“Is that all?”

“That’s only what I know and who knows you’re still hiding more”

“All of your accusations do you have a solid evidence?”

“Of course I have and I’m not spouting nonsense, I’m not like you”

“Oh well before I will let you know that this recordings is fake or not, let me show you an evidences for everything of your accusations. Do you think as your Superior, I didn’t know anything. After I become the Head Secretary, someone sent me an email and what a coincidence, what you say just now are also what I received in my email but it’s not me but someone else. Well do you want me to show it you here or just only you?”

Reina suddenly goosebumps and got scared but stay confidence because no one’s got an evidences of her doings and unknown to her Rei got it all, since she’s R.

After knowing that R was also now protecting the security and protection of sites in S Country, Rei as R received an email from CEO Hwang to investigate Reina Mu and being the Head Secretary, CEO Hwang assigned her for this investigation and give her email to R without knowing that R and Rei is same person. Truthfully CEO Hwang was going to fired her out after knowing all of this but then Rei stop him because she discovered something from R email that Reina is a spy from the rival company and in order for CEO Hwang rival to be not alerted he stop because Rei told him not to and let’s just wait for the right time that the rival company will not be alerted and this is the right time.

“Just let everyone show it and it’s not me we’re talking about because it’s you” Reina replied confidently but deep inside she’s so scared.

“Well don’t blame me for revealing it” Rei get her laptop from the bag and put it on the table. “Here it is Secretary Reina” Rei played one file with a video and audio, at this time CEO Hwang and the rest board of members are also there witnessing it. Well CEO Hwang already know of it but pretend he just know since this what Rei plan along time ago and just execute now since Reina bite the trap. Who knows only Tae can trigger this girl mind for almost a year since they plan and today it’s just work right now because of Tae’s appearance. The moment Reina approach her, Rei already messaging CEO Hwang by not looking since she connected the pen recordings with her prepared text to CEO Hwang and will automatically send after pressing the start button of pen recordings.

And Mr. Hwang received this message like this “CEO Hwang, it seems Secretary Reina bite the trap, call the board of directors to prepare in advance”

All of them witness it all, whatever accusations she said except for being a spy and it's not Rei but it's all Reina, then after the video ended Reina shout.

“No, no it's not me, you're trapping and blackmailing me Secretary Rei and it's you, you.”

“What is this all about?” CEO Hwang and all of the Board of Directors appeared.

“CEO Hwang and Sirs”

After noticing CEO Hwang, Reina pretend to be a victim

“CEO Hwang, CEO Hwang, Secretary Rei is blackmailing me and uses her position against me”

“Is this true Secretary Rei?”

Rei didn't answered and Reina smirked then continue “and she blackmailed me by that pen recording and said that it's evidence against me”

“What's this pen recording Secretary Reina talking about Secretary Rei?”

“She's talking about this one CEO Hwang”

“Is it really real or not, Secretary Rei?”

‘Ha, ha easy do you think you can win against me Bit– and d.....’ got interrupted by her taught when she heard her.

“Yes CEO Hwang and let me show it to you” Rei played it and then all of them witness that is not only recordings of audio but also has a video. It’s a pen but can connect and pair to any available device and also has video recordings. All of them except Rei teams and Tae can’t believe it’s only a pen but they underestimated it based of the pen appearance. A pen that can record an audio and video, amazing. Then suddenly one of the board of members who also had this recordings said.

“This is made by the three top individuals in C Country, Engineer El, R and Teacher Mei, you’re lucky that you have it Secretary Rei?”

‘OMG, how come someone know this, nobody knows that we’re siblings? Wait, I think I heard it wrong’
“Eh, what did you say Sir?”

“Ha, ha you must be surprised Secretary Rei but I’m telling you and said awhile ago that this Pen Recordings is made by C Country Top Individuals in Different Fields, Engineer El in Electronics Fields, R in IT Fields and Teacher Mei in Teaching Fields. I don’t know why these three suddenly invent this device.”

“.....”

“Geez it really prove that you are a Ceno, Secretary Rei”

“Why Sir?” Rei co-families ask except Tae

“Well one Ceno can buy many of it while one foreign can buy only one, so Secretary Rei how many do you have?”

“I only have 20 in me and I already give it to my friends (15 for her teams, 1 to CEO Hwang and 1 to Tae when they become friends)”

“See you have 20 while me only one Tsk, tsk I forgot that you’re Ceno and just realized it now, how many left do you have,?”

“I only have 3 in me”

“Oh, then can you give it to me?”

“Sorry Sir but I can’t”

“Figure it out is it because R can trace it, right?”

“Uh-uh”

“Let’s get back to our Main Topic” CEO Hwang interrupted them since they’re out with the main issue.
