

The Luckiest man in the world CHAPTER 731-740

Quiet early morning.

A large group of people in pajamas with sleepy faces stared at the fire without blinking.

As soon as Xia Xue swallowed a piece of meat, it seemed that she also felt something abnormal, so she turned around slowly.

The next moment, Xia Xue was stunned.

She stammered a little: "You... how did you wake up?"

The woman with the curly hair did not answer, but instead asked, "Xia Xue, what are you... doing?"

After speaking, she couldn't help but swallow her saliva.

Xia Xue said, "We... are grilling?"

The woman with the curly hair asked again, "Is it delicious?"

"Delicious!" Xia Xue's answer this time was very positive.

"Gollum!"

Everyone couldn't help swallowing.

Xia Xue seemed to have noticed that the classmates wanted to eat barbecue, and just wanted to invite them to eat together.

But, soon, she realized that these barbecues did not belong to her at all.

So, Xia Xue turned to look at Omi again.

Omi smiled and said, "There are still a lot of barbecues here. Let's sit down and eat together."

When the students heard the words, their eyes lit up.

"Then we're welcome."

“Thank you.”

“thanks.”

...

All the students stepped forward quickly, cut a piece of roast meat, and quickly stuffed it into their mouths.

Mouth full of fat and admiration.

“too delicious!”

“good to eat!”

“I’ve never eaten such a delicious barbecue!”

...

There was no contrived tone in their tone, or it was sentimental.

This is also normal.

They hurried a day’s journey, and there was no oil or water in their stomachs at all.

And Omi had professional cooking skills thousands of years ago.

Over the past thousand years, various capabilities have been developed for a long time.

He barbecued himself, where would it not be delicious?

...

Studio.

[Fengyun Sanren: This... This is too delicious to eat!]

[Who is nobler than the other: I want to eat too.]

【 Farewell: No way! I gotta get up and eat meat! 】

[Like hot girls: My saliva has flowed down a pillow.]

...

In just a few minutes, the huge barbecue was all eaten up.

The squad leader Zhang Fen said, " Omi, your barbecue is so good, I think you can become a star chef in the future."

As soon as this statement came out, it immediately aroused the approval of many people.

"Yes! You can be a star chef!"

"I heard that the salary of a star chef can be more than 50,000 world coins per month."

"Some powerful star chefs, especially handsome star chefs, can even host chef shows! Omi is so handsome, he must be able to do it!"

"Hosting the show? That would be amazing!"

...

Everyone you said, I said, a look of longing and envy gradually appeared on the face.

This is also normal.

According to the purchasing power of today's currency, 10,000 world currency is about 100,000 yuan a thousand years ago.

50,000 world coins, that is 500,000 yuan!

500,000 monthly salary! Even for graduates of Jiangbei University, it is definitely a very high income.

They thought so, but everyone in the live broadcast room didn't think so at all.

...

[Final: Let Omi be a star chef?]

[Flaming Beauty: 50,000 World Coins? How much do you despise Omi?]

[Dapeng: They don't even know who they are talking to.]

...

In the blink of an eye, it was the next day.

A little bit of sunlight filtered through the cracks of the tree, like stars, falling on the faces of Omi, Xia Xue, Li Dongqiang and others.

“Whoosh!”

At this time, a gust of breeze blew and brushed the faces of everyone.

Everyone seemed to be aware and slowly opened their eyes.

Last night, everyone ate delicious food, and the air in the forest was much fresher than in the city, which made everyone sleep very comfortable and satisfied, and had a good mental state.

After everyone simply cleaned up, they set foot on the road again.

“rustle!”

Not long after walking, there was a sudden sound in the distance.

The squad leader Zhang Fen hurriedly shouted in a low voice: “There seems to be something ahead, everyone be careful!”

As soon as this statement came out, everyone became vigilant.

After all, this is a forbidden place.

Although it is only an external area, there are still many dangers.

Not long after, several figures popped out of their heads.

When Zhang Song saw it was someone, he could not help but sigh in relief.

Of course, not completely relieved.

He opened his mouth and asked, “We are students of Jiangbei University’s 2011 class. I am the monitor of the 2011 class. Today, the school organized an expedition to the No. 31 forbidden area. Who are you?”

At this moment, someone shouted from behind.

“Senior Marriott?”

“Vice President Chen Ming?”

...

The person on the opposite side is also observing Zhang Song and others.

After hearing Zhang Song's words, they all became indifferent.

And Chen Ming, who was walking in the front, his eyes lit up slightly.

Because, he saw Xia Xue!

Chen Ming said with a smile: "It turned out to be from the 2011 class. We are the cadres of the school's student union. According to the school's requirements, we enter the forbidden area to do business. I am Chen Ming, the vice president of the school's student union."

Immediately, there were voices of discussion and admiration at the scene.

"It turned out to be the vice president of the school's student union."

"It's amazing that the vice president can still go to the forbidden area to do errands."

"I knew I would have joined the student union in the first place."

...

Chen Ming listened to everyone's admiration and envious eyes, and the corners of his mouth could not help but rise slightly, very proud.

He likes this feeling.

Then, Chen Ming showed a smile that he thought was handsome, and said to Xia Xue: "Xia Xue, it's such a coincidence that we meet again."

"Do you like to come to the forbidden area? When you become a minister in the future, I can bring you in too."

I have to say that Chen Ming is really good at grasping people's hearts.

First, he spoke softly, and acted like a gentleman.

Then, he also stated the benefits that ordinary people cannot refuse.

For someone else, it's definitely easy to be toyed with between applause.

However, Xia Xue was different.

She frowned slightly, suppressing the boredom in her heart, and said, "Really? However, I don't like the student union, and I will quit after a while. There are still a few student union members in our class, and you can consider making them ministers at that time. , and then take them to a forbidden area to do business."

After speaking, Xia Xue could not help but glance at Omi quietly.

Seeing that he didn't show any expression, his heart was quietly relieved.

Chen Ming couldn't help being stunned.

He did not expect that Xia Xue would quit the student union.

Soon, he focused his attention on Omi next to Xia Xue.

Chen Ming's eyes moved slightly, and he seemed to have some guesses in his heart.

Perhaps it was Omi who wanted Xia Xue to quit the student council.

Thinking of this, Chen Ming's eyes flashed with anger.

However, his face was still very warm, and he said, "Xia Xue, don't rush out of the student union first, and think about it more."

Then, Chen Ming said again: "Hey, isn't this classmate Omi?"

There was a hint of surprise in his tone.

That look, as if he really just saw Omi.

After a pause, Chen Ming said again: "Isn't forbidden area 31 a place to be explored by Class 2011? Why is Omi here?"

This sentence is not without ulterior motives.

Because, Chen Ming had read the list of Xia Xue's class a long time ago, and there was no one named Omi at all.

Omi did not belong to the 2011 class, but now, he is with Xia Xue!

To know...

Jiangbei University organizes students to explore forbidden areas every year, so that students have the opportunity to master supernatural powers.

However, generally speaking, most of them enter the forbidden area in units of classes.

In addition, it is strictly forbidden for others to enter the forbidden area.

Once found, they will be severely punished.

Omi said lightly, "Because, I'm in class 2011."

"Omi is in class 2011?" Chen Ming's voice was full of distrust, and he cast a questioning look at Zhang Song.

Zhang Song explained, "Omi was transferred to our class this semester."

Chen Ming's heart became more and more gloomy.

Transferred to Xia Xue's class, and also served as Xia Xue's dance partner.

Now, Xia Xue wants to quit the student union because of him.

The more Chen Ming thought about it, the more resentful he became.

However, his face was full of smiles, and he suddenly said: "So it is, the 2011 class has Xia Bing, Zheng Zicong, etc., many students' union officials, they may become ministers in the future, or even the president of the student union!"

"I always feel that the 2011 class has a very good environment for talent growth. You can also join the student union. Perhaps, you also have the opportunity to become a minister and the president of the student union."

"In this way, it will be easier to enter the forbidden area in the future, or to find a job after graduation."

After he finished speaking, he couldn't help raising his head, like a high-ranking leader, quietly waiting for his subordinates to flatter him.

Generally speaking, the vast majority of students either want to enter the forbidden area, and thus have power beyond ordinary people.

Either you want to graduate to find a good job and thus have a good income.

Chen Ming directly throws out both benefits, which is definitely a great temptation for many people.

Unfortunately, the person he met was Omi.

Omi said, "The student union has so many benefits? However, I don't join the student union."

When Chen Ming heard the first half of the sentence, the smug look on his face became more intense.

He thought that Omi was going to flatter himself immediately.

However, the second half of Omi's sentence directly choked him.

With so many benefits, why don't you join?

Chen Ming coughed lightly and said, "This... you don't have to refuse so quickly, think about it more, it's not harmful."

...

Studio.

[Growing financial resources: Hahaha! Almost made me laugh!]

[Within range: Unexpectedly, Omi still has such a humorous side.]

[Happiness: Joining students have the opportunity to enter the forbidden area? Then, is it easier to find a job? Hey Hey hey! The core members of the Wang family in the Imperial Hotel seem to be able to enter the No. 23 forbidden area. The heads of the Wang family are so respectful to Omi, will he not be able to enter?

As for work? The Wang family is so respectful to Omi, and the employees of Yuese Snow Tea also bring him milk tea in person. Will he still worry about work?]

[Shi Shi: President of the Student Union? For those who don't know, they thought it was the governor of which state.]

...

After Chen Ming slumped on Omi, he chatted with the squad leader Zhang Song.

Now, Chen Ming's matter has been dealt with, and there is nothing left or right.

And if you stay in the forbidden area for a while, you may encounter some opportunities.

In addition, with his own ability and understanding of forbidden areas, if he operates properly, he may be able to build a taller figure in Xia Xue's heart.

So, Chen Ming proposed an adventure with the 2011 class.

In this regard, Zhang Song is naturally extremely welcome.

Because, according to Zhang Song, the vice president and president of the current student union all have power beyond ordinary people, or have unusual abilities...

In general, they all belong to those with special abilities!

In addition, Chen Ming can come to the No. 31 forbidden area to do business, which shows that he knows the place very well.

From these two points of view, it can not only make everyone in the 2011 class safer, but also get more opportunities to get the benefits of forbidden land.

Sure enough, with the addition of Chen Ming and others, everyone's sense of security has been improved.

Because, in just a few hours, Chen Ming was the first to discover the poisonous snake, and also drove away a wild boar.

Those students who were almost injured because of this, thanked and praised Chen Ming one after another.

Gradually, Chen Ming vaguely became the most eye-catching person in the 2011 class.

Chen Ming's chin kept rising, and he was very satisfied with the reactions of his classmates.

Sometimes, he would look at Xia Xue from time to time.

Several times, Chen Ming had an illusion, as if Xia Xue often cast adoring glances at him.

This made Chen Ming even more happy, and felt extremely grateful for the decision to stay and explore with the classmates of 2011.

He was fortunate that some people gritted their teeth secretly.

That is Li Dongqiang.

Along the way, Li Dongqiang, like yesterday, has always been paying attention to the surrounding environment.

He also found traces of poisonous snakes and wild boars, but his reaction speed was half a beat slower than Chen Ming.

This caused Chen Ming to solve it in advance, which allowed Chen Ming to get a lot of thanks.

Originally, these thanks all belonged to me, and I would have a lot of thanks coins.

Thank you on behalf of thank you coins, thank you coins on behalf of strength!

Destroying people's strength means hatred, great hatred!

A person who is not from the class of 2011, but ran over to make revenge against himself!

Li Dongqiang was extremely angry.

Night falls.

All the classmates were lying in their sleeping bags just like yesterday.

Li Dongqiang, Omi, and Xia Xue were on duty in the middle of the night yesterday, so naturally they don't need to be on duty today.

Chen Ming only joined the group today, and he was barely considered a guest, and he didn't need to be on duty either.

Like most of their classmates, they were lying in sleeping bags.

"Cuckoo!"

Maybe it was because of eating badly during the day, and not long after Chen Ming lay down, his stomach became a little uncomfortable.

He slowly got up, clutched his stomach, and ran quickly into the dark woods.

At this time, Li Dongqiang, who had closed his eyes and seemed to have fallen asleep, suddenly opened his eyes.

Then, in the direction that Chen Ming was going, he quickly followed.

"Bang bang bang!"

Not long after, there was a dull thumping sound and a low roar in the dark woods.

"who?"

"Stop hitting, poop, I'm going to sit on the poop."

"Don't fight!"

"what!"

"It's over!"

The sound... gradually subsided.

The woods... fell into silence.

The three classmates on duty seemed to have heard the sound and turned around to look into the woods.

However, it was the early morning, and the woods were dark, where could they see anything?

The three looked at each other with a look of doubt on their faces.

After a moment of hesitation, the man in a black T-shirt said, "Are we going to take a look?"

"Let's... have a look." The man in the plaid shirt on the left hesitated.

"Then let's be careful," said the man on the right wearing silver-rimmed glasses.

So, the three of them tiptoed and walked forward slowly.

However, they walked for a while without finding anything.

The man in the black T-shirt said, "It doesn't seem to be abnormal."

The man with silver-rimmed glasses said, "It stinks, what is it?"

"Poop! Damn! Who's pooping here? Besides, it's all over the place! It's like rolling around in poop!"

"Go, go!" the man in the plaid shirt shouted, resisting the urge to vomit.

Compared with the caution and vigilance when coming, take three steps.

When they returned, the three of them could be said to be in a 100-meter sprint, eager to leave in the shortest time possible.

At this time, Chen Mingzheng hid behind a big tree, and when the three of them walked away, he breathed a sigh of relief.

He glanced at the yellow object on his hand, retched, and said angrily, "Don't let me know who you are!"

Then, Chen Ming glanced at the yellow object on his clothes, and retched again, and said, "I'm full of **** right now, and I must not let Xia Xue see it. Now I must hurry back to the city to take a shower and change my clothes!"

After speaking, he quickly turned around and ran into the deep forest.

On the other hand, Li Dongqiang has quietly returned to his sleeping bag.

He thought to himself: cutting off someone's future is like killing one's parents. I just beat him up, then let him get some poop, sure enough, I'm still very kind, hehe.

The corner of Li Dongqiang's mouth rose slightly, and he slowly entered into a sweet dream.

What he thought he was doing was very secret and no one knew.

Actually...

Everything that happened, and even what he thought, was all in Omi's eyes.

Omi smiled in his heart: "This Li Dongqiang is very interesting, hahaha!"

Immediately, Omi's affection for Li Dongqiang rose rapidly.

Li Dongqiang still doesn't know how much benefit this good impression will bring to him in the future.

...

In the blink of an eye, it was the next day.

After the classmates got up from their sleeping bags, they were in high spirits just like yesterday morning.

They chatted with each other and laughed from time to time, looking very relaxed.

"Our 2011 class was so lucky that we even met Vice President Chen Ming."

"With Vice President Chen Ming leading the way, our trip to the forbidden area will definitely be very safe. Maybe, we can really have some gains."

While talking, several people looked at Chen Ming's sleeping bag.

But soon, they became a little confused.

"Hey, what about Vice President Chen Ming?"

"Did you get up so early?"

"I got up early and didn't see Vice President Chen Ming."

"What's wrong?"

Gradually, more and more people made puzzled voices.

Then, someone suggested organizing classmates to find Chen Ming.

After all, the disappearance of someone for no reason is definitely a big deal.

What's more, this disappeared person is still the vice president of the student council.

At this time, Omi said, "There's no need to look for it."

Everyone looked over with puzzled eyes.

Omi said, "He left last night."

While speaking, a 3D projection appeared in front of him.

In the projection, there is an extremely embarrassed man, it is Chen Ming.

At this time, Chen Ming was covered in yellow objects.

The Luckiest man in the world CHAPTER 736-740

Then, he whispered: "I'm full of **** right now, I can't let Xia Xue see it, and now I have to go back to the city to take a shower and change my clothes!"

After these words fell, the whole scene was silent.

Many people's bodies kept shaking, and their whole faces were flushed, which was almost a sign of laughter.

In fact, when everyone saw the yellow object on Chen Ming's body, they also had some guesses in their hearts.

However, after Chen Ming himself admitted, the situation is obviously different.

At this time, the man in the plaid shirt whispered: "Yesterday, I thought someone stepped on the stool, it turned out to be Chen Ming..."

After his voice fell, the calm scene was finally broken.

"Hahaha!"

"The whole body is sh*t."

“Ha ha ha ha!”

“Chen Ming was too careless.”

Several people couldn't help laughing.

Their laughter seemed to ignite the scene.

Gradually, everyone burst into laughter.

After a while, the squad leader Zhang Song cleared his throat. He tried his best to restrain the urge to laugh and said, “This...it's not too early, let's continue on our way.”

No more Chen Ming...

Li Dongqiang cleaned up two snakes in the morning and got 4 thanks from his classmates, so he got 4 thanks coins.

Then, I used 4 thank-you coins to draw a lottery to get 15 pounds of power.

Li Dongqiang felt the growing power in his body, and couldn't help feeling that it was definitely the right thing to beat Chen Ming away.

In the blink of an eye, a few days have passed.

In the past few days, Li Dongqiang drove away two wild boars and two poisonous snakes.

In addition, he also helped three female classmates carry bags and helped one classmate on duty.

This allowed him to get 13 thank you coins.

These 13 thank-you coins have increased Li Dongqiang's strength by 40 pounds.

Ahead, there is still a patch of woods.

The faces of all the classmates were a little disgraced, except for Xia Xue.

Even Xia Xue felt a little puzzled.

Why did I walk in the forbidden area for a few days, I was not tired at all, and there was not a trace of dust on my body.

This feeling is as if you have just arrived in the forbidden area.

However, she did not feel too much joy because of this, and there was a touch of regret on her pretty face.

Omi felt this and couldn't help but ask, "Xia Xue, why does it seem a little unhappy? Are you tired?"

Xia Xue shook her head and said, "I'm not tired."

After a pause, he added: "It's just... I heard that there is an opportunity to become a person with special abilities in the forbidden area, and now there are only 2 days left before leaving the forbidden area, but we haven't found anything special yet, this time I'm afraid it will be a waste to enter. It's time for a forbidden land."

After speaking, Xia Xue secretly sighed.

Opportunity to become a person with special abilities?

Omi's eyes moved slightly.

only see...

Omi took a deep breath. www..com

next moment...

A hurricane suddenly appeared on the scene.

Then, the white energy visible to the naked eye rushed forward and completely enveloped everyone.

"call!"

"Suck!"

"call!"

"Suck!"

With almost every breath, the power of all people will grow and grow rapidly!

"Dong Dong Dong!"

Everyone's heart beat like a drum, full of tyrannical power.

PS: My girlfriend is hospitalized, and I accompany me in the hospital. The update will not be too stable these days.

In addition, in the past few days, I will take care of the next plot.

Some people have blue veins throbbing and muscles soaring.

There was a stream of water over someone's head.

Someone was surrounded by fire.

...

This is all a change of special abilities.

Moreover, with the passage of time, these changes in the students became more and more obvious.

Among them, Xia Xue has the most significant change.

Because, Xia Xue seemed to have a powerful suction, madly absorbing the white mist.

Even several cyclones visible to the naked eye were formed.

Gradually...

Xia Xue's whole body shot out a splendid golden light, pure and dazzling.

After a while, the white fog dissipated.

All the students, you look at me, I look at you, the face is blank for a while.

Immediately afterwards, there was an indescribable excitement.

Someone waved his hand, and a few drops of water condensed in front of him.

Someone opened his mouth and spit out a wisp of flame.

Someone threw a punch, and the tree in front of him shook violently.

...

"Water attribute power!"

"Fire attribute power!"

"I have a lot of strength!"

"I have a special ability!"

“Great!”

Everyone screamed in excitement and jumped and jumped like children.

Xia Xue jumped into Omi’s arms and said excitedly, “I have become a special ability!”

But, soon, her pretty face was blushing, and she hurriedly dodged to the side.

Omi looked at her shy appearance, and the corner of his mouth twitched slightly.

It is unexpected that such a thing can happen by gathering some energy.

...

Studio.

Countless barrages are constantly scrolling.

[Youth never comes again: **** it! What happened just now? Why... all have special abilities?]

[Swing sword: fire ability, water ability, soil ability, strength... Ma Ma! I also want to go to the forbidden area, and I also want to become a person with special abilities!]

[Time Traveler: Ask the boss, what exactly is Bai Wu?]

[Mind like a sea: I want to be admitted to Jiangbei University! I have to study hard! My friend asked me to play games, and I directly blocked my friend! The beautiful girl asked me to watch a movie, and I told her to get out!]

[Song: Xiaoxue, what ability do you have?]

[Emperor Zhonghuang: Oh my God! Xiaoxue actually hugged Omi, I don’t envy at all, I just want to say, nice job!]

[Hello everyone: My goal is Jiangbei University! I want to become a special ability person too!]

...

The 2011 class, the purpose of entering the forbidden area this time.

One is for exercise.

The second is to have special abilities.

Now, all the students have been living in the forbidden area for several days, and they have suffered some hardships and got some exercise.

All have special abilities.

It can be said that this trip to the forbidden land was completely complete.

Perhaps, because of the special ability acquired, the tired look on everyone's faces disappeared without a trace.

For the next two days, the students walked, chatted, and experienced their special abilities from time to time. The atmosphere was extremely relaxed.

Most people have a smile on their face all the time.

Except Li Dongqiang.

Li Dongqiang also inhaled the white mist and also acquired special abilities.

However, next time, he has no chance to help his classmates.

If you can't help your classmates, you won't be able to get thank you coins.

One increase and one decrease made his face show a tangled expression of wanting to laugh and sigh at the same time.

...

Two days passed in a flash.

A week of forbidden exploration has come to an end.

At this time, the head teacher Qin Chuan and the man in black were standing at the gate of the forbidden area chatting.

Qin Chuan said: "How many people in our class will reach the E level?"

The man in black smiled and said, "Two people? One? Maybe none."

Qinchuan asked, "How much did we say to bet? 100 World Coins? Or 50 World Coins?"

The man in black almost didn't laugh and said, "It's 20,000 World Coins!"

"20,000?" Qin Chuan's eyes widened, his face full of disbelief.

He was just about to say something.

“rustle!”

In the woods not far away, there was a sudden sound.

The man in black said, “I’m back!”

After a pause, he reminded again: “Betting, don’t worry about it!”

Then, a large group of students gradually showed their bodies.

Qin Chuan hurriedly put away his worries, glanced at the students, and saw that there were not many of them, and it seemed that he was not injured, so he could not help but breathe a sigh of relief.

Although, Jiangbei University allows some casualties in the forbidden area.

However, whether it was because of worrying about trouble or caring about students, Qin Chuan didn’t want such a thing to happen.

When Qin Chuan saw the students.

The students also saw him, so they quickened their pace and ran towards Qin Chuan.

Then, all the students shouted excitedly.

“Teacher, I have a special ability!”

“Teacher, I have mastered the flame ability!”

“I can control the dirt!”

“I can condense water!”

...

While shouting, the students used their corresponding abilities.

Immediately, Qin Chuan and the man in black all opened their mouths wide, and their faces were full of horror.

Under normal circumstances, as the man in black said, at most two or three people can become E-level abilities.

Qin Chuan said more than 5, which is definitely a rare situation.

As for how difficult it is, in the past ten years, no class has appeared.

Therefore, even though Qin Chuan owed the Men in Black 10,000 World Coins,

The man in black still promised to continue gambling with Qin Chuan.

After all, if you give yourself 20,000 World Coins, you don't want it for nothing.

As a result, what is the situation now?

Everyone in the class has become a special ability!

Even, they could vaguely feel that a small number of the students were not only the lowest E-level special abilities, but D-level and even C-level!

This... what exactly is the situation?

After a long while, Qin Chuan reacted and stammered, "Ah... it's... not bad."

not bad?

Where is this good enough to explain?

Simply a miracle!

Qin Chuan asked, "How do you have these special abilities?"

So, Zhang Song, the monitor of , talked about the general process.

When mentioning the white fog that suddenly appeared, Qin Chuan and the man in black shrank their pupils together and said in surprise, "The initial fog!"

Zhang Song asked in confusion, "Teacher, what is the initial fog?"

Many students pricked up their ears one after another, obviously, they were also full of curiosity about it.

Qin Chuan thought for a while and said, "It is said that thousands of years ago, the great man Omi encountered a mysterious white ball and suffered a terrifying attack, and died on the spot."

"It was also at that time that a thick white mist suddenly appeared on the land of China."

"It is this white mist that gives many people special abilities. There are even legends that two people became immortals because of inhaling a lot of white mist!"

Having said this, Qin Chuan's eyes showed a strong longing and worship.

Then, he continued: "This kind of white fog is called the initial fog!"

The initial fog gave many people special abilities, and even made them immortals!

The faces of the students were full of longing and excitement.

Now that he has also inhaled the mist of initiation, does he also have the opportunity to become a fairy?

If only I had just inhaled a little more.

"Omi? I suddenly remembered that you have the same name as the great man." Li Dongqiang said.

Several people around couldn't help but cast a strange color.

However, soon, everyone's expressions returned to normal.

After all, the name Omi is too common. There are not 10,000 people with the same name in the world, but there are also 8,000.

Can't the Omi in front of him be a great man from a thousand years ago?

Obviously, this is simply not possible.

However, they do not know that what they think is impossible is the truth.

Qin Chuan cleared his throat and said, "This is the end of your one-week trip to the forbidden land. Now take the suspended bus back to Jiangbei University."

"Yes, teacher!" All the students responded in unison.

"boom!"

After the suspension bus made a light noise, it moved forward rapidly along the winding road.

Qin Chuan and the man in black looked at each other after watching the suspended bus completely go away.

Then, the two of them turned into afterimages and rushed towards the depths of the forbidden area.

About half an hour later, the two finally came to the area where the white mist appeared.

The man in black said: "What a pure energy."

He looked around, frowned slightly and said, "But, it doesn't make sense. The underground has already been explored, there is no spiritual veins, and there are no spiritual things around. Why is this?"

Qin Chuan also looked around.

However, he did not think as hard as the man in black.

Instead, he laughed and said, "Maybe it's moving the spiritual meridian, maybe it's the spiritual energy that descends from the sky... There are many unexplainable things in this world, why bother?"

"This... our bet seems to be 100,000 world coins, right?"

When Qin Chuan spoke, he couldn't help rubbing his hands.

The man in black said angrily, "What 100,000 world coins? It's 20,000 world coins!"

Qin Chuan said: "Really? Only bet 20,000?"

The man in black looked at his suspicious eyes and wanted to give him two punches.

Who just wanted to go back and say that they bet 100 World Coins and 50 World Coins?

Oh, now that you win, let's say 100,000 World Coins?

Qin Chuan seemed to sense the unkind gaze of the man in black, and waved his hand: "Okay, okay, 20,000 World Coins are 20,000 World Coins, transfer it! You won't default on your bills, right?"

Without saying a word, the man in black directly transferred 20,000 World Coins.

Qin Chuan smiled and said, "Thank you!"

After finishing speaking, it turned into an afterimage and went straight to the outside of the forbidden area.

At this moment, the man in black suddenly remembered something and shouted, "Qinchuan, you still owe me 10,000 World Coins!"

However, where is the presence of Qin Chuan at the scene?

The man in black shouted, "Qinchuan, don't run!"

When the words fell, he also jumped and ran outside the forbidden area.

.....

The news that everyone in the 2011 class had become special abilities quickly spread throughout Jiangbei University like a hurricane.

"Have you heard? The 2011 class all have special abilities!"

"Of course I heard it! Besides, I also know that the reason why the 2011 class all have special abilities is because they met the legendary gods!"

"Meeting a fairy? But, how did I hear that it was because I met a spirit mine?"

"How could it be a spirit mine! That's someone else's rumors! There are some spirit mines in this world, but have you ever heard of someone who has special abilities when you encounter a spirit mine? No!"

"This is..."

"So! They have met a fairy!"

.....

In the beginning, all the students of Jiangbei University were all envious.

Soon, discussions began to discuss why they became special abilities.

Some say that they encounter spirit mines, some say that they encounter immortals, and some say that they encounter spirit fruits...

All the arguments are well-founded and vivid.

It was as if they had seen it happen with their own eyes.

It must be said that people's imagination and ability to make up stories are really rich.

Then, many people began to apply to the school to enter the No. 31 forbidden area.

Because, whatever the reason.

Since everyone in the 2011 class has special abilities, maybe they can do it themselves!

Of course, this is all in vain.

.....

Today, Chen Ming put on a white shirt.

And his clothes in the forbidden area had already been thrown into the trash can by him.

Chen Ming sat above, sipping the green tea in his hand.

“Tap Tap!”

At this time, Liu Wei from Class 2011 walked over slowly.

When he saw Chen Ming, he seemed to recall the picture of Chen Ming’s whole body covered in stool, and he couldn’t help laughing.

Seeing this, Chen Ming could not help frowning slightly.

However, he still said solemnly: “Liu Wei, you have performed well in the student union. Now, you have become a person with special abilities. In the future, you are very hopeful to become a high-level student in the student union.”

Hearing this, Liu Wei’s heart beat faster.

He really became a special ability.

However, it is only the most ordinary power capable person.

Also, his power didn’t grow much.

In this way, becoming a high-ranking student of the student union has a great attraction to him.

Liu Wei said excitedly, “Thank you, Vice President Chen for your appreciation!”

The unpleasant color on Chen Ming’s face flashed by.

Vice President Chen?

If it was in the past, he would have let Liu Wei get out.

But, now, he still has something to know.

Chen Ming always pretended to be indifferent.

“I heard that everyone in your class of 2011 has special abilities? Can you tell me what happened?”

So, Liu Wei told the story from beginning to end.

Chen Ming couldn't help but fell into contemplation.

The fog of the beginning!

He had heard the name before.

This is something that exists only in legends.

Unexpectedly, it appeared in the No. 31 forbidden area!

If, if you are not being plotted against.

Then, you can also inhale the initial mist to increase the level of special abilities!

Damn, **** it!

Thinking of this, Chen Ming could not help clenching his fists.

He swore in his heart that he would definitely teach those who attacked him a lesson he would never forget.

"Also, that..." Liu Wei looked at Chen Ming quietly, hesitating.

Chen Ming said lightly: "Just say something straight~ ~ Our student union cadres don't like to keep things secret."

Hearing this, Liu Wei opened his mouth and said, "It's like this... When he was in the forbidden area, Omi played a 3D projection video in public. In the video..."

Having said that, Liu Wei quietly glanced at Chen Ming again.

This time he continued: "In the video, Vice President Chen is hiding behind the hillside in a very embarrassed manner, and it seems that there are... a lot of dirty things on his body."

"Buzz!"

Chen Ming's head suddenly seemed to explode.

In public...a 3D projection was played!

Omi, you are courting death!

Chen Ming's heart erupted with anger!

PS: Today, my girlfriend's surgery is over and she will be discharged from the hospital next week. I am escorting me, so I don't have time to code.

If you are short of books, you can read my finished book: "Super Red Packet Immortals".
