

# The Luckiest man in the world CHAPTER 441-450

Omi smiled and said: "Yu Xuan, they helped to book the venue for Disney yesterday. In addition, if there is anything that can't be solved in the future, you can also ask them for help."

The patriarch of the four major families hurriedly said, "You can command us at any time."

"You just think of us as your subordinates."

"Yeah!"

...

Qin Yuxuan was stunned again after hearing the words of the patriarchs of the four major families.

Direct them at will and treat them as subordinates?

this...

Although, Qin Yuxuan also knows that Omi is very powerful, owns several supercars, and can readily use hundreds of millions of dollars as the company's start-up capital.

It is even possible to buy the entire World Financial Building.

However, she had never expected that the patriarchs of the four major families of the Demon Capital would be so polite to herself because of Omi, even more so as to call themselves subordinates.

But Omi didn't pay much attention to the words of the patriarchs of the four major families.

He just chatted casually with Ye Xiu.

From Ye Xiu's mouth, Omi knew that the world's largest oil field, a quarter of Silicon Valley, and hundreds of listed companies in the rice stock market, all belong to Qinghongmen.

For these, Omi didn't have much reaction.

Because, for him now, what company, what capital... is just a bunch of numbers.

However, Qin Yuxuan, who was sitting next to her, was completely dumbfounded.

...

At this time, the capital.

“Jingle Bell!”

The extremely dignified man picked up the phone on the table and pressed the answer button.

“Leader, Mr. Ye has already come to the magic city, but he said he has important things to do and he doesn’t want us to follow along. In addition, his physical condition doesn’t seem to be very good.”

“Also, Mr. Ye is very concerned about a Mr. Lin. He came to the magic city this time, as if he wanted to see Mr. Lin.”

Mr. Lin?

The majestic man frowned.

“Ding Dong!”

At this time, an email popped up on the computer screen in front of the majestic man.

Above...is Omi!

See here...

The majestic man was a little stunned.

After a while, he said: “Okay, I see.”

After speaking, he directly hung up the phone.

Only the man in the white shirt sitting in the Audi car, holding his mobile phone, was at a loss for a while.

understood?

Is this all gone?

Isn’t this old Mr. Ye very special?

Didn’t you let me entertain and protect Mr. Ye?

He is in poor health and he wants to meet a mysterious Mr. Lin.

Just... Know it?

What should I do next?

...

Omi ignored all of these.

After listening to Ye Xiu talk about Qinghongmen for a while, he boarded the luxurious special plane to Jiangbei.

Because he knew that he was still a professor at Jiangbei University, and he had been letting students study by themselves, but it was not good.

Tonight, he was alone, lying comfortably on the big bed in Panlong Villa, sleeping very comfortably.

...

In a blink of an eye, it was the next day.

"Today, I caught another big bug!"

"I caught two!"

Omi slowly opened his eyes after the pleasant cry of two sparrows sounded outside the window.

He glanced at the phone habitually, and a text message appeared on the screen early.

"At 0:00, China Merchants Bank remitted 36,989,010 yuan."

Then, Omi murmured: "Look at what you sign in today."

"Sign in!"

【Ding! Congratulations, you got 10 million yuan. 】

See here...

Omi directly chose to ignore it.

After he had breakfast, he drove Cullinan straight to Jiangbei University.

Although, it is not yet time for class.

However, Xia Bing, Xia Xue, Nie Zhenjiang, Hao Zhiwu, Liu Qianqian, Jiang Chaoqun and other students have already arrived at the office early and are studying very seriously.

“Meow!”

It was the cat Xiaobai who was lying on Hao Zhiwu’s shoulders. He was the first to spot Omi and let out a crisp cry.

“Master, you are here!”

Then, the cat Xiaobai quickly jumped off Hao Zhiwu’s shoulder and came to Omi’s feet and kept rubbing.

Omi kicked the cat Xiaobai a few times.

Then, he tore open a package of fine beef cat food.

“Lululu!”

Cat Xiaobai’s entire head was directly buried in the fine beef cat food, and he was having a good time.

When Hao Zhiwu saw the appearance of cat Xiaobai for the first time, he was a little bit angry with his toothache.

Now, it is completely used to it.

He hurriedly stopped the ballpoint pen in his hand and rushed to Omi, saying: “Professor Lin, did you talk to Ran Dong? Can I go directly to the internal testing base tomorrow?”

No wonder he was so excited.

Because, according to the news released by Dahua Group.

Tomorrow is the closed beta time.

Even the day before yesterday, Dahua Group had already announced the internal beta list.

However, Hao Zhiwu found that there was no name on it, which made him anxious.

After all, this is the gaming helmet experience he has always dreamed of!

Omi was stunned for a moment, and then said: "Oh, you mean the game helmet, okay, I'll talk to Ran Fei now."

Hao Zhiwu froze directly.

What Professor Lin meant by...hasn't called Ran Fei yet?

Your name has not been added yet?

Omi didn't pay much attention to the froze Hao Zhiwu, took out his cell phone and dialed Ran Fei's call.

During this period of time, it was the carbon-based chip business and the gaming helmet business...

It can be said that the chairman of Ran Fei is very busy.

However, when he saw the call from Omi, he pressed the answer button for the first time.

"Mr. Lin, hello, do you have any instructions?" Ran Fei asked.

instruct?

This sentence, Ran Fei is half joking, but also half serious.

Because now Omi is now the largest shareholder of Dahua Group.

At the same time, he has also become the soul of Dahua Group.

Many employees of Dahua Group regard Omi as an idol!

Omi smiled and said: "There are no instructions. I have a student who wants to participate in the closed beta of tomorrow's game helmet. Is there any place?"

Ran Fei thought for a while and said: "We have openly recruited 100 internal test places around the world. However, our Dahua Group has also arranged dozens of employees to experience. Professor Lin can make your students as dozens of employees. One of them will participate in the closed beta together."

"Okay, so be it." Omi nodded.

When Hao Zhiwu learned of this situation, he was excited to give Omi a big hug.

However, Omi dodged aside very quickly and said, "I have a normal orientation!"

At this time, Xia Bing and Xia Xue each took a bottle of Pulse and came to Omi.

Omi took it casually, UU read www.. com took a sip of each of the two bottles of Pulse.

See here...

Xia Bing and Xia Xue were like they drank honey, their pretty faces were full of sweetness.

If it were before, Liu Qianqian would inevitably sigh again when she saw this scene, and she felt worthless for Xia Bing and Xia Xue.

At this moment, Omi could not help but see the scene of Omi standing outside the basketball court, throwing the basketball hollow into the basket, her face couldn't help showing a look of admiration.

But, soon, Liu Qianqian shook her head vigorously, and silently said to herself: Professor Lin already has a girlfriend, Professor Lin already has a girlfriend, Professor Lin already has a girlfriend!

Professor Lin is a scumbag! Professor Lin is a scumbag! Professor Lin is a scumbag!

Suddenly, Liu Qianqian looked at Omi again and calmed down again.

" and "" .

In a blink of an eye, it was the next day.

Five people, Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang, and Jiang Chaoqun, still read carefully in the office.

And Hao Zhiwu came to Dahua Group Jiangbei branch early in the morning, full of joy.

A man in a suit and leather shoes said: "Next, you will participate in the closed beta of the Dahua Group gaming helmet."

"In this internal test, we will take a game for one day and rest for one day, and the game time is 8 hours per day. The game time in the internal test is 56 hours in total, that is, you need to stay in our Dahua Group for 14 days."

"During the internal test period, Dahua Group will provide closed management of accommodation, free canteens, beverages, and physical examinations, and an additional subsidy of 5,000 yuan."

"Once it is confirmed to participate, it is forbidden to leave the closed area midway, and offenders will be fined with a subsidy of 10 times the fine. Are you sure to participate in the internal test?"

After speaking, he took out a page of confirmation book.

Hao Zhiwu's dream is to play a game helmet.

What's more, this time you can get a 5,000 yuan subsidy for playing the game, how can you refuse it?

As for the prohibition of leaving the closed area halfway?

Isn't this the 14-day off?

For the game helmet, let alone shut down for 14 days, it is shut down for one year. What does it matter?

Hao Zhiwu didn't hesitate at all, and signed his name when he picked up the pen.

then...

Under the guidance of the staff, together with many people, he came to a hall full of technology.

On the table in the hall, there are exquisite helmets, which are game helmets!

See here...

Many people's heartbeat speeded up a bit involuntarily.

Afterwards, under the guidance of the staff, with curiosity or excitement, everyone put the game helmet on their heads.

Everyone only felt that the back of the neck tightened slightly.

next moment...

They entered the game.

Someone appeared on a green grassland, some appeared on the golden beach, some appeared in the dense forest...

No matter where they appeared, everyone's eyes widened, and their faces were full of incredible colors.

In fact, when many people learned that Dahua Group launched a gaming helmet, they thought it should still be something similar to VR glasses.

But what is the situation now?

After putting on the game helmet, it was like traveling to other places.

The air was filled with fragrant, clear, or hot breath.

There is also a feeling of swaying vegetation and falling sand on the feet.

Someone accidentally fell and even felt a little pain!

After a while, everyone shouted in excitement!

They all understand that there is absolutely nothing wrong with their participation in the game this time!

...

On the Internet, things about gaming helmets quickly aroused heated discussions.

[Fei Fei Fei Fei Fei: Dahua Group's gaming helmet, doesn't it mean that the closed beta will start today? No news yet? ]

[Brother Yongzai: I don't know, but logically speaking, it should be soon, right? ]

Sure enough, someone sent a message soon.

[Anonymous: Oh my God! This game helmet is simply amazing! ]

[Anonymous: I can guarantee that as long as the game helmet is officially launched on the market, all popular mobile games, mobile games, and PSPs will soon disappear! ]

[Guardian of the world: Upstairs, don't kill it. ]

[Anonymous: To kill? This is the fact! ]

[Happy and happy: sincerely invite. I was in the Dahua Group branch and just took off the gaming helmet.

Let me talk about the overall feeling first.

Two words: amazing!

I am lucky and unfortunate.

Fortunately, I was selected by Dahua Group to participate in the game helmet internal test, and I can experience the game helmet for 14 days and a total of 56 hours.

Unfortunately, I was selected by Dahua Group to participate in the internal test of the gaming helmet, and I could only experience the gaming helmet for a period of 14 days and a total of 56 hours.

Game experience: This is a high-tech product completely different from 3D glasses and VR glasses. It was as if I had let myself shuttle to other places, it was very shocking! Hearing, sight, perception, smell, etc., of course, are different from the real world. However, this difference, in my opinion, is also very normal.

Game screen: extremely exquisite! In other words, at first glance, everything is reality, and there is no problem with image quality at all.

Game world: the world view is very complete, and has unprecedented freedom...]

After a game helmet internal beta player sent a message, it quickly detonated the entire online world.

Everyone is full of curiosity and envy for the game helmet.

In a day's time, this is the end of the discussion.

Hao Zhiwu and many of the selected players in the closed beta filled out the forms one after another and performed corresponding physical examinations.

I have to say that Dahua Group is still very stable.

After all, this is to let people's consciousness enter the game world. If there is some kind of change, there will definitely be big problems.

Although, in Omi's view, these problems would never arise at all.

...

The next day, the weather was clear and cloudless.

According to the contract signed with Dahua Group, the internal test personnel will undergo a physical examination today, and then rest freely.

These selected internal testers can be said to be all in-depth game enthusiasts.

Otherwise, they will not spend a full month coming over to participate in the closed beta.

In the past, after work and rest, they would spend time in games.

But today, they have no such idea at all.

Because, after they played the game helmet, what mobile games, online games, PSP... already felt dull and rubbish!

In order to pass the time, they came to meager, forums and other places to share the happiness brought by gaming helmets with others.

On the other hand, Hao Zhiwu sent a message in the WeChat group of the 'Professor Lin's Student Headquarters'.

Hao Zhiwu: It's a shame that you didn't ask Professor Lin to help get an internal test quota!

Hao Zhiwu: I'm wearing a helmet and holding a rock to fight monsters. It's like fighting monsters in the real world. There are fruits in the game. The taste is amazing...

Hao Zhiwu: I'm sure, as long as you play this game, you will love it deeply!

After a while...

Finally, someone replied to the message.

Liu Qianqian: It's very fun, come in and play together!

When Hao Zhiwu saw this news, he was slightly stunned.

After a while, the message was finally sent out again.

Hao Zhiwu: Let's play together...what is it?

Liu Qianqian: Just put on a game helmet and play in the "world" together.

Liu Qianqian: This morning, Professor Lin brought 6 game helmets to the office. We have been playing for a few hours.

Liu Qianqian: I still feel a little uncomfortable in my stomach, so I just quit for a while, and I will continue to go in now.

Liu Qianqian: Let's not say, I am wearing a gaming helmet, otherwise, I will be too far from Professor Lin and others later.

After seeing the news, Hao Zhiwu suddenly covered his chest.

pain!

It's so painful!

I signed up again, and Professor Qiu Lin, and got the qualification for the closed beta of the game helmet on the last day.

As a result, he had to stay in the Dahua Group branch, as if he were in jail, for a full 14 days.

For 14 days, forget it.

Moreover, only 56 hours of gaming helmets can be played.

now what?

Now Liu Qianqian told herself that Professor Lin came directly to the office with 6 game helmets, letting everyone play casually!

this...

this...

Hao Zhiwu lay at the window, like a wronged prisoner, crying and crying: "Let me go out!"

...

For the next 14 days, Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang, and Jiang Chaoqun spent a lot of fun in the games and learning.

Hao Zhiwu from Dahua Group, after finishing the game, would come to the window every day with a sad face and sigh.

Finally, the closed beta time is over.

The people who participated in the closed beta were still in awe, wandering one step at a time, and slowly left the Dahua Group.

Only Hao Zhiwu ran outside like a sharp arrow that kept hitting a string.

When he arrived at Jiangbei University, before he walked into the office, he shouted: "Professor Lin, I want it, I want it!"

Omi couldn't help but twitched his mouth, and said, "You fellow, what do you want? If you want to play a game, you can take it yourself."

While speaking, he pointed to a game helmet placed on the table.

Hao Zhiwu said excitedly: "Yes, professor!"

Then, he hurriedly picked up the game helmet, found a good posture, couldn't wait to put it on his head, entered the game world again, and galloped freely.

When Hao Zhiwu entered the game world again, the news about the game helmet on the Internet caused heated discussion again.

Some people say that gaming helmets are harmful to the brain.

Some people say that gaming helmets can make people confused between reality and virtuality.

Some people say that gaming helmets will make people more addicted to the Internet and become a new era of drugs.

Of course, more people are looking forward to the promotion of gaming helmets.

If you change one as a beneficiary of the game helmet, you will definitely be very concerned about these news.

However, Omi didn't care at all.

He goes to study on time every day, sometimes goes back to Panlong Villa to rest, sometimes goes to Yike City, sometimes goes to Wanjia Huafu...very comfortable.

...

Nowadays.

As usual, Omi came to Jiangbei University after eating breakfast.

Before, when Omi walked on the campus, every student's face was filled with youthful, sunny smiles.

These days, he found that many students have a touch of sadness on their faces.

"call out!"

A breeze blew across from the side, and an elegant fragrance floated.

Omi couldn't help turning his head and looked over.

I saw...

A woman with a perfect body, with a creamy skin, a face like a peach blossom, and a waterfall of hair, walked over slowly.

She... is Hu Tian.

Omi said, "Teacher Tiantian, good morning."

Hu Tian smiled and said, "You are now a professor like me, and you are also called Teacher Tiantian."

Omi smiled and said, "What's the matter?"

The two talked and talked, very relaxed.

If it was before, they would be a little uncomfortable walking side by side.

After all, it is the teacher-student relationship.

Now that they are both teachers and professors, it seems much more natural.

At this moment, a slightly harsh cry suddenly sounded not far away.

"Hu Tian!"

Then, a tall and thin man in a suit and leather shoes strode over.

He smiled all over his face: "Hu Tian, long time no see!"

When Hu Tian saw the incoming person, she first showed a hint of confusion.

Then, a little uncertain: "Are you... Zheng Cong?"

When Zheng Cong heard Hu Tian call out his name, he was very happy and said, "It's me!"

Hu Tian was a little surprised: "Why did you come to school today?"

Zheng Cong is Hu Tian's former classmate at Jiangbei University.

After graduating from university, the two never met again.

Now that I met suddenly, I would naturally be a little surprised.

Zheng Cong smiled and said, "Isn't this coming to graduation season?"

"The employment situation of college students is not very good now. I am now the director of human resources of Huidong Accounting Firm. I just manage the recruitment of interns, so I came to our Jiangbei University."

"After all, other schools are cheaper than our own schools."

After he said these words, he couldn't help but straighten his chest, his face full of triumph.

Because Huidong Accounting Firm is one of the top ten large firms in the country.

Regardless of salary or benefits, all are very good.

It is an ideal place for many graduates to work.

He felt that after he said these words, Hu Tian would definitely admire him.

However, Hu Tian just said in a very plain tone, "Really? Congratulations."

Zheng Cong didn't seem to hear the plainness of her tone, and said with a smile: "It's just the human resources director of Huidong Accounting Firm. What's the point of congratulations? After I become the chairman, I will say congratulations."

His tone is so relaxed.

That looks like...

It's as simple as becoming the chairman of Huidong Accounting Firm is just hands-on.

Zheng Cong was already silent in his own world and couldn't help himself.

Then he said again: "Our two classmates haven't seen each other for a long time. Are you free to have a meal together later?"

After saying this, a fiery color flashed in Zheng Cong's eyes.

Hu Tian was a famous school flower of Jiangbei University when he was in college.

Zheng Cong...and many boys are fascinated by her.

However, Hu Tian didn't add color to everyone.

This makes everyone very helpless. UU reading

In fact...

A large part of the reason why Zheng Cong came to Jiangbei University to recruit interns is that he learned that Hu Tian is a professor at Jiangbei University and that he has not yet been married.

This can't help but... gives Zheng Cong a touch of illusion and expectation in his heart.

With his current status, if you meet Hu Tian at Jiangbei University, maybe...

Standing next to Omi, where he couldn't see the thoughts in Zheng Cong's heart, he said, "I'm afraid it won't work, because Teacher Tiantian has decided to eat with me tonight."

Want to eat with your own woman?

Have you ever asked yourself?

Zheng Cong seemed to notice Omi and said, "Are you a student of Professor Hu Tian?"

"You, Professor Hu, and I are very good classmates. For the face of Professor Hu, I can call the shots and let you come directly to our Huidong Accounting Firm."

He believed that as long as he said these words, Omi would definitely be flattered and overjoyed.

Zheng Cong was like an elder talking to a younger one, with a superior appearance.

He tilted his head back, as if waiting for Omi to nod and bow.

However...

Omi's expression was always very calm, he was just about to speak.

Not far away, there was another slightly harsh sound.

"Hu Tian!"

Then, a man in a suit and leather shoes with a slightly raised hairline walked over quickly.

He smiled all over his face: "Hu Tian, long time no see!"

Before Hu Tian could speak, Zheng Cong had already spoken: "Wang Haoran?"

This Wang Haoran is also a classmate of Hu Ting's Jiangbei University.

Of course, and Zheng Cong are also college classmates.

"Zheng Cong?"

All the attention of Wang Haoran just now was on Hu Tian.

At this moment, after hearing the sound next to him, he turned his head and looked over.

"After graduating from university, we never saw each other again. We did not expect to meet at our alma mater today. By the way, what did you come to school for today?" Zheng Cong said.

While speaking, his body couldn't help but turned to Hu Tian's side.

It looks like...It seems to be saying: Don't even want to mess with Hu Tian!

Zheng Cong and Wang Haoran are classmates, and they are very clear about him...or the male classmates in the whole class have thoughts about Hu Tian in their hearts.

Where can Wang Haoran fail to see Zheng Cong's actions and intentions?

However, he saw that Hu Tian did not react at all, nor did he have any intimate behavior with Zheng Cong.

I immediately understood that this was just Zheng Cong's wishful thinking.

Therefore, Wang Haoran smiled relaxedly: "Isn't it almost the graduation season? The employment environment is not very good now. I just happened to be the deputy director of Photool.com, which is also a little capable. So, I came to help my alma mater to solve a bit of learning. The younger brothers and sisters are now employed."

After saying this, a touch of triumph appeared on his face, and he slowly turned his gaze on Hu Tian.

It seems to be saying: Hu Tian, I am amazing!

After a pause, he said: "Zheng Cong, do you remember that you didn't stay in school?"

Zheng Cong said: "Oh, I'm also here to help students and school girls, and solve some employment."

As if to verify the words of the two, a loud voice sounded not far away.

"Mr. Wang and Mr. Zheng, you are here, and other entrepreneurs and school leaders are in Lecture Room 3." A round-faced man walked over quickly.

Wang Haoran said, "Thank you, Director Song, for the special reminder."

Zheng Cong also said, "Director Song, I'm in trouble."

Although, the two said thanks and troubles.

However, their hearts are full of pride.

Song Keling waved his hand again and again and said, "What's the trouble with this? I want to thank you. Because of your outstanding graduates, we, Jiangbei University students, can find a good job."

At this moment, he suddenly found Hu Tian and Omi standing nearby.

Surprised: "Professor Hu and Professor Lin, you are also here."

Especially when it came to Professor Lin's three words, Song Keling's tone couldn't help becoming a little excited.

Now, in Jiangbei University, Omi can be said to have the supreme status.

Even the principal is far inferior to him.

In the past, Jiangbei University was considered a small famous university within the scope of China, and it was a first-class university in the country.

However, it is far inferior to Huaqing University and Beijing University.

Now, Jiangbei University has become a well-known top university in China, and its reputation even surpasses Huaqing University and Jingcheng University in the world!

The reason for this situation is entirely because of Omi!

Zheng Cong and Wang Haoran obviously did not hear the change in Song Keling's tone.

Wang Haoran is even better.

Zheng Cong showed a strong look of surprise.

Professor Lin?

professor?

This young man turned out to be a professor! ?

Then, Zheng Cong thought of Omi and Hu Tian talking and laughing before, and they were very intimate, and his heart suddenly tightened.

At this time, Song Keling seemed to have thought of something, and hurriedly put away the excitement in his heart, and then said: "Mr. Zheng, Mr. Wang, the corporate conference is about to begin, let's go first."

Zheng Cong and Wang Haoran nodded.

Zheng Cong said: "Hu Tian, do you want to go there together? Maybe, you can choose some good jobs for your students in advance."

Wang Haoran also followed: "Yes, let's go there together, some of our old classmates, by the way, we can also reminisce about the past."

The idea of the two of them is very simple.

I have prepared a lot of information about the company and my position. Now if I say it directly, it seems too deliberate.

However, it is reasonable to take it out in the lecture hall.

They believe that when Hu Tian sees the specific situation of herself and the company, she will look at herself differently and will be fascinated.

After all, good men are the most handsome!

In addition, as I said, what if Hu Tian wants to find a job for his student or someone?

Isn't that a good opportunity to get in touch with her?

Hu Tian hasn't answered yet, Song Keling next to him preemptively said: "Don't worry, Professor Hu is going to pass. Because Professor Hu is one of the representatives of the School of Mathematics at the Enterprise Conference today."

When Zheng Cong and Wang Haoran said and heard, they all showed a touch of joy.

soon...

Soon, Hu Tian can truly realize how good and handsome she is now!

Omi said, "I'll go there too."

Song Keling heard this, his entire face was full of smiles, and said, "That's great!"

Not to mention, Omi has a supreme position in Jiangbei University.

He is willing to go, and that is to directly raise the specifications of this corporate conference by at least one level!

In addition, according to Song Keling's knowledge, Omi is also a major shareholder of Dahua Group and Yadi Auto.

If Omi is willing to help, it can definitely solve a large number of job opportunities in Jiangbei University.

Zheng Cong and Wang Haoran thought that Song Keling was because they agreed to the past.

That's why I was so happy, and nodded with a smile.

Then, a few people walked towards the lecture hall.

...

On the other hand, the capital.

"Boom boom boom!"

A man in a white shirt knocked on the door a little hastily.

"Please come in." The old man with a straight face and determination said loudly.

The man in the white shirt heard the words and walked in hurriedly.

He straightened his mind, and then used as calm as possible, saying: "Leadership, according to the intelligence. A plane carrying the chairman of Jiawen Group, the chairman of United Group, the chairman of Chase Group, the chairman of Nanguo Industrial Group, and Li The chairman of Wah Group, the chairman of Baojia Group, the chairman of William Group... and Ye Xiu's special plane will soon arrive at Jiangbei International Airport!"

He said hundreds of names in a series.

Even an old man with an upright and determined face showed an unsurprising look on his face after hearing the names of these people.

To know...

These are not ordinary people, but the helms of major companies!

Their wealth is all added together, which is no less than that of some medium and large countries!

Now, they actually gathered together to take a special plane and came to Huaxia Jiangbei?

and many more!

Ye Amendment?

Jiangbei?

The old man quickly thought of something and said: "I know."

The man in the white shirt was stunned.

Just... Know it?

However, he didn't dare to say anything, and respectfully said: "Yes."

Then, slowly walked outside.

The old man groaned for a moment, then dialed the number of Jiang Province.

The call was quickly connected.

"Jiangbei International Airport will soon welcome a large number of entrepreneurs including Ye Xiu, Chairman of Jiawen Group, Chairman of United Group, Chairman of Chase Group, etc., hurry up and arrange a reception."

"Yes!" An extremely excited and solemn voice came over the phone.

On the one hand, it is because Jiangbei City has welcomed so many entrepreneurs.

On the other hand, it's because of the phone call!

He never thought that one day he would receive a call from this old man!

...

Just a few minutes.

Audis and Jeep cars, like crucian carp crossing the river, rushed towards Jiangbei International Airport.

At this time, a luxurious special plane landed slowly.

Then, Ye Xiu...and a big figure who often appeared in major news and financial media, walked down one after another.

Ye Xianyang, who was walking in the front, took a deep breath, then took out his mobile phone and dialed out the call.

After a while, the call was connected.

"Sect Master, I came to Jiangbei with the core members under my control. I don't know when I can visit you?" Ye Xiu said respectfully.

Although, when he was in the magic city, Ye Xiu had already told some of the companies and forces that Qinghong Sect currently controls.

However, Ye Xiu felt that he had just said it, but he would not let them come to see Omi. There was always something lacking.

After all, even if you have a group of dogs, you should let them meet their owners.

Otherwise, in the future, if you see the owner but don't know him, and you are all negligent, what should you do?

Therefore, I asked Omi for this idea a few days ago.

Omi, who had just arrived at the stairs to explain, was slightly stunned after receiving a call from Ye Xiu.

## The Luckiest man in the world CHAPTER 446-450

He didn't expect that Ye Xiu brought those people to Jiangbei so soon.

After a while, Omicai said, "Since it's here, then come over. I'm in the lecture hall 3 of Jiangbei University."

Ye Xiu said respectfully: "Yes."

As soon as the phone was hung up, a large swath of Audi and Jeep Chen arrived at the airport one after another.

A large group of men in white shirts and camouflage uniforms walked out of it.

They hurriedly stood up neatly, and then shouted in unison: "Welcome all entrepreneurs to Jiangbei!"

Hong Hanlin, who was walking in the front, said: "Mr. Ye, sorry, we are late."

Ye Xiu said, "Are you the Hongda leader of Jiang Province? It is very difficult for you to come to the airport to pick you up during your busy schedule. What's more, we have just arrived."

Last time, when Ye Xiu went to the magic city, when facing the leader of the magic city, his tone was definitely not so kind.

After all, in his capacity, it really doesn't have to be the case.

But today, facing Hong Hanlin is so peaceful, completely because Omi is a native of Jiang Province.

Hong Hanlin said hurriedly: "This is what it should be! It is rare for us to welcome you and so many outstanding entrepreneurs in Jiang Province. Of course, I am coming over to welcome you."

"Mr. Ye, you must be very \*\*\*\* the road, otherwise, I will arrange for you to have a good rest in the hotel?"

Ye Xiuxian waved his hand and said, "We have been resting on the plane, so we won't take a break for now."

When he went to the magic capital last time, he suffered from several illnesses and was very weak, and he did not directly rest.

Instead, I went to see Omi for the first time.

What's more, now that Ye Xiu's body has completely recovered, he won't even go to rest.

Physical recovery?

That's right!

It's recovery!

When Ye Xianyang drank the medical water, he felt that his illness had completely disappeared.

After a detailed examination in the hospital, this was confirmed even more.

It is precisely because of this that, in Ye Xiu's mind, Omi is not only the ancestor of the Qinghong Sect, but also the master of the Qinghong Sect as a lifesaver!

After a pause, he said: "However, if it is convenient for you, you can take us to Jiangbei University."

Hong Hanlin hurriedly said: "Convenient, convenient! It's so convenient!"

Then, Ye Xiu, Chairman of Jiawen Group, Chairman of United Group, Chairman of Chase Group and others were invited into Audi and Jeep.

Then, continue to gallop towards Jiangbei University.

...

At this time, No. 3 Lecture Hall of Jiangbei University.

There are dozens of entrepreneurs, as well as some heads and leaders of various departments of Jiangbei University.

A famous entrepreneur stepped onto the stage one after another, telling the company information and the positions and numbers to be recruited.

When a round-faced entrepreneur stepped down, Zheng Cong straightened his clothes and walked up slowly.

He opened the prepared PTT and said, "Teachers, leaders, and entrepreneurs of Jiangbei University, good morning, everyone!"

"I am Zheng Cong, the human resources director of Huidong Accounting Firm. Our Huidong Accounting Firm is one of the top ten large-scale accounting firms in the country. It serves a wide range of listed companies and has more than 5,000 employees across the country..."

"In our Huidong Accounting Firm, we have two upward development paths."

"First, the line of accounting analysts. The promotion level of our Huidong Accounting Firm is 1 star accounting, 2 star accounting, 3 star accounting, 4 star accounting, 5 star accounting..."

"Second, UU reading management route. P1 level, P2 level, P3 level, P4 level, P5 level..."

"P1 and 1-star accounting treatments are equal, P2 and 2-star accounting treatments are the same... Among them, the annual salary of P1 and 1-star accounting is 300,000 yuan, and the annual salary of P2 and 2-star accounting is 500,000 yuan. After reaching the P3 level, the age is 800,000 yuan. At the same time, own the company's stock incentives!"

"P4 and 4 star accounting, annual salary of more than 1.5 million yuan, and high stock incentive! By the way, my human resources director position is P4."

"In addition, I have something to tell the teachers and professors present. I am a student who graduated from Jiangbei University."

"I came to Huidong Accounting Firm 5 years ago and started as an intern. In just 5 years, I became the human resources director, P4 level."

"So, what I want to say is that as long as the younger students are willing to come to our Huidong Accounting Firm, they will have a bright future!"

"Everyone is in the same vein, I can do it, and they can do it too!"

!

!

Zheng Cong became more excited as he spoke, and his voice became louder and more excited.

At this moment, he felt as if his whole body was bursting with light, it was so gorgeous and eye-catching.

Then, Zheng Cong set his sights on Hu Tian in the audience.

It looks like... it's like saying: Hu Tian, have you heard it? My annual salary is more than 1.5 million, and I have high stock incentives!

Then, he did not forget to glance at Omi, as if saying: Although you and Hu Tian work together, you can't compare to me!

Zheng Cong said a few more words before slowly walking off the stage.

After he stepped down, in order, it should be a tall and thin man who took the stage to preach.

However, Wang Haoran, who was sitting at the back, stepped up first.

This can't help making the tall and thin man stunned.

However, he did not say much.

After all, this is just a corporate presentation.

It doesn't matter who goes first.

However, in Wang Haoran's heart, it was not like this.

Because...

Zheng Conggang talked about his annual salary and salary, maybe he has left some good impressions in Hu Tian's heart.

In case, Hu Tian has a good impression on him.

What should I do?

Wang Haoran felt that it was necessary for him to stop or reduce this favor in the first place.

So, he quickly walked to the stage.

"Dear school leaders and entrepreneurs, good morning everyone!"

"I am Wang Haoran, the vice chairman of Photool Networks. Our Photool Networks company has 20 branches nationwide, with a total of more than 4,000 employees, mainly engaged in the development of games, chat software, social software, web maintenance and so on."

"Our Photographic Network Company has multiple routes to walk."

"If you like software development, you can go directly to the technical department."

"If you like the news media, you can enter the entertainment department."

"If you like to communicate with others, you can enter the sales and public relations department."

...

"In general, our Photographic Network Company recruits all kinds of talents."

"In addition, the P1 staff of our Photographic Network Company have an annual salary of 300,000, plus a bonus of 120,000 or more."

"P2 staff, the salary is 500,000 yuan per year, plus a bonus of 150,000 yuan or more."

"P3 staff, with an annual salary of 800,000 yuan, plus a bonus of more than 300,000 yuan, and equity incentives."

"P4 staff, with an annual salary of 1 million yuan, plus a bonus of more than 500,000 yuan, and large equity incentives."

"P5 employees, with an annual salary of 2 million, plus a bonus of 1 million or more, and large equity incentives."

"Many companies are extremely difficult to rise... even, it can be said that the rising channel is directly blocked."

"However, our Photool network company is different. Our Photool network company is still on the rise. As long as we have the ability, we will soon be reused and improved."

"Here, I have to take my own example. Like Mr. Zheng from Huidong Accounting Firm, I also graduated from Jiangbei University. It took him 5 years to become Huidong's P4, but I only spent In 4 years, Photool Networks was promoted from P1 to P5 today! He became the Vice Chairman of Photool Networks!"

When Wang Haoran said this, his tone became high, and his gaze fell on Hu Tian.

It looks like: Hu Tian, have you heard it? I am P5! An annual salary of 2 million, plus a bonus of 1 million or more, and large equity incentives!

In Wang Haoran's view.

At this moment, in Hu Tian's eyes, he must be like an angel with a pair of white wings, holy and dazzling! Very charming!

The more you think like this, the more intense the smile on Wang Haoran's face.

After that, he did not forget to cast a triumphant look at Zheng Cong.

Wang Haoran said a few more words, and then slowly walked off the stage.

After a number of company representatives took the stage to speak, Feng Weijian, the vice president of Jiangbei University, finally picked up the microphone and said, "Thank you very much for the company representatives for coming to our school for recruitment."

"This is the trust in our school and the optimistic view of our school to train students..."

"I already know the number of recruits by various companies, but there is still a big gap in these numbers compared with our graduates this year. I don't know if the number of representatives and positions can be increased to a certain extent?"

"I can guarantee that if you choose more Jiang University students, then you will bring greater benefits to the company in the future! Create more valuable things!"

The representatives looked at each other, but no one spoke.

After all, the number of recruits and positions are things that the company has already formulated according to its needs, and cannot be increased at will.

Sitting in the audience, Wang Haoran groaned: "President Feng is right! Choosing more Jiang University students will bring greater benefits to the company. I very much agree with this!"

"Because, I myself graduated from Jiangbei University. I know Jiangda and know the spirit of Jiangda! We can add 20 more positions in Photool Networks Company!"

Feng Weijian said happily: "Okay! Here, on behalf of the students who are about to graduate from Jiangda University, I thank Mr. Wang!"

Wang Haoran's face was also full of smiles.

Then, he cast a triumphant look at Hu Tian.

This scene was captured by Zheng Cong.

He gritted his teeth and said, "I also very much agree with President Feng's point of view. Therefore, our Huidong Accounting Firm will add another 20 positions!"

Feng Weijian said: "Good! Thank you Mr. Zheng!"

Zheng Congyan heard it and cast a smile at Hu Tian.

In a word, decide the work of 20 people!

In the view of Zheng Cong and Wang Haoran, Hu Tian must feel like an ancient aristocrat with great power.

Feng Weijian just prepared to say something...

"Boom boom boom!"

At this time, there was a dull knock on the door outside.

Therefore, Feng Weijian had to turn sideways and said: "Please come in."

"Tatata!"

The next moment, Feng Weijian...and everyone in the lecture hall were all a little stunned.

Because suddenly a large group of people walked in outside.

Among them are yellow, white and black people with different skins...

The villain made the originally very spacious lecture hall a little crowded.

Most people, if they suddenly see people of other skin color, they will have a strong curiosity.

However, all the people present were leaders and representatives of major companies, and they often dealt with foreigners.

So, it's just a little bit confused, not too curious, just a little bit confused.

At this time, someone suddenly screamed.

"Hulse, Chairman of Jiawen Group?!"

After this sound appeared, it was as if on the surface of a calm lake, a huge rock was dropped, causing ripples.

Soon, someone screamed.

**“It’s Hulse!”**

**“Oh my God!”**

**“Why did he come here?”**

To know...

**Jiawen Group is a super group in the world’s top 500!**

**As the founder of Jiawen Group, Huls has a very legendary life!**

**Many people present have read biographies and interviews about him and regarded him as an idol!**

**Now, he actually appeared in front of him!**

Immediately after...

**Another shouted: “Li Jiawei, Chairman of Chase Group!”**

**“It’s Li Jiawei! I read his news yesterday!”**

**“That’s Henry Jack, the chairman of Nanguo Industrial Group!”**

**“Mexon, Chairman of Liwa Group!”**

...

**A burst of calls, one after another, made the entire lecture hall become very noisy.**

**Most of these people in the lecture theatre belong to the senior executives of major companies.**

**Everyone has seen a lot of big scenes, and already has the ability to not be surprised and deal with things without chaos.**

**But, at this time, all of them actually stood up, as if ordinary people saw an idol, their faces were flushed with excitement and their necks were thick.**

To know...

**Jiawen Group, United Group, Chase Group, Nanguo Industrial Group, Liwa Group... These are mostly giant companies in the world’s top 500.**

**And how many people came in the lecture hall?**

Hundreds of people!

Hundreds of chairman of various giant companies appeared in front of us together!

No wonder they were so excited.

In fact...

Not only the representatives of the companies who came to recruit were excited, Feng Weijian, the vice president of Jiangbei University, was also extremely excited.

As the head of a school, he needs to supplement all kinds of knowledge.

He often reads financial news and knows what companies such as Jiawen Group, United Group, and Chase Group represent.

If, the chairman of these companies sprinkle water at Jiangbei University.

That will also bring endless benefits to the entire Jiangbei University.

Chance!

This is a rare opportunity!

Feng Weijian thought of this and was ready to speak.

This is Ye Xian, who is walking in the forefront and full of flowers, is moving in the direction of Omi and said: "Hello, Mr. Lin."

Then, standing behind, the chairman of Jiawen Group Hulse, the chairman of Chase Group Li Jiawei, the chairman of Nanguo Industrial Group Henry Jack, etc., hundreds of chairman of the giant company, shouted respectfully in unison: "Lin Hello sir!"

Their voices are not so loud.

However, it was like a thunderstorm, and everyone's ears buzzed on the ground.

Everyone... all froze!

Hundreds of chairman of the Big Mac company, all take the initiative to say hello to one person?

Even, their tone of voice, it seems... seem to be some respectful?

this...

this...

Everyone couldn't believe their ears.

In other words, they feel that they are dreaming.

Everyone couldn't help but look towards where Omi was.

When they saw that it was a young man, they were even more surprised and shocked.

Omi was always incomparable, nodded and said, "Hello."

After all, he had already received a call from Ye Xiu before.

After a pause, Omi said again: "It's the graduation season soon. If your company has vacancies, please provide some jobs to our school graduates."

Helse, wearing black-rimmed glasses, spoke in some crappy Chinese language, and was the first to speak: "Our Jiawen Group can provide at least 1,000 jobs. If the salary is paid, the initial salary can be 1 million yuan."

Omi nodded and said, "Yes."

Praise it!

Mr. Lin actually praised himself!

Although it is just a simple word.

However, it made Hulse happy that he couldn't be himself.

However, Li Jiawei, Chairman of Chase Group, Henry Jack, Chairman of Nanguo Industrial Group, and others all showed a touch of jealousy at him.

However, their speed is not slow, they shouted one after another.

"The Chase Group can also provide at least 1,000 jobs with an annual salary of no less than 1 million!"

"Liwa Group can provide at least 1,000 jobs with an annual salary of no less than 1 million!"

"Nanguo Industrial Group can provide at least 1,000 jobs with an annual salary of no less than 1 million!"

...

The entire lecture hall became extremely noisy again.

These sounds seemed to produce huge sound waves, directly numbing the ears of everyone in the lecture hall, and even the whole body.

1,000 jobs, with an annual salary of no less than 1 million!

To know...

These are all giant companies.

Among them, many are companies that many people are looking forward to.

This can't help making some people feel the urge to ask questions: If I resign now, can I join?

Omi's expression was always the same. After everyone told about the recruitment situation of his company, he turned to Feng Weijian, "Vice President Feng, shouldn't these positions be enough?"

When Feng Weijian listened to the number of recruits and salaries given by the chairman of many giant companies, the whole person was dumbfounded and stupid.

At this time, when he heard Omi's question, he slowly recovered, and said excitedly: "Enough, enough, enough!"

joke!

Here are the chairmen of hundreds of giant companies.

Among them, the vast majority all say that they can recruit at least 1,000 people, with an annual salary of 1 million.

With an annual salary of 1 million yuan, naturally I have nothing to say!

This is an absolute high salary!

And most companies can recruit at least 1,000 people, but here are hundreds of chairman of the giant company.

In other words, they can provide at least 100,000 jobs!

What a terrifying number is this?

To know...

There are only less than 10,000 graduates of Jiangbei University every year.

Today, there are 100,000 jobs to choose from!

In the past, most of them were dozens or hundreds of graduates vying for a job.

Now, every student has 10 jobs, which can be chosen at will!

It's almost...it's almost...

Unimaginable!

Omi nodded and said, "If you look at it this way, this recruitment can be ended early."

Then, he said to Hu Tian: "Teacher Tiantian, let's go to the hotel and the chairman of these companies to implement specific jobs together, how about?"

Hu Tian looked at Omi with a pair of faintly shining beautiful eyes. UU Reading

Although, she also knows that Omi has solved many mathematical problems and invented many high-tech products. She is the largest shareholder of Dahua Group and Yadi Group.

Even, he has a good relationship with Mr. Qin Weiming and Mr. Zhang Jian.

However, Hu Tian never expected that there would be so many chairman of the giant company who would come to the school together and be so respectful to Omi.

At this moment, in Hu Tian's eyes, Omi's body was constantly getting taller and bigger, and it bloomed with an extremely dazzling light, which was so fascinating.

If there are not many others here.

Hu Tian couldn't help but want to fall into Omi's arms.

After a while, Hu Tian said softly: "Okay."

!

Omi nodded, and said to Ye Xiu and the chairman of hundreds of giant companies, "Let's go."

"Yes!" Ye Xiu and everyone respectfully said.

Then, they retreated to the sides one after another, like humble servants, deliberately giving way to their master.

This scene.....

Once again stunned everyone including the vice principal Feng Weijian.

Before, everyone had understood that the chairman of these giant companies came here because of Omi.

Even so, everyone did not expect that Omi would let hundreds of giant companies each offer 1,000 jobs with an annual salary of 1 million.

Now, the chairmen of these giant companies have stepped aside like slaves.

this.....

this.....

What is the identity of this young man?

However, Omi didn't walk forward immediately, but lightly glanced at Zheng Cong and Wang Haoran who were sitting not far away.

This glance made Zheng Cong and Wang Haoran's entire faces flushed.

In the beginning, Omi was with Hu Tian.

And just... he didn't call anyone else, only let Hu Tian go to the hotel with him.

In addition, Hu Tian looked at Omi's eyes with emotion all the time.

Zheng Cong and Wang Haoran understood that Omi and Hu Tian might have been together long ago.

And he even thought about Hu Tian just now.

Even, the position, salary and power that are still being advocated.

In front of a person who casually asked hundreds of giant company chairman to give a total of 100,000 people with an annual salary of 1 million people, advocating position, salary and power?

In front of a person who made hundreds of giant company chairmen give way like slaves, advocating for position, salary, and power?

This is simply...just a joke!

What a joke!

At this moment, Zheng Cong and Wang Haoran were both frightened and embarrassed, and they wanted to find a place to get in quickly.

If Omi is unhappy with himself and hooks his fingers, I am afraid that his life will be completely over.

However, Omi did not continue to pay attention to the two of them. Stepping and Hu Tian walked outside under everyone's gaze.

Ye Xiu... and hundreds of chairman of the giant company followed closely behind.

After they left, the entire lecture hall became empty again.

The expressions of the representatives of the various companies who had previously spoken on the stage were still dumbfounded and surprised.

Everyone was still shocked by the arrival of hundreds of chairman of giant companies such as Hulse, Chairman of Jiawen Group, Li Jiawei, Chairman of Chase Group, and their extremely respectful treatment of a young man.

Compared with the shock of the company representatives, the vice president Feng Weijian was full of joy.

His entire face was already grinning like a kneaded face towel, wrinkled.

He can imagine what a sensation will be when these million-dollar jobs are announced, and how much benefit will Jiangbei University bring.

Feng Weijian said happily: "Today's presentation and job fair is over. On behalf of all the teachers and students of Jiangbei University, I would like to thank you all for coming. I still have something to deal with, so I will go ahead."

After speaking, he was ready to walk outside.

Because he wanted to tell the principal of the good news earlier.

At this moment, someone couldn't help but said, "May I ask President Feng, who was that person just now?"

All the people present couldn't help but \*\*\*\* their ears.

Obviously, they are also very curious about this issue.

Feng Weijian said: "He is Professor Omi from Jiangbei University!"

Professor Omi!

"Boom!"

Everyone seemed to be hit by thunder and lightning, and their heads hummed.

In the whole world, there are many people named Omi.

However, Omi, who is only in his 20s and a professor at Jiangbei University.

Have!

And there is only one!

That is, the super genius who has solved several unsolved mathematics problems and invented earthquake predictors, super batteries, insulin rehabilitation medicines, super batteries, carbon-based lithography machines, prosthetics, etc., Omi!

Then, the crowd gradually showed a sense of sorrow.

No wonder, it's no wonder that the chairman of so many giant companies treats him so politely.

original.....

He is Omi!

Zheng Cong and Wang Haoran's entire faces became even more flushed.

.....

Omi, Hu Tian, Ye Xiu, as well as the chairman of hundreds of giant companies, soon came to the most luxurious hotel in Jiangbei, the Emperor Hotel.

Wang Fengyi, the chairman of the Imperial Hotel, has received news from the chairman of Jiawen Group Hulse, the chairman of Chase Group, Li Jiawei, and many others.

So, I waited at the door very early.

And when he saw Omi walking in the forefront, and all the big men following behind like servants, he was slightly stunned.

Omi said first: "Has the banquet hall been arranged?"

Only then did Wang Fengyi react and said hurriedly: "It's arranged, it's arranged, please..."

At the beginning, Omi bought the Emperor Hotel directly, and later, when he freely used hundreds of millions to hold a concert, Wang Fengyi knew that his boss, Omi, was definitely a big man.

It was only then that Wang Fengyi had a deeper understanding of Omi's identity.

Where can this be summed up in three words?

Haven't seen hundreds of big people, all following behind like little brothers?

Soon, Omi, Hu Tian, Ye Xiu and others arrived in the luxurious banquet hall on the 68th floor.

Although, there are hundreds of them in total.

However, sitting in this huge banquet hall with thousands of square meters still looks very spacious.

I have to say that the efficiency of the Emperor Hotel is really good.

It didn't take long for a piece of delicious food to be brought to the table.

Ye Xiuxian said loudly: "For many years, we have been worried about the development of Qinghongmen, but now we don't have to worry about it!"

"Because, we have ushered in the sect master of Qinghong Gate! Sect master, I respect you!"

His voice was extremely solemn, and after speaking, he held up a glass of liquor.

Immediately after...

Hulls, Chairman of Jiawen Group, Li Jiawei, Chairman of Chase Group, etc., hundreds of chairman of Big Mac companies raised their glasses together and said, "To the master!"

The voice is loud and powerful.

Everyone drank all the wine in the glass.

Omi said, "Thank you everyone!"

"However, I'm not good at... I don't like to formulate and develop anything. In addition, these young Hongmen are also developing well."

"So, what Qinghongmen did in the past, and what you do in the future is fine."

After speaking, Omi raised his glass and drank it in one go.

This meal...

Omi is undoubtedly the biggest protagonist, a giant chairman, stepping forward to toast Omi from time to time.

Regarding this, Omi did not refuse all those who came, toasting and drinking.

The atmosphere of the meal was very hot and everyone was very happy to eat.

In the afternoon, everyone sat chatting together, reporting their own situation, and handing out their business cards.

Today, Omi received a large pile of business cards.

Seeing that the sky was getting darker, the banquet finally came to an end.

Omi sent Hu Tian back home.

The two sat on the soft sofa, quiet and lonely.

Omi said: "Teacher Tiantian, do you have anything to ask me?"

After all, today the chairman of so many big companies came all at once, and he respectfully called himself the master of Qinghongmen.

Anyone should be very curious.

Omi is also willing to tell his woman some things.

However.....

Hu Tian did not ask.

Instead, he moved his head directly.

(\*)3(ε\*)

?(⇒?)

.....

Tireless, warm, soft and moist.

.....

While in the lecture hall, Hu Tian had already given birth to wanting to fall into Omi's arms.

This forbearance is a whole day.

Now, finally, only two of them are left.

She couldn't restrain it anymore.

As for the chairman of hundreds of large companies, and the Qing Hongmen, Hu Tian didn't care.

As long as it is Omi, that's fine.

.....

One night without sleep.

.....

In fact, today is more than Omi and Hu Tian sleepless?

meager.

[The five elements lack you: do you know? Jiawen Group will provide 1,000 new graduates of Jiangbei University with an annual salary of 1 million yuan this year! ]

[Su Yan Wu Xiang: The one upstairs is not awake, right? Yes! Jiawen Group is a Fortune 500 company and recruits many employees every year. Jiangbei University is indeed a key university in China with many talents.

However, it is absolutely impossible for Jiawen Group to provide 1,000 jobs with 1 million yuan to fresh graduates of Jiangbei University!

How many 1 million jobs does Jiawen Group have in total? Not to mention directly providing 1,000 fresh graduates of Jiangbei University! This is simply the biggest joke. ]

[Wake up like a dream: the biggest joke? I suggest you check the announcement made by Jiawen Group an hour ago. ]

[Werewolf Kill: Oh my God! It turned out to be true! The Jiawen Group really wants to provide 1,000 graduates of Jiangbei University with a job of 1 million yuan!

Moreover, it is not only Jiawen Group, Chase Group, Nanguo Industrial Group, Liwa Group, etc., these Fortune 500 companies have all issued announcements that they will recruit at least 1,000 people at Jiangbei University with an annual salary of 1 million yuan. Post! ]

[Why not eat minced meat: 1000, 1000, 1000... How many job opportunities can Jiangbei University graduates this year have? ]

[The best guardian you: crazy, crazy, must be crazy! ]

[There are comings and goings: This...what is going on? Why are so many big companies suddenly recruiting so many high-paid employees at Jiangbei University? ]

[Stay: I heard that it was Professor Omi. ]

[Disheartened: Yes, right! It must be the reason for Professor Omi! Apart from him, who can bring so many high-paying jobs to Jiangbei University? ]

[Lonely: Oh my God! You even call him Professor Omi, this is the God of Wealth Omi! ]

[Dou: Originally, I was still considering whether to apply for Huaqing University or Beijing University this year. Now, there is no need to think about it. I want to go to Jiangbei University! ]

[Dandan's sorrow: I also want to go to Jiangbei University! ]

[Gege: Me too! ]

.....

In a blink of an eye, it was the next day.

Although, I was tired all night yesterday.

However, Omi and Hu Tian did not show any tiredness on their faces this morning.

Perhaps it is the reason why I ate the best bird's nest, M9 beef, caviar egg tart, best abalone, truffle broth and other delicacies from the two-Michelin star restaurant early in the morning.

Omi and Hu Tian's faces were full of red light, with excellent complexions.

Then, the two came to Jiangbei University side by side.

A few days ago, due to the reason of about to graduate.

Some Jiangbei University students have a faint sad look on their faces.

Today, everyone's faces are full of smiles and excitement, full of vitality.

When Omi and Hu Tian came to a fork in the road, they separated and walked to their own offices.

“Meow!”

The cat Xiaobai, who was lying on Hao Zhiwu’s shoulder, jumped down quickly after seeing Omi and let out a very clear cry.

“Master, you are here.”

Omi stroked the head of the cat Xiaobai, then tore open a pack of fine beef cat food.

“Thank you Master, Master is so kind.”

Cat Xiaobai made a cheerful cry while eating.

Hao Zhiwu heard the noise and raised his head hurriedly.

Then, he came to Omi with a look of excitement, saying: “Professor Lin, Jiawen Group, Datong Group, Nanguo Industrial Group, Liwa Group and other companies, this year really want to provide us Jiangbei University with 1,000 1 million each. Is it an annual salary job?”

Liu Qianqian, Nie Zhenjiang, Jiang Chaoqun, Xia Bing and Xia Xueyan heard that they also raised their heads.

Liu Qianqian, Nie Zhenjiang and Jiang Chaoqun are all looking forward to these big companies and the annual salary of 1 million yuan.

Because, even if they were, they didn’t mean to enter as soon as they entered.

Not to mention, got an annual salary of 1 million.

And Xia Bing and Xia Xue are not at all because of work.

They just heard Omi’s voice.

The two quickly took out a bottle of Pulse from the backpack they had been holding in their arms, and handed it to Omi.

As usual, Omi took a sip of the two bottles of Pulsation, and then said, “Yes.”

Yes!

It turned out to be true!

Hao Zhiwu, Liu Qianqian, Nie Zhenjiang and Jiang Chaoqun all showed a touch of surprise and excitement.

Omi smiled and said, "Why, do you want to enter those companies? If you want to go, I just need to call and say."

Everyone shook their heads.

joke!

It is said on the Internet that the reason why these big companies suddenly provide so many high-paying jobs to Jiangbei University is entirely because of Omi.

And what Omi just said proved this point even more.

He is a student of Omi.

If you really go to those companies~ ~, isn't it picking up sesame seeds and losing watermelon?

What's more, they have indeed learned a lot and grown a lot after following Omi these days.

No matter from which way, it is the right choice to continue to be Omi's student.

Hao Zhiwu even righteously said: "How is that possible?! My ideal is to win the Nobel Prize in Biology, so I choose bioengineering! Only by following you continuously can I have a chance to achieve this!"

Omi said with a weird smile: "Really? How do I remember that a large part of the reason you chose bioengineering is to study the human body more, and then find a way to make a device that can consciously enter the game?"

Hao Zhiwu's face blushed slightly, he didn't expect Omi to remember these words.

He couldn't help coughing, "That's the reason, it's ideal, it's not conflicting."

"Really?" Omi smiled.

!

After a pause, Omi said again: "But following me may not necessarily win the Nobel Prize in Biology. After all, even I myself did not win the Nobel Prize."

Hao Zhiwu immediately said: "This has not yet reached the time for the Nobel Prize selection, otherwise, Professor Lin will definitely get the Nobel Prize, and there will be more than one!"

Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang and Jiang Chaoqun all nodded.

In the eyes of Xia Bing and Xia Xue...

Omi is an omnipotent existence, not to mention winning a few Nobel Prizes, which means that Omi can fly into the sky in the future.

They will also choose to believe without hesitation.

And Liu Qianqian, Nie Zhenjiang and Jiang Chaoqun are based on the affirmation of Omi's achievements.

after all.....

Omi invented earthquake predictors, super batteries, super batteries, carbon-based lithography machines, prostheses, insulin rehabilitation medicine...
