

Let me go, Mr. Hill By Shallow South Chapter 2317

Chapter 2317

It was really scary that Sarah looked like this now. Both sides of her face were sunken even her nose was collapsed and her eyes were sunken like a female ghost.

During the court session, Sarah acted like a crazy woman and scolding and throwing things everyday. She couldn't accept how ugly she was now and she couldn't accept that her legs were completely crippled.

When the day of the trial finally arrived, Garrett made an excuse not to go.

In front of the court, Sarah was being pushed there. Rodney and Sarah met on a narrow road.

When Sarah saw Rodney, she scolded the newly divorced couple, "Rodney, you have to die, I used to be blind to marry a domestic abuser like you. Why am I so unlucky? Ah, I've been liked by someone like you for more than 10 years."

Her words pierced Rodney's heart like a needle.

Rodney clenched his fists tightly as his blue veins burst out and he was wishing to kill Sarah on the spot.

The lawyer quickly pressed his shoulders, "Young master Snow, calm down."

Rodney took a few deep breaths before turning around and entering the courtroom without looking back.

The lawyer in this lawsuit was personally hired by Jason for Rodney and he was also a top leader in the global industry.

After a trial, lawyer listed all kinds of evidence and accusing Sarah of using lies to deceive Rodney and her real purpose was to defraud Rodney's property.

Sarah's lawyer was also not weak. He openly accused Rodney of letting his wife live a nominal life as a husband and wife. He also accused Rodney of having a problem in some aspects but deceived Sarah and made her live a widowed life. Rodney even beat his ex-wife 'Sarah' after the divorce.

The lawyers of the two sides had a heated debate and exposed almost all the ugly things in public.

The judge sitting on the courtroom couldn't help but gasp. Fortunately, the Snow family said hello. This case must be handled secretly and whole country laughed to death.

.....

In an hour, the judge finally ruled on Rodney's side but Rodney's domestic violence caused the woman's appearance to be damaged and maimed for life. The original compensation amount of 300 million dollars was only requested by the judge. The money and real estate divided in the Sarah divorce agreement.

In response to this result, Rodney slammed a punch on the table on the spot.

Sarah wasn't much better either, 100 million was the only money she had now.

There were also houses and villas in country M, which she was also reluctant to bear.

"No, I don't agree. I will continue to appeal. I will never give him the money and the house. It's all mine."

Sarah made a fuss in the court, like a mad woman.

Sarah was ugly in the first place. She was so nervous and noisy that the law enforcement officers in the court were disgusting when they saw it. At the same time, she also despised Rodney's wife selection eyes.

Facing everyone's disdainful gazes, Rodney's face was burning and his whole body seemed to be soaked in an ice cave.

Rodney won this lawsuit but he seemed to have lost all his dignity.

Sarah brought him a lifetime of shame.

I love him and the one who once fell in love with blind eyes turned out to be such a woman who is addicted to money.

Chapter 2318

Oh....

Miserable tugged from the corner of Rodney's mouth.

At the same time, the door of the courtroom opened and several policemen came out and took out their documents, "The police are handling the case. They received a call from someone that Sarah was involved in a murder case and we are going to take her back. The police station is under review."

Rodney was shocked.

Sarah screamed in disbelief, "What murder, what nonsense are you talking about?"

"Someone reported that there is something wrong with the death of your father's second wife, Jennifer. The police have collected some evidence and you are not only suspected of murder also destroyed Jennifer's body and at the same time you used sorcery many times on the man you had been with and trying to obtain huge assets and cheat marriage. So our police must arrest you in court and you cannot be released on bail." A lady police officer clasped Sarah wrist and took her away directly.

"I didn't, I didn't kill anyone. Don't slander me. Garrett, save me, save me..."

Sarah's hysterical voice disappeared from the door.

Rodney was still in a daze, what was Jennifer's death related to Sarah? What uses sorcery multiple times on a man you date? What destroys a corpse?

Every piece of it made him shudder and panic.

What kind of woman did he marry? Could it be true what Freya said?

The more he thought about it, the more Rodney felt cold all over his body.

"Young master Snow, the case is over, I'll go first." Rodney's lawyer got up and packed up the documents and said lightly, "I hope Young master Snow will keep your eyes open in the future. You can find any woman on the street better than Sarah."

After lawyer finished speaking, he strode away.

Rodney's face was pale.

After Rodney came out of the court in a hurry, he also drove to the police station. When he got there, he found that Shaun, Catherine, and Eliza were all there.

"Did you call the police?" Rodney looked at them in a daze.

Catherine raised her eyebrows and looked at the decadent man in front of her who was clearly wearing a black suit but with a shaggy beard and bloodshot eyes with undisguised disgust in his beautiful eyes, "It's not just us."

Rodney was startled.

At this time, Garrett suddenly came downstairs with a lawyer and held the policeman's hand tightly, "Please, you must punish that b-i-t-c-h Sarah severely. I treated her with kindness but she even used sorcery for me and is still trying. If my secretary had not discovered the situation in time, I might have been ruined by Sarah for the rest of my life. It's terrible, how could I meet such a terrible woman, this kind of woman must not be released."

Rodney was stunned, he rushed over and grabbed Garrett violently, "What are you talking about? Aren't you Sarah's lover?"

"I am her lover but who knew that woman was so scary."

Garrett shook his hand away, "I just want to sleep with her to solve my needs. Everyone would have known that Sarah would put something in my water and making my mind more and more confused day by day and then hypnotized me while I was still in bed and made me love her with all my heart and wanted to marry her. It was too scary. Fortunately, I fainted suddenly a few days ago. My assistant sent me to the hospital. He moved his hands and feet."

Garrett angrily accused himself of his brain, "Fortunately my family found a top psychiatrist to heal and it

didn't take long otherwise my brain would have been completely broken."

Rodney Confused, "Then you helped her last time..."
