

The Luckiest man in the world CHAPTER 741-750

Genius to remember the address of this site in one second: <https://The fastest update! No ads!>

Dozens of people from the 2011 class, including even Xia Xue, saw the scene of her whole body being pooped together!

Chen Ming can almost imagine how many people will laugh at him in the future.

Liu Wei seemed to feel a different atmosphere, he couldn't help shivering, and he said nervously: "Vice President Chen, that... if there's nothing else, I'll go back first."

Chen Ming just nodded indifferently.

Liu Wei didn't dare to say anything, and hurriedly turned to leave.

Then, Chen Ming took out his mobile phone and made a call.

"Uncle Jiahua, help me kill someone..."

...

In the blink of an eye, it was the next day.

On the first day of school, Qin Chuan just said a few words on the podium and started a week-long trip to the forbidden land.

So, strictly speaking...

This was the first time that Omi had attended a class after a thousand years.

The first class is the current affairs class, which mainly explains the major events that have occurred in the recent period. The teacher will analyze and explain them systematically.

This model is still good, so that students will not read dead books and read dead books.

The second class is advanced mathematics.

Although, high numbers add some formulas.

However, still not much progress.

After listening for a while, Omi couldn't help shaking his head slightly, looking a little disappointed.

After all, it has been thousands of years. It is a pity that mathematics, as the most basic subject, has not developed much.

Standing on the podium, the teacher wearing silver-rimmed glasses didn't know if he noticed Omi's expression...

Still wanting to know about the mathematics of the new classmates, he said, "Omi, use what I just said to answer this question."

With the teacher of silver-rimmed glasses casually, a 3D projection problem appeared on Omi's desk.

I have to say that with 3D projection technology, many places are indeed more convenient.

Xia Xue's heart tightened slightly, and she looked at Omi with some worry.

Obviously, she was afraid that Omi didn't know how to answer.

Omi smiled and cast a reassuring look at her.

Then, the finger quickly wrote on the 3D projection.

$d/dx\{f(x)dx\}=f(x)...$

$\lim(a+c)+\lim(b+c)...$

Without any thought at all, Omi easily answered the complete answer.

The teacher with silver-rimmed glasses, who was standing on the podium, nodded with great satisfaction, and said, "Omi, your answer is very good. It seems that you have already understood everything I explained..."

Omi said: "Actually, it's a bit troublesome to answer this way, and there are other simpler algorithms."

"Oh?" Silver-rimmed glasses teacher said with great interest, "Show me the answer."

Omi didn't hesitate, just took the pen and continued to write on the 3D projection.

$d/dx\{f(x)dx\}=f(x)...$

At first, the expression of the teacher with silver-rimmed glasses was very flat.

In the meantime, I drank a sip of tea.

But, gradually, the eyebrows of the teacher with silver-rimmed glasses began to wrinkle.

After Omi answered the whole question with a new method, his brows did not loosen.

After a while, he said: "You used the A method directly for the calculation of the fifth step, right?"

"Learning extracurricular knowledge is very good. However, method A has not been proven, so it cannot be directly used as a theorem. Therefore, your algorithm is strictly speaking wrong."

"Of course, you are also very good and worthy of encouragement, keep going!"

After the teacher with silver-rimmed glasses finished speaking, he cast an admiring look at Omi.

Omi said, "A method? $a+b...$?"

"Yes." The teacher with silver-rimmed glasses nodded.

However, there was a hint of doubt on his face.

Omi's tone, doesn't he know the A method?

So why did he directly use this formula?

strangeness.

Omi murmured, "Isn't this formula proven yet?"

He shook his head slightly, picked up the pen and continued to write on the 3D projection.

$a+b+c+d...$

$\sin a + \cos b + ...$

When the teacher with silver-rimmed glasses saw Omi writing the formula again, he couldn't help showing a hint of doubt.

But, soon, he seemed to have thought of something.

The teacher of silver-rimmed glasses hurriedly took out the folding display screen and searched for a while.

The next moment, his pupils shrank slightly.

Afterwards, he looked at Omi with endless astonishment.

All the students in the 2011 class looked at the teacher's serious appearance, although they didn't know what Omi was writing.

However, the same thing happened, Qi Qi focused his attention on Omi.

The atmosphere of the classroom, unconsciously, became a little tense.

"clatter!"

At this moment, Omi suddenly stopped writing.

The pupil of the teacher with silver-rimmed glasses suddenly shrank.

He couldn't help but said: "This... confirmed? Law A has been confirmed?!"

He read the incomparably complicated 3D projection formula from beginning to end again, but found that it was not something he could easily verify, and hurriedly said, "Everyone, don't move!"

A lot of times, it's about being concerned.

The 3D projections in the classroom have already been automatically saved. What is the relationship between the students moving and not moving?

Then, the teacher with silver-rimmed glasses hurriedly made a call.

Soon, a projection of an old man with pale hair appeared in front of him.

"Chu Zhi, what's the matter?" the old man asked.

Chu Zhidao: "Professor Huang, are you free now?"

"In 10 minutes, I'm going out for a meeting." Professor Huang said.

Chu Zhidao: "Professor Huang, someone has proved Law A."

"Who? Where was it published?" Professor Huang hurriedly asked.

Obviously, he is very concerned about the A law.

Chu Zhidao: "It hasn't been published yet, it was just written in the classroom."

After speaking, he turned the camera around.

Immediately, the proof process of Law A written by Omi all appeared in Professor Huang's video.

Professor Huang quickly shouted, "Chu Zhi, get closer!"

"Forget it, where are you? I'm coming now!"

Chu Zhi hurriedly said, "I'm in the classroom of Class 2011."

"Okay." Professor Huang said.

Then, he directly hung up the phone.

Then, Professor Huang ran straight outside.

At this time, a young man just came over with a stack of documents and said, "Professor Huang, I have prepared the materials, should I go to the conference room now?"

Professor Huang said: "You can attend this meeting on my behalf. "

"Ah? Then you..." the young man was surprised.

"I have more important things to do!" After Professor Huang finished speaking, he quickly ran into the distance.

...

Not long after, Professor Huang came to the classroom of Class 2011.

He didn't go to see Chu Zhi or the students in the classroom at all. Instead, he focused all his attention on Law A.

He didn't make any sound, as if he was worried that the sound would shatter the 3D projection.

Seeing him like this, all the classmates could not help but become cautious, not even daring to make a sound.

About half an hour later, Professor Huang suddenly exclaimed excitedly, "Okay, that's great!"

Chu Zhidao: "Really? Has it been proven?"

Professor Huang said: "At least, I didn't find too many problems. Of course, the specific steps and details need to be checked again."

After a pause, he said again: "By the way, who is it? Who wrote the A-law certificate?"

Chu Zhidao: "Our class's student, Omi."

After speaking, he raised his eyes to look at Omi.

In fact...

Not only Chu Zhi was looking at Omi, everyone in the class was focused on him.

Professor Huang followed, and when he saw Omi's young and handsome appearance, he repeatedly said, "Okay!"

Three in a row were good enough to express the excitement in his heart.

First, because Omi is a student of Jiangbei University.

Second, because Omi is young!

This means that a very promising math genius has appeared in Jiangbei University!

Professor Huang said, "Student Omi, are you interested in becoming my graduate student?"

As soon as these words came out, all the faces on the scene showed a strong color of envy.

Among them... it also includes teacher Chu Zhi.

Because, this is Professor Huang of Jiangbei University, a figure of the Taishan Beidou level in the entire mathematics community!

Over the years, he has been without students.

Now, Omi is going to be a graduate student.

If Omi wants to develop in the mathematics world in the future, then it can definitely be said that he has reached the sky in one step.

However, Omi said indifferently, "Sorry, I think it's fine in the 2011 class."

When are Professor Huang's students?

What a joke!

Professor Huang may be well-known in today's mathematics community.

But what's the use of that?

Not even a mere A method can answer.

In addition, Professor Huang is a mathematics professor at Jiangbei University. In a sense, he can be regarded as his own disciple, right?

What's more, Omi came to Jiangbei University because he wanted to be classmates with Xia Xue.

All the classmates and Chu Zhi were all stunned.

They never thought that Omi would directly refuse.

This is Professor Huang!

On the contrary, Professor Huang did not have much reaction.

He nodded slightly and said, "When I was a student, I did feel a little wronged. From now on, we will be like friends, discussing and communicating, what do you think?"

Omi said, "If I'm not busy, I can."

After all, Professor Huang is his own disciple.

In free time, it doesn't matter if you help out.

However, hearing this in the ears of everyone, it is another feeling.

This... Omi is a little too... proud?

Professor Huang didn't take it to heart and said with a smile, "Then we're done!"

Then, he made a copy of the proof process of method A, and after preparing to go back, he carefully checked it again.

The math class thing is a small episode.

Next, the mecha class.

In today's world, technology is advanced, and there are people with special abilities...

However, it is not as peaceful as it seems.

There are tyrannical beasts running out of the forbidden area, those with terrifying special abilities, there are scientific and technological terrorist criminals, and at the same time, there will be wars!

This makes everyone need to have a certain ability to protect themselves.

Thus, the mecha class came into being.

At this time, everyone in the 2011 class came to the extremely empty playground.

The head is short and the body is strong, the teacher named Howens said: "Today, it is the mecha shooting class! Everyone enters the mecha!"

Then, a red mecha about three meters high appeared in front of everyone.

see this...

A slightly interested expression appeared on Omi's face.

Cool shape, tall body.

Any mech, if placed a thousand years ago, would definitely be a Gundam that many people like!

Now, it appears neatly in front of him.

"laugh!"

At this time, the warehouse opening in front of the mecha opened, and the students walked up directly.

Omi followed suit and walked in.

The temperature inside the armor is moderate and very comfortable.

A halo appeared above his head.

This is a mental connector similar to a gaming helmet.

This allows the mecha to become like its own hands and feet, and move freely.

"Wow!"

At this time, a row of targets appeared in the middle of the playground.

Hovens said: "Number 1, shoot!"

“boom!”

On the third circle of the target, a hole immediately appeared.

“Number 2, shoot!”

“Number 3, shoot!”

.....

With a shout from Hovens, a hole appeared in the target.

Soon, it was Omi’s turn.

“Number 12, shoot!”

The super smart watch on Omi’s wrist made a crisp sound and said, “Master, do you need Xiaobai to directly lock the bullseye?”

Omi said, “No, I’ll just shoot.”

Then, he focused a little.

“boom!”

One shot, hit the bullseye!

Hovens couldn’t help but glanced in Omi’s direction a few more times, and nodded slightly.

Then, he said, “Number 13, shoot!”

.....

A day’s course went by in a blink of an eye.

In the previous class, Omi only felt that the teacher’s lecture was like a lullaby, which could easily make him fall asleep.

The curriculum in today’s world gave Omi a different kind of freshness.

The sun set in the west, dyeing the distant sky scarlet.

Evil, terrible!

Omi walked alone on the long path, always keeping an even speed.

“Whoosh!”

A breeze blew across, causing the branches to sway gently, and the leaves kept falling.

The next moment, Omi turned around abruptly and looked at a forest not far away.

In the woods, hiding in a silver mecha, the man who had been quietly observing Omi, was slightly startled.

Did he find me?

Get started!

Then, the man no longer hesitated, his mind moved slightly, and he fired the bullet directly.

“Huh? What’s going on?”

Because, the bullet was not fired as smoothly as he thought.

When the man was puzzled, Omi, who was a few hundred meters away, suddenly appeared in front of him.

Omi glanced up and down at the mecha.

It looked like he was looking at a large toy.

Omi nodded slightly and said, “It looks pretty good.”

“When I was in class~ ~ I wanted to dismantle it a little bit. I originally wanted to buy one, but now I have saved it.”

When the words fell, Omi reached out and grabbed at Cangkou.

“boom!”

The warehouse mouth made of steel suddenly shattered like a bubble.

Under the man’s horrified gaze, Omi stretched out his hand and pulled him out, and threw him on the ground.

Then, Omi ignored the man.

Instead, he disassembled the mecha by himself.

Before long, the tall and cool mecha turned into a pile of broken parts.

At this time, Omi seemed to remember that the man who wanted to kill him was still beside him.

So, he asked, "Who asked you to come?"

His voice was very flat.

However, it made the man feel that the temperature dropped suddenly, and he couldn't help shivering.

Although, Omi was only a young man.

However, in the eyes of men, it is like a bloodthirsty death.

He opened his mouth and stammered, "You...you misunderstood..."

Omi didn't say much, raised his hand and snapped his fingers.

"boom!"

The man shattered like a balloon in an instant, turning into a blood mist that filled the sky.

Because he didn't speak.

However, his heart had already said the answer.

"Boss Chen asked me to kill, what kind of terrifying existence is it!"

"what should I do now?"

Murderers, people will always kill them!

Omi naturally wouldn't hold back.

"Jingle Bell!"

At this moment, the mobile phone on the ground vibrated for a while.

Omi was a little apart, and there was a deep voice inside.

"Has it been resolved?"

Omi said, "I'm afraid I will disappoint you."

"Who are you?" The voice on the phone suddenly turned cold.

"Omi." Omi said.

"You can actually kill my people, who are you?" The voice on the phone was extremely low.

Omi said, "You will see you soon."

"Really? Then I'll wait for you!" After speaking, he hung up the phone directly.

Omi glanced at the super smart watch on his wrist and said, "Xiao Bai!"

"Master, I have locked his identity and location." The super smart watch flickered slightly and made a very clear sound.

Then, a 3D projection appeared in front of Omi, which involved all kinds of information about Boss Chen, family, company, projects, etc.

Ordinary people, even if they want to read these materials, I am afraid it will take a long time.

However, with just one glance, Omi took all the information in his heart.

Omi suddenly said, "Is the main messenger Chen Ming?"

He and Chen Ming had a total of two exchanges.

Once was the student union officer party, and the two played the piano.

Once was the No. 31 forbidden area, Chen Ming stayed and explored with the 2011 class.

Later, when Chen Ming was pooping, he was beaten by Chen Ming and his whole body was covered in sh*t.

And Omi recorded all this scene.

In a sense, Chen Ming's second hatred lies with Li Dongqiang.

However, Omi didn't care too much about this.

He only looks at the results.

Chen Ming wants to kill himself!

Omi didn't like Chen Ming at first, but now, he has shot himself again.

Then, definitely can't let it go.

Then, Omi stepped out.

The whole person disappeared in place in an instant.

.....

At this time, a slightly dim basement.

Chen Weiqiang frowned and said, "Who the **** did this kid Chen Ming offend?"

The next moment, a tall, handsome young man suddenly appeared in front of him.

It was Omi!

Chen Weiqiang was surprised: "Why are you here?"

Omi said indifferently, "Do you have a bad memory? I just said that we will meet soon."

Then he snapped his fingers again.

"boom!"

Chen Weiqiang shattered instantly and turned into a blood mist.

Then, Omi's figure flashed again.

.....

At this time, Fenghua Club.

Chen Ming took a gorgeous woman with a hot body and walked into the private room.

Without saying a word, he directly violently pressed the woman's head.

He has been like this these days.

Because, he needs to vent, to vent all the humiliation in the forbidden area.

Chen Ming said sternly, "Omi, are you dead? You must have died miserably!"

"Unfortunately, I let you down." Behind him, an indifferent voice suddenly sounded.

Hearing this, Chen Ming shivered.

He hurriedly turned around and said in surprise, "Why are you here?"

Omi couldn't help but said, "You Chen family members seem to like to say this, but unfortunately, after saying it, there is no good result."

"boom!"

Chen Ming's figure suddenly exploded, and blood shot out.

Originally, some gorgeous women who were puzzled saw this, and could not help but let out a harsh scream.

However, this cry only rippled within half a meter of her.

This feeling, as if her whole person was isolated in thick invisible glass.

only see...

Omi casually touched it, and the gorgeous woman fainted.

At this point, Omi stepped out and disappeared instantly.

And when the gorgeous woman woke up, she had completely forgotten what had happened before.

She just muttered to herself in a daze.

"Why am I here?"

.....

Omi did not continue to expand this matter.

After all, other people haven't provoke themselves for the time being.

In the blink of an eye, it was the next day.

Today, the tengu tattoo on Omi's arm was wriggling.

The next moment, a big dog about two meters long appeared in front of him.

This...is a tengu.

When Tengu saw Omi, he couldn't help wagging his tail happily.

Obviously very happy.

This is also normal.

To know.....

The Luckiest man in the world CHAPTER 746-750

Thousands of years ago, Tengu and Omi established a contractual relationship.

For these thousand years, Omi was absorbing the energy of the ball of light, and Tengu was always by his side.

In other words, Omi and Tengu have been together for thousands of years.

Millennium friendship, beyond everything!

When Omi saw Tengu, a smile appeared on his face and said, "Tengu, you finally woke up."

"Wang Wang!"

"Master, I miss you."

After signing the contract, Omi is the owner of the Tengu!

When the words fell, the tengu stretched out its big tongue and was about to lick Omi hard.

Omi dodged directly to the side and said, "This is the earth and where I live. You shrink to this size, and then, be more obedient and obedient."

Where does the owner live?

Tengu's big eyes lit up slightly, and while shrinking his body, he looked around with curious eyes.

Omi touched its head and said, "Okay, let's go."

Today's Jiangbei University, as usual, is full of vitality.

Omi walked across the green-shaded path, walked past the basketball court... and went straight to the classroom of Class 2011.

At this time, a man named Qiao Kai with a big back hair was leading a large dog with four eyes and half a person's height, and slowly walked into the classroom.

Thousands of years ago, it was generally not allowed to bring animals into the classroom~ ~ However, in today's world, there is no such rule.

Because today's animals are not just pets, but also partners and comrades!

In the classroom, there was a burst of admiration immediately.

"It's a four-eyed hellhound!"

"So handsome!"

"It's the first time I've seen a four-eyed hellhound in reality!"

.....

Qiao Kai listened to everyone's admiration, and was extremely happy in his heart.

Someone asked, "Qiao Kai, where did your four-eyed hellhound come from?"

Qiao Kai smiled and said, "My dad gave it to me specially after knowing that I became a person with special abilities in forbidden area No. 31."

The person next to him said: "The soil attribute ability you have acquired, plus the four-eyed hellhound, the strength can definitely be multiplied several times!"

When many classmates praised, a strange voice sounded.

"Is this four-eyed hellhound really that powerful?"

As Li Dongqiang spoke, from top to bottom, from left to right, he kept looking at the four-eyed Cerberus.

Qiao Kai raised his neck and said: "It's not too powerful, it's just the level of a D-level special ability."

Although, it's not that great.

However, the smug look in his tone was beyond words.

Li Dongqiang touched his chin and said, "Really?"

"Tap Tap!"

At this moment, there was a sound of brisk footsteps outside the corridor.

Standing by the door, Xia Xue casually glanced at the door.

Her beautiful eyes lit up slightly.

Because, a tall, handsome figure appeared in front of him.

It was Omi!

And at Omi's feet, there was a white puppy.

Xia Xuemei's eyes brightened a bit, and she said with a smile: "What a cute puppy."

As she spoke, she lowered her head and wanted to touch Tengu's head.

To know...

Thousands of years ago, Tengu was already a level 8 alien beast.

For a thousand years, Omi was absorbing the energy of the light ball, and the Tengu accompanied him, and he also received great benefits.

Today's Tengu, even if it is called a king and an emperor, there is no problem with its strength.

Where can ordinary people touch it casually?

It was just about to bark in denial.

At this moment, Omi's voice sounded in Tengu's mind.

"Let her touch!"

The momentum around Tengu suddenly stopped, and he let Xia Xue caress.

Li Dongqiang asked curiously, "Omi, is this your dog? Is it a beast or an ordinary dog?"

Omi said, "I don't know either."

Li Dongqiang said to himself: "It's a coincidence today, you and Qiao Kai both brought dogs."

Tengu glanced in the direction Li Dongqiang pointed, and the dog's face was full of disdain.

It was this sight that scared the four-eyed hellhound into limp limbs, lying directly on the ground.

This is also normal...

The four-eyed Cerberus is only a D-rank alien beast, much weaker than the Tengu when he was young.

What's more, is it a tengu who is now enough to be king and emperor?

The emperor's glance is as heavy as Mount Tai!

Li Dongqiang also noticed this and said with a smile: "Qiao Kai, how did your four-eyed hellhound climb the ground? Could it be that it has diarrhea and has no strength? Is it really a four-eyed hellhound?"

Qiao Kai also felt a little embarrassed and shouted: "Da Hei, Da Hei, get up!"

However, no matter how he shouted and dragged, the four-eyed Cerberus never got up again.

"Jingle Bell!"

After a brisk class bell rang, the math teacher strode in.

He first threw a warm smile at Omi, and then started today's lesson.

One day's course went by in a blink of an eye, and the sun gradually set, turning the whole sky into a rosy red.

"Tap Tap!"

At this moment, there was a rush of footsteps outside the corridor.

Then, teacher Qin Chuan walked in quickly.

He glanced at the students in the class, and then said: "According to the news, since last night, a large number of strange beasts have suddenly gathered in the direction of Jiangbei!"

"This is an extremely rare and terrifying beast tide! Of course, we don't have to worry too much, because the Asian League has dispatched a special ability team to set up defenses, which can definitely block all the beast tides from the city."

"However, there is still a possibility that a small number of exotic animals slip through the net and enter Jiangbei, which is very dangerous! Therefore, Jiangbei has launched an emergency plan."

"From now on, try not to leave school unless necessary."

As soon as these words came out, everyone in the class couldn't help but quicken their heartbeats.

Some people are excited, others are scared.

Qin Chuan seemed to have something to deal with, so he left the classroom after speaking.

Only the students in the classroom are left, you look at me, I look at you.

Then, he cautiously walked outside.

Jiangbei University, 3rd Floor, Building 8, Male Dormitory.

Most of the student dormitories thousands of years ago were four people per room.

Today's student dormitory has become a two-bedroom, one-living luxury suite.

As soon as I entered the dormitory, a sweet-looking bionic robot came over and said in a very clear voice: "Welcome home, would you like something to drink?"

Omi said, "No need."

Zhang Wenzhuo, who returned to the dormitory first, said, "Omi, you can be regarded as returning to the dormitory."

"You don't know how lonely I am in the dormitory by myself these days!"

As he spoke, he was about to step forward and give Omi a big bear hug.

However, Omi's figure was slightly to one side, and flashed to the side.

Zhang Wenzhuo couldn't help being a little embarrassed.

He quickly focused his attention on Tengu and said, "I wanted to touch it when I was in class, and now I finally have a chance, hehe!"

Zhang Wenzhuo bent down and stretched out his hand to stroke the head of the Tengu.

The reason why Xia Xue was able to pet the Tengu was because of Omi's instruction.

Zhang Wenzhuo does not have such good treatment.

Tengu twisted his body and easily dodged to the side.

Zhang Wenzhuo said: "Puppy, I have a lot of delicious food here, come here..."

However, Tengu just stood in the distance, like watching a monkey, quietly watching him perform, without any movement at all.

This can't help but make Zhang Wenzhuo very helpless.

So, he had to straighten his waist and said, "Omi, you said that Jiangbei is very good, why is there a sudden beast tide?"

Omi asked, "Has this kind of thing never happened to Jiangbei before?"

Zhang Wenzhuo thought for a while and said, "No, at least, I have no impression and I haven't seen similar news."

Omi nodded, followed the dark window and looked into the endless distance.

...

At this time, many men and women wearing black cloaks with a good atmosphere all gathered together.

Standing at the front, a middle-aged man named Qin Zhong, wearing a red cloak, said, "Ocean, where is the tide of alien beasts? How many?"

Standing next to him, also wore a red cloak, a man named Li Dahai, with a dazzling golden glow from the center of his eyebrows.

Immediately, the strange beasts in the mountains, fields, and rivers all appeared in his field of vision.

After a while, the golden light in Li Hai's eyebrows slowly dissipated, and he said solemnly: "The beast tide is only about 30 kilometers away from here, and the number... I am afraid it is close to 100,000! Moreover, it is still increasing!"

As soon as this statement came out, the atmosphere at the scene immediately became dull.

Everyone knows what this data actually represents.

Qin Zhong took a deep breath and said, "No matter what, we must defend! In addition, I have already transferred 100 super laser weapons, and a large number of reinforcements, which are already on their way!"

"Wow!"

At this time, a splendid golden light suddenly appeared on the dark night.

These golden lights keep condensing and twisting...

Gradually, it turned into three big golden characters—Strength List!

These three golden characters are like three suns hanging in the air.

Brilliant and eye-catching.

It quickly attracted the attention of many people.

And there was a lot of discussion.

“Power list? Is this a 3D projection, or something similar to the last wealth list?”

“In the last list, the top ten richest people have increased their lifespans and acquired special abilities. I don’t know how they will be ranked this time, and what they will get.”

“Strength list! This is more interesting than the wealth list. I don’t know who can make it on the list!”

“I’m looking forward to it so much.”

...

Finally, these golden rays of light condensed again and turned into large characters.

[Tenth place: Sun Shan.]

[Reward: 10-year lifespan, special abilities increase by 10%.]

...

At this time, in a very artistic practice room.

An old man with long snow-white hair suddenly opened his eyes.

At the same time, a terrifying breath rushed out like a tsunami.

Then, the long snow-white hair of the old man gradually turned black at a speed visible to the naked eye.

only see...

The old man raised his hand and waved, forming a ferocious dragon head wind.

“boom!”

The real dragon roared, and the three sandbags in the distance were all shattered like a bubble, and a huge hole appeared directly in the wall behind.

The old man looked at his hands in surprise and said happily: "This feeling is really good!"

"Tap Tap!"

The people standing guarding outside heard the sound and hurried over.

"Master, are you alright?" they asked very nervously.

At the same time, he kept looking around, trying to find traces of the enemy.

The old man said: "Don't look for it, there are no enemies."

At this time, the middle-aged man standing in the front was surprised: "Master, your hair..."

"I'm getting younger and stronger," the old man said.

Then, he raised his head and looked out the window, concentrating on the strength list in the air.

...

Many people who looked up at the sky rang out the voices of discussion.

"The tenth place on the strength list is out!"

"Sun Shan? Could this be the founder of the Extreme Sect? Oh my God, he's still alive?"

"Decades ago, Sun Shan could knock down a tall building with one punch. Now, after so many years, he has obtained 10% of his special abilities. How strong should he be now?"

...

[Ninth place: Lei Sen.]

[Reward: 20-year lifespan, 10% increase in special abilities, and 10,000 points in physique.]

...

on a large training ground.

Two groups of men and women in black and white training suits attacked each other, heartily.

“Wow!”

At this time, Lei Sen, who was sitting in the main seat, suddenly burst out with a tyrannical aura.

He raised his head and whistled, and the entire training ground seemed to be shaking.

Everyone couldn't help but look towards Lei Sen.

Afterwards, they shouted in unison, “Congratulations, Master Lei!”

Lei Sen said with a hearty smile: “Today, the spiritual power room is provided for free, and I am happy with you!”

“Master Xie Lei!” Everyone shouted happily.

Lei Sen nodded, and then looked at the sky outside the window.

...

Countless people exclaimed.

“Lei Sen! I knew he would definitely be on the list! However, why only the ninth? He is the owner of the Thunder Boxing Gym!”

“Lei Guanzhu once killed an SSS-level alien beast with two punches, and now he might be able to kill it with one punch!”

“Master Lei, you are the strongest!”

...

[Eighth place: Fu Xuantian.]

[Reward: 20-year lifespan, 10% increase in special energy, and 50,000 points in physique.]

At this time, the southern part of the Asian League.

Fu Xuantian was leading a large group of soldiers with special abilities, heading towards Jiangbei.

The next moment, he suddenly stopped.

Because, Fu Xuantian suddenly increased the power of the rolling.

The special ability warriors behind him stopped.

Someone asked: "Chief, that list..."

Fu Xuantian nodded slightly and said, "It's true."

Everyone showed a look of joy.

As Fu Xuantian's soldiers, the person they admire most is Fu Xuantian.

Today, Fu Xuantian has entered the eighth place in the global strength rankings, and his strength has grown significantly.

This is definitely an encouragement for them.

Fu Xuantian said: "Now is not the time to be happy, everyone, speed up!"

"Yes!" The special ability warriors shouted in unison.

...

The discussion is like a tide, rolling in.

"The eighth place is out, it's Fu Xuantian!"

"Fu Xuantian?! Is this Fu Xuantian, the chief of the southern region? I knew that he would definitely be on the list!"

"Not chasing stars, not chasing gods, only chasing warriors with special abilities!"

"Fu Xuantian, my goddess!"

...

[Seventh place: Zeng Fang.]

[Reward: 30-year lifespan, 10% increase in special energy, and 100,000 points in physique.]

A small island like a paradise.

Zeng Fang, who was lying on his side on the string, with jade-white skin, suddenly opened his eyes.

She glanced at the list in the air, and was silent for a while, not knowing what she was thinking.

...

Zeng Fang was indifferent.

However, many people could not be quiet for a long time.

"Zeng Fang? This seems to be a woman's name."

"Finally a woman has entered the strength list!"

"Women hold up half the sky!"

"Zeng Fang, with a beautiful name, must be a beautiful person! Moreover, he has also entered the strength list! She is simply a goddess!"

...

[Sixth place: Hu Yixiao.]

[Reward: 30-year lifespan, 20% increase in special energy, and 100,000 points in physique.]

Asian League Headquarters.

Hu Yixiao felt the growing power in his body, and said happily, "Liu Qi, Xue Zhan, how about we compete again?"

...

[Fifth place: Kather Jack.]

[Reward: 30-year lifespan, special energy increased by 20%, physique increased by 100,000 points, king-level boots.]

On a luxurious bench, Catherjack, who was half asleep, suddenly opened his scarlet eyes.

He felt the growing power in his body, and the corner of his mouth twitched.

Afterwards, he laughed loudly.

"Hahaha! Power! My power is coming!"

Finally, he turned his attention to the king-level boots.

...

[The fourth place: Liu Qi.]

[Reward: 30-year lifespan, 20% increase in special energy, 100,000 points in physique, king-level battle armor.]

...

[Third place: Xue Zhan.]

[Reward: 30-year lifespan, 20% increase in special energy, 100,000 points in physique, king-level sword.]

...

Asian League Headquarters.

Liu Qi smiled and said, "Smile, you seem to have said that you are going to compete again?"

When the words fell, he slowly put on the king-level battle armor and said, "Well, it's quite heavy."

Hu Yixiao said embarrassedly: "This... this, you heard it wrong."

Xue Zhan next to him did not speak.

He just quietly looked at the strength list in the sky.

...

As one name and one reward appeared, more and more people joined the discussion and paid attention to the power list.

They are looking forward to the second and first place.
