

Last Man 56

Chapter 56 - Meng's parent and her reunite

After hearing that question from Mei she suddenly squealed “Aiyah, Sis you’re so beautiful, if I’m a man and not one of your siblings then I will woo you until you become mine” without noticing that the two police officers blush.

‘Oh, it’s perfect for Ms Din, just what I imagined when I bought that one’ feeling satisfied

‘Since when do you have a good taste, Chief?’

“Stop that one Mei and I will never become yours cause you’re not my type”

“Ouch, that hurts Sis”

“Silly” then look to Meng couple “Mr Meng and Mrs Meng here’s your daughter Meng and guys if you don’t mind we already have foods for our lunch.”

“Sis why are you telling it directly, can you tell it one by one?”

“Oh? Is that so, but I already said it all. Ah never mind that one, let’s eat first it almost 1pm and I’m sure everyone still not eating at this time. Meng help me distribute it to everyone”

“Yes Sis Lou”

“Thanks Meng”

Rei distribute the foods to Mei, En, El and then to the two police officers.

“Here’s your shares Sir

“.....”

“Just take it as this dress payment”

“You...your B” then Chief Lin stop himself and said to her instead “I’m sorry that I suspected you awhile ago”

“It’s alright Sir and if I put my self on your stead then I would also do the same thing” then Rei give the shares to the 7 lawyers and to Assistant. She never distribute the foods to CEO Meng, Mr Meng and Mrs Meng because she want Meng to distribute the foods to her parents and grandpa. When Rei is busy distributing the foods, Meng is still carrying the plastic bag and she don’t know when her boss done it so quick in just matter of minutes and she even give the share who already receive their shares from Rei.

When they just arrive here in the EOR hallway, Meng didn’t hear what they’re chatting about and just let her head down because she’s really too worried about her elder sister even she act strong when Rei inform her but well Rei knows it well and it really obvious that she act like not affected at all. Meng give the share to others without looking.

“Here’s your share Sir and Ma’am”

Both said together “Fefe”

Because Meng didn’t pay attention, she suddenly raise her head when she heard a familiar voice calling her nickname.

“M—mom, D—dad?”

“Uh-uh, I and Dad are both alright now”

“Mom, Dad” then hug them and just stay quiet because she had many questions to ask them but she don’t know when to start so being silent is better than bombarding them many questions.

Meanwhile the elder interrupted them “Fefe”

“G—grandpa?” Her parents are not surprised that she regained her memory back because Mei told them while grandpa is happy because her granddaughter is alive.

“Yes, yes it’s me my baby girl”

Meng ran and hugged her grandfather “grandpa”. After a few minutes the family had already finished their reunion and started eating their shares, Meng had already finished eating, so she just watched everyone while eating. When they were done eating, Elder Meng suddenly asked.

“Why did they take it so long? I want the best doctor, not one who is slow to operate my granddaughter.”

“Dad, calm down. C City Hospitals are the best and the doctors here are all the best”

“But, but....”

“CEO Meng, I know you’re getting anxious but just trust your granddaughter, if you will be like this Ms Meng will also fail to fight herself in order to be safe. Let’s just stay strong, pray and believe in her”

“Yes father, Ms Din is right”

“I know, I know and Chief Lin please solve this case sooner”

“Yes, CEO Meng”

“Are you going back to the station Chief Lin?”

"I will wait for the doctors first in order for me to conclude. I almost make a mistake awhile ago CEO Meng"

"Oh, alright"

"Miss Din can I ask your contact details in case I want to ask again this matter?"

"No need Chief Lin and don't bother them, they we're here to help us about our internal matters and because of hat they already dragged by us"

"O—okay CEO Meng"

All of them became silent again but all of sudden Mrs Meng suddenly ask.

"Ah, that's right Fefe, we heard you're working as one of the staff of this two pretty ladies here?"

"Yes Mom. Boss Mei, Ma'am Rei and Boss Lyn are the only one accepts me even they heard my backgrounds about and you know what Mom I already got blacklisted from any fields in order for not getting job but only them who accepts me without hesitation"

"Fefe it's not I'm ungrateful but I already have you baby girl"

"You're company is huge grandpa but I'm not feeling comfortable in there and feel like I'm suffocating, I'm sorry to this grandpa but I will serve my best and work at Boss Mei, Ma'am Rei and Boss Lyn"

"I understand you Fefe, but one day if I need you, are you going to help me?"

"Of course, you're my grandpa after all but I will stay work in them"

“Alright”

Meng suddenly stand and approach her boss “ah, grandpa this is Boss Mei and Ma’am Rei. Boss Lyn is Sir El’s wife”

“You really love your bosses that much, huh” feel little bit jealous for them

“Of course Grandpa, the three of them are my idols and all of them are my goddess. They never questions about my background. The three of them can choose whomever they want and who also have a clean background instead having a doubtful background” I without knowing Meng said this heartfully that her tears start to flow from her eyes. “Fefe what’s wrong?”

“It’s alright Mom, you know I apply for almost 2 months but nobody wants to accept me because I got blacklisted and they were afraid about my suspicious background. I search and search but still no one wants to accepts me until then, I see their flyers hiring a staff so I tried and then they contact me to be there for the interview. I said them about my backgrounds but they never questioned other things they accepts me. You know Mom, even they’re just start their business and just open yesterday and today is my second day but I really feel comfortable and belong to them. And now they’re helping me for our internal matters without hesitation and didn’t ask anything in change for helping us.” Meng said it while crying.

Mei and Rei who also there and heard everything don’t know how to react because both of them are not an emotional person but today they become speechless because they don’t know that Meng views them like a hero, for them they just did what’s the right thing to do and if you question the three of them, the three of them including Lyn will answer that they accept Meng because she deserve it and not because of her background, because all of them views that backgrounds are just like a wall for a person and what matters the most is your personality and manners. The two of them want to comfort and stop but they didn’t because her mom is the one comforting her. Another few minutes pass all they heard is sobbing from Meng and after she’s calming down Meng ask to her bosses.

“Ma’am Rei and Boss Mei can I hug both of you?” Both of them nodded “Boss and Ma’am, thank you, thank you, thank you for everything and I don’t know how to pay you back.”

After hearing from her both sisters said in unison “just be yourself, be kind, always know the right thing and be thankful what you have. All of that are worth for paying us back”

Except El, En and Meng 'are both of them already satisfied with that?'

"Yes Boss Mei and Ma'am Rei, I will never disappoint the three of you"

Because all of them are busy with these dramas they never notice the the sign "on operation" turns off and a group of doctots get out from the operation room and just notice them when they heard one of them ask.

"May I know whose parents of the patient we operate?"
