

The Luckiest man in the world CHAPTER 671-680

Alien.

There was a vast expanse of white all around, as if time and space had stopped flowing, and it was quiet.

However, every once in a while, there will be a faint sound around.

【Ding! Survive in another world for 1440 hours and gain 400 Constitution points. 】

...

【Ding! Survive in another world for 1680 hours and gain 500 mental power. 】

...

【Ding! Survive in another world for 4800 hours and gain 500 Constitution points. 】

...

【Ding! Survive in another world for 120,000 hours and gain 500 Constitution points. 】

...

...

【Ding! Survive in another world for 1,200,000 hours and gain 500 mental power. 】

...

【Ding! Survive in another world for 364,976 hours and gain 400 Constitution points. 】

...

At this time, a tall and handsome figure gradually appeared in the originally white space...

It was Omi!

He closed his eyes as if asleep.

When he touched the ball of light, Omi's whole body was penetrated by a sandstorm like a sharp blade, shattered by the waves, and burned to ashes by the flames...

But now, his whole person is still intact.

Even, he didn't even have any damage to his clothes.

However, Omi had an extra dog tattoo on his clean arm.

"Wow!"

next moment...

A vortex suddenly appeared in Omi's body, sucking all the white mist in the space into it.

The whole space becomes empty.

It was at this time that Omi finally opened his eyes.

"Buzz!"

His eyes were like two scorching suns hanging in the air, bursting with endless splendid light, completely illuminating the empty space.

After a while, the light slowly converged.

At this moment, a clear prompt sounded in Omi's mind.

【Ding! Survive in another world for 365,000 hours and gain 500 Constitution points.】

A wisp of weak energy flowed into his body.

Omi murmured, "365,000 hours? Has a thousand years passed? These energies have been absorbed for so long."

Despite a thousand years, Omi gained incredible power.

However, Omi still felt a little regretful.

If I knew earlier, I would never touch the ball of light with my hands.

For a thousand years, too many things have been missed.

Parents, family, lovers... I'm afraid they're all gone, right?

Omi sighed slightly and said, "It's time to go back and have a look."

After the words fell, he disappeared directly into the void.

In the next instant, he appeared on Earth and Qingshi.

In the past, Qingshi was just a small city attached to Jiangbei, the provincial capital. There were only a few decent high-rise buildings and a few decent two-way six-lane lanes in the entire urban area.

The urban area is also very small. There was even a joke at that time. For only twenty yuan, you can take a taxi and go around the Qingshi urban area.

However, today's Qingshi has completely changed.

When you look up, you can see densely packed high-rise buildings, countless dragon-like two-way eight lanes and viaducts, and many suspended cars.

On the sidewalk, walking a bionic robot.

There is a special fragrance in the air, which is very pleasant.

Technology . . . has undoubtedly changed dramatically.

Omi was not too surprised by this.

After all, it's been 1,000 years.

In other words, if nothing changed, Omi would be surprised.

Omi looked in one direction, where... used to be his home.

Unfortunately, there is no trace of home...

Even, the entire street, the entire area... all lost the appearance in memory.

Instead, it is a very high-end, luxurious residential building.

However, Omi understood that this was where his home used to be.

Omi's thoughts moved slightly, and his spiritual power spread like a tide. No trace of his family was found in this high-end residence.

Although, he had already expected.

However, after actually seeing it, I was still a little disappointed.

Then, Omi stepped out.

In the next instant, he appeared in the former Jiangbei City, in front of Jiangbei University.

Here... it's still Jiangbei University.

However, compared with the past, both the area and the scale have more than doubled.

The school gate has also more than doubled compared to before, which is extremely impressive.

Many men and women full of youthful vigor are constantly coming in and out, full of vigor and vitality.

A spiritual force spread out, and soon, it was directly withdrawn.

Because, Omi still didn't find any acquaintance's breath.

Thousands of years have passed and everything has changed.

Omi seemed a little disappointed, and slowly raised his head to look into the blue sky.

Profound and vast.

He seemed to see through the void and saw an unknown area that was infinitely far away.

At this moment, a very clear and sweet voice sounded behind him.

"Is there anything on it?"

After Omi heard this, he slowly turned around and looked over.

next moment...

Even after countless major events, even after thousands of years...

Omi's heart beat faster, and he was stunned in place.

Because, in front of him is a girl with a porcelain baby face, fair skin as snow, crystal as jade, and a plump body (oYo).

She... is Xia Xue.

Across the millennium, goodbye lover!

How could Omi not be excited?

"Xia Xue!"

When the words fell, Omi was about to give her a big hug.

Xia Xue reacted very quickly, dodged directly to the side, and said angrily: "What are you doing? Also, how do you know my name?!"

Omi was stunned again.

Xia Xue... don't know yourself?

How can this happen? !

Xia Xue warned: "I tell you, this is Jiangbei, and there are eyes everywhere! If you dare to mess around again, I will notify the investigation!"

After Omi heard her voice, he came back to his senses.

Then, quietly looked at Xia Xue.

Soon, Omi noticed a slight difference.

Although, she does have the appearance of Xia Xue.

However, it seems to be a little higher than Xia Xue, and the temperament seems to be different.

After that, Omi watched Xia Xue with his real eyes.

【 Favorability: 30 】

【 Appearance: 95 】

In the past, Xia Xue had a 99 favorable opinion of herself!

In addition, Xia Bing and Xia Xue have always appeared at the same time.

Now, there is only one person.

Then, UU read Omi used his skills again to listen to his heart.

Xia Xue's heart: This person's clothes are so strange, he just wanted to hug me, shouldn't it be a pervert? However, he looks so handsome! Perverts shouldn't be so handsome, right?

Omi's mouth twitched slightly.

Is the girl's mind jumping so fast?

After a while, Omi cleared his throat and said, "Sorry, I just recognized the wrong person..."

Xia Xue's heart: So polite, and her voice is also nice!

As a result, Xia Xue's favorability toward Omi soared, reaching 60 in an instant.

Omi's mouth twitched slightly again.

Just a word, just believe it?

Do girls trust people so easily?

Xia Xue nodded and said, "So that's how it is..."

...

Xia Xue asked, "By the way, are you a student of our Jiangbei University?"

Omi thought for a while and said, "That's right."

Strictly speaking, Omi was indeed.

He used to be a student of Jiangbei University because he solved Zhou's conjecture.

Although, he was later promoted to a professor at Jiangbei University.

However, Omi did not get a diploma from Jiangbei University at all.

Without a diploma, isn't that still a student of Jiangbei University?

The vigilant look on Xia Xue's face disappeared instantly, replaced by a shallow smile.

Students seem to always be synonymous with innocence.

She smiled and said, "So you are the freshman of our Jiangbei University this year! Why don't you come to the school in advance before you sign up? Do you need me to show you?"

In fact, even without Xia Xue, Omi wanted to go in and have a look.

What's more, Xia Xue appeared!

He wished to have more contact with her for a while.

Omi said, "That would be troublesome."

Xia Xue waved her hand and said, "No trouble, no trouble, it's just a small matter."

In today's universities, generally speaking, social personnel are prohibited from entering and leaving casually.

First, it's not safe.

Second, it affects the academic atmosphere.

Jiangbei University is even more so.

However, with Xia Xue leading the way, it is obvious that some troubles can be reduced.

When he came to the front door, a light curtain fell on Xia Xue's face, and the automatic door in front of him opened directly.

The two walked in like this.

In the former Jiangbei University, there were new high-rise buildings and many old flat floors.

In today's Jiangbei University, the first thing that comes into view is a patch of colorful flowers and emerald green trees.

The air is full of refreshing scents.

Looking up and looking into the distance, there are all tall and brand-new buildings, which are even more imposing than the CBD of a thousand years ago.

Xia Xue asked: "Our Jiangbei University is the best school in the entire Asian League, or even the best school in the world. If you can be admitted, you must have a good score in the college entrance examination, right? Shouldn't it be the champion of any district?"

Asian League?

Area?

And... Has Jiangbei University become the best school in the world?

It seems that many changes have taken place in the world in the past thousand years.

Omi smiled and shook his head.

Xia Xue said: "It doesn't matter if it's not the champion. After all, if a brick is thrown, it can hit several champions at Jiangbei University. It's nothing."

At this time, Omi was suddenly attracted by the statue erected in front of a teaching building.

Xia Xue looked in Omi's direction and smiled, "You also admire Professor Lin?"

"However, it's normal! It's estimated that few students don't worship him."

"It's really hard to imagine that people 1,000 years ago could solve Zhou's conjecture, twin prime conjecture, hail conjecture, Hodge's conjecture, Riemann's conjecture and other difficult problems in mathematics. I still can't understand it. Part of the problem solving steps."

"There are also earthquake predictors in the physical direction. Until now, scientists have not been able to replicate. Controlled nuclear fusion has solved the energy problem in one fell swoop."

"Chemical super battery, super battery."

"Biological Insulin Rehabilitation Pharmacy."

"There are also computer-oriented game helmets. I heard that the game helmets we use today are still based on the model he built."

"It's amazing!"

As Xia Xue spoke, a pair of beautiful eyes lit up.

It feels like fans are elaborating on the achievements of their idols.

Omi couldn't help rubbing his nose, and being praised so face-to-face was really... a little embarrassed.

Then, Xia Xue added: "In addition, there are legends... When the Earth had a doomsday crisis, the Asian League was composed of dozens of countries at that time, and each country selected some heroes to enter the other world and strive for hope for the earth. ."

“Our current position is Huaxia, and the person selected by Huaxia is Professor Lin!”

“It’s also that Professor Lin used his powerful strength to traverse the other world, and this was the only way to gain the peace of the earth.”

“Have endless knowledge, and at the same time, has endless power! Professor Lin is an absolute god! A perfect god!”

However, speaking of this...

Xia Xue smiled and said, “However, many people say that Professor Lin doesn’t exist at all, or that even if he exists, he doesn’t have so many achievements at all. It’s just that people added a lot of things to him later, and they created a great man.”

Omi frowned slightly.

In ancient times, this was indeed the case.

After all, in ancient times, history could only be written artificially, and it is easy to tamper with it.

However, the world 1,000 years ago already had film and television technology.

In addition, if I remember correctly, the behavior in the other world should be broadcast live, right?

Since there are live broadcasts, there will definitely be recorded broadcasts.

This is hard evidence!

Why, 1,000 years later, will such doubts arise?

At this time, Xia Xue said again: “After all, all other countries have videos of heroes from other worlds, but there is no other world video of Professor Lin. In addition, there are no photos of Professor Lin on the Internet at all.”

No video and no photos?

Omi’s expression moved slightly, and guesses gradually emerged in his heart.

Super smart watch!

The Luckiest man in the world CHAPTER 676–680

Yes!

Before entering the other world, Omi left the super smart watch on Earth.

The super smartwatch knows it doesn't like being exposed online.

I'm afraid, and only it, can achieve this level.

Xia Xue seemed to have thought of something and said, "By the way, I have been forgetting to ask, what is your name."

Omi said, "My name is Omi."

Xia Xue was stunned for a moment.

She looked at Omi up and down, and then laughed and said, "It seems that not only do you admire Professor Lin, but your parents also admire Professor Lin!"

"You actually took your name directly to Professor Lin."

After a pause, he said again: "However, it is normal to hope that the son will become a dragon and the daughter will become a phoenix."

"Come on, UU reading boy!"

After speaking, Xia Xue continued to walk forward.

"It is said that Professor Lin used to work in that office. The book said that he was a workaholic and lived in the office almost every day. Moreover, he lived in the office for a long time, for weeks or even months. come out!"

"By the way, have you seen the flower bed in front of you? The book says that once a student broke his leg there, Professor Lin was very heartbroken when he saw him limping."

"So, I locked myself in the office for a whole month, and then I invented a prosthetic limb and successfully made the student stand up."

...

Xia Xue felt... Omi seemed to be particularly interested in Professor Lin's affairs.

So, I specifically picked up Professor Lin's deeds.

However, when Omi heard these things, the corners of his mouth kept twitching.

What is this... all about? !

The reason why Omi kept Gilku and Abraham waiting was not because they couldn't enter the space channel.

Rather...

If that independent space is a forbidden area, then Gilku and Abraham go, it won't help much, it won't work, you can solve it by yourself.

If it is other special places, it is convenient to go and see for yourself.

...

Almost in the blink of an eye, Omi and Tiangu appeared in the dimly lit space.

He raised his eyes and looked into the distance. There were volcanoes spewing black smoke.

There was a strong smell of sulfur in the air.

He looked down at the ground.

The dry ground is constantly cracking, and you can even vaguely see the hot lava flowing.

There are no animals or plants around, and there is no life.

Hell... probably nothing more than that.

"Wang!"

At this time, the tengu standing beside him let out a bark towards the crack in the distance.

"dangerous!"

Omi looked in the direction the tengu barked.

"Wow!"

The next moment, a giant tortoise with billowing lava on its back suddenly emerged from the crack.

With its appearance, this space became even hotter.

The scene in front of him is constantly twisting.

“hold head high!”

The giant tortoise roared in the sky, like the sound of scratching glass, which was extremely harsh.

If Omi hadn't possessed a tyrannical physique, this roar might have caused him to bleed from the seven holes and die on the spot.

Omi frowned slightly and said, “It's so noisy.”

When the words fell, Omi directly pulled out the Starfall Sword in his hand.

[One of the swords: Draw the sword and cut the sky!]

“Wow!”

A sharp sword light rushed out and passed through the body of the giant tortoise.

“thump!”

then...

The giant tortoise fell to the ground like a mountain split in the middle.

Immediately, billowing magma poured out of the giant tortoise.

It is not blood, but lava!

Simply, incredible!

At this moment, an emotionless voice sounded in Omi's ear.

“Be the first to kill a level 9 lava giant tortoise and get a level 9 treasure chest.”

“The first to kill the 9th-level lava giant tortoise, and the endangered animals and plants in China increased by 10%.”

The next moment, a treasure chest appeared in front of Omi.

With a wave of his hand, the treasure chest opened.

“500 points of physique, do you want to use it?”

At the same time, a clear prompt sounded in Omi's mind.

[Ding! Congratulations, get a special red envelope, 5000 physique.]

Power, grow!

After that, Omi said to Tiangu, "You can use this light group."

Tengu put his paw directly on the light ball.

...

Huaxia live broadcast room.

Xiao Bing said in horror: "This... is this hell? It's terrible."

[Cass: Walked into that black rumbling hole, and then appeared here, could it be that... Lin Shenxian just walked through the space passage?]

[Burning Man: It turns out that Lin Shenxian can already form a space channel, no wonder he will give the primary space technique to Tengu.]

[Waiting: I want to say, is there anything that Lin Shenxian can't do?]

[Ruiling: Lava giant turtle? The body turned out to be flowing lava! Incredible!]

[Midnight Song: If this giant tortoise appears on Earth, even if it is successfully killed, it will probably cause an extremely terrifying disaster.]

[Without the world: However, it was still beheaded by Lin Shenxian with a sword.]

[Hungarian: Fortunately, we have Lin Shenxian.]

[Zhengdaguangguang: Endangered animals and plants have increased by 10%. I think it is one step closer to raising pandas at home, Ollie!]

...

Omi didn't look at the giant lava tortoise's body too much. He looked for a direction and walked forward.

"Boom!"

However, before he left for a long time, two dragons with flaming flames and tentacles on their heads came out from the ground.

Their eyes are like two huge fireballs, exuding tyrannical power.

next moment...

Two Flood Dragons flew towards Omi, one left and one right, as if they were going to turn him into ashes in an instant.

see this...

Omi was just waving the Starfall Sword in his hand.

“thump!”

“thump!”

In the blink of an eye, the two Flood Dragons broke into two pieces, splashed with rolling lava, and fell to the ground.

At this moment, another emotionless voice sounded in Omi’s ear.

“Be the first to kill a level 9 flame dragon and get a level 9 treasure chest.”

“The first to kill the 9th-level flame dragon, and Huaxia has added 20 species.”

Omi opened it casually, and inside it was 500 mental power points, which he gave directly to Tengu.

And Omi’s special red envelope increased his spiritual power by 5,000 points.

When Omi just opened the treasure chest...

“Boom!”

The ground ahead suddenly trembled violently, as if something terrifying was about to emerge from the ground, extremely terrifying.

No...

Not just the front, the back, the left, the right...all the same situation.

“Boom!”

The ground suddenly collapsed, and the billowing magma spewed out.

Omi’s brows twitched, and he pulled the Tengu and flew straight into the air.

He was in the air as if he were on the ground, and gravity had no effect on him.

next moment...

An ancient and mysterious altar suddenly emerged from the collapsed ground.

The wisps of lava, like ordinary flowing water, kept dripping from the edge of the altar.

In the middle of the altar, there is a golden seat. A giant with charred skin, burning hair, about 5 meters tall and the word 'king' on his forehead is sitting on this seat. above.

The giant slowly raised his head, looked at Omi with a pair of eyes that were like flowing magma, and made a rumbling voice, saying, "Who are you? You dare to trespass on my fire area! Even, what is the crime of beheading my subordinates?!"

"Boom!"

The voice fell, and the whole world shook violently, and all the volcanoes erupted with rolling flames.

He seems to be the only king in this world!

When the king is angry, the world changes!

Omi didn't care about the giant's words at all.

Kill your subordinates?

If you are weak, then the person who is killed is yourself.

Only the strong eat the weak.

Omi just glanced at the changes around him, and immediately became enlightened in his heart.

He murmured: "So it turns out, this may be another forbidden place."

"And this giant may be the strongest monster in the forbidden area, or the ruler."

"It seems... the forbidden land and the other world are located in different spaces. No wonder, it is difficult for everyone to walk into the forbidden land by themselves and need to be teleported."

A look of surprise appeared on Omi's face.

Below, the giant sitting on the golden chair, saw that Omi seemed to ignore him completely, as if he had been greatly insulted, and was completely angry!

The giant shouted sharply: "Boy, you are courting death!"

No matter how angry the king is, the sky will collapse!

Boom!”

All the volcanoes spewed out billowing lava.

Black smoke billows, the sky is torn apart, ghosts cry and wolves howl, extremely terrifying.

These lava continued to gather, and a sea of lava was vaguely formed on the ground.

The temperature of the whole world soared rapidly.

The earth and rocks all smoked black smoke, and raging flames would ignite at any time, and even turn into lava.

“Wow!”

The next moment, the lava suddenly condensed and turned into a giant lava dragon tens of meters thick.

“hold head high!”

The lava dragon roared in the sky, and countless rocks and ground were cracked and collapsed, and the momentum was unparalleled!

After circling in the air, it flew directly under the giant.

Afterwards, the giant riding the lava dragon swept through the terrifying heat wave, showing his teeth and claws, and flew towards Omi quickly.

That look...

As if to tear Omi to pieces and turn it into ashes!

If someone else saw this scene...

I am afraid that I will be so scared that my legs and feet will become weak and I will fall to the ground.

However, Omi’s expression remained the same, and he said indifferently, “The flame freezes, what will it look like?”

“laugh!”

As Omi’s voice fell, the sea of lava that was surging on the ground suddenly solidified and turned into fiery red ice crystals.

The ice crystals continued to spread, and soon, the entire sea of lava solidified with it...

Then came the roaring lava dragon, and the giant standing overhead.

In the end, the whole world turned into fiery red ice crystals!

Red...was supposed to be a warm color.

At this time, it was filled with a biting chill.

Omi glanced at the fiery red ice crystal world, and nodded lightly, "It's pretty nice to freeze the flames. After enjoying it, let's end it."

When the words fell, Omi pulled out the Starfall Sword from his waist and waved it casually.

"Wow!"

The sword energy in the sky spewed rapidly.

"Bang bang bang!"

Immediately, all the ice crystals shattered together, turning into powder in an instant, forming a falling smoothie, giving the world a different kind of scenery.

At this moment, an emotionless voice sounded in Omi's ear.

"Be the first to kill the 10th-level Flame Dragon King and get the 10th-level treasure chest."

"Being the first to kill the 10th-level Flame Dragon King, Huaxia has added 50 species."

"The first to destroy the level 10 forbidden land and get the level 10 mysterious treasure chest."

"The first to destroy the 10th-level forbidden land, Huaxia came to an initial forbidden land."

Then, two quaint boxes appeared in front of Omi.
