

Love So Sweet 336

336 What Does it Mean?

Bai Qi spent almost four hours in the operating theatre. When he came out, he was already exhausted from the operation.

After he cleaned up, Bai Qi walked over to the nurse's station, wanting to check his patient's condition. He spoke briefly with Nurse Tian before turning to look at the record on the computer.

"Nurse Tian, have you seen it?" A nurse walked over to the nurse's station and whispered to Nurse Tian.

Nurse Tian raised her head to look at the young nurse beside her. "Ah Li, what are you talking about?"

"It was all over the news," Ah Li said. "A few hours ago, there was an earthquake in H City. Who knew that the earthquake would be so bad? I heard that a few buildings collapsed. The scene looked quite bad."

Nurse Tian looked at the young nurse in shock. "Really?" She took out her phone, wanting to check on the news as well.

"What are you talking about?"

Nurse Tian raised her head and saw that Bai Qi was looking at her anxiously.

"Doctor Bai, it's nothing." The young nurse panicked. She had thought that Doctor Bai was angry because they were discussing some matters during working hours. She had tried hard to lower her voice, but it seemed that Doctor Bai could still hear her words.

.....

Bai Qi's expression turned darker. "I'm asking you again. What are you talking about?" His tone was a little heavy. He was very sure that he had heard the nurses discussing an earthquake. If he was not mistaken, the young nurse had mentioned H City.

Nurse Tian stood between Bai Qi and the young nurse. "Doctor Bai, it's nothing. Ah Li was just telling me about an accident in H City."

His heart skipped a beat.

It was really H City?

All of a sudden, his chest was in so much pain. Breathing became very difficult for him. His body turned cold.

At the side, Nurse Tian continued to talk about the earthquake in H City. However, Bai Qi could no longer hear her words.

All he could think about was his girlfriend, Zhang Li Xue!

Before Nurse Tian could finish her sentences, Bai Qi had already run away. The nurses frowned as they watched Doctor Bai run along the hospital corridor. It was rare to see Doctor Bai this anxious and they were wondering if something might happen.

Once he reached his room, Bai Qi took his phone which was on the table. The light in his eyes gradually dimmed. Bai Qi had spent almost four hours in the operation theatre. Zhang Li Xue hasn't replied to him within these four hours...

His heart was beating furiously.

His hand trembled as he held his phone. Bai Qi dialed Zhang Li Xue's number and prayed that she will answer soon. However, his heart turned colder when he could not reach for her.

Bai Qi tried again and again. Each time, he would only get disappointed.

He can't reach his girlfriend and he did not know what he should do!

Bai Qi inhaled a deep breath. After a while, he decided to call her father's number.

Hearing the tone made him feel more at ease. Soon, someone picked up the phone. "Hello? Bai Qi?"

Bai Qi closed his eyes and inhaled. "Uncle, I heard about the earthquake. Are you and Li Xue-"

"Li Xue is still trapped," Zhang Yu Han's voice was a little hoarse. "I don't know where is she or how she is doing now. The rescue team is doing all they can to find her."

A lot of people have been calling him for the past few hours.

By this time, Zhang Yu Han had calmed down a bit. However, each time that he was on the phone, his voice would sound monotone.

Bai Qi was unable to accept what he just heard.

His little fairy was trapped? What does it mean?

"I'm sorry. Bai Qi, I can't talk too long. I still have to look for Li Xue."

Bai Qi snapped out of his trance. After saying a few more words, the call ended.

Bai Qi slumped on his chair as he stared at the ceiling for a long time.

His thought was filled by Zhang Li Xue. He was still unable to believe that something had happened to her. Right now, they still did not know whether Zhang Li Xue was alive or dead.

Bai Qi covered his face with both hands and cried. The pain in his heart was too unbearable.

Zhang Li Xue was the light in his life. When everything in this world seemed to disappoint him, this little fairy would show up and tell him that everything would be alright.

If something happened to her, how was he going to survive?

In this life, Bai Qi had lost a lot of people whom he cared about. He did not know how he was going to handle another blow.

No! He can't just stay and do nothing.

According to Zhang Li Xue's father, the rescue team is still doing their best to find her. Before they could find her, Bai Qi wanted to believe that Zhang Li Xue is still alive and well.

His little fairy is still waiting for him to look for her.

Suddenly, he stood up again. Bai Qi wiped his face with his hands furiously before he walked out.

His colleagues noticed that Bai Qi's expression was a little strange and no one dared to ask him.

Bai Qi finally arrived in front of a room. He knocked on the door and waited to be given permission to enter.

When Qi Zheng saw Bai Qi standing in front of him, he immediately knew that his student came to find him for his niece.

Qi Zheng had heard about the situation in H City. A few minutes ago, his cousin, Qi Ming Wei called to tell him that he was going over to help look for Zhang Li Xue.

In fact, everyone in the group planned to go over and offered their help.

"Doctor Qi, I need a favor. I want to go to H City," Bai Qi spoke. "I want to look for Li Xue."

Qi Zheng stared at the young man for a while. "Then, what about your little sister?"

"I will ask someone I know to look after her."

Looking at the determination on Bai Qi's face, Qi Zheng knew that nothing he would say would change Bai Qi's mind. After a while, Qi Zheng finally heaved a long sigh.

"I'm going to H City as well. The flight will be departing in four hours," Qi Zheng said. "You go back and pack up first. As for your sister, let her stay with my wife for a few days. I will talk to the higher-ups about this."

His eyes widened in surprise, knowing that his mentor was helping him. Bai Qi stood up straight and bowed. "Thank you, Doctor Qi."
