After a while, the whole big bird was eaten clean by the tengu.

Its tail swayed again and again.

Omi felt the cool breeze on his cheeks, chose a random direction, and strode forward.

The Tengu kept his head low, always keeping a certain distance from Omi, and slowly followed behind.

One person, one dog, under the shining of the sun, the shadow is gradually elongated, complementing the surrounding grass and woods, and it is very warm.

Studio.

[Wanli Beiqiu: Fortunately, Tengu did not attack Lin Shenxian yesterday. ]

[Family: The delicious big bird meat is also eaten by Tengu. Lin Shenxian is so kind. ]

[Kid King: Tengu seems to be following Lin Shenxian. ]

[Choice: The picture of them walking in the wilderness is so beautiful! I want to save it. ]

[Stupid: I want to save it too. ]

[Hello everyone: save +1. ]

...

When Omi walked across a piece of grass, a clear reminder sounded in his mind.

【Ding! Live in another world for 72 hours, get a special red envelope and 300 physique. 】

The billowing energy rippled back and forth in Omi's body, causing his muscles to squirm.

A breath that became stronger and stronger, spread to the surroundings.

Omi's mouth twitched slightly.

His footsteps couldn't help becoming more hurried and brisk.

However, the tengu who followed behind had a slight pause in figure.

A look of surprise appeared on its face.

Tengu looked at Omi's fading back, and after hesitating for a while, he continued to follow.

I only blame Omi for the delicious food.

...

When the sky gradually dimmed, Omi stopped.

Today, he walked through the grass and woods, but didn't find anything, he just assumed it was just wandering.

Omi murmured, "It seems that there are no big birds and rabbits nearby. What can I eat later?"

After hearing the tengu word behind him, he turned around quickly.

When it returned, it was holding two big rabbits similar to yesterday.

Then, silently placed in front of Omi.

See here...

Omi couldn't help but smiled and said, "Well, this saves the need to find ingredients."

After speaking, he picked up the knife and moved quickly towards the rabbit.

After a while, the two rabbits were stripped clean.

Then, Omi searched for some dead wood and set up the rabbit.

Smear seasonings and sauces to create a rich aroma that slowly drifts.

Tengu stared at the rabbit unblinkingly from beginning to end.

After smelling the aroma, the saliva flowed down even more.

When the rabbits were completely roasted, Omi tore most of the rabbit meat and said, "Come on, taste it!"

While talking, the direct price of rabbit meat was thrown at Tengu.

"Haw, haw!"

"Guru, Guru!"

Tengu feasted, and the tail couldn't help shaking.

Seeing other people eating fragrantly, one's appetite seems to increase.

Therefore, Omi's amount of rabbit meat has obviously increased a bit today.

...

Studio.

[Choice: Tengu is good, you can also make two rabbits back. ]

[Yeyu Jibei: It would be fine if it came back with food every day. In this case, Shenxian Lin would not have to worry about food. ]

[Stone: What are you worried about? Surely Lin Shenxian wouldn't worry about food, right? However, there are tengu making food, which can reduce some troubles. ]

[Master gets angry: Good tengu. ]

[Take the blame: You said, Immortal Lin is about to domesticate tengu, right? ]

[Concentration: Where is domestication? This is Tengu who has eaten barbecue and can't leave. ]

[Zhao Dahai: Delicious dog, hahaha. ]

...

After Omi had eaten enough, like yesterday, he slipped into his sleeping bag and fell asleep peacefully.

Tengu looked at Omi, then got down again.

However, the distance between Tengu and Omi was obviously closer than yesterday.

In a blink of an eye, it was another day.

...

Today, one person, one day dog, once again set foot on the road forward.

After a while, a green bamboo forest appeared in front of Omi.

There was a fresh and sweet smell in the air.

Studio.

[Shang Shan Ruo Shui: There are so many bamboos. ]

[Are you happy: If the panda is here, it will be fine, it must be very happy. ]

[Mr. Zhao: Giant panda? what! You said, will there be pandas there? ]

[Sad man: Maybe it's really true. ]

[Scrambled eggs with tomato: Come out! Giant panda! ]

[Meeting: Come out, panda! ]

...

"Srush!"

Perhaps it was the audience's call that had an effect.

A large bamboo forest shook suddenly.

Many viewers have focused their attention on the past.

They look forward to the appearance of giant pandas.

However, the result was to disappoint them.

next moment...

A big green snake with a thick bucket rushed out of the bamboo forest.

The air seemed to gradually become a bit cold with its appearance.

The big green snake seemed to think that Omi was very delicious, without any hesitation at all, opened his big mouth and bit at him.

About this...

Omi just raised his eyelids, and then suddenly drew his sword.

[Skill: One of the swords, draw the sword and cut the sky! ]

“Wow!”

The same as the previous beheading of the giant crocodiles.

I saw a bright light flashing by.

The next moment, the big green snake, who had opened his mouth and reunited quickly, suddenly stagnated.

Then, the mouth and body are divided into two!

“Patter!”

In the end, the two halves of the body fell heavily on the ground, making a dull sound, completely losing the reaction.

The fountain-like blood shot wildly, giving a different color to the quiet bamboo forest.

At this moment, Omi’s ears, or the ears of everyone in Huaxia, all heard emotionless voices.

“Be the first to kill the 3rd-level Green Bamboo Python and get a 3rd-level treasure chest.”

“Be the first to kill the 3rd green bamboo python, and China Petroleum has increased by 100%.”

...

Studio.

[Qiang brother: Damn it! ]

[Oh: Damn it! ]

[Brother Bao: Damn it! ]

[Forever: 666! ]

...

The entire screen was immediately flooded with various exclamations from the heart.

After a while, something different appeared in UU reading .

[Single kill: Shuai stayed, Shuai exploded! ]

[Things come true: Lin Shenxian is so handsome. ]

[Nanshan: Regardless of what kind of beast it is, how strong the enemy is, it will all be slashed! ]

[Xuanmo: awesome Plath! ]

[Poor children head home early: Moreover, our oil in China has increased by 100%! ]

[Chongerfei: Lin Shenxian has given us China's controllable nuclear fusion technology, energy can be completely solved, and the increase in oil seems to be of little use. ]

[Dream outside the dream: how can oil be of little use? It can be used as energy source, and can also be used as a solvent for industrial products such as rubber, paint, oil supplement, etc. It is very useful! ]

[Xuanmo: Let me say one more thing, Lin Shenxian, awesome Plath! ]

Next to the green bamboo python, there was a simple box.

Omi raised his hand to open.

A ball of light shone with dazzling light.

An unsentimental voice rang in his ears.

"Elementary fire control technique, do you use it?"

With the sound of this sound, the live broadcast room was completely boiling.

Xiaobing said excitedly: “Elementary fire control technique? Is this a fairy method in novels or movies?”

[Rebirth: F\*ck! Lin Shenxian is awesome! ]

[Humanity: Say there are no gods in this world? ]

[Birth is untimely: Lin Shenxian, it is time to cultivate immortality! ]

[Concentration: too awesome! ]

...

Compared with the excitement of everyone in the live broadcast room seeing the primary fire control technique, Omi was completely ignorant of the light ball in the box.

Because, there was a clear voice in Omi’s mind.

【Ding! Congratulations, get the special red envelope advanced fire control technique! 】

Then, Omi only felt his body warmed slightly.

Suddenly, in his vision, the trees, grass, and even the air were all filled with special fire elements.

With a single thought, all these fire elements will ignite a raging fire, which is very miraculous.

After a while, Omi set his eyes on the ball of light in the box.

Instead of touching the ball of light, he said to Tengu: “Do you want this primary fire control technique?”

After all, Omi had already obtained the advanced fire control technique, and this primary fire control technique had no effect on him.

...

In fact.

When the dog first saw the ball of light that day, it was attracted by the ball of attracting light.

It instinctively wants to get the ball of light.

At this moment, after hearing Omi's words, Tengu nodded reflexively.

Omi said: "Okay, just touch the ball of light directly."

The tengu answered and slowly walked forward.

Then, put the paw up.

I saw...

The ball of light turned into a streamer, and instantly submerged into the Tengu's body.

The next moment, Tengu suddenly opened his mouth and spit out a basketball-sized fireball.

"Wow!"

The scorching flame quickly burned the dead grass in front of him.

Studio.

[Little boy: Damn it! Did Lin Xian Shen give the fire control technique to Tengu? ]

[Delin: No! ]

[Why Chen: No! ]

[Chen Shuai: Lin Shenxian, you shouldn't control fire, nor should you give it to tengu, how good is it for me? ]

[Waiting for your return: This method of immortality is directly given to the beast? This... ]

[Tian: Hey, it's too wasteful. ]

...

Yuanyuan was once a famous writer.

A few years ago, she bought a house in the U.S. and successfully obtained U.S. household registration.

However, after entering the United States, Yuanyuan found that the real United States was not as beautiful as she had imagined.

She regretted, she was helpless.

However, she still stayed in the United States.

As a result, as long as you obtain the household registration of other countries, you will automatically lose the Huaxia household registration, and it is extremely difficult to change back to the Huaxia household registration.

Secondly, Yuanyuan does not want to make Huaxia people feel that they are not doing well.

She wants others to envy and look up to her own life!

When the Doomsday Declaration appeared, the United States announced a number of heroes.

Among them, there are athletes, artists, fighters...

However, China has not found the hero for a long time.

This makes Yuanyuan very happy.

Because she is now a native of America, the more American heroes, the easier it is to survive the end of the world, and even become more prosperous.

China, on the contrary.

As a result, those relatives, friends, and fans of China will become more and more envious of and admiring themselves.

Unfortunately, the good times didn't last long.

After the heroes arrived in another world, the heroes of Huaxia also appeared in the screen... Omi!

At the beginning, Yuanyuan still despised Omi very much.

However, it didn't take long for Omi to kill two beasts in a row.

Then, it suddenly seemed to have gained the power of a god, easily beheading the giant crocodile, the bamboo green python...

The Xia Guoren gained benefits such as lifespan increase, air quality improvement, fresh water increase, oil increase, and so on.

This made Yuanyuan very unhappy with Omi.

Because she is no longer a Chinese native, she can't enjoy these benefits.

Envy and resentment rushed wildly in her heart.

At this time, Yuanyuan, who was in the United States, all the audience watching the live broadcast praised and admired him, and his heart became even more uncomfortable.

So she logged in meagerly and posted an article.

[Yuanyuan: My disappointment.

When I saw a hero appeared in Huaxia, and continued to slay the beast with luck, and thus obtained the power comparable to Superman, I was full of confidence in him.

However, I did not expect that he would be swollen and complacent because of this!

Elementary fire control is the ability to truly become an immortal god.

As a result, he gave it to a beast.

Yes!

People should be caring.

However, not now!

Regardless of the fact that this beast is easier to get along with now.

However, no one knows whether it will suddenly attack Omi!

Omi is now in a dangerous alien world.

His safety not only represents one person, but also represents the entire China, and represents the whole world!

Pride makes people fail! ]

Yuanyuan's previous works are very popular, so he has many fans.

Not long after her meager publication, many people retweet and comment.

...

Omi had no idea about the barrage in the live broadcast room and Yuanyuan's article.

He has just obtained advanced fire control skills and is in a good mood, and his walking pace has become a little lighter.

The tengu, who had been following, involuntarily narrowed the distance with Omi.

Before long, a clear reminder sounded in Omi's mind.

[ Ding! Live in another world for 120 hours. Congratulations, gain 300 physique. ]

Omi's body squirmed slightly, and his strength increased again.

The sun is slowly setting.

When Omi was about to find a place to rest...

"Boom boom boom!"

Not far away, a grizzly bear with a height of 3 meters slowly poked his head out of the woods.

"Roar!"

The grizzly looked up to the sky and screamed, and the entire mountain forest shook, which was terrifying.

When the Grizzlies saw Omi, UU Reading [www.ukanshu.com](http://www.ukanshu.com)'s lantern-like eyes suddenly turned scarlet.

Then, he opened his hideous mouth, like a speeding truck, rushing towards Omi, wanting to crush Omi into sludge in one fell swoop.

Omi's expression didn't change, and he stood still indifferently.

Just as he was considering whether to draw his sword, the tengu behind him suddenly let out a bark.

Then, his body suddenly became three meters tall, and he immediately reached in front of Omi.

Then, slammed a claw sharply.

The sharp claws, like steel knives, struck a bright light in the air.

"Puff!"

On that day, when the dog's paw touched the giant bear's body, it was like a tofu block, and it broke instantly, and the hot blood shot wildly!

"Patter!"

The giant bear, which was still like a rainbow before, fell straight to the ground, losing all its vitality.

See here...

An unexpected color flashed across Omi's face.

The live broadcast room was completely boiling.

Xiaobing exclaimed excitedly: "Wow! Tengu is amazing!"

[Sigh: This grizzly bear...seems to be the grizzly that chased and killed Li Xianhao, right? It was so easy to be killed by tengu! ]

[Repentant: Tengu is so strong! ]

[Relentless: Tengu can grow bigger, so handsome! It's almost like a sasheng pill! ]

[A bit sweet: Like a killing pill? You say, can it become a human being? If you become a human, you must be handsome too! ]

[Old man: That's awesome! ]

...

After the Tengu killed the giant bear, it turned into a body that was 1 meter tall before.

Omi glanced up and down at the tengu, and then he set his gaze on the giant bear.

He touched his nose and said, "It seems that the ingredients for today are already there."

Tengu seemed to understand something, and soon found many branches.

Omi smiled and said, "Good job!"

Dancing the knife, peeled off the fur of the giant bear and cut it into several large pieces.

Yesterday, Tengu had seen the steps of Omi's barbecue.

It knows it should start a fire now.

As a result, the Tengu opened his mouth and spit out a ray of flame, which instantly lit the branches.

Omi smiled and said, "Sensible!"

While talking, he sprinkled the meat with seasoning and turned the meat over.

And from time to time, put forward some requirements.

"The fire is bigger."

"The fire is smaller."

Tengu hurriedly controlled.

The flame can be adjusted at any time, which makes today's barbecue more intense and more colorful than the previous flavor.

Tengu always looked at the barbecue without blinking, with a half-open mouth, letting its saliva flow continuously.

When the outer skin of the giant bear meat gradually became golden.

Omi picked up a piece of meat and put it in his mouth.

"Haw, haw!"

"Guru, Guru!"

"Well, it tastes good!" Omi nodded in satisfaction.

Then, he picked up another piece of meat and placed it in front of the Tengu, and said, "You also taste it."

Tengu has long been unable to restrain it.

It couldn't wait to open its mouth, just gobble it up, eating very happily, and its tail swayed along with it.

Omi only ate a little, and a large amount of Tengu's meat was eaten clean.

So Omi handed out another piece of meat and said, "If you like, eat more."

Studio.

[Worrying: It's time to eat and broadcast again. ]

[Lee: Fortunately, Immortal Lin eats bears in another world. If it is China, he will be checked the water meter now. ]

[Green: Check the water meter? What water meter to check? Teacher Zhang San said that when I was hungry in the wilderness, I met a panda to eat a panda, and I met a tiger to eat a tiger. ]

[Second brother: Tengu can control flames, just like a gas stove. From now on, it seems good to let Tengu use primary fire control technique. ]

[Enjoy loneliness: Lin Shenxian and Tengu's relationship is getting better and better, maybe you can conquer it! ]

[Heart hurt: To subdue the tengu? In this case, it seems very good to let Tengu have more skills! ]

...

In the beginning, Yuanyuan's meager comments mostly agreed with her.

However, it didn't take long for Omi's comments to support Omi's comments.

This makes Yuanyuan a little unhappy.

So she sent a meager one again.

[Yuanyuan: The beast is uncontrollable!

We should remember that all beasts are uncontrollable.

Even tigers and lions in the zoo sometimes attack the keepers, causing some casualties.

What's more, Omi has just been feeding tengu.

Tengu is so powerful and terrifying, once it attacks Omi, it will be very terrifying.

And Omi, represents China's future!

He shouldn't be so careless! ]

I have to say that Yuanyuan is worthy of being a writer, and a few words have made people agree with her.

At the same time, many people began to worry about themselves, and even blamed Omi.

Yuanyuan is very happy about this.

...

Soon, an entire giant bear was eaten clean.

Of course, Omi only ate a small part of it.

The rest was eaten by tengu.

It's not that Omi's food was snatched by Tengu.

In fact, the giant bear is too big, and even a small part of it is enough for Omi to eat.

Omi glanced at the tengu who was wagging its tail next to him, and couldn't help reaching out to touch the tengu's head.

Generally speaking, a beast as powerful as a tengu is not easy for people to approach, let alone being touched by someone's head.

But when Omi touched Tengu's head, it didn't dodge, let alone get angry.

Instead, he stood there very calmly, enjoying himself.

At this time, Omi's ears rang out of emotionless voices.

"The first to establish a friendship with a 6th-level tengu and get a 6th-level treasure chest."

"The first to establish friendship with a 6th-level tengu, the life expectancy of Chinese people has increased by 10 years."

At the same time, bright rays of light burst out from the gate of the Huaxia Void.

Some old people who fell to the ground climbed up very steadily.

Some people who had a heart attack suddenly recovered their health.

Some people who were paralyzed by stroke were suddenly able to walk upright.

...

Miracles appeared in every corner of China.

Studio.

Xiaoice exclaimed: "Increase life span by 10 years?"

The barrage is even more rainy, covering the entire live broadcast room.

[Strong brother: 666! ]

[Zhang: 666! ]

[It's ready right away: 666! ]

...

First of all, the entire screen is filled with 666 words.

After a long while, other barrage appeared.

[Xuanhuan: Too awesome! Tengu turned out to be a level 6 beast! ]

[Fly: Demon King! At this time, the demon king is right! ]

[Blue vest: No wonder the tengu killed the giant bear with its paw! ]

[Air: Lin Shenxian has established a friendship with Tengu, which is too ridiculous! ]

[Honor: It seems that Lin Shenxian also gave the Tengu some food, oh, he also gave the primary fire control technique, and he had friendship with the Tengu. Sure enough, people still have to love pets. ]

[Flower in the wind: I thought it was a shame to give the primary fire control technique to the tengu, but now it looks pretty good! ]

[Men's heart: Friendship of the 6th-level tengu, is it possible for Lin Shenxian to walk sideways in another world in the future? ]

[Bitterness: There is nothing wrong with this, but Immortal Lin could already walk sideways! ]

...

Yuanyuan finally saw what she said, which made people feel a little dissatisfied with Omi, and made people feel a little flustered.

As a result, the wind direction changed again in a blink of an eye.

Some people even asked themselves why they slandered Omi.

The most important thing is that the life expectancy of Huaxia people has increased by 10 years!

And she is not from Huaxia now!

No growth!

This made Yuanyuan even more uncomfortable.

As a result, Yuanyuan once again issued a meager line. U U Reading

[Yuanyuan: Mingjian from history!

History tells us that friendship between people is not reliable.

Here, it can also be used between humans and animals.

Even, I think the friendship between humans and animals is weaker than that of humans.

Omi temporarily established a friendship with Tengu.

The advantage is that you can light firewood?

Then, lost fire control?

This is too uneconomical.

In fact, in my opinion, let alone control fire, even meat should not be given to tengu.

Because, in some cases, meat is life!

Omi is still too proud and immature!

I am full of worries about the future. ]

Relying on her own influence, Yuanyuan quickly attracted the attention of many people.

Some people who were originally happy because of the ten-year increase in life expectancy began to have some worries, and many people joined the discussion.

[Don't lose and forget: Yes, it's better to master this kind of immortal method in your own hands. ]

[Farewell: Hey, he is still too young. ]

.....

Omi was completely unaware of the comments of the real people.

He focused his attention directly on the quaint box beside him and opened it casually.

"100 points of mental power, do you want to use it?"

At the same time, a clear prompt sounded in Omi's mind.

【Ding! Congratulations, get a special red envelope, 1000 mental power. 】

Suddenly, Omi's entire brain became relaxed and ethereal.

Then, the things that happened a long time ago were like movie pictures, reverberating in my mind one by one, clearly and clearly.

It's a special experience like never before.

Omi murmured in his heart: Is this the feeling of spiritual growth? Not bad feeling.

After a while, Omi slowly raised his head and looked at the tengu next to his eyes, and found that it was staring at the light group in the box without blinking. The whole dog's face was full of desire.

Omi couldn't help but smile and said, "If you want this spiritual power, just touch it."

After all, the reason why Omi was able to obtain 1000 points of mental power was also the reason for the Tengu.

In addition, the friendship that Tengu established with him, the two are also friends.

Friends should share with each other.

After hearing Omi's words, Tengu no longer hesitated, and stretched out his sturdy claws to gently touch the light group.

Tengu's pupils flickered slightly and became brighter.

night, getting deeper.

As usual, Omi used his skills to draw a circle for his home.

Then, he took out his sleeping bag and slept beautifully.

Two days ago, when he was sleeping, Tengu would choose to distance himself from Omi.

Humans are afraid of beasts when they sleep.

When the beasts are sleeping, why are they not afraid of people?

However, today, Tengu was silently lying beside Omi.

A person and a dog for a day, relying on each other in the woods, are very quiet and peaceful, forming a very warm picture.

At the same time, it has also become a new screen saver for everyone watching the live broadcast.

.....

In the blink of an eye, it was the next day.

As usual, after putting the sleeping bag in the inner space, Omi and Tengu started an aimless journey forward.

When he came to the vicinity of a small hill, a clear voice sounded in Omi's mind.

【Ding! Congratulations, you have lived in another world for 144 hours and gained 200 mental power. 】

Omi only felt a chill in his head, and his whole body became more comfortable and relaxed.

“rustle!”

At this time, a rustling sound suddenly came from the surrounding hills.

The voice is very small, and if it is another person, I am afraid that nothing can be heard.

Omi was obviously not an ordinary person.

However, his whole person was very calm, as if he did not hear at all like most ordinary people.

Compared to Omi’s calmness, the Tengu beside him became a little uneasy.

Its head kept looking around and kept spinning in circles in place.

“Wow!”

The next moment, a black ant the size of a mouse emerged from the hill.

Then, two, three...

In the end, the dense, uncountable black ants climbed out of the hills one after another.

hills?

No!

As the black ants climbed out, the hill collapsed suddenly, turning into a cloud of smoke.

Wherever the black ants passed, the trees, grass, and stones all dissipated like bubbles.

The dense black ants surrounded Omi and Tiangu in a fan shape.

They keep wriggling their mouths and tentacles, and when viewed from a distance, it makes the scalp tingle.

see this...

Tengu became more and more anxious, and it kept spinning in circles, as if it wanted to leave.

However, seeing that Omi, who was still motionless by his side, stopped again, and had to continue to circle.

.....

Studio.

Xiaobing exclaimed, "A lot of scary ants!"

[Late: Is this an ant? ! ]

[People from the world: In terms of biological appearance, it is indeed an ant, but it is relatively large. By the way, I'm a biology professor. ]

[ Who are you: What the hell! Such a big ant is so scary. ]

[Wind: This is too much, and it is simply a super man-eating ant if it easily eats trees and stones! Lin Shenxian, hurry up! ]

[Youth: Immortal Lin, hurry up! ]

[Tian: Let's go!!! ]

.....

Although, everyone knew that Omi possessed very powerful power.

You can even kill giant pythons and crocodiles with one sword!

However, the problem is that there are too many ants in front of them, which is too scary.

When they swarmed up, no one could guarantee that they would be able to kill them all.

Didn't you see that level 6 tengu were all nervous?

.....

Xia Bing, Xia Xue, Qin Yuxuan, Hu Tian and the others all caught their breath after seeing this scene.

They all became extremely nervous.

It was like being surrounded by countless ants together with Omi.

.....

Naturally, Omi didn't know the reaction of everyone in reality.

He still stood there calmly, without any movement.

"rustle!"

At this time, a group of ants suddenly moved.

Like a sharp arrow, they shot towards Omi and Tiangu.

Tengu's eyes narrowed, and he hurriedly opened his mouth and spewed out a ball of fire.

"Wow!"

The scorched smoke filled the air, and the group of ants quickly turned to ashes.

Perhaps the flames acted as a deterrent, and for a while, no ants dared to go forward.

.....

Studio.

[Qing Pingle: These ants seem to be afraid of fire. ]

[Hybrid: Tengu can breathe fire, great, Lin Shenxian is saved. ]

[Hope: Ants are afraid of fire! ]

[Celebration: Tengu, keep breathing fire! ]

.....

When Yuanyuan saw that Omi was faintly surrounded by giant ants, a smile appeared on her face.

good!

Very good!

Omi was finally about to die.

As a result, Huaxia will be punished horribly.

Sure enough, it was a very correct choice to join the US household registration at the beginning~ ~ However, Yuanyuan was not happy for a long time, but Tengu suddenly sprayed flames to stop the ants.

This made Yuanyuan a little annoyed.

I shouted in my heart: ants, don't be afraid, hurry up!

Unfortunately, the ants would not listen to her at all.

Yuanyuan looked at the barrage in the live broadcast room, her eyes changed for a while, her hands quickly jumped on the keyboard, she seized the time and published a meager article again.

[Yuanyuan: Unfortunately, there is no if!

If Omi wasn't proud or complacent!

Then, the one who has the ability to control fire now... is Omi!

With the help of his own fire control ability, Omi is likely to solve this crisis and allow Huaxia to survive the doomsday crisis.

Today, he can only pin his hopes on a dog.

Unfortunately, there is no if! ]

Yuanyuan's meager piece, very quickly, aroused many people's sympathy and comments.

More and more people began to criticize Omi, full of pessimism about the future.

...

Dense black ants surrounded Omi and Tiangu for a long time.

Perhaps, they have forgotten the terribleness of the flame.

At this time...

Their tentacles suddenly shook violently and made a creaking sound.

Then, four groups of ants, from four directions, all surrounded Omi and Tiangu.

"Wow!"

"Wow!"

Tengu hurriedly opened his mouth and spat out four fireballs in a row.

Black smoke billowed, burning all four groups of ants.

This move... as if angering the ants.

The densely packed ants were dispatched together, forming a tide of ants, making a hissing sound, and they all surrounded Omi and Tengu.

“Wang!”

The tengu let out a roar, and then continuously spewed out flames.

The flames were fierce, but there were more ants.

Finally, many ants gradually passed through the flames of the tengu, and quickly stepped forward, as if they were about to devour the two at any time.

Dangerous!

The situation is extremely dangerous!

Sweat oozes faintly on Tengu’s forehead.

The hearts of everyone in the live broadcast room also beat violently.

At this time, Omi, who had been motionless, patted Tiangu’s head lightly, and said lightly, “Let me come.”

Tengu didn’t know why, but after hearing Omi’s words, he really became a lot calmer.

Omi glanced around and said softly, “Burn it!”

“Wow!”

In an instant...

On the bodies of all the black ants, billowing flames ignited together.

Hot and gorgeous!

“Destroy!” Omi said softly.

The voice fell, and the flames went out.

And the black ants before, all disappeared without a trace, only a faint black ash on the ground seems to prove that they once appeared here.

At this moment, an emotionless voice sounded in Omi's ears.

"Be the first to kill a level 2 iron armored black ant colony and get a level 5 treasure chest."

"The first to kill the second-level iron armored black ant colony, and the Huaxia greening increased by 10%."

...

Studio.

Xiaobing looked at the picture, half-opened her mouth, and was completely stunned.

Or some audiences, have a strong ability to accept.

[Bingliang: Damn it, Shenxian Lin is so awesome! ]

[Crayfish: Follow your words! I understand today what it means to follow the law! ]

...

The faces of Xia Bing, Xia Xue, Qin Yuxuan, Hu Tian, Han Tian and others were full of rich smiles.

Very good.

Omi passed the danger again.

Also, it has more power.

In this way, he can be safer in the other world!

...

Yuanyuan, who was sitting in front of the screen, looked at the iron armored black ant colony that was instantly burned to death by Omi, and watched the greenery growing in China...

The whole face became a little distorted.

why?

Why... Omi survived the crisis again? !

Why Huaxia is getting better and better!

Seeing everyone's compliments to Omi, she became more and more resentful.

Yuanyuan just clicked on the meager, and was about to announce something else, thus quenching the joy in everyone's hearts.

At this time, she found that Wei Wei had been banned.

Yuanyuan couldn't help but snorted softly: "Don't let me speak in a low voice? Then I'll go somewhere else!"

So, Yuanyuan opened the WeChat public account, blog, Zhihu...

However, she found that these places, without exception, had their accounts blocked.

Yuanyuan screamed: "Title, title! You can only report blocking my account! If you have the ability, send me in! But, you can't do it! Because, I am in the United States!"

In fact, this was also the reason why Yuanyuan dared to slander Omi's information on the Internet after learning that Ao Jin was sent in.

She is in the United States and will not be checked on the water meter at all.

"Ding dong!"

At this moment, a crisp bell rang from outside.

Yuanyuan looked at Maoyan, and found that it was two white-skinned men in suits, who opened the door slowly.

Then, she changed her previous hideousness and said with a very gentle and genial smile: "Is there anything wrong with you?"

In her heart, even just talking to a white-skinned person seems to be a very remarkable thing.

Among them, the stronger-looking man handed out his credentials and said, "Hello, we are the FBI, and we found that you are slandering others online, please come with us."

Yuanyuan was stunned for a moment, and said, "This...I...I just said some bad things about Omi, and didn't slander others. Have you misunderstood?"

"There's no misunderstanding! It's because of slandering Omi that UU will arrest you." The strong man said.

“But, he is from China, you must be mistaken...” Yuanyuan said.

While speaking, she looked a little excited and accidentally knocked over the vase next to her.

“Boom!”

The two white men immediately pulled out their pistols and shouted in unison, “Assault the police!”

Then, they pressed Yuanyuan to the ground together, making her unable to move.

Soon, Yuanyuan was taken away.

At this time, a yellow-skinned man walked over from a distance and said to the white-skinned man in the search clothes next to him, “Good job! Our Qinghong Sect will support you.”

The white-skinned man was extremely excited: “Thank you!”

...

PS: “.

Omi had no idea what was going on in reality.

At this moment, he focused his attention on the quaint box in front of him and opened it casually.

A light group appeared.

Then, an emotionless voice sounded in his ear.

“300 points of physique, do you want to use it?”

At the same time, a clear prompt sounded in Omi’s mind.

【Ding! Congratulations, you will get a special red envelope, 3000 points of physique. 】

Immediately, Omi’s muscles and bones seemed to be inflated, and instantly became thicker, and his skin was even more faintly shining with metallic luster.

Soon, the muscles and bones began to compress and condense, and slowly returned to their original state, and the skin became whiter and purer.

Omi clenched his fist lightly, and a feeling of strength he had never felt before circulated between his fingers.

He has a very real feeling that a single punch of his own is enough to knock down a tall building.

After a while, Omi slowly turned his head and set his eyes on the stunned Tengu.

Previously, it was suddenly surrounded by dense iron armored black ants.

Immediately afterwards, the iron armored black ants suddenly burst into flames...

Under the ups and downs, it seems that the Tengu is a little difficult to digest.

Omi recalled the scene where the iron armored black ants rushed up, and the tengu still steadfastly resisted.

Tengu glanced at Omi, and then walked forward with some hesitation.

“Wow!”

The light group entered the body of the tengu, and its claws became thicker.

Then, an emotionless voice sounded in Omi’s ear.

“The first to help level 6 Tengu rise to level 7 and get a level 3 treasure chest.”

“The first to help level 6 Tengu be upgraded to level 7, and the air quality in Huaxia increased by 10%.”

Not surprisingly, a quaint box appeared in front of Omi again.

“50 points of physique, whether to use it.”

Immediately afterwards, a clear prompt sounded again in Omi’s mind.

【Ding! Congratulations, you will get a special red envelope, 500 points of physique. 】

Immediately, the muscles in Omi’s body wriggled slightly, and their strength increased again.

So, I let Tengu gain 300 physique points.

As a result, he got 500 physique instead?

not bad!

After that, Omi said to Tiangu again, "You can use these 50 points of physique."

Tengu had already deeply experienced the benefits of physique, and after receiving Omi's affirmation, he no longer hesitated, and reached out his paws to touch the light group.

After everything was over, Omi and Tiangu continued their journey.

...

On the other hand, Huaxia and Qingshi.

Lin Tao, Dai Weixue, and Lin Xiaoyao's family kept getting nervous as Omi encountered each terrifying monster.

And when Omi killed these monsters and showed his incomparably powerful power, he was filled with joy and joy.

"Dong Dong Dong!"

At this moment, there was a light knock on the door outside.

After opening the door, two men in white shirts walked in with gifts and smiling faces.

Lin Tao hesitated and said, "Are you... Director Huang, Chief Engineer Liu?"

The two men said happily, "Haha! Lin Tao, I didn't expect you to remember us, but it's too outlandish to call us Factory Manager Huang and Chief Engineer Liu. Just call us Lao Huang and Lao Liu."

The two of them were Lin Tao and Dai Weixue's former factory director and chief engineer.

Dai Weixue hurriedly said, "Director Huang, Chief Engineer Liu, sit inside quickly."

"Then we'll interrupt." The two laughed.

After entering, they first had some memories and greetings about what happened in the factory back then.

Director Huang said: "You are the workers and benchmarks in the factory! Although, you have already left the factory, but, in fact, at that time, the factory planned to promote you to manager, and even kept a position for you... "

"This time we are here to issue your salary for these years. From now on, your salary will be paid to your card on time every month."

Lin Tao and Dai Weixue were obviously stunned for a moment.

They never thought that the factory manager and the chief worker came to the house to pay their wages.

Lin Tao said: "Director Huang, we are now opening a clothing store, I'm afraid we won't be able to go to the factory, so..."

Director Huang smiled and waved his hand: "It doesn't matter, it doesn't matter if you don't go to the factory. Of course, it would be better if you have time to visit. Many old friends miss you very much!"

After another chat, at the insistence of Factory Director Huang and Chief Engineer Liu, he still kept the bank card.

Lin Tao and Dai Weixue looked at the two who kept walking away, and looked at the bank card in their hands, still a little overwhelmed.

However, this is just the beginning.

Then, the principals of Omi's high school, junior high school, and even elementary school came to greet him.

Finally, the leaders of Qingshi also came to the door in person.

Lin Tao and Dai Weixue understood that it was all because of their son.

Because my son is a great mathematician who has solved many unanswered math problems, invented earthquake predictors, carbon-based lithography machines, prosthetic limbs and other high-tech technologies, and even a great professor who won the Nobel Prize!

In addition, the son is the only selected hero in China!

Before, these people did not know these things.

However, after Omi entered another world, it was completely exposed!

Otherwise, if you have left your job for more than ten years, will the factory manager and the chief worker come to your door to get a promotion and send a salary card?

As for model workers and benchmarks, that is completely impossible.

To know...

Lin Tao was often criticized for being lazy before.

Lin Tao and Dai Weixue didn't care about money and greetings.

At this time, the only hope in their hearts is that Omi can return safely.

...

Five days passed in a flash.

In the past five days, Omi did not encounter any beasts again. He took the tengu to walk freely every day, eating barbecued meat, which was extremely comfortable.

It felt as if they weren't venturing out into another world at all, they were really just camping.

In the past five days, Omi has walked more than 200,000 steps, obtained 2 special red envelopes, plus 5 special red envelopes from his life... This has increased Omi's physique by 1,100 points. com mental strength increased by 600 points.

Today, the sun is rising.

As usual, Omi put the sleeping bag in the inner space and started today's wandering trip.

Not long after he left, a clear prompt sounded in his mind.

【Ding! Live in another world for 264 hours and gain advanced ice control. 】

Suddenly, Omi felt a chill in his body.

At the same time, in Omi's field of vision, there were many special ice elements in the air.

Omi had a very real feeling that as long as his thoughts moved slightly, these ice attribute elements would quickly gather, allowing his thoughts to turn into ice picks, ice cubes, ice balls, or other ice objects, which was very magical.

With this feeling, the corner of Omi's mouth twitched slightly, revealing a shallow smile.

Then, his steps forward, he felt a lot lighter.

The U.S. has more than a dozen people selected.

Phil Ruth, is one of them.

He is a veteran with good physical fitness and shooting ability.

After entering the other world, many of the selected people lived by eating compressed biscuits and licorice. In just a few days, most of them became yellow-faced, skinny, and very embarrassed.

However, by relying on his own ability to survive in the wild, as well as his good physical fitness and excellent shooting ability, Ferrus once hunted a big rabbit.

Although, it is not like Omi can eat to satisfy every day.

However, it can also ensure that there is meat to eat every day, and it will not be too embarrassing.

After a night of rest, Ferrus put on his luggage, carried a gun, kept vigilant, and kept moving forward.

After entering the other world, he once encountered a huge orangutan, and it took a lot of effort to escape successfully.

This made Ferrus understand that the other world was not safe.

So, at all times, he was very careful.

At this time, a lake appeared in the distance.

Clear and spacious.

Ferrus swallowed his saliva involuntarily.

Rabbits from another world are bigger than the earth.

However, even if Ferrus tried his best to save his food every day, he had already been eaten clean.

In addition, the drinking water he carried on his body was almost exhausted.

The lake in front of him was, to him, a huge supply station.

Even, if settling down on the lake.

He felt he could live on forever.

First of all, don't worry about drinking water.

In addition, in such a large lake, there must be fish, which is an inexhaustible food!

Ferrus first looked around and found that there was no danger, then he held the handle of the gun and slowly approached the lake.

However, when he was still more than ten meters away from the lake, Ferrus suddenly stopped.

Because, he suddenly thought that this is another world, an unknowable underwater, and there may be danger.

So, Ferrus slowly retreated to the back.

“Wow!”

However, it is also at this time...

At the bottom of the calm lake, a huge tentacle with a thick trunk suddenly stretched out and shot towards Ferrus.

Phil Ruth’s heart was beating wildly, and he hurriedly pulled the trigger.

“Bang bang bang!”

The surface of the tentacles splashed with wisps of blood, but it still did not stop.

“laugh!”

In the end, the tentacles wrapped around Ferrus in one fell swoop, and dragged him violently into the lake, letting Ferrus slap, struggle, and shoot, to no avail.

“Grumbling!”

After a few bubbles popped out of the lake, everything calmed down.

Immediately afterwards, an emotionless voice sounded in the ears of everyone in the United States.

“The chosen person, Phil Ruth, died, and the air quality in the United States dropped by 20%.”

...

A reminder to everyone in the live broadcast room.

Omi didn't see it at all, and he walked forward in a hurry.

After passing through a dry grass, a lake appeared in front of him.

Quiet!

Silence!

Tengu sniffed his nose, as if he had noticed something, his eyes became stern.

However, Omi didn't stop at all. He continued to walk forward, getting closer and closer to the lake.

100 metres.

90 meters.

80 meters.

...

Omi kept walking, and every step seemed to be stepping on the audience's heart.
