

The Luckiest man in the world CHAPTER 691–695

After a while, they came to a very warm box.

Omi asked, “Xiao Bai, have you turned your body into this now?”

The bionic robot said: “No, my body is still a super smart watch. This bionic robot is just controlled by me.”

Omi nodded knowingly, and added: “First, you can make a document for me to see the main events that happened after the forbidden area appeared 1,000 years ago.”

“Okay, master.” The bionic robot said.

Then, the eyes of the bionic robot projected dense text.

How much has happened in 1000 years?

If it were made into a book, there would definitely be dozens of them.

Most people want to read all of them, at least one month.

However, Omi had scanning skills, and he read all the information in just ten minutes.

It turned out that after Omi touched the ball of light, in the live broadcast, he was directly burned to ashes.

Immediately afterwards, a thick white fog appeared throughout China.

At first, everyone thought that this was the punishment brought by Omi’s death.

Some people think that the white mist is a poisonous gas, and if you inhale too much, you will die.

But soon, everyone realized that this was wrong.

These white mists are special energies that have the effect of increasing strength and spiritual power.

After someone inhaled the white mist, the power was infinite.

After someone inhales the white mist, water and fire can be controlled.

Some people have the ability to fly after inhaling the white mist.

Especially after ~www.novelhall.com~ Xia Bing and Xia Xue instantly inhaled the white fog in a radius of 100 miles, they became immortals in one fell swoop. When they arrived in Bangzi Country, they used their great power to kill many people who had insulted Omi. people.

Later, it attracted Xianmen to congratulate her on becoming an immortal.

However, Xia Bing and Xia Xue chose to give up, and after turning into two huge light groups, they never appeared again.

.....

Today's Omi's mental power has already reached a very terrifying level.

The stronger the spirit, the wider the heart.

Generally speaking, there is nothing at all that can make his heart fluctuate too much.

At this time, he slowly raised his head and sighed: "Not to become an immortal, just to wait for his return."

Then, in a very firm tone: "Xia Bing, Xia Xue, I will not let you wait in vain."

As more and more people inhale the white mist, the physique of Chinese people is also increasing.

In addition, Omi killed monsters in other worlds, which made Huaxia's energy, environment, etc., all have a great improvement.

Abroad is the exact opposite.

Gradually, China became the center of no doubt.

Most of the countries in Asia in the past were all attached to it, thus forming the current Asian League.

In addition, the reason why there are no pictures and videos about Omi on the Internet, as Omi expected, all of them were deleted and blocked by the super smart watch.

.....

Omi didn't take history too seriously.

After a while, he asked, "Then how did my parents, Xiao Yao, Hu Tian, Han Tian, Song Jiaxin, Su Ningjing, Ling Rou, Qiu Ziqian, Huang Ling, Chen Xin, Xu Jingrou and the others fare? "

The bionic robot said: "I don't know either..."

"I don't know?" Omi frowned slightly.

To know.....

The reason why he didn't take the super smart watch with him was to let it help his family and girlfriends on earth.

But now it says it doesn't know.

How could this satisfy Omi?

The bionic robot hurriedly said: "Because, on the second day after the two hostess Xia Bing and Xia Xue became immortals, your parents, Lin Xiaoyao, and the hostess suddenly gathered together, and then all of them suddenly gathered together. disappeared."

"Disappeared?" Omi was stunned for a moment.

Then, he showed a thoughtful look.

"The power of space?"

The unhappy expression on Omi's face gradually dissipated.

Xiaobai does possess extremely high technology, enough to monitor the world.

However, if the power of space is involved, it is also powerless.

Omi said, "I see."

Hearing the words of the bionic robot, he could not help but breathe a sigh of relief.

As long as Omi doesn't get angry, that's a good result.

Then, Omi focused his attention on the system in his mind, and locked it on the advanced spatial technique.

In the past 1,000 years, Omi has been at an advanced level in space and time control at an elementary level...

All other abilities have become perfect.

Now, there is a chance to make the space technique become perfect.

【Ding! Congratulations, the advanced space technique has been upgraded to the perfect space technique. 】

Immediately, the space around Omi fluctuated like water ripples.

He raised his hand slightly.

The next moment, Omi's palm stretched out from the wall in front of him, extremely strange and miraculous!

Omi murmured, "It turns out that it can be used like this."

Bionic robots and super smart watches are all machines in the strict sense, and there will be no emotional fluctuations at all.

However, when the bionic robot in front of him saw this scene, his mouth opened wide, and his face was full of surprise.

"Master...Master, you just..."

Omi said: "This is the power of space. You can understand that I can travel through four dimensions or even more dimensions at will."

The bionic robot immediately praised: "As expected of the master!"

Omi waved his hand and said, "By the way, why did I become the richest man in the world?"

The bionic robot said: "You used to hold shares in Penguin Group, Ali Group, Dahua Group and other companies, which brought in very considerable income every year. Later, these companies continued to develop, merge, and reorganize, and brought Lots of wealth."

"In addition, your patents for super batteries, super batteries, carbon-based lithography machines, insulin rehabilitation agents, prosthetics, controllable nuclear fusion, etc. have also brought a lot of wealth..."

"And the wealth brought by the Qinghong Sect..."

"Later, I invested part of the money in investment and development, and slowly it became what it is now."

"Now, these companies are all yours."

While the bionic robot was talking, the projection called out a dense list of tens of thousands of companies.

see this...

Even Omi couldn't help but be a little stunned.

No wonder he will become the richest man in the world, he has so many companies.

.....

Omi and the bionic robot stayed in the box until 5 pm.

He glanced at the slowly setting sun in the distance and said, "It's almost time for dinner, so let's go eat something first."

"What will food look like in 1,000 years?"

As Omi spoke, a look of anticipation appeared on his face.

"Xiao Bai, do you have any recommendations for places to eat delicious food?"

The bionic robot said: "Emperor Hotel!"

"Oh? Is it the former Emperor Hotel?" A look of surprise appeared on Omi's face.

The bionic robot said: "This is the former Emperor Hotel, but it has been rebuilt 15 times."

"Today's Emperor Hotel has a total of 365 floors. It is one of the five 9-star hotels in the Asian League. It has the most precious ingredients and the best chefs in the world, and can give you the best enjoyment."

"In addition, this Emperor Hotel still belongs to you, and the general manager of the Emperor Hotel is a descendant of Wang Fengyi."

Omi's eyes lit up slightly and said, "Not bad! Let's go to the Emperor Hotel then."

The most precious ingredients, the best chefs, and Wang Fengyi's descendants all attracted Omi.

When Omi and the bionic robot arrived at the gate of Jiangbei University, an extremely luxurious and cool hovering car had already parked in front.

When passers-by saw this suspended car, they all looked sideways.

Even, many people take out their mobile phones and keep taking pictures.

Facts have proved that no matter what age people are, they will be very envious when they see luxury cars.

Inside the suspended car, the space is far larger than imagined.

Lying flat, walking, all without any problems.

There is a good smell in the air.

When the vehicle is driving, there is no hesitation and shaking at all.

The front is equipped with a naked eye 3D projection, whether it is a meeting or a call, it can be easily handled.

Omi nodded with satisfaction and said, "What kind of car is this?"

"This is the ONE of the LX cars funded by LV and Rice Group. There are only 10 cars in the world, and the price is 200 million world coins."

"If it is converted according to the purchasing power of 1,000 years ago, it is about 1 billion yuan." The bionic robot said.

1 billion yuan?

1 billion cars?

No wonder so many people took pictures.

Omi nodded in understanding.

ONE drove down the winding avenue.

Not long after ~www.novelhall.com~ an incomparably fashionable and imposing high-rise building that reached the sky slowly appeared in the field of vision.

This... is the Emperor Hotel.

After Omi got out of the car, he glanced at the hotel and walked towards it.

At this moment, a very surprised voice suddenly sounded behind him.

" Omi?"

Omi heard this and turned around slowly.

Soon, a look of surprise appeared on his face.

"Xia Xue?"

Xia Xue at this time, wearing a blue dress, the same cute face, the same sweet voice, the same full body (oYo)...

At this moment, Omi seemed to be back 1,000 years ago.

this moment...

Omi felt that the pedestrians in the distance, the tall buildings in front of him, the road under his feet... all disappeared.

In his eyes, there is only one beautiful shadow, Xia Xue.

Time... also seemed to be frozen.

Everything, everyone, is at rest.

Xia Xue was stared at by Omi, her pretty face blushed a little, and said, "Why are you looking at me like this?"

Only then did Omi react and said, "This suit suits you very well, it's very beautiful."

"Really?" Xia Xue's pretty face became more and more ashamed.

Then, she tried her best to break the topic and said, "By the way, have you had dinner yet?"

Omi shook his head and said, "Not yet."

Xia Xue said: "Then today is a blessing!"

"Did you see it? The 9-star Emperor Hotel! Apart from being a student of Jiangbei University, I'm also the anchor of Sea Shark Live!"

"Today, I'm going to the 9-star Emperor Hotel to visit the store for a live broadcast! Just ask your bionic robot to help me get the camera, and later you can eat the food of the Emperor Hotel for free."

"How about it, isn't it a good deal?"

As Xia Xue spoke, a look of anticipation appeared on her pretty face.

Omi was stunned for a moment.

Is Xia Xue still a famous anchor in this world?

After a while, Omi nodded and said, "Of course you can."

“Okay, ready to broadcast!” Xia Xue said happily.

When the words fell, she took out a folding monitor from her pocket.

Soon, an extremely clear picture appeared on the screen.

Live Streaming... Start!

Xia Xue’s voice is very sweet, her charming appearance, and her ability to choose subjects...

Several superpositions have made her a good popularity in the live broadcast of Sea Shark.

Not long after she started broadcasting, someone started to leave a message.

[Zhu Xuan: Yeah! Our Xiaoxue has started live broadcasting!]

[Youth will not come: Emperor Zun Hotel! Xiaoxue is so trustworthy, she really came to the Emperor Hotel!]

[Xiao Ming: I have heard about the name of the Emperor Hotel for a long time. Today, I can finally take a good look at it.]

[Newcomer: Looking forward to Xiaoxue’s live broadcast.]

[Wind: Huh? Why is there still someone standing next to Xiaoxue? Looking at the back, it seems to be quite tall, and a little handsome.]

[Flowers: Xiaoshuai? Based on my many years of acquaintance with people, this is definitely a big handsome guy! Super handsome guy!]

...

In the live broadcast room, Xia Xue walked forward with brisk steps.

I have to say that the Emperor Hotel is really good.

The hall is ten meters high, coupled with diamond chandeliers, gold-inlaid floors, white jade carvings... Everywhere reveals the luxury of the hotel.

Although, Xia Xue was already mentally prepared.

However, after seeing this scene, I was still a little stunned.

At this time, a waiter in a suit walked over with a smile and said respectfully, "Welcome to the Emperor Hotel, may I help you with anything."

Xia Xueyan heard that, and then she came back to her senses and said, "You... hello, I want to eat here."

The waiter asked, "Do you have an appointment?"

"No." Xia Xue said.

The waiter said apologetically: "I'm very sorry, all the dining seats in our Emperor Hotel have been reserved for 15 days. If you want to eat next time, you can book a table after 15 days."

Xia Xue was a little afraid to answer: "Have the tables in the hall been reserved as well?"

To know...

The total height of the Emperor Hotel is 365 floors.

Even though, many of them are housing and banquet halls.

However, dining places must also take up a lot of space.

As a result, it was booked 15 days later?

"Yes." The waiter apologized again.

Xia Xue was a little disappointed and said, "Okay."

She had long promised her fans that she would come to the Emperor Hotel to explore the store.

In addition, she had heard the name of the Emperor Hotel a long time ago, and her dream was to come in and taste the food.

Promises and expectations are now all in vain.

Omi also saw the disappointment in Xia Xue's heart, and said, "Don't worry, I have already reserved a place."

Xia Xue couldn't help blinking her eyes, her pretty face was full of doubts.

Omi said to the waiter, "My name is Omi."

The waiter said respectfully, "Mr. Lin, please wait a moment."

When the words fell, he was busy holding the folding screen and searching for a while.

But soon, the waiter hesitated again: "Mr. Lin, I'm sorry, I don't seem to have found your reservation information in the system. Of course, there may be some loopholes in the system."

"Excuse me, do you have reservation information there? Can you show it to me if it's convenient?"

It has to be said that the Emperor Hotel is worthy of being a 9-star hotel.

The quality of the waiters alone is far from what ordinary hotels can match.

Omi waved his hand and said, "I don't have any information. You can call your general manager Wang You directly, he knows."

No booking information?

Moreover, you have to ask the general manager yourself?

The waiter was a little hesitant.

After all, it does not mean that if you call the general manager, you can call the general manager.

Once the general manager is dissatisfied, the consequences are absolutely very serious.

However, the waiter felt the good temperament coming from Omi, so he had to grit his teeth and said, "Mr. Lin, please wait a moment."

When the words fell, he walked to the side, took out his mobile phone and hesitated for a moment before dialing the call.

A phone call is only likely to annoy the general manager.

If you neglect the VIP, it will definitely make the general manager furious.

...

Xia Xue quietly tugged at the corner of Omi's clothes and said, "He's going to call the general manager now, what should I do later?"

Obviously, Xia Xue didn't think that Omi had already reserved a place, and even made a reservation with the general manager.

Xia Xue felt that Omi was just deliberately bluffing the waiter to gain a position.

No wonder Xia Xue thought so.

You must know that the Emperor Hotel is the top five 9-star hotel in the Asian League!

The general manager of Emperor Zun Hotel is definitely a very great person.

And Omi is only a prospective freshman of Jiangbei University, so how could he decide a position in the hands of the general manager?

Omi naturally understood what Xia Xue was thinking, and smiled, "Don't worry, there's no problem. UU Reading [www. .com](http://www.uureading.com)"

"Tap Tap!"

At this time, the waiter had put down the phone and walked over quickly.

"Hello, Mr. Lin, this way." The waiter bent over and said in a far more respectful tone than before.

In his ears, the words of General Manager Wang You seemed to be echoing.

"Mr. Lin is the most honorable guest in our Imperial Hotel! I'm on my way now. Before that, you must ensure that Mr. Lin receives high-quality service!"

"Afterwards, I will give you the highest reward!"

The waiter had never heard such a serious tone from the general manager.

He understands that this Mr. Lin is definitely a very remarkable existence.

The waiter secretly rejoiced in his heart: Fortunately, he made a phone call to the general manager.

Xia Xue could hardly believe her eyes and ears.

The waiter was so respectful to Omi?

He just confirmed with the general manager?

Omi really booked a place with the general manager?

Seeing Xia Xue froze in place, Omi couldn't help but say, "Why are you standing? Don't you want to go in for dinner?"

"Oh...oh...Okay." Xia Xue responded and responded.

Under the leadership of the waiter, three people and one bionic robot walked into the VIP exclusive luxury elevator.

“Whoosh!”

I only saw the numbers on the elevator jumping rapidly, but I didn't feel any sense of shaking and weightlessness.

“Ding!”

When the number jumped to 365, a crisp sound came from the elevator.

The waiter respectfully said, “This way, please.”

Walk through spacious, luxurious hallways.

The waiter pushed open the heavy box door.

When walking into this box, Xia Xue couldn't help but open her mouth wide, her beautiful eyes flickering faintly, and her pretty face was full of surprise.

This box is very spacious and gorgeous, with bright crystal chandeliers, soft and bright wool carpets, diamond-studded tables and chairs, white jade tableware...

More importantly, the three walls of this box are full of high-brightness panoramic floor-to-ceiling glass.

Standing above the 365 high-rise building, there were even a lot of clouds gathered outside.

This makes this luxury box seem to be located in the sky, like a fairyland!

Seeing that Xia Xue liked it so much, Omi nodded in satisfaction.

The waiter said, “Mr. Lin, this is our menu.”

Then, a 3D projection of the dish appeared on the table.

Omi turned to Xia Xue and said, “Look, do you have any favorite dishes?”

After Xia Xue heard the question, she slowly retracted her thoughts and said, “Ah...ah...I, I'm not picky eaters, you can choose the dishes.”

Omi nodded and quickly chose a few dishes.

Then, he said to the waiter, “Do you have any recommended dishes?”

The waiter respectfully said: "Our Emperor Hotel, not long ago, brought a batch of deep-sea golden urchins, giant scorpions, armored shrimps from the Pacific forbidden area... These meats are all very delicious, coupled with the cooking of our special chef, the taste is very good. good."

As he spoke, he couldn't help swallowing.

Obviously, these foods taste really good.

Omi nodded and said, "Okay, then serve all the dishes you just said."

Then, Omi ordered a few more dishes and two bottles of wine.

Then he said, "That's all for now."

The waiter said respectfully, "Okay, Mr. Lin, please wait a moment."

After speaking, he slowly exited the box.

Soon, only Xia Xue, Omi, and the bionic robot were left in the box.

Xia Xue looked at the beautiful scenery outside the window again, and suddenly thought that she was still broadcasting live, so she hurriedly picked up the folding screen.

At this time, the number of people online in the live broadcast room has reached 310,000 people at some point!

Countless barrages, like raindrops, keep rolling.

[Men's Youth: My God! I just thought that Omi was just bluffing the waiter, but it turned out to be true? He made a reservation with the general manager of the Emperor Hotel? This is too stupid, right?]

[Lucky: It's more than a cow, it's just endless, okay? Booked directly to the 365th floor! I'm good!]

[Don't cry: It's like a fairyland.]

[Life is precious: Who is this Mr. Lin?]

[Phoenix: Xiaoxue, Xiaoxue, shouldn't this be your script?]

[Moon in the Wind: If it was a script, it would be too ugly!]

...

Seeing this, Xia Xue hurriedly said, "This is not a script, but I don't know exactly what the situation is."

Then, she asked, " Omi, are you familiar with the general manager of the Emperor Hotel?"

Omi shook his head and said, "I haven't seen him."

"Ah?" Xia Xue was stunned.

Unfamiliar.

Then, you just said that you have booked a seat with him.

Then, the waiter ran over to make a phone call, and took us to the top box?

This...

This...

Shouldn't the waiter be fooled and didn't call at all?

Or, is there any misunderstanding in it?

A VIP really made an appointment with the general manager, but the waiter made a mistake.

This... how should this be?

Omi also seemed to see the worry in Xia Xue's heart, and couldn't help but smile: "Don't worry, just eat with peace of mind."

...

The three chefs are pushing the deep-sea golden gallbladder, giant scorpion, armored shrimp and other ingredients towards the working elevator.

At this moment, a man in a plaid shirt came over with a gorgeous woman in his arms.

The gorgeous woman said softly, "Deep-sea golden urchins can be used for beauty and beauty, Brother Jie, I want to eat deep-sea golden urchins later."

The man in the plaid shirt immediately said: "My baby wants to eat it, of course it's no problem!"

Then, he stopped the three chefs and said, "You guys will send a deep-sea golden gallbladder to the spring box on the 288th floor later. Well, that giant scorpion is not bad, let's have another giant scorpion."

The gorgeous woman said happily: "Brother Jie is really good."

While speaking, he did not forget to rub back and forth on the man in the plaid shirt.

The man in the plaid shirt laughed and said, "Of course!"

The chef standing at the front couldn't help but apologize: "I'm sorry, this gentleman, our Emperor Hotel only has a deep-sea gold urchin and a giant scorpion today."

The man in the plaid shirt said, "There is only one copy? Isn't that just right? Send this to my box."

The chef apologized: "But this one has already been ordered."

The gorgeous woman said aggrievedly: "Brother Jie, do people want to eat deep-sea gold urchins?"

The man in the plaid shirt patted her shoulder lightly and said, "Don't worry, you can definitely eat it."

Then, he said to the chef: "I ordered it, but it's not for eating! You tell the person who ordered that his deep-sea golden urchin, Fang Wenjie, I am willing to pay twice the price to buy it from him!"

"Now, send this deep-sea golden gall to my box."

The chef said hesitantly: "This... I'm afraid we can't be such a master. UU Reading [www. .com](http://www.uu.com)"

The man in the plaid shirt raised his brows and said, "Okay, I won't embarrass you anymore. Tell me, which box is he in? I'll go over and tell him in person!"

The chef hesitated and didn't answer right away.

The man in the plaid shirt was finally angry, and said solemnly: "What? You don't even give me Fang Wenjie this little face? You just look down on our Dafang Group? So look down on our Fang family?"

The chef's heart skipped a beat when he heard this.

The Fang family of the Dafang Group, this is definitely a giant family, a terrifying existence that can easily crush its own with one finger.

He panicked: "This... this guest is in the box on the 365th floor."

"Okay, I see." Fang Wenjie said lightly.
