Rei relay her opinion and continue what she forgot “ah, I almost forgot since you’re here Bro En, I will ask you something.”

All of them are shocked and dumbfounded from what they heard from her in just one statement with a well plan and then when she mention and call one of them, they ask the same thing like all of them is En.

“W—what are you going to ask?”

Rei found it weird and realized that when they ask at the same time.

“Geez, relax. What’s wrong all of you even you Mama?”

“Are you really our Rei?”

Hearing that question, Rei already know why they acting like this, so she explain “ah, I got it from my work being a methodical person is one of the qualifications from my job, so you must be used of it because I will become more and more like you don’t know me anymore.”

“Really?”

“Uh-uh but well I’m still me”

“I know, I know Sis, so what are you going to ask to my HUSBAND?” ask by Mei and pronounced well the husband word and emphasize something hidden meaning.

“My Mei?” ‘Are you jealous to your own sister?’ En get it right away the moment his wife emphasize the word of husband.

“It’s not what you’re thinking My En and I’m just curious of what Sis going to ask you?”

“Really, My Mei?”

“Tsk stop it the two of you, I’m just going to ask Bro En, if it would be alright for him that you Mei will help and part of the management of the shop?”

“T....that”

“I know how protective you are to Mei, Bro En but don’t worry Mei have two bodyguards so I’m sure both Ren and Ken will not let their eyes take off from their Mom, right?”

“Yes Aunt Rei and we promise that we will never let any bugs approach Mom”.

“Good, good, see Bro En and also Lyn is the owner of the shop so no need to be so tight with your wife, she’s in good hands when you’re not around.”

En without any choose agreed but warn them “alright I agree but promise me that My Mei will be alright and in good hands.”

The family after hearing it from him they dumbfounded because of his overprotective, they already know En is always dotting Mei but they never witness it would be like this and then assured to him “of course, we’re family after all.”

The kids who heard their Aunt saying leave they become sad again and call her attention “A—Aunt Rei?”
