

The Luckiest man in the world CHAPTER 581–590

At this time, there was a sound of footsteps outside.

A large group of women, including Qin Yuxuan, Xia Bing, Xia Xue, Hu Tian, Su Ningjing, Han Tian, Ling Rou, Qiu Ziqian, Huang Ling, Chen Xin, Xu Jingrou, etc., appeared at the door.

Lin Tao said: "They are looking for you, right?"

Omi nodded and said, "Yes."

"Go, take a good look." Lin Tao took another breath and said.

"Okay." Omi answered and walked slowly outside.

When Omi just walked out the door, Lin Xiaoyao and Dai Weixue walked out of the room.

Dai Weixue plunged directly into Lin Tao's arms, tears constantly rolling down.

Lin Xiaoyao made a hoarse voice from her throat, "Brother..."

Outside.

Omi's eyes flicked across the women one by one.

None of them spoke, as if time had stopped.

I don't know how long it took, Qin Yuxuan took a few steps forward and took the initiative to reach out and hug Omi.

After a while, she reluctantly let go.

Then, Xia Bing and Xia Xue stepped forward and hugged Omi.

Then, Han Tian, Hu Tian, Hu Tian, Su Ning...

After everyone embraced, the countdown in the Void Gate became 00:00:03!

The last 3 seconds!

Therefore, everyone seized the time and shouted: " Omi, we are waiting for you!"

Omi just wanted to talk...

"brush!"

Time to zero!

The next moment, Omi suddenly disappeared in place.

!

(

At the same time, in emergency training bases in other countries.

When the countdown reached zero, all the selected people disappeared into place out of thin air.

Perhaps, some people initially had some doubts about the doomsday declaration and the chosen person.

At this time, my heart gradually began to believe.

Also at this time...

Suddenly, extremely high-definition pictures appeared in the dark doors of the void.

According to observations, these images... are exactly the live panoramic live videos of selected people from various countries!

This appearance has once again sparked a heated discussion around the world.

[Feng: What a long grass? This... how does this feel a bit like the wilderness in the movie?]

【 Heavenly Man: All the heroes seem to have disappeared suddenly, and then appeared in the wilderness. 】

[Xiao Xiao: Damn it! I just saw a hero from Eagle State in the live broadcast room of the Internet, and he brought a sniper rifle into it.]

[The God of Cookery: What is this? There is a hero in the United States with a sword, Gatling, sniper rifle, pistol, grenade... all kinds of weapons!]

[Wind: f*ck! So awesome! Where are our Chinese heroes?]

[Silly Lehe: By the way, where is our Chinese hero? Why hasn't the screen of the Void Gate appeared yet?]

[Liu Ye: Yeah! What about the picture? Could it be that no one of us in China was selected?]

[Aihua: What should I do? Are we all going to die?]

[Feng: I don't want to die yet.]

...

When everyone was discussing and frightened, the picture of Huaxia Void Gate finally appeared shaking.

next moment...

A piece of barren grass, half a human height, appeared in the eyes of everyone.

When the screen turned slightly, it was a tall, handsome man.

See here...

Numerous cameras gathered together and synchronized to major webcast rooms.

[Love: Is this our hero of China? It looks pretty handsome.]

[A flower: handsome? right! He is really handsome. But besides being handsome, does he have any other advantages?

All of us... and even the entire country are looking for him during this time, wanting to give him the best training, the best weapon, so that he can get a good performance in another world, so as to prevent the arrival of the end.

What about him? Never show up!]

[Family: Yes, and I see his clothes, he definitely does not live in a mountain village without the Internet, right?]

[Seven lotus flowers: It's over, our country seems to have only one hero! Although handsome, this is life in a different world, without training, without weapons... It's over, our end, our end is coming.]

[123 Mu Man: Why, why didn't he take the initiative to say that he was selected earlier?]

[Hongzhong: This kind of person is the most selfish and timid!]

...

This time the live broadcast is not only paying attention to ordinary people, but everyone in the Beijing conference room is also paying attention.

When the man sitting at the top saw the person in the picture, his pupils shrank slightly.

The people below made a whispered discussion.

"Fortunately, we have selected people in China..."

"Yes, it's a pity that he is the only one selected from the current situation."

"Why didn't he take the initiative to tell us?"

"Hopefully, performance in another world doesn't need to show force, hey."

...

When everyone said this, there was a bit of bitterness on their faces.

Do not show force?

In the unknown wilderness, are there no poisonous insects and beasts?

Even if not, what if you meet people from other countries?

Almost everyone has thermal weapons in their hands!

Where there are people, there will be rivers and lakes.

If the other party has some bad thoughts, it is definitely a very terrible thing.

"I'm now asking someone to investigate the specific information of this hero."
Humane said.

At this moment...

Sitting at the top, the man who has not spoken said: "No need to investigate, he is Professor Omi."

quiet.

The whole meeting place was suddenly quiet.

The selected person is Professor Omi!

...

On the other hand, a grand live broadcast venue has already been prepared for this event.

When the picture appeared in the Void Gate, the whole network was also broadcasted simultaneously.

As the host of this live broadcast, Xiaoice smiled and said: "Three days ago, everyone in the world heard the doomsday declaration at the same time. Because of this incident, many of us experienced panic, fear and other emotions."

"But, for the time being, we still don't know whether the end will actually happen."

"However, even if the doomsday declaration is completely true, we don't need to be too scared."

"Because there are heroes guarding us!"

"Now, our Chinese hero...appears!"

Xiaobing's voice was full of fighting spirit, as if he possessed the magical power to pull back the man who fell into the darkness.

next moment...

Xiaobing opened his mouth suddenly, and exclaimed in surprise, "How could it be him?!"

Not long ago, Xiaoice went to Switzerland as a representative to broadcast the Nobel Prize live.

Although, the camera did not shoot the front of Omi.

However, Xiaobing had seen Omi personally at the scene!

Now, Omi actually appeared in the picture, UU reading means that... Omi is the chosen one!

That great being who won four Nobel Prizes!

Any live video of another world will arouse the attention of many people.

It is the authoritative media, which always attracts people's attention.

In addition, Xiaoice is currently the most famous host.

1+1+1... Directly produced a qualitative change, which attracted the attention of countless people.

After the audience heard Xiaobing's surprise, countless people sent a message.

Suddenly, dense barrage appeared in the entire live broadcast room.

[Moonshang Liu Shaotou: Xiaobing, do you know this selected person?]

[Kyushu: Who is he?]

[Prince: Xiaobing, talk about it quickly.]

[Wan: Xiaobing, please speak quickly.]

[The person in the wind: Who is it?]

[The emperor: Who is it?]

[One, two, three: Who is it?]

...

Omi didn't know everyone's surprise, discussion, and doubt.

When he arrived in another world, a clear voice suddenly rang in his mind.

【Ding! Trigger task: rest on the spot for 6 hours. When you first enter the alien world and rest for 6 hours, you can truly feel the air, temperature and humidity of the alien world. This is a respect for the environment. Reward skills, gravity control! 】

Gravity control?

Although Omi could not see the specific effect of this skill.

However, just looking at the name made his eyes light up instantly.

After 6 hours of rest, you can acquire skills, which is really good!

Omi sat directly on the ground without any hesitation.

He looked at the blue sky for a while, looked at the distance for a while, and listened to the crisp whispers of the birds and bugs, and he wouldn't be bored.

Even, there is a different kind of relaxation in my heart.

(

When Omi sat down to rest, Xiaobing, who was on the live broadcast, finally recovered.

She looked at the countless barrage of inquiries about Omi in the live broadcast room, opened her mouth, but did not dare to answer at will.

Because she had long been ordered by her superiors to forbid interviewing or divulging Omi's identity.

At this time, the dull voice of the leader rang in Xiaobing's headset.

"I can tell everyone Omi's identity."

The leaders all know that Omi doesn't like to be exposed in front of the camera.

Therefore, the leaders have been trying their best to help cover up.

But, now, Omi's appearance has been exposed.

Even, for a long time to come, it will continue to appear in the live broadcast screen.

That being the case, there is no problem in disclosing Omi's identity.

In addition, after it is made public, it may be able to increase the confidence of the masses. This is also a good thing for society.

After Xiaobing got the authorization from the leader, he no longer hesitated, and said loudly: "Our hero of China is Professor Omi!"

As soon as this remark came out, the whole live broadcast room fell silent for an instant.

After a while, there was a barrage like a pouring rain.

[Eileen: Damn it!]

[Ma Yizheng: f*ck!]

[Don't be wild in the air: Damn it!]

[Happiness: f*ck!]

...

No wonder the audience will sigh this way.

In fact, Omi's name is too loud.

From the beginning, I solved several unsolved mathematics problems, and later invented high-tech products such as earthquake predictors, insulin rehabilitation medicines, super batteries, super batteries, carbon-based lithography machines, gaming helmets, etc...

Not long ago, he won four Nobel Prizes in one fell swoop!

This makes Omi directly become the greatest scholar in the world, the pride of everyone in China.

Now, everyone found that Omi had become the only person in China to be selected into another world.

How about...not to surprise and excite them?

[Mada: Great God Omi is the chosen one, we are saved!]

[Falling from the sky: That's right! Great God Omi is omnipotent, and he can definitely prevent us from going to the end of the world.]

[Love, love, love: That's great!]

[Princess: Great God Omi, come on, come on! I will always pray for you.]

[Youth is gone: Haha! I know why we only selected one person in China! Because, our chosen person in China is the great **** Omi! This trip to another world will definitely compete for wisdom, and we are sure to win China Huaxia!]

[Ma Tsai: Turns the peaks, turns the peaks!]

...

Sure enough, after the announcement of Omi's information, many people felt better and were full of hope for the future.

However, this hope did not last long.

Because they found... Omi actually sat down directly on the spot.

Moreover, this sitting is several hours.

[Nothing in a million: What's wrong with Great God Omi?]

[Matsuren: I don't know.]

[The gale blows: Xiaobing, tell me what happened to Great God Omi.]

[Chaos: Great God Omi is uncomfortable, right?]

[Long: Are you thinking about something?]

Xiaobing opened his mouth and found out a crappy reason for a while.

"But... Maybe Professor Lin is... he's a bit uncomfortable. After all, he suddenly went to another world from the earth."

[Winter melon skin: So that's it.]

[Red Man: I hope that Great God Omi can get better soon and pray for blessings.]

[Rainbow wealth: pray for the great **** Omi.]

...

[Song family: Just now, Da V Diyao published a blog, commenting on the behavior of the Great God Omi, and sent it to everyone to see.

Tall and short: Omi is the greatest scholar in the world today, not one of them! This is his strength, and at the same time, his weakness.

Because all scholars are firm and self-confident.

They believe that they can create everything and change everything.

However, one day a **** that they couldn't understand appeared.

Even the gods brought themselves into another world.

As a result, their self-confidence, their hearts, instantly shattered into dross like a heavy blow glass.

This can also explain the reason why Omi did not report after he became the selected person.

At the same time, it can also explain why Omi just sat motionless at this moment.

He was completely decadent and gave up!

Unfortunately, China has only one person selected.

Please cherish this last time that belongs to you!]

[Yellow race: Short and tight is also a very powerful scholar, and suddenly felt that his analysis seemed to be reasonable.]

[Easy: Great God Omi, stand up quickly!]

[Farewell: Great God Omi, don't be decadent!]

...

The hope that everyone finally raised began to fall after the appearance of the blog published by Aijin.

Sitting tight in front of the computer, watching the increasing number of visits and increasing comments in the background, the whole mouth almost didn't smile.

These... are all money!

So, he was about to strike while the iron was hot, and kept jumping with his hands on the keyboard.

Soon, another blog was published.

[Dwarf tight: Originally, I didn't want to say too much. Because, I got a US passport long ago, UU reading www. . com is no longer considered a Chinese.

But, seeing too many people want me to continue talking, then I will say more.

I want to tell you some practical issues.

In fact, even if Omi is not decadent, it has no effect.

He is a great scholar and inventor on the earth.

However, this is because the earth has a good infrastructure and countless scholars help.

Therefore, he was able to succeed.

But now, Omi is in another world, in the wilderness.

There is no basic equipment at all, no one to help him, and his knowledge is useless.

A beast, a poisonous snake could kill him.

Therefore, weapons...especially thermal weapons are very important things.

However, Omi didn't seem to have it.

In addition, I would like to tell you a very bad news.

Just now, Huntley of Eagle Country met a scorpion who was tall and looked like a monster.

Fortunately, Huntley possessed a grenade and a machine gun, which allowed him to kill the scorpion. He himself received a mysterious reward.

But in Eagle Nation's Void Gate, there was a burst of light, which directly caused Eagle Nation's sea water to drop, making Eagle Nation a large land area!

In other words, there are not only beasts in the alien world, but also more terrifying beasts than on earth.

At the same time, it also shows that the performance of another world lies in force!

Under this circumstance, how can Omi survive without a heat weapon and without the power to bind a chicken? How should it behave?]

Following the release of this blog, the number of visits to Xiaojin skyrocketed again, and countless messages appeared like raindrops.

At the same time, the number of short and tight fans has also begun to increase at a speed that can be seen with the naked eye.

He laughed like a ball.

(

Huntley, with a machine gun hung on his body and several grenade around his waist, kept moving forward in the wilderness.

His face was full of lightness, and there was no panic at all.

Moreover, every time he walks, he will be introduced like a tour guide in a timely manner.

“Hello, viewers in front of the screen! This is another world. There is a faint smell of licorice in the air, which is very sweet.”

“Walking here, I can’t help but think of the spring outing not long ago. My girlfriend and I had a great time playing in the wilderness.”

Having said that, he seemed to think of his girlfriend, and his face was full of longing.

Then, he sighed again and said: “Unfortunately, my girlfriend has not become a hero, otherwise, I think this trip to another world will be more perfect!”

He knew that he was being broadcast live.

For one thing, this can relieve yourself of boredom.

Secondly, this is also a good opportunity to attract popularity.

Popularity is money!

After the alien journey is over, maybe you can make a fortune with your popularity.

While Huntley was talking to himself...

“Wow!”

The ground in front suddenly collapsed.

next moment...

A giant black scorpion taller than him suddenly jumped out from the ground.

Drops of crystal clear liquid kept flowing out of this scorpion’s black pressed mouth.

See here...

Huntley was stunned.

He had never seen such a huge black scorpion.

“hiss!”

At this time, the scorpion’s mouth made a piercing cry.

Then, the scorpion lifted the ferocious steel tongs and slashed towards Huntley.

Huntley hurriedly backed away.

“laugh!”

He dodged the steel tongs dangerously and dangerously, and a dirt hole appeared on the ground in front of him.

Vaguely, Huntley could still feel the cold light from the steel tongs.

Huntley was so frightened that he hurriedly picked up the machine gun and fired at the scorpion.

The green liquid splashed and screamed again and again.

The scorpion kept thumping on the ground, trying to retreat.

Huntley seized the opportunity and threw out two grenades abruptly.

“boom!”

“boom!”

Severed limbs fly horizontally.

The whole world finally returned to silence.

Although, from the appearance of the black giant scorpion, it has only been a few minutes since death.

However, Huntley seems to have passed a century.

He was covered in sweat, sitting limp on the ground, breathing heavily.

At this time, he finally understood that another world is not as easy as a spring outing.

Here... is full of danger!

At this moment, Huntley's ear suddenly sounded without any emotion.

"Be the first to kill a level 1 giant black scorpion and get a level 1 treasure chest."

"Be the first to kill a level 1 giant black scorpion, and the area of the Eagle Country will increase by 10%."

The sound fell, and a simple box appeared beside the giant black scorpion's body.

Huntley took a few more breaths, and then looked at the box with a slightly surprised look.

After hesitating for a moment, he finally stepped forward and slowly pushed the box away.

"Crack!"

The box opened and a light burst out.

A light group appeared in front of him.

In Huntley's ear, a voiceless voice rang again.

"10-point physique, do you use it?"

Huntley squatted and said: "Use... to use."

"Wow!"

The next moment, the light ball plunged directly into Huntley's body.

Huntley felt his body squirm.

Soon, he looked at his hands in disbelief, and exclaimed in surprise: "Unbelievable, incredible!"

"The audience in front of the screen, you may not believe it. When the light ball entered my body, all the fatigue on my body disappeared."

"At the same time, I feel like I have endless strength!"

"My body is full of power!"

As he spoke, he looked around, as if looking for something to prove his words.

Soon, he set his gaze on the stone with long arms not far away, and when he moved it hard, the stone came up.

Then, Huntley threw the stone aside, and took off vigorously on the spot, and it was nearly 2 meters directly above the ground!

...

Eagle Country Live Room.

[Vorth: Take off 2 meters on the spot! my God! This is simply Superman!]

[WHAT: If Huntley returns to the earth and goes to the NBA in the future, he will be the new generation of basketball god!]

[Neilton: Why am I not selected? I want to be Superman too!]

[Moss: Oh, God! Just now, a golden light burst out from the gate of the void, causing the sea to drop drastically! Then, at the speed visible to the naked eye, green grass and woods grew, which was a miracle!]

[Make: The sea has receded, and our land area has directly increased by 10%!]

[Duck: Really, everything is real! Huntley is the true hero of our Eagle Country!]

...

on the other hand.

The live broadcast is very smooth and quiet, as if still.

Because Omi always sat in place, motionless.

The barrage of the live broadcast room, but like a pouring rain, densely covered the whole live broadcast room.

[The man in the wind: Did any of you go to the Internet and watch the video of Huntley killing the black cancer? It was so shocking!]

[Model: Yes! Moreover, Huntley gained 10 points of physique and became a Superman directly. In addition, the Eagle Country also increased its land area by 10%!]

[321 Wooden Man: This doomsday event, the Eagle Country may not be affected, on the contrary, it can get a substantial increase!]

[Red: I am so envious!]

[Yueshang: Professor Lin, stand up quickly and go fight the monsters!]

[Leaves fallen in autumn: Stop screaming, I'm afraid Professor Lin really gave up on himself like Dwarf said. Hey, why are we in China so unlucky?]

[Sister in the sky: In the past, I felt that it was fortunate for us to have Professor Lin in China, so that we have the opportunity to stand on top of the world. Now, I found out that I was wrong, so wrong! Professor Cheng Yelin, and Professor Yelin defeated!]

[Boom: Is there no way for us to let Professor Lin see what we are saying? Professor Lin must work hard to fight monsters.]

...

In fact, it's not just that everyone on the Internet is extremely anxious.

The same goes for the people in the Beijing conference room.

"It's really bad this time."

"Professor Lin seems to have been hit too hard."

"The Eagle Country has confirmed the authenticity of the Doomsday Declaration, and the performance of the traversers is calculated based on the force value. What should we do?"

"Hey..."

...

At this time, the man sitting at the top said: "I believe Professor Lin!"

Everyone shook their heads and nodded vigorously.

Then, I watched the live broadcast more intently again.

...

Some are worried, some are frightened...

However, when a group of people watched the live broadcast, their faces were full of joy.

Xia Bing, Xia Xue, Hu Tian, Han Tian, Qin Yuxuan and others, as long as they quietly look at Omi and see him safe and safe, that's it.

(

No matter how people on the earth talk, what ideas they have in their hearts.

Omi always sat in the same place, smelling the fresh air, feeling the cool breeze blowing by his face, and enjoyed it incomparably.

Six hours passed in a flash.

At this time, a clear reminder sounded in Omi's mind.

【Ding! Complete the task: rest on the spot for 6 hours. When you first enter the alien world and rest for 6 hours, you can truly feel the air, temperature and humidity of the alien world. This is a respect for the environment. Get skills, gravity control! 】

Then, Omi directly focused on gravity control.

【Gravity Control: You can control the gravity within 1000 times of the whole body at will within a kilometer. 】

Seeing this, Omi's eyes lit up instantly.

Can control 1000 times the gravity!

This is definitely a very good ability.

At this time, he felt that as long as he had a thought, he could easily change the gravity around him, which was just like his own hands and feet, very peculiar.

He quietly doubled the gravity around him, and suddenly, the upright grass beside him bends down one after another.

This is like the power of the gods!

The corners of Omi's mouth raised slightly, then he got up slowly, chose a random direction, and strode forward.

.....

Studio.

Xiaobing smiled sweetly: "Professor Lin has gotten up! I think he has overcome his inadequacy. Next, he must be able to invent an earthquake predictor, a super battery, and a carbon-based lithography machine. The world continues to create one miracle after another!"

At the same time, the barrage in the live broadcast room continued to scroll.

[Luxury cars are a bit hot: finally up.]

[Mobile phone: I hope that, as Xiaoice said, miracles can be created.]

[Little hands are cold: Professor Lin, come on!]

[No one in a million: Professor Lin, come on!]

[Stranger: my goodness! too frightening! Have you watched the video of the island hero Higashida Ichiro?]

[Redness and swelling: I saw it, the other world is terrible!]

.....

Higashida Ichiro is a very famous swordsman in the island country.

After he learned that he was chosen to enter another world, like everyone else, he chose to report to the country.

However, he is not like most people who need to accept emergency fighting skills.

Because he is the king of fighting.

After receiving some firearm guidance, he only brought his own long sword and a pistol into another world.

Island country live broadcast room.

[Yatian: Our island country, Higashida Ichiro, enters another world, and he will surely get countless benefits!]

[Jinquan-kun: That's right! Mr. Higashida Ichiro is an extremely powerful kendo master, and he is simply invincible in this alien world!]

[Huang: Mr. Ichiro Toda, you are the best!]

.....

Higashida Ichiro kept moving forward in the wilderness.

“rustle!”

At this time, a two-meter-high patterned leopard suddenly appeared in the distance.

The patterned leopard took a leap, revealing its hideous steel claws, and slammed it towards Ichiro Toda.

See here...

HigaSh*ta Ichiro’s pupils shrank slightly, and he hurriedly drew his sword to resist.

However, it has no effect at all.

“Wow!”

I saw that the steel claw fell on the long sword, as if it had fallen on tofu, and the long sword broke instantly.

However, the strength of Steel Claw hadn’t slowed down by half, and it continued to fall on HigaSh*ta Ichiro.

“Puff!”

In an instant...

Higashida Ichiro’s head burst instantly like a watermelon.

Red and white jets.

“Patter!”

The upper body and lower body fell to the ground like tatters, and the intestines and internal organs continued to flow across.

[Tianmu Jun: vomit!]

[Sakura: It’s terrible!]

[Meeting at the train station: Ichiro Higashida died terribly...]

[Tanaka: 5555...It’s **** and scary.]

.....

At this time, in the live broadcast room... even, a voiceless voice appeared in the ears of everyone in the entire island nation.

“The selected person, HigaSh*ta Ichiro, died, and the life expectancy of islanders was reduced by one year.”

“laugh!”

Suddenly, a black mist burst out of the space gate of the island nation.

Immediately after...

In the hospital, a critically ill patient who had just been successfully operated on, suddenly his heart stopped beating.

The elderly man suddenly fell to the ground and couldn't afford it.

The heart disease patient suddenly covered his chest in extremely painful...

The whole island country live broadcast room, a wailing.

Studio.

[Xuanhuang: Ichiro Toda died too terribly.]

[123 Wooden Man: It's over, it's over... I feel that I will run out of water for several days.]

[Chicken stewed mushrooms: Ichiro Higashida died, the life span of everyone in the island nation has been reduced by one year, and all of a sudden, many people died in the entire island nation! The impact is too great.]

[Motor: There are other heroes in the island country in another world, and there are still opportunities... Then what if Professor Lin has an accident in another world? He is our only hero in China.]

[Qin Shan: Professor Lin, please stop walking around, you should continue to rest on the spot, please.]

[Heroes of the World: Professor Lin, take a break!]

[Real person: Professor Lin, please take a break!]

.....

The barrage in the live broadcast room changed from trying to persuade Omi to move forward quickly, to trying to persuade Omi to stop and rest.

Before and after this, it was only two hours.

Very weird.

.....

Xia Bing, Xia Xue, Hu Tian, Qin Yuxuan and others have been staring closely at the live broadcast~ ~ Their eyes are full of worries, and they can't help whispering words of blessing in their mouths.

.....

For these...

Omi didn't know it at all.

He is still in the wilderness, constantly moving forward.

"rustle!"

There was a sound in the distance.

The next moment, a patterned leopard jumped out.

This scene immediately aroused the attention of everyone in the live broadcast room.

Xiaobing exclaimed in horror: "What a big, terrible leopard, Professor Lin, be careful!"

The barrage was like a torrential rain, instantly covering the entire live broadcast room.

[Hong Shan: Damn it! It was the leopard that cruelly killed HigaSh*ta Ichiro!]

[Forget it: Professor Lin, run!]

[Crow: It's over, it's over!]

[People in the sky: Professor Lin, be careful of its claws!]

.....

Omi stood still in a daze, as if being frightened by the huge patterned leopard.

Everyone in the live broadcast room saw that the patterned leopard had to use his hideous claws to grab Omi into pieces like Ichiro Dongtian...

"Wow!"

The next moment, the patterned leopard suddenly felt a big mountain crushed down, fell straight to the ground, and smashed a huge hole in the ground.

[Gravity control, start! 1000 times the gravity!]

"boom!"

Rocks flew everywhere, and smoke and dust filled.

Omi still stood in place, without any movement.

However, in his ears, there was a voice without emotion.

"Be the first to kill a level 2 arrow leopard and get a level 2 treasure chest."

"Be the first to kill a level 2 arrow leopard, and the life span of Chinese people will increase by 2 years."

(

The smoke and dust slowly dispersed, revealing a bottomless pothole and a simple box.

In the dark hole, the figure of the arrow leopard can't be seen at all.

Of course, it's just not visible in the live broadcast room.

Omi has night vision ability, and can easily see the situation in the pothole clearly.

At this time, the arrow leopard had already become a piece of meatloaf, and the dead could no longer die.

Omi nodded secretly.

Obviously, he is very satisfied with the 1,000 times gravity control skills.

Then Omi focused on the box and opened the lid casually.

“20 physique, do you use it?”

At the same time, a clear reminder sounded in Omi’s mind.

【Ding! Congratulations, you have got a special red envelope with 200 physique points. 】

Omiyan heard that he didn’t touch the light ball in the box for the first time.

Instead, I chose to open the red envelope.

“Guru!”

Suddenly, all the muscles and bones on Omi’s body twisted.

The billowing power, like a tide, surged crazily.

He probably calculated it, which is roughly equivalent to 10 bottles of physique enhancement potion.

Then, he looked at the 20-point physique on the ground and let it go.

After all, no matter how small the meat is, it is also meat.

Omi didn’t stay in place too much, and continued to walk forward.

As he walked forward, he casually patted the thick-thigh tree next to him.

“Crack!”

The big tree fell down.

This... is the power possessed by 200 points of physique!

...

Studio.

The entire screen was quiet for a while.

After a while, countless barrages rolled quickly.

[Just love you: Does anyone know what just happened?]

[Autumn leaves: I don't know, I just saw that the leopard was about to take a photo of Professor Lin, so I closed my eyes and didn't dare to look...what, the leopard died in a blink of an eye?]

[Twilight: I just watched...Professor Lin happened to have a big hole in front of him. When the sword leopard came over, it happened to fall into it, and it should have fallen to death.]

[Wind: Falling to death? Hahaha! Professor Lin's luck is really great!]

[Zhang Shengli: I was almost scared to death just now. Fortunately, fortunately... By the way, Professor Lin just gained 20 points!]

[Tiandi One: 20 points physique! Huntley of Eagle Country can almost be said to be a Superman if he gains 10 physique, then Professor Lin has now become a superman-like existence?]

[Do not ask: That's great! We are saved!]

[Bracelet: Professor Lin killed the sword leopard and gained 20 physique. In addition, it also allowed all of us in China to increase their life span by one year! I just noticed that in the gate of the void, a golden light burst out, do you have any special feelings?]

[The wind is blowing: I seem to feel a little warm in my body.]

[Soul Eater: I thought it was an illusion, I was also a little warm.]

[Morning jogger: Oh my God! My grandfather was given a critical illness notice in the morning. As a result, he was able to walk normally just now, and his body data was also normal!]

[Tiantian loves you: Increased! All of us have increased our life span by 1 year!]

[Send you away: I can live another year? Thank you Professor Lin!]

[Twilight: Thank you Professor Lin!]

[Song: Thank you Professor Lin!]

...

Xiaobing took the microphone and exclaimed with great excitement: "Professor Lin killed the Level 2 Sword Leopard, gained 20 physique, and increased our life span by 1 year! Let us congratulate Professor Lin with warm applause."

After speaking, she directly slapped her hands.

...

Capital, meeting room.

The people wearing white shirts stared at the live broadcast room at all times.

Even though they had all seen countless big scenes, they already had the ability to collapse before the Taishan Mountain without changing their faces.

However, when they saw an arrow leopard suddenly rushing out and rushing towards Omi, they still could not help but ooze a layer of cold sweat.

"Fortunately, there is a hole in front of Professor Lin."

"Yeah, otherwise... the consequences are really unthinkable."

"God Save Professor Lin!"

"This is a blessing in disguise."

"I believe everyone will have more confidence in Professor Lin and the future!"

...

As everyone spoke, there seemed to be a surviving color on their faces.

The man sitting at the top also breathed a sigh of relief.

...

Xia Bing, Xia Xue, Qin Yuxuan, Hu Tian and others watched the live broadcast room all the time.

When they saw the arrow leopard pounce on Omi, the whole heart directly touched their throat.

Frightened to the extreme.

And when he saw the arrow leopard fall into the pothole, he breathed a sigh of relief.

Fortunately... Omi was fine.

In their hearts, they don't care if their life span has increased by one year.

As long as Omi is safe, nothing else matters.

...

Xiaojin was also watching.

After seeing that Omi had gained 20 physique, a look of resentment flashed across his face.

If Omi died, how good would it be? !

His eyes turned for a while, and his hands jumped quickly on the keyboard again.

[Short tight: First of all, congratulations to Professor Lin for killing a 2nd-level arrow leopard and successfully gaining 20 physique. UU reading

But what I want to say is that Professor Lin shouldn't take it lightly.

After all, you can encounter a deep pit with luck once, but it is impossible to encounter it a second time.

We have just seen monsters in other worlds, which are extremely terrifying.

A level 1 giant black scorpion needs a grenade to kill it.

The arrow leopard of level 2 can easily smash the long sword.

These are not existences that humans can resist with bare hands.

Even if this human has the ability to take off 2 meters or even 4 meters in height, it will not help!]

...

This short and tight blog is like pouring cold water on everyone who has only raised a glimmer of hope.

Many people gradually became full of sadness and joined the discussion.

Soon, the number of short visitors increased again.

...

For these, Omi didn't care at all.

He was aimless and kept moving forward.

“rustle!”

At this time, there was another noise not far away.

Then, a tiger with half-meter-long teeth and a height of about 2 meters slowly poked its head out.

There was a dull roar deep in its throat, a pair of fierce cold eyes, staring at Omi closely, it was terrifying.

However, Omi didn't seem to see it, and the whole person seemed extremely calm.

The giant tiger seemed to feel provoked.

next moment...

It opened its big mouth in the blood basin and rushed towards Omi suddenly.

See here...

Everyone who watched the live broadcast was very nervous.

However...

Soon, they were all stunned.

Because, when the giant tiger arrived in front of Omi, it fell into the pit again just like the previous arrow leopard, and never got up again.

[Gravity control, start! 1000 times the gravity!]

(

The giant tiger fell into the pit and once again set off a puff of smoke.

An emotionless voice appeared on the scene.

“Be the first to kill the Level 2 Giant Tooth Tiger and get a Level 2 treasure chest.”

“Be the first to kill the Level 2 Giant Tooth Tiger, China's air quality has increased by 50%.”

Then, a simple box appeared in front of Omi.

He directly chose to open it.

“Get 20 Constitution, do you use it?”

At the same time, a clear reminder sounded in Omi’s mind.

【Ding! Congratulations, you have got a special red envelope with 200 physique points. 】

Suddenly, the muscles and bones on Omi’s body squirmed again.

That feeling of full of power keeps rippling in my heart.

Previously, a large tree with thick thighs could be slapped off with just one palm.

Now, what kind of power should I have?

Omi slightly hooked the corner of his mouth and placed his hand on the light ball in the box.

Receive 20 physical points!

...

Studio.

[Lotus: Scared to death, scared to death, this tiger that appeared suddenly is too scary. 】

[Feng’s family: Fortunately, there is another deep hole in front of Professor Lin. Otherwise, I really don’t know what to do. 】

[Niu Tau: I just saw Aijin and said that Professor Lin would never encounter the pit again. What happened? Slapped your face, right? 】

[Farewell: There is still someone discussing Dwarfing here? 】

[People are poor and aspiring: Professor Lin has gained another 20 physique, this time... it’s going to be safer! 】

[One-minded to her: Just now at the door of the void, another ray of light burst out...The sky immediately turned blue a lot. 】

[Song: More than just the sky turning blue? The air is fresher too! 】

[Learning to refuse: Professor Lin is really great!]

[Ping Ping An An: God You Professor Lin!]

...

Xiaobing took the microphone and shouted: "Look! Professor Lin killed another level 2 monster, and his physique increased by 20 points again! At the same time, it also increased the air quality in China by 50%! Professor Lin, thank you you!"

After speaking, she was very sincere and deliberately bowed deeply to Omi.

...

Aujin didn't expect that her blog was released for a while.

Omi encountered a level 2 monster again, and even this level 2 monster, like the previous arrow leopard, fell into the pit and died.

But in the blog, I said that Omi would never encounter another pitfall.

As a result, you got slapped in the face in a blink of an eye?

Looking closely at the comments, it was all mockery of herself, and her entire face was flushed.

At the same time, he resented Omi even more.

Why, why does Omi always have such good luck?

...

The sky gradually darkened.

Not far away, a small half-human long-eared rabbit is eating weeds in front.

Omi has the skill bigu, even if he doesn't eat or drink for a month, there is no problem at all.

However, looking at the plump appearance of the long-eared rabbit, he could not help swallowing his saliva, and walked towards the long-eared rabbit.

Until Omi picked up the big ears of the long-eared rabbit with one hand, it did not respond.

In fact...

Where is the long-eared rabbit not responding?

In fact, it is unable to respond at all.

Because, the long-eared rabbit felt like a big mountain suddenly appeared on his body, and the strength to move his fingers was gone.

[Skill: Gravity Control!]

Then, Omi moved slightly, and a sharp knife appeared in his hand from the inner space.

I saw...

Omi's wrist shook for a while.

"laugh!"

A blood stain appeared on the long-eared rabbit's neck.

Soon, the long-eared rabbit's skin was completely peeled off.

Then, Omi chopped down a thick-armed tree trunk and strung the whole long-eared rabbit.

At the same time, he also found a pile of dry wood.

Then, Omi's thoughts moved again, honey, salt, thirteen incense, chili noodles and other condiments, all appeared in front of him from the inner space.

In the three days before entering another world.

On the one hand, Omi was with his family.

On the other hand, he was not completely idle either.

Omi purchased a large amount of daily necessities and completely filled the 50 square meters of inner space.

Let alone seasonings and knives, he can also take out the iron pot.

It's just that there is no need for it.

"laugh!"

As the flames rose, Omi applied the condiments to the long-eared rabbit while turning the stick.

Before long, drops of golden fat dripped from the long-eared rabbit, and the delicious meat began to become tender on the outside and tender on the inside, which was very attractive.

When the scent of tangy smell filled the nose, Omi finally raised his hand to tear off a big rabbit leg and put it in his mouth.

“Haw, haw!”

“Guru, Guru!”

Satisfied and incense, very delicious!

...

Studio.

Xiaobing looked at the tender rabbit meat in Omi’s hands, couldn’t help swallowing, and said, “It smells so good...”

At the same time, the barrage rolled.

[Naive: How can you eat bunny? Tutu is so cute! Please put more cumin!]

[Da Ming is here: I am obviously full for dinner, why is it suddenly hungry again?]

[Hello: I just saw Hudson from the U.S. eating leaves on the Internet. As a result, he is eating barbecue here? Everyone goes to another world. Why is Professor Lin so different from UU Reading ?]

[Jiutian: Wait, this is another world live broadcast? Did I go to the wrong place and came to the eating and broadcasting room?]

[Optimus Prime: Professor Lin’s cooking skills seem to be good, this rabbit looks delicious.]

[Oriental Dragon: More than good? I just watched Professor Lin’s actions of killing rabbits, peeling rabbits, and cutting rabbits very carefully. They all went smoothly and smoothly, and they handled the rabbits easily.

In addition, Professor Lin is also very particular about seasoning and roasting.

Want to be like Professor Lin, without three or five years of hard study, it is difficult to achieve!

Forgot to say, I am the chef of a four-star hotel!]

[The flowers are blooming: So, Professor Lin is not only a great mathematician, but also a great inventor... and he is also a chef? Awesome!]

[Songhua River: I think you are all discussing eating, but have you noticed where Professor Lin took out honey, salt, cumin and other spices?]

[Red: I didn't seem to notice either...]

[Liu: No, there seems to be movement ahead! Is there another monster here?]

After the news appeared, the live broadcast room fell into a brief silence.

All the viewers were staring at the live broadcast, very nervous.

They prayed silently, don't be a beast.

Because everyone saw that Omi had already walked all around, there was no deep hole at all.

If there is another beast, it is definitely a terrible thing.

"Srush!"

The noise is getting closer, getting closer...

The people in front of the screen couldn't help holding their breath, becoming more and more nervous.

But Omi, who was in another world, seemed to be totally ignorant, still eating rabbit meat on his own, very comfortable.

Li Xianhao is a middle-level administrator of the Bangzi Country Two Star Consortium.

Three days ago.

Everyone heard the doomsday declaration, and Lee Hsien Ho was no exception...

However, he is different from most people.

A golden countdown appeared on his arm.

Yes.

Li Xianhao became the chosen one!

These three days...

Many big figures that Li Xianhao needed to look up to, all shook hands and chatted with him cordially, and promised him countless benefits.

Li Xianhao understood that as long as he seized this opportunity from another world, he could definitely fly into the sky.

then.....

In the past three days, Li Xianhao has been working very hard to receive various trainings.

Three days passed in a flash.

Today, when the time is back to zero, Li Xianhao brought all kinds of weapons and came to another world under the watchful eyes of many celebrities and masses in Bangzi Country.

At the beginning, Li Xianhao was extremely excited.

Because, now that it has arrived in another world.

Then, the promises mentioned earlier will all be turned into reality!

The weapons on his body gave him enough confidence and a sense of security.

However, after walking in the wilderness of another world for a day.

Li Xianhao completely lost his confidence.

He didn't walk long in the wilderness, and met a grizzly bear nearly three meters high.

When he saw the grizzly bear, Li Xianhao was frightened.

The hideous teeth, the infiltrating vibe...

It's really terrible!

A layer of sweat rolled down on Li Xianhao's forehead in an instant.

He hurriedly raised the machine gun around his waist and fired frantically at the Grizzlies.

"Da da da!"

A bullet capable of penetrating the wall hit the grizzly bear, but it did not cause much damage...

Even, it just penetrated a little bit of the epidermis.

However, it completely angered the Grizzlies.

It opened its big mouth in the blood basin, snarled up to the sky, raised its sharp claws like a steel knife, and patted Li Xianhao horizontally.

“boom!”

Li Xianhao was terrified, dodged in a hurry, and drew aside dangerously and dangerously.

However, the large backpack behind him was touched by steel claws and burst instantly.

The food, water, grenades, and machine guns hung on the body were scattered all over the place.

These... are all life-saving things.

However, Li Xianhao didn't dare to pick it up at all.

He crawled around and hurried forward.

He felt the whistling sound behind him, quickly took off the grenade on his waist and unplugged the lead.

Then, he threw it behind him.

“boom!”

There was a loud noise and smoke filled the sky.

A grenade exploded, and soon it detonated other grenade on the ground...

“boom!”

“boom!”

A series of explosions kept rippling through the wilderness.

The continuous explosion finally caused some damage to the Grizzlies and blocked its footsteps.

Li Xianhao seized the opportunity to speed up and ran forward.

I don't know how long it took to confirm that there is no grizzly behind...

He was panting heavily, and stopped with a sullen expression.

I lost my backpack, food, water and most of the weapons, and saw a terrifying grizzly...

It made Li Xianhao very worried about his trip to another world.

All day long, he was looking for food and water.

He tried to fight the birds.

Unfortunately, he only received three days of training, so his shooting level was extremely poor and he couldn't hit at all.

He tried to find fruit to eat, but he didn't find anything at all.

All day long, he didn't drip in, hungry and hungry, and he became more and more embarrassed.

When the night gradually fell.

Li Xianhao suddenly smelled the smell of barbecue, which immediately cheered him up.

So, he kept moving forward following the fragrance.

Before long, Li Xianhao saw the fire, and saw a tall, handsome Eastern man.

It is Omi!

After a little hesitation, Li Xianhao walked forward, cautiously in English, and said, "Hello, which country are you from?"

Omi raised his eyelids and said in Huaxia: "Huaxia people."

After Li Xianhao heard Omi's answer, he seemed very happy.

Because he has been stationed in Huaxia for some time and understands some simple Huaxia.

In this way, there will not be too many problems in the communication between the two.

Li Xianhao said in a somewhat stubborn Chinese language: "I...I am Li Xianhao from Bangzi Country. I am glad to meet you...please...what is your name?"

Omi's eyes instantly became a lot indifferent.

He has always had an unfavorable relationship with Bangzi people.

"Omi."

"Mr. Lin, hello, we are all selected heroes on earth. You have a lot of meat here. Can you give it to me?" Li Xianhao asked.

As he spoke, he couldn't help swallowing.

After all, they are all earthlings, and Lee Xianhao's attitude is pretty good.

So Omi tore off a piece of meat and handed it out.

Li Xianhao hurriedly took the meat and said excitedly: "Thank you."

After speaking, he stuffed the meat directly into his mouth.

"Haw, haw!"

"Guru, Guru!"

The rabbit's belly is full, and the mouth is full of fragrance.

Li Xianhao's mental state immediately improved a lot.

Then, he turned his gaze on the huge, succulent rabbit meat, expecting Omi to share some more for himself.

However, Omi had no such actions or thoughts at all.

Li Xianhao couldn't help frowning slightly, and his heart gradually became unhappy.

Some people are like this, after others give him some benefits ~ ~ suddenly refuses to give them, he will feel resentment.

Li Xianhao stayed on the rabbit meat for a while, and then turned his gaze on Omi.

He suddenly discovered that there was no big backpack next to Omi, only a small knife beside him, but no heat weapon.

This can't help but make Li Xianhao's mind begin to liven up.

"This Chinese man named Omi didn't seem to have his weapon aside."

"If I use a gun... it seems that he can give me this big fat rabbit and even all the luggage!"

"In this case, I will no longer worry about food for many days, and safety will be more guaranteed!"

As the selected person, Li Xianhao did not take the time to pay attention to whether the people of Huaxia took the initiative to report their identity.

Before he wants to come, all those who are selected will definitely undergo similar training like himself.

And, prepare a lot of food.

Li Xianhao moved with his thoughts and couldn't help swallowing again.

He seemed to have seen the scene where he was holding this fat rabbit and constantly gnawing.

However, Li Xianhao didn't know.

His thoughts were completely exposed to Omi.

Because Omi has the skills to listen to his heart, and he can easily hear the thoughts of others.

Li Xianhao slowly bends his arms, preparing to touch the pistol hidden in his waist.

At this time, Omi, who was eating rabbit meat, turned around abruptly and slapped Li Xianhao with a slap.

"boom!"

The force of horror broke out suddenly.

In an instant, Li Xianhao seemed to be hit by a fast-moving train. He flew upside down and smashed into a big tree ten meters away.

Blood, minced meat, splashing wanton, extremely miserable!

lonely!

The whole wilderness suddenly fell into dead silence!
