

Last Building on Earth Chapter 91-95

Chapter 91

Bai Yan activated the witch blood, waved his right hand, and spilled the witch blood.

Gu Manyao, Zhang Haofei, Zhao Lei, Tie Jun and others all launched their strongest ultimate move and rushed up.

To deal with goblin warriors with a danger level of two and a half stars, they can only kill them instantly by activating the special ability of hatching beasts.

I don't know how many goblin warriors were hidden behind the ticket office, and the number of goblin warriors that rushed out quickly exceeded thirty.

The nine people formed a circle and shot with all their strength. Only Wang Xuan restrained himself and stopped hunting goblins as desperately as in the movie theater.

Before, he had killed a lot of gun goblins and goblin warriors by himself, but it turned out that the energy he had absorbed had little effect on Warcraft.

It seems that if he wants to evolve again, he must hunt down monsters stronger than goblin warriors.

Gu Manyao clasped the Yaochi knife in his hands, and launched "Yaochi Slash".

This "Demon Chi Slash" consumes a lot of energy, but its power is huge. Even a powerful goblin warrior can't resist it, and even the body and the mace in his hand are cut open.

"It's a pity that I can't keep up with my physical strength. If I can keep launching the Demon Chi Slash, it would be amazing." Gu Manyao looked at the goblin warrior who fell in front of him and a white scale flew out from the body. The energy in the light fluctuated violently, and she secretly regretted it.

She didn't immediately slash the "Demon Chi Slash" again, but flashed to the side quickly. Zhang Haofei launched the "Whirlwind Bone Claw" to kill the other goblin warrior who had just rushed up. Gu Manyao wanted to pause for a while, and then After taking a breath, "Yao Chi Slash" was restarted.

Everyone held muskets in their hands, and found that they had really encountered a powerful enemy. The firing speed of the muskets was too slow. Except after the first round of firing, it was not easy to use at all.

In just one encounter, nearly ten goblin warriors were killed by the crowd, but more goblin warriors emerged from behind, and the number of goblin warriors surrounding the crowd exceeded forty.

Wang Xuan waved the metal tentacles in his hand and smashed the head of a goblin warrior to pieces. At the same time, he observed the surrounding situation, and suddenly found that there were seven people at the door of the haunted house not far away. Heart iron armor, it is Fu Zhongyi who entered before them.

Looking at the blood on their bodies, it was obvious that they had fought with monsters in the haunted house before, and now they cleaned up the monsters in the haunted house. After walking out of the haunted house, they found a group of goblin warriors. The seven of them were immediately in Fu Zhongyi's house. Under the leadership, rush over here.

Wang Xuan noticed a small detail, that is, the boots worn by Fu Zhongyi have changed.

Before, the only second-order equipment on his body was the heart protection iron armor, and the other four were inferior equipment of the first-level, but now his boots have changed from the original inferior leather boots to a pair of gray boots, with looming scales on the surface, you can tell at a glance. At least it's second-order equipment.

When Wang Xuan noticed it, his heart moved, guessing that they might have encountered some kind of powerful monster in the haunted house, successfully hunted it down, and obtained the pair of gray boots.

The seven people were led by Fu Zhongyi, and he put on the pair of gray boots.

When Wang Xuan was paying attention to Fu Zhongyi, Fu Zhongyi's eyes shrank slightly, and the first thing he noticed was Wang Xuan.

When he saw Wang Xuan's shot, he suddenly breathed a sigh of relief, and a thought popped into his mind, this kid is nothing more than that.

He used to be very afraid of Wang Xuan, because he couldn't see the depth of Wang Xuan's strength. Now, seeing him controlling a metal tentacle and shattering the head of a goblin warrior, his strength is indeed not weak, but there is nothing special about it.

After all, even if the first starters like Gu Manyao and Zhang Haofei activate special abilities, they can kill goblin warriors instantly.

"Go!" Fu Zhongyi let out a loud shout and accelerated suddenly, like a tiger out of a box, rushing behind the group of goblin warriors, a fiery red rune appeared on the back of his right hand, and this rune was on the back of his hand. Rotating, suddenly, a fiery red flame rose from his entire right arm.

In just a split second, he pounced on a goblin warrior who had just turned around, and his fist, burning with fiery red flames, smashed into the face of the goblin warrior.

With a "porphyry" sound, the goblin warrior's head shattered immediately, and a mass of flames wrapped its head, which exploded into meat sauce, and went down the neck. In the blink of an eye, the goblin warrior's body was swallowed up by the flames.

This scene caused everyone to be shocked, and they all looked over.

This Fu Zhongyi's hatching beast can actually control the flame?

Instantly killing a goblin warrior, Fu Zhongyi waved his right arm, and a flame flung out from his right arm, like a huge fiery snake, hitting another goblin warrior.

The flames fell on the goblin warrior, and it seemed as if gasoline had been poured all over his body, and soon his whole body was swallowed up by the flames.

The goblin warrior opened his mouth and let out a roar. Instead of being burned to death immediately, he acted like a madman and rushed towards the surroundings indiscriminately, causing a commotion.

This Fu Zhongyi's strength moved Wang Xuanjiu, with a solemn look on their faces.

It was the first time they had seen such a hatching beast.

The other six followed closely behind Fu Zhongyi, showing their hatching beasts one after another, charging towards the group of goblin warriors.

These dozens of goblin warriors were attacked by the enemy, causing chaos immediately.

The long-haired woman named Xiaorou had a metal chain in her right hand. A watermelon-sized metal hammer was attached to the metal chain. When she pulled her right hand, the chain flew out with the metal hammer.

With a bang, it hit a goblin warrior in the chest, the goblin warrior roared wildly, blood spurted from his mouth, his chest collapsed, and his body flew backwards.

Another long-faced man had a light rope about the thickness of a thumb wrapped around his right arm. He stretched out his right hand towards a goblin warrior who came up to him, and the light rope wrapped around his right arm flew out, as if a flexible long snake immediately entangled the goblin warrior's arms and legs together with his body, like the legendary immortal rope.

His legs were tied, and the galloping goblin warrior fell heavily to the ground. The long-faced man had a cruel grin on his face. With his open right hand, the light rope wrapped around the goblin warrior suddenly tightened. , fell into the skin of the goblin warrior, and a lot of blood splashed out. The light rope was very terrifying. As it shrank, the neck of the goblin warrior was quickly cut off.

"Hey..." This long-faced man's temperament was somewhat similar to Zhang Haofei. Looking at this scene, a smile appeared on his face, enjoying the process very much.

Wang Xuan understood at a glance that the hatching beasts of these seven people were at least the beginning, and Fu Zhongyi, who was the leader, seemed to have reached the sub-body like himself.

Wang Xuan knew that as long as he encountered a monster suitable for hunting, it would not be difficult to advance to the sub-type. It was not surprising to see that Fu Zhongyi was suspected of being a sub-type.

Just like the group of goblin fighters in front of me, if it wasn't for Fu Zhongyi, the seven people suddenly rushed out and snatched some of the goblin fighters, and when they killed all these goblin fighters, Gu Manyao and Zhang Haofei would most likely appear. A person who is promoted to sub-body.

Seeing these seven people appearing to hunt and kill goblin warriors, Zhang Haofei was extremely annoyed. He felt that the white light in his right hand fluctuated violently. Kill three or five, no more than ten at most, there is definitely hope of breakthrough.

But now Fu Zhongyi and the seven people rushed up, and these people shot with all their strength, and suddenly seven or eight goblin fighters fell. The remaining goblin fighters suddenly became confused and began to flee.

Zhang Haofei cursed secretly, and was busy chasing a fleeing goblin warrior. He knew in his heart that he had no hope of breaking through and being promoted to the sub-body in this round, and he scolded Fu Zhongyi's ancestors for the eighteenth generation in his heart.

If the nine of them were besieged by this group of monsters and encountered danger, the seven Fu Zhongyi rushed up to rescue them, and everyone was naturally grateful, but now the nine of them can deal with these goblin warriors by themselves. After rushing away, in the eyes of the nine people, they felt that these seven people were here to grab the monsters.

Zhao Lei and Gu Manyao both looked a little unsightly. Just now, the nine people formed a circle, and they could calmly fight with these goblin warriors.

With a wave of Wang Xuan's right hand, the metal tentacles wrapped around the neck of a goblin warrior who wanted to escape, and with a forceful pull, the goblin warrior flew towards him.

At this moment, there was a sudden bang from the ticket office on one side, and the top of the ticket office collapsed, and there was a huge monster on it.

This monster has gray skin, and its upper body is similar to that of a goblin warrior. It holds a giant mace that is two meters long, but its lower body is the body of a giant wolf. It looks half human and half wolf, which reminds Wang Xuan of mythology. The legendary famous centaur.

The monster suddenly appeared, jumped onto the ticket office, and collapsed the ticket office. It jumped up into the air, and instantly fell to the right of Wang Xuan, who was closest to it. The giant mace in his right hand was carrying The terrifying wind roared.

Whether it is speed or strength, it is far more terrifying than the goblin warrior.

Wang Xuan grabbed the metal tentacles, dragged the goblin warrior around his neck, and greeted him.

With a loud "bang", the goblin warrior was hit by a giant mace and exploded in an instant. Wang Xuan felt the metal tentacles jolted, but was bounced back by the terrifying force.

At the same moment, his eye of the book opened, capturing the information of this terrifying monster.

"Name: Goblin Knight, Race: Goblin Race, Dangerous Degree: ★★★ (Three Stars), Goblin Knights are the elites in the goblin race, they cannot be born naturally, but select the best and most powerful goblin warriors and abandon themselves The lower body, combined with the domesticated wolf beast, gained the speed and strength of the wolf beast and became a more powerful goblin knight. , the strength is far beyond the goblin warriors, encountering them, fleeing is the best choice."

Sensing this information, Wang Xuan took a deep breath. This was the second monster he encountered with a three-star danger.

The first is the Goblin Queen.

A three-star danger level means that it has the combat power to rival sub-body hatching beasts.

Wang Xuan was not afraid, but felt excited.

He has grown to a sub-body, killing those goblin warriors can't bring him much growth, and the goblin knight in front of him is different.

The metal tentacle was shaken back, Wang Xuan leaned slightly, rushed out diagonally, and waved his right hand out, there was a crisp sound of sonic boom in the air, and the metal tentacle was pulled out sideways like a steel whip.

At the same moment, he caught a fiery red flame from the corner of his eye. Fu Zhongyi had just killed a goblin warrior on the other side, and suddenly saw the goblin knight, and immediately rushed up from behind, wanting to strike the goblin knight first. kill.

He understands that killing such powerful monsters can not only gain a lot of energy, which is conducive to the growth of his hatchling beasts, but more importantly, it is possible to obtain loot such as equipment.

Chapter 92

Fu Zhongyi waved his right arm, and a flame rushed out from behind like a fiery snake. As long as the flame fell on the goblin knight, he had the confidence to control the flame to devour the goblin knight.

That way, the white scales and loot he got from killing this goblin knight are his.

I don't want this goblin knight's speed to be terrifying, the lower body like a giant wolf bows and flicks, a vertical several meters, fast as lightning, and instantly avoids the flame swung by Fu Zhongyi, the mace in his right hand. Turning in a half circle in the air, with a whistling, he hit the metal tentacles that Wang Xuan had drawn, and then volleyed down, straight to the heavenly cover above his head.

If this stick is real, even if Wang Xuan is protected by a rhino horn helmet, even the helmet and skull will be shattered and exploded, and even the upper body will be beaten into a ball of meat sauce.

Wang Xuan was calm, raised his right arm to protect his head and face, and the metal tentacles wrapped around his right arm, fused with flesh and blood, and turned into a giant arm of a half-metal, half-flesh monster.

With a "bang", the mace smashed into the giant arm of the beast, and a terrifying force erupted. Not only did it fail to injure the giant arm of the beast, but the mace couldn't withstand the force, and it broke and flew out.

Wang Xuan kicked his feet, rose into the air, launched the giant arm of the beast, leaving an afterimage in the air, and with a bang, the huge fist hit the goblin knight's head, with his current explosive speed and strength, this punch if you hit it down, you can instantly smash the goblin knight's head into a ball of paste and kill him on the spot.

At this moment, a goblin warrior leaped up from the side, using his body as a shield to block the blow for the goblin knight.

With a "pork" sound, the giant arm of the beast hit the belly of the goblin warrior who took the initiative to pounce. The terrifying force broke the goblin warrior's body from the belly, and a large amount of blood mixed with internal organs burst out.

When Wang Xuan missed a hit, the goblin knight stretched out his hands, and each goblin warrior sent the mace in his hand to its hands.

It abandoned the broken mace, grabbed the two mace in both hands, and swept out, with two gusts of wind, swept towards Wang Xuan.

Fu Zhongyi at the back just wanted to get close, but was attacked by two goblin warriors, one left and one right.

"Looking for death!" He was furious. He didn't like this kind of goblin warrior. He wanted to kill the more powerful goblin knight, but he didn't want to be entangled by the goblin warrior and couldn't get out.

In annoyance, a terrifying fiery red flame rose from the right arm, and one right hand became red as blood, like a red-hot iron, and slammed it out.

He slapped the goblin warrior on the right, and with a wave of his right arm, a fire snake threw out, and set the other goblin warrior on fire. With a kick of his feet, he swung five meters and approached Wang Xuan and the goblin knight.

At this moment, the goblin knight wielded two mace, and danced out a whistling whistle, like a madman.

Wang Xuan saw it perfectly, put away the giant arm of the beast, the metal tentacles were divided into two, and the two waving mace were entangled.

The goblin knight roared like a beast from his mouth, pulling his mace with both arms, trying to drag him over.

This was exactly what he wanted, and with the help of this drag, he jumped up from the ground and immediately came to the Goblin Knight.

The goblin knight abandoned the mace in both hands and wanted to grab Wang Xuan's arms. With its terrifying power, he could easily tear him to pieces.

But he didn't want Wang Xuan's giant arm of beast to be even more terrifying. He also abandoned the entangled mace, and the metal tentacles reunited, rolled up, wrapped around his right arm, and activated the "big arm of beast".

This goblin knight can be killed with just one blow.

Seeing that the goblin knight's hands had just grabbed Wang Xuan's shoulders on both sides, his giant beast arms were about to hit the goblin knight's head.

At this moment, Fu Zhongyi rushed up five meters in a vertical direction.

Seeing the scene in front of him, Fu Zhongyi shot without hesitation. With his red-red right hand, he wanted to seize the opportunity to slap the belly of the goblin knight. He wanted to kill the goblin knight first, but he didn't want his right hand to suddenly turn around. He bent and patted Wang Xuan's left waist.

With the terrifying hatchling beast he mastered, as long as this shot hits, he can immediately smash Wang Xuan's body with the goblin scales on his body into two pieces, swept away with flames, and then devoured him into two pieces and burned him into two pieces. ash.

Fu Zhongyi's face finally showed a ferocious look. It was fake to want to kill the goblin knight, but it was true to want to kill Wang Xuan.

With the appearance of the goblin knights, the goblin warriors who had been defeated before made a comeback, and more goblin warriors poured out from the back of the ticket office, like a tide.

At this moment, Zhao Lei, Gu Manyao, Zhang Haofei, Tie Jun, Bai Yan, and the six Xiaorou who followed Fu Zhongyi were all doing their best to resist the goblin warriors who were frantically surrounding them from all directions, and they did not care about Wang Xuan, Fu Zhongyi and this one. Goblin knight fighting.

Fu Zhongyi suddenly attacked Wang Xuan, which was beyond everyone's expectations. Even Xiaorou and the others who came with him did not expect that their boss would be so decisive, and suddenly attacked in a chaotic state of fighting with hordes of monsters. Kill Wang Xuan.

With a "bang", Fu Zhongyi slapped his palm and found that the golden light flashed in front of him. Wang Xuan had a golden box in his left hand, which he kept beside him. He slapped his palm into the golden box, and the flames rose, but he couldn't put it away. The golden box was burnt.

At the same moment, Wang Xuan's giant arm of monster hit the head of the goblin knight, blasting it.

A white scale flew out and did not enter Wang Xuan's right hand. When he turned around, he grabbed the golden box with his left hand and covered Fu Zhongyi's right hand, and the giant arm of the beast swept over.

The shocked Fu Zhongyi's left shoulder was swept away. The double defense of the heart-protecting iron armor on his left shoulder could not resist the giant arm of the beast, and it immediately shattered from it. Broken and flew out.

Fu Zhongyi roared miserably and flew out across the sky.

Wang Xuan took the golden treasure chest in his left hand back into his pocket again, and stomped his feet on the ground, chasing after him like a sharp arrow. Since the two sides had already torn their faces, they would not die.

"Stop it! This is a misunderstanding—"

Fu Zhongyi's back slammed heavily on the ground, blood spurting wildly from his mouth, his face twisted, he lost a left arm, and roared wildly at Wang Xuan.

He couldn't understand in his heart, why Wang Xuan was able to suddenly open a golden box in his left hand like a magic trick, blocking his attack for him.

One mistake, and the whole game is lost.

How did he know that Wang Xuan had such a treasure as the Xumi belt, and he didn't know that although Wang Xuan seemed to be attacking the goblin knight with all his strength, he was actually always on guard against him.

This is an instinctive feeling. From the first time he saw Fu Zhongyi, he felt a vague hostility. He understood that because he had assimilated with the beast, it was the beast that caught Fu Zhongyi's hostility towards him. , and let yourself have this instinctive feeling.

The beast absorbed the energy of the goblin knight's white scales, and violent fluctuations came from the white light of the right hand, and this huge energy caused the beast to react.

In an instant, Wang Xuan threw himself in front of Fu Zhongyi, who fell to the ground. With a snort, a metal hammer attached to a metal chain smashed across his face.

The long-haired Xiaorou saw that Fu Zhongyi was in danger, and immediately attacked Wang Xuan.

"court death!"

Wang Xuan sneered. With five fingers on his right hand, he grabbed the metal hammer that was smashed over and pulled it hard. It was just how Xiaorou who was in the beginning state could resist his strength. Unsteady, it flew towards him.

Wang Xuan grabbed the metal hammer and pressed it on the face of Xiaorou who flew over.

Xiaorou's pretty face sinks into most of it immediately.

The surface of the metal hammer was densely packed with sharp cones, which pierced her head and face and sank deeply into it. When Wang Xuan released the metal hammer, the metal hammer sank into Xiaorou's face and did not fall down for a while.

Xiaorou swayed and took two or three steps forward, with the metal hammer on her face, and then fell forward.

The metal hammer rolled down from her face, and her face was deeply sunk inward. The surface was covered with blood holes, and blood and white brains were gurgling out along the blood holes.

All this happened in the blink of an eye. From Fu Zhongyi's sneak attack on Wang Xuan, to when he broke his left arm and fell out, Xiao Rou attacked Wang Xuan, and it only took two or three seconds.

When Gu Manyao, Zhao Lei, Zhang Haofei, Tie Jun, Li Haotian and others reacted, their first thought was to give up fighting the goblin warriors in front of them, and instead rushed towards the others who came with Fu Zhongyi.

The members who came with Fu Zhongyi also had the same idea. The two sides suddenly clashed. At this time, there was no reason to speak.

In addition to Fu Zhongyi and Xiaorou, there are four men and one woman. Among them, the long-faced man controls the light rope. With one right arm, a light rope flew out, and instantly entangled Lu Zhiwu, who was closest to him, to exert his strongest ability. , control the light rope, shrink it in, and kill Lu Zhiwu.

Bai Yan, Yu Shanshan and Lu Zhiwu just joined Wang Xuan's team. They suddenly saw a conflict between Wang Xuan and Fu Zhongyi. They didn't have the same consciousness as Gu Manyao and Zhao Lei. Since Wang Xuan and Fu Zhongyi tore their faces When they started, Gu Manyao and the others followed suit without hesitation, killing Fu Zhongyi and the others.

The reaction of the three of Bai Yan was astonishment, then looked up and watched, in the two seconds, they were a little blinded, and they didn't know how to react for a while.

Astonished, he lost his first chance. Lu Zhiwu was wrapped around his neck by the long-faced man's light rope. Only then did he know it was wrong.

Unfortunately, it was too late, blood spattered, the light rope sank deep into his neck, cut into it, and immediately cut off his head.

Looking at Lu Zhiwu whose head was cut off, the long-faced man showed a cruel smile on his face. He wanted to put away the light rope and rush towards Bai Yan on the other side. Suddenly, he felt something was wrong and turned his head to look back.

Gu Manyao appeared silently behind him, clasped the Yaochi knife in his hands, and launched the most powerful "Yaochi Slash".

The face of the long-faced man changed drastically, and he wanted to put away the light rope to resist the "Yao Chi Knife", but he was a step too late, and the light of the knife curved like a huge crescent moon passed through his body, his face stiffened, A blood line appeared, followed by the body splitting from it.

He was cut in half by Gu Manyao with one knife.

Seeing that Lu Zhiwu was suddenly entangled in the light rope, and even his head was cut off, Yu Shanshan finally reacted and let out a hissing scream. In front of Bai Yan, he stepped back one after another, full of fear, trying to distance himself from these people.

Among the seven people in Fu Zhongyi's group, apart from Fu Zhongyi and Xiaorou, the long-faced man, the remaining three men and one woman, their hatching beasts have grown to the beginning of the second order. One of the black-faced men has a black face on his right arm. The black pieces of armor, which were combined together, formed an arm shield. He jumped up and slammed with the arm shield.

With a "bang", it collided with the diamond shield that was opened by the iron army, and a huge sound broke out.

At the same time, Tie Jun launched a "savage collision", and a pale golden light suddenly lit up on the surface of his body, hitting the black-faced man.

The black-faced man roared wildly, a stream of blood spurted out of his mouth, and his body flipped backwards in the air.

Tie Jun's "savage collision" had just ended, and he felt a sharp pain in his neck and neck, but was pierced by a hook.

The one who used the hook was another woman besides Xiao Rou. The woman had a gloomy expression. She stretched out a hook from her right hand and hooked Tie Jun's neck from behind. With a dagger, he plunged it into the heart of Tie Jun's chest.

Suddenly, Tie Jun's neck was hooked, and it was too late to dodge reaction. With a sudden "huh", a bone arm was spinning at a high speed, but Zhang Haofei rushed up and activated the "Whirlwind Bone Claw".

The bone arm was spinning at a high speed, with a terrifying hissing sound, it hit the woman's back from behind, pierced through the leather armor and body she was wearing, and emerged from her chest.

Zhang Haofei pulled the "Whirlwind Bone Claw" upwards, from her chest up, and smashed her head together. Blood splashed, spraying Zhang Haofei all over his face.

With a cruel sneer on his face, he killed the woman and turned around, only to see Zhao Lei rushing up and banging into another man with a tattoo on his neck.

Zhao Lei groaned and flew upside down, and the man with the tattoo on his neck also fell out.

If it wasn't for Zhao Lei rushing up and hitting the tattooed man, Zhang Haofei would have just been smeared on his neck by the knife in the tattooed man's hand.

Zhang Haofei broke out in a cold sweat, knowing that everyone was just starting out, and it could be said that they were of equal strength. Suddenly, a melee started here, and life and death were all in the blink of an eye.

Wang Xuan killed Xiaorou with a metal hammer. Fu Zhongyi, who was lying on the ground, kept shouting "misunderstanding", but his body kept going. With the help of Xiaorou to block Wang Xuan, he got up from the ground in an instant, and his right arm With a wave, a flame rushed out like a fiery snake.

Fu Zhongyi was the only sub-body in their group of seven, and he was the only one who could keep up with Wang Xuan's speed. Although he lost an arm, fortunately, the powerful self-healing ability in his body was playing an amazing role, and the wound was shrinking to stop the bleeding.

The flames flew into the air, Wang Xuan's body in front of him suddenly disappeared, and the giant arm of the beast came to Fu Zhongyi with a shrill wind whistling.

It was too fast, and Fu Zhongyi was terrified. He only now understood how terrifying Wang Xuan was in front of him. He had provoked people he shouldn't have provoked.

He began to doubt the growth stage of Wang Xuan's hatching beast, breaking through the sub-body.

Otherwise, with the strength of his sub-body, how could he not be able to see Wang Xuan's shot?

In panic, he screamed again: "Wang Xuan stop quickly, it's all a misunderstanding—"

This time he really wanted to reconcile and stop fighting, but it was too late.

He could only open his right hand, crimson as blood, and tried all his strength. At this moment, it was too late for him to dodge, so he barely used his right hand to block in front of him.

Just as his right hand was raised in front of him, Wang Xuan's giant arm of the beast had arrived, and the half-metal, half-flesh fist slammed into his right hand.

Fu Zhongyi exerted the power of the hatching beast in his right hand to the limit, the red-red blood-like right hand was enveloped in flames, and when he touched it, it made a chi chi sound, and it burned towards the giant arm of the beast.

Wang Xuan didn't pay any attention to it at all, he just exploded the strongest power in his body.

The same sub-body, but Wang Xuan experienced the rampage of the blue crystal scales, and the body is constantly torn and healed, like a thousand trials, every inch of flesh and bone contains the energy of the blue crystal scales, in terms of physical strength, far beyond Fu Zhongyi, who is also a sub-body.

The giant arm of the monster and Fu Zhongyi's red right hand, which was surrounded by flames, faced off head-on.

The piercing sound of broken bones sounded, Fu Zhongyi let out an earth-shattering roar, and his red-red right hand shattered and exploded in an instant.

Wang Xuan's fist continued to be castrated, smashing Fu Zhongyi's right hand in front of him, and then hitting him in the face.

With a "porch", Fu Zhongyi's face was twisted and collapsed inward. His nose bone, jawbone, jawbone, cheekbones, and a mouth full of teeth were all shattered and burst open, and then the skull protecting the brain was shattered inch by inch. It exploded completely from the inside out.

Just like a watermelon hit by a heavy hammer, it burst in an instant.

Fu Zhongyi, whose head was blown up, swayed, turned around in place, and turned in two circles in a row, and then fell heavily, as if his heart was full of unwillingness and nostalgia.

When a person died like a lamp went out, the raging flame that was burning on his right arm immediately went out, and the flame that extended to Wang Xuan's giant arm of the beast was unsustainable and disappeared in an instant.

A white light rushed out, and the soul inside seemed to be constantly struggling, eager for a miracle to happen, but unfortunately the power in the dark instantly extinguished it and turned it into a pure energy, which was absorbed by Wang Xuan.

Absorbing the energy of a sub-body hatching beast in the third form, Wang Xuan felt the white light in his right hand fluctuate violently, and the fluctuation was stronger than that of the goblin knight he had just killed.

In a short period of time, most of the seven-member team of Fu Zhongyi and Xiaorou was eliminated. The black-faced man was knocked away by the "savage collision" launched by Tie Jun, his chest collapsed, and his mouth was full of blood after falling to the ground, but he didn't. When he died, the jet-black armor protecting his right arm changed, and soon these armor became knotted into a sword shape. He struggled to turn over and wanted to get up from the ground. Suddenly, three white lights flashed and three light arrows appeared.

He panicked, and was busy reuniting the armor pieces that had just formed a sword shape into an arm shield, dodging while defending.

Using the arm shield to block a light arrow, he turned over to avoid one, but was hit in the face by the third light arrow, which directly pierced a huge blood hole and passed through.

He didn't have time to let out a scream, opened his mouth wide, and both eyeballs burst out, killing him immediately.

Among the seven people, only the tattooed man and another fat man who were knocked off with Zhao Lei were left.

Among the seven people of Fu Zhongyi, the fat man had the slowest reaction. The other six responded instantly and shot at Wang Xuan and nine others. Only he showed a hint of hesitation, somewhat similar to the reactions of Bai Yan and Yu Shanshan. The long-faced man was slashed in half by Gu Manyao, and he was startled, his face became as ugly as a dead man, the five fingers of his right hand were splayed, and a branch-like substance appeared on the palm of his right hand and the back of his hand.

This is his hatching beast. As soon as he made his move, it was blocked by Yu Shanshan's light mirror. Bai Yan's face behind Yu Shanshan was equally unsightly. Centering on it, it turned into a giant blood sword.

This was his real killer move. By bypassing Yu Shanshan's light mirror, the blood sword swung sideways, and with a snort, the fat man's huge head rolled out with blood.

After a second of Fatty, Bai Yan lowered his head and looked at Lu Zhiwu whose head was cut off, his face full of grief and anger.

All this happened in less than ten seconds. Six of Fu Zhongyi's seven people were killed, and the last one alive was a man with a tattoo on his neck who fell out of a collision with Zhao Lei.

He was kicking and kicking with his feet, his face twisted and terrified, and he wanted to get up and run away, just halfway up, he suddenly groaned, but was hit in the back by Zhang Haofei's skeleton hand clenched into a fist.

There was a sound of broken bones in the back.

His spine was broken, his body almost folded backwards, and he fell to the ground again screaming.

Zhang Haofei grinned grimly, showed a cruel look, raised his foot, and stomped on his head.

This time, apart from Wang Xuan who killed Xiaorou and Fu Zhongyi, Zhang Haofei was the only one who killed two people. His performance was the most amazing except Wang Xuan.

When it comes to hunting monsters, his level and performance will not be stronger than Gu Manyao, or even slightly weaker, but when he kills, he looks extremely excited~www.mtnovel.com~ His strength is beyond normal, overwhelming Gu Manyao and Zhao Lei in one fell swoop .

Looking at the corpses on the ground, Tie Jun had a feeling of the rest of his life. His neck was pierced by a hook. If Zhang Haofei hadn't shot quickly, he would have died.

After the goblin knight was killed by Wang Xuan, the goblin warriors who were surrounded by them had fled, leaving only the bodies of eight goblin warriors and Fu Zhongyi.

Everyone looked at each other, and there was an inexplicable excitement, tension and excitement in their hearts.

The feeling of fighting with people and hunting monsters is completely different, or even more exciting.

Zhao Lei slowly sat up from the ground, touching his chest, and said, "Today is really dangerous, but fortunately we didn't respond slowly and cooperated well with each other."

When he said that, he glanced at Lu Zhiwu's body, thinking that in this conflict, only one person died on his side, and the other party was destroyed. It was a fluke to think about it.

Zhang Haofei said with a wicked smile, "This Fu Zhongyi is really a sinister and despicable villain. He even wanted to sneak attack on Wang Xuan, and now he deserves it."

As he spoke, he kicked Fu Zhongyi's body and spat on it.

Li Haotian said, "Zhang Haofei, why do I feel that you are more powerful than killing monsters? The whole person is as excited as a chicken blood?"

Chapter 93

Zhang Haofei laughed dryly, and then said: "Usually killing monsters is not always in extreme danger, so you don't have to work hard all the time, but it was different just now, these guys suddenly shot, if I didn't work hard, they would kill me. ."

Gu Manyao nodded and said, "Yes, it is better to start first. In terms of strength, they are not much weaker than us. The main reason is that Wang Xuan solved two at the beginning. How can the remaining five of them stop the eight of us? "

Zhang Haofei added: "It's seven."

As soon as he said this, Bai Yan's face turned pale again, knowing that Zhang Haofei had hinted that Lu Zhiwu had been killed at the very beginning, and only seven people could do it.

Bai Yan and Lu Zhiwu have a good relationship. Seeing that his head was cut off, he felt a little depressed and regretted secretly in his heart.

At that time, when Fu Zhongyi raided Wang Xuan, Gu Manyao and others could react in an instant, but the three of them hesitated. If they didn't hesitate, Lu Zhiwu would definitely not die. As Gu Manyao said, with eight to five, they had a great advantage. .

Wang Xuan looked at Fu Zhongyi's headless corpse on the ground, and felt a little bit of luck in his heart. If he hadn't gained a heart at the beginning, he would have been successfully attacked by Fu Zhongyi. Once he died, Fu Zhongyi's sub-physical strength could easily crush Gu Manyao and others, the outcome of this battle will be completely reversed, and it will be them who will be destroyed.

"Compared with monsters, humans are more terrifying. At least back in the hall, you don't have to worry about monsters, but people... always have to be on guard."

Wang Xuan's eyes swept over everyone. In his heart, apart from Gu Manyao and Zhao Lei, he could trust Tie Jun seven or eight points. For the rest, he could only trust half of them at most. As for Zhang Haofei and Li Haotian, he felt he could trust them. A third is not bad.

"The injured people rested on the spot, and the uninjured people stripped off the crystal scales on the ground and the armor on these people."

As Wang Xuan ordered, he peeled off the armor and gray boots on Fu Zhongyi's body.

He didn't like the heart protection armor, what he liked was the pair of gray boots.

Using the eye of the illustrated book to capture the information, the introduction information about the gray boots soon appeared in his mind.

"Name: knight boots, quality: excellent second-order, introduction: goblin warriors and wolf beasts combine to form a goblin knight, and the hide of the wolf beast on its lower body will experience the

infiltration of goblin blood power, and it will become both full of toughness and soft to the touch. The high-quality material for boots. The knight boots made are very light in weight and very soft and comfortable to wear. Nano crystals are added inside, which can activate nano crystals through blood. Nano crystals have a very powerful automatic repair function, and the crystal energy is not completely lost. Previously, the damaged area of the knight boots could be repaired automatically. The bottom of the knight boots is inlaid with a specially made energy crystal, and the energy in the energy crystal can be stimulated by pressing lightly to generate a thrust. , which can increase the wearer's movement and running speed by 15%."

Sensing the information about the knight boots, Wang Xuan's face showed joy.

It is another piece of excellent second-tier equipment, and these knight boots can increase the wearer's movement speed by 15%. This is a very small item. In Wang Xuan's opinion, this effect may be even better than the goblin scale armor.

In the slaughter battle, the speed of the speed, and sometimes even determines the victory or defeat of life and death.

Without hesitation, he took off the inferior leather boots he was wearing, activated the knight boots by dripping blood, and put them on himself.

As described in the information, the weight of these knight boots is only half of that of inferior leather boots. It is very light to wear on the feet and fits the feet perfectly. As long as you put a little force on the feet, you can stimulate the energy crystals embedded in the soles of the boots. The energy inside exploded, forming a thrust, making him faster, rushing farther, and jumping higher.

"It's superb, it feels so good..."

Wang Xuan tried to step out with both feet, and immediately felt that the soles of these boots felt like a wind was supporting him, which made him a lot easier when running and jumping.

Surprise on his face, he now has two pieces of second-order excellent armor, a second-order ordinary quality rhino horn helmet, only knee pads and hand guards are still inferior armor at the first level.

This time, everyone gained a lot. Killing the goblin warriors gained 36 crystal scales. They also received some crystal scales from the dead Fu Zhongyi and others. The crystal scales they owned were not kept in a unified manner. There are some, of which Fu Zhongyi has the most, accounting for nearly half, there are 24, and the seven people add up to 52. In addition, 18 tubes of primary nutrient solution and the armor on everyone's body were found. What wasn't damaged was stripped off.

Bai Yan and Yu Shanshan finally got together the first-order inferior five-piece suit.

The only difficulty is who should assign this armor on Fu Zhongyi's body.

Wang Xuan took over the crystal scales that everyone had collected. There were a total of 88 crystal scales. In addition to the 149 in his pocket, the total number of crystal scales now reached 237. He then put the remaining inferior equipment into his pocket.

"Give this armor to Gu Manyao." Zhao Lei saw that Wang Xuan didn't need this armor, and it seemed inappropriate to give it to anyone. Gu Manyao was the least controversial.

Gu Manyao said, "I don't need it, I'll give it to you."

Zhao Lei smiled and said, "Why, don't you think it's unlucky?"

Gu Manyao said: "No, I want a pair of boots more. If you want to protect your heart and armor, you'll be fine."

Zhao Lei understood what Gu Manyao meant. Now everyone has more and more crystal scales, enough to buy a few second-order ordinary iron armor. Compared with the armor that protects the heart, she wants to buy a pair of gray iron boots that can increase the movement speed by 10%.

Zhang Haofei laughed loudly and said, "Since all of you have shyly refused, then I'll take it. Do you have any opinions?"

Among the seven people killed just now, Zhang Haofei killed two people like Wang Xuan, which was considered a great achievement. Now that he was given this armor, everyone had no objection.

After the equipment was allocated, everyone rested in place, and the muskets that were no longer needed were returned to Wang Xuan.

Wang Xuan counted the various items in the Xumi mustard seed space, and now there are a lot of items piled up, and the most precious of them are the heart of the mechanical beast and a bottle of pale gold reagents.

The Heart of the Mechanical Beast lacks a powertrain, and this bottle of pale golden reagent, he has observed through the eye of the illustrated book, contains a pale golden liquid called incorruptible medicine, which is of rare quality and can make people who are dying enter suspended animation state, to maintain a state of immortality.

From Wang Xuan's point of view, this medicine is quite tasteless. It can't make people who are on the verge of death alive, but it can only maintain the state of suspended animation. What is the use of this medicine?

However, since this medicine is introduced as a rare species, there may be other magical effects unknown.

After sorting the various items in the Sumeru mustard space as a whole, it looked much more comfortable. After that, Wang Xuan rested on the spot with everyone, and then took out the primary nutrient solution, one tube per person.

Not only has the nutrient solution in his pocket now not lost, but it has also increased, reaching 65 tubes, each person has given one tube, and there are 57 tubes left.

When Tie Jun and Zhao Lei recovered from their injuries, everyone had rested for more than an hour before starting again.

"Finally, no one is fighting with us anymore. I will strive for everyone to be promoted to the sub-body today." Zhang Haofei was full of confidence. He had just killed two people in a row and absorbed the energy of their hatching beasts. He felt that his skeleton was jumping for joy. , the white light in the right hand fluctuates violently, which is a sign of evolution.

Possibly hunting down a few more goblin warriors and he'll be able to break through, the skeleton grows into the sub-body stage of the third form.

Everyone went around the ticket office in front of them and saw the pirate ship, not far from the merry-go-round.

"No, I remember that the merry-go-round was stationary before." Zhao Lei suddenly thought of something, looking at the spinning merry-go-round not far away, his face full of doubts.

"Are you sure? It's not a mistake, right?" Gu Manyao really didn't notice whether the merry-go-round was stopped or started before, and there was a slight confusion on his face.

Wang Xuan's brows furrowed, and Zhao Lei reminded him that he also had a vague impression that when he entered this playground before, all the equipment was indeed stopped. If the carousel was spinning, he would have noticed it immediately.

"Zhao Lei remembers correctly, it was stationary before, but now it's turned on..." Wang Xuan stretched out his right hand, and the metal tentacles extended out, saying: "There may be something strange there, everyone be careful."

Zhang Haofei was wearing a heart-protecting armor and was full of confidence. He felt that in addition to Wang Xuan, he was the boss of everyone. He immediately said loudly, "There is nothing to be afraid of. It's better to have more goblin warriors. Let's have a good time."

As he spoke, he was about to walk in the direction of the merry-go-round, but was blocked by Wang Xuan.

Wang Xuan saw the merry-go-round, one of which was sitting alone.

The merry-go-round didn't turn very fast, and everyone quickly noticed that one of the merry-go-rounds was sitting on a weirdo dressed as a clown, wearing a clown mask, looking at the smiling face of the clown mask, suddenly appeared here, and seemed to say no came out weird.

"Clown mask..." Wang Xuan whispered softly.

He understood where the hatchling beast was the clown mask that the woman with the snow-white long sword was holding in her left hand. UU reading www.uukanshu.com

"It's no wonder that the information on the clown mask said that it was a mask from a clown in the playground. This playground...there is actually a clown."

"Is this a human? Or is it dressed up as a monster?" Gu Manyao whispered softly beside Wang Xuan. Although there was a distance of 20 to 30 meters, for some reason, there was always an inexplicable uneasiness in his heart.

Zhang Haofei was still carefree. Hearing Gu Manyao's words, he snorted: "Of course it's a monster. Looking at this pretentious appearance, maybe it's not weak, but there are eight of us, why are we afraid of it?"

Wang Xuan quietly activated the eye of the illustrated book, trying to capture the information of the clown.

Zhao Lei also opened the "Sacred Mark" to observe.

Wang Xuan opened one eye on his metal tentacles, and was about to capture the clown riding the merry-go-round, when he suddenly realized that there was a clown on these merry-go-rounds, and the clown disappeared at some point.

"Everyone, be careful!" Wang Xuan's heart froze, and he immediately gave a low drink. The metal tentacles extended to the limit of four meters, forming a circle.

Everyone had a tacit understanding, and when they heard his low drink, they immediately formed a large circle, back to back.

There was silence all around, except for the slight sound of the carousel spinning in the distance.

Chapter 94

Tie Jun and Yu Shanshan opened the diamond shield and the light mirror. The metal tentacles controlled by Wang Xuan hovered above, and looked around. As long as the clown appeared, he could attack in an instant.

Li Haotian opened the Orion bow in his hand, and three light arrows appeared, ready to go.

Everyone was waiting in full force, but the clown seemed to have completely disappeared and never appeared again.

"Strange... Is this monster playing psychological warfare with us?" Zhao Lei frowned, the "Sacred Mark" on the back of his right hand opened, and there was a faint glimmer of light inside, trying to capture the whereabouts of the clown.

The eight people stood there for five minutes, and the surroundings were still silent.

"Wang Xuan, what should I do now?" Gu Manyao asked in a low voice, holding the Yaochi Saber in his right hand.

Wang Xuan pondered slightly, and said, "Let's quit. Under the circumstances, there is no need to take risks."

The clown appeared mysteriously and disappeared mysteriously, which made him feel a little uneasy, and decided to withdraw from this playground for now.

Hearing Wang Xuan saying to quit, everyone had no objection. Even Zhang Haofei was eager to meet a group of goblin warriors again, in order to break through to the sub-body, but he did not object to Wang Xuan's decision, and he could vaguely feel that the clown appeared strangely. .

Everyone moved back carefully and walked towards the exit of the playground.

This time, Wang Xuan took Tie Jun to break the post, preventing the clown who had just disappeared from appearing suddenly. Bai Yan and Yu Shanshan, who had been cut off, became at the front of the team.

Yu Shanshan was very cautious, holding the mirror all the time, protecting most of her body and Bai Yan's body, and the eight people quickly moved towards the exit.

The crowd quickly circled to the ticket office, and walked another 20 to 30 meters to the exit.

At this moment, a small door of the ticket office where the top collapsed was suddenly opened from the inside.

When the incident happened suddenly, everyone was slightly surprised, and no one thought that there were still people in the ticket office.

At this moment, Yu Shanshan is the closest to the entrance of the ticket office, and her first reaction was to block the light mirror spread out in both hands to her side and hold it against the door to prevent a sudden monster attack in the door.

Bai Yan, who was walking beside her, also reacted quickly. She raised her right arm, and the witch blood flowing on it swept over, covering her right arm, forming a giant blood sword, protecting her in front of her, ready to counterattack at any time.

The door was opened inward, but the ticket office was empty and there was nothing.

Bai Yan and Yu Shanshan were slightly surprised. Zhao Lei and Li Haotian, who were walking behind them, raised their heads one after another, looked into the suddenly opened ticket office, and assumed a fighting posture.

Bai Yan suddenly felt that something was wrong, he raised his head suddenly, and saw a black shadow emerge from the top of his head, a gloved palm stretched out from it, and grabbed it on top of his head.

The inferior helmet on his head cracked in an instant, and with a thud, a gold star suddenly appeared in front of Bai Yan's eyes, and he felt a heat flow down the top of his head.

He felt panic inexplicably, his heart beat like a drum, and his right arm that turned into a giant blood sword lifted up, trying to swing it out. No effort could be made to lift the blood sword.

After falling to the end of the line, Wang Xuan's eyes shrank suddenly, the door of the ticket office suddenly opened from inside, and everyone's eyes were turned towards the door for the first time. Suddenly a figure appeared.

Wearing a clown mask, this man flew down into the air like a goshawk swooping at a rabbit. A gloved hand stretched out from his sleeve and grabbed the top of Bai Yan's head.

This blow was too fast, so fast that even Wang Xuan barely caught it, and he didn't have time to react. When the clown reached out and grabbed Bai Yan, he could swipe the metal tentacles sideways.

The metal tentacles made a sonic boom in the air. The clown hit the ground and Yu Shanshan, who was next to Bai Yan, let out a scream, and blood spurted wildly. The light mirror she stretched out protected the outside, no matter what I never imagined that the enemy would suddenly appear on the other side of me.

There was a sound of broken bones in her body, the light mirror in her hand shattered, and her body flew out like a broken kite.

At this time, everyone saw that the helmet that Bai Yan was wearing, along with his Tianling cover, was lifted by the clown, revealing the white brain, blood flowing down his head and face, Bai Yan's eyes were straight, his body was swaying, his right The arm blood sword is disintegrating, and a large amount of witch blood is rolling down, dripping down and disappearing.

This is a sign that the hatching beast is losing its life energy.

No one could have imagined that Bai Yan did not die in the conflict with Fu Zhongyi and others just now, but was killed by a clown who suddenly appeared here.

The metal tentacles launched by Wang Xuan fell in the air, and the clown was like a ghost, hitting Yu Shanshan.

Only then did Zhao Lei, Gu Manyao, and Zhang Haofei react.

The clown stretched out his gloved hands and was about to grab Zhao Lei and Gu Manyao, but he didn't want Tie Jun to launch a "savage collision" just a few meters away.

With a "bang", Tie Jun slammed into the diamond shield, the clown stretched out his hands to resist the rushing diamond shield, and his body stuck in front of the diamond shield like a weightless ghost, floating backwards along the "barbaric collision". retreat.

Tie Jun looked at it, his scalp tingling.

Since he mastered this "savage collision", as long as it is activated, whether it is a monster or an enemy, it can be severely damaged or even killed. This is the first time it has failed.

Wang Xuan kicked his feet, and the energy crystals of the soles of the "knight boots" he was wearing activated, and a thrust was generated inside, which made his speed faster. He rushed out from behind

the crowd in a vertical distance of several meters, and immediately caught up to launch a "savage collision". "The iron army, the four-meter-long metal tentacles rolled over like a big python.

He understands the horror of this clown, if he doesn't catch up, I'm afraid the iron army will be in danger again.

The clown watched the "savage collision" exhausted. He put his hands on the diamond shield, and his body fell backwards. Wang Xuan's metal tentacles failed again, and the diamond shield was drawn, making a crisp "pop". Tie Jun's right arm shook violently and almost flew out.

Wang Xuan's eyes glowed with terrifying light, and with a flick of his right hand, the four-meter-long metal tentacles split into two, turning into two tentacles, and swooped down at full speed to knock down the clown.

The "eye of the book" on his metal tentacles opened, and he immediately caught the clown, but in the eye of the book, there was no information or introduction about the clown in front of him.

"There is no information about it?" Wang Xuan's heart was slightly shocked. The clown grabbed the two metal tentacles that stretched out and pulled them back. The four-meter-long metal tentacles were pulled straight.

Wang Xuan felt a force pulling him and wanted to fly forward.

The clown wanted to grab his metal tentacles and smash him out.

What Wang Xuan wanted was this effect. With a kick of his feet, he immediately rushed towards the clown.

The two metal tentacles began to fuse into one, winding up along his right hand, right wrist and right arm, and he launched the "Beast Monster Arm".

With the help of the clown, he threw himself at full speed, and added "the power of the giant arm of the beast.

This attack was unstoppable, and Zhao Lei, Gu Manyao, and Zhang Haofei behind them all took a step slower, and while they rushed up, they saw Wang Xuan's right arm disappear, leaving only a vague afterimage in the air.

The clown didn't seem to expect that Wang Xuan's offensive was so fast that he didn't have time to dodge.

There was a crisp "click", and the clown's arms were broken, which could not stop the power of the monster's giant arm. A white broken arm bone pierced through the clown costume it was wearing and exposed, and it rolled and flew out.

Li Haotian at the back had already prepared three light arrows, and when he saw the clown rolling, he immediately shot at him.

As the clown tumbled, avoiding two of them, an arrow was hit in the back, and the light arrow passed through it, shooting a fist-sized blood hole in its body.

Wang Xuan stomped his foot and made a crisp sound, his body violently slammed out, and he launched the giant arm of the beast again, trying to kill the clown.

I don't want the tumbling clown's clothes to suddenly swell like a ball, with a bang, the clothes split open, and a large number of playing cards are shot out like magic.

These poker cards are all made of metal. Each card is as thin as a cicada's wing and extremely sharp. It suddenly shoots out. Qiang Yu Wang Xuan is also surprised, and he is busy protecting his head and face with the giant arm of the beast.

There was a stinging pain from the cutting. These playing cards cut through the inferior knee pads he was wearing, and cut a lot of wounds on his legs. Fortunately, the wounds were not deep, and they were all minor injuries.

The double defense of the goblin scales on his body played a role. These metal playing cards barely cut through a layer of green scales on the outside of the goblin scales, and they could not continue to get stuck on it.

The clown's clothes were torn open, and he shot out metal playing cards to block Wang Xuan. From the clothes, a dark shadow rushed out like lightning and rushed towards the ticket office on the side.

Zhang Haofei caught up, let out a low roar, and activated the strongest "Whirlwind Bone Claw", the white bone arm rotated at a high speed and slammed into it.

The powerful "Whirlwind Bone Claw" hit the air with a full blow, and Wu Ying's speed was too fast, so he narrowly avoided it, jumped, and rushed into the open door of the ticket office.

The ticket office is not big, and even if it escapes, there is nowhere to hide.

The Tiejun launched a "savage collision" and rammed towards the ticket office with a diamond shield.

The sound of "crack" sounded, and he knocked out a huge hole in the ticket office surrounded by wooden boards.

Gu Manyao clasped the Yaochi knife in his hands and slashed towards the ticket office. A blade of light flew out from the blade, and in a harsh sound, the ticket office was cut diagonally.

Wang Xuan was half a second slower than them, and two four-meter-long metal tentacles stretched over, like steel whips, and pulled down at the ticket office. With a click, the wood chips shattered, and the ticket office was completely dismantled. Come on.

Everyone stopped when they looked at the torn apart ticket office, and the clown who just got in under the eyes of everyone disappeared out of thin air.

The "Sacred Mark" on the back of Zhao Lei's right hand continued to flash with a faint white light. When observing the situation here, a surprised look appeared on his face: "There is such a thing, this clown clearly got in, is it a trick?"

Wang Xuan controlled two metal tentacles and hit the ground below the original ticket office.

He wondered if there was a cave under the ticket office. The clown hid in the ground below.

The metal tentacles hit the ground, and sparks faintly burst out. The ground is as hard as iron, and there is no place to hide.

"It's amazing..." Wang Xuan whispered softly, approached slowly, looked around, but found no clues, the clown really disappeared mysteriously.

"Leave here early." Gu Manyao's face was dignified, and he glanced at Bai Yan, who had his Heavenly Spirit Shell removed, and Yu Shanshan, who was severely injured and fell to the side.

The strange disappearance of the clown made her also terrified.

"Okay, don't care, let's leave here first." Wang Xuan understood that in a short time, he was afraid that he would not understand the reason for the disappearance of the clown, so he could only leave here first.

"Everyone should be vigilant to prevent this clown from suddenly appearing again." Zhao Lei said loudly, constantly using the "Sacred Mark" to observe the surrounding situation.

Gu Manyao picked up Yu Shanshan, who was seriously injured, and the group of seven quickly left here. Wang Xuan controlled two metal tentacles, one suspended above everyone's head and the other around everyone, to prevent another emergency.

Fortunately, the clown did not appear again this time. The seven ran out of the playground and returned to the passage of the cinema.

"Let's go." Wang Xuan speeded up. He wasn't sure whether the clown only appeared in the playground or in the movie theater. It was still unsafe here.

When they rushed out along the viewing channel, they found that the goblin corpses they had killed before were gone. It seems that the southern area, like the hall, has the function of self-cleaning. The corpses on the ground are placed for a period of time. It will be slowly eroded and digested by the ground.

When they arrived at the waiting area of the movie theater, they saw that the door to the southern district opened silently, and a group of people walked in.

There were eight people in this group. The two men at the head, one tall and the other short, the short one was only less than 1.6 meters tall. Wearing green scales, it is exactly the same as the goblin scales on Wang Xuan.

Although the scales are the same, because he is so strong, the green scales on his body look a lot bigger than those on Wang Xuan.

Wang Xuan secretly observed it with the eyes of the illustrated book, and sure enough, it was really a second-order goblin scale armor of excellent quality.

The eight people walked in and saw Wang Xuan and the other seven people. Their eyes immediately focused on the goblin scale armor on Wang Xuan's body, and there was a hint of surprise in their eyes.

They didn't seem to have thought that someone else was wearing the exact same goblin scales.

This kind of goblin scales cannot be purchased, and can only be obtained by hunting monsters. Those who can get goblin scales are naturally not simple characters.

The eight people, led by two people, one tall and one short, walked in slowly. Seeing that Wang Xuan and the others were a little embarrassed, especially Yu Shanshan, who was seriously injured, they understood that they were in danger inside.

"Is it dangerous inside?" The short man wearing a heart-guard suddenly asked.

He saw that Wang Xuan was wearing goblin scale armor and knight boots, Zhang Haofei was wearing heart protection armor, and his equipment was no worse than his own, or even better, and he entered the southern district earlier than his party. Dare to underestimate them, and want to know the situation through them.

"It's very dangerous, it's best not to enter." Zhao Lei said here, paused for a while and continued: "There is a clown in the playground, and it's very difficult to deal with."

"The clown in the playground?" These people looked at each other in dismay, and they all stopped in place and didn't move.

Wang Xuan did not feel the hostility of the eight people in front of him, which was completely different from Fu Zhongyi's group before.

These people in front of them basically showed curious expressions, observing and sizing up their own people.

"Shi Lei, what do you say?" A smile appeared on the face of the short stature wearing the armor armor and said to the tall man wearing the goblin scale armor next to him: "Playground clown, it sounds a bit interesting."

Zhao Lei's heart moved when he heard this, but he didn't expect this tall man to have the same name as himself, but with a different surname.

"Since you're here, let's go in and take a look." Shi Lei's face was more serious, he nodded towards Wang Xuan and Zhao Lei as a greeting, and then took the lead in the direction of the viewing channel.

The other seven immediately followed behind him.

Watching them leave, Wang Xuan shook his head, said nothing, and walked towards the entrance of the southern district.

He was not optimistic about these eight people in his heart. If they really entered the playground and encountered the elusive clown, it would be difficult for them to escape.

Li Haotian glanced at the eight Shi Lei people who had entered the viewing channel, and said, "Do you feel that there are more and more people who are powerful?"

Zhao Lei said: "Of course, the people who come here are basically trying their best to improve themselves, and everyone's strength will become stronger and stronger. We have to work hard, or we will be left behind by others.

Zhang Haofei said: "This sentence makes sense, grandma, we can't be overtaken by those newcomers, but unfortunately we can't find goblin warriors now, otherwise if I kill a few more, I will definitely be able to break through."

While everyone was talking, they arrived at the entrance and exit of the southern district. Wang Xuan opened the door and came to the curved corridor.

Zhao Lei said: "Why don't we rest here for a while, and then go in and have a look later, hoping to find goblin warriors, if we can meet another group of goblin warriors, we should be able to break through to the sub-body, everyone is sub-body. If you encounter that clown again, you will definitely kill it, Wang Xuan, what do you think?"

Wang Xuan said: "I have no opinion, then everyone will rest here for a while."

Hearing Wang Xuan's agreement, everyone sat down and rested in this curved corridor.

Gu Manyao put down Yu Shanshan, who was seriously injured. Yu Shanshan's face was as pale as a dead person. She followed Bai Yan and Lu Zhiwu all the way to the present, especially for Bai Yan. She was the only one left to die.

When she saw that Bai Yan was dead, she was completely dumbfounded. Although she was carried out by Gu Manyao, she was still in a foolish state.

Wang Xuan saw that something was wrong with Yu Shanshan's mental state, and said, "Yu Shanshan, is your injury okay?"

Yu Shanshan didn't seem to hear him, her eyes were dull, and she didn't say a word.

Wang Xuan frowned slightly.

Zhang Haofei impatiently pushed Yu Shanshan behind him and shouted, "Wang Xuan asked you something?"

His push made Yu Shanshan shudder, and suddenly came back to her senses, with a look of fear on her face, and her eyes were confused: "Who? What?"

Seeing this, Wang Xuan understood a little, sighed secretly, and said, "Yu Shanshan, I'm asking how are you now?"

"Me? I'm fine... I'm fine..." She slowly lowered her head as she spoke.

Wang Xuan looked at her without any radiance in his eyes, and there was only a vague despair in it.

Seeing Yu Shanshan's performance, everyone felt the same way and fell silent, only Zhang Haofei remained unmoved and said, "Although Bai Yan and that Zhiwu are dead, since you are following us, you are considered a member of our team. , we will cover you, don't worry, don't put on a sad face and look annoying."

Hearing Zhang Haofei mention Bai Yan, Yu Shanshan's mood fluctuated a lot, and she seemed to come back to her senses, she bit her lip lightly, with a look on her face that looked like she was crying instead of smiling, and said, "Bai Yan is also dead... even Bai Yan. I'm dead, what's the point of my life..."

When everyone heard this, they finally understood, Gu Manyao suddenly said: "Yu Shanshan, do you like Bai Yan?"

Yu Shanshan raised her head, tears were already in her eyes, she did not deny it, she nodded and said, "Yes, I like Bai Yan, I have liked him since I was in college, I am not good-looking, I dare not confess to him... I can only use The identity of a good friend stayed by his side... Later, we were trapped here together, there were monsters everywhere, we were in danger every day, and the people around us kept dying. At that time, I thought that although we were trapped, at least I can accompany him every day..."

"Later I gradually realized that in this world, feelings are the most useless thing, and everyone just thinks about trying to survive..."

"I have been thinking that maybe one day I will die, but I have always believed that Bai Yan will not die, he is so powerful, so smart, he can find a way to kill the monster no matter how powerful he encounters it. , he will live forever..."

Yu Shanshan cried while talking, incoherently, the crying became louder and louder, and the tears kept dripping down like rain.

Gu Manyao was infected with her emotions, her eyes were red, seeing Yu Shanshan crying so much, her whole body was twitching~www.mtnovel.com~ stretched out her hand and gently stroked her back, she couldn't help but raise her head , looking at Wang Xuan.

There was a slight sadness on Wang Xuan's face. Now, he no longer had the calmness he had when facing monsters before. He was so calm that he didn't seem to see the slightest emotion, like a cold fighting machine.

On the other side of the curved corridor, a group of people appeared in the distance. They looked here curiously. It was Yu Shanshan's cry that attracted them. When they saw Yu Shanshan and Wang Xuan sitting in the corridor, He stopped, a look of awe and fear in his eyes.

The rhinoceros horn helmet, goblin scales and knight boots on Wang Xuan's body are different from the inferior equipment worn by most people. Here, those who can wear a purchased second-order ordinary equipment are already outstanding. What's more, there are special equipment that can't be bought. It can be said that every piece of equipment means that a powerful monster has been killed before it can be obtained.

These people quickly pushed open the door to the "East District" and walked in.

All of them are wearing only inferior equipment, even the strongest leader only has five inferior equipment, not even a second-order equipment.

They originally wanted to enter the "South District", but when they saw Wang Xuan and others just blocked at the entrance of the South District, they were a little scared and didn't dare to go forward. They temporarily changed their minds and entered the "East District". .

Chapter 95

During the hour when Wang Xuan and the seven rested, there were at least three people in the curved corridor, and without exception, they all entered the "East District". Drenched in blood, looking exhausted, he apparently finished hunting monsters in the "East District" and left to return to rest.

Under the comfort of Gu Manyao, Yu Shanshan cried for a long time, and finally calmed down.

Perhaps her emotions were vented, and her mental state was much better. Although her eyes were red and swollen from crying, in Wang Xuan's eyes, at least she was no longer as sluggish as before.

"People can't be resurrected from the dead, we who are alive still have to think about it, Yu Shanshan, think about your parents, think about your relatives, we have to work hard to live, find a way to find the certificate of the king, and then leave here. "

Gu Manyao kept comforting and cheering, hoping to arouse Yu Shanshan's desire to survive. If a person didn't even have the desire to survive, in such a world, it was almost equivalent to a death sentence.

Zhang Haofei frowned, he was tired of Yu Shanshan's crying and felt upset, but watching Gu Manyao comforting her made him uncomfortable.

After counting the time, Yu Shanshan's injury should have recovered long ago. Seeing that she finally stopped crying, Zhao Lei said, "Yu Shanshan, has your injury recovered?"

Yu Shanshan nodded.

Zhao Lei said: "I think everyone is almost resting, Wang Xuan, shall we go to the southern district to see now?"

When Yu Shanshan cried, Wang Xuan remembered his relatives and felt a little depressed. Hearing Zhao Lei say this, he cheered up, stood up, and said, "Then go in and have a look."

Everyone stood up one after another, and Zhang Haofei had an excited look on his face.

Although Yu Shanshan didn't cry anymore, she still seemed to have no energy, but she didn't object, but stood up silently.

Gu Manyao looked at her worriedly, and said, "Can you go in like this? If there is another monster, can you handle it?"

"I can do it...don't worry..." Yu Shanshan's voice became hoarse from the cry just now.

Seeing her say this, Gu Manyao stopped talking.

Wang Xuan's metal tentacles stretched out, and the gates of the southern district opened silently to both sides.

It was still a familiar movie theater, and it became quiet inside, not a single corpse nor a monster could be seen.

Everyone walked in again, and Zhang Haofei was chanting in a voice that he could hear like he was chanting a scripture: "Goblin warrior, goblin warrior, damn, come out quickly, come out quickly, come out a group of goblin warriors to kill me... .."

Zhao Lei couldn't help but said, "Zhang Haofei, what are you reading?"

Zhang Haofei ignored him, just looked around and said, "I'm reading something very important, you don't understand."

At this moment, a voice came from the oncoming viewing channel.

Zhang Haofei was refreshed, and the bone arm immediately appeared. He took a step forward and said, "Are the monsters coming out?"

Wang Xuan said: "Footsteps, this is... those people?"

He frowned, and everyone could see clearly that Shi Lei, who had met him before, had a ghostly expression on his face, and rushed out at full speed, followed by the dwarf in the armor.

Two steps behind them were two men. The four of them had blood all over their bodies. They ran out all the way, looking very embarrassed. Especially the two men who followed closely behind were pale and bloodless, even uglier than the faces of dead people. .

Originally, eight people went in, but now only four of them escaped. They rushed out of the viewing channel, and only took a breath and slowed down when they saw Wang Xuan and several others.

Seeing that the remaining four people had not shown up, Wang Xuan understood in his heart that most of them were in the playground.

"Clown... There's really a clown in that playground." The short man wearing a heart-protecting armor couldn't help crying when he saw Wang Xuan and Zhao Lei.

Wang Xuan said: "The clown shot at you?"

Shi Lei, headed by the head, nodded and said, "Yes, this clown is too scary. If we run away slowly, I'm afraid..."

When he said this, his cheeks twitched slightly, and his face was ashen.

Zhao Lei said: "I reminded you before that the clown is dangerous and told you not to go, but unfortunately you didn't listen."

The four Shi Lei heard this, and their faces were even more ugly. Although Zhao Lei mentioned the clown before, no one cared about it. They all had confidence in themselves. How could they think of losing half of them all at once.

"This clown, I must grab it, tear it apart with my own hands, and avenge my brothers." Shi Lei clenched his hands into fists, and there was a faint sound of crunching bones all over his body. Obviously, he hated this playground clown to the extreme.

"We're going to meet the clown again, will you go together?" Zhang Haofei looked at Shi Lei's appearance, sarcastically at him, and suddenly asked.

As expected, Shi Lei's expression changed, and he shook his head sharply.

"This clown haunts ghosts and ghosts. We can't deal with it. Since you are going, we can only wish you good luck. We will leave first."

After Shi Lei finished speaking, the four of them left in a hurry.

Zhang Haofei couldn't help laughing when he looked at the four of them.

In fact, they only entered this trip to find the goblin warriors, and it was impossible to enter the playground to find the clown.

"I won't go in until I reach the sub-body level, otherwise the clown will appear, and the possibility of sacrifice is too great." Li Haotian said while shaking his head.

Wang Xuan said: "This clown should only appear in the playground. As long as he doesn't enter the playground, it's still relatively safe."

While talking, everyone walked towards the movie viewing channel, and then followed the various movie theaters to find it. Except for entering the playground, everyone turned the movie theater upside down, but they didn't encounter a single monster.

Zhang Haofei said irritably, "That's weird. We don't want monsters to pop up when they appear. Now we want to look for them, but we don't have one. Do we really want to enter the playground?"

Zhao Lei said: "The playground is not safe. If we use our hatching beast to measure the clown's strength, it is at least a sub-body, or even a sub-body above. We don't need to go in now, it's too dangerous."

Zhang Haofei said, "Can't we just go back? Or continue to wait here?"

Wang Xuan said, "Let's go back first. Since there are no monsters here, it's pointless for us to stay here anxiously."

Although Zhang Haofei and Gu Manyao were disappointed, they were helpless.

"Grandma's...it's a lot of hard work. It's obvious that I will be promoted to breakthrough soon, but I just can't meet the monsters." Zhang Haofei followed behind the team with a depressed expression on his face.

Wang Xuan was thinking about his fight with the clown. He always wondered why the clown disappeared mysteriously after he got into the ticket office.

"It can't fly, and there are no hidden compartments on the ground. I can be sure that after it escaped in, it didn't leave this ticket office anywhere, but we dismantled the ticket office and didn't see it, not even a bit of wreckage, It really disappeared completely."

Wang Xuan didn't understand, he walked out of the curved corridor with everyone and returned to the hall.

Back in the hall, everyone was slightly surprised.

Although he knew that in the past two days, there have been more and more newcomers here day by day. Wang Xuan made a preliminary estimate before that there were probably forty or fifty newcomers who came to the hall, but he still did not expect to return to the hall at this moment. As far as I can see, there are at least forty or fifty people gathered in this entire hall.

There are forty or fifty people here, plus the number of people entering the East District or resting, does it mean that the number of people here is close to or even breaking through a hundred?

"It's amazing... This number is growing too fast..."

Zhao Lei whispered softly.

Wang Xuan's eyes were immediately attracted to the four people beside the glass column in the center of the hall.

Around these four people, a lot of people gathered like the stars offering the moon, and they were talking with each other. Even the four Shi Lei they had met before were gathered to one side, as if they were watching.

Seeing these four people, Wang Xuan's heart was slightly shocked, and he was immediately attracted by the equipment on them.

These four people, three men and one woman, have no inferior primary equipment on them, and they are all second-order equipment.

Wang Xuan quietly opened the eyes of the illustrated book to observe the equipment on them from a distance, and found that one of the men actually had a complete set of second-order excellent equipment on his body.

"White Python Helmet, Black Rhino Armor, Black Rhino Knee Pads, Goblin Gauntlets, Tiger Claw Boots"

Wang Xuan observed the five pieces of equipment one by one. All of them were second-tier excellent equipment. Each piece of equipment represented the need to hunt down a powerful monster to obtain it.

This man is tall, with a simple and honest face, and looks like a big stupid man from a distance, but with this complete set of second-order sophisticated equipment on his body, no one dares to underestimate him.

In addition to him, the remaining two men and one woman are also second-tier equipment, but they are not as luxurious as him. Most of them are iron helmets and heart protection iron armor purchased with crystal scales, each of whom only has one or two pieces. Excellent second-order equipment.

"Where did these four people come from?" Although Zhao Lei couldn't see the detailed information on the equipment of the four people~www.mtlnovel.com~, he could see that the equipment of the four people was gorgeous, and the one who looked at Like a stupid big man, that outfit looks more gorgeous than Wang Xuan.

Everyone walked over slowly in amazement. They didn't understand why there were so many people gathered around them, as if they were discussing something.

Soon Wang Xuan saw a group of familiar people in the surrounding crowd.

This group of people is Cheng Aiguo, Meng Lian, Lu Weichao and Feng Yuan.

The original team of eight had now become seven. Wang Xuan did not see Ma Weijie among them, guessing that Ma Weijie should be dead.

Coming here, unless you stay in the hall all the time, as long as you go out to hunt monsters, it is normal for someone to die. It is not surprising for Wang Xuan to see that Ma Weijie is gone.

Cheng Aiguo and Meng Lian also saw Wang Xuan who came over.

Cheng Aiguo immediately smiled at Wang Xuan and greeted him.

"What's the matter, who are those four people?" Wang Xuan asked in a low voice, looking at the four people in the crowd curiously.

Cheng Aiguo stood beside Wang Xuan and whispered, "They are from above."

"The person above?" Wang Xuan was shocked.
