

# The Luckiest man in the world CHAPTER 491-495

Subscribe

However, now someone has answered the third question, and there are still two girls.

This made them feel more nervous.

...

Omi glanced at Hao Zhiwu, who was still a little dizzy, and said, "Go and find some books for me."

"Okay, Professor Lin." Hao Zhiwu directly responded.

In the past two days, he almost stayed in the dormitory to play game helmets.

At this time, it is indeed necessary to walk a little bit, the right to exercise.

After a while...

"Plasma Particle Simulation", "Handbook of Plasma Physical Constants and Formulas", "Thermonuclear Fusion Plasma Physics" and "Controlled Nuclear Fusion" five hundreds of pages of books were placed in front of Omi.

Without any hesitation, Omi flipped through it quickly.

"Wow!"

I only heard a very rapid sound of flipping books in the office.

One, two, three...

Soon, all five books were read by Omi.

Keep all the content in mind.

Then, Omi focused on the system task.

[Task: Build a nuclear fusion factory (01) over 10,000 acres, own a Totamak device (01), read "Plasma Particle Simulation", "Plasma Physical Constants and Formula Manual", "Thermal Fusion Plasma Physics, Controlled Nuclear Fusion (55). Reward the full version of the nuclear fusion device, as well as related knowledge such as principles and design drawings, physical level +1, and 1 platinum red envelope. ]

See here...

Omi slowly hooked the corner of his mouth, one-third of the task was completed.

...

In a blink of an eye, it was noon.

Just after Omi had lunch, his phone shook slightly.

12:00.

Red envelopes appear!

"Ding! Congratulations, you got 1 yuan."

"Ding! Congratulations, you got 19,999 yuan."

...

"Ding! Congratulations, you got 88 yuan."

"Ding! Congratulations, you have obtained 5% of Shoushu shares."

For today's red envelope, Omi received 47,899 yuan in total.

Omi naturally didn't care about this amount of money.

He directly focused his attention on 5% of Shoushu's shares.

Handwriting is the world's largest social software.

The market value is close to 7 trillion yuan, even surpassing China's Penguin Group and Ari Group!

5% of the shares, which is about 350 billion yuan.

For Omi, money is just a string of numbers.

However, after he saw the red envelope, the corner of his mouth still inevitably ticked slightly.

Because, after a long time of sign-in and red envelopes, I only get some useless money.

Now, something different has finally come.

This shows that your good fortune should have come.

“Jingle Bell!”

At this time, Omi’s cell phone rang a brisk ring.

It turned out to be a call from Feng Zhixiang, director of the Academy of Sciences.

“Professor Lin, good noon.” Feng Zhixiang said.

Omi, who has just acquired a 5% stake in Handwriting, is in a good mood.

So, he greeted him: “Hello, Director Feng.”

Feng Zhixiang knew that Omi didn’t like to whistle around and said directly: “Professor Lin, I have returned from the capital. Regarding what you said yesterday...the specific situation, I’ll talk to you in person. Where are you now? ”

After all, what he wanted to talk to Omi involved controlled nuclear fusion.

Anything with a nucleus is confidential, and it is absolutely forbidden to give others the opportunity to eavesdrop.

Omi also understands Feng Zhixiang’s thoughts.

Although, he didn’t think that in this world, who else could eavesdrop on his call.

Because he owns a super smart watch.

However, Omi still said, “Come on, then, I’m at Jiangbei University.”

“Okay.” Feng Zhixiang said.

Before long, Feng Zhixiang came to the door of the office.

He glanced at Hao Zhiwu, Xia Bing, Xia Xue, Nie Zhenjiang and others who were studying hard inside, and whispered: “Professor Lin, let’s go to the conference room and talk.”

Omi nodded.

After the two arrived in the meeting room...

Feng Zhixiang said: "Professor Lin, the capital has agreed to your request, and let us give you the greatest support, including the construction of a controllable nuclear fusion engineering team, machinery and equipment, land approval, loans, etc."

Omi said with satisfaction: "The engineering team, the machinery and equipment, the land approval... I have all paid normally, and the loan is no longer needed... I can still get the money."

Feng Zhixiang opened his mouth.

He wants to say that to build a controllable nuclear fusion factory, I am afraid it will take billions!

And what you built is a large-scale controllable nuclear fusion factory of 10,000 acres, at least tens of billions!

Is this still... this little money?

But, soon, Feng Zhixiang thought of the insulin rehabilitation medicine, super battery, super battery, carbon-based lithography machine invented by Omi...

These seem to have brought very terrible wealth to Omi.

Perhaps, tens of billions... to Omi, it's really nothing.

So Feng Zhixiang said, "Well then."

In fact, Feng Zhixiang was only half right.

Today's Omi does have a lot of money.

Not long ago, Ali Group, Penguin Group, Dahua Group, Yadi Group, Rice Group, Huazhidi, Sun's Medicine, Liu's Medicine... all gave Omi a large dividend.

Today's Omi, UU reading 's available liquidity alone is close to 100 billion.

This is definitely a very scary number!

After a pause, Feng Zhixiang said again: "Professor Lin, do you have any requirements for site selection?"

"The site is big! Best, not too far from Jiangbei University." Omi said.

After all, he is still a professor at Jiangbei University.

If it's too far, it's too much trouble.

Feng Zhixiang nodded clearly, and said: "In addition, what name are you going to name this factory? I can help you register the name."

name?

Omi really didn't think about it.

He pondered for a while before saying: "Just call it Pingfan Technology."

"Plain Technology?" Feng Zhixiang echoed, saying, "Okay."

No one knows that ordinary technology companies, which will resound all over the world in the future, are destined to be non-ordinary, born in a few words!

I have to say that Feng Zhixiang really has a very high efficiency.

The next day, Omi received a call from Feng Zhixiang, saying that he had already registered the company for him.

In addition, I also helped him find a few more lands that met the requirements, and wanted to let him go and have a look.

Omi asked Xia Bing, Xia Xue, Hao Zhiwu and others to read books in the office by themselves. When they encountered unanswered questions, they waited for him to come back and ask.

Then, he drove Cullinan and drove straight to the place Feng Zhixiang said.

In about 20 minutes, Omi arrived at his destination.

There are a few dilapidated old factories, a few low hills, and a few small lakes... the whole looks relatively desolate.

However, this is the establishment of a controllable nuclear fusion factory, not a financial center.

It's okay to be desolate.

At this time, a breeze blew across from a distance, making people feel refreshed.

Feng Zhixiang said: "This is the closest place to Jiangbei University, and the other is..."

However, before he could finish speaking, Omi said directly, "That's it."

For one thing, this place has mountains, water and pleasant air.

Secondly, it is the closest to Jiangbei University.

If you don't choose here, what should you choose?

Feng Zhixiang didn't expect Omi to choose this way.

To know...

He is going to spend tens of billions to build a controllable nuclear fusion factory!

Does it take 1 minute from when Omi arrives here to make a decision?

After a while, Feng Zhixiang squatted and said: "Okay...Okay."

"laugh!"

At this time, one, two, three...

Many SUVs drove over from a distance, and walked down from above. There were men and women wearing white helmets, red helmets, or white shirts.

Feng Zhixiang pointed to the middle-aged man who was in the forefront, about 50 years old, and said: "Professor Lin, this is the chief engineer of China Construction, Dai Lide, you can tell him directly about the design and requirements of the Pingfan Technology Factory."

Omi said, "Good job, Mr. Dai."

Dalide didn't dare to show the slightest contempt just because Omi was a young man.

On the contrary, he was very excited and respectful.

To know...

Omi is a well-known super genius in scientific research and academia.

Even Dai Lide has always regarded Omi as an example and an idol!

He hurriedly stretched out his hands, clasped Omi's right hand tightly, and said, "Hello Professor Lin!"

"Professor Lin, you can tell me all your requirements for the factory."

Omi nodded and said, "First, it must be large! The area must be more than 10,000 mu!"

After all, the reason why he built a factory with controllable nuclear fusion was because he wanted to complete the task.

“Second, the speed must be fast! You can hire more workers, and you can use more equipment such as engineering vehicles! Don’t worry about money, I will give you 20 billion in the early stage! I want to see the speed!”

If a task is delayed for three or five years and cannot be completed, it also loses its meaning.

“Third, we must ensure quality, especially safety!”

He didn’t want to make a tofu project.

Because, if the task is completed, Omi will have the technology of controllable nuclear fusion.

If the quality is worrying, it will produce terrible disasters.

Like a soldier, Dai Lide stood straight and said, “Professor Lin, please rest assured!”

So far, Pingfan Technology Factory is officially built!

...

Omi and Dai Lide discussed the specific details.

Then, returned to Jiangbei University.

“Tatata!”

At this time, there was a rush of footsteps outside the corridor.

Hu Chuan, dean of the School of Mathematics, walked in quickly.

There was a trace of sweat on his forehead, and he couldn’t help breathing heavily.

Obviously, he came directly.

Omi said, “Dean Hu, don’t be so anxious, sit down and take a break.”

After all, Hu Chuan is very old.

If one does not pay attention and fails to get over, then it will be troublesome.

Hu Chuan ignored so much and said excitedly: “Professor Lin, the International Mathematics Center just called, and they will present you with the Fields Medal at Barney in Faguo!”

“Wow!”

As soon as this statement came out, Xia Bing, Xia Xue, Hao Zhiwu, Nie Zhenjiang, Liu Qianqian, and Jiang Chaoqun all raised their heads and focused their eyes on Omi.

When Omi solved Zhou’s conjecture, twin prime conjecture, Hodge conjecture, hail conjecture, and Riemann conjecture.

They knew that Omi would definitely win the Fields Prize.

However, at this time, after really getting the news, there was still a touch of excitement that could not be concealed.

To know...

This is the Fields Prize known as the Nobel Prize in mathematics!

The highest award in the field of mathematics!

Compared to their excitement, Omi’s whole person seemed much more indifferent.

He took a sip of the spiritual tea, and said without any rush: “Okay, then I’ll go to Barney and get the Fields Award back.”

This is not how Omi is keen on this award.

As a result, Omi still has not completed the task of winning international awards.

The Fields Prize is obviously an international award.

Secondly, Omi learned that Barney owns a totamak device, which is a necessary device for the controllable nuclear fusion mission.

A trip to Barney, a project that can complete two tasks, is naturally cost-effective.

Hu Chuan repeatedly said, “I’ll go through the relevant procedures and prepare the ticket for you.”

Omi waved his hand and said, “You don’t need to prepare a ticket, I can just go there by myself.”

Hu Chuan said: “Okay.”

Then, he ran outside again in a rush.

Because Jiangbei University finally has a Fields Prize winner, this is a rare opportunity to announce (zhuang) to (bi).

You know... throughout Huaxia, even Beijing University and Huaqing University, there is not a single Fields Medal winner!

After Hu Chuan left, Xia Bing, Xia Xue, Hao Zhiwu, Nie Zhenjiang, Liu Qianqian, and Jiang Chaoqun shouted excitedly: "Professor Lin, congratulations!"

Omi said: "It's just one prize, UU reading , you guys work hard, and you can get it in the future."

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun and others couldn't help lowering their heads.

Can I get it later?

Although, they never think that they are worse than anyone else.

However, they never thought that one day they would get the Fields Prize.

Hao Zhiwu smiled and said, "Professor Lin, can you take us to the Fields Medal awards ceremony? We also have a long experience in advance, so that we are more motivated to win the Fields Medal."

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun and others couldn't help rolling their eyes.

Are you more motivated to win the Fields Award?

Can this be achieved by motivation?

However, there was a look of expectation on their faces.

Obviously, they are still very interested in going to the ceremony.

Omi glanced at the expectant people and smiled: "Okay, then you all go over together."

"Thank you Professor Lin!" everyone exclaimed excitedly.

Since the inception of the Fields Prize, a total of dozens of people have been awarded.

They never thought about winning.

In their opinion, being able to participate in the award ceremony is already a very rare thing.

A faint gleam of light flashed through the beautiful eyes of Xia Bing and Xia Xue.

However, they are not happy because they can go to the awards scene.

It's just because, in this way, you can have more time to stay with Omi.

.....

As Hu Chuan expected, Jiangbei University rarely has a Fields Medal winner. This is a rare opportunity for Zhuang to pass on (bi).

Almost as soon as he walked into the office, the cell phone in his pocket rang a brisk ring.

"Hu Chuan, I heard that Omi from Jiangbei University's School of Mathematics has won the Fields Prize. Congratulations..."

Hu Chuan said, "What is my joy? This is Omi's honor. Congratulations to him."

After a pause, he said: "However, Huaqing University and Beijing University have not yet received the Fields Prize. This seems to be the first Fields Prize for our Chinese nationals? I, and Jiangbei University, The academy, at best, is a little bit of light, yes, it's just a little bit of light..."

Although, I said something indifferent.

However, the smile on Hu Chuan's face seemed to say, yes! Congratulations!

.....

meager.

Almost at the same time Hu Chuan told Omi that he won the prize.

[Minzu Daily: Congratulations to Omi of Jiangbei University for winning the Fields Prize. ]

[Gun i: This is the first few times that the National Daily News congratulated Professor Lin? Professor Lin is awesome! ]

[Stone Man: The fewer words, the bigger the matter! ]

[Fireball: Fields Award! Damn it! ]

[The Unknown: So, what is the Fields Award? Do you have a big explanation? ]

[Man-eater: The Fields Medal seems to be a mathematics award. ]

[Wuying Feet: Isn't it just a Fields Award? It's not a Nobel Prize. Don't you have to be so excited, right? ]

[Madman: Don't be excited? People often say that the meager undergraduate rate is less than 3%. I have seen it.

Let me give you a brief introduction.

Mathematics, there is no Nobel Prize!

The Fields Prize is the highest award in mathematics, and at the same time, it is also called the Nobel Prize in mathematics!

In addition, Professor Lin is also the first person from China to win the Fields Prize! ]

[Mr. Mo: Lin Shen is awesome! ]

[Jiutian Yuanji: Lin Shen is awesome! ]

[Smiling silently: Lin Shen is awesome! ]

.....

Soon, Lin Shen Niubi four characters, was pushed to the top of the hot search.

For these, Omi didn't care.

In the next few days, as usual, the school, Panlong Villa, two points and one line.

Today, after eating breakfast, he drove Cullinan straight towards the airport.

Because today is the day to go to Bani, the country of origin.

When Omi arrived at the airport, Xia Bing, Xia Xue, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu and others were already here early.

"Hello Professor Lin."

"Good for you."

After greeted each other, under the leadership of Omi, everyone boarded the luxury plane of Xia Guo Airlines.

When Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu and others saw a large line of beautiful stewardess waiting in line to welcome the scene, they tasted the luxurious food on the luxury plane...

Everyone can't help but admire.

Liu Qianqian couldn't help but cast her gaze on the tall and handsome Omi.

He can play, he is handsome, he is knowledgeable... and he is so rich!

Simply, the perfect male god!

No wonder, no wonder... Even if Xia Bing and Xia Xue knew that Omi had a girlfriend, they didn't care.

At this time, Omi brought a plate of lobsters and placed them in front of Xia Bing and Xia Xue, and said, "This lobster tastes good, you can try it."

Xia Bing and Xia Xue were like children receiving honey rewards, and their entire pretty faces were filled with happy smiles.

See here...

Liu Qianqian couldn't help flashing a hint of envy.

Even Liu Qianqian didn't realize that from the initial strong opposition to the later acceptance, now, she actually has envy.

.....

When they arrived at Barney, the country of origin, the two Rolls-Royces were already waiting at the airport.

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu and others are enjoying the luxurious experience brought by Les Royce, while their eyes are constantly looking at the characteristic buildings outside the country, and they sigh from time to time.

Before long, they arrived at the Bani Shangri-La Hotel.

The Bani Shangri-La Hotel has a different style compared with the domestic Shangri-La.

Most of the country is dominated by modern style, but here is the characteristic European and American style.

Characteristic statues, castle-like exterior walls...

Under the leadership of the waiter, Omi, Nie Zhenjiang, Jiang Chaoqun, Hao Zhiwu, Liu Qianqian, Xia Bing, Xia Xue and others were taken to six luxurious presidential suites.

There are six sets because Xia Bing and Xia Xue want to live together.

When you open the curtains, you can see the tall Eiffel Tower and the spacious and green Xiangshe Lishe Avenue...

After putting away his luggage, Omi led everyone to the E-Michelin 2-star restaurant.

Everyone was eating juicy and plump foie gras, beautiful M9 beef, crispy and delicious dim sum...

After unloading the luggage and tasting the food...

Omi took everyone to the spa again.

Enjoying a soft massage for the whole body, everyone almost screamed comfortably.

Hao Zhiwu immediately admired: "After I go back, I will study harder!"

Jiang Chaoqun said: "Don't play the game helmet anymore?"

"What is a game? That's just a stumbling block that prevents me from learning!" Hao Zhiwu said seriously.

Nie Zhenjiang questioned: "Why do you suddenly have this idea?"

Hao Zhiwu said: "Because only by studying hard can you have more opportunities to enjoy everything you enjoy today!"

Omi, who was walking in the front, couldn't help showing a strange look on his face after hearing Hao Zhiwu's words.

Co-authored...

Taking him to eat and drink by myself~ ~ also aroused his idea of studying hard?

The sky gradually darkened.

Xia Bing and Xia Xue were sitting quietly on the sofa, their expressions a little nervous, their pretty faces blushing slightly.

Because Omi lives next door to them.

There is only one wall away from them!

the first time.....

This was the first time they were so close to Omi.

They slowly raised their heads and looked towards the wall.

Then, he lowered his head quickly.

That looks like...

It was as if he was peeking at Omi, but worried about being discovered.

“Ding Dong!”

At this time, in the presidential suites of Xia Bing and Xia Xue, a crisp doorbell suddenly rang.

The door bell was so scared that Xia Bing and Xia Xue raised their little heads, and hurriedly lowered their pretty faces even more blushing.

After a while, they slowly got up and walked towards the door.

“Crack!”

The door slowly opened, and a tall, handsome figure immediately appeared in the vision of the two of them.

He is Omi!

Six eyes look at each other.

Xia Bing and Xia Xue stayed for a while, two pairs of beautiful eyes, like gems, blooming with extremely brilliant light.

“call!”

“Suck!”

Maybe it was because of feeling the other party’s hot breathing.

next moment...

Xia Bing and Xia Xue’s pretty faces immediately turned red like ripe tomatoes.

They lowered their heads in a hurry.

“Boom boom boom!”

Their hearts are beating violently like a drum.

Omi looked at their cute appearances and couldn't help but smiled, “Can I come in?”

“Boom boom boom!”

Xia Bing and Xia Xue's heart beat more violently.

They seemed to have exhausted their strength, and then lightly moved their little heads that were almost buried in the valley.

“Tatata!”

Omi was not polite, and walked in directly.

Then, Xia Bing and Xia Xue hurriedly closed the door.

It was just when they closed the door that a beautiful figure appeared here.

It is Liu Qianqian.

Originally, Liu Qianqian wanted to talk to Xia Bing and Xia Xue.

After all, they are all girls, and they are all going abroad for the first time.

But when she was about to touch the doorbell with her finger, she paused slowly and muttered, “Did someone come here just now?”

She thought for a while, couldn't help but withdrew her hand, and returned to her room instead.

...

At this time, in the presidential suite.

Omi walked to the tall, translucent floor-to-ceiling windows, looked at the dazzling light in the distance, and said: “I heard the name of the Eiffel Tower a long time ago. It's not bad to look at the night scene.”

Xia Bing and Xia Xue looked out the window, and the two pairs of beautiful eyes seemed to be reflected by the light of the Eiffel Tower, and then they became extremely shining.

“call!”

At this time, a cool breeze swept across and a scent of flowers blew from afar.

“Snee!”

Xia Bing and Xia Xue couldn't help but sneezed.

Omiyan heard that, slowly closed the window, and turned to look at Xia Bing and Xia Xue.

Perhaps it was because of closing the windows that the air in the room suddenly became a little hot and stuffy.

Maybe, Omi's eyes are too hot...

The pretty faces of Xia Bing and Xia Xue gradually turned red.

Omi didn't disable the Eye of Reality, and glanced at the two of them.

[Face value: 95]

[Favorite degree: 99]

[Face value: 95]

[Favorite degree: 99]

“you...”

Xia Bing and Xia Xue seemed to have thought of something, and hurriedly took out a bottle of Pulse and handed it to Omi.

See here...

Omi smiled and said, “Where did you buy the pulse from?”

After all, this is Bani, not China.

Xia Bing and Xia Xue said in unison: “Outside...Outside...”

Omi couldn't help thinking that after eating earlier, the two of them hurried out once.

I'm afraid, it was the pulse of buying at that time.

Omi took two bottles of Pulse and took a sip of each.

See here...

There was a sweet smile on Xia Bing and Xia Xue's pretty faces.

Looking at their smiles, Omi couldn't help but remember what they had been waiting for on the basketball court every day in order to give themselves a pulse...

Recalling that they wanted to chat with themselves, but didn't dare to send messages, so they wrote down messages in the dialog box every day...

I thought that because of my recognition of them, they seemed to be happy as if they had eaten honey...

Omiqing couldn't help raising his arm, and lightly stroked Xia Bing and Xia Xue's hair, and slowly moved their heads towards their pretty faces like warm stones.

"laugh!"

In an instant, the fiery red on their pretty faces quickly spread to the base of their ears, neck, arms, legs...

Soon, Xia Bing and Xia Xue seemed to be roasted, and their bodies were completely red.

Then, he fell straight on the sofa.

Omi shouted, "Xia Bing, Xia Xue!"

However, no matter how he yelled, neither of them responded.

Omi hurriedly put his hands on Xia Bing and Xia Xuehaowan...

"Boom boom boom!"

I only heard that the pulses of the two were beating strongly and powerfully at a speed of several times per second.

The king of medicine, Sun Simiao, cured illnesses and saved people during his lifetime. He didn't have ten thousand, but eight thousand!

It can be said that he has very rich medical experience.

Omi gained Sun Simiao's experience, but after seeing Xia Bing and Xia Xue's pulse, he was still surprised.

He didn't hesitate at all. He directly spent 20 million yuan, exchanged 2 bottles of medical water from the system, and quickly poured it into their mouths.

"Guru!"

“Guru!”

After the medical treatment, the fiery red color on Xia Bing and Xia Xue’s body slowly faded, and the pulse gradually returned to normal.

See here...

Omi just breathed a sigh of relief.

In the past, patients would soon wake up after a bottle of medical treatment was underwater.

But this time, Xia Bing and Xia Xue showed no signs of opening their eyes.

Omi was going to take them to the bed to rest.

However, when she just picked up the nearest Xia Bing, her whole body turned red again.

Omi had to put her down in a hurry, and spent another 10 million yuan to exchange a bottle of medical water, which was poured into Xia Bing’s mouth.

Xia Bing’s body then returned to normal.

Omi understood that he could no longer hold them.

So he took out the quilt and put it on the two of them.

In order to prevent accidents, Omi did not leave, and sat on another soft sofa, playing with his mobile phone comfortably.

...

In a blink of an eye, it was the next day.

When a few birds flew horizontally from outside, Xia Bing and Xia Xue lying on the sofa shook their long eyelashes.

Immediately afterwards, the two slowly opened their eyes.

They looked at the spacious living room, and for a while, they were still a little at a loss.

However, when Xia Bing and Xia Xue set their eyes on Omi, they immediately recalled the scene of Omi bringing their heads together, and the whole pretty face blushed instantly.

Omi smiled and said, “Wake up?”

Last night, Omi did not sleep.

However, relying on his far superior physique, he was not affected at all, and the whole person was still full of energy.

Xia Bing and Xia Xue busily buried their heads in the valley, nodded vigorously, and whispered: "Yeah."

Omi looked at their shy appearance...

He understands that if he stays here all the time, I'm afraid they will never be able to comply.

So he smiled and said, "Then you go wash first, and later, go downstairs to have breakfast together."

After speaking, he walked outside.

"Crack!"

As soon as Omi opened the door, a beautiful shadow happened to appear at the door.

It is Liu Qianqian.

Then, she thought of last night, vaguely as if she saw Omi walk into Xia Bing and Xia Xue's room.

Could it be... Omi stayed with Xia Bing and Xia Xue all night?

Suddenly, pictures unsuitable for children appeared in Liu Qianqian's mind.

A red glow appeared on her pretty face.

After that, Liu Qianqian didn't say hello to Omi, and ran towards her room as if she had fled.

Omi looked at her going back, couldn't help closing her mouth to say hello, and then murmured, "What's wrong?"

Of course, Omi didn't care too much.

He shrugged and returned to his presidential suite. After taking a refreshing bath, he slowly opened the door.

At this time, Xia Bing, Xia Xue, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun and Hao Zhiwu were standing in the corridor.

As usual, Nie Zhenjiang, Jiang Chaoqun, and Hao Zhiwu exclaimed: "Good morning, Professor Lin."

Among them, Hao Zhiwu has the loudest and most excited voice.

After all, this was his first night abroad!

Especially... I still stayed in the Presidential Suite of Shangri-La Hotel and experienced an unprecedented enjoyment.

But Xia Bing and Xia Xue, blushing with pretty faces, buried their little heads in the valley under their necks, and whispered, "Good morning Professor Lin."

Liu Qianqian's voice was also very small, with a touch of blush on her face.

However, her psychology is different from Xia Bing and Xia Xue, and she has a feeling of trying to hide it.

Regarding this...

Omi didn't care, nodded and said, "Good morning, let's have breakfast together."

The breakfast at Bani Shangri-La Hotel is also very rich.

Exquisite pastries, mellow 5 beef, natural corn, sweet potatoes, seafood noodles, ham, fragrant bread, toast...

Everyone was very satisfied.

The Fields Award ceremony will be officially held tomorrow.

Today, it can be regarded as time for everyone to play Faguo Barney.

Omi glanced at Hao Zhiwu, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun and others who had just walked out of Shangri-La Hotel.

It looks like a kid who learns to walk, full of curiosity about everything that is unfamiliar.

However, there is some worry that Omi, the parent, will be blamed.

Therefore, I had to suppress the curiosity in my heart and silently follow Omi.

Omi smiled and said, "You don't have to follow me all the time, just go shopping by yourself, of course, don't get lost."

Although, Omi had said long ago that he could treat himself as a peer outside.

In fact, it is true.

But how could they really treat Omi as a peer?

After all, Omi is their teacher, and even a genius professor who resounds throughout the world!

Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu and others all showed a touch of joy when they heard and said, "Okay."

Then, everyone turned into a bird and walked away.

Omi shook his head, and walked casually in this strange city.

I have to say that Barney deserves to be an international metropolis.

Perhaps, the appearance of the city is similar to that of Jiangbei.

However, when in Jiangbei, luxury brands such as lv, i, Chanel, Cartier, Versace, etc. were only available in some high-end shopping malls.

But in the streets of Barney, these luxury brand stores are everywhere.

Omi looked at the characteristic buildings of Barney for a while, and after walking on the winding sidewalk for a while, his eyes fell on the luxury shops.

He murmured: "It's okay anyway, just buy something, it's a souvenir for the students to come to Barney."

While talking, he walked straight into the nearest store.

## The Luckiest man in the world CHAPTER 496–500

Subscribe

Compared with Omi's indifferent forward, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun, Hao Zhiwu and others are constantly looking around and exclaiming from time to time.

"Wow! Look, it's so beautiful there!"

"Come on, take a picture of me."

"I want to take pictures too!"

Several people walked all the way, taking pictures all the way.

Before long, I saw a long line of luxury shops.

"Lv, i, Versace... many luxury shops!"

"Come on for a close-up!"

.....

"Tatata!"

At this time, there was a dull sound of footsteps not far away.

A slightly pungent smell drifted over.

"Liu Qianqian?!" A woman stepping on her pinky thumb and high heels, holding a middle-aged man on her arm, shouted in a slightly harsh voice.

When Liu Qianqian heard this, she slowly turned her body, a little uncertain and said: "Are you... Wan Fei?"

"Heh, it's me!" Wan Fei said with a smile on his face, "Unexpectedly, we could meet here! Calculating the time, we haven't seen each other in five or six years after our first grade division, right?"

"Yes." Liu Qianqian also said happily.

Although, in high school, the relationship between Liu Qianqian and Wan Fei was not very good.

But, after all, it is also a classmate.

Meeting classmates in a foreign country is generally a rare thing.

Wan Fei said: "By the way, didn't you hear that you went to study at Shako University? Why did you come to Fuguo Barney?"

Liu Qianqian said: "I am studying at Jiangbei University. Our teacher will accept the award, and my classmates and I will follow along to play."

Speaking of the professor, Liu Qianqian's face showed a complex look of admiration, yearning, and helplessness.

Then she introduced: "By the way, these are my classmates Xia Bing, Xia Xue, Nie Zhenjiang, Jiang Chaoqun and Hao Zhiwu."

Hao Zhiwu and others took the initiative to say: "Hello, we are Liu Qianqian's classmates."

Wan Fei nodded casually and said, "So you are all students of Jiangbei University. No wonder you look so knowledgeable."

"Especially your teacher~ ~ can come to the country to accept the award. It must be amazing."

Xia Bing, Xia Xue, Nie Zhenjiang, Liu Qianqian, Jiang Chaoqun and Hao Zhiwu all nodded.

Obviously, they all agree with this sentence very much.

Omi, it's really amazing!

Wan Fei said again: "By the way, why are you all standing on the road? Let's go to the store to have a look and buy something."

"When I was studying in the past, I always felt like these i, lv and so on, they are all very expensive! Only now I know that they are not expensive at all!"

"Like my husband just bought me this Chanel bracelet, it only cost 50,000 yuan, and this lv bag, only used 80,000 yuan...very cheap!"

While talking, she also deliberately raised the bracelet on her wrist and the bag slung on her shoulder.

Then, continue: "Go, let's go in and buy some things together, it's cheaper anyway."

After speaking, there was an imperceptible contempt on her face.

A bracelet?

Then, do you want to buy it together?

Where do you have so much money?

Liu Qianqian just wanted to talk.

Wan Fei was the first to say: "You are all students from prestigious universities, and you will definitely have a high salary in the future. Even if you don't buy it now, you can check it out first, and buy it later!"

"It's a rare occasion to visit Barney, it's a pity not to stroll around."

“Like your teacher, the salary must be very high! He is not with you, maybe he just went to the luxury store, and maybe he will buy you some luxury gifts... chuck.”

At the end of her speech, the whole person trembled with a smile.

What prestigious university students will have high salaries in the future?

Wan Fei did have such thoughts when he was studying before.

But after graduating and entering society...

This kind of thinking has long been left behind by her.

See you, I don't know how many famous college students have a salary of only 10,000 yuan?

Even her husband's company recruited several thousand yuan a month for college students.

Today's college students are completely worthless.

As for saying that their teachers have high salaries, go to luxury stores, or even buy luxury gifts for them... it's totally ridiculous.

Because Wan Fei also has a certain understanding of the salary of university teachers, which is only 20,000 to 30,000 yuan a month.

With such a small salary, where can buy luxury goods?

Not to mention buying luxury gifts!

Wan Fei said so much, and wanted Liu Qianqian and others to go to the luxury store, just to show off.

When she was in school, Liu Qianqian relied on her excellent grades and beautiful appearance to become a goddess above her head.

Now, Wan Fei wants to let Liu Qianqian know that good grades are of no use at all, and beauty is useless at all... Finally, nothing compares to herself!

She wants to enjoy the pleasure of stepping Liu Qianqian under her feet, she wants to see Liu Qianqian's look up to her.

.....

Wan Fei's words, in the ears of Liu Qianqian and others, is another feeling.

They nodded one after another.

The teacher's salary is high?

That's a must!

In the past two days, I took a luxury plane first and then a Rolls-Royce motorcade.

Then, stay in the Presidential Suite of Shangri-La Hotel...

These... all verify this.

In addition, just visiting luxury stores, it really seems to be nothing.

Wan Fei didn't pay much attention to Liu Qianqian's thoughts, and directly took her hand and walked towards the Cartier store in front of him.

"Welcome, Cartier!" The graceful white-skinned waiter at the door said in fluent English, "Is there anything you need?"

Wan Fei used a little broken English and said, "Can you speak Chinese?"

"Of course you can." The white-skinned waiter followed in some crappy Huaxia language.

With China's growing prosperity, and the recent period of time, Omi has made great achievements in mathematics, chemistry, biology, physics, etc., making Huaxia Voice has become one of the must-haves for service personnel in many international metropolises. one.

Wan Fei said: "I need a necklace."

The white-skinned waiter took a look at Wan Fei's clothes, and saw that her clothes were mostly low-end brands.

Although the bracelet is Chanel, the bag is LV.

However, it is only the lowest-end products of Chanel and LV.

The white-skinned waiter immediately understood Wan Fei's financial strength.

So, take her to the low-end area.

I have to say that the white-skinned waiter really has good eyesight.

The white-skinned waiter took out a necklace and said: "The body of this necklace is made of platinum with 10 diamonds inlaid on it, which is very beautiful."

"10 diamonds! Oh, great!" Wan Fei said, "how much is it?"

The white-skinned waiter said: "6122 Euros."

Wan Fei immediately admired: "More than 6000 euros, which is only more than 40,000 yuan in Chinese currency, so beautiful and so cheap... I bought it!"

Then, she rubbed the middle-aged man next to him, and said, "Husband, you can put it on for me quickly."

"Okay." The middle-aged man was in pain, but he still replied.

After Wan Fei put on the necklace, she felt that her whole person was sublimated, as if she had become a princess or queen, very noble.

She smiled and said, "Liu Qianqian, you are going to buy things too! This is Cartier's diamond necklace, and there are 10 diamonds! Only more than 40,000 Chinese coins. If it is in China, it might be 100,000 yuan.!"

"We buy more now, that is more profit, buy it soon!"

As she said, she also put on a Cartier necklace, Chanel bracelet and LV bag...

Wan Fei wants to see Liu Qianqian's envious eyes, look up!

Liu Qianqian was just about to speak...

"Tatata!"

At this time, there was a burst of brisk footsteps outside.

A tall, handsome man strolled in.

He...is exactly Omi.

The blonde waiter standing at the door just glanced at Omi for a while, and then respectfully said in fluent English: "Welcome."

Because, the blonde waiter saw that Omi was holding several Vacheron Constantin watch boxes.

To know.....

Vacheron Constantin is a top luxury watch, just one piece can cost tens of thousands of euros!

What's more, from the appearance of Omiti's watch box, it is not a low-end Vacheron Constantin, but a high-end product with a price of more than 100,000 Euros!

Big customer!

This is definitely a rare big customer!

Omi nodded to the blonde waiter, and said hello.

When he saw Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang and others, he was slightly taken aback and smiled: "Why are you here?"

Hao Zhiwu exclaimed excitedly: "Professor Lin!"

Xia Bing and Xia Xue said shyly, "Professor Lin."

Wan Fei, who was still going to show off on the side, looked at Omi suspiciously, and said, "Liu Qianqian, is that your acquaintance?"

Liu Qianqian explained: "He is our teacher."

"Teacher? So young?" Wan Fei asked in surprise.

After all, most university teachers are middle-aged and elderly people over the age of 40 or 50.

How old is Omi?

Only in his twenties.

Omi ignored her surprise and said, "It's a rare visit abroad. I bought some small gifts for you, Nie Zhenjiang, Jiang Chaoqun, and Hao Zhiwu. These are for the three of you. See if you like it or not. "

While talking, he directly handed out three Vacheron Constantin watch boxes.

"Gift? Thank you Professor!" Hao Zhiwu said excitedly.

Then, he hurriedly opened the box and took out a watch with exquisite workmanship, which looked very calm and fashionable.

Hao Zhiwu fell in love with it just at a glance.

He admired from the bottom of his heart: "What a cool watch!"

The blonde waiter next to him gave a slight heartbeat.

Vacheron Constantin spreads TP! The market price is 150,000 euros!

Give away a 150,000 euro watch at hand!

Sure enough, this is an amazing big customer!

“What a great watch!”

At this time, Jiang Chaoqun also opened the watch box, revealing a low-key, luxurious watch.

The blonde waiter followed the voice, and his heart jumped again.

Vacheron Constantin 5370P! The market price is 150,000 euros!

Another 150,000 watch!

“What a beautiful watch!” Nie Zhenjiang took out his watch and exclaimed.

The blonde waiter followed, his heart beating faster again.

Vacheron Constantin Lange 760! The market price is 150,000 euros!

Give away a 150,000 euro watch at will, it is a major customer.

How about giving out 3 watches worth 150,000 euros?

God-level customer!

This is definitely a god-level customer that is rare to meet once a year!

The blonde waiter couldn't help bending his waist down a bit lower.

The white-skinned waiter not far away also bent down.

This... is all respect for god-level customers.

Wan Fei only knows what LV, Chanel...

However, for Vacheron Constantin watches, they don't know much.

She sneered: “Let me just say it, your teacher will definitely buy you gifts, a few watches, they look pretty good, should they be worth tens of hundreds of euros?”

The white-skinned waiter and the blonde waiter heard the words, and they all swept over with sharp eyes.

Dozens or hundreds of euros?

Is this taunting a god-level customer?

If so, the god-level customers are not happy.

Even if you turn around and leave your store, what should you do?

To know.....

Cartier stores have performance requirements.

Only when individuals and shops reach a certain performance can they get corresponding commissions.

And this kind of god-level customer can undoubtedly bring a lot of performance to himself and the store.

The middle-aged man hurriedly scolded Wan Fei in a low voice, saying: "Don't talk nonsense, that's Vacheron Constantin's watch!"

Obviously, he still has a certain understanding of watches.

He understands that the opponent will give three pieces of Vacheron Constantin, which must have good strength.

Never offend easily.

Seeing Wan Fei, the middle-aged man was still a little confused. He said again: "Vacheron Constantin's cheapest watch is worth tens of thousands, hundreds of thousands of Chinese coins!"

"What?" Wan Fei asked in surprise.

The cheapest watch is tens of thousands, hundreds of thousands of Chinese coins?

Three bucks were given out directly...

this.....

However, when Wan Fei saw the LV bag on her waist, the Chanel bracelet on her wrist, and the Cartier necklace on her neck...slowly came over again.

Isn't it just three Vacheron Constantin watches?

Must be the cheapest!

My bags, bracelets, necklaces...not all tens of thousands of Chinese coins!

Omi didn't pay attention to Wan Fei's thoughts at all. He continued: "Xia Bing, Xia Xue, Liu Qianqian, buy your gifts in Cartier. Do you see anything you like?"

Xia Bing and Xia Xue always buried their little heads in their valleys.

Liu Qianqian shook her head gently.

She had just learned the price of Cartier from Wan Fei, and she didn't dare to like the things here.

It's too expensive!

Omi turned to the blonde waiter and said, "Any suggestions?"

The blonde waiter hurriedly used Chinese language and said: "Dear guest, please here."

She took Omi directly to the high-end area.

Then, he took out a necklace.

The long chain, inlaid with dense diamonds, shines like a galaxy under the light, with dazzling light, plus the heart-shaped diamond pendant, vaguely forming a heart-shaped galaxy picture, very beautiful.

At a glance...

With just a glance, Liu Qianqian was a little dumbfounded.

beautiful!

It's so beautiful!

The blonde waiter introduced: "This necklace is called the Heart of the Galaxy. It is made by the famous designer of the country, Brewer Cohens. The necklace is composed of 100 diamonds of 10 decibels and 2 carats of heart-shaped diamonds..."

"The whole is like a galaxy flowing, and the heart river is shining, symbolizing beautiful love..."

"The heart of the galaxy is priced at 182,000 euros."

Originally, Liu Qianqian, who was intoxicated by the heart of the galaxy, woke up directly after hearing the price.

182,000 euros, which is close to 1.3 million yuan when converted into Chinese currency!

One necklace and one suite!

Simply terrible!

Not only Liu Qianqian, but Hao Zhiwu, Nie Zhenjiang, and Jiang Chaoqun were all taken aback by the price.

Even Wan Fei, who has always displayed LV bags and Chanel bracelets, has a sudden heartbeat.

Omi did not respond.

He easily noticed that Liu Qianqian liked the Heart of the Galaxy very much, and nodded slightly.

Then, he pointed to Xia Bing and Xia Xue, and said, "Do they have any recommendations?"

The blonde waiter followed what Omi pointed out, and first exclaimed sincerely: "What a beautiful twin beauties."

After thinking a little, she took out two bracelets from the cabinet.

The main body is made of sapphire, pure and natural.

The main body of a strip is made of ruby, which is hot and bright.

The two styles are the same, the colors are different, just like compatriots and sisters, each has its own characteristics.

The blonde waiter introduced: "The two bracelets are called Blue Demon. One is composed of 19 small natural sapphires and 1 large natural sapphire, and the other is composed of 19 natural rubies and 1 large natural ruby. All gems are Without any carving or modification, it is the most beautiful gift of nature!"

"The Blue Enchantress was discovered by the American scientific expedition team, and later manufactured by Maitreya, the master of Swiss design."

"The blue enchantress flower symbolizes pure and innocent love. This is exactly the same as the bracelet, and even the bracelet has a touch of unique beauty than the flower!"

"Before, I always thought that Blue Enchantress should be sold to a certain customer, so that she would have different charms under different clothes!"

"Now, I think...Perhaps, the blue enchantress was born for these two beauties."

I don't know, it's because of what the blonde waiter said.

It's because Xia Bing and Xia Xue really like bracelets.

They looked at the beautiful eyes of the bracelet, and there was a faint light flashing.

Obviously, they are very interested in the blue enchantress.

See here...

Omi nodded slightly ~ ~ At this time, the blonde waiter said: "Because these gems are very rare, and they are made by Master Maitreya, these two bracelets are more expensive. Each piece is priced at 390,000 euros."

"hiss!"

When everyone heard it, they all took a sigh of relief!

390,000 euros!

If it were exchanged for Chinese currency, that would be 2.8 million yuan!

Two, 5.6 million yuan!

This is definitely a very scary number!

As for Omi's expression, there was still no change.

He nodded again and said, "Okay, then this necklace and these two bracelets."

Omi's voice was so relaxed and plain.

It looked like it was just talking about the trivial matter of buying two packs of tissues, without paying any attention.

Omi's tone was plain and relaxed.

However, the ears of Liu Qianqian, Nie Zhenjiang, Jiang Chaoqun, Hao Zhiwu, who were shocked, hummed.

"Okay, then this necklace and these two bracelets."

Is this going to buy the Heart of the Galaxy, which is priced at 182,000 euros, and the Blue Demon, which is priced at 390,000 euros each?

These are 962,000 euros in total, which is close to 7 million yuan when converted into Chinese currency!

The blonde waiter was also slightly stunned.

It's... so fast!

It has been less than 3 minutes since Omi walked into Cartier's shop.

In 3 minutes, I just gave a brief introduction.

He just decided to buy?

The blonde waiter has also received many big customers, but no customer has ever made a decision so quickly.

After all, this involves nearly one million euros!

Wan Fei was the first to react and sneered: "Liu Qianqian, your teacher must be very funny in class, right?"

"It's a joke so casually."

Obviously, she felt that Omi had no idea of buying the Heart of the Galaxy and the Blue Enchantress at all.

Just kidding.

After all, the total value of these three pieces of jewelry is close to 7 million yuan.

In a few words, you have to buy 7 million yuan worth of jewelry and give it to your own students?

How can this be!

After Wan Fei spoke, he finally brought everyone's thoughts back to reality.

The blonde waiter excitedly said, "Okay, I'll wrap it up for you!"

Omi waved his hand and said, "You don't need to wrap it up, just put it on them."

Liu Qianqian hurriedly said, "Professor Lin, this... too expensive."

Obviously, she didn't care about Wan Fei's joking at all.

Omi said: "Everyone is a gift, just a little gadget."

The blonde waiter hurriedly took the Galaxy Heart in front of Liu Qianqian and put it on her neck.

"This beautiful lady, your skin and figure are very good, and it fits well with the heart of the galaxy! It is perfect to wear on your body!"

She understands that as long as Liu Qianqian agrees.

Then, this performance of nearly one million euros belongs to oneself!

Liu Qianqian wanted to refuse.

However, she looked at the heart of the Milky Way that was worn on her neck like a starlight, but she couldn't speak for a while.

The blonde waiter hurriedly put the blue enchantress on the wrists of Xia Bing and Xia Xue.

She admired again: "The blue enchantress, inseparable, is really beautiful!"

Omi said directly: "Swipe your card."

While speaking, he directly handed out a bank card.

The blonde waiter excitedly said, "Okay, sir."

"drop!"

After a soft sound...

The bill appears and the card swipe is successful!

Nearly one million euros!

Nearly 7 million Chinese coins!

The transaction is successful!

Suddenly, there were 680 red envelopes on Omi's phone.

.....

Until this time, Wan Fei was truly sure that Omi hadn't made a joke just now.

He is really buying Cartier jewelry and giving it to his students!

.....

Omi looked at Xia Bing and Xia Xue, and said, "Do you like it?"

Xia Bing and Xia Xue nodded vigorously and said, "Hmm!"

Even if Omi sent a piece of paper, they would like it very much.

What's more, they do think the bracelet is very beautiful.

Omi smiled and said, "Just like it, okay, you can go shopping again."

After speaking, he walked outside.

It wasn't until Omi completely disappeared from her vision that Liu Qianqian withdrew her gaze.

Then he said to Wan Fei: "Wan Fei, you really didn't make a mistake, the teacher really bought us gifts."

While speaking, Liu Qianqian gently stroked the 2-carat heart-shaped diamond in the heart of the galaxy.

Wan Fei said very unnaturally: "Yes...Yes."

Wan Fei previously deliberately kept boasting about her necklaces, bracelets and LV bags, but just wanted to step on Liu Qianqian's feet and make Liu Qianqian look up to herself.

In order to achieve the goal, she also said that Liu Qianqian's teacher would prepare luxury gifts.

The results of it?

As a result, Liu Qianqian's teacher was really prepared!

Moreover, a single piece of high-end gifts worth more than one million yuan was prepared!

When Wan Fei lifted her head, she happened to see the heart of the galaxy necklace on Liu Qianqian's neck.

Then, she quietly hid her Cartier necklace, Chanel bracelet, and LV bag behind her back.

After all, ten of these things on one's body can't be compared with one of others, which is too embarrassing!

"Fuck! My watch turned out to be Vacheron Constantin's TP, and the domestic price is 1.5 million yuan!" Hao Zhiwu shouted.

Then he said again, "I'll check it for you!"

Soon, Hao Zhiwu yelled again.

“Jiang Chaoqun, your watch is Vacheron Constantin 5370P, the domestic price is 1.58 million yuan!”

“Nie Zhenjiang, your watch is Vacheron Constantin Lange 760, the domestic price is 1.81 million yuan!”

With a series of shouts, everyone opened their mouths in shock.

Originally, Jiang Chaoqun and Nie Zhenjiang just casually held watches with one hand.

At this moment, he couldn't help holding the watch tightly in his arms.

And Wan Fei, who was standing next to him, couldn't wait to find a seam to get in.

I just said that these watches should be worth dozens or hundreds of dollars.

As a result, it needs more than 1 million!

“Fuck!”

Wan Fei only felt like she had been slapped a few times with her entire face.

pain!

It hurts forever!

.....

Omi didn't know this at all.

He continued to shop for a while at Chanel, Prada, Hermes and other shops, and helped Hu Tian, Qin Yuxuan, Han Tian, Chu Yunyue and others buy some gifts. After sharing almost 50 million yuan, he returned to Shangri-La Hotel.

Omi sat on the soft sofa in the presidential suite, took out his mobile phone and swiped it casually.

Soon, he will focus on 6010 red envelopes.

These red envelopes are the red envelopes obtained after shopping today.

Omi murmured: “More than six thousand red envelopes, let's see what you can get.”

"Do you open all red envelopes?"

"Yes!"

"Ding! Congratulations, you got 5 yuan."

"Ding! Congratulations, you got 1999 yuan."

.....

"Ding! Congratulations, you have obtained 51% of the shares of Shangri-La Group."

"Ding! Congratulations, you got 99 yuan."

.....

"Ding! Congratulations, get 2 yuan."

"Ding! Congratulations, you have obtained 51% of the shares of Michelin Group."

.....

"Ding! Congratulations, get a 1 yuan crit card."

"Ding! Congratulations, you got 88 yuan."

.....

For 6010 red envelopes, Omi received a total of 210,401 yuan, which he directly chose to ignore.

Omi has used the 1 yuan crit card several times. For 1 yuan, he can get 100 million yuan immediately, which is not bad.

Michelin Group 51% shares, Michelin Group's main business is tires, its market value is about 140 billion yuan!

51% of the shares, which is 70 billion yuan!

Regarding money... Omi didn't care anymore.

The important thing is that the Michelin Group is not only famous for tires, but also for its Michelin restaurants.

Every Michelin restaurant, no matter the environment or taste, is very good, and it is one of Omi's favorite restaurants.

Now, is it yours? !

.....

Finally, Omi turned his attention to 51% of the shares of Shangri-La Group.

The market value of Shangri-La Group is about 30 billion yuan, and 51% of the shares are about 15 billion yuan.

Besides, isn't the place where I live now is the Shangri-La Hotel?

So, after staying for two days, have you taken the hotel to yourself?

Omi couldn't help touching his nose, a slight smile appeared on his face.

.....

In a blink of an eye, it was the next day.

Today, Xia Bing, Xia Xue, Liu Qianqian, Nie Zhenjiang, Hao Zhiwu, Jiang Chaoqun and others all got up early.

Because.....

Today is the day when his teacher Omi won the Fields Prize!

After they washed, they were all full of energy and excited, and waited in front of the gate of President Omi's set of doors.

After a while, Omi finally slowly opened the door.

"Professor Lin, good morning." Everyone said in unison.

Omi nodded and said, "Good morning."

Then, we went to the restaurant together and had a hearty breakfast.

Then, everyone took the elevator to the lobby on the first floor.

It was also at this time that a large group of men and women in suits and shoes came over quickly.

It is not surprising that there are people in suits and shoes at Shangri-La Hotel.

After all, this is one of the top hotels in Faguo Barney.

Hao Zhiwu, Jiang Chaoqun and others thought they were just ordinary guests just like themselves.

So, I didn't care too much.

However, this group of people in suits stopped in front of Omi.

Then, they said in unison: "Hello, Mr. Lin!"

Their voices are not too loud.

However, after gathering together, there was still a lot of volume, which attracted the attention of everyone in the hall.

Standing in the front, the middle-aged man wearing gold glasses respectfully said: "Mr. Lin, I am Li Hui, the chairman of Shangri-La Group."

"Thank you very much for your trust in our Shangri-La Group. I will definitely work hard with all the staff... Make Shangri-La Group better and better..."

"Mr. Lin, do you know if you are free? I would like to report to you on the future development plan of Shangri-La Group and the financial situation over the years."

Shangri-La Group was founded by Li Hui.

Yesterday, when he learned that the Shangri-La Group had suddenly acquired 51% of its shares, he felt like he was struck by lightning.

After all, the Shangri-La Group is his life's hard work.

Now, it has become the property of others.

This made him feel self-doubt.

He wondered whether it was right or wrong to raise funds and go public in recent years for expansion.

However, I have to say that Li Hui really has a good receptive ability.

After a sigh, he quickly accepted reality again.

Therefore, he took the early morning flight and rushed to Fuguo Barney overnight, wanting to see Omi, the new boss of Shangri-La Group, at the first time.

He wants to use the utmost sincerity to obtain Omi's favor and friendship as soon as possible, so that the Shangri-La Group can continue to move forward.

After hearing Li Hui's words, Omi directly waved his hand and said, "I won't bother or interfere with the specific matters of Shangri-La Group. You can plan the development by yourself. I can only get dividends based on the shares."

“So, you don’t need to report to me.”

Even though, Li Hui has already experienced countless winds and waves.

It has long since reached the point of not being happy with things and not being sad with oneself.

However, after hearing Omi’s words, his face still showed excitement that could not be concealed.

But ask, do not interfere with the specific matters of Shangri-La Group!

Take dividends only!

Isn’t this... the same as the previous tradable stocks?

The route of Shangri-La Group will not be deviated!

After a while, Li Hui tried his best to suppress his excitement and said, “Yes, Mr. Lin!”

Omi nodded and said, “Well, let’s do this first. I have something to do later, so I will leave first.”

After speaking, he strode forward.

Li Hui was busy facing Omi’s back and respectfully said: “Goodbye, Mr. Lin.”

After he walked out of Shangri-La Hotel, Hao Zhiwu couldn’t help but said: “Professor Lin, was that person just now the chairman of Shangri-La Hotel?”

Omi nodded and said, “Yes.”
