

Love So Sweet 499

499 Don't Do Anything Bad

Zhang Yi Hai made a quick stop at the hotel where his sister was staying to pick up Bai Xi Xi's clothes before he went back to the hotel.

Before he left, Zhang Yi Hai could not help but look at the couple in front of him and heaved a sigh. For a while, he was jealous that his sister and Bai Qi could stay together in the same room.

If he could, he also hoped that he could stay in the same room with his girlfriend. However, Zhang Yi Hai realized that it was better for him not to get himself into trouble.

Last time, he had no choice but to accompany Fang Su Jin for a night. Because his girlfriend was having a nightmare and could not sleep peacefully, Zhang Yi Hai decided to hug her as she sleep.

He soon realized how tormenting it was.

His girlfriend's soft body was against his and her sweet scent wafted to his nose. However, he could not do anything. Zhang Yi Hai could only suppress some feelings.

In the end, he did not get to sleep peacefully.

When he finally left Fang Su Jin's side, Zhang Yi Hai returned to his room and spent a long time in the bathroom to take a cold shower.

He did not want to scare Fang Su Jin with his feelings. Therefore, Zhang Yi Hai could only choose to stay awake.

.....

"This is all Xi Xi's clothes," Zhang Li Xue said as she handed her brother a small bag. "Tomorrow, we'll pick her up in the morning at the exhibition center."

Zhang Yi Hai peeked into the bag before he turned to his sister again. "Then, I will make a move first. Xi Xi should want to change into her pajama before she goes to bed."

Zhang Li Xue nodded. She watched her brother turn around and called his name again before he could leave. "Zhang Yi Hai."

The young man looked at his sister inquiringly.

"Don't do anything bad in front of Xi Xi, alright?"

Zhang Yi Hai looked at his sister speechlessly. "Sister, what are you talking about? What sort of bad thing can I do? Su Jin and are not staying in the same room."

"He he, I was just reminding you." Zhang Li Xue laughed as she saw the frustrated look on her brother's face. She was just happy that she got the chance to tease her brother.

After exchanging a few more words, Zhang Yi Hai finally left.

Bai Qi walked over to his wife's side and caught the look on her face. The smile on her face told him that his wife had done something mischievous.

"Yi Hai has gone back?" Bai Qi asked as his wife turned around in her wheelchair.

"Mhm..." Zhang Li Xue nodded. "I have passed to him Xi Xi's clothes as well as her toiletries." Zhang Li Xue smiled, noticing that her husband was looking at the door. "Are you worried about Xi Xi? Don't worry, Su Jin will look after her."

"I trust her. Besides, isn't Yi Hai with them as well?" Bai Qi looked at his wife inquiringly when he noticed that his wife has been looking at him strangely. "What are you up to?"

"Hubby, we finally get our time to be alone. What do you think we should do tonight?"

Bai Qi watched as his wife batted her eyes, trying to act coquettishly with him. He thought that this mischievous woman was too adorable.

"Let's go out."

"Ah?" Zhang Li Xue looked at Bai Qi in shock. She was clearly expecting a different answer from him. "Going out?" She watched him nod and spoke, "Why are we going out? Where are we going?"

Shouldn't they stay in the hotel, cuddling and doing what a married couple would do?

Bai Qi took the jacket that was hanging on the rack before he walked over to his wife again. "Let me take you to a good place. Don't worry. It won't be that far." He flashed her a smile and spoke, "Li Xue, let's go on a date."

Before she could answer, Bai Qi had already moved to push her wheelchair. Seeing that her husband seemed excited wanting to bring her out, Zhang Li Xue decided to follow his lead.

Bai Qi asked the receptionist to help them call a taxi.

Half an hour later, the two of them arrived at a fast-food restaurant. Although it was quite late, it seemed that there were a lot of people around. The restaurant was quite lively.

Bai Qi let his wife wait at a table as he queued up to buy some food.

Zhang Li Xue stared at Bai Qi for a long time and wondered if he was still hungry.

A few minutes later, Bai Qi returned to her side with a tray in his hands.

Zhang Li Xue's eyes lit up as Bai Qi put down the tray. On the paper plates were her favorite chicken wings!

"I heard that this restaurant's chicken wings are quite popular in F Country. Since we are here, of course, we have to try them."

Zhang Li Xue laughed as she heard her husband's words.

Thinking that he was willing to take her on a date to eat her favorite chicken wings. Her heart warmed at his action. An unexpected and random action such as this meant a lot to her.

“Why are you staring at me?” Bai Qi chuckled when he noticed that his wife has been staring at her for a long time. “Quickly taste the chicken wings and see if it’s as good as everyone said.”

Zhang Li Xue reached for a wing and sighed. The delicious smell of the wings was enough to stir her appetite. “Bai Qi, you are so good to me.”

“You’re my wife. If I’m not good to you, who else should I be good to?”

The smile on Zhang Li Xue’s lips was especially bright.

The couple enjoyed their chicken wings for supper before they returned to their hotel.

When they returned, Zhang Li Xue thought that she was being too naive. Someone was using eating too much at night as the reason to let her exercise for a long time.

In the end, Zhang Li Xue was too tired. She did not know just how long the two of them had been fooling around. In the end, she was too tired to move a muscle.
