

Last Building on Earth Chapter 96-100

Chapter 96

Hearing what Cheng Aiguo said, Wang Xuan understood that these four people were from other floors above the first floor. No wonder he would say that they were from above.

If they can take the elevator to get down from the top, they don't need to think about it and know that they are at least sub-body or even above. They can wear a set of second-order equipment, so it's not surprising.

Now it has been confirmed that if you go up by the elevator, you can also go down.

Wang Xuan once again thought of the woman who entered the elevator and left. Looking at the people around him, he said in a low voice, "Since they have all gone up, why are they suddenly coming down now?"

"They said that they need to go to the southern district to find an item. Now there is a shortage of people, they need to recruit 20 people here. As long as they sign up, they will give ten crystal scales immediately. You can get their shelter and the qualifications for their guidance, in short, there are many benefits, attracting a lot of people, it is estimated that the recruitment is almost full, do you sign up?"

When Cheng Aiguo said this, the expression on his face showed that he wanted to sign up and was a little hesitant.

Wang Xuandao: "Go to the southern district to find an item?" He thought of the clowns in the playground, but there are so many people entering, especially there are four people from the upper floors, the clowns are nothing, as long as you sign up, After the event is completed, you can get 20 crystal scales, and the total is 30. You can buy a second-order ordinary equipment, which is exciting.

However, the more generous the reward, the more hesitant Wang Xuan felt in his heart. He felt that the reward might not be so easy to get, and he didn't believe in the fall of the cake.

"Brother Cheng, what about you, have you signed up?" Wang Xuan saw that compared with the last meeting, Cheng Aiguo's inferior leather armor was replaced by a second-order heart-protecting iron armor, and he knew that he had made great progress.

Cheng Aiguo shook his head slightly and said, "I'm really excited, but I'm also hesitant because I'm afraid it's not easy."

He had the same idea as Wang Xuan, and with their respective teams, stood on the sidelines and watched. Among the four people from the upper floors surrounded by the center, a man with a horse face said solemnly: "There are still three positions left, is there anyone else willing to join? If not, we'll set off."

Hearing this, Shi Lei, who had been watching the crowd, finally made up his mind, raised his hand and said, "We are willing."

While talking, he took the other three people and squeezed up from the crowd.

"There are four of us, is that okay?" Shi Lei's original team consisted of eight people. When he entered the southern district and met the clown in the playground, he lost half of it at once. Among them were his brothers who had a very good relationship with him. He was full of hearts. Angry, bent on returning to the playground to seek revenge on the clown.

After thinking for a while, he finally decided to participate. With so many people in this trip, plus four people from the upper classes, as long as the clown dared to appear, he would definitely not be able to finish his meal.

"Okay!" The horse-faced man nodded immediately, took out a bag from the armor on his body, counted forty crystal scales, and handed it to Shi Lei.

Then Shi Lei sent it to his three brothers one by one.

The horse-faced man saw that Shi Lei and the four had divided the crystal scales, and then he said to the tall man with a simple and honest face but wearing a sophisticated second-order suit: "Brother Lu, everyone is ready, we can go."

This brother Lu stood there motionless, his eyes were open, but there was a faint snoring in his mouth. Before, everyone around was talking and talking with each other, and the sound was covered up. At this moment, because everyone gathered, they were about to set off. They all quieted down, and then everyone heard it. Brother Lu actually opened his eyes and fell asleep standing up.

"This guy is amazing, he can even fall asleep." Wang Xuan admired secretly.

This brother Lu was pushed by the horse-faced man, and then he let out a long sigh, his eyes fluttered a few times, and then he woke up.

Brother Lu woke up, yawned, glanced at the horse-faced man, and said, "Ma Dongcheng, how is it?"

Ma Dongcheng said: "There are twenty-one people in total, plus we are twenty-five, and we can go."

Brother Lu nodded, then reached out and scratched his face, with a silly expression on his face, and walked in the direction of the corridor first.

Ma Dongcheng followed behind, followed by another man and a woman.

Both the man and the woman looked indifferent, didn't say a word, just walked silently.

Behind them, there are 21 people who signed up and got paid. These people originally belonged to different teams, but now they have gathered together, and walked towards the corridor together.

The four Shi Lei were also mixed in.

Watching them walk into the corridor one after another, Cheng Aiguo said, "Wang Xuan, do you want to go and have a look?"

Everyone was curious about the person who came from above and wanted to look for something in the southern district. Although Cheng Aiguo didn't sign up to participate, he was actually full of curiosity.

Looking at Cheng Aiguo, Wang Xuan knew that he wanted to go, and when he looked at the people around him, they all looked curious.

"Wang Xuan, let's go and have a look. I'm really curious, what are these people looking for? If they can make friends, maybe they know what the upper floor looks like." Zhao Lei urged.

Zhang Haofei said: "Yes, so many people have entered, I'm afraid that the clown in the playground is nothing."

Cheng Aiguo asked, "What is the clown in the playground?"

Wang Xuan explained, and seeing that these people have entered the corridor, besides these people, there is a team that has not signed up but is also curious to follow.

"Let's go, let's go and have a look." Wang Xuan no longer hesitated, and decided to go to see what happened.

Cheng Aiguo brought Meng Lian, Lu Weichao, Feng Yuan, and Li Dan along with them. The team entering the southern district became larger and larger. When Wang Xuan and Zhao Lei and others walked in through the door of the southern district, As soon as I saw it, the waiting area of the movie theater was almost flooded with monsters.

Of these monsters, the goblin warriors are the ones rushing in the front, and the musket goblins are hiding in the distance to carry out long-range attacks.

The total number of people who entered the southern district was 40 to 50 people. At this moment, they were fighting with groups of goblin warriors, and the scene was very chaotic.

The sound of the explosion from the musket, the sound of the tables and chairs being shattered, and the sound of the flesh being cut open and screaming, all kinds of sounds mixed together, stronger than Wang Xuan's just entering, and also felt his scalp tingle.

"Is the number of these monsters related to the number of people entering?" Wang Xuan saw the group of goblin warriors emerging around him, and this idea suddenly popped into his heart.

"The more people who are likely to enter, the more monsters will appear..." Wang Xuan released metal tentacles for protection while guessing. There were too many people around, and with monsters, it seemed very chaotic. Various types of hatching beasts emerged one after another. Open his eyes.

Wang Xuan thought that the witch blood in Bai Yan's hands could weaken the enemy's ability, which made him appreciate it very much, so he invited Bai Yan to join his team, but he didn't want to enter the playground before, and the clown would tear off the heavenly shell. After that, Bai Yan lost his breath of life.

Wang Xuan felt very sorry for this. After all, Bai Yan's ability was very rare, and like Meng Lian's elf, it was impossible to find.

But at this moment, watching these dozens of people activate their own hatching beasts, he suddenly realized that the ability of the hatching beasts is simply strange, and the ability to weaken the enemy's combat power like Bai Yan's has become no longer rare here.

He saw the short man who followed Shi Lei in the armor of the heart, releasing a spider-like substance in his right hand. This spider-silk substance stuck to the goblin warriors, and a large amount of spider-silk substance stuck together, pulling each other, and the goblin warriors moved. And the attack speed began to become slow.

When I saw a woman with two ponytails, her right arm turned into a tree with green leaves growing on it. The skin of her right hand was like bark. Wherever it touched, green shoots grew. It started to transform into a tree, and its ability to hatch beasts was very strange, so he couldn't help but take a second glance and saw that she had transformed a goblin warrior into a human-shaped strange tree, which made people's scalp numb.

What Wang Xuan paid most attention to was the four people from above, but these four people just stood in the crowd watching and didn't make a move.

Gu Manyao, Zhao Lei, Zhang Haofei, Tie Jun and others also took action. They are in the critical stage of breaking through, and they all want to kill as many goblin warriors as possible so that they can be promoted to breakthrough.

This time, there were hundreds of goblin warriors and musket goblins that emerged from the surrounding area, but they couldn't resist so many people. They were quickly scattered by the crowd, leaving the corpses all over the ground to flee.

Although there were injured people among the crowd, they were not seriously injured, not even a single person died. Dozens of people with hatched beasts gathered together, and this strength should not be underestimated.

Every goblin warrior and musket goblin corpse will peel off a crystal scale, and these people are fighting for each other, almost clashing with each other.

"I killed this monster, how dare you grab my crystal scales?" Wang Xuan heard a man's roar from the crowd. He held a jet-black sword in his right hand and glared at the other man, almost glaring at the other man. I want to get started.

This man was not to be outdone, his right hand mutated, with thick black hair growing on the surface, resembling a giant bear paw, he held it in front of him, and said coldly, "I killed this monster, when did you kill it?" As he spoke, he put away a crystal scale he had just picked up.

The man with the jet-black sword was furious, and immediately stabbed it in the face.

The man whose right hand mutated into a bear's paw sneered, raised the bear's paw and slapped it, making a sound of gold and iron slamming, blocking the stabbed long sword, and the bear's paw tightened and grabbed the long sword.

Immediately, a few people gathered around them, and it was their respective partners who showed their hatching beasts one after another, and a conflict between the two teams was about to break out.

"stop!"

Suddenly a loud shout came, but it was Ma Dongcheng from above, with an ugly face, a horse's face stretched very long, and he didn't see how he moved, and he was between the two in an instant.

Seeing Ma Dongcheng's sudden attack, both sides were slightly shocked and stopped.

Although they didn't know the strength of the four Ma Dongcheng, but only because the other party came from above, and they were wearing a full set of second-order armor, they felt awe in their hearts for these four people.

This is a fear of the unknown.

"I paid each of you 30 crystal scales in the hope that you will come here to help, not to let you fight each other and kill each other." Ma Dongcheng said coldly: "If you are unwilling, hand them back to me now. Your crystal scales, leave immediately."

The man with the jet-black sword said, "He stole my crystal scales..."

He was interrupted by Ma Dongcheng before he could finish speaking.

"Okay, I don't care why you conflicted, stop it now, if you are not convinced, you can solve it by yourself when you leave here. As for the crystal scales dropped by killing monsters, who killed them? Whoever it belongs to, don't blame me, Ma Dongcheng, for being rude if there are people below who want to grab it."

Ma Dongcheng's words came from a distance, and the forty or fifty people gathered around were all quiet at this moment.

After that, they all began to honestly pick up their own crystal scales.

"Let's go." Under Ma Dongcheng's order, everyone began to walk towards the viewing channel at the end. Next, goblin warriors and gun goblins occasionally appeared along the way, all of which were easily killed by everyone, and even more people than monsters appeared. There are more cases. These goblins have just appeared, and they have been attacked by several hatching beasts. I am afraid that they will be bombed and killed before they understand what happened.

Soon, under Ma Dongcheng's instructions, everyone walked through the cinema to the back door, opened the back door, and outside was the huge indoor playground.

Except for Wang Xuan, Shi Lei and others, the rest of the people came here for the first time, and they were amazed to see such a huge playground.

"I didn't think there was such a big playground here..." Lu Weichao next to Cheng Aiguo was amazed.

Dozens of people entered the playground. Wang Xuan had metal tentacles wrapped around his right hand and looked forward. He saw that the original damaged ticket office was back to normal, and then he looked at the carousel not far away, it was stopped. .

"Wang Xuan, do you think the clown will appear?" Zhao Lei whispered.

"It's hard to say. With so many people, if the clown appears, it's no different from sending him to death." Wang Xuan glanced at the four Ma Dongcheng in front of the team. above the body.

If the clown appeared, these four people alone could kill it.

At this moment, Ma Dongcheng in front of the team took out a piece of rolled parchment from his body. He unfolded the rolled parchment, and the person who was close swept it out of the corner of his eye, and vaguely saw a map drawn on the parchment. There was writing on the side, and they knew in their hearts that they should have found this place based on this parchment.

"Could it be a treasure map? Are these four people looking for treasure in the southern district based on this treasure map? Just why are so many people gathered?"

Those who vaguely saw the map on the parchment were curious, but also full of confusion.

If it is really a treasure map, these people should wish that the fewer people the better, why would they bring so many people to hunt for treasures with great fanfare?

Or do they know that the place where the treasure is buried is too dangerous, so they invited so many people to join forces?

Everyone was guessing and doubting, but no one dared to ask casually. Wang Xuan and the others were at the back of the team, some distance from Ma Dongcheng and others. He was always very vigilant. Turn around and rush out of here with everyone.

Cheng Aiguo thought the same as him, the fourteen of them gathered together, and the distance from the group of Ma Dongcheng was more than ten meters.

Knowing that they were following, Ma Dongcheng and the others didn't care, and they didn't care.

"It seems that Ma Dongcheng took out a piece of parchment. Could it be a treasure map? Is there any treasure hidden in this southern district?" Zhao Lei said softly to Wang Xuan.

Wang Xuan sighed: "It's possible, but I just don't understand why he brought so many people. The situation here is a bit strange. We will act according to chance. If it is dangerous, we will go out immediately without any hesitation."

Zhao Lei and Gu Manyao who were beside him nodded in succession.

In the distance, Ma Dongcheng looked at the parchment, and then directed the crowd to move forward. Soon they arrived at the parked merry-go-round, and he waved his hand: "Encircle this place."

Everyone didn't know his intentions, but since they took his crystal scales, many people wanted to please them and get shelter. After listening to Ma Dongcheng's order, they acted one after another. People quickly surrounded the carousel.

Although there was not a single monster to be seen here, because Ma Dongcheng's order was a bit weird, everyone was very vigilant and carefully observed the surroundings.

"Listen, everyone, each of you is staring at a Trojan horse. Except for these seven Trojan horses, all the remaining Trojan horses need to be destroyed. After listening to my instructions, you will all take action together to destroy these Trojan horses, but remember Don't touch these seven."

Hearing Ma Dongcheng's instructions, everyone was confused. Shi Lei in the crowd couldn't help it, and said, "Why destroy these Trojan horses? You have to keep seven of them. What's the point?"

Ma Dongcheng glanced at him with a rare smile, and said, "I naturally have my intentions, I believe you have also seen this parchment I hold in my hand, and now I am based on the records on this parchment. What we do, the actual use is also very simple, that is, come here to find something we need, and only do it according to the recorded steps above, destroy other Trojan horses, and leave these seven Trojan horses, the things we need will appear, find What we need, your mission is completed, and I will pay you another twenty crystal scales per person, the whole process is as simple as that."

He paused for a while and continued: "Because according to the rules, these Trojans need to be destroyed at the same time, so there must be enough people, each of whom destroys one, so I found everyone."

After hearing what Ma Dongcheng said, everyone finally understood why they had invited so many people to Hua Kunfei Crystal Scales.

"If that's the case, then we'll listen to your arrangement. As long as you give an order, we can all destroy the Trojan horses in front of us at the same time, right?" Shi Lei asked.

Ma Dongcheng nodded and said: "Yes, if there are no other problems, then please prepare yourself, I will give an order."

"I have no problem."

"I can too."

Everyone responded one after another, saying they were ready.

Ma Dongcheng was a little nervous. Holding the parchment in his left hand, he raised his right hand high, and said, "Listen to me, start, you all immediately take action."

"it is good!"

Everyone responded again, only to hear Ma Dongcheng suddenly put down his right hand and shouted: "Start!"

Following his order, everyone took action one after another to destroy the Trojan horse that had been locked before.

With everyone's strength, destroying this kind of Trojan horse is very simple, only the sound of clucking sounded continuously. Except for the seven Trojan horses identified by Ma Dongcheng that were not destroyed, all the remaining Trojan horses were smashed by everyone in an instant.

With the smashing of these Trojan horses, the originally stationary merry-go-round suddenly made a "click" sound and began to move.

"The parchment is really true." Seeing this, Ma Dongcheng stepped back immediately, his face showing joy, and the man and woman who had been following him with a sullen face also showed a hint of surprise on their faces. Brother Lu, who looks like a big fool, is still there. Although he is standing there, he looks like he is wandering in the sky, and he doesn't seem to pay attention to everything that is happening in front of him.

The people surrounding them saw that the Trojan horse was destroyed. The carousel started suddenly, and they were all shocked. They didn't know what was going on.

Fourteen people, including Wang Xuan, Zhao Lei, Gu Manyao, Cheng Aiguo, and Meng Lian, were still standing far away, watching this scene silently.

When I saw these people destroy most of the Trojan horses under the command of Ma Dongcheng, and then saw the Trojan horse automatically start to rotate, my heart moved slightly, thinking that I had entered here before, I also saw the Trojan horse rotating, and then the clown appeared and disappeared mysteriously. .

"Could it be that what the four of Ma Dongcheng came here to look for has something to do with the clown? But although the clown is powerful, it is estimated that he is stronger than the average sub-body, but he is definitely not the opponent of these four... But I don't know what is on the parchment. How is it recorded, what treasures are they looking for..."

In Wang Xuan's curiosity, he stared at the spinning merry-go-round from a distance. The speed of the merry-go-round was getting faster and faster. Everyone retreated to the surroundings and watched the merry-go-round spinning, but it did not appear as Ma Dongcheng said. something they need to look for.

Shi Lei looked at Ma Dongcheng, UU read www.uukanshu.com and said, "Our mission is completed, can we pay for our crystal scales?"

Ma Dongcheng ignored him, and just stared at the rotating Trojan horse in front of him. Now most of the Trojan horses were destroyed, and only seven of them were spinning.

Shi Lei wanted to say something else, but the short man beside him suddenly called out, "Clown!"

Shi Lei's heart froze, his right hand tightened immediately, and a substance that looked like rock and metal appeared on the surface of his skin.

One of the main reasons why he is willing to enter here is to find the clown, combine the power of everyone, and avenge the four companions who died before.

"Come out!" He heard Ma Dongcheng's excited voice coming from his ears, but he saw a man wearing a clown mask sitting on the remaining seven merry-go-rounds.

They are wearing clown masks, clown costumes, riding wooden horses, and they are constantly spinning, which is both funny and weird.

"Seven clowns?" Shi Lei showed a look of astonishment after being stunned.

A clown is even more terrifying than an ordinary sub-body. What does it mean when seven clowns appear?

Shi Lei was in shock, and before he had time to react, the clowns riding on the seven merry-go-rounds suddenly disappeared again, and they disappeared before everyone's eyes.

Chapter 97

Almost at the same moment, two screams suddenly sounded, and there was a clown on the pirate ship next to him. It jumped up from the pirate ship and rushed into the crowd standing not far away. Grabbing the head of a person, with a crisp click, the helmet and the Tianling cover on the person's head were removed together, revealing the white brain.

This method is exactly the same as killing Bai Yan before. The person whose spiritual cover was removed this day, the hatching beast was collapsing, and fell to the ground.

Because they have the powerful self-healing ability and vitality of hatching beasts, they may not die immediately if they take off the celestial cover.

The seven clowns suddenly disappeared from the merry-go-round. At almost the same moment, a clown appeared on the pirate ship, took off one person's celestial cover, killed one person, and another clown appeared on the top of the merry-go-round, and then volleyed down and pounced. One of the retreating crowd.

Its speed is too fast, even the general sub-body is difficult to resist, not to mention that this group of people is basically a starter, and there is no time to dodge, and they are attacked by this clown and take out the Heavenly Spirit Cover.

Wang Xuan, Cheng Aiguo and others were some distance away from the group of Ma Dongcheng, so they gathered at the ticket office and watched from a distance.

The seven clowns suddenly appeared, Wang Xuan and the others saw their hearts beating wildly.

Others don't know the strength of this clown, but they know it. Even if Wang Xuan encounters this clown, he needs to go all out.

Almost in an instant, the seven clowns suddenly disappeared from the merry-go-round, followed by another clown on top of the ticket office not far from them, and pounced.

The speed is as fast as dodging, and the black shadow flashes, and it pounces on Li Dan, who is the closest to it.

Li Dan is one of seven people including Cheng Aiguo and Meng Lian. He once introduced his name to Wang Xuan, but Wang Xuan is not familiar with him. He only knows that Li Dan has some baby fat and looks cute.

Wang Xuan's senses were the most sensitive, and when he suddenly realized that he was wrong, he turned his head and saw that the clown above the ticket office pounced on Li Dan.

Although Li Dan showed his hatchling beast, he didn't have time to react, his head was grabbed by the clown, the crisp sound of broken bones sounded, and Li Dan's Tianling cover was removed.

Wang Xuan shot at almost the same moment, and the four-meter-long metal tentacles stretched out wildly, like a large python, sweeping over.

"Yeah", the door of the ticket office was suddenly opened, a dark shadow flashed inside, and a clown appeared again.

Looking closely, Wang Xuan suddenly found that although the two clowns were wearing the same masks and clothes, their bodies were different, one was tall and the other was short, which is very rare.

You must know that these monsters of the same type are basically the same, such as the same goblin warrior, tall, short, fat and thin like they are produced by an assembly line, and it is difficult to see the difference between them with the naked eye.

Although this clown is strange and powerful, it is also a kind of monster, and it should be similar, but why are these two clowns so different?

The clown who jumped from the top of the ticket office was taller, about 1.8 meters, while the clown who jumped out from the ticket office was only 1.6 meters tall and was relatively short.

All this was just a flash of Wang Xuan's mind, and the short clown who jumped out of the ticket office threw Zhong Cheng Pai.

Cheng Aiguo groaned and fell back, showing his amazing adaptability at this moment.

Wang Xuan understood at a glance that Cheng Aiguo had grown into a sub-body, otherwise he would not be able to have such a speed of change.

Although Cheng Aiguo is in his fifties, his energy and physical strength are not as good as those of young people, but at the moment he shows an amazing response and reaction speed. The moment he was

attacked by the short clown, his right hand turned over and snapped. It hit the clown's chest, and all the power exploded, forming a beam of light, like a shock wave.

With a "bang", the clown was smashed upside down and flew back.

Rao is so, his helmet was scratched, the top of his head was dripping with blood, and there were a few deep wounds. As long as half a second later, he ended up like Li Dan and was removed from the sky.

Wang Xuan's metal tentacles swept over and went straight to the tall clown's forehead. With a "smack" sound, blood flashed, and a lot of blood rolled out from the tall clown's right arm. A giant blood sword blocked the metal tentacles.

"Um?"

Seeing this scene, Wang Xuan frowned slightly, but Yu Shanshan suddenly cried out, "Bai Yan?"

Her voice was hoarse, but with excitement and disbelief.

She was too familiar with Bai Yan, seeing the clown suddenly jumping out, looking at the figure, and the blood sword formed by the familiar witch blood, although the other party changed clothes and put on the clown mask, she still recognized it instantly. Come out, this is Baiyan.

It's just, how could Bai Yan become a clown?

Recognizing Bai Yan, she was excited, and her first reaction was to rush up.

Gu Manyao immediately blocked her and shouted: "Bai Yan is dead, this is a clown! It's a monster!"

The clown ignored Yu Shanshan's cry at all. It used the blood sword to fend off the metal tentacles that Wang Xuan swept over, followed by a wave of his right arm, and blood was spilled on it.

"Everyone, get out of the way—"

Wang Xuan shouted loudly. Although he didn't know what was going on with the clown in front of him, if he really possessed the blood-shamanic ability similar to Bai Yan, once the blood of the witch was contaminated, it could invade the human body and interfere with their balance and thinking ability. That's trouble.

The iron army opened the diamond shield, protected it in front of him, and launched a "savage collision".

With a screech he bumped into it.

On the other side, Meng Lian, Lu Weichao, Feng Yuan, Wei Zitao and others took action one after another.

As soon as the short clown who was blown away by Cheng Aiguo turned over and retreated to the ticket office behind him, his body merged in and suddenly disappeared.

The tall clown suspected of Bai Yan was spilling blood, forcing everyone to dodge and retreat, but they also stepped back and disappeared into the ticket office.

Watching this scene, Wang Xuan suddenly woke up and said loudly: "I understand, this clown can move freely between all the facilities in the playground, so it can suddenly disappear in the ticket office before!"

Finally figured out the mystery of the clown's bizarre disappearance, Wang Xuan heaved a sigh of relief and suddenly relaxed.

What is really scary is the unknown. Now that he knows the mystery of the clown's disappearance, although it is strange, it no longer frightens him.

A series of screams sounded, and in the crowd surrounding the merry-go-round, several clowns rushed in. Most of these people were just beginning, and how could they resist, several people were killed immediately, and the rest began to be in chaos, or they were facing the scene. attacked by the clown, or turned around and tried to escape.

Ma Dongcheng, Brother Lu and a man and a woman with cold faces stood together in this situation, back to back, forming a small circle, but they still didn't make a move, as if they were watching a play, they even allowed these clowns to appear and slaughter. People around.

"Our money is not easy to get... When you are killed by the clown, the money will come back."

Ma Dongcheng whispered in his mouth, and put away the parchment in his left hand, with a look of excitement and faint fanaticism on his face.

They want to wait until these clowns have killed everyone before they take action. At that time, all the property of these dead people, including the ten crystal scales they paid each person before, will be theirs again.

It can be said that he actually did not need to pay a crystal scale to complete the goal, and he could also gain additional benefits. After all, these people originally had more or less crystal scales.

"Ma Dongcheng, are we going too far?" Brother Lu suddenly whispered, "Aren't we going to take action yet? They can't stop these clowns."

Ma Dongcheng said softly: "Brother Lu, they don't die, but we have to pay thirty crystal scales each, you know, we are all trustworthy people, but if they are killed by the clown, we can't blame us. , and we didn't kill them, they won't be punished, and we didn't break our previous promise, did we?"

Brother Lu thought about it seriously, then scratched his face, and said, "It seems to make some sense."

At this moment, the entire playground is in a mess. Although there are dozens of them, almost all of them are just beginnings. Only a few people can reach the sub-body, and the strength of a clown is stronger than the average sub-body. Seven clowns shot together, it is simply crushing, no one can resist.

That Shi Lei saw that one of his brothers was attacked by the clown again and took away the Tianling cover. His heart was broken, and he suddenly saw the four of Ma Dongcheng gathered together but did not do anything. People rushed here and shouted: "Everyone come here together—"

He understands that the only way to survive now is to rush to the four Ma Dongcheng and drag them into the water to deal with the clown.

In just a short period of time, at least ten people were killed. These clowns can move freely between any facilities in the playground. They are elusive, suddenly attacked, and then disappeared. It is impossible to prevent.

Wang Xuan watched the two clowns disappear into the ticket office. The metal tentacles were divided in two and slammed into the ticket office with a slam, smashing them into pieces, but the two clowns completely disappeared.

Wang Xuan turned his head sharply, but saw the tall clown who looked like a white rock appeared above the pirate ship on the other side. The man's head flew out.

Yu Shanshan pushed Gu Manyao away, shouted "Bai Yan" in her mouth, and rushed towards the tall clown.

"Yu Shanshan!" Gu Manyao shouted, trying to catch up to block her.

She didn't know what happened, but she was sure that this tall clown would never be the same Bai Yan from before.

"What exactly happened? Could it be that the people who are killed will also become clowns? Like the legendary zombies?" Zhao Lei's face showed a look of confusion and horror. Like Yu Shanshan, the more The more I looked at it, the more I felt that the tall clown was Bai Yan, and I wanted to take off the mask it was wearing to see what happened.

Wang Xuan was even more confused. With a piece of parchment, the seven people from Ma Dongcheng tried their best to create these seven clowns. Then, what is their ultimate goal?

That Shi Lei roared and rushed towards the four of Ma Dongcheng, and the others rushed towards the four of Ma Dongcheng after hearing what Shi Lei said.

They are too far away from the exit, and it is almost impossible to escape. The only hope now is the four of Ma Dongcheng.

Ma Dongcheng looked at Shi Lei and the others rushing towards him, his expression changed, and he snorted coldly.

Another scream sounded, and Shi Lei heard the familiar voice and understood that another of his companions had died.

Their team originally consisted of eight people, but now only he and another short man in armor were left.

It made his heart hurt.

Among these eight people, only Shi Lei himself broke through the sub-body not long ago, but he was also unable to match this strange and terrifying clown.

Shi Lei just rushed in front of Ma Dongcheng, but the four of Ma Dongcheng moved quickly and retreated to the other side.

They seem to know the rules of the movement of these clowns, and they try to avoid the facilities in the playground as much as possible.

These clowns will mainly appear around the playground facilities, not too far away, so that they can move quickly and attack, and teleport between the facilities of each playground.

The distance between the various facilities in this playground is very short, and it is impossible for the four Ma Dongcheng to avoid completely. They are quickly retreating in the direction of the exit, and two clowns suddenly appear in a row on the pirate ship not far from them. Take a shot together and pounce on them.

The speed of these two clowns is terrifying, and they both have the strength beyond the sub-body.

"Hey..." Ma Dongcheng suddenly let out a low laugh, and almost at the same moment, a man and a woman with a cold face among the four of them shot at the same time, and met the two clowns who rushed towards them.

From the time they entered the southern district to the present, this was their first shot.

At this moment, Wang Xuan had already led the crowd around the ticket office and retreated to the exit. They could escape from the playground at any time. Gu Manyao held Yu Shanshan tightly, preventing her from rushing towards the clown who seemed to be Bai Yan.

These clowns shuttle between the various amusement facilities~www.mtlnovel.com~ constantly attacking the people who are still alive in the amusement park, but they did not appear at the exit. Wang Xuan and several people retreated here. It seems to be safe at present. .

Wang Xuan had been following the four Ma Dongcheng, and when he saw that the man and the woman suddenly made a move, he was immediately refreshed.

He saw that the man stretched out his right hand, and chains suddenly appeared on his right arm.

The chains of "Crash La La" rubbed against each other, and these chains formed a large net and unfolded in the air. When they were closed again, they locked the clown who threw himself at him.

The clown was locked, and he couldn't move in mid-air. The man stretched out his left hand and took off the clown mask that the clown was wearing.

As the clown mask was taken off, the true appearance of the clown was revealed.

It does not have a heavenly cover, and the originally white brain inside has faintly turned light green, and the surface seems to have grown a layer of green hair, which is indescribably terrifying.

And the most numbing thing is that it has a face that is the same as that of a human being. No matter how you look at it, this clown is a human face.

Wang Xuan, Zhao Lei, Gu Manyao and others are not fools. When they saw the human face of this clown, and then looked at the removed Tianling cover, their hearts were like lightning and thunder, and under the shock, they all understood.

Chapter 98

With a snort, the man took off the mask, tightened the five fingers of his right hand, and the chain shrank, the clown twisted irregularly, and was soon shrunk into a twist by the chain, and the flesh and blood all over his body burst. Come on.

By the time he loosened the chains, the clown had turned into a pool of flesh and blood.

This clown, whose strength is comparable to the body, was actually vulnerable to this man, and he was killed when he met him.

The cold-faced woman greeted another clown who was rushing towards her. She raised her right hand, and Kacha Kacha sounded in succession. Every time it sounded, an ice cube was added to her right arm. The clown seemed to have a premonition that something was wrong. The clown's clothes on his body swelled like a ball, and then cracked from it. Countless playing cards shot out, and it turned into a black shadow and fled to the back, trying to escape.

Seeing this, Wang Xuan immediately understood that this clown was the clown who attacked him and killed Bai Yan before. Its special ability was to control the use of this metal playing card.

The cold-faced woman raised her ice arm and shook, and the ice cubes covered with it burst out, meeting the metal playing card.

The woman expected the enemy to take the lead, and seemed to know that the clown wanted to escape. While launching this round of ice cubes, she stood up, her right hand volleyed down, and the ice cubes that kept growing on her right arm piled up Together, they formed a huge ice staff, and in the sky, this clown turned into a black shadow and wanted to escape.

With a crisp sound of "Katha", the huge ice stick that was smashed smashed into a large number of broken ice chips. The smashed clown fell heavily, centered on the smashed place, and there were ice cubes in his skin and flesh. Constantly tearing the skin and growing outward, a large amount of blood was frozen as soon as it flowed out.

The clown shrank to the ground, twitching slightly, and no longer had the strength to move and resist.

The woman took a step forward, stretched out her left hand, and took off the mask the clown was wearing.

Under the clown mask, there was a dry face, and there was also no Tianling cover, and the surface of the exposed brain faintly seemed to have a layer of green hair.

The clown's body continued to have ice cubes expanding outward, tearing the skin of its whole body, like a thousand cuts, and the expanding ice cubes in the body eventually tore the clown alive.

This man and woman's shot moved Wang Xuan's face, and Cheng Aiguo and the others standing on the other side also became solemn.

"Kill the clown with one move, these two are so strong, they deserve to be the ones who came down from above." Zhao Lei whispered softly.

Gu Manyao said softly: "But they sit and watch so many people get killed by clowns, but they don't do anything. They have no good intentions, and they intend to let these people die."

She spoke in a very soft voice, and the distance between the two sides was far away. In this noisy environment, Ma Dongcheng could not have imagined that Ma Dongcheng had heard something, so he turned his head and gave her a cold look.

Gu Manyao's heart froze, and she immediately closed her mouth.

After the two clowns were killed, the remaining five clowns suddenly abandoned the pursuit of Shi Lei and others, and all appeared on the pirate ship.

Wang Xuan noticed the clown who was suspected to be Bai Yan. Blood was flowing on his right arm. He waved his right arm and sprinkled the blood on Ma Dongcheng and Lu Ge.

A short clown stretched out his right hand and mutated into crab claws, carrying a faint wind whistling towards the man who could control the chains.

There was another clown with a right hand, and a blood-red eyeball suddenly appeared in the palm. When the eyeball was opened, a blood-colored electric light was shot out, like a sharp arrow.

These five clowns each have their own special methods, and the abilities they use are like hatching beasts, and each of them is no weaker or even stronger.

Besieged by five clowns at the same time, this time, in addition to the indifferent man and woman, Ma Dongcheng also took action.

Ma Dongcheng stretched out his right hand, and a metal substance extended out, which quickly turned into a metal spear nearly two meters long.

A slender python is coiled around the long handle of this metal spear, and it looks like a living thing.

He shot the metal spear with a snort, with a faint sound of wind breaking through the air, and instantly pierced the chest of the clown whose right hand had mutated into a crab claw, so fast that the clown had no time to dodge.

The clown realized that something was wrong, the clothes on his body swelled up, and he wanted to escape backwards. Ma Dongcheng let out a snort, exhaled, picked the clown, and smashed it to the ground.

With a "bang", he slammed the clown to the ground, retracted the metal spear in his right hand, took a step forward, and stepped on the clown's chest.

When he stepped on it, the clown's chest collapsed in, and he picked up the mask on the clown's face with a spear.

The clown was a man in his thirties, and the heavenly cover on his head was also gone. The surface of his exposed brain had a faint layer of green fur, which looked very strange.

At this moment, Shi Lei and others, who were lucky to be alive, were fleeing to the exit of the playground where Wang Xuan was. Shi Lei turned his head and saw the face of the clown who had fallen to the ground with the mask removed by Ma Dongcheng. "

A look of shock and disbelief on his face.

"How is this possible, Lao Li was killed by a clown here before, how did he become a clown himself?"

It was just as horrified as the short man wearing the heartguard beside him.

A group of eight of them had entered the playground before, but they were chased by the clown and lost four of their companions before they escaped. One of them, Lao Li, was taken off by the clown and died. But now, this Lao Li is actually It has also become one of the seven clowns that appeared here, and looking at its head, it is true that the Tianling cover is gone, and even the brains inside are exposed, and a layer of hair grows on the surface.

"It's no wonder that the eyes of my illustrated book can't capture the information of these clowns, because they are not alien beasts or monsters... but real human beings, but they were controlled for some reason, wearing clown clothes and clown masks. , became a clown."

Hearing Shi Lei and the short man's shock and exclamation, Wang Xuan completely understood in his heart.

Looking at the clown whose right arm turned into a blood sword, Wang Xuan was sure that he was Bai Yan.

Yu Shanshan is not stupid, she immediately thought of the key, and suddenly grabbed Wang Xuan's arm and knelt down.

"Wang Xuan, please, save Bai Yan, he is not dead, although he has become a clown, he is not dead, he is just controlled!"

Yu Shanshan knelt down, shouting hoarsely, tears welling up in her eyes, she understood that she couldn't save Bai Yan, and among the crowd, only Wang Xuan might have the ability.

Wang Xuan was busy supporting her kneeling down. Although he was stronger than Yu Shanshan, Zhao Lei and others, he was not as good as him even in ordinary sub-body. One-on-one, he didn't even care about the clown, but against Ma Dongcheng. He Lu, the four people who came down from above, it is hard to say. Seeing the two men and women with cold faces killed the clown one by one, his heart shook, and he understood that these people were strong and they were hard to resist. Heng, what's more, even if the clown is really Bai Yan, how can he save him who has become a clown?

These thoughts flashed away. He was about to say something when Yu Shanshan suddenly stood up again. She seemed to understand that it was useless to ask Wang Xuan. She turned around and rushed towards Ma Dongcheng, hissing. Shouting: "Please, don't kill Bai Yan, please don't kill him—"

When Ma Dongcheng shot, the cold-faced man and woman shot at the same time, and each met a clown.

The cold-faced woman controlled the ice cubes that kept appearing on her right arm, turned it into a thick ice stick, slammed out of the sky, and with a "pop", a clown knocked the clown to the ground.

The clown who was knocked to the ground kept coming out of ice cubes, and his mouth let out a painful roar, but his body began to freeze, and he couldn't escape.

The cold-faced man activated the chains, and the chains extended out, interweaving to form a net, and the giant net of chains contracted, locking the clown who was suspected of Bai Yan.

The cold-faced man stretched out his left hand and took off the clown mask on his face.

The clown's face was revealed, it was Bai Yan.

His celestial cover disappeared, and the exposed brain had a layer of green fur on the surface. Wang Xuan noticed Bai Yan's eyes, which were blank, empty, and soulless.

Yu Shanshan finally saw Bai Yan's face, she was shocked, and she rushed up desperately.

"Don't kill him!" Yu Shanshan looked like a madman, the light mirror in her right hand appeared and turned into a light knife, she rushed like crazy, rushing towards the cold-faced man, she wanted to save Bai Yan.

"Yu Shanshan, stop it!" Gu Manyao called out.

These four people who came down from above were so terrifying, even these kambistyle clowns could easily kill them. Yu Shanshan rushed up and shot at them now, which was equivalent to death.

The cold-faced man saw Yu Shanshan shot at him, and his eyes became even colder.

"court death....."

He sneered softly in his mouth, with his strength, he could instantly kill Yu Shanshan, who was only in his initial form with a single blow, but something unexpected happened. He stared at Yu Shanshan, but instead of attacking her, he stepped back to avoid her attack.

Wang Xuan noticed this little detail, and his heart moved.

What does Yu Shanshan have to worry about? Could it be that... the person who came down from above, for some reason, couldn't take action on the person below?

So he clearly had murderous intent in front of Yu Shanshan, but he had to back away.

Wang Xuan thought of this, but saw that the cold-faced man retreated in order to avoid Yu Shanshan's attack. The net of chains that controlled Bai Yan was immediately loosened. Bai Yan's right arm shook, the witch blood reversed, and the chains were opened. He escaped and fell to the ground with his right hand. One, with witch blood wrapped around five fingers, grabbed the top of Yu Shanshan's head.

The expression on Yu Shanshan's face froze, she turned her head reluctantly, and saw the face of Bai Yan behind her.

"Bai Yan..." A smile appeared on Yu Shanshan's face again, but this smile looked uglier than crying.

The helmet she was wearing was twisted and deformed, and there was blood flowing down her forehead. She could feel the blood flowing down. It was hot.

"Bai Yan...you're not dead, it's nice to see you again..."

Tears flowed out of Yu Shanshan's eyes, she tried her best to turn around, she wanted to hug Bai Yan.

She has dreamed countless times that one day she can be held by Bai Yan in his arms, and she can sleep in his arms, that must be the happiest thing in the world, but unfortunately, she has never had the courage.

"Yu Shanshan—" Gu Manyao called her name again, her eyes became red, her right hand tightly held the Yaochi knife in her hand, her whole body was trembling, she wanted to rush with Yu Shanshan several times. Go up, but, she is not the opponent of Ma Dongcheng and Brother Lu, nor the opponent of these clowns. She rushed up to death and could not change anything.

When Wang Xuan saw that the cold-faced man was concerned about Yu Shanshan's shot, he did not parry or counterattack, but chose to retreat, he understood a little and rushed up immediately.

Unfortunately, he was still a step late. Although he extended the metal tentacles to the limit of four meters, he was still a few meters away. He couldn't stop Bai Yan. He could only watch Bai Yan stretch out his hand and grab Yu Shanshan's head. Fresh blood flowed, Yu Shanshan had a stiff smile on her face, and the Tianling cover above her head was torn off by Bai Yan.

The name "Bai Yan" in Yu Shanshan's mouth stopped abruptly, she fell forward and fell into Bai Yan's arms.

She thought about leaning against Bai Yan's arms countless times, but in this situation, her dream came true.

Bai Yan's face was blank, and he didn't seem to have any emotional fluctuations about everything in front of him. He just lifted Yu Shanshan's heavenly cover to complete his mission. The next moment, he would make another move to lift more people's heavenly cover.

Bai Yan's whole body shook, the chain wrapped around him was completely shaken, and the expression on the cold-faced man who retreated changed, because he felt that at this moment, the power that erupted from Bai Yan's body overwhelmed the chain he controlled. .

Wang Xuan rushed up. He didn't know if Yu Shanshan could be saved or not. According to common sense, in terms of people who have hatched beasts, they would not die immediately if the Heavenly Spirit Cover was removed. This kind of special ability, as long as the opponent's Tianling cover is removed, the opponent's hatching beast will be deprived of power and then die.

Of course, now Wang Xuan has understood that this is actually a state of suspended animation. After that, people in this suspended animation will be controlled, gain special powers, become powerful, and become clowns.

This is the real face of the clown in the playground.

Wang Xuan's metal tentacles rolled, wrapped around Yu Shanshan, and dragged him back. Bai Yan shook off the chains that were entangled in him, and the layer of green fur on the brain above his head suddenly emitted a green light, turning into a green light. , like a green rope, flying to the merry-go-round behind it.

Immediately after, the three remaining clowns who were still alive had a green light above their heads, forming a green light, like a laser, flying to the merry-go-round.

What's even weirder is that among the corpses all over the ground, those who were thrown off by the clown and fell into suspended animation, their exposed brains appeared green dim light, turned into light ropes and flew out, even Wang Xuan had just wrapped them with metal tentacles. A green light also appeared above Yu Shanshan's head, forming a rope of light.

Although 20 or 30 people were killed, only about 10 people were actually removed by the clown, and the other people who died were killed by the clowns using their different abilities.

Now those who have been removed from the sky, as the green light rope flew out of their heads, they began to sway and slowly climbed up from the ground.

This scene made Wang Xuan think of the resurrection of zombies. These people who were removed by the clown were like an infection. Does this scene mean that they are also starting to transform into new clowns?

More than a dozen green rays of light flew together to the top of the merry-go-round. Soon, on the top of the merry-go-round like a giant umbrella, there was an extra hand. This hand held the dozen or so green rays of light. Hehe's eerie laughter came down from above.

Brother Lu, who had never done anything, suddenly rolled his eyes, with a smile on his simple and honest face, and began to step forward in the direction of the merry-go-round.

"It's finally out, I've been waiting for you for a long time."

At this moment, Brother Lu finally no longer looks like a big fool, and his eyes are full of terrible light.

This change stunned everyone, Wang Xuan looked towards the top of the merry-go-round, only to see that there was a strange man with a big-headed doll.

This strange man is about two meters tall, and his body is like a dwarf. From the feet to the neck, it will not exceed one meter three, but on top of it is an extremely large head. This head is sixty to seventy centimeters high. The face, this huge head is exposed, different from the human white brain, this weirdo's head is green, with two fist-sized eyeballs inlaid on it, and two small holes in the bottom, representing the nose, and then down It has two rows of snow-white fangs, without the protection of lips and flesh, these two rows of fangs are exposed.

This strange man is ugly and strange. His right hand that stretches out is like a bird's claw, dry, black and thin, but he is holding more than a dozen green light ropes. Humanity.

"King Clown, you finally showed up." Ma Dongcheng raised his voice and threw the parchment paper in his left hand to the ground. It was no longer needed now.

Wang Xuan understood that the real goal of these four people coming to the Southern District was not for a clown mask, nor to summon a clown. Their goal was the clown king.

At the same moment, his Eye of the Book was activated, and finally captured the information of the Clown King.

"Name: Clown King, Race: Mysterious Race, Danger: ★★★★★ (Four Stars), The Clown King is the master of the playground. When he was born, he was born with a congenital absence of the Heavenly Spirit Cover, his brain was exposed, and his parents regarded him as Abandoned for monsters, this makes the clown king's mind extremely distorted. He likes to lift off the heavenly cover of people and become a clown just like himself. All clowns are puppets controlled and played by the clown king, for him to drive, It is also its playmate, the playground is their world, all intruders due to accidents or some reasons will be killed by the clown and become the new playmate of the clown king."

After sensing the information, Wang Xuan took a deep breath. It was the first time he had seen a monster with a four-star danger.

At this moment, except for Lu Ge and Ma Dongcheng, everyone else fled to the exit of the playground. At this moment, only a loud bang was heard, and the gate of the playground behind them closed automatically. All of them are locked in the playground.

The sudden incident shocked everyone. Zhang Haofei was standing beside the door. Seeing the door suddenly closed, his first reaction was to activate the "Whirlwind Bone Claw" and slammed it against the door.

If the door can't be opened, it will be troublesome. They are not fools. Just by looking at the monster that appeared on the merry-go-round, they know that this guy is not easy. If they stay here, it is too dangerous.

With a loud "bang", the door didn't move at all, but he was bounced back by a stronger force, and the "Whirlwind Bone Claw" almost dissipated. fell out.

Zhao Lei and Tie Jun took a step up, stretched out their hands together, and caught Zhang Haofei who fell back.

"Damn, this door can't be opened, it's troublesome." Zhang Haofei's face became ugly.

Looking at the merry-go-round again, Brother Lu, who looked like a big fool, let out a low drink, strode forward, and was the first to rush towards the merry-go-round.

The equipment he was wearing was the best among the four of them, and he had a complete set of second-order excellent equipment. He had never made a move before, but now he suddenly made his move, as fast as a bolt of lightning, faster than Ma Dongcheng and the pair of cold-faced men and women. , ran away in an instant.

"Brother Lu, be careful, this clown king is not easy!" Ma Dongcheng shouted, "Chen Chao, Han Bingbing, let's do it together!"

While speaking, Ma Dongcheng held the metal spear in his hand, and jumped up, chasing after Brother Lu, and rushing towards the merry-go-round.

Chen Chao and Han Bingbing were the pair of men and women with cold faces. They responded with a sound of ~www.mtlnovel.com~ and immediately gave up attacking the clowns, and concentrated on rushing in the direction of the clown king.

Wang Xuan rolled Yu Shanshan with his metal tentacles. He originally wanted to rescue her, but he didn't want her Tianling cover to be removed by Bai Yan. A green light appeared on her exposed brain, which turned into a rope of light, and was caught in the distance. The Clown King holds in his hand.

This clown king sat high on the top of the merry-go-round, opened his **** mouth, and let out a hoarse and weird laughter. This laughter was heard in the ears of everyone, and his scalp was numb, and there was an indescribable sense of terror.

It pulled the green light ropes with its right hand, and the people who turned into clowns were the puppets it controlled, and began to frantically attack everyone. Brother Lu, who rushed towards it, was immediately attacked by two clowns.

The two clowns, a metal axe appeared on one's right hand, and a small lizard about a foot long was wrapped around the other's right hand. They shot together, one left and one right. The small lizard volleyed into the air, its body suddenly elongated, its tail fused with the clown's right hand, but its body stretched to a meter or two, with its mouth open, its fangs exposed, and it bit Lu Ge's neck viciously.

When Brother Lu was attacked by these two clowns, he burst out laughing, his right hand clenched into a fist, the fist suddenly seemed to be inflated and began to expand, the surface skin hardened, and a layer of bronze luster appeared faintly.

Chapter 99

In just an instant, his bronze fist, which was the size of an ordinary person's three fists, rushed out like a cannonball.

With a "bang", the lizard that was biting towards his neck was hit by a punch and immediately exploded. The clown who was controlling the lizard groaned, as if he had suffered a heavy blow.

Another clown's metal axe slashed into the air, and Lu Ge was much faster than it, bypassing the metal axe, and the bronze fist hit the clown who was controlling the lizard head on.

Suddenly, the clown's head exploded, and the green light rope on the top of the head lost its target, and immediately broke and flew back.

The clown king sitting on the merry-go-round in the distance made a hoarse sound, as if he was saying something.

It's just that no one understands its language.

As soon as he killed the clown who controlled the lizard, Brother Lu kept on rushing in the direction of the clown king. Ma Dongcheng rushed up a step later than him, and the metal spear in his right hand stabbed out into the air.

The clown holding the metal axe was busy raising the axe to resist, and just blocked the metal spear, a slender python wrapped around the spear suddenly came to life, rushed along the metal spear, and immediately got entangled in this. On the clown, it was tied tightly around its neck.

The clown made a cooing sound, and soon the neck was twisted and twisted by the python, and the head above rolled down.

The second clown died, the green light cord attached to its head broke and flew back.

There were a total of twelve clowns, one each of Lu Ge and Ma Dongcheng committed suicide in the blink of an eye.

But in front of them, there were more clowns, and seven or eight clowns crowded together. They were all real human beings. Although they were controlled by the clown king, their hatching beasts still existed and changed. Even the weaker sub-body is not their opponent. Now seven or eight are attacking together, and the four of Lu Ge and Ma Dongcheng are immediately blocked.

Later, Wang Xuan never expected the situation to become like this. He had just wrapped Yu Shanshan with his metal tentacles. The light knife with a foot length rushed towards him.

In addition to her, Bai Yan also rushed up from the other side.

In the face of these two people, Wang Xuan didn't do anything for a while. Although they became clowns, according to the information observed by the clown king, although they were removed from the sky, they didn't actually die. They were only killed by the clown king. It was controlled and turned into puppets and puppets for it to serve.

"The only way is to cut the green light rope, maybe it will wake them up."

Wang Xuan's thoughts turned and looked at the light rope held by the clown king. With a kick, the metal tentacles retracted, and he wanted to bypass them, trying to find a way to cut off the green light rope attached to them.

Although his speed is fast, the strength of Yu Shanshan and Bai Yan, who are controlled by the clown king, have been greatly improved, and they are by no means weaker than ordinary sub-body.

Their bodies followed, and Bai Yan launched the witch blood and swayed it out. As long as Wang Xuan was contaminated with the witch blood, he could control the witch blood to invade Wang Xuan's body, affecting his balance and thinking.

Yu Shanshan propped up her right hand, opened the octagonal light mirror, and blocked Wang Xuan, so that he could not dodge Bai Yan's witch blood.

On the other side, Gu Manyao, Zhao Lei, and Tie Jun started rushing towards Wang Xuan. Although they knew that Yu Shanshan and Bai Yan who had become clowns were terrifying, they did not hesitate to take action when they saw Wang Xuan being attacked.

"Dangerous, you stay there!" Wang Xuan shouted at them. They were not strong enough to come here. Not only could they not help him, but they wanted him to be distracted.

Hearing Wang Xuan's stern shout, Gu Manyao and Zhao Lei stopped for a while, and their faces were anxious.

"You stay here, I'll help him!" Suddenly, Cheng Aiguo spoke, and then he swayed and ran out.

Cheng Aiguo was the only sub-body in their group, although it was not long before he broke through to the sub-body, seeing that Wang Xuan was attacked by two clowns at the same time, the situation was not good, so he rushed to help.

Brother Lu and Ma Dongcheng were attacked by seven or eight clowns. At this time, their terrifying power was displayed. Among them, Brother Lu was the most powerful. His bronze fist was almost like a smash. With one punch, he was instantly killed. The two clowns blocking him head on.

Ma Dongcheng, Chen Chao and Han Bingbing were not weak either. They killed one one after another. Seven or eight clowns stood in front of them. They killed five in the blink of an eye. In addition to the two clowns they killed before, these twelve clowns Seven died in an instant, and only five clowns remained on the field.

The clown king sitting on the top of the merry-go-round seemed to be completely provoked, and suddenly let out a hoarse roar, and stood up from the top of the merry-go-round.

The sound of "Korcha" was crisp, the top of the wooden horse could not stand its strength, and it opened like shatters. The clown king grabbed the remaining five green light ropes and rose into the air.

Everyone looked at its huge head and doubted whether its slender neck could support such a heavy head.

"Boom", although it had slender hands and feet, but after landing, it stepped out of two small potholes on the ground, and then jumped up again and came to Lu Ge.

It loosened the five green light ropes it held in its hands, and stretched out a pair of hands like black claws and grabbed towards Lu Ge's neck.

Brother Lu's bronze fist came up like lightning, both sides shot in the blink of an eye, and Brother Lu's bronze fist hit one of the black claws.

The sound of bones shattering sounded, the clown king's two rows of fangs opened, his blood-red tongue hung down, and he let out a shrill scream. The black-black claws he was hit lost to Lu Ge's bronze fist, and the bones were broken. The meat was rotten and burst open.

But Brother Lu couldn't avoid his other black ghost claw. He grabbed the bone on his shoulder and pulled it out.

The blood splattered, Brother Lu groaned and fell back, and immediately there was a blood hole on the left shoulder, and blood spurting out.

Ma Dongcheng held the metal spear in his right hand with a faint scream, and stabbed it from the side.

At this moment, the black-black ghost claw on the right hand of the Clown King had just been smashed by the bronze fist, howling in pain, and was falling back, too late to dodge, and was pierced through the waist and abdomen by the metal spear in Ma Dongcheng's hand.

Ma Dongcheng succeeded, let out a low whistle in his mouth, began to spin the spear, and the flesh and blood flew out. The python wrapped around the metal spear rushed out and went straight to the slender neck of the clown king. As long as it was entangled by the python, immediately it can break the clown king's neck.

With a "no" sound, the blood-red tongue spit out by the clown king shot violently, just like the tongue of a toad and a frog, hitting the python that rushed over.

The python exploded immediately.

This python was a part of Ma Dongcheng's hatching beast. It was suddenly broken. As if he was hit hard, his right hand shook, and the metal spear in his hand almost flew out of his hand.

The clown king kicked his feet and bumped his huge body up.

Ma Dongcheng didn't have time to dodge, such as a broken kite flying backwards in the air, blood spurting wildly from his open mouth.

Chen Chao, who followed closely behind him, saw it in his eyes, and was secretly frightened, but there was still no special expression on his face. He opened his right hand, and the chains were intertwined, forming a huge net, and then retracted to the center, hitting the Pegasus just now. The Joker King of Dongcheng is locked.

Brother Lu's left shoulder was injured, but he reacted the most quickly, launching a bronze fist again, hitting the back of the clown king's head just locked by an iron chain.

The speed of the bronze fist was too fast for the clown king to dodge, without a sound, Brother Lu's bronze fist hit the clown king's huge green head, and immediately sank deeply into it.

The punch failed to blow his head, but he sank deep into it. Brother Lu felt a little bad in his heart. The clown king swung his body, and the chain wrapped around him began to break, leaving only one black ghost claw left. As soon as he stretched it out, he grabbed it into Brother Lu's chest, and then pulled it fiercely. The flesh and blood were pulled up together with the black rhino armor, and the internal organs in Brother Lu's chest were exposed.

This time the pain caused Brother Lu to open his mouth wide and take a breath, so much pain that he couldn't even let out a scream.

Han Bingbing didn't say a word, and the ice arm covered with ice hit the clown king on the right side of the forehead.

Pieces of ice began to extend from the clown king's forehead, and more ice cubes emerged from the inside, breaking through its green head and emerging from it.

Han Bingbing launched his hatching beast with all his strength to destroy and tear the clown king from the inside.

But she didn't have time to be happy, the clown king's body had been freed from the chains and bumped into it.

In terms of speed, she is not as good as the clown king, she can't dodge, only the sound of bones breaking, she and the clown king collide together.

Blood came out of her open mouth, and the armor on her chest immediately collapsed in, and the Clown King fell out with her, pressing her down heavily.

At this moment, Ma Dongcheng, who was hit and injured, just got up from the ground. Brother Lu was seriously injured in the chest and retreated. Wang **** again.

Han Bingbing was pressed by the clown king like a mountain on top of him. Knowing that it was not good, he let out a loud roar and tried his best to push the clown king away.

With a "no" sound, the Clown King's left paw fell and hit her on the forehead, her head immediately shattered.

Han Bingbing died, and Chen Chao saw it in his eyes, his eyes turned blood red, he let out a roar, and the chains immediately locked the clown king.

"Bingbing—" Chen Chao's voice was stern, and his rationality was lost in an instant.

He and Han Bingbing are both naturally indifferent and withdrawn. They rarely have any emotional fluctuations, and there is no expression on their faces. The two cold and withdrawn people meet, but they have feelings. They have a good impression of each other, but they are not together because of character reasons.

But at this moment, seeing that Han Bingbing's head was smashed by the clown king, Chen Chao immediately collapsed and went mad, shrinking the chains frantically, wanting to strangle the clown king, and he rushed up desperately.

With Han Bingbing's death, her hatching beast lost its power, and the ice cubes that kept coming out of the clown king disappeared. Just as he turned his head, Chen Chao's right hand was heavily stuck on its forehead.

Chapter 100

Green blood splattered, and the clown king was tangled in chains, making a rattling sound, constantly twisting and deforming, and was about to be smashed by the chains.

Suddenly, the frantic Chen Chao saw a flower in front of his eyes, and he felt heat flow down his forehead and brow. He didn't know what was going on. He only felt a flower in front of him, and then the sky turned around, and it became dark in front of him, but he didn't know anything. .

The clown king spat out his **** red tongue and shot it out like an arrow, hitting Chen Chao on the forehead and knocking off half of his head.

Chen Chao fell to the ground and died immediately.

Key points such as the head and the heart are destroyed, and even the most powerful hatching beast will die.

Brother Lu roared from his throat and ran towards this side, still a step late, and could only watch Han Bingbing and Chen Chao being killed by the Clown King.

His eyes were round, and there was a terrifying light inside, and Ma Dongcheng, who fell out on the other side, quickly got up.

The two of them, one left and one right, rushed towards the clown king desperately.

The original calmness on Lu Ge's face disappeared, and he began to realize the horror of the clown king in front of him, which was far less simple than he imagined.

As soon as Chen Chao died, the chains that locked the Clown King began to disappear.

It stood up again, its two rows of snow-white fangs opened, it let out a terrifying roar, and the blood hole punched by Lu Ge's bronze fist on its head was still flowing out with green juice, facing Lu Ge and the horse who were rushing up. In Dongcheng, the only remaining black-black ghost claw stretched out, avoiding Brother Lu while rushing towards Ma Dongcheng.

Lu Ge's bronze fist is terrifying, and even it is full of fear.

On the other side, Wang Xuan was attacked by Yu Shanshan and Bai Yan who turned into clowns. Cheng Aiguo rushed up and wanted to help him.

Yu Shanshan and Bai Yan, who became clowns, have improved their strength, and both have sub-physique combat power. Wang Xuan dare not underestimate it. Attacking, I don't want Bai Yan and Yu Shanshan to turn around and rush in the direction of Brother Lu and Ma Dongcheng.

Besides them, the other three clowns also gathered together towards Lu Ge and Ma Dongcheng.

They sensed the clown king's call, their eyes glowed with a strange green light, and there was a faint whistle in their throats. Just as Lu Ge shot at the clown king, he was attacked by two clowns behind him.

"Looking for death!" Brother Lu gave a low drink, twisted his body violently, avoided one of the clowns, and punched his bronze fist in the air.

With a loud "bang", a clown was hit in the chest, and his flesh exploded. The clown was punched alive and torn apart. The power of this bronze fist was simply appalling.

Five clowns were killed instantly by Brother Lu.

Ma Dongcheng on the other side was seriously injured, his chest collapsed in, and several ribs were broken. At this moment, when he saw the clown king rushing up, he could only stand up, holding a metal spear in his right hand, and stabbed it in the air.

The metal spear just pierced out and was caught by the Clown King's ghost claws. At the same moment, Yu Shanshan and Bai Yan were attacked from behind.

Knowing something was wrong, Ma Dongcheng kicked his feet, dodging the attacks of Bai Yan and the two behind him, and rushing towards the Clown King at full speed.

Wang Xuan and Cheng Aiguo rushed forward only one step behind Yu Shanshan and Bai Yan.

Shi Lei, who had been waiting at the gate of the playground, and a woman with two ponytails on her head also started rushing towards him.

Among the rest of the crowd, they are the only two sub-types among them. At this moment, everyone can see that the situation is not good. Chen Chao and Han Bingbing were killed by the clown king, and Lu Ge and Ma Dongcheng were injured. Now they are attacked by the clown king. Besieged with five clowns, once Lu Ge and Ma Dongcheng are really killed, then it will be their turn next.

I am afraid that everyone will not be able to come out alive today.

"Let's go together!" Zhao Lei suddenly shouted: "If we don't kill that clown leader, we will all die today!"

Seeing Shi Lei and the woman with the ponytail rush out, Zhao Lei also rushed up while shouting.

Driven by him, everyone rushed out one after another. Although they were only in the beginning realm, a group of people joining forces could also cause trouble for these clowns.

At this moment, Brother Lu let out a roar, and once again punched the bronze fist out, hitting another clown's head, directly blowing his head open.

Five clowns surrounded him, and he killed two in a blink of an eye.

Ma Dongcheng did not have his strength. He was attacked from behind by Bai Yan and Yu Shanshan. The metal spear was caught by the Clown King. He jumped forward and a python emerged from the metal spear. He had been prepared for a long time, knowing that the clown king's tongue was like a powerful crossbow, he was busy turning his head to dodge, and at the same time, the python that protruded from the metal spear violently rushed towards the clown king.

Not wanting the clown king to be faster than him, he missed the hit with his tongue, and the black-black ghost claw in his left hand grabbed the metal spear and swung it up violently.

Its power is much greater than that of Ma Dongcheng. Ma Dongcheng only felt an irresistible force coming from the metal spear. He couldn't help but vacated and hit the ground on one side.

Knowing something was wrong, he immediately put away his arms and legs and curled up.

With a "bang", he hit the ground heavily, Ma Dongcheng groaned, and a mouthful of blood spit out from his mouth. Suddenly, his back became cold, but Bai Yan took a step forward, and the blood sword in his hand stabbed in from the back, and passed in front of him. The chest came out.

"Damn..." More blood came out of Ma Dongcheng's mouth, and he roared, "Brother Lu, save me!"

As he roared, he turned over, activated his special ability, and the metal spear in his right hand spun at high speed.

With a "chi" sound, the retracted spear shot out again, immediately piercing Bai Yan's chest, and the high-speed rotating spear carried a lot of flesh and blood.

Bai Yan didn't know the pain, staring at the wooden but empty eyes, the witch blood on his right arm was surging, all of it sprayed onto Ma Dongcheng's head and face, and immediately penetrated into it.

At this moment, Brother Lu had just killed two clowns, and he wanted to continue to kill the third clown who rushed up. Hearing Ma Dongcheng scream, he hurriedly turned around and jumped up to meet the clown king who wanted to kill Ma Dongcheng. bumped together.

The clown king was knocked and rolled by him, and his bronze fist hit the clown king's head again. As before, the clown king's head couldn't be blown up by his bronze fist, but he punched a deep blood hole. A lot of green juice is flowing out.

Yu Shanshan held the light saber in her right hand and followed Bai Yan to catch up. With a wave of the light saber, Ma Dongcheng suddenly let out a roar, and his left arm that he had just raised flew out.

Yu Shanshan had just cut off his left arm when Wang Xuan appeared silently, grabbed the back of her neck and slammed it down with force.

Yu Shanshan instinctively pushed down with both hands, only to hear a crisp "click", her arms were fractured and broken, and the white **** bones pierced the flesh and emerged.

Wang Xuan followed with his feet, and there were two crisp clicks in succession, and then stepped on the bones in Yu Shanshan's legs.

Although it seems cruel, Wang Xuan understands that the best way to deal with Yu Shanshan now is to break her limbs and make her temporarily incapacitated.

After all, Yu Shanshan now has the combat power of the sub-body, and has a strong self-healing ability. Wang Xuan didn't dare to be careless to her, so he could only make a ruthless attack.

Her hands and feet were broken, and Yu Shanshan couldn't feel the pain. She fell to the ground, twisting all over her body and seemed to want to get up, but her hands and feet couldn't support her body, making her like a writhing worm, she seemed to say no. It came out weird.

However, Wang Xuan ignored her and shot at Bai Yan.

Bai Yan's chest was pierced by Ma Dongcheng's metal spear. He was stronger than Yu Shanshan, and without fear of pain, he took the initiative to face the high-speed rotating metal spear and rushed towards Ma Dongcheng.

Ma Dongcheng's left arm had just been chopped off. He never expected the clown in front of him to be so crazy. In horror, Bai Yan jumped on him, and the blood sword that turned into his right arm fell and cut into his neck.

Ma Dongcheng made a cooing sound in his throat, and every time his mouth shook, blood bubbles kept coming out.

His neck was almost completely cut off, and even a strong man with a hatchling beast was not far from death.

Wang Xuan followed, and two metal tentacles stretched out, entangling Bai Yan's arms, the sound of bones breaking, and twisting the bones in Bai Yan's arms.

Cheng Aiguo, who rushed up with him, saw Wang Xuan's method of dealing with Yu Shanshan, and realized that he also shot at the last remaining clown, and a white light shot out from his palm, forming a shock wave.

It's just that the clown's strength is not inferior to him. With one hand, a white light whip is drawn out, and it slams on the shock wave that Cheng Aiguo hits.

The white light whip confronted the shock wave head-on, and there was a violent sound.

Shi Lei punched his right hand, hitting the back of the retreating clown, and there was a cracking sound of a broken spine.

The woman with the ponytail grabbed the clown's shoulder with her right hand, and the clown started from the shoulder, together with the clothes on her body, green leaves emerged and began to turn into a tree.

At the same moment, Brother Lu suddenly let out an earth-shattering roar, which was very mournful.

Wang Xuan had just twisted Bai Yan's arms and bones, when he heard the sound, he turned his head to look, but saw King Clown and Brother Lu entangled together. Only the black ghost claws caught Lu Ge's face.

The sharp ghost claws stabbed in, and Brother Lu's eyes were pulled out alive. He screamed and went blind immediately.

The clown king stretched out his blood-red tongue, and then hit Lu Ge's face, punching a transparent blood hole in his face, and even the white python helmet on his head was pierced and destroyed.

This second-order excellent white python helmet is severely damaged and cannot be restored. This armor is considered destroyed.

After Brother Lu screamed, his whole body twitched. Seeing that he couldn't live anymore, the clown king's black-black ghost claws grabbed Brother Lu's broken head and used it as a weapon, and suddenly smashed it towards Shi Lei and the ponytail woman.

Shi Lei knew something was wrong, and before he had time to dodge, he let out a loud roar, and a rock-iron substance immediately appeared in his right arm, forming a rock-iron shield.

"Boom", the rock iron shield just took shape, and he was hit by Brother Lu who was swung over by the clown king. Shi Lei only felt as if he was hit by a heavy hammer, his right arm vibrated like a broken bone, and his body rolled and flew in an instant. Going out, the rock-iron shield he had just formed shattered from it immediately.

It is conceivable how powerful this clown king, who has been hit hard, is.

During this impact, Brother Lu's body was twisted and deformed, and there was a sound of broken bones and flesh in his body, and the armor he was wearing was destroyed in the impact.

The clown king stood up and swung Brother Lu, first smashed Shi Lei, and then swung it out sideways. The ponytail woman was so shocked that she didn't care about turning the clown into a tree. The clown pushed Brother Lu, who was swung over.

With a "bang", the clown and Brother Lu collided. Brother Lu's body was twisted like a twist, his five internal organs were torn apart, and a lot of blood came out along Brother Lu's mouth, nose, eyes and ears, and the clown was like a The big stone on the stone machine flew out and landed heavily, turning its body sideways, like a rag doll being torn at random.

This clown king had fought with Brother Lu and Ma Dongcheng before, and everyone seemed to be just as powerful, only slightly stronger than Brother Lu and others, but at this moment they understood that this clown king was more powerful than the average sub-body. To be too strong, even if it has been seriously injured, it is still crushed.

The clown king used Brother Lu as a weapon and smashed it wildly. Brother Lu's armor kept twisting, deforming, and cracking. Wang Xuan saw it, and his heart ached, but Brother Lu had a set of second-order excellent armor.

The clown king smashed the clown with Brother Lu. Brother Lu was already dead. The woman with the ponytail backed away and just retreated to Wang Xuan's side. The king of the clown carried Brother Lu and rammed it like a high-speed car.

Wang Xuan didn't care to break Bai Yan's legs again, the metal tentacles took Bai Yan and threw him out, and he quickly slanted.

The speed of the woman with the ponytail was not as fast as that of him and the clown king. Although the clown had just blocked a blow, the clown king rushed up again and threw the tattered corpse of Lu Ge in his hand.

This time, the ponytail woman didn't have time to dodge, so she could only make her right arm completely tree-shaped to resist.

Brother Lu's body collided with her tree-shaped right arm, and the body of Brother Lu, which was about to fall apart, finally completely shattered. In his mouth, blood spurted wildly.

On the clown king's huge head, there are three blood holes that are bigger than fists. This is the injury caused by Lu Ge's bronze fist, which cannot be healed. Green juice is constantly flowing out from it. very manic.

Throwing Lu Ge's body and smashing the ponytail woman, it turned around abruptly, its two rows of fangs opened, and its blood-red tongue stuck out.

Zhao Lei rushed up with Gu Manyao, Zhang Haofei, Tie Jun, Meng Lian, Lu Weichao, and a group of Chuqi. They originally wanted to block and trap the clowns for Wang Xuan and the others. How could he expect the situation to change rapidly, suddenly Lu Ge and Ma Dongcheng died, and the clown king broke out, like a crazy, no one can stop it.

Even the sub-body was vulnerable, not to mention their group of first-timers. They rushed up and rushed back, and every clown king who looked mad had his scalp numb.

The clown king's blood-red tongue was like a sharp arrow, and instantly hit Cheng Aiguo on the other side.

Cheng Aiguo's shoulder was pierced, a low growl came from his mouth, and he flipped his right hand, sending a shock wave.

The Clown King twisted and avoided the shock wave, and the black ghost claws stretched out to grab Cheng Aiguo's head.

Suddenly, there was a faint wind whistling from the back, followed by a "porphyry" sound, and the back of its head was hit hard.

Wang Xuan appeared, the metal tentacles wrapped around his right arm and turned into the most powerful monster arm. He understood that if he didn't kill the clown king, all of them would die here today.

Going all out, the power of the giant arm of the beast exploded, and there was a hint of blue crystal scales in it. The power of this punch was close to that of Lu Ge's bronze fist. .

Wang Xuan felt that the clown king's green head was like a very tough muscle. When his giant beast arm was punched in, he was caught by this muscle, pulled by a huge sucking force. Pull it out and attack again.

Knowing something was wrong, he saw the clown king turn his head, his eyes glowing with terrifying green light, two rows of teeth, and a blood-red tongue licked over.

Fortunately, Wang Xuan had seen the clown king attack before, and knew that there were three main methods of attack, one is the black ghost claw, the other is the tongue, and the other is the impact.

When the giant arm of the beast could not be pulled out, he expected that the clown king might attack with his tongue or black claws.

The huge arm of the monster that was originally gigantic was clamped, and suddenly shrank and became smaller. He successfully pulled his right arm out of the clown king's head. attack.

Two metal tentacles appeared, one wrapped around the clown king's head, the other wrapped around its body and the black ghost claw, and launched "twisting and strangulation".

With the original strength of the Clown King, it was difficult for Wang Xuan to entangle it, but now the Clown King's head has been continuously injured, and both the movement and the reaction speed have slowed down, its strength is declining, and it cannot avoid the entanglement of the metal tentacles. .

The metal tentacles shrank and made a rattling sound. The entangled body of the Clown King immediately twisted and deformed, but his head was as hard as iron. Even the "twisting and strangling" of the metal tentacles could not easily destroy it.

The Clown King began to struggle, a terrifying roar roared in his throat, and all the power burst out. In the huge head, the four blood holes left on the surface suddenly continued to spurt green liquid, Wang

Xuan only felt that the two he controlled. The metal tentacles were pulled by the terrifying force, and they were about to break from it.

He sucked in a breath of cold air. This 4-star dangerous clown king is too terrifying. This is the first time he has encountered such a situation. The entangled enemy can break off the metal tentacles.

Once the metal tentacles are broken by it, the next person to die will be himself. In this horror, Wang Xuan has no choice, and immediately destroys the blue crystal scale energy in his right hand.

The blue crystal scales that had been quietly lurking in the depths of the white light in his right hand were finally triggered again, and a cloud of blue dim light suddenly emerged from his right hand, and the two metal tentacles seemed to be lit up.

One after another, blue halos lit up from the metal tentacles, starting from the root of the tentacles and extending to the tip. In the blink of an eye, the two metal tentacles were like lit blue neon strips.

Wang Xuan only felt an indescribably huge force surging out of his body. This force was so full that it seemed like he was about to open his body. He couldn't help but open his mouth and let out a loud shout. He moved the metal tentacles, tied the clown king, and slammed it out.

With a sound of "porch", there was a faint vibration on the ground, and the clown king's slender body immediately exploded into a cloud of blood, and two tentacles lit blue light tied together the clown with only a huge head. Wang, like two blue pythons entangled.

As it shrank toward the center, the originally tough green head couldn't resist it, and began to twist and deform, shrink and squeeze toward the center, and suddenly burst open, and a large amount of green juice seeped out along the gap between the tentacles.

After completely crushing the Clown King, Wang Xuan took a breath and was busy shrinking the metal tentacles.

If this energy cannot be controlled, it will go berserk. Wang Xuan's last encounter with a near-death experience is still fresh in Wang Xuan's memory.

A white scale suddenly appeared in the shredded clown king's blood.

This scale is different, shining brightly, like a ball of white light, and instantly submerged in the right hand of Wang Xuan, who was retreating.

At the same moment, Wang Xuan felt the white light in his right hand fluctuate violently, and swallowed the white scale, a feeling of being torn apart, followed by a faint sound of "click", his The beast actually grew again, breaking through the form of the sub-body.

All of this happened in an instant. Zhao Lei, Gu Manyao and the others all opened their eyes wide and stared blankly at Wang Xuan who was falling back. No one could have imagined that the metal tentacles he was controlling suddenly lit up with blue light, and then changed. It was so terrifying and powerful that it killed the clown king in an instant.

They immediately thought of the scene when Wang Xuan was still in the beginning
~www.mtlnovel.com~ with one enemy and three, killing three in a row.

What is the ability of the blue light in this metal tentacle? How can it be so scary.

Wang Xuan, who was retreating, only felt that his body was torn apart by the energy of the blue crystal scales. fourth form.

This made his body immediately shrouded in white light, and the energy of this white light nourished the whole body, making every inch of his body's muscles and bones further strengthened.

With the continuous strengthening of the body, the tearing feeling that could not bear the energy of the blue crystal scales gradually disappeared, and the energy of the blue crystal scales slowly subsided. .

Just now, in order to deal with the clown king, he burst out the energy of blue crystal scales with all his strength in an instant, but failed to accurately control the strength of the burst of energy. shattered.

If it weren't for his successful breakthrough, the beast had grown to a higher form, and now he has split and died, perishing with the clown king.
