

Love So Sweet 340

340 Zhang Li Xue was Rescued

Once they heard that Zhang Li Xue has been found, the others began to gather around to help remove the collapsed building around her. They were very careful not to cause any other accidents.

A while ago, Zhang Li Xue had told him that her legs were in pain. There was a high possibility that she was injured. They don't know just how badly was her injury.

Bai Qi's heart was at ease now that he had seen his little fairy, alive and the look on his face remained calm. Although he was worried, Bai Qi could only force himself to stay calm.

If he started to panic, then, Zhang Li Xue would go panic as well.

The only thing he can do was to make her look at him and tell her to stay awake.

After a long time, the opening was big enough and Bai Qi was finally able to enter through the gap.

Zhang Li Xue looked at the person beside her and started to cry. She spread her arms and the man held her tightly into a hug. Zhang Li Xue buried her face into Bai Qi's chest as she continued to cry.

Her lips parted a few times, wanting to say something. However, Zhang Li Xue was unable to say anything. No words could describe how it felt to be able to hug Bai Qi again after being stuck in this space for a long time.

She was terrified that she would not be able to see everyone she loved again.

.....

Fortunately... just when she thought that she should give up, Bai Qi appeared by her side to rescue her.

The heat around his body as well as his familiar scent assured her that she would be alright. Her fear had immediately dissipated.

Using the thermal blanket that someone had passed to him earlier, Bai Qi wrapped Zhang Li Xue's body tightly. His hand stroked her back as he gave her a few comforting words.

Now that the person was in his arms, Bai Qi was finally at ease.

He placed his palm on her forehead and found that her temperature was a little high. He could only instruct the people up there to prepare some medicine to help her reduce her temperature.

After a while, Bai Qi finally pulled away.

He scanned his surroundings and saw that the space was too small for others to come in. The light from his flashlight helped him to see better.

Thinking of how Zhang Li Xue had been stuck in this tiny space for more than twelve hours pained him.

While the others were busy removing the collapsed building around them, Bai Qi took the time to give her a quick check-up.

Other than her high temperature, there were also some cuts and abrasions around her body. Then, he inspected the injury around her legs. He could not find any sign that it was broken, but they still have to go to the hospital to for further inspection.

At this time, he could only give her basic first aid.

As they were waiting for others to rescue her, Bai Qi gave Zhang Li Xue his phone and let her talk to her parents.

The moment Zhang Yu Han heard his daughter's voice, the tears that he had tried to suppress had come out again. He had thought that he was going to lose his daughter forever. But fortunately, she was found quickly and could be saved.

Zhang Yu Han was still blaming himself for what happened.

He stood by his wife's side, crying like a child.

After a few hours of working together, they finally made enough space for Zhang Li Xue to come out.

Bai Qi carried Zhang Li Xue in his arms and came out with the others' help.

The moment Zhang Li Xue was rescued, the people around them started to cheer.

Her parents, as well as the paramedics, surrounded Zhang Li Xue. Quickly, Zhang Li Xue was taken to the ambulance where she will be given a thorough check-up.

Zhang Yu Han and his wife climbed into the ambulance to go with her.

As the ambulance drove away, Bai Qi stood rooted on the ground and watched it until he could no longer see it. Although he wanted to go with her, Bai Qi let her parents accompany Zhang Li Xue into the ambulance.

At least, he knew that his little fairy was safe now.

"You worked hard."

Bai Qi snapped out of his trance as he felt someone slap his shoulder. Turning around, Bai Qi could see that it was his mentor, Qi Zheng.

"Are you injured?" Qi Zheng asked.

Bai Qi shook his head. "I'm fine."

Qi Zheng gave his student a look over. He grabbed Bai Qi's hand and saw some cuts from lifting some heavy stones. Instantly, his face darkened. "You are a surgeon. Why didn't you take better care of your hands?"

Bai Qi could only lower his gaze. He knew that he was at fault. However, Zhang Li Xue was much more important. At that time, Bai Qi did not care about anything else other than his girlfriend.

"Doctor Qi, I'm sorry." Other than these words, Bai Qi did not know if he could say anything else.

Qi Zheng heaved a long sigh.

It wasn't that he could not understand that Bai Qi was only worried about Zhang Li Xue. He could see that Bai Qi loved her very much.

"Come with me," Qi Zheng spoke.

"Doctor Qi, where are we going?"

"Don't you want to go to the hospital and look at Li Xue?"

His eyes lit up. Bai Qi was still thinking of a way to head over to the hospital. Now that his mentor was going to take him along, of course, Bai Qi was not going to reject his offer.

Qi Zheng turned around and stopped again. "Let's get your hands some treatment on our way there. You still have to return and work later. I already let them give you a few days off. When you return to the hospital, you have to work very hard."

Bai Qi nodded. "Doctor Qi, I understand."

Qi Zheng used his power to help him take a few days off from the hospital. Naturally, he will have to work hard to repay his mentor back. Otherwise, others will only speak badly about Qi Zheng for his special treatment.
