haofei activated the "Whirlwind Bone Claw", and a white bone arm spun at high speed, the mace in the hand of the goblin warrior who was rushing towards him touched the "Whirlwind Bone Claw", he couldn't hold it, he let go and flew out. He jumped forward, the "Whirlwind Bone Claw" swept along the head of the goblin warrior, and the flesh and blood flew, and the head of the goblin warrior disappeared.

Everyone killed the goblin warriors one after another, absorbing the energy of the white scales in their bodies, feeling the excitement of the hatching beasts in their bodies, and their faces showed excitement.

If there are enough goblin warriors to hunt for them, it won't take long before they are confident that they will be able to draw enough energy to make the hatchlings grow into their third-form subtypes.

Wang Xuan kept moving. While he was defending against the attacks of these goblin warriors, he paid attention to the surrounding situation. When he saw who was in danger, he immediately released metal tentacles to save him. , like blood.

This red liquid can extend to the weapon he is holding, enhancing the power of the weapon, and it can also splash it on the enemy. After the red liquid splashes on the enemy, it can penetrate through the skin.

The infiltrated goblin warrior was obviously uncomfortable, and his fighting status was disturbed, and he was easier to kill.

"This Baiyan's hatching beast is good, and its combat power is not very high, but this red liquid can interfere with the enemy and weaken the opponent's combat power."

The freckled woman's ability is the same as that of the Iron Army, the main defense, can open an octagonal light curtain.

Compared with the Iron Army's King Kong Shield, her octagonal light curtain has a larger defensive area and can easily completely protect one or two people. The disadvantage is that the defense is slightly weaker, not as strong as the King Kong Shield.

As for the hatchling beast of the inch-headed man, there are three fangs sticking out from the back of his right hand, each about a foot long, the surface is faintly burning with flames, and there is a burnt smell where the fangs cross.

Obviously these three fangs are not only sharp, but also have a burning effect.

The two hatched beasts were just prototypes. Facing the powerful goblin warriors, the freckled woman could barely defend herself with an octagonal light curtain. I want to find an opportunity to shoot to kill with one hit.

He understands that the monster in front of him is powerful, and the energy contained in the white scales in its body is also powerful. If he can seize the opportunity to hunt down one or two, he will have hope of breaking through the prototype.

In just a short period of time, Bai Yan's special abilities began to show more and more obvious effects. Many goblin warriors whose bodies were soaked with his blood were swaying, and the attacks of the mace in their hands lost their precision, as if they were drunk. .

The freckled woman and the inch-haired man saw the opportunity and immediately launched a counterattack.

The inch-haired man stepped forward, and the three fangs in his right hand slid across the neck of a swaying goblin warrior, almost cutting off its head.

The octagonal light curtain spread by the freckled woman's hands converged, turning into a lightsaber more than a foot long, stabbing into the heart of a goblin warrior facing her.

Wang Xuan saw that the beasts they hatched were just prototypes, but they were able to kill the goblin warrior with a two-and-half-star danger. It can be said that it was all because of Bai Yan's special ability. The woman and the inch-headed man succeeded.

The idea of incorporating this white rock into his team rose in his heart.

The inch-haired man killed two goblin warriors in a row, and the three fangs on the back of his right hand began to change.

Wang Xuan glanced at it and understood that this inch-haired man had broken through, and had grown from the embryonic form to the beginning form.

The three fangs, which were originally one foot long, grew to a foot and a half, and the thin flames surrounding the fangs became hot, and the aura emanating from his body more than doubled immediately, and the speed of the shot suddenly accelerated, moving towards the front. A few wobbly goblin warriors pounced.

Only one step behind the man with inch hair, the woman with freckles also broke through and was promoted to the beginning.

At this moment, Wang Xuan didn't know how many goblin fighters he had killed. Gu Manyao, Zhao Lei, and Zhang Haoifei joined together. Everyone was desperately trying to hunt down as many goblin fighters as possible to absorb the energy of white scales. All are fallen goblin warrior corpses.

With the continuous fighting, especially the use of the powerful special ability, whether it is Gu Manyao's "Demon Chi Slash" or Zhang Haoifei's "Whirlwind Bone Claw", the power is certainly powerful, but like Wang Xuan's monster arm, The more powerful the ability, the greater the loss of physical energy.

Without using this special ability, it is difficult for them to kill these goblin warriors with a danger of two and a half stars, but using the special ability continuously will accelerate the loss of physical energy. They soon feel exhausted, and the speed slows down. in danger.

Wang Xuan saw a goblin warrior wielding a mace and smashed it towards Zhao Lei's side. At this moment, Zhao Lei had just killed a goblin warrior, and when the fish-scale knife in his hand was stuck in the bones of the goblin warrior's body, he felt that as the battle continued. , his arms were a little sore, and it was too late to pull out the fish scale knife to defend.

Seeing that he was about to be hit on the left shoulder by the mace, Wang Xuan saw it in his eyes, and with a wave of his right hand, a metal tentacle rushed over like a giant python, entangling the mace that hit Zhao Lei, and then Pulling hard, he snatched the mace from the goblin warrior's hand.

The goblin warrior lost his mace and slammed forward, his fist firmly hitting Zhao Lei's chest.

Zhao Lei groaned, his chest collapsed into a fist mark, his throat was sweet, and a mouthful of blood gushed out.

The goblin warrior wanted to make another punch. Wang Xuan appeared, and another metal tentacle wrapped around its neck, and the "twisting and strangling" was activated. In the harsh sound of bones shattering, the goblin warrior's The neck was twisted and broken by the metal tentacles.

A shout sounded, UU reading www.uukanshu.com. There was a faint pain in the com, but Gu Manyao was injured and was swept across one leg by a goblin warrior's mace.

Although she was protected by inferior knee pads, Gu Manyao's calf was still broken immediately. She stood unsteady, knelt on one knee, swung the demon chi knife with her right hand, and launched "Yao Chi Slash", a knife light flew out, the goblin The soldier took a step back, raised his mace with both hands, and actually blocked the invincible "Demon Chi Slash".

With a "chi" sound, the mace in its hand was cut off by the "Demon Chi Slash", and the goblin warrior took advantage of the momentum to throw away the mace in his hand and slanted it, narrowly avoiding it.

The power of this "Demon Chi Slash" was obviously below the standard. Gu Manyao's face was as pale as paper, and there were beads of sweat on her forehead. She began to feel intense fatigue and lack of energy. Even "Demon Chi Slash" lost its original power. .

Zhao Lei and Gu Manyao were injured one after another, and the situation of the other three was not much better. Li Haotian said anxiously, "Wang Xuan, shall we withdraw?"

Seeing that there are still goblin fighters pouring out all around, in addition to the goblin fighters killed by them, there are at least 30 goblin fighters rushing towards them frantically.

And the most terrifying thing is that no one knows how many goblin warriors are hidden in the dark. If they keep appearing, no matter how powerful they are, they will be dragged to death here.

Chapter 89

Wang Xuan can't support the tree alone. Seeing that the ground is full of goblin corpses, each corpse represents a crystal scale. Now that they escaped, these crystal scales could not be picked up in time. After they rested, they returned to the southern district. I don't know if these corpses and crystal scales are still there.

Previously, the floor of the hall had a self-purifying and cleaning function. Will the ground in this southern area have the same ability?

If this is the case, then once they escape, so many crystal scales here may be wasted.

"Move in the direction of the exit!" Wang Xuan had an idea in his mind and made a decisive decision. He waved the two metal tentacles in his hand, and immediately tore a gap from the group of goblin warriors facing him. Gu Manyao, who had difficulty moving a calf, led everyone towards the exit.

Bai Yan was busy following behind with the newly promoted freckled woman and the short-headed man.

After the freckled woman grew up to the beginning, the octagonal light curtain not only had a wider range of defense, but also improved its defense. She stretched the octagonal light curtain to protect it at the back, and defended it while retreating. The goblin warrior rushing up behind.

These goblin warriors kept roaring and roaring, but they couldn't shatter her octagonal light curtain for a short time.

Although everyone has no confidence that they can kill all the goblin warriors here, but they want to escape, and these goblin warriors can't stop it.

Wang Xuan quickly took everyone to the door where the exit was located, and saw three goblin warriors blocking the door ahead, trying to prevent them from opening the door and leaving.

The two metal tentacles controlled by Wang Xuan suddenly merged into one and turned into a thicker metal tentacle.

With a "snap", the goblin warrior standing in the middle only felt a flower in front of his eyes, and his head was hit, and his brain burst immediately.

The metal tentacles swung to the left and right, and swept over the foreheads of the goblin warriors on the left and right.

The foreheads of the two goblin warriors collapsed like paper, and the bones inside could not withstand the blow of the metal tentacles, and shattered immediately.

The three goblin warriors were killed instantly. Wang Xuan stepped forward, but did not open the door to leave. Instead, he threw the injured and broken leg Gu Manyao by the door, turned around to protect her, and said solemnly: " We will guard here in two batches, Gu Manyao, Zhao Lei, Zhang Haofei, and Tie Jun, the four of you will rest immediately, and the others will guard here with me, and if you really can't hold it, then leave."

Zhao Lei, Zhang Haofei, and Tie Jun who received his order were slightly startled, and then they came to understand. Wang Xuan didn't want to give up, but wanted to make a last move, so he immediately stepped back to the door, sat down beside Gu Manyao, and took his leave. The hatching beast begins to rest, in the hope of recovering its stamina early.

"The four of you hold on, stay here with me, and wait for them to recover to take over for you."

Wang Xuan knew that the freckled woman and the inch-headed man had just broken through the initial breakthrough. During the breakthrough, not only would their physical fitness not be lost, but they would be further improved. The hatching beasts of Li Haotian and Bai Yan decided that they would not lose their physical strength in the battle just now. Zhang Haofei and the others are so serious.

Compared to the four people who were almost unable to hold on, and connected to the injured Gu Manyao and Zhang Haofei, the few of them barely had the strength to fight.

Now that everyone has retreated to the door, with their backs facing the door, the space to be defended is reduced by half, and the pressure is greatly reduced.

Bai Yan, the freckled woman, and the inch-headed man originally wanted to escape, but now they have reunited with Wang Xuan and the others. They have even been promoted to the beginning of Qi, and their confidence and strength have greatly increased. After hearing Wang Xuan's words, they agreed. With a bang, go all out to defend against the goblin warriors rushing up, and fight for a rest time for the four Zhao Lei.

Gu Manyao and Zhao Lei leaned against the door to rest on the spot, hoping to recover their physical strength as soon as possible.

One of the most troublesome is Gu Manyao. One of her calf was fractured, and it is difficult for her to fully recover in a short period of time.

Wang Xuan looked around and found that there were about thirty goblin warriors alive here. Except for these thirty, no new ones appeared from the distant viewing passage, the counter and the back of the row of massage chairs. Goblin Warrior.

Seeing this situation, he was instantly relieved.

What he is afraid of is the endless stream of goblin warriors. No matter how strong and strong he is, he will eventually run out of energy, but now that there are no new goblin warriors, there is nothing to be afraid of.

Red liquid constantly appeared in Bai Yan's right hand, covering the musket in his hand, and then spilled along the musket, splashing on the goblin warriors who were rushing upward.

This red blood-like liquid not only penetrates into the bodies of goblin warriors, interferes with and weakens their thinking and balance, and then affects their combat power, but also has various uses, and can be attached to any object touched by his right hand, forming a powerful lethality.

He can get anything at will and can use it as a powerful weapon. If he doesn't get the item, he will cover his right hand and right arm with blood and turn it into a blood sword. This is his strongest weapon, and this is also his The reason why he does not need to carry a weapon with him, but he rarely uses it, this is his ability to press the bottom of the box, and he will not use it casually unless there are special circumstances.

At this moment, he was holding the musket he took from a musket goblin. The musket was covered with blood, and the blood on both sides stretched out into a thin piece, like a blood-red giant sword with an edge, and between the slashes, Cutting iron like mud is comparable to the fish scale knife held in Zhao Lei's hand.

With each slash, the goblin warriors, swayed by the penetration of blood, could not dodge, or be disemboweled, or beheaded.

One after another, white scales flew to his right hand, and were energized by his hatching beasts, hoping to grow stronger.

His performance was astonishing, he killed three goblin fighters in no time, but Wang Xuan's performance was even more astonishing, he killed six goblin fighters in a short time, twice as many as Bai Yan.

In less than ten seconds, the number of goblin warriors surrounding him was reduced by one-third.

In order to maintain his stamina, Wang Xuan did not use the giant arm of the beast, which is powerful but consumes a lot of stamina, but simply controlled the two metal tentacles to attack. He rushed into the remaining goblin warriors, each of which wrapped a goblin. The soldiers used it as a weapon to smash the goblin soldiers around, the scene was very crazy.

Bai Yan took the freckled woman and the short-headed man, plus Li Haotian, to guard the door, guarding Zhao Lei and Gu Manyao, who were resting on the ground, to defend against the goblin warriors that rushed up from Yu Shang.

Li Haotian saw these goblin warriors swaying, as if he was drunk. He didn't know how to dodge. He seized the opportunity and pulled the Orion bow in his hand. Shoot it out a huge blood hole.

Although this goblin warrior was tenacious, his brain was pierced, and he fell to the ground and died soon after.

Li Haotian shot three arrows in a row, killing one goblin warrior with one arrow, and Bai Yan also killed two goblin warriors.

Wang Xuan then rushed into the hordes of goblin warriors and started slaughtering.

The last 30 goblin fighters gathered around were killed ten in a row by Wang Xuan. Li Haotian and Bai Yan, the freckled woman and the short-headed man joined forces to kill about ten. The last remaining goblin fighters were finally defeated and turned to face He fled to the viewing channel behind, and soon disappeared there.

Wang Xuan did not chase, and let the last ten goblin fighters escape, looking at the corpses of goblins, he let out a long sigh of relief.

After he stopped, he felt weak hands and feet, collapsed for a while, and a strong feeling of exhaustion poured out of his heart.

Although his Warcraft has grown to the third form of the sub-body, in the process of hunting monsters, he can continue to obtain white scales, so that the Warcraft can absorb new energy and seems to be able to fight all the time, but in fact, anyone's body can withstand it. All have limits.

In the continuous battle and the use of the special abilities of Warcraft, his body has to endure the outbreak of this terrifying power. After a long battle, when he stops at this moment, he can feel the pain in his hands and feet, which is faintly painful. The warning signal that the body is overwhelmed, and the faint pain represents the internal damage of the body.

Fortunately, after stopping, and restraining his strength, his powerful self-healing ability will slowly repair this kind of internal damage of the body, leaving no trouble.

After retracting the metal tentacles, Wang Xuan sat down and rested on the spot. The corpses all over the floor could at least harvest sixty or seventy crystal scales, which was a big harvest.

But now everyone is too tired. It is not an easy task to find all the peeled crystal scales among so many corpses.

Although Bai Yan and the others wanted to pick up the crystal scales when they saw it, they didn't know what Wang Xuan and the others meant, and they didn't dare to pick them up casually. After all, most of these goblins were killed by Wang Xuan and the others. That's trouble.

Zhao Lei watched the last goblin warrior escape, with a hint of excitement on his face, and said: "Wang Xuan, thanks to your perseverance, otherwise we escaped and returned to the southern district without knowing whether these corpses are still there, or if someone else picks it up, then we will lose a lot."

Zhang Haofei snorted, "Who dares to pick up our crystal scales? It's almost like courting death."

He has always been domineering, especially now that he found that almost all the people who came to this floor were weaker than them, let alone these newcomers.

Wang Xuan smiled and said: "These scales can buy at least two second-order armors, and of course they can't be given up."

Bai Yan took the freckled woman and the inch-headed man to sit down to rest. Although he was moved by the crystal scales, he also knew that he couldn't be greedy at the moment. He was thankful that the three of them could survive now. He couldn't help being a little curious when he heard this: "Two What is tier armor?"

Wang Xuan explained: "The inferior leather armor and knee pads you are wearing are first-order armor, and where the armor is sold, the iron armor sold in the machine in the row on the right is second-order armor."

Bai Yan snorted, indicating that he understood.

"What's your name?" Wang Xuan likes Bai Yan's ability very much. If he encounters powerful monsters, this ability may play a huge role.

Bai Yan was a little flattered when he heard Wang Xuan asking about his name, and was busy saying politely, "My name is Bai Yan, this is Yu Shanshan, this is Lu Zhiwu."

Bai Yan said the names of himself and the freckled woman and the inch-headed man.

"My name is Wang Xuan, are you willing to join our team?"

Bai Yan was startled.

The team of six of them is now only three dead. He wanted to join, but he didn't know how to speak. He was afraid of being rejected by Wang Xuan. It would be too embarrassing. Overjoyed, busy nodding.

"Of course, we will listen to you, Brother Wang."

Bai Yan had just witnessed the power of Wang Xuan with his own eyes, and knew that in this dangerous and unknown place, following the strong was the best choice, and immediately respectfully called Wang Xuan Brother Wang.

Neither Yu Shanshan nor Lu Zhiwu had any objections, so the matter was settled.

"It's nice to have three new teammates. Welcome, my name is Zhao Lei." Zhao Lei introduced himself with a smile on his face.

Wang Xuan turned his head to look at them and said, "Let's all introduce yourself, we will be teammates of the same team."

Gu Manyao and Tie Jun reported their names, and the two sides had a preliminary understanding.

Wang Xuan said: "Bai Yan, what is your hatching beast, it looks very special."

"It's called Wu Xue, there's nothing special about it, it's just normal, Brother Wang, your hatching beast is amazing."

Wang Xuan shook his head and said: "Not normal, I just saw that you can sprinkle this witch blood on the body of the goblin warriors during the battle, and then they walk swaying like they are drunk, this is the witch blood. ability."

Bai Yan did not deny it, nodded and said: "Yes, this is an ability of witch blood, which can penetrate into the enemy's body under my control, affecting their sense of balance and thinking ability."

Zhao Lei and Gu Manyao were fighting with the goblin warriors with all their strength before, and no one dared to be distracted to pay attention to the battle situation of Bai Yan. After they sat down to rest, they began to notice that the situation of the goblin warriors was abnormal~www.mtlnovel.com~ There were many guesses in their hearts. , At this moment, it was confirmed, and they all showed surprise.

They were not stupid, they immediately knew that Bai Yan, the incubating beast witch blood, was powerful.

"No wonder Wang Xuan took the initiative to invite them to join us..." Zhang Haofei murmured in his heart, and he only understood it now.

"Today's harvest is not small. There must be at least 60 or 70 crystal scales. If there are more goblin warriors like this, I will definitely be able to break through and rise to the sub-body." Zhao Lei's face showed a satisfied and excited look.

Bai Yan also learned through chatting with them that on top of the beginning of the second form, there is a more powerful third form subtype, and Wang Xuan is the only subtype among them all.

Everyone chatted while resting, and asked each other about each other's situation. Wang Xuan knew that Yu Shanshan's hatching beast was named Guangjing, and Lu Zhiwu's hatching beast was Fire Wolf.

With the rest, everyone's physical strength is slowly recovering, only Gu Manyao's calf wants to be fully integrated, it will take some time.

Zhao Lei felt that his physical strength had recovered by more than half, so he stood up and said, "Let's get up first and collect all the crystal scales."

At this moment, the door behind them opened silently.

Chapter 90

Wang Xuan looked up and saw seven more people at the door.

These seven people, five men and two women, basically all had a full set of inferior armors, especially a man in his thirties, who was wearing a heart-protecting iron armor on his upper body. attention.

This armor is a second-order common equipment, made of gray iron and yellow rhino skin. It has double defense and can increase the wearer's stamina recovery speed by 10%. It can be purchased at the armor vending machine for 30 crystal scales. The inferior leather armor of the order is much better.

Of course, it couldn't compare to the second-order sophisticated goblin scales on Wang Xuan's body.

The seven people opened the door and suddenly saw the **** scene full of corpses in front of them.

Their eyes swept over Wang Xuan who was resting on the ground, and then looked at the goblin corpses all over the floor, their eyes couldn't hide their astonishment.

One of the five men and two women, a long-haired woman suddenly murmured, as if she had discovered something, she took a step forward, bent down and picked up a crystal scale from the corpse of a goblin warrior.

It was only at this time that they noticed that the corpses all over the ground had faint crystal luster fluctuations, and there were actually many crystal scales scattered in them. They knew that these were all automatically peeled off from the corpses after the death of the monster.

"Put it down!" Suddenly, Zhang Haofei stood up and stared at the long-haired woman with a bad look on his face, and let out a loud shout.

The long-haired woman was taken aback by his loud shout. Anger flashed on her face. She glared at Zhang Haofei and put away the crystal scale she picked up.

Zhang Haofei snorted and said, "We killed all these monsters. These crystal scales are all ours, but we haven't picked them up yet. How about you guys, want to rob us?"

Tie Jun, Li Haotian and Bai Yan stood up one after another.

Wang Xuan was sitting behind them and stood up slowly at this moment.

Everyone stood up one after another, and the seven people at the door all showed an alert look, and the atmosphere between the two parties suddenly became tense.

The man in his thirties who was wearing the armor of heart protection suddenly grinned and said, "It's just a misunderstanding, we don't mean it."

Then she looked at the long-haired woman who had retreated to her side and said, "Xiaorou, give them that crystal scale. These monsters were killed by others. These crystal scales are their trophies. Give them back."

This Xiaorou was obviously dissatisfied, but she did not dare to go against the man's intentions. Without saying a word, she took out the crystal scale she had just put away and handed it to the man's right hand.

The man stretched out his right hand, and the crystal scale was on his palm. With a faint smile on his face, he said, "Little brother, the crystal scale is here, come and get it."

Zhang Haofei stared at him with that half-smile look that was a little unnatural. Looking at the crystal scale in the palm of his right hand, he didn't dare to take it for a while.

This man can wear the heart protection armor that he can only buy with thirty crystal scales. It is by no means simple. An idea immediately popped into Zhang Haofei's mind, that is to get the crystal scales himself, what if the other party suddenly shoots at him ?

Zhang Haofei hesitated slightly, but Wang Xuan had already walked up to the man.

Turning around, the man looked at the rhinoceros horn helmet on Wang Xuan's head and the Golimb scales on his body, his eyelids twitching slightly.

Without saying a word, Wang Xuan reached out and took the crystal scale.

The man's mouth twitched, a smile appeared on his face, and he withdrew his right hand and said, "Brother, this scale armor is pretty good, you can't even buy it, you got it from hunting monsters, right? My name is Fu Zhongyi, how about making friends? , I don't know what to call my brother."

"My name is Wang Xuan."

Wang Xuan announced his name, Fu Zhongyi nodded with a smile, and said, "Then this southern district... can we come in?"

Wang Xuan took a step back and smiled lightly: "The southern district is not ours, anyone can come and go freely."

Fu Zhongyi laughed, nodded at him again, and walked in with Xiaorou and the other five.

"It's the first time I've come to this southern district, so we'll go in and have a look, and we'll have a chance to talk again."

"Okay, let's talk next time." Wang Xuan also nodded towards him and smiled.

The original tension has eased a little now, and Zhang Haofei, Zhao Lei, and Tie Jun also slowly retreated.

Fu Zhongyi smiled and nodded towards everyone, looking peaceful, and walked inside with his own group of people.

When Wang Xuan, Zhao Lei and the others couldn't see his face, the smile on Fu Zhongyi's face disappeared.

"Big Brother Fu, these people are so domineering, I just picked one up and looked at their vicious looks like they were going to eat people."

Xiaorou followed Fu Zhongyi and whispered in a low voice, she was full of discomfort at Zhang Haofei's loud shout just now.

Fu Zhongyi said softly: "It's not easy for these people to kill so many monsters, especially the one named Wang Xuan in the lead, even I'm not sure..."

He said this with a slight sneer on his face. If he was sure, these people would not be able to leave this southern district today.

"Unfortunately, I just estimated that there are at least 60 or 70 corpses of monsters on the ground. If each corpse has a crystal scale, it is 60 or 70..."

Xiaorou's tone was full of regret.

For them, sixty or seventy crystal scales are a huge sum of money that can make people jealous.

Wang Xuan, Zhao Lei and the others watched as the seven Fu Zhongyi disappeared into the viewing channel at the end of the movie. The monsters in this area were cleared by them. The seven Fu Zhongyi wanted to find new monsters, only Can enter the viewing channel.

Wang Xuan watched the backs of Fu Zhongyi's seven people go away, the smile on his face disappeared, and his brows wrinkled slightly. He could feel Fu Zhongyi's vague hostility, not as kind as he appeared.

But Wang Xuan was not afraid.

"This Fu Zhongyi is so **** good at pretending, sooner or later, I want them to look good!" Zhang Haofei was scared by him just now and didn't dare to take the crystal scales.

"Okay, don't worry about these people, everyone, hurry up and pick up the crystal scales on the ground, so as not to wait for a newcomer to come, it must make people jealous." Zhao Lei said while taking the initiative to pick up.

Except for Gu Manyao, who couldn't move his broken leg casually for the time being, the other eight people started looking for crystal scales all over the floor.

"By the way, Bai Yan, I forgot to tell you one thing. Since we are a team, all items and resources are allocated uniformly. The crystal scales obtained this time are handed over to Wang Xuan for unified custody. Are you okay? Zhao Lei saw that Bai Yan, Yu Shanshan and Lu Zhiwu were also picking up crystal scales. He suddenly remembered something and hurriedly explained.

Bai Yan was stunned when he heard this, then smiled: "I see, I'll listen to everyone."

Zhao Lei saw that Bai Yan was a little hesitant, stretched out his hand and patted him on the shoulder and said, "Don't worry, everyone will be a teammate in the future, and will not treat you badly. A whole set of equipment like ours is no problem."

Wang Xuan heard Zhao Lei talking about equipment, thinking that he still had three leather armors and two knee pads in his Xumi mustard space, so he opened his left pocket and took it out.

Seeing Wang Xuan's magic, the three Bai Yan suddenly took out the leather armor and knee pads, and their eyes were straight.

Bai Yan stared at the Xumi belt around Wang Xuan's waist and said, "Brother Wang, this is..."

Zhao Lei laughed and said, "It's called the Xumi belt. It's a treasure. It can hold a lot of things in it. That's the main reason why we handed everything over to Wang Xuan for safekeeping."

Bai Yan suddenly realized, with a look of envy on his face.

Yu Shanshan said incredulously: "It's unbelievable that there is such a treasure."

Neither Yu Shanshan nor Lu Zhiwu had leather armor, so they took it over. Bai Yan didn't have knee pads, so he took the knee pads.

He originally had three pieces of inferior equipment, plus knee pads, and now there is only one handguard missing.

Yu Shanshan originally had a helmet and knee pads on her body, but now she has leather armor, but she also lacks handguards and leather boots.

Lu Zhiwu was the least equipped of the three, with only one helmet, and now he was wearing leather armor and knee pads, but also lacked handguards and leather boots.

As for the three people who died on the ground, the pitiful equipment on their bodies was basically destroyed and could not be repaired. Only one helmet could be used, which was put away by Wang Xuan.

All the crystal scales were quickly collected and handed over to Wang Xuan, a total of 67 pieces.

Wang Xuan put it away, and now the number of crystal scales owned by everyone has reached 149.

The Iron Army picked up a musket used by a musket goblin, held it in his hand, loaded it, aimed and fired, and hit it on a table not far away with a bang, immediately smashing the table.

"This musket is powerful. The downside is that it needs to be reloaded every time it shoots, and it cannot fire continuously. The rate of fire is slightly slower, but it is a big killer for newcomers. Generally, it requires full attention to defend and dodge at the beginning."

Tie Jun looked at Wang Xuan when he said this, and said, "We should collect all these muskets. Even if we don't need them, if we sell them to newcomers, they will be very popular."

"Where did the bullets for this gun come from?" Wang Xuan also picked up a musket. He was very interested in guns, but he hadn't had access to them before. Although the power of the musket in front of him was not strong, it still aroused his interest. Open the "eye of the illustrated book" to see if there is any introduction about this musket.

There is a huge amount of various information stored in his "Illustrated Eye". He can see not only the detailed information of alien beasts, but also various items and equipment. Unfortunately, when he observed this musket, he could not find any information about it. Introduction to guns.

Tie Jundao: "I guess it should be the same principle as the armor we wear. It may be equipped with some kind of special energy crystal, and the energy is compressed to form bullets by loading the chamber, so the chamber needs to be loaded before each shot. The disadvantage is the speed. Slightly slower, the advantage is that as long as the energy of the crystal inside is not exhausted, it can be used all the time, and there is no need to use additional bullets."

Wang Xuan listened to Tie Jun's introduction and felt very reasonable. The principle of this musket is probably the same.

He has a space for mustard seeds, and he is not afraid of not being able to fit them. Soon everyone gathered up all the muskets here, and there were a total of 27 guns, all of which were put into his pocket.

Zhang Haofei smiled and said, "If you really sell it, how many crystal scales do you think would be appropriate?"

Zhao Lei said: "An ordinary stainless steel knife can sell one crystal scale. This gun is better than a knife. At least five or ten crystal scales can be sold."

Wang Xuandao: "I'm afraid it will be more difficult. Those who can earn so many crystal scales will not be too weak. They may not like this musket. Those who like it may not be able to get many crystal scales."

Gu Manyao said: "If you want to say that, I think the price of five crystal scales is more reasonable, and there should be people snapping up."

Wang Xuan said: "If we can't sell it, we will keep it for ourselves. Who among you wants it?"

He just tried firing a musket once, and it felt good.

Yu Shanshan immediately raised her hand, indicating that she wanted one.

"Okay." Wang Xuan took out a musket and threw it to her.

"I want one too." Lu Zhiwu also stretched out his hand.

After that, everyone except Li Haotian asked for one. Since this thing does not need to be filled with additional bullets, it only needs to be loaded and fired. Before the crystalline energy in the musket is exhausted, it is like infinite bullets. For everyone Quite convenient.

When everyone got it in their hands, they were all trying to launch the test head.

Li Haotian has an Orion bow. For him, the function of this musket is similar to that of an Orion bow, and he may not even have an Orion bow, so he doesn't need it.

After everyone stayed here for a while, Gu Manyao's calf could finally move. Seeing her stand up, Zhang Haofei immediately got up and shouted, "Finally you can leave."

"How do you feel now?" Wang Xuan asked Gu Manyao.

Gu Manyao moved her calf and said, "No problem, you can go."

Wang Xuan glanced at everyone and said: "Then let's continue to look inside, and strive for everyone to gain more today. Of course, it is best to break through a few sub-types. Bai Yan and Yu Shanshan, do you have any questions? ?"

Bai Yan, Yu Shanshan, and Lu Zhiwu immediately shook their heads to indicate that there was no problem.

Bai Yan's eyes flashed, and he was very eager to break through the sub-body.

"Bai Yan, your witch blood is quite special. If you encounter monsters next, remember to use your witch blood's special ability as soon as possible to reduce the strength of these monsters."

Bai Yan nodded and said, "Don't worry, Brother Wang, I know what to do."

Wang Xuandao: "Okay, everyone must be prepared. The musket goblins and goblin warriors we encountered here are not weak. The musket goblin's strength is comparable to that of Chu Kai, and the strength of the goblin warriors is even higher than that of ordinary people. In the beginning, the monsters we encounter next cannot be weaker than them, or even stronger."

"No matter how powerful the monster you encounter, everyone must remember not to panic. Brother Tie and Yu Shanshan, your hatching beasts are mainly defensive. You will be one after the other in the team later. What kind of attack, you must open the diamond shield and light mirror to block the attack."

Bai Yan, Yu Shanshan, and Lu Zhiwu had just joined the team, and Wang Xuan made a special exhortation.

A team of nine people, Wang Xuan took the lead, Tie Jun and Bai Yan followed him closely. Tie Jun's task was to face an emergency in front of him, and he could quickly defend it with a diamond shield.

Bai Yan's task is to spill witch blood and reduce the opponent's strength.

Li Haotian, who was attacking from a distance, was in the center. After Yu Shanshan and Lu Zhi made a decision, if there was danger later, Yu Shanshan could immediately open the octagonal light mirror for defense.

Entering the viewing channel, you can see from a distance that the channel has a wide range and is divided into several channels, each of which leads to a different viewing hall.

There is a door on the wall at the end of the passage, and on the wall next to it is written Auditorium No. 1.

"Just now, Fu Zhongyi and the others don't know where they went? Why is there no movement at all?" Zhao Lei followed behind Wang Xuan, looked around, and found that the surroundings were silent, no one was seen, and no monster's body was seen on the ground. .

Wang Xuan said: "Don't worry about them." He released metal tentacles and wrapped them around his right hand. Although he had killed a large number of musket goblins and goblin warriors just now, for him, who was already a sub-body, the musket goblins and goblin warriors were not the same. The energy of the scales could not satisfy his demon beast, and the energy fluctuations of the white light in his right palm had always been relatively weak, which made him a little eager to hunt more powerful monsters.

"I'm afraid that at least hunting monsters with a three-star danger can make my Warcraft excited again."

Wang Xuan thought silently, according to the comparison of the degree of danger and the hatching beast, a monster with a three-star danger degree is roughly equivalent to the third form of the hatching beast's sub-body.

A group of nine people quickly passed through the passage and arrived at the No. 1 movie theater at the end.

"Go, go in and have a look." Wang Xuan released the metal tentacles and directly hit the two closed doors of the cinema hall.

With a bang, the two doors were smashed open.

It was pitch black in the movie theater, Wang Xuan didn't walk in immediately, but stopped in place and waited for his eyes to get used to it, and then slowly walked in with everyone.

The movie theater is not big. Wang Xuan walked in and immediately saw the bodies of more than a dozen musket goblins lying on the ground. The chairs used for watching movies were damaged. It can be seen that fierce battles took place here before. .

"It seems that Fu Zhongyi and the others came in, killed these musket goblins, and then left." Zhao Lei touched his nose and immediately expressed his speculation.

"None of these seven people died, it seems that their strength is not bad." Zhang Haofei's tone was a little regretful.

"Let's go." Wang Xuan saw that the musket goblins here were all killed, and their muskets and peeling crystal scales were gone. They should have been taken away by Fu Zhongyi and others.

Exit the No. 1 Cinema, and on the left side of the crowd is the No. 2 Cinema.

Everyone entered the No. 2 movie theater again. There were no monster corpses here, and the seats were all intact, and there was no trace of fighting.

The nine people went in to investigate and determined that no monsters appeared here, and then walked out.

Wang Xuan pondered: "I originally thought that these movie theaters would be the nests of goblins, but now it seems that is not the case."

Gu Manyao said: "It's quiet here, and Fu Zhongyi's seven people shouldn't be here anymore, but we didn't see them leave just now. I guess there are other exits here."

Wang Xuan said: "Yes, there may be a back door or something, let's look for it."

A group of people walked in along the passage on the right. At the end of the passage, they saw two closed doors, but they didn't know where to go.

"This may be another entrance and exit of the cinema." Wang Xuan released a metal tentacle and put it on the handle of one of the doors. He was about to pull it open, but he didn't want the two doors to automatically shrink into the walls on both sides and slowly Open.

"Sure enough." Zhao Lei was refreshed.

Wang Xuan still stood still, waiting for the two doors to fully open. After a pause for a few seconds, he released his metal tentacles to explore the way ahead, and walked in slowly.

After walking out of this door, everyone was slightly stunned.

Although everyone guessed that there is another way out, they never expected that after walking out of here, they saw a huge indoor playground.

Looking up at the sky, at least it is 40 to 50 meters high. If you look around, this indoor playground is so huge that you can hardly see the end at a glance. There are pirate ships, roller coasters, merry-go-rounds, bumper cars, haunted houses, and even a huge giant in the distance. Ferris wheel, the highest point almost touched the top above.

If you hadn't seen it with your own eyes, it would be hard for everyone to imagine that there would be such a huge indoor space that could accommodate a formal playground.

"It's hard to imagine... What kind of technology did this come out of, such a high roof doesn't need support... and it won't collapse." Zhao Lei touched his nose, stunned.

Gu Manyao was still calm, and said, "It's nothing unusual, we even have more amazing hatching beasts, so what's the point in front of us."

Zhao Lei smiled and said, "This seems to make sense."

Wang Xuan's heart moved slightly, and he suddenly thought of the woman with a hot body and a snow-white long sword that he saw earlier. Before she entered the elevator, she was holding a clown mask in her left hand.

He still remembers observing the clown mask with the eye of the illustrated book, and the information obtained shows that it is the mask of the clown in the playground.

He has always been curious about what this clown mask is used for. It is neither a weapon nor equipment. Now, when he suddenly sees this huge indoor playground in front of him, he suddenly thinks of the clown mask.

"Could this woman be the clown mask obtained in this playground? Since she is holding it, she must have some special purpose, but I don't know it yet."

While thinking about it, Wang Xuan walked in slowly. At this time, he heard a roar from the left~www.mtlnovel.com~ It was the roar of an alien beast, and suddenly stopped abruptly.

He immediately looked up, and there was a large haunted house there, and the roar of this alien beast came from the large haunted house.

"Let's go and have a look." Wang Xuan immediately walked towards the haunted house. There was a ticket office right in front of them. The nine people had just walked a few steps when they saw gray figures one after another coming out of the ticket office. The rear turned out.

These gray figures, holding homemade simple mace and wearing simple leather armor, are goblin warriors.

Groups of goblin warriors suddenly appeared, and everyone was not surprised but delighted, and immediately greeted them.

They had killed so many musket goblins and goblin warriors before, and everyone gained quite a lot. Their hatched beasts had absorbed a lot of scale energy. Now that they saw this group of goblin warriors, they saw the hope of a breakthrough in promotion.

With a musket in his hand, Wang Xuan lifted it up and fired it at one of the goblin warriors.

The goblin warrior swayed and avoided it.

Wang Xuan looked at it and shook his head secretly. This musket is powerful, but the speed of the musket bullet is too slow to cause fatal damage to people or monsters above the beginning.

Open the pocket, put away the musket, open the right hand, and extend the metal tentacles.
