

# The Luckiest man in the world CHAPTER 591–600

Subscribe

Spit out visceral debris!

In an instant, Li Xianhao lost his vitality.

In fact, this is also normal.

You know, when he was on earth, Omi had taken many physique growth potions.

Not long ago, he gained another 440 Constitution.

This makes his power completely surpass ordinary people, and it is almost the same as the superman in movies and TV.

This is Omi's first murder.

Generally speaking, there will be some discomforts.

However, Omi looked at Li Xianhao who was lying in the ruins in the distance and stopped breathing, but the whole person appeared very calm.

It looked like it had just slaughtered a chicken and duck.

The vast amount of knowledge, and the power far beyond ordinary people, seemed to make his mind different from ordinary people, adding a kind of detached divinity!

Then, Omi slowly turned sideways, as if nothing had happened, and continued to lower his head to eat the rabbit meat.

...

At the same time, everyone in Bangzi Country heard an emotionless voice.

"The selected Li Xianhao died, and the air quality in Bangzi Country dropped by 50%."

Then, a black mist burst out of the Void Gate.

Suddenly, the air in Bangzi Country became foggy.

Bangziguo live broadcast room.

Countless barrage billowed out like a downpour.

[Tada Oppa: Murder! This is wanton murder! ]

[Li Min: He must be sanctioned! ]

[Poor Ha: Protest! ]

[Jinxiong Oppa: We must punish him! ]

[Li Tian: Extremely wicked! This is a murderous demon! ]

[Feng: This is a dangerous man, let all the heroes destroy him! ]

[Obasan: After he killed someone, he ate rabbit meat casually. Devil, this is the devil! ]

[Li En: Moreover, the air in our country of Bangzi has deteriorated so much. I just took a breath of air and almost didn't choke on it. ]

[Jincheng: The air suddenly deteriorated, and my grandmother suddenly suffered from asthma. She is now trying to rescue her. If something happens to her, Omi will be the murderer! ]

[MM: The air quality has deteriorated, causing a lot of red spots on my body, which makes me itchy! Omi, he is Satan! Is the destroyer of the earth! He must be punished! ]

...

Studio.

[Not coming back in autumn: This... Why did Professor Lin suddenly make a move? ]

[Abby: It's a terrible force that knocks people away in one palm. ]

[He Lao: That Li Xianhao shouldn't die, right? ]

[Qin: His pupils are godless, he vomits liver and spleen fragments, he is dead. By the way, I am a forensic doctor. ]

[Tiantian: Damn it, really dead? Didn't Professor Lin kill someone? Now how to do? ]

[Hongzhong: I just checked the Internet, Professor Lin did kill Li Xianhao, and also reduced the air quality in Bangzi Country by 50%. Now, the live broadcast room over there is condemning Professor Lin. ]

[Xiyangyang: I like Professor Lin very much, but why did he kill? ]

Standing on the live broadcast, Xiaobing said firmly: "Professor Lin must have a reason, I believe him!"

...

Aijin has been paying attention to live broadcasts, especially live broadcasts.

When he saw Omikeng killed two monsters and gained 40 points in total, he was very angry.

Why, why is Omi so lucky?

When Omi caught a plump rabbit, he immediately complained: "Why do you want him to find food? Why don't you starve him to death?"

But when Omi suddenly slapped Li Xianhao to death, his entire face was instantly pale, and his whole person was immediately frightened.

However, after seeing the barrage of Bangziguó's live broadcast, Xiaojin's eyes began to turn again.

After thinking for a moment, the corner of his mouth twitched slightly, and his hands jumped quickly on the keyboard.

[Dwarf tight: Murderer!

Throughout history, when tribes and ethnic groups are in crisis, only by uniting can they overcome the difficulties.

This time the crisis of the end times corresponds to the earth.

Therefore, all of us humans belong to one tribe!

Only by helping each other can we tide over the difficulties together!

Of course, when Omi met people from the same tribe...

People inquire about courtesy, but he speaks coldly, which is rude.

There is no reason to shoot and hurt people. This is impossible.

Relying on strength to slaughter fellows is unrighteous!

Cruel means, this is unkind!

Rude, unable, unkind, unrighteous!

The murderer should be condemned and punished! ]

China is a country of etiquette, and most people are very kind.

They thought it was wrong for Omi to kill someone suddenly. After seeing the blog posted by Aijin, they couldn't help but became more determined about this idea, and began to forward and comment one after another.

Shortly watching her soaring flow again, her whole round face smiled into a ball.

...

Capital, meeting room.

Many men in white shirts looked at the video of Omi's murder in the live broadcast room, and they were a little startled.

"40 points of physique, unexpectedly brought such a powerful force?"

"Why did you kill suddenly?"

"It's a bit too much."

"Why is Professor Lin so tyrannical?"

...

At this time, the man sitting at the top, turned sideways to the side, the man with a straight waist and staring eyebrows said, "What do you think?"

The man groaned: "After Li Xianhao ate the rabbit meat, there was a cold look on his face. He should be preparing for a bad idea."

"In addition, his waist is bulging and he should have a pistol."

“And when he reached out to get the pistol, Professor Lin immediately shot him.”

“I think Professor Lin did nothing wrong.”

All the people in the conference room were all stunned.

There is a pistol around his waist, and there are bad ideas.

If you do something that is detrimental to Omi, it is absolutely terrifying.

To know...

Huaxia has only Omi as a hero. Once he has an accident, the entire Huaxia will encounter unknowable disasters!

The man sitting at the top immediately said: “We need to rectify the hero’s name!”

As a result, many psychologists and expressionists, and many criminal investigation experts have accepted interviews, and conducted systematic and detailed analysis of Li Xianhao’s actions, psychological changes, and possible consequences.

[Sweep the Eight Wastes: f\*ck! I just thought that Professor Lin was a bit too cruel. Now, I just want to say, Professor Lin, you killed too right! ]

[Wish: The experts have said too much, Li Xianhao does have a gun at his waist! Moreover, he has been smiling yinly, he must have been ill-intentioned. ]

[Chong Chong Chong Chong Chong Chong: Professor Lin kindly gave him rabbit meat, he even wanted to threaten Professor Lin with a gun, what a realistic version of Farmer and Snake! Good kill! ]

[Song: Isn’t it? After Li Xianhao ate a large piece of rabbit meat, when Professor Lin didn’t give him rabbit meat immediately, I knew he was not a good thing, because I found out that he even showed his face to Professor Lin. ! ]

[One, two, three: Fortunately, Professor Lin took the lead, otherwise, when Li Xianhao took out the gun, the consequences would be absolutely terrible! ]

[Human Center: Professor Lin is our only hero in China, fortunately, Li Xianhao did not succeed. ]

[The person in the wind: That short and tight even said that Professor Lin was rude, incapable, unkind, and unrighteous, I yuck! ]

[Designer: That short tight \*\*\*\* has always been crooked. ]

[Ling: Last time I saw Professor Lin resting in another world, I said that Professor Lin was a glass heart and was completely decadent. Then, the first time I killed an arrow leopard, I said Professor Lin was luck...

Now, it is said that Professor Lin is rude, incapable, unkind, and unrighteous. People like short and tight are simply mouse Sh\*t! ]

[Summer that the wind blows: Dwarf keeps slandering Professor Lin, begging to block it! ]

[Winter Melon: Dwarf keeps slandering Professor Lin, begging to block it! ]

[The person who jokes: Dwarf keeps slandering Professor Lin, begging to be blocked! ]

...

Huaxia people are very sensible, which has an important relationship with 5000 years of cultural heritage and the popularization of education.

Soon, everyone reacted, and began to understand Omi, and at the same time, they kept attacking Xiaojin.

...

Relative to everyone's discussion and understanding.

Xia Bing, Xia Xue, Qin Yuxuan, Hu Tian and others felt relieved.

Because they saw Omi's powerful strength.

As a result, Omi would be a little safer in another world.

The stars in other worlds are much brighter than the earth, and they are extremely bright.

Looking up at the starry sky and feeling the breeze on the face, it makes people feel very enjoyable.

In a blink of an eye, it was the next day.

A flaming sun rose slowly from a distance, dyeing the entire sky bright red and gorgeous.

A breeze blew, and all the weeds swayed.

...

Studio.

Although it was early morning, there were already tens of millions of viewers in the live broadcast room.

[Excited: So beautiful! ]

[Tang Dynasty poet: Seeing this scene, I can't help but think of seeing cattle and sheep in the wind. ]

[Legend of Dragon: I really want to go here for a walk, it must be very comfortable. ]

...

Omi just walked on aimlessly and leisurely.

In a blink of an eye, it was the afternoon.

Today, he passed by hills, bushes, and smoky wasteland.

The audience in the live broadcast room kept watching.

[Wang Jinfei: Professor Lin has been away for most of the day, and he doesn't seem to be tired at all. He didn't catch a breath or sweat...40 physical fitness, it's amazing. ]

[Spring: This is normal. After all, Professor Lin slapped a person to death yesterday. ]

[Xiu: But, I don't know if you have noticed it. Apart from being not tired at all, Professor Lin's clothes don't seem to be soiled a bit. Isn't there a lot of dust in the place he just passed by? ]

[Xiao Xiao: Yeah! I also found out that the clothes are just like they were just taken out of the washing machine. It's amazing. ]

[Jun: This reminds me of the Juechen Clothes in the myth and novels! In addition, I also noticed that Professor Lin suddenly took out the knives and various spices yesterday. However, Professor Lin didn't carry a backpack, and the pockets on his second body seemed to be flat. Didn't they carry those things? This is like a space ring in a myth novel...]

[Ziqi: Hiss! Isn't Professor Lin a god? ]

[Shop Xiaoer: Fairy? It's really possible! Zhou's conjecture, hail conjecture, Riemann conjecture and other difficult problems have plagued mankind for dozens of hundreds of years, but it must be difficult for gods! Also, those earthquake predictors, super batteries, insulin rehabilitation medicines, carbon-based lithography machines, prostheses, etc., are also similar in reason. This is definitely not difficult for the gods! ]

[Autumn: It turns out that Professor Lin is a fairy, then our China will definitely not be the end! Very good! ]

[Upright: That's right! Hahaha! ]

...

Omi also knew that he was being broadcast live now, maybe it was too boring to walk.

So, for the first time, he said: "There should be a lot of people watching the live broadcast, right? As you can see, I'm in another world now."

"Everyone should have seen my power yesterday. Maybe, many people are guessing that Professor Lin has such a powerful power, maybe he is a god."

"But, I want to declare here that I am not a god."

After a pause, he said: "There is not much difference between the alien world and the earth on the whole. There are green grass and green trees here."

"Unfortunately, I like to eat a little fruit every day, and so far, I haven't found fruit trees..."

When Omi was talking about this, he accidentally saw an apple tree on a cliff tens of meters high.

Several big red apples hung on them very well.

See here...

Omi's eyes lit up slightly.

then...

Omi took off hard.

"Wow!"

Huntley, who has gained 10 physique, has the ability to take off 2 meters.

Omi gained 440 Constitution points. In addition, when he was on Earth, he had used physique enhancement potions many times.

He jumped hard, it was absolutely terrifying.

In the next instant, Omi appeared under the apple tree on the cliff.

[Skill: Gravity Control! ]

“Boom boom boom!”

All the apples, falling like raindrops, all appeared in his hands.

“Wow!”

Omi took the apple and landed on the ground very smoothly.

“Crack!”

I opened my mouth and bit on the apple. It was crisp, refreshing and very delicious.

Some people, even if they encounter fruits they know in the wild, they may not dare to eat them.

They can't guarantee whether this is poisonous at all.

However, Omi was not worried.

Because, he already possesses the special ability that is not invaded by poisons.

...

From Omi's jump to the current scene of eating apples, all appeared in the live video.

The whole live room was quiet at first.

Then, a barrage of pouring rain broke out.

[Xiong Da: Professor Lin, do you still say that you are not a god? ! ]

[Stone Man: Professor Lin, do you still say that you are not a god? ! ]

[Stupid: Professor Lin, do you still say that you are not a god? ! ]

...

[Anonymous: See Professor Lin, no! Great God Lin...No! Lin Shenxian! ]

【 Five Elements Lack of Money: Meet the \*\*\*\* of forest, and beg the \*\*\*\* of forest to bless me to make a lot of money. 】

[Mr. Huang: Meet the immortal Lin, and ask the immortal Lin to bless me to be admitted to a prestigious university. ]

[Arwen: Meet the \*\*\*\* of forest, and ask the \*\*\*\* of forest to bless me in the lottery! ]

[Sweetheart: Meet the immortal Lin, ask Lin Shengxian to bless me to give birth to a big fat boy! ]

[Don't forget: we have Lin Shenxian in China, so we don't have to worry about the end of the world anymore! ]

[Tang Song: Great! ]

is not that right?

Isn't the fairy able to jump dozens of meters high?

Isn't it that the gods can let the apple fall into their hands with a single move?

Before, everyone joked that Omi was a god.

However, at this time, many people have already regarded this incident as a fact.

Regarding this doomsday event, everyone's mood... finally began to relax.

(

Omi was completely unaware of the audience's reaction.

After eating two apples, his face was full of satisfaction.

Then, his mind moved slightly, and instantly put all the remaining apples into the inner space.

At this time, a clear voice rang in Omi's mind.

【Ding! Live in another world for 24 hours, get a special red envelope, king-level aura! 】

Omi's expression moved slightly, and he directly focused on the king-level aura.

[King-level aura: Shocking aura, between gestures, has the special ability to make people lose resistance, and even crawl on the ground. Even if there is no action, you can defeat the enemy and increase the supreme charm. 】

See here...

Omi's eyes lit up immediately.

According to the introduction, it is almost the same as the domineering look in "One Piece"!

This is definitely a very good skill.

At this time, Omi felt his body warmed slightly.

Then, he gave birth to a kind of existence in his heart that seemed to sublimate instantly into a god-like existence, possessing the magical ability to make all living beings crawl.

This feeling is very good.

Omi continued to walk forward with a good mood.

...

Studio.

[Xiongba: I don't know why, Professor Lin seems to be a little different after eating the apple... I don't know how to describe it...]

[That is youth: I have this feeling too. 】

[People in the jungle: It seems to be a little different. 】

[123 Mu Man: I think Professor Lin is getting more and more handsome. 】

[Moon: I also think Professor Lin is more handsome. 】

[Spring is here: Is it possible that apples from other worlds can be beautiful? ]

...

Naturally, Omi didn't know that after he had gained the majesty of the king, many people who watched the live broadcast mistakenly believed that the apple of the otherworld had the effect of beauty.

As a result, many people yearn for another world even more.

...

The hero that Ban Guo was chosen was a white-skinned beauty named Rita Sha.

She is a painting teacher in Ban Guo.

Although, Rita Shah has gone through three days of emergency training.

However, after arriving in another world, she was still very helpless.

Last night, she was scared and cried by the sound of birds.

After getting up this morning, the whole person's mental state is very poor.

This can't help making Ban Guo people very worried about her.

[KY: Rita Shaw is indeed too reluctant to be in another world. ]

[Witeng: So, how did you choose the hero? There are so many special fighters and fighters in our class. Why do we choose such a young and beautiful lady? ]

[JJJ: I don't expect Ritasha to be able to kill monsters anymore. I just hope that she can live a peaceful and happy life in the alien world, and treat this trip to the alien world as a trip. ]

[Sur: As a trip, Rita yarn is pretty good here. ]

...

Ritasha stumbled past a bush.

Then, a sea of colorful flowers appeared in front of him.

In an instant, Rita Shaw's beautiful eyes lit up.

nice!

It's so beautiful!

Class country live broadcast room.

[Carl: It seems that other worlds can't bear to let beautiful women suffer too much. ]

[KKKK: So beautiful! This is what beautiful women should experience! ]

[Guru: This is definitely the most beautiful place I have ever seen, I really want to play. ]

...

Seeing such a beautiful scenery, Rita Shah could not help speeding up and ran forward.

She wants to come close to appreciate the beautiful scenery, and to wander in this sea of flowers.

However, just as Rita Shaw approached the sea of flowers, an unexpected change occurred!

"Wow!"

This colorful sea of flowers swaying in the wind suddenly disappeared...

Instead, there are countless colorful butterflies.

This sea of flowers is disguised by colorful butterflies!

These butterflies all opened their black mouths, whizzed towards Rita Shaw, and wrapped her round and round.

After about 30 seconds, the butterflies dispersed, and their colors became more vivid.

But Ritasha disappeared, only a platinum pendant originally hung on her neck fell to the ground, making a dull sound.

Rita yarn was actually eaten by a butterfly!

...

lonely!

The Ban Guo live broadcast room suddenly fell into a dead silence.

For a long time, no one sent out any barrage.

At this time, an unfeeling voice rang in the ears of everyone in the country.

“The selected Rita yarn died, and 10% of the country was deserted.”

When the voice fell, a strange black mist burst out from the door of the void.

Next moment...

The originally emerald green grass continued to wither and dry up at a speed visible to the naked eye, and finally turned into a barren desert.

Originally, the hard roads, the towering tall buildings...continuously cracking, and finally, they collapsed suddenly and turned into gravel in the sky.

At this time, in the satellite image, Ban Guo has a different orange color, which is horrifying and shocking!

...

Omi didn't know this at all.

He always moved forward at a constant speed, passing through the low hills, the decaying bushes...

Studio.

[The poor must work harder: I don't know when Lin Shenxian, UU read to show a miracle again. ]

[Feng: Yes, I think watching Lin Shenxian live broadcast is more enjoyable than watching some fairy heroes and fantasy TV series. ]

[My people: Now Xianxia and Xuanhuan, aren't they all 5 mao special effects? They are also worthy of Lin Shenxian? ]

[I'm Lin Fen: Why do I feel a little familiar with the path Lin Shenxian is walking now? ]

[Xiao Xiao: This is the road that Banguo Litasha just walked! ]

[There is no one in all: hills, bushes... f\*ck, this seems to be the way Rita Shaw is walking, I just watched the live broadcast of Ban Guo. ]

[I have no regrets: Lin Shenxian, can't go any further, there is a man-eating butterfly in front. ]

[Hello everyone: I have seen the flower! ]

[Xiong: Immortal Lin, you must not get close to that flower, they are disguised by man-eating butterflies! ]

[Homeland: It's over, it's over, Lin Shenxian is still moving forward, who will remind Lin Shenxian! ]

[Yours is mine: Hurry, report it to the official. ]

[Loyalty: right right right! Report it soon! The official must have a way to contact Lin Shenxian. ]

...

Many countries are resistant to the government.

However, Huaxia is just the opposite.

The officials and the people are close to each other, and they have an excellent interpretation in China.

In the hearts of many people, there are no things that cannot be resolved by the government.

However, the matter this time is indeed beyond their ability to resolve.

In just half a minute, the official received no less than 1 million reminders.

However, the official can only sigh about this.

Because they couldn't contact Omi at all.

However, Omi seemed to be completely overwhelmed by the crisis ahead, and his pace never slowed down.

Before long, a sea of colorful flowers appeared in front of him.

(

“tread!”

“tread!”

“tread!”

Every step of Omi seemed to be walking in the live broadcast room, the hearts of countless viewers.

Many people are filled with anxiety and anxiety.

Although, they still called Omi a Lin Shenxian not long ago.

However, they understood that Omi was not a real god.

But the man-eating butterfly is the real demon!

Weird and horrible!

...

Some people are worried, others are happy.

When everyone in the Bangziguo live broadcast room learned that Omi was walking towards the man-eating butterfly, most of them were very happy.

[Maru Oppa: That’s great! Omi is finally going to suffer the consequences! ]

[Li En: This is called retribution for evil! ]

[Obasan: The retribution is coming too soon! ]

[Two-star employee: The only pity, the man-eating butterfly can eat people clean in an instant, it’s too happy to die. ]

[Li Zhen: I want to record the scene of Omi’s death, and then burn it to Li Xianhao to comfort his spirit in the sky. ]

...

After being slapped in the face continuously, Xiao Jin became increasingly bored with Omi.

He watched Omi keep approaching the “Sea of Flowers”, his entire face was full of expectation.

He couldn’t help muttering: “Go faster, then go faster! Hurry up and be eaten by the cannibal butterfly!”

“It seems that there is not enough time to write the manuscript now.”

“Forget it, it’s not bad to see him being eaten by a man-eating butterfly!”

“Publish it later...”

So, Aijin watched the live broadcast more intently.

...

With the attention of countless people, Omi finally left the man-eating butterfly...

10 m.

9 meters.

8 meters.

7 meters.

...

Everyone’s hearts all mentioned their throats.

“Wow!”

At this time, the sea of flowers moved.

Man-eating butterfly, appear!

Everyone thought... Immediately, Omi was going to be surrounded by man-eating butterflies.

Even when it is easily eaten clean.

next moment...

Everyone was stunned.

Because, the man-eating butterflies rushed in the opposite direction.

This feeling...It’s almost like a lion suddenly appeared in front of a group of sheep, making them terrified, and they all ran away in panic.

escape?

...

Studio.

Xiaobing breathed a sigh of relief.

Then, excitedly said: "Those cannibal butterflies flew away, Professor Lin is safe!"

After she spoke, the barrage in the live broadcast room began to increase.

[Sunny day: This... how did these man-eating butterflies fly away suddenly? ]

[Inwardly: I don't know. ]

[Eraser: Generally speaking, most creatures have their own territorial consciousness. If you suddenly leave the place where you live, it is nothing more than two situations.

One, fear. They encountered terrible creatures far beyond themselves, so they ran away.

Second, change house. They saw more food in other places, or a better living environment. PS: The above are all summed up by looking at the animal world. ]

[Message: Anyway, Lin Shenxian is fine! ]

[Tang Song: It's okay, it's the biggest good thing! Congratulations to Lin Shenxian! ]

[Bamboo Dragonfly: Congratulations to the Lin Shenxian! ]

[Send people all the way: Congratulations to Lin Shenxian! ]

...

The live broadcast room seemed very warm and happy.

But the Bangziguo live broadcast room is a lament.

[Li Jinwu: Why? What exactly is this for? Why did those cannibal butterflies fly away suddenly? ]

[Ouba: Oh my \*\*\*\* is not opening my eyes! ]

[Li Cheng: Is this really like what our country says, good people don't live long, bad people live for thousands of years? It's really unfair. ]

[Maha: Don't be too pessimistic, everyone, Omi is still moving forward, where is the previous nest of the man-eating butterflies, when Omi walks to the middle, maybe all the man-eating butterflies will fly back.

By then, Omi was directly surrounded by man-eating butterflies! ]

Therefore, more and more people began to pay attention to the live broadcast room in Bangziguo live broadcast room.

They were looking forward to it, all looking forward to something wrong with Omi.

However, things... often go against the wishes.

He waited until Omi walked out of the area of the man-eating butterfly, and after walking for a few kilometers, the man-eating butterfly still did not fly back...

The viewers of Bangzi Country finally understand...these man-eating butterflies probably pose little danger to Omi.

See here...

There was another sigh in the Bangziguo live broadcast room.

...

For these, Omi didn't know it for the time being.

He always moves forward at an even speed.

As the sun sets, the sky becomes bright red, gorgeous, and extremely brilliant.

At this time, the big bird that has always looked like an eagle flies across from a distance.

See here...

Omi's mind moved slightly.

[Skill: Gravity Control! ]

"Boom!"

In an instant, the bird seemed to have a big mountain on his body suddenly, without any resistance at all, and fell straight to the ground, losing all consciousness.

Omi stepped forward unhurriedly and picked up the big bird.

Then, just like yesterday, branches and dead wood were found.

You can easily slaughter the big bird and shed its hair by waving a long knife.

The fire shook.

Apply seasoning.

Before long, the rich smell of meat rippled in the wilderness.

Omi stuffed the bird meat into his mouth, the sesame oil dripping, the outside was charred and the inside was tender, very delicious.

...

Studio.

[Ma Noodles: Lin Shenxian is delicious too! ]

[Winter's story: Suddenly I feel that the drumsticks in my hand are not fragrant. UU reading [www. . com](http://www.uu.com)]

[Confused: Suddenly I really want to go to another world to try the big bird! ]

[Proud: Isn't it easy to try Big Bird? Is 18CM enough? ]

[321, get out: woo woo woo! ]

[Home: Lin Shenxian suddenly took out the knife and so many spices, where did he put it? ]

...

This bird is so big that Omi can't eat half of it.

He hiccups with great satisfaction.

Look up at the stars and feel the breeze.

One night, nothing.

The next day, early morning.

Omi stood up, patted the dust on his body, and moved on.

At this time, a clear reminder sounded in Omi's mind.

【Ding! Live in another world for 48 hours, get a special red envelope, skill: draw a circle for home. 】

[Draw a circle for home: After a circle on the ground, you will not be disturbed by the external environment such as wind, rain, noise, etc. In addition, once a danger approaches, you will be alerted as soon as possible. ]

See here...

Omi's eyes lit up completely.

In the past two days, Omi walked during the day and rested at night.

However, in fact, he did not fall asleep at all.

Because sleeping in the wilderness always made him feel unreliable.

Although, not sleeping for a few days has no effect.

However, it is of course the best to be able to sleep comfortably.

Now, with this circle as home, I can sleep easily at night.

This skill is not a powerful skill.

However, it was Omi's favorite skill after entering another world.

Omi thought that he could sleep comfortably tonight, and he couldn't help but show a small smile on his face.

Because he was in a good mood, Omi moved forward a bit briskly.

Huntley, the selected Eagle Nation, killed the Black Cancer, which increased the area of the Eagle Nation by 10% and became the hero of the Eagle Nation.

Popularity is soaring, and the streets and alleys are all about him.

[HOME: Huntley is getting more and more handsome. ]

[MM: It's getting more and more masculine! It's the type I like. ]

[Mike: This is what a hero should look like. ]

[Grey: By the way, who has the latest hero list? Where does Huntley rank? ]

[Vines: I have. The first place is Huaxia Omi, the second place is Mount William of the United States, the third place is Lai Guoweimu... the sixth place is Huntley...]

[LLK: What? Huntley was ranked sixth? This list of heroes must be inaccurate after all. ]

[ZZZZZ: The list of heroes is too problematic! I know Omi of China, he was lucky, and he just smashed two level 2 monsters, thus gaining a total of 40 physique. ]

[CHA: If Huntley gains 40 physique, he is definitely much better than him! ]

[Hero: Huntley now has 10 physique, plus the muscles on his body, it's not necessarily inferior to Omi. ]

[DEO: That's right! ]

[Wind: Our Eagle Nation can have so much area, thanks to Huntley, he is the real HERO! ]

.....

Huntley naturally didn't know how the people of Eagle Country talked about themselves.

Since he killed the giant black scorpion and gained 10 physique, it made him seem to have superhuman power, just like a nouveau riche who has just received a huge amount of demolition money, he has a feeling of walking.

After Huntley walked over a small hill, a wide lake appeared in front of him.

See here...

Huntley's eyes lit up immediately.

He likes swimming and bathing very much.

And since coming to another world, all this has become a luxury.

Unexpectedly, it is now possible.

Without any hesitation, Huntley hurried to the lake.

He looked at the clear water, his eyes brightened a bit.

So he couldn't wait to untie his clothes and get ready to swim for a while.

When Huntley touched the lake, he immediately admired: "It's a great lake."

## The Luckiest man in the world CHAPTER 596–600

Subscribe

However, it was also at this time that a behemoth that looked like a crocodile but was far larger than a crocodile sprang out of the lake.

It opened its big mouth, swept through the terrifying power, and swallowed Huntley into his mouth without waiting for any reaction.

"Crack!"

The blood flowed horribly.

The whole scene suddenly became harsh and terrifying.

Ying Country's live broadcast room also fell silent.

Everyone froze in front of the screen.

At this time, everyone in the Eagle Country heard a voiceless voice.

"The selected Huntley died, and the population of Eagle Nation decreased by 5%."

A dark mist burst out from the void gate.

Some people who were undergoing surgery suddenly stopped beating their hearts and could no longer open their eyes.

Some old people suddenly fell to the ground and could no longer get up.

Some driving vehicles suddenly exploded naturally.

Disasters broke out frequently, and the entire country was completely shrouded in the shadow of death.

What happened in Eagle Country quickly attracted the attention of other countries.

Suddenly, all countries have a deeper understanding of this doomsday.

Human beings simply cannot resist the unknown mysterious power!

As a result, the world has paid more and more attention to the actions of heroes from other worlds.

Because they understand...the survival and death of themselves, and even the entire earth, lies with them.

.....

Today, Omi just wandered in another world for a day, and apart from walking overseas with pansies, he found nothing else.

The setting sun went down.

Omi walked towards the big tree not far away, ready to rest here and there today.

“call out!”

At this time, a big bird flew across the distance.

Omi’s mind moved slightly.

[Skill: Gravity Control! ]

“Wow!”

In the next moment, the big bird fell straight to the ground as if suddenly losing weight.

Just like yesterday, Omi took out a knife to quickly remove bird feathers and found many dead branches.

“It seems that I haven’t had soup for a long time. Let’s make some soup today.”

While speaking, Omi’s thoughts moved slightly.

The next moment, a casserole appeared in front of him.

This scene is all seen in the eyes of the live broadcast room.

Xiaobing was a little stunned and said, "Did anyone see when there was a casserole there?"

[Feng's Young Master: It seems...it appeared suddenly. ]

[Center: I can assure you that there was absolutely no casserole just now, and Lin Shexian never carried a casserole just now! ]

[The emperor of the emperor: no guarantee! I went back and watched the replay, there was indeed no casserole there, it just suddenly appeared next to Lin Shexian! ]

[Qin: Space ring! This is definitely the kind of spatial ring mentioned in the Doupa Sky. ]

[Qingzi: But, Shexian Lin doesn't seem to be wearing a ring. ]

[Flowers in the wind: Lin Shexian is a fairy, a stone hammer! ]

.....

Omi doesn't know the discussion of the people in the live broadcast room for the time being.

His mind moved again.

Then, various seasonings such as monosodium glutamate, chicken essence, wolfberry, ginseng, etc., as well as a large bucket of mineral water, all appeared in front of them.

Then, Omi held the knife and shook it lightly.

Soon, the bones were removed one after another, and bird meat of uniform size appeared in the casserole one after another.

The flame rose.

Before long, wisps of fragrance rippled out.

Omi hurriedly filled a large bowl of chicken soup and drank it leisurely.

Warm, refreshing, very hearty and sweet.

Studio.

[Huahua: Lin Shenxian is so skilled in cooking. ]

[Mi: This is not a skill, but a chef! That deboning craftsmanship is definitely a master! ]

[Who are you: Lin Shenxian drinks chicken soup, it's so fragrant. ]

[Twenty-seven: Ask, where can I buy Lin Shenxian's chicken soup of the same type, urgent! ]

[Heavy rain: I'm hungry. ]

[Jewelry: Compared with chicken soup, I still want the bowl of Lin Shenxian's soup more. If I read it right, it should be made of the best suet jade. Oh my God, this is the first time I have seen someone make a bowl with the best mutton jade, it's so extravagant! ]

[Chaos: What is the best suet jade? Maybe it's still a magic weapon, the world of immortals, you don't understand. ]

.....

Omi was very satisfied with this meal.

After a full hiccup, he slowly got up and drew a circle of about 100 square meters with the big tree as the center.

[Skill: Draw a circle for home! ]

Suddenly, Omi had a very strange feeling.

The emotions of all the creatures around him all appeared in his mind.

He is the master of this space.

Omi nodded in satisfaction, turned around and prepared to return to the tree.

Just two steps...

At this time, a clear reminder sounded in his mind.

【 Ding! Walk 100,000 steps in another world and obtain the skill sword eighty-one. 】

Then, countless complicated sword moves suddenly appeared in Omi's mind, profound and vast.

Omi has a very peculiar feeling, with a sword in his hand, immortals can also be blocked!

Omi's eyes lit up instantly.

I just ate the delicious bird soup, and now I have acquired such a powerful skill.

There was a slight smile on Omi's face.

Then, his mind moved slightly.

A sleeping bag appeared in front of him.

Omi didn't wait too much, and went straight in.

He felt that today, he must have a good dream.

.....

Studio.

[Ma Mian: f\*ck! sleeping bag! ? Who would dare to say that Lin Shenxian is not a fairy? Where did this sleeping bag come from? ]

[Zheng Yichen: Lin Shenxian has a stone hammer! ]

[Tian: Is Lin Shenxian really taking risks? It's a casserole and a sleeping bag. How do I feel like going camping? ]

[Day shift: For the gods, the other world is not camping? ]

[Pink lovers: I think Lin Shenxian's sleeping bag looks good, it must be very comfortable, I don't know if I can buy the same style. ]

[321, go: If I'm not mistaken, Lin Shenxian's sleeping bag should be LV customized, and the price is about 800,000 yuan. ]

[Xiao Ming: Damn it! 800,000 for a sleeping bag? ! Can't afford to provoke, can't afford to provoke! Sure enough, Lin Shenxian is an existence that our mortals can't afford. ]

.....

When Xia Bing, Xia Xue, Qin Yuxuan, Hu Tian and others saw the casserole and sleeping bag in front of Omi, they were not too surprised.

There was a smile on their faces.

What space ring, what fairy...

They don't care at all.

Omi can live comfortably in another world, that is the most important thing.

.....

In a blink of an eye, it was dawn.

When a ray of sunlight fell on Omi's face through the cracks of the trees.

He slowly opened his eyes.

As Omi expected, he slept very comfortably last night and had a sweet dream.

After repairing on the spot for a while, he set foot on the path forward again.

In the past, Omi walked forward every day in order to kill a few more beasts, so as to obtain some rewards, and at the same time, to make China better and better.

Now, Omi feels that it's not bad to walk more every day.

After all, after walking a total of 100,000 steps, a good reward has been obtained.

Maybe there will be in the future.

This made him full of expectations.

Omi walked through dry grass and bushes...

At this time, a clear reminder sounded in his mind.

**【Ding! Live in another world for 72 hours, get a special red envelope, Xingyun sword! 】**

The next moment, Omi had an extra jet black long sword in his hand.

See here...

Omi's expression moved slightly.

He drew it casually.

"laugh!"

The cold light flickered, and the withered grass in front of him broke apart.

"Good sword!" Omi exclaimed sincerely.

Yesterday, he acquired the skill "Sword Eighty One".

This allowed him to possess extremely tyrannical sword skills.

However, Omi didn't have a sword.

Unexpectedly, I got a sword in a blink of an eye.

Moreover, it is still a peerless sword!

How can this not make Omi happy?

.....

Studio.

[Hong: Huh? When did Lin Shenxian have an extra sword in his hand? ]

[Like you every day: What's so strange about multiple swords? Yesterday, Lin Shenxian gave out an extra casserole and an LV sleeping bag. I didn't say a word.

In a word, the world of immortals, we mortals, don't understand! ]

[321 Wooden Man: This sword is really good, it is indeed a good sword. ]

[Order: Isn't that nonsense? God's sword, and Fanpin? ]

[Qing steamed: You say, does Lin Shenxian know how to use swordsmanship? ]

[Central or Western: Swordsmanship? Xianshu is fine! ]

.....

[Dragon's World: Not good! The hill in front of Shenxian Lin is the place where Huntley of Eagle Country has just passed, and there is a big lake ahead, and there are very terrible monsters in the lake! ]

[Triumph: Damn it! It really is! Lin Shenxian won't go to the lake too? ]

[The Return of the King: It's okay to go to the lake? Lin Shenxian possesses such a magical ability, shouldn't he be afraid of that monster in the lake? ]

[In my mind: Yes, Lin Shenxian will definitely not be afraid. ]

[Arithmetic: However, it is better not to go as much as possible, so as not to capsiz in the gutter. ]

.....

Xia Bing, Xia Xue, Qin Yuxuan and others also noticed the direction Omi was heading, and they couldn't help showing a look of worry in their hearts.

.....

Xiaojin will watch the live broadcast as long as he is free.

Many people watch the live broadcast because they worry about the future of the earth, or because they like to watch adventures in other worlds...

However, watching the live broadcast closely is all about looking for hot spots to attract traffic.

Because traffic is money!

When Xiao Jing saw Omi come to the hill where Huntley had walked, his expression moved slightly.

He found hot traffic!

Short and tight eyes kept turning, and his fingers jumped quickly on the keyboard.

After reading through what he had written, he ticked the corner of his mouth and clicked directly to publish.

[Dwarf tight: Is Professor Lin really a fairy?

Recently, I have been following the live broadcast.

I saw Professor Lin slaughter the beast.

I saw Professor Lin jumping up the mountainside to pick apples.

I saw Professor Lin walking into the sea of flowers, while the man-eating butterflies flew away...

I saw Professor Lin take out the casserole, sleeping bag and so on out of thin air.

Therefore, some people say that Professor Lin is the immortal of Lin~ ~  
Therefore, they will certainly not be afraid of hiding in the lake and eating the monsters of Huntley.

However, I have to give some analysis in a scientific way to pour some cold water on everyone.

In the beginning, the two beasts were undoubtedly just luck, which had nothing to do with the power of Professor Lin's 'fairy god'.

As far as I know, after gaining 10 physique, Huntley jumped a full 2 meters high with a random jump.

This is just a random jump, probably not in full force.

10 physique has such ability.

Professor Lin was lucky to slay a beast and gained 40 physique. Therefore, he was able to jump to the cliff and pick apples. To be honest, I was not too surprised.

But the butterfly flew away, it can only be said that it was just the right time.

This involves the habit of man-eating butterflies, which is very complicated.

The casseroles, sleeping bags and other things that appeared out of thin air, in my opinion, are not the spatial rings in novels and movies.

We need to analyze in a scientific direction.

This is probably the latest invention of Professor Lin, space folding technology!

I believe that Professor Lin, who invented ultra-modern technologies such as earthquake predictors, super batteries, carbon-based lithography machines, and prostheses, absolutely possesses this ability.

Unfortunately, Professor Lin does not seem to promote this technology.

Finally, let me talk about the crocodile-shaped monster under the lake.

Huntley didn't have any resistance at all, so he was eaten directly by the monster.

Huntley once gained 10 constitutions, and Professor Lin gained 40 constitutions.

Even though, Professor Lin is four times better than Huntley.

However, judging from the monster eating Huntley, I don't think Professor Lin is the monster's opponent.

If Professor Lin went to the lake, it would be very dangerous! ]

(

Originally, many people were full of confidence in Omi, thinking that he was the hope of China, and the true \*\*\*\* of all power in the world.

However, when everyone saw the blog posted by Aijin.

They gradually became less confident and began to doubt Omi.

Quite a few people joined the comments on the Aijin blog, panic and fear grew in their hearts.

Xiaojin didn't care about the changes in ordinary people's psychology at all.

He looked at the ever-increasing number of readers and fans with a smile on his face.

These... all money!

...

Omi doesn't know what's happening on the earth for the time being.

At this time, he had already stepped on the hill, and after walking forward for a while, a wide, clear lake gradually appeared in the distance.

Studio.

[Quick: It's the lake that Huntley encountered! ]

[Boiled water: over, over! ]

[Selling Kidney: I hope that Shenxian Lin will not go into the water. Yes, Shenxian Lin will definitely not go into the water. His clothes and face are very clean. ]

[Men also need to hurt: With Lin Shenxian's strength, even if he goes into the water, it's okay. ]

[Tianxia: Didn't you read the short analysis? ]

[Nerdy: Although, I hate short and tight, but his analysis this time does make some sense. Hey, I only hope that Immortal Lin will not be near the lake. ]

[Steamed or braised: The lake is so terrible, it is almost like an abyss, Lin Shenxian must feel unlucky and won't pass. ]

...

However...

Things often go against one's wishes.

Omi seemed to be hooked by the lake, and walked forward unhurriedly.

10 m.

9 meters.

8 meters.

...

Soon, he reached the lake.

Omi glanced at the reflection in the calm lake, then raised his eyes to look across the empty lake, as if this could make the whole heart ethereal and calm.

"Wow!"

At this moment, a monster that looked like a crocodile but was ten meters long suddenly jumped out of the water.

It...is the crocodile monster that ate Huntley.

An extremely permeating, ferocious breath, like a tide, surged crazily.

At this moment, the whole world seemed to be darkened a bit, and the air was frozen.

Omi seemed to be completely frightened, standing still, without moving.

...

All the pictures of this scene appeared in the live broadcast room.

Xiaobing exclaimed anxiously, "Professor Lin, run away, it's dangerous!"

Countless barrage instantly filled the entire live broadcast room.

[The world's ghosts and gods: Lin Shenxian, don't stand still! Run! ]

[Xinghe: It was the monster that killed Huntley! ]

[Jiutian Yuanji: It's terrible. ]

[Half-length: Run! ]

[Fly with the dream: Run! ]

[Suiyuan: Run! ]

...

The dense barrage of 'Run Fast', as if turned into a torrential rain, completely covered the entire live broadcast room.

...

The hearts of Xia Bing, Xia Xue, Hu Tian, Qin Yuxuan and others suddenly raised their throats.

They are extremely worried.

In fact, the crocodile monster is too big and looks too scary.

Omi, don't have anything to do.

...

When Xiao Jing saw Omi keep approaching the lake, his eyes lit up.

And when the crocodile monster jumped out of the water and appeared in front of Omi, a touch of excitement that was hard to conceal appeared on his face.

Short, tight eyes rolled slightly, his hands beat quickly on the screen, and he blogged again.

[Short tight: Professor Lin doesn't want to run, but because he is too scared to move. This is the instinctive response of weak creatures to powerful creatures. ]

...

At this time, the crocodile monster opened its big mouth in the blood basin, swept the terrifying breath, and slammed towards Omi.

Everyone has no doubt that in the next second, Omi will turn into a pool of blood like Huntley.

Some people closed their eyes in fear.

However...

When the crocodile monster's mouth was only one meter away from Omi.

Omi moved!

I saw...

Omi didn't even lift his eyelids. He gently pushed the Xingyijian in his hand with his thumb.

[Skill: One of the swords, draw the sword and cut the sky! ]

"Wow!"

A bright light flashed.

The crocodile monster's body suddenly stopped.

The next moment, its head was split into two instantly like a watermelon.

"f\*ck!"

Finally, it fell straight to the ground, making a dull sound.

The red blood, like a fountain, shoots wildly!

lonely!

The whole scene was suddenly silent!

(

The scene of the live broadcast room was frozen in this moment.

The audience opened their mouths wide, and their faces were full of horror.

Xiaobing stunned: "Just... what just happened?"

This voice seemed to drop a stone in a calm and watery live broadcast room, causing ripples.

[Guardian Shiyao: f\*ck! ]

[Quick off: Damn it! ]

[Stone Man: Damn it! ]

[Xiaohua: awesome! ]

[Youth: awesome! ]

[Song: Great! ]

.....

The audience was shocked, but they didn't know how to express it.

Therefore, the full screen is full of classic national curse.

After a while, some people were confused.

[Joan: What happened just now? Why did that crocodile monster suddenly break in half? ]

[Too crazy: I just watched the replay specially, Professor Lin just drew the long sword, and then the crocodile monster died. ]

[Tianxia: Draw the sword and shoot the dazzling sword light, which is cooler than the special effects of the movie! ]

[Boiled water: The method of the fairy gods, this is definitely the method of the fairy gods! ]

[Tiandi One: That's awesome! ]

[Painter: Mom asked me why I was watching the live broadcast on my knees. ]

[Sun Moon: Who would dare to say that Lin Shenxian can't do it? ]

[Qingqing Meadows: Xiao Jin even said that Immortal Lin was too scared to move. ]

[Director of the lunatic asylum: Damn it! There is still this kind of thing, not to say more, report it! ]

[Mamianren: Aijin has been slandering and belittling the immortal Lin, and directly report it! ]

[Tianxia Guishen: The report was short and tight last time, why was he not blocked? ]

[Fruit tea: Not much to say, continue to report! ]

.....

Compared with everyone's surprise, the faces of Xia Bing, Xia Xue, Qin Yuxuan and others were full of joy.

The stronger Omi is, the safer he is.

This is what they look forward to most.

.....

Xiao Jin also saw the scene where Omi drew his sword and instantly slayed the crocodile monster, and his entire face looked very dazed.

Obviously, this also exceeded Dwarf's expectations.

However, when he saw the increasing number of readings in the background, as well as countless insults and reports, he was replaced by joy again.

As long as the number of readings rises, it means that you are very popular.

High heat, more money!

This is the theorem.

As for the insults and reports.

Xiaojin didn't care about it at all.

Because the technical director of the blog is his cousin, no matter how many reports are made, it will be in vain.

However.....

At this time, a message popped up from the short blog.

[Notice: Due to your violation of relevant regulations, your blog has been permanently banned. ]

See here...

Short could not help but froze for a moment.

what's the situation?

Your blog is blocked?

how is this possible!

Yes, it must have been mishandled.

Thinking of this, Xiao Jin picked up his mobile phone, ready to call his cousin.

However, he hasn't waited for him to dial the number.

The mobile phone rang a hurried ring first.

Shortly glanced at the call reminder, it was his cousin!

So, Ai hurriedly pressed the answer button.

But before he could speak, his cousin's roar sounded inside.

"f\*ck Nima, what did you do?"

"As soon as labor and management suppressed your report, labor and management were dismissed by the leader!"

"Well!"

"Do you know how hard it took labor and management to become a technical director?"

"It's all gone now!"

.....

Shortly opened her mouth nervously, just about to say something.

There was a dull knock on the door outside.

“Hello, anyone?”

“Open the door, okay?”

“Check the water meter!”

Aujin had to slowly open the door.

The next moment, two investigators walked in and said, “Hello, we found that you slandered heroes on the Internet. In addition, we have found that your account has a transaction with an overseas organization. Please come with us.”

“Patter!”

The short and tight phone fell directly to the ground, his entire face pale.

.....

Naturally, Omi didn't know anything about it.

He looked at the power of drawing his sword, the corner of his mouth twitched slightly, showing a slight smile.

At this moment, Omi's ears rang out with an unfeeling voice.

“Be the first to kill a level 3 giant crocodile and get a level 3 treasure chest.”

“Be the first to kill a level 3 giant crocodile, and China's freshwater resources have increased by 10%.”

Then, a simple box appeared in front of Omi.

He has had the experience of unpacking twice.

This time, without any hesitation, he raised his hand and opened the box.

“30 physique, whether to use it.”

At the same time, a clear reminder sounded in Omi's mind.

【Ding! Congratulations, you have gained 300 physique points for the special red envelope. 】

“Wow!”

An instant increase of 300 points of physique, Omi’s bones and muscles first grew a circle.

Then, he quickly returned to the original state, becoming stronger and more refined.

Then, Omi lowered his head and touched the light ball in the simple box.

The physique increased by 30 points again!

.....

Studio.

[Wheat: The giant crocodile is a level 3 monster, no wonder it’s so terrible! ]

[Fruit tea: Lin Shenxian gained 30 physique, now I don’t know how strong he should be. ]

[North: China’s freshwater resources have increased by 10%. Let’s see if there is any change. ]

[The man on the top: Damn, f\*ck, f\*ck! Suddenly there is a long river several hundred meters wide in Bin Province, with no end in sight! ]

[Youth will not come: so will our special province! ]

[Resting: We have also appeared in Qi province! ]

[Boom: Long rivers have appeared in Qi province, special province, and Bin province? That is to say ~ ~ This long river flows directly from the west to the east. Isn’t this a super big river like the Yellow River and the Yangtze River? ! ]

[Sadness: Haha! There is finally a big river in Qi province. Now, we don’t have to worry about water anymore! ]

[His Royal Highness: I don’t know what words to use to express my excitement, I can only say one thing, \*\*\*\* awesome! ]

[Black or white: f\*ck! ]

[Guoguo: f\*ck! ]

.....

Most people, if they rarely encounter clear lake water after a few days, they can't help but want to take a quick bath.

However, Omi was wearing dust-proof clothing, and there would be no stains at all.

There is no need for cleaning.

Of course, the most important reason is that the blood of the giant crocodile has flowed into the lake, which is very smelly.

Omi was a little disgusted.

Therefore, he did not stay by the lake and went straight away.

Through the bushes, came to a forest.

The sun gradually went down, and the sky began to turn yellow.

Not far away, two big rabbits, half a meter tall, were squatting on the ground and grazing silently.

Omi murmured: "It seems that I can finish one, but if you let the other one go, wouldn't it be because you have lost your playmates? Let's help out, let's go together."

When the words fell, Omi's thoughts moved slightly.

[Skill: Gravity Control! ]

In an instant, the two big rabbits seemed to bear the mountain falling from the sky, and fell directly to the ground without any resistance at all.

Then, Omi put away the knife and easily peeled off the skins of the two rabbits.

Omi was familiar with the road and found dry firewood.

Then, the two big rabbits were smeared with cumin powder, pepper powder, chili powder and other spices, and set on the fire.

Flip and cut.

The sesame oil is dripping.

Before long, bursts of strong fragrance wafted through the woods.

Studio.

[The state of the world is cold: It's started, it's started, today's food and broadcasting program has started again. ]

[Good night: Every day I watch Lin Shenxian's food and broadcast, I can cook an extra bowl of white rice, let's not say more, let's go! ]

[Zi said: Looking at it from afar, I know the taste of this rabbit meat, it must be unique. ]

.....

Omi pulled off a big rabbit leg and started to eat.

The outside is charred and tender inside, and it is delicious.

Omi ate very heartily and contentedly.

The size of the rabbit is too big.

Omi only ate half of it, and his belly gradually became round.

"rustle!"

At this time, the grass not far away made a sound.

Then, a beast with silver fur all over, sharp teeth, like a wolf, and a height of about one meter, walked out slowly.

.....

Studio.

[Model: f\*ck! Is this a wolf? What a big wolf! ]

[Jing Tian: Wolves generally live in groups, should Lin Shenxian encounter wolves? ]

[The fleeting years are like water: Don't worry, it's just a pack of wolves. Lin Shenxian swung a few swords casually and easily killed them. ]

[Golden Dragon Chasing the Sun: But, did Lin Shenxian notice it? ]

[Clear: Lin Shenxian, look back soon! ]

.....

Omi seemed to see the reminder from the live broadcast room.

He slowly turned around, looked at the faintly gleaming eyes, and stared at the roasted rabbit closely. In his half-open mouth, he couldn't help drooling 'wolf'.

Smiling and said: "Want to eat?"

'Wolf' was taken aback for a moment.

Because it found that it actually understood Omi's words.

What's going on here?

It opened its mouth and called out softly.

"Wow!"

"Are you a dog too?"

Omi's entire face turned black.

This turned out to be a dog?

And why is the idea of a dog always so weird?

Just ask if someone is a dog? !

"I am human."

The big white dog looked up and down Omi again, seeming to be digesting this sentence.

At this time, the rich aroma of roasted rabbit floated to its nose.

It couldn't help but sucked its nose vigorously, and then refocused all its attention on the roasted rabbit, half-opened its mouth, letting its saliva continue to drain.

See here...

Omi couldn't help but smiled, tore off a rabbit leg, and said, "Eat it."

As he spoke, he tossed it casually.

The big white dog reacted very quickly, and opened his mouth to bite the rabbit's leg.

“Crack!”

“Guru!”

The rabbit leg swallowed, and the big white dog’s eyes lit up instantly.

Admired: “It’s delicious!”

Its tail swayed involuntarily.

Obviously, very happy.

Omi smiled and said, “If it tastes delicious, eat more.”

After all, he couldn’t eat so much, and keeping it was a waste.

So Omi tore off another rabbit leg.

After the big white dog finished eating, he threw out all the remaining rabbit meat.

“Haw, haw!”

“Guru, Guru!”

The big white dog ate very happily, and his tail wagged a little bit more cheerfully.

.....

Studio.

[Riffraff: Such delicious rabbit meat, just give it to the wolf? ]

[Jingruotu: Lin Shenxian is too wasteful, how good would it be to give it to me? ]

[Memory of those years: I can’t help but want to grab food with the wolf. ]

[Feng: Lin Shenxian feeds so much meat to the wolf, what should he do if he attacks Lin Shenxian later? This is somewhat risky. ]

[Power: If the wolf attacks the immortal forest, it will only be a matter of sword. At that time, the immortal forest should be able to eat wolf meat. ]

.....

Everyone has already deeply understood Omi's power.

Not to mention a one-meter-high wolf, even a ten-meter-long giant crocodile can be easily killed.

Before long, the two rabbits were all eaten clean.

The big white dog was still wagging its tail in place.

Omi asked, "Do you have a name?"

"Wow!"

"Tengu!"

"Tengu?" Omi nodded, "The name is pretty good."

Then, he raised his head and looked at the moon gradually hanging on the horizon, for a while.

Maybe it was because of being attracted by Omi.

Tengu also followed the direction Omi was looking at and looked over.

One person, one dog, just looking at the sky quietly.

Quiet and peaceful.

Studio.

[Who am I crazy for: The rabbit meat has been eaten. ]

[Broadsword King Five: Isn't this a wolf? Why is it called Tengu? ]

[Unstoppable rain or shine: How do I feel Lin Shenxian just seemed to be talking to this wolf. ]

[Unique: Let alone, Lin Shenxian possesses the power of the supreme immortal god, and it seems normal to talk to animals. ]

[Rainy day: forest gods, tengu, moon, woods... I think this picture is so beautiful! ]

[I am a big brother: I want to use this screen as a screensaver! ]

[Qing: I also want to be a screensaver! ]

.....

As a result, the screens of many people's computers and mobile phones have changed one after another.

The night is getting deeper.

Omi got up and drew a circle around.

[Skill: Draw a circle for home]

Suddenly, the sound of the wind in the ear, the singing of birds in the distance, the flying dust...all were isolated from the outside.

Then, Omi moved slightly, took out the LV sleeping bag, and fell asleep very comfortably.

After a while, the snoring gradually rose.

Tengu looked curiously at Omi who got into his sleeping bag.

After wandering around the place two times, it seemed to be hesitating.

Finally, he slowly lay down on the ground.

.....

Studio.

[Relentless: f\*ck! Lin Shenxian is asleep now? Tengu is still there. ]

[The cute bookworm: Lin Shenxian would not treat tengu as an ordinary dog, right? This is too careless. ]

[The fish that shed tears: I hope Tengu will not hurt Lin Shenxian, but he just gave it a lot of food. ]

[Qitian: No, I'm going to watch Immortal Lin go to sleep today. If there is a danger, I will immediately remind him. ]

[Yellow race: I also want to watch Immortal Lin sleep. ]

.....

In the first two nights, the number of people online will decrease significantly.

After all, everyone has to rest.

However, tonight, even in the evening, the number of people online did not decrease in the slightest.

Even, it is vaguely climbing.

.....

In a blink of an eye ~ ~ is the next day.

The sun fell on the ground through the cracks of the trees, like little stars, extremely bright.

Omi slowly opened his eyes and got out of the sleeping bag.

When he saw the tengu lying on the ground not far away, a slight smile appeared on his face.

"Are you hungry?"

Tengu slowly raised his head and looked at Omi quietly.

The silence speaks.

Omi smiled slightly, took out some bird meat left over from the day before yesterday, and said, "Try this."

While talking, just throw it away.

Tengu reacted very quickly and got up quickly.

Then, began to feast.
