

The Luckiest man in the world CHAPTER 401-410

Beijing, Academy of Sciences.

Surrounded by the academicians, the super battery shaped like a computer mainframe was taken to the laboratory intact.

Then, the academicians couldn't wait to use many complicated instruments for testing.

Before long, there was a burst of enthusiastic admiration on the scene.

"Unbelievable! Unbelievable! You can have so much power!"

"Although, I have read the paper "The Principle and Application of Super Battery", but seeing the real thing really makes me feel beyond imagination!"

At this time, an old academician with gray hair said to Zhao Xueqin and Li Rong: "Professor Zhao, Professor Li, can you explain the research process and specific principles of super battery?"

Everyone said and heard, all cast their expectant eyes.

from their perspective...

Zhao Xueqin and Li Rongfa are the second works of the thesis "Principles and Applications of Super Battery", and they must have participated in specific projects. They are the people who have studied the super battery most deeply besides Omi in the world.

When Zhao Xueqin and Li Rongfa saw these famous academicians, they all stared at themselves, their old faces blushing.

"This...actually, we don't know much about super batteries."

"I didn't participate in the research experiment of super battery. The reason why our name appeared on the second game may be that Omi wants to take care of us."

After the two of them finished talking, they wanted to find a place to sew in.

Because, in a sense, this is actually academic fraud.

The academician did not pay much attention to this matter, but showed a slight regret.

The old academician sighed: "A talent like Omi who has been a student at Jiangbei University is really a waste of his talent."

After a pause, he said: "Director Feng, can't you really let him come to the Academy of Sciences? If he likes to stay in Jiangbei, we can move the entire Academy of Sciences!"

For one person, directly relocate the Academy of Sciences!

What kind of sincerity is this?

Feng Zhixiang groaned: "This...I'm looking for a chance to get Omi's opinion. According to my idea, I can first establish a research institute or branch in Jiangbei. Even if Omi does not come, everyone will have the opportunity to communicate with him more."

The old academician happily said, "Dr Feng, you finally have a good suggestion!"

"Do you mean I didn't have a good suggestion before?" Feng Zhixiang stared.

"I didn't say that, haha!" The old academician laughed.

...

Omi didn't know what happened at the Academy of Sciences.

At this moment, he was lying on the soft sofa and yawned boredly.

After a while, he focused his attention on the 553 red envelopes displayed on the screen.

This is the result of going to Hong Kong Island and living expenses for the past month.

Omi murmured, "It cost more than 5 million a month..."

To know...

Omi's daily minimum income is close to 20 million yuan, which does not count as share dividends, house rentals, etc.

More than 5 million is used a month, which is really too little.

"Let's see what can be offered first."

[Whether to open 553 red envelopes?]

“Yes!”

“Ding! Congratulations, you got 3 yuan.”

“Ding! Congratulations, you got 1999 yuan.”

...

“Ding! Congratulations, you have obtained 51% of Lianjia Real Estate.”

...

“Ding! Congratulations, you got a Rolls-Royce Phantom.”

...

“Ding! Congratulations, get a 1 yuan crit card.”

...

553 red envelopes, a total of 132991 yuan won.

Rolls-Royce Phantom, a car only looks like 10 million.

1 yuan crit card, spend 1 yuan to get 100 million yuan.

All of these... Omi didn't care.

He directly focused his attention on the 51% shares of Lianjia Real Estate.

Lianjia Real Estate is China's largest real estate company, with a market value of about 100 billion yuan.

51% of the shares are about 50 billion yuan.

Omi touched his nose and smiled: “Han Tian is working at Lianjia. If she knew that I had become a major shareholder, she wouldn't know what her expression would be?”

“Jingle Bell!”

At this time, Omi's cell phone rang a brisk ring.

He glanced at the call reminder, it turned out to be the call from his younger sister Lin Xiaoyao.

"Brother, brother, brother!" Lin Xiaoyao's voice rang as soon as the phone was connected.

"Your brother, I am not deaf." Omi rubbed his ears.

"Did you invent that car battery?" Lin Xiaoyao asked excitedly.

"It's me." Omi said.

"Then, you got 35% of Yadi Auto?" Lin Xiaoyao asked again.

"Right." Omi said.

"Fuck!" Lin Xiaoyao shouted.

Omi rubbed his ears again and said, "Xiao Yao, don't be surprised..."

However, only a burst of laughter was heard on the phone.

Obviously, Lin Xiaoyao did not hear him.

Omi couldn't help but shook his head, and slowly pressed the on-hook button.

Just after hanging up, Omi's phone rang again.

Originally, Omi thought it was Lin Xiaoyao who called back and took a closer look...

It was discovered that it was an unfamiliar number in Ann City.

Omi didn't hesitate too much, and directly pressed the answer button.

"Hello, is it Mr. Lin?"

There was a slightly respectful voice on the phone.

Omi said, "It's me, who are you?"

After hearing Omi's answer, the voice on the phone became more respectful and excited.

"Mr. Lin, hello, I am Zhang Weimin, the chairman of Lianjia Real Estate."

Compared with the chairman of Yadi Auto, Yinshan Group, Penguin Group, Ari Group and other companies, he found that his company's shares had been bought a lot.

Zhang Weimin seemed more open-minded.

Because, recently, the entire real estate industry has been very sluggish.

Lianjia is constantly hovering on the brink of loss.

Nowadays, someone buys shares in the company, which is confident in their company!

This is saving Lianjia real estate!

That's a good thing!

Omi said clearly, "It turned out to be Dong Zhang, hello."

Zhang Weimin hurriedly said: "In front of you, UU reading has any Zhang Dong? You can just call me Xiao Zhang."

Omi has seen similar requirements many times.

So, it was not too strange, and said: "I'll just call your name Weimin."

"Okay, what Mr. Lin wants to call," Zhang Weimin said.

After a pause, he said, "Mr. Lin, you seem to be in Jiangbei?"

Omi said: "Yes."

"That's great. We Lianjia recently built a central headquarters in Jiangbei. Do you have time to guide you? In addition, we are waiting for you to decide on the future development direction of our Lianjia real estate." Zhang Weimin said.

Guidance of the Central Headquarters?

Lianjia Real Estate has an idea for the future development?

Omi has never caught a cold, so he was ready to refuse.

But, soon, he thought of something, and said, "Okay!"

When Zhang Weimin heard this, a touch of joy appeared on his face.

accepted!

The big people who bought 51% of Lianjia real estate in one fell swoop agreed to meet and guide their work!

I must seize the opportunity to let Omi increase his support for Lianjia Real Estate!

Only in this way can Lianjia real estate survive for a long time.

At this time, Omi said again: "However, not to the central headquarters of Lianjia. Do you know the branch of Lianjia Real Estate in Wanjiahuafu?"

Zhang Weimin couldn't help being stunned, and said: "Know...know."

"That's fine, tomorrow... tomorrow afternoon, I will go there." Omi said.

where to?

If I remember correctly, it's just a small branch, right?

Although thinking about it this way.

However, Zhang Weimin still did not dare to hesitate and said, "Okay, Mr. Lin, I will be at the Wanjia Huafu branch tomorrow, and I am waiting for your ride."

As long as Omi is willing to meet, no matter where he is, there is no problem.

.....

The next day, the sky was clear.

"How many bugs did you eat today?"

"One."

"Me too."

.....

Omi opened his eyes in the chirping sound of the little sparrow outside the window.

However, he did not get up immediately, but continued to lie on the bed for a while, and then slowly got up.

It cost 30,000 yuan to send more than a dozen different dishes to the Michelin two-star restaurant.

Omi was eating and playing with his mobile phone, very leisurely.

"Ding!"

Before I knew it, the phone shook slightly.

12:00!

Red envelopes appear!

“Ding! Congratulations, you got 5 yuan.”

“Ding! Congratulations, you got 23 yuan.”

.....

“Ding! Congratulations, you got 9,999 yuan.”

“Ding! Congratulations, you got 100 yuan.”

Today, Omi received a total of 31241 yuan.

Omi murmured, “It’s 12 o’clock? It’s too soon, right?”

He touched his still chubby belly, and said, “In other words, I used 30,000 yuan to eat breakfast and lunch for two meals? I’m saving it too much, right.”

Omi touched his nose and said, “It’s almost time to go to Lianjia Real Estate.”

After speaking, Omi walked outside, raised his eyes and saw a brand new Rolls-Royce Phantom.

However, he didn’t take a second look at all, and drove Cullinan directly, galloping forward.

.....

At this time, Lianjia Real Estate Wanjia Branch in Washington.

last night.

Here we received a notice from the headquarters that today, Chairman Zhang Weimin will bring a large number of executives over to welcome a very distinguished guest.

Be sure to set up the branch well before noon.

then.....

Early in the morning, many decoration workers and design workers gathered together.

Many people are powerful.

In just one morning, Lianjia Real Estate’s Wanjia Branch in Washington completely changed its appearance from beginning to end.

The entire area has more than doubled, and the walls, floors, and office supplies have all been renewed, surrounded by bright flowers.

In front of the main entrance, there is a furry red carpet.

The whole looks very festive and atmospheric!

Zhang Weimin and all the executives came to the door of the store early, waiting quietly and looking around.

Not far away, the employees of Lianjia Real Estate's Wanjia Washington branch made a sound of discussion from time to time.

"You said, which distinguished guest is you welcome today?"

"I do not know."

"Could it be Jiangbei's great leader?"

"It's not like...Moreover, the leaders of Jiangbei University should also go to the headquarters built not long ago?"

"Right....."

"Manager Han, do you know?"

Han Tian looked at the leaders in the distance, shook her head and said, "I don't know, but this is also a good thing for us."

All the employees smiled when they heard it.

Yes!

Good thing!

It is the first time that they have seen so many leaders in the company. If they can leave a good impression on the leaders, it will be a great thing for the future development.

In addition, even if there is no impression.

Isn't this refurbished office also your own?

"laugh!"

At this time, the tall and cool Cullinan drove over from a distance.

Then, Omi slowly got out of the car.

See here...

Chairman Zhang Weimin was the first to greet him and said with a smile: "Mr. Lin, welcome you!"

Immediately afterwards, the executives behind Zhang Weimin said in unison: "Mr. Lin, welcome!"

Han Tian and others who stood not far away were all a little stunned.

"It's Mr. Lin!"

"The chairman, they are here to welcome Mr. Lin!"

While talking, all the employees cast their envious gazes on Han Tian.

Because they knew that Omi was Han Tian's boyfriend besides giving a lot of houses to the store for rent!

Zhang Weimin stretched out his hands and held Omi's right hand tightly and said, "Mr. Lin, please come inside."

Omi nodded, but did not walk directly to the newly renovated store.

Instead, he went straight to Han Tian's side and held Han Tian's waist under everyone's gaze.

See here...

Not only was Zhang Weimin not angry, on the contrary, he became more happy.

Because Han Tian is an employee of Lianjia.

This means that Omi will give even greater support to Lian's family!

After a while, Zhang Weimin put away his excitement, and once again invited Omi to the store.

In the wide conference room, Omi sat in the main seat, and Han Tian sat beside him.

Zhang Weimin and the executives sat around the table.

Zhang Weimin cleared his throat and said, "Next, let me introduce you to everyone. This is Mr. Omi, our largest shareholder of Lianjia Real Estate. Welcome!"

"Fuck!"

In the meeting room, there was a warm applause immediately.

Han Tianjiao's body trembled slightly.

She looked at Omi's eyes, full of tenderness.

She guessed that the reason why Omi took a stake in Lianjia Real Estate was probably entirely because of herself!

Then, Zhang Weimin gave a more detailed explanation of the current situation of his family, future plans, and so on.

Omi didn't have any interest in these things, but seeing that Han Tian listened very carefully, he listened patiently.

In a blink of an eye, the setting sun went down.

Under Zhang Weimin's arrangement, Omi, Han Tian, and other executives came to the Emperor Hotel.

This meal...very hearty!

Omi and Han Tian have undoubtedly become the biggest protagonists on the table, constantly welcoming toasts from Chairman Zhang Weimin and other executives.

This dinner ~ ~ everyone ate very happy.

The banquet slowly ended at nine o'clock in the evening.

Omi personally sent Han Tian home.

Han Tian felt the warmth coming from the side, and couldn't help thinking that Omi had given a large number of houses to rent out many times in order to increase his performance.

I thought of Omi giving away his own bag.

I thought of Omi's perfect arrangement of his father's work.

I think of buying a large number of shares in Lianjia Real Estate for my own work.

Han Tian seemed to be completely melted by the warmth, and she directly posted to Omi.

$o(\bar{\epsilon}^*)$

(* 3)(ε *)

?(⇐?)

.....

The next day.

Although, I was tired all night yesterday.

However, Han Tian made lean meat noodles, fried dumplings, and eggs early in the morning.

Then, I soaked two cups of hot milk.

Omi and Han Tian fed each other, and laughed constantly, very sweet.

After the meal, Han Tian went to the Lianjia branch, and Omi went to Jiangbei University.

At this time, two bright banners appeared in front of the gate of Jiangbei University.

“Congratulations to Omi of our school for publishing the paper on the cover of “Nature”!

“Congratulations to Omi of our school for inventing the super battery”!

Jiangbei University hangs a new banner about Omi almost every time.

Now that there are two more, Omi is already quite familiar.

After Omi parked his car, he went straight to the classroom.

Sitting in the back position, Song Yi raised his hand and shouted, “Brother Fan, here!”

“Brother Fan, have you invented the super battery again?” Zheng Jinbao asked.

The classmates who were still chatting in a low voice heard what they said, and gathered their gazes on Omi.

Obviously, they are also very curious about this.

Omi nodded and said, “Yes.”

Zheng Jinbao immediately gave a thumbs up and exclaimed: "Brother Fan, awesome!"

All the students also showed admiration.

"Jingle Bell!"

At this time, the class bell rang.

The old professor held the textbook and walked in slowly.

After clearing his throat, he started a new course.

After he spoke, Omi seemed to have heard a lullaby, and soon fell asleep in a deep sleep.

See here...

The old professor couldn't help nodding his head again and again, and exclaimed in his heart: Genius, really is made of 99% sweat. Even with so many achievements, yesterday, Omi, I'm afraid he studied hard for another night.

Don't make him sleep!

As a result, the old professor closed his mouth and turned around and wrote a few big words on the blackboard: Quiet self-study, no talking, offenders are dealt with at the end of the term 0 points!

The whole classroom was immediately quiet.

There was only a burst of loud purring, one after another.

"Jingle Bell!"

After the crisp bell rang, Omi slowly opened his eyes, and there was a little more noise in the classroom.

"Tatata!"

At this time, counselor Sun Yaodong walked in.

He raised his eyes and scanned them. When he saw Omi, his eyes brightened and he smiled and said, "I have always said that I have a good vision. Classmate Omi has won glory for our class again. Okay, very good.!"

It is to win honor to the class again.

Omi couldn't help rolling his eyes.

Sun Yaodong continued: "Student Omi, Principal Shen Liang wants you to visit his office."

"Okay." Omi answered.

Many students, even after a few years in the school, don't know how to get to the principal's office.

However, Omi is familiar with the road.

The principal, Shen Liang, seemed to have been waiting for Omi. When Omi came to the door, he quickly greeted him and said happily: "Omi, are you here? Hurry up and sit inside!"

Then, Shen Liang personally poured Omi a cup of fragrant Pu'er tea.

The principal dignified, greeted at the door again, and poured tea again...

I have to say that he really paid attention to Omi to the extreme.

Then, there was a burst of small talk and caring.

Sitting on the soft sofa, Omi sipped Pu'er tea and answered a few words from time to time, only to feel bored for a while.

Shen Liang also seemed to notice that Omi was a little impatient.

So he cleared his throat and said the purpose of inviting Omi over this time.

"Student Omi, first of all, please allow me, on behalf of the school, the country and the world, to answer the Zhou's conjecture, the twin prime conjecture, the hail conjecture, the Hodge conjecture and other mathematical problems that you have solved, as well as the super battery, earthquake predictor, and insulin that you invented. I would like to express my sincere thanks to the restoration of pharmaceuticals, carbon-based lithography machines, super batteries and other products that benefit mankind!"

After Shen Liang finished speaking, he got up and bowed deeply to Omi.

His words were extremely sincere, without any pretentiousness.

Omi said: "This is just a small matter, principal, you don't need to do this."

Shen Liangyi said righteously: "No! This is what it should be!"

After a pause, he said: "Student Omi, I know you are a very thoughtful person and don't like being restrained."

"But, I still want to ask, I wonder if you can bring a few students?"

“Indeed, I think if your wisdom cannot be passed down, it would be too wasteful.”

“Of course, you can rest assured, you only need to give some guidance when you are free. Most of the time, you can hand them over to other deputy professors.”

In fact, Shen Liang had such thoughts a long time ago.

But, as he said, he also knew that Omi didn't like being restrained.

Therefore, I have never spoken to mention it.

However, Shen Liang recently learned that the Academy of Sciences seemed to want Omi to pass.

This gave Shen Liang a sense of urgency.

After all, Jiangbei University and the Academy of Sciences are not comparable at all.

In case Omi really passed.

The glory that Jiangbei University possessed during this period will soon dissipate completely.

And if Omi taught some students, it would be different.

.....

Bring students?

Assistant professor help?

Omi was stunned.

He was just about to speak.

At this time, a clear reminder sounded in his mind.

【Ding! Task: Become a teacher for the first time. Teach 5 students and let them win a total of 3 international awards. Reward 5 golden red envelopes and a special skill. 】

5 golden red envelopes, a special skill!

Long time...

No skills appeared!

Omi said immediately: "Okay."

"what?"

Shen Liang was slightly taken aback when he heard Omi's answer.

He prepared a lot of rhetoric.

He was even ready to be resolutely rejected by Omi.

What's the situation now?

Just agreed?

He could hardly believe his ears.

Seeing that Shen Liang hadn't responded for a long time, Omi couldn't help but said, "Why, can't it?"

Shen Liang said hurriedly: "No, no, of course, of course!"

Then ~ ~ Shen Liang said again: "Omi, which subject do you want to teach? Computers? Chemistry? Biology? Or mathematics?"

Omi thought for a while and said, "Let's come a little bit for each subject."

After all, Omi wants 5 students to receive 3 international awards.

Different disciplines have a higher chance of winning.

Have a few students in each subject?

If someone else said something like this, he would definitely be 'vomited' on his face.

After all, everyone has a different focus. How can anyone teach students in different subjects?

But Omi is different!

He has achieved incredible results in mathematics, chemistry, physics, biology, and computers!

It's the big cow among the big cows!

He is willing to teach students of different subjects. Shen Liang is too happy to be too late, so how can he object?

Generally speaking, the selection of professors, especially full professors, requires a lengthy review.

However, after Omi agreed to teach the students.

In just an hour, Jiangbei University's official website directly disclosed that Omi became a full professor.

Then there was news that Omi would take the students.

One stone stirred up a thousand waves!

Countless people started a lively discussion.

[Man in the wind: Oh my God! Is Great God Omi finally recruiting students? Excited!]

[Blind: A student of Huaqing University, ask how to apply for the postgraduate entrance examination of the Great God Omi.]

[Teng Yongsheng: A student of Beijing University, begging Omi to take him in.]

[Like Chuzheng: Isn't Omi a professor at Jiangbei University? The students from Huaqing University and Jingcheng University upstairs are going to study for Omi's postgraduate?]

[Legend of Night Shift: Huaqing University? Kyungsung University? Let me ask you, Huaqing University and Jingcheng University, has anyone solved a number of unanswered mathematics problems? Huaqing University and Jingcheng University, has anyone invented earthquake predictors, carbon-based lithography machines, super batteries, insulin recovery agents, and super batteries? All I can say is Omi, YYDS!]

...

According to Shen Liang's original plan, he wanted Omi to take all the students from Jiangbei University.

After all, the fertile water does not flow into the outsiders' fields!

However, with the fermentation on the Internet, as well as the rotating requirements of the leaders of universities including Huaqing University, Jingcheng University, and Modu University.

Shen Liang had to make a concession.

After discussing with Omi, a mailbox was announced.

Students who want to apply for Omi can choose to send mail.

...

When Omi came to the classroom, Song Yi asked hurriedly, "Brother Fan, are you a professor in our school?"

"Yes." Omi replied casually.

All the classmates in the classroom cast envious glances.

Omi first solved several problems, and then invented high-tech products.

Now, he has become a professor!

He also received nine years of compulsory education, why is he so good?

Omi said, "So, in the future, I may have less time to come to work."

After all, he is about to become a teacher.

Nor can it completely ignore the students.

Otherwise, how should the task be completed?

Zheng Jinbao said, "Brother Fan, let's have a meal together tonight."

Ma Zhong also said: "Yes, eat together!"

Immediately afterwards, all the students in the class followed suit.

Omi smiled and said, "What are you doing? It's not that I won't come to class anymore. Even if I don't come, then we are classmates!"

After a pause, he said: "However, having dinner together in the evening is of course no problem! Just celebrate my becoming a professor. Where do you want to eat?"

In the past, many students liked to go to the AC club.

However, today, they came to the barbecue stall near the school.

Eating skewers and drinking beer, it is not a taste.

All the students picked up a bottle of beer one after another and kept toasting to Omi, the atmosphere was extremely warm.

It was night, Omi stayed in the long-lost dormitory to sleep.

...

And when Omi was eating skewers and sleeping.

Female dormitory.

Xia Bing and Xia Xue stared at the form on the screen and looked back and forth several times.

They constantly revise and review every word and every character.

However, I was still a little worried.

At this moment, Zhao Ni, who had just washed her hair, walked over slowly and asked, "What are you two doing?"

As she spoke, she moved her head over.

"This is... the application form? Are you going to be a student of Omi?"

Xia Bing and Xia Xue nodded vigorously.

They thought for a while, and then said, "Can you...can you check it for me?"

"Ah...Okay." Zhao Ni answered.

After a while, she said: "Writing very well! Perfect!"

Xia Bing and Xia Xue nodded, but they still didn't send the form in the email immediately.

But from the beginning to the end, it was checked again.

Delete spaces, change tables, add or delete characters...

It took a long time before they put the form in the mail.

Xia Bing and Xia Xue moved the mouse again and stayed for a long time under the send button...

Finally, I finally pressed OK.

"Boom boom boom!"

Suddenly, the hearts of Xia Bing and Xia Xue were beating a drum like a drum, and the two pretty faces became blushing.

Then, they sat in front of the computer, looking at the mailbox that had never responded.

...

For the next few days, Omi stayed at school, attending, dismissing, and dismissing as usual.

after all...

As Omi said, in the next period of time, there may be less time to go to work.

Now let's experience more of student life.

In a blink of an eye, it was the weekend.

Last night, Omi returned to Panlong Villa.

Omi has been eating in the cafeteria these days.

Today, it is replaced by M5 beef, Faguo eel, duck breast and foie gras rolls, matsutake egg tarts, caviar cakes and other delicacies from the two-Michelin star restaurant.

After a full meal, Omi swiped his phone at will.

At this moment, he seemed to have thought of something, and slowly walked to the computer and logged in to his mailbox.

"brush!"

Suddenly, it was densely packed, with thousands of emails all appearing on the screen.

Among them, there are Jiangbei University, Huaqing University, Jingcheng University... and many foreign universities.

See here...

Omi couldn't help muttering: "This is too much, right?"

Although Omi has the ability to scan, he can read an email in an instant.

However, in the face of thousands of emails.

He also felt some scalp tingling.

After all, even clicking thousands of times with the mouse is very troublesome.

After a while, Omi lifted the super smart watch on his wrist and said, "Xiao Bai!"

"I'm here, Master!"

The super smartwatch flickered slightly and made a crisp sound.

"Can you classify and select these emails for me?" Omi said. U U Reading

"Of course there is no problem, Master." Xiaobai said, "Excuse me, what requirements does the master need to classify and select?"

Omi thought for a while and said, "Foreigners, don't!"

"laugh!"

Suddenly, about a quarter of the mail was missing in Omi's mailbox.

Omi continued: "The best and most promising talents in chemistry, computer science, mathematics, physics, and biology, let's choose 10 each."

"Okay, Master!" Xiaobai said.

"laugh!"

Soon, there were only 50 emails left.

See here...

Omi picked up the mouse again and clicked on one email after another.

He nodded, shook his head, or muttered...

When Omi opened the tenth email, he couldn't help but muttered: "Huaqing University Nie Zhenjiang? He seems to have participated in a mathematical modeling contest with me, right?"

"It's an old acquaintance, so count him as one."

While talking, he opened the next email.

"Xia Bing?"

Omi looked at the mail on the screen, slightly stunned.

He seemed to have thought of something, and quickly opened the next email.

Xia Xue was written impressively on the top of the email.

Omi couldn't help but smiled and said, "These two little girls, are all going to be my students?"

"I haven't been with them much. After becoming my student, I can be together often, which is not bad!"

As Omi spoke, he checked the names of Xia Bing and Xia Xue one after another.

Then, he continued to click on the next email.

Soon, all 50 emails were read.

Originally, Omi planned to choose one person in the subjects of mathematics, computer, physics, chemistry, and biology.

However, Xia Bing and Xia Xue are both professionals in computer science.

In the end, the number of students selected by Omi changed from five to six.

Selecting students is just a small matter for Omi.

After replying to 6 emails, he went to sleep quietly.

He sleeps quietly...

Many people are awake at night today!

Jiangbei University, female dormitory.

Xia Bing and Xia Xue stared at the mailbox interface whenever they were free.

Today is no exception.

After dinner, they turned on the computer and looked at the computer screen without blinking. Their pretty faces were full of expectation and tension.

"Ding Dong!"

At this time, the computer made a soft noise.

An email popped out.

next moment...

The two pretty faces of Xia Bing and Xia Xue are as brilliant as blooming flowers.

Although, there are only six words on the email: Congratulations, you are accepted!

However, Xia Bing and Xia Xue also went back and forth a dozen times.

Finally, the two people who had always been docile jumped up happily.

...

Beijing University, male dormitory.

Hao Zhiwu, who wears black-rimmed glasses and a kitten on his shoulders, is playing with pesticides very much.

I couldn't help shouting: "3, 2, 1! My big move is ready!"

"one!"

"two!"

"Three!"

"Harvest all!"

He manipulated the hero, like clouds and flowing water, and wiped out one enemy after another.

Soon, he broke through the enemy crystal and won the final victory!

Some people have good academic performance and play games well, which is more annoying.

"Win!" Hao Zhiwu exclaimed excitedly.

The roommate next to him complained: "Hao Zhiwu, don't be so excited, just one game."

Hao Zhiwu replied casually: "Okay."

"Ding Dong!"

At this time, Hao Zhiwu's cell phone shook slightly, and an email popped out.

He clicked to view it easily.

The next moment, Hao Zhiwu yelled again: "Great!"

The roommate complained again: "Hao Zhiwu, keep your voice down!"

However...

This time, Hao Zhiwu didn't seem to hear it, and he still laughed.

"Okay, great, hahaha!"

Because, six words appeared on the email: Congratulations, you are accepted!

Admitted!

I was admitted by the Great God Omi!

...

On the Internet, it is also boiling.

Because, after Omi selected the students, Jiangbei University's official website also issued a timely announcement.

[Jiangbei University: After several days of careful consideration, Omi has selected 6 students, they are Xia Xue and Xia Bing of Jiangbei University, Nie Zhenjiang of Huaqing University, Hao Zhiwu of Jingcheng University, Jiang Chaoqun of Modu University, and Xia Ke University. Liu Qianqian. I look forward to their learning and learning in the future study life. In addition, the application channel for surrender is temporarily closed.]

Soon, a large number of messages, like raindrops, followed one after another.

[Half Life Snow: Great God Omi has chosen 6 students now? I haven't even sent an email yet!]

[Leng Shang: Me too! I'm also going to post in the mailbox tomorrow!]

[Dai Shuai: Unfortunately, it's not me who will accompany Great God Lin to the end.]

[Stone man, rushing: The one upstairs, vomiting.]

[Happy and happy: Jiang Chaoqun has been selected! Damn it! Hurry up and hug your thighs! This is my former roommate.]

[Gentle water: Liu Qianqian from Xia Ke University, ask her if she lacks a sister?]

[JK: Are all Huaxia students? Do we not have one in the United States?]

[MAKE: We don't have any in Eagle Country either, it's not fair!]

[Mr. Huang: Fair? What is fair? Lin Dashen is from China. He chooses which student he wants to choose!]

[Li Jinyi: Don't say it so early, our Big Bang country passed the verification of Omi's identity, he is very likely to be our Big Bang country.]

[Being typing: Big Bang Country, I would like to call you the most shameless!]

...

When a ray of warm sunlight fell on the windowsill.

Omi slowly opened his eyes.

He glanced at the phone first.

"0:00: China Merchants Bank remits 7,543,900 yuan."

Then, he turned his attention to the sign-in system.

"Sign in!"

【 Ding! Congratulations, you have gained master chef experience. Cooking techniques far beyond ordinary people, and can show fascinating charm at the same time. 】

See here...

Omi's expression moved slightly.

Finally it's not a useless thing like 10 million yuan!

Master chef experience?

Before, Omi also thought about becoming an excellent chef.

Later, he also tried to cook for himself.

But, as for the taste, I can only say that I can't eat it.

After that, he rarely did it again.

The Luckiest man in the world CHAPTER 406-410

Master chef experience, this seems to be a good thing.

At the same time, Omi suddenly had many subtle cooking methods in his mind.

Omi is like getting some kind of novel toy, can't wait to let the fresh food store deliver M9 snowflake beef, Australian lobster, fine egg noodles, fine potatoes, pure natural lettuce, green peppers, eggs, high-quality noodles, garlic cloves, etc. Ingredients.

Omi came to the kitchen with the ingredients.

I saw...

Omi picked up the potatoes and gripped the handle of the knife.

"Boom boom boom!"

A crisp and rhythmic sound immediately rang out at the scene.

Then, potato strips of uniform size and thickness appeared on the sticky board.
UU Reading

"Wow!"

After a burst of lampblack rose.

The rich aroma also diffused out.

Immediately after...

Snowflake steak on the outside and inside, fragrant Aolong noodles, golden slices of potato shreds, homemade tea eggs and so on.

A piece of delicious food was put on the table one after another.

Omi picked up the seafood noodles and put them in his mouth, nodding, "The noodles are strong, the soup is sticky, and it tastes good!"

To know...

In the past few months, he has eaten breakfast at a two-Michelin-star restaurant almost every day.

Today, it can be called good.

One can imagine how good the taste is.

Omi picked up another piece of snowflake steak and chewed lightly: "The heat is moderate and it melts in the mouth, keeping the original sweetness of the beef, very good!"

While eating, he commented on each dish.

After a while, all the food on the table was cleaned up.

Omi touched his chubby belly, and his face showed a touch of satisfaction.

Tasted the food made by myself.

Omi was greatly satisfied both physically and mentally.

He seemed to be fascinated by his cooking skills, and he chose to cook at home all weekend, which was very comfortable.

...

In a blink of an eye, it was Monday.

Today, Omi drove Cullinan directly to Jiangbei University in the warm sunshine.

When Vice President Feng Weijian saw Omi, he smiled and said, "Student Omi, no! I should be called Professor Lin now. Actually, I think I should have called you that way!"

"Professor Lin, good morning!"

Omi responded: "Vice President Feng, good morning."

Feng Weijian continued: "Professor Lin probably doesn't know your office yet? I'll take you there."

"Then bother Vice President Feng." Omi said.

"No trouble, no trouble!" Feng Weijian smiled.

The two of them walked and chatted, and the pace was brisk.

Feng Weijian looked for a topic and said, "What kind of knowledge is Professor Lin going to teach the students? If projects and topics are involved, Jiangbei University will do our best to meet your funding requirements."

This sentence, Feng Weijian is absolutely not nonsense.

Generally speaking, if a professor wants to apply for topics and funding, it can be said to be extremely difficult.

But Omi is different.

Jiangbei University is not afraid of Omi applying, but he is afraid that he will not apply.

Omi said: "I haven't thought about it yet, let's take them to get a few international awards."

After all, the reason why he brought students is also for this purpose.

However, Feng Weijian didn't take this sentence too seriously.

How many international awards do I need to get before I think about what to study?

How can this be!

The two chatted while walking.

Before long, they came to an extremely spacious and clean office.

Above, there is a huge mahogany desk and a very soft and comfortable boss chair.

In the middle is an antique coffee table and a brand sofa.

By the door are several smaller mahogany tables and chairs.

The overall feeling is not like an office at all, but like a casual tea house.

Luxurious and full of style.

Feng Weijian asked, "Professor Lin, are you still satisfied with this office?"

"Not bad!" Omi said.

Feng Weijian said happily: "Satisfaction is good!"

"Tatata!"

At this time, there was a sound of footsteps outside the corridor.

It was Xia Bing, Xia Xue, Nie Zhenjiang, Hao Zhiwu, Jiang Chaoqun and Liu Qianqian.

After seeing a few people, Feng Weijian said, "How many of you are here? In the future, you will study hard with Professor Lin. If you have any questions, you can ask Professor Lin more. If Professor Lin doesn't have time, you can also ask the assistant. Professors."

Everyone looked at Omi one after another.

The moment Xia Bing and Xia Xue saw Omi, their entire pretty faces were blushing. When their eyes touched Omi's gaze, they hurriedly lowered their heads, wishing to bury their heads in the valley.

Nie Zhenjiang's expression is a bit complicated.

The remaining Hao Zhiwu, Jiang Chaoqun, and Liu Qianqian looked at Omi's gaze, and they were instantly filled with surprise, sigh, and worship.

No wonder they will be like this.

Omi has never participated in an interview on the show, and has never exposed any photos on the Internet.

They only heard that they were very young.

However, they never thought they would be so young.

Even, I feel younger than my own age.

Feng Weijian said: "Then you teachers and students get along well, I'll leave first!"

After speaking, he walked straight to the distance.

Omi cleared his throat and said, "You guys introduce yourself to each other first."

"Hello everyone, my name is Hao Zhiwu, Hao Yun's Hao, the aspirational ambition, Wu Song fights the tiger! I studied at the College of Biological Engineering of Beijing University, love animals, love, and love to play games! People who have this hobby, You can find me at any time." Hao Zhiwu was the first to introduce.

While talking, he was still dancing with his hands.

Obviously, he is a more outgoing person.

Soon, it left an impression in the hearts of everyone.

"Hello everyone, my name is Jiang Chaoqun and I come from the School of Chemistry, Modu University. If I like...reading books." Jiang Chaoqun said.

His character is relatively dull, and he talks less.

"Hello everyone, my name is Liu Qianqian and I come from the School of Physics, Charlotte University." Liu Qianqian said concisely.

Nie Zhenjiang said: "Hello everyone, my name is Nie Zhenjiang, Huaqing University School of Mathematics, I like to play basketball."

"Big... Hello everyone... My name is Xia Bing (Xia Xue), I come from Jiangbei University, and I'm from Computer School." Xia Bing and Xia Xue said in unison.

After speaking, they seemed to have exhausted all their strength and couldn't help gasping for breath.

Omi patted Xia Bing and Xia Xue's shoulders lightly, and said with a smile, "Don't be nervous."

Xia Bing and Xia Xue's blushing pretty faces, at this moment, are more like ripe tomatoes, and then they nodded vigorously.

Omi said, "Go, let's go in and sit down."

Wait until 6 people have sat down.

Omi said: "Let me talk about short-term goals and get a few international awards first."

When Hao Zhiwu and others heard and heard, they all looked at each other a little.

International awards, are they so easy to get?

Omi ignored that much and asked, "Hao Zhiwu, what direction are you best at researching?"

Hao Zhiwu said: "Biopharmaceuticals, the direction of the kidney! I always think that the kidney is the source of strength. Only if the kidney is good, the body can be good..."

However, Omi didn't wait for him to finish, so he interrupted: "Okay, I know."

After speaking, he took out a pen and paper and quickly wrote down a long question.

"You try to solve these problems."

Hao Zhiwu was slightly surprised by Omi's master handwriting, and then he looked at the topic carefully.

Sometimes he frowned, sometimes thinking.

After a while, he said seriously: "Okay, Professor Lin!"

Omi turned and said, "Jiang Chaoqun, which direction are you best at?"

Jiang Chaoqun said: "Polymer Coating Science."

When he said this, UU reading Jiang Chaoqun was actually a little nervous.

Because Omi's achievements today do not involve polymer coatings.

It is precisely because of this that after Jiang Chaoqun was selected, he hesitated whether or not to come to Jiangbei University.

Omi still didn't think much, picked up paper and pen, and wrote down questions.

"Try to answer these questions." Omi said.

When Jiang Chaoqun looked at the topic on the book, in addition to surprise, there was also a touch of joy on his face.

Omi understands polymer coatings!

There is nothing wrong with your choice!

Jiang Chaoqun said: "Okay, Professor Lin!"

Omi didn't care about Jiang Chaoqun's thoughts at all, and slowly came to Xia Bing and Xia Xue, and turned on the computer in front of them.

I saw...

Omi's hands were flying, jumping quickly on the keyboard.

At the same time, countless complex codes appeared on the computer screen.

After a while, Omi stopped his hands and said, "You try to break it open."

".

Omi has experience as a computer professor.

At the same time, they also have skills: hacker experts.

Writing a more complicated program is nothing at all.

Xia Bing and Xia Xue felt the warm breath from Omi's body, and their pretty faces flushed with shame.

After a long time, he squatted and said: "Okay...Okay."

Then, Omi looked at Liu Qianqian and asked, "Which direction are you good at?"

Liu Qianqian thought for a moment, then said: "Electromagnetism."

Omi nodded, picked up the pen and paper, and quickly wrote several questions.

See here...

Liu Qianqian thought, "Yes, Professor Lin."

Finally, Omi set his sights on Nie Zhenjiang.

"Which direction are you good at?"

Nie Zhenjiang said: "NS equation."

Jiang Chaoqun, Liu Qianqian, Hao Zhiwu and others all cast a surprised look at what they heard.

Although, they are not students majoring in mathematics.

However, I also know that the NS equation is one of the millennium problems, and no one has been able to solve it for hundreds of years.

Nie Zhenjiang is good at NS equation!

Hao Zhiwu directly said: "Zhenjiang, that's not bad! I'm actually studying the millennium problem! Which step has been studied?"

Nie Zhenjiang's entire face blushed slightly.

Which step has been studied?

He is just an ordinary college student. Where can he go?

It's just getting started.

Omi didn't pay much attention to it, and wrote out equations and questions.

Nie Zhenjiang looked at Omi's elegant handwriting and complicated calculations, and lost his senses.

At this moment, he suddenly remembered the scene where Omi participated in a mathematical modeling contest with him.

At that time, Nie Zhenjiang was determined to win the Higher Education Cup.

As a result, it was later awarded to Omi.

Regarding this...

Nie Zhenjiang has always been brooding.

He felt that it was entirely because Omi had solved Zhou's conjecture at that time, and the judges wanted to add more flowers.

Therefore, Omi was given the Gaojiao Cup.

Now it seems that he is really too narrow-minded.

Seeing that Nie Zhenjiang had been stunned, Omi couldn't help asking, "Can't you understand? Do you need to change to a simpler topic?"

Nie Zhenjiang's entire face became more red, and he said hurriedly: "No, no."

Omi nodded and said, "Okay, then try to figure out a solution first. If you don't understand, you can ask me."

Everyone answered.

I have to say that these people deserve to be talents from various prestigious universities.

They all possess great self-control.

Before long, they brought a large stack of books from the library and quickly looked through them, and kept making notes and calculations.

Suddenly, the whole office continued to hear the sound of flipping books, and the sharp collision of the pen tip and the table.

Most people can concentrate on studying for half an hour, one hour...

However, in addition to the necessary eating, drinking, and toileting, they maintain an extremely focused learning attitude almost all day long.

The originally empty draft book also contains countless complicated patterns and calculations.

This state lasted for three days.

Today, when everyone was tired and ready to go home, Hao Zhiwu suddenly said: "Professor Lin, can I bring my Xiaobai?"

"Xiao Bai?" Omi asked in confusion.

As his voice fell, the super smart watch on his wrist flickered slightly.

However, it did not respond.

Because it knows there are many other people here.

Hao Zhiwu said, "It's the cat I raised. I have kept it at home for the past few days, and it's a little boring."

Immediately after...

He also explained: "Of course, this is not the main reason. The main thing is that when I and Xiaobai are together, the learning efficiency will increase a lot."

The cat brought the office?

In the past few days, Hao Zhiwu, Xia Bing, Xia Xue, Nie Zhenjiang, Liu Qianqian and Jiang Chaoqun have been reading and studying.

Omi is really bored playing with his cell phone, computer, and looking out the window in the boss chair every day.

If a cat comes to the office, it seems pretty good.

So Omi nodded and said: "Okay, then you can bring it over."

"Okay!" Hao Zhiwu said happily.

.....

The next day.

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Xia Bing, Xia Xue, Hao Zhiwu and others all arrived at the office on time.

On Hao Zhiwu's shoulder, there was a white cat lying on his stomach.

Liu Qianqian said: "Is this Xiao Bai? It's white and fat, so cute, it's still lying on your shoulders all the time, not moving, so good."

After three days of getting along, several people are basically familiar with each other, and occasionally they will chat.

Hao Zhiwu proudly said: "Of course! Our Xiaobai likes to lie on my shoulders. If I don't hold it down, it can go down forever!"

Liu Qianqian was surprised and said: "So good? Can I hug it?"

Hao Zhiwu apologized: "I'm afraid this won't work, my Xiaobai is very sticky to me, and I only want to be hugged by me."

"Tatata!"

At this time, Omi slowly walked in.

Hao Zhiwu, Xu Qianqian, Xia Bing, Xia Xue and others hurriedly shouted, "Hello, Professor Lin."

Omi nodded and said, "Hello."

"Meow!"

"Meow!"

As they spoke,

The kitten also made two clear calls.

To Hao Zhiwu, Xu Qianqian and others, the kitten's voice is so clear and sweet.

When Omi heard the kitty's voice, there was a strange look on his face.

Because Omi has the skill to communicate with animals and can understand and communicate with all animals.

Kitty: "The **** shovel officer is here these days? It doesn't seem to be delicious!"

"Then what am I doing at home these few days?"

Omi smiled and tore open a bag of the best beef and cat food that he bought for 1,000 yuan when he was visiting the boutique supermarket last night, and said, "Xiao Bai, I have some delicious food here. Come here."

"Patter!"

Little cat barely hesitated ~ ~ directly jumped off Hao Zhiwu's shoulder and walked towards Omi.

See here...

Liu Qianqian, Jiang Chaoqun and others all set their sights on Hao Zhiwu.

It looks like you are saying, this is what you said that if you don't hold it, it won't come off your shoulders?

At this time, the kitten had already arrived in front of Omi, ate the top-quality beef cat food in Omi's hands, and continued to make a gurgling noise.

"It's delicious, I have never eaten such delicious food!"

"too delicious!"

Omi smiled and said, "Come, let me hug, I have a lot of delicious food here."

The kitten didn't hesitate at all, jumped directly into Omi's arms, and let out a murmur of ingratiation.

"Master, you will be my new master, okay?"

See here...

Liu Qianqian, Jiang Chaoqun and others once again set their sights on Hao Zhiwu.

It looks like it's saying... this is what you said, it only wants you to hold it by yourself?

Hao Zhiwu opened his mouth, but he didn't know what to say.

In the past, as long as he beckoned to Xiaobai, it would come soon.

But this time...

Hao Zhiwu's hand was almost broken, but Xiao Bai was still at Omi's feet, rubbing back and forth, making a gurgling sound of flattery.

A little helpless, Hao Zhiwu came to Omi and said, "Xiaobai, Professor Lin has a lot of important things to deal with, don't bother him."

While talking, Hao Zhiwu was about to reach out and hug the cat.

However, Xiao Bai shook his body and hid directly to the side.

Immediately afterwards, he jumped directly into Omi's arms.

See here...

Liu Qianqian, Jiang Chaoqun and others once again showed a strange look.

It looks like it's like saying, this is what you said is very sticky to you?

Hao Zhiwu's face was full of embarrassment.

After a while, he said, "Professor Lin, where did you buy the cat food?"

Obviously, he also realized that his cat likes this cat food very much.

Therefore, I would ignore my call.

Omi said, "I bought it in a boutique supermarket."

Hao Zhiwu's brows twitched slightly.

Although, he only came to Jiangbei for a few days.

However, I have also heard of the name of the boutique supermarket.

That is synonymous with luxury fresh food in Jiangbei!

"This... how much is this package of cat food?" Hao Zhiwu asked cautiously.

"It seems that it only costs more than 1,000 yuan." Omi said.

It seems that it only costs more than 1,000 yuan? !

Hao Zhiwu, Xu Qianqian, Jiang Chaoqun and others all twitched fiercely.

To know...

The cat food bag in Omi's hand was just the size of a palm.

So little...

More than 1,000 yuan?

Just?

Has gold been added to this package of cat food?

original...

Hao Zhiwu was still thinking about giving Xiaobai this cat food every day after returning home.

In this way, Xiao Bai will only stick to himself in the future.

At this moment, he completely forgot this idea.

Eat this cat food every day?

If you buy it once, you lose yourself!

Hao Zhiwu glanced again, lying in Omi's arms with a grunting Xiaobai, finally, he had to turn around angrily.

So, Hao Zhiwu, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Xia Bing, Xia Xue and others began today's study time again.

"Da da da!"

The tip of the pen hits the tabletop, and there are bursts of crisp sound again.

maybe...

As Hao Zhiwu said, when he stays with Xiaobai, he will improve his learning efficiency.

Two hours later, Hao Zhiwu took a large stack of draft paper and came to Omi with great excitement.

"Professor Lin, look...how is my answer to this question?"

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Xia Bing, Xia Xue and others said and heard, all of their hearts were tight.

Omi set up some questions for everyone.

However, these topics are all very complicated.

Many people have just shed a little thought.

As a result, Hao Zhiwu answered one of them so quickly?

Omi took the draft paper handed over by Hao Zhiwu and quickly flipped through it.

Hao Zhiwu replied at the right time: "Professor Lin, your topic is really great!"

"The kidney is the biggest treasure house of the human body!"

"Once the disease is affected, others will be fierce and fierce, but I will be sluggish..."

“Through your questions and the answering methods I have written, you can make this treasure house of kidneys continue to shine!”

“Professor Lin, your understanding of the kidneys is straight to the essence!”

“Your treasure house, surely...”

At this time, Omi interrupted: “According to your answer method, the originally depleted kidney will soon become swollen.”

“Huh? Edema?” Hao Zhiwu was taken aback for a while.

Omi said directly: “Rethink it.”

Hao Zhiwu frowned.

After a while, he showed a sense of sorrow, turned around, sat down and started writing quickly.

“Da da da!”

This time, Hao Zhiwu didn’t even lift his head.

About an hour later, he took another stack of draft paper and came to Omi.

Omi nodded in satisfaction and said, “This time is not bad!”

Hearing this, Hao Zhiwu showed a smile of joy on his face, and said proudly: “Professor Lin, I said staying with Xiaobai will make the efficiency much higher, right?”

I have to say that Hao Zhiwu’s mentality is really good.

In other words, the more frustrated, the more courageous.

Just forget the previous mistakes.

As for what it would be much more efficient to stay with Xiaobai... it was completely nonsense.

In fact...

After three days of research, Hao Zhiwu almost studied one of the topics yesterday.

Although, some problems occurred midway.

However, he can also make changes in time.

When Hao Zhiwu was talking, a chubby white cat was lying next to Omi, making a beeping purr.

Hao Zhiwu's expression froze immediately.

have to!

When I didn't say it!

This cat has nothing to do with his own learning efficiency!

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Xia Bing, Xia Xue and others who were also sitting in the office all cast envy at Hao Zhiwu.

Answered!

Hao Zhiwu was the first to answer Omi's question!

However, everyone was not depressed because of being behind.

On the contrary, they clung to the pen, the mouse, and the shoulders, and they became more combative, and they solved the problems before them.

Especially Xia Bing and Xia Xue, with their two quiet little faces, they seemed to have written the words 'Come on'!

Competition is the greatest driving force for human progress!

A few days ago, after everyone had lunch, they would choose to rest for an hour at noon.

However, at noon today, none of Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Xia Bing, and Xia Xue went to bed.

Especially Xia Bing and Xia Xue, after directly buying two pieces of bread in a small supermarket, they continued to crack the program while eating bread in front of the computer.

They secretly said to themselves that UU Reading has already lost to one person in front of Omi, and absolutely can't lose to the second person!

Absolutely not!

"Da da da!"

Xia Bing and Xia Xue had two beautiful eyes, staring at the screen full of complex codes without blinking, and their two jade hands were beating quickly on the keyboard like phantoms.

“Ding!”

At this moment, the computer in front of them made a soft noise.

Immediately afterwards, a large line of words “First pass, pass!” appeared on the computer screen.

at this time...

Jiang Chaoqun stood up and said, “Professor Lin, how do you think I can answer this question?”

Omi didn’t answer him immediately. Instead, he glanced at the screens of Xia Bing and Xia Xue and said, “Xia Bing and Xia Xue, you two did a good job!”

“There are a total of three levels in this program, and one level is passed, compared to the one who solved a difficult problem.”

Xia Bing and Xia Xue said that they heard the most beautiful voices in the world, their pretty faces immediately resembled blooming flowers, so brilliant!

“.

Omi nodded towards Xia Bing and Xia Xue.

Then, he took a stack of draft paper from Jiang Chaoqun.

“Wow!”

Omi flipped through it quickly and came to a conclusion in just a few seconds.

“The answer to this question is good, keep on working hard.”

Although, just a simple compliment.

However, Jiang Chaoqun was very happy and said, “Yes, Professor Lin!”

See here...

Liu Qianqian and Nie Zhenjiang have a tight heart.

Two groups of people answered the first question.

I am completely behind!

Thinking of this, they answered the puzzle on the table more seriously.

Xia Bing and Xia Xue also redoubled their efforts.

The first place in the first question was snatched away.

The second question, absolutely not!

Everyone is chasing after me, and the learning atmosphere is extremely strong.

As school approached, Liu Qianqian came to Omi with a stack of drafts, and said, "Professor Lin, this is the answer to the first question."

After reading it, Omi nodded and said, "That's a good answer!"

Liu Qianqian breathed a sigh of relief when she heard this.

Finally solved a question, not too far behind.

She breathed a sigh of relief, but Nie Zhenjiang was extremely nervous and flustered.

Everyone answered the first question and became the last one!

"Jingle Bell!"

At this time, a crisp bell rang on the campus of Jiangbei University.

Omi said, "Okay, that's all for today's class. Let's go back and have a good rest."

After speaking, Omi strode outside.

Jiang Chaoqun and the others stretched out, packed up their books, and were about to leave the office.

Seeing Nie Zhenjiang's listless appearance, they immediately realized something.

So he comforted him and said: "Zhenjiang, you are studying the NS equation, and it is normal to be difficult to solve. After you go back, take a good night's sleep. Maybe inspiration strikes, you can solve it soon, take your time, Don't worry."

When mentioning this incident, Nie Zhenjiang's face was flushed again.

NS equation!

A few days ago, I also said that this is something I am good at.

As a result, I haven't been able to answer the first question yet.

Nie Zhenjiang said dully: "Okay."

After he returned to the dormitory, he did not sleep well as Jiang Chaoqun said.

Instead, I turned on the lights and studied and calculated the whole night.

He scratched his head in a hurry, still not making much progress.

To prevent lack of energy in the office.

Nie Zhenjiang deliberately took a cold bath early in the morning.

At this time, Hao Zhiwu, who lived in the dormitory next door with a cat on his shoulder, just came over.

He looked at Nie Zhenjiang, who was still wet, and said thoughtfully: "Zhenjiang, do you take a bath early in the morning?"

"Yes." Nie Zhenjiang nodded.

Hao Zhiwu said again: "Have the clothes been washed?"

Nie Zhenjiang said: "Not yet."

Hao Zhiwu couldn't help but stepped back outside the dormitory, and said earnestly: "The kidney is the treasure house of mankind, and it is also the pillar of man! Zhenjiang, protect it!"

After speaking, he patted his shoulder lightly, showing that he was taking care of himself.

Nie Zhenjiang was inexplicable.

After a while, he seemed to have thought of something, and whispered: "This guy!"

.....

Although, Nie Zhenjiang took a cold shower in the morning.

However, he was still in a very poor state of mind after not sleeping all night.

When he came to the office and sat down, he felt drowsy for a while.

"Tatata!"

At this moment, Omi walked in slowly with a brisk pace.

"Meow!"

"Meow!"

Originally, the cat, who was half-squinting and lying lazily on Hao Zhiwu's shoulder, immediately opened his eyes and made two clear calls.

"The master is here!"

"Master, have you brought any delicious food?"

The cat jumped directly off Hao Zhiwu's shoulder, came to Omi's feet, and rubbed it around.

Omi smiled and said, "Don't worry, the food will come soon."

As if to verify Omi's statement, the little courier came over with a box and asked, "Is Mr. Lin here?"

Omi said: "It's me."

"Please sign for it." The courier brother said.

"Tear!"

After signing the name, Omi opened the box directly, and it was full of fine beef and cat food from yesterday.

See here...

Hao Zhiwu's eyes widened directly.

The reason why he brought the cat Xiaobai here again today.

On the one hand, it was because Xiaobai kept tossing in the dormitory.

On the other hand, it was because after Xiaobai ate Omi's fine beef cat food yesterday, he didn't even eat cheap cat food for dozens of dollars a pack.

This made Hao Zhiwu angry.

In desperation, he had to bring Xiaobai to try his luck today.

What if Omi brings fine beef cat food again?

Isn't this something Xiaobai can eat again?

But, what's the situation in front of you?

Did this bring a little bit?

This is a half-person tall box!

Yesterday, after returning home, Hao Zhiwu deliberately searched online for the price of fine beef and cat food, 1589 yuan and 150 grams!

In other words, an average of 10 yuan per gram!

This kind of expensive food, let alone feeding the cat, can't even eat it himself.

How much does the box in front of me cost?

50000?

100,000?

"Patter!"

Hao Zhiwu only felt that his knees were slightly soft, and he almost didn't kneel down.

"Tear!"

Omi didn't have that much, so he just tore open a package of fine beef and cat food.

Cat Xiaobai uttered a joyous sound, and ate it with big mouthfuls.

"too delicious!"

"The new owner is amazing!"

Omi smiled and said, "Eat more if you like."

Then, Hao Zhiwu, Xu Qianqian, Xia Bing, Xia Xue and others began their hard study today.

Although, Nie Zhenjiang is eager to answer the first question so as to catch up with everyone.

However, I didn't sleep last night and my condition was so bad that I looked extremely tired.

Omi seems to have noticed this too~ ~ After teasing the cat Xiaobai for a while, he took out a box of spiritual tea ceremony: "If you feel sleepy, you can make tea by yourself."

Nie Zhenjiang was too sleepy, so he had to put down his studies for the time being, and got up to make tea.

"Gurulu!"

When the boiled water was poured into a teapot with a few pieces of tea leaves, a strong tea fragrance instantly rippled.

Nie Zhenjiang, who was originally very tired, felt like a breeze, and immediately regained his energy.

It was almost a conditioned reflex, he drank a big glass directly.

Suddenly, he seemed to have put on a pair of wings, and hovered freely under the blue sky.

The previous fatigue is all gone, replaced by the ultimate relaxation and comfort!

After a while, he came back to his senses.

Nie Zhenjiang stared at the tea in front of him with an extremely surprised gaze.

When he looked up and saw Omi, he remembered.

I am still in the office, and there are still questions that have not been answered.

So, he hurriedly suppressed the surprise in his heart, turned around and returned to the table, and started thinking about the problem again.
