

The Luckiest man in the world CHAPTER 783

In the endless chaos, two streams of light, one white and one gold, pierced through the void and moved forward rapidly.

Meteorites, planets, buildings... all of them can't stop them in the slightest.

"Wow!"

At this time, the golden streamer suddenly accelerated, stopped suddenly in front of the white streamer, and gradually condensed into a strong middle-aged man holding a big knife.

"Tao Qian, you can't escape!"

Hearing the words, the white streamer stopped, and slowly condensed into an old man with gray hair.

"Hey, didn't I just take your billions of spirit crystals and kill your two guardians and two sons? Is it necessary to chase so tightly?"

Lingjing, an extremely pure energy crystal in the chaotic universe.

Generally speaking, a world can only breed 1 spirit crystal in 1 year.

But Tao Qian took the opponent's billions of spirit crystals!

The middle-aged man has a total of 6 guardians and 5 sons.

And Tao Qian killed 2 guardians and 2 sons, almost half of them!

As a result, in Tao Qian's mouth, it is so relaxed and indifferent.

The middle-aged man could not help clenching the handle of the knife, and the anger in his heart erupted like a volcano.

"die!"

He drew his sword and swung it sharply, shooting out an endless and vast sword light.

Tao Qian's figure flickered, and easily flashed to the side.

"boom!"

Not far away, an orange planet suffered a disaster that exploded like fireworks.

Tao Qian said: "Yo, it's pretty good!"

One knife, smashing a planet!

Power... so tyrannical!

Some people hidden in the chaos, knowing that the other party can't provoke them, quickly retreated like a frightened bird.

.....

I don't know how long it took, Tao Qian, who was full of flowers, showed his figure from a void.

"Finally got rid of it."

"It's time to see the little guy who holds the power of time."

Tao Qian muttered to himself, closed his eyes and secretly searched for the location of the earth.

After a while, he frowned and said, "Huh? The space is chaotic? What's going on?"

.....

On the other hand, Omi has returned to Earth.

Although, Omi used the power of time to repair the portal.

However, the earth was still attacked by some chaotic winds, earthquakes, tsunamis, volcanoes... A series of disasters caused many roads and houses to collapse and crack to varying degrees.

When Omi returned to the Panlong Villa, Xia Xue, Xia Bing, Hu Tian, Huang Ling, Qiu Ziqian and others quickly gathered around.

They worried: "Omi, are you all right?"

Omi smiled and said, "Don't worry, I'm fine."

Everyone was relieved to hear Omi's tone so relaxed.

Then, Omi explained the general situation.

When they heard the huge monster like a planet, the hearts of everyone directly rose to their throats.

After hearing that Omi had killed the huge monster, everyone's faces were full of smiles and pride.

This is Omi, his lover!

Even terrifying monsters can be slaughtered!

Next, a few people ate and chatted together, and they made a burst of laughter from time to time, very relaxed and happy.

"Boom!"

However, this life did not last long, and the whole world suddenly shook violently again.

The ground cracked, the rocks collapsed... It was extremely terrifying.

Omi raised his brows and said, "I'll go take a look."

The words fell and disappeared directly in place.

In the next instant, he appeared in front of the ancient portal.

Omi's eyes were like electricity, staring directly at the door.

Immediately, the thick portal turned transparent in his eyes.

And the pictures outside the door, all fell into his eyes.

At this time, outside the door, two huge monsters appeared.

Their two pairs of eyes like the sun are staring at the door, and their eyes are full of greed.

"What a rich life force!"

"This is definitely a world with countless lives, Jie Jie, luck is really good!"

"It must taste wonderful!"

.....

As the two monsters spoke, they couldn't help swallowing.

And when they were talking, another monster flew over.

"Wonderful smell!"

“But, it seems to have good protection. Let’s attack together, and then devour them in pieces. What do you think?”

The other two monsters have already felt the powerful protective power of the portal.

They understand that it is very difficult to break the door on their own.

So, they all responded, “Okay!”

“agree!”

Then, the three-headed monsters sprayed out energy beams, slashed their claws, or collided, all of which bombarded the portal.

Suddenly, the whole earth vibrated violently again.

The Luckiest man in the world CHAPTER 784

Seeing this, Omi’s face became a little dignified.

Because, he vaguely saw the depths of endless chaos, and there were other monsters on their way.

If it continues like this...

Even this ancient portal would be difficult to resist.

While Omi was thinking about countermeasures, three more monsters came to the door.

At this moment, in the endless void, a hearty voice sounded.

“Hahaha! A lot of Chaos Beasts!”

A stern sharp arrow was shot out, sweeping the terrifying space storm, smashing all the monsters into pieces, leaving only a few beads of light, shining slightly in the chaos.

At the same time, a huge spatial turbulence formed in the void, instantly sweeping the portal and the entire earth into it.

After a while, a tall man in golden armor with a bow in his hand appeared here.

With a wave of his hand, all the light beads in the void disappeared into his hands.

“Good luck, killing so many Chaos Beasts at once!”

“There is a great chance to win this time!”

He sniffed and said again: “There just seems to be a very pure life force here, the world? Forget it, it’s useless, the game is more important!”

When the words fell, he stepped out one step and shot forward at a rapid pace.

.....

On the other hand, the portal in space turbulence is constantly bombarded by space turbulence.

Gradually, cracks appeared on the surface of the portal.

In fact, the spatial turbulence is too terrifying.

At the same time, the whole earth was shaking continuously.

Mountain collapse, land subsidence, tsunami... Countless disasters followed.

Screams, howls, endlessly.

.....

Omi looked at the cracks on the portal , which were getting more and more dense, as if they were about to shatter at any time, and his face became solemn.

Not long ago, Omi used time travel.

It has not fully recovered yet.

He no longer has enough power to go back in time.

However, he still used everything to mobilize his energy.

Be prepared to be forced to go back in time.

“Wow!”

At this time, a huge crack suddenly appeared in the turbulent flow of space.

The ancient portal, and the whole earth flew out along the crack.

So far...

The space turbulence finally disappeared, and the earth finally returned to calm.

“Crack!”

At the same time, the cracks on the surface of the ancient portal that had been scoured by space turbulence continued to spread.

In the end, it turned into countless fragments and scattered at will.

After the previous portal was shattered, the endless chaotic astral wind would extend along the shattered place, continuously pouring into the earth and destroying it wantonly.

Now, it is very peaceful.

Omi walked out of the broken place, feeling the same calm outside world, and murmured in his heart, “It seems that there is no more chaotic wind here.”

After looking at it carefully again, he turned around and returned to Earth.

At this moment, the high-rise buildings and the winding viaduct... all disappeared.

Instead, there are dense rubble and endless ruins.

Howling, sighing, weeping...the ear is endless.

see this...

Omi’s expression became heavy.

Soon, he returned to the Panlong Villa in Jiangbei.

“Omi!” Hu Tian, Xia Xue, Xia Bing, Huang Ling and others cried out happily when they saw that he was okay.

Omi said, “It’s all right.”

When the words fell, he couldn’t help frowning slightly.

It’s okay this time.

What about next time?

After experiencing what happened during this period of time, Omi clearly realized that the crisis in this world was more than he imagined.

You can fight a monster on your own.

So... how about three heads? What about six?

What if you meet the shooter?

Although I don't want to admit it.

However, Omi also had to admit that relying on his current strength, it would be difficult to deal with possible future crises.

At that time, how should you protect your family and loved ones?

How can this precious happiness exist?

In the last life, Omi was a dragon of chaos, eating, drinking, sleeping, and sleeping every day.

He never wanted to increase his strength in the past.

In this life, Omi was a student and a professor. He ordered red envelopes every day, and his life was very comfortable.

At this time, an urgent thought to improve his strength rushed into his mind like a tide.

For the next few days, Omi stayed by the side of his lover and family.

In the Panlong Villa, there is happiness everywhere.

This day, after breakfast.

Omi said, "I'm going to go out and have a look."

quiet!

The Luckiest man in the world CHAPTER 785

The entire Panlong Villa immediately fell into silence.

Although, Omi did not say where to go.

However, everyone seems to have guessed the place.

Beyond the earth, in chaos!

After a while, Hu Tian said, "When are you going to go out?"

Omi said, "Let's go later."

He knew that the longer it dragged on, the more difficult it would be to let go.

Plus, he doesn't know... when will the Earth be in crisis again.

If you go out earlier, you can also get stronger power earlier, so as to better protect the earth.

The girls opened their mouths and seemed to want to say something, but they didn't say anything.

Hu Tian pursed her red lips and said, "Then you should pay more attention to safety."

Omi nodded and said, "I will be careful."

Then, he glanced at everyone and said, "Everyone...bye."

When the words fell, he stepped out and disappeared instantly.

see this...

The girls couldn't bear it any longer and shouted.

"Omi, you must be careful!"

"Omi, come back early!"

"We are waiting for you at home!"

...

At this time, Omi followed the broken portal and came to the void outside the earth.

After he made a series of blindfolds at the broken place, he found a direction and kept moving the space to jump forward.

With every jump, Omi could travel tens of thousands of kilometers.

After thousands of jumps in a row, the void in the distance suddenly fluctuated.

Then, a two-meter-tall man gradually showed his figure.

The man's breath was very unstable. When he saw Omi, his whole person seemed very vigilant.

But when Omi saw him, his eyes lit up slightly, and he rushed towards him.

The man's heart tightened and he wanted to avoid it, but his body was a little hard to support.

He had to speak from a distance: "Daoist friend, I don't know what you are doing?"

Omi's eyes lit up a little when he heard the words.

Because, the other party speaks Chinese!

So, Omi said: "The Taoist friend seems to be injured, and I happen to know some treatment methods."

The words fell, and without waiting for the other party to respond, a light of life burst out directly.

The breath of the middle-aged man quickly stabilized.

At the same time, his expression softened a lot.

The middle-aged man clasped his fists with both hands and said, "Thank you, my fellow Daoist, for helping me. I am Tianyang, do you know who my friend is?"

"I'm Omi." Omi said.

"It turned out to be fellow Daoist Omi..." Tian Yang nodded.

His tone was calm.

However, there was still a hint of vigilance on his face.

Omi didn't care too much about this.

After finally encountering a human being, he must seize the opportunity to ask.

Omi said, "Fellow Daoist Tianyang, which area is this?"

Tian Yang said: "Daoist friend Omi has not been here before? This is the spring field of the Four Seasons Universe."

"To be honest, my fellow Daoist, my planet is completely closed, and this is the first time I have come out of the planet." Omi said.

Tian Yang heard the words, and suddenly said: "So it is!"

"Then Daoist Omi, you should take a good look at the Four Seasons Universe. This place is much wider and more lively than the planet!"

Omi nodded and said, "I think so too."

Tian Yang glanced at Omi again, and then said, "I think fellow Daoist Omi is still very young. Have you considered going to Tianfeng Realm?"

"Heavenly Wind Realm?" Omi wondered.

Tian Yang saw that he was not at all contrived.

So, he continued: "Tianfengjie is a very strange place. It opens every 10,000 years. There are many opportunities in it. Only people under the age of 10,000 can enter it. Of course, it is also very dangerous."

Omi said, "Thank you, fellow Taoist Tianyang for your guidance."

The two exchanged for a while, and Tian Yang said that he had something to go.

Omi didn't force him to stay either. After all, the two of them didn't have any friendship, and staying behind made each other more vigilant.

Omi, on the other hand, followed the direction pointed by Tian Yang and moved forward again.

After Omi jumped hundreds of times, a pale green planet appeared not far away.

Omi jumped, and UU Reading [www. .com](http://www.uureading.com) flew directly over.

This is a planet densely covered with green plants. High-rise buildings, curved roads, aircraft... all can be seen everywhere.

Obviously, this is a planet with a higher civilization.

Omi just appeared, and a man in black clothes came to the side with an aircraft.

He bent down and said respectfully, "I have seen the adults."

Omi asked curiously, "Oh? You know I'm here?"

The man said: "Our Qingxing has a set of heaven protection system, which can detect the strong people who enter the planet..."

"As soon as the star master knows that you are here, he will let me receive you first, and then let me ask you, do you need to arrange a grand welcome ceremony?"

After he finished speaking, his head lowered a little bit, very cautious and careful.

The Luckiest man in the world CHAPTER 786

.....

Men are very aware of the rules of the world.

The strong are respected!

According to the Tianhu system, Omi is a super strong man who spans the chaotic universe.

It must be treated with respect.

Otherwise, once you make the other party unhappy, just blow your breath... I am afraid that you will become fly ash.

Even, Qingxing will punish his relatives and friends, in order to quell the anger of each other.

Omi nodded knowingly and said, "What's your name?"

The man respectfully said, "Jack, you can just call me Xiaojie."

Omi said, "Jack, can you introduce your Qingxing?"

"Yes." Jack responded.

It turned out that the star master of this Qingxing was named Qingsong, who was a planetary-level powerhouse and the only planetary-level powerhouse of Qingxing.

The physical body can walk in the chaotic universe, which is one of the signs of a planet-level powerhouse.

Today's Omi is at least at this level.

Qingxing is located in the east of Chunyu, a planet dominated by science and technology.

Then, Jack drove Omi around in the flying machine.

The architectural style of Qingxing is similar to that of Earth.

Omi didn't have much thought to appreciate either.

Not far away, dozens of aircraft stopped in front of a towering high-rise building like birds.

At this time, a silver-white aircraft came to Jack.

Then, a young girl in a long white dress walked down and said with a smile: "Uncle Jack, I didn't expect you to come to celebrate my birthday too."

Jack looked at Omi carefully and said, "Sir, this is my niece. She doesn't know that I am welcoming you, so I will let her go."

Omi waved his hand and said, "It doesn't matter. There are not many birthdays in life, so don't miss it. Let's go and see it together."

"Ah...this..." Jack was stunned.

He wants to refuse.

However, he was worried that refusing would make Omi unhappy.

So, I had to bite the bullet and say, "Yes."

Then, he slowly opened the aircraft warehouse door and said, "Today is your birthday, of course I'm coming over."

The girl said happily: "Uncle is the best!"

At this time, she noticed Omi in the aircraft, and couldn't help looking at it curiously.

"Uncle, is this young man your subordinate?"

As soon as he said this, a thin layer of sweat appeared on Jack's forehead immediately, and his legs were shaking a little.

subordinate?

This is downright disrespectful!

The grown-up might be angry.

It's over, it's over.

Jack was just about to reprimand the girl.

Omi said, "I'm Jack's friend."

When the words fell, he cast a reassuring look at Jack.

Seeing this, Jack breathed a sigh of relief.

At the same time, he also understood that he could not reveal Omi's identity at will.

The girl looked Omi up and down, and said, "A friend? But, so young."

Then, she smiled and said, "Hello, my name is Jerry."

"Omi." Omi said.

The three of them talked while walking towards the high-rise building.

Of course, mostly Jerry said.

Jack looked very uncomfortable.

Omi just listened silently because he was unfamiliar.

After a while, the three came to the high-rise building.

This is something like the Earth Hotel.

Majestic and atmospheric.

In the banquet hall on the third floor, there are many beautiful flowers piled up.

Many guests are chatting, drinking and eating inside.

After they saw Jerry, they greeted each other.

"Isn't this our little birthday today?"

"Jerry, you are so beautiful today!"

"Just like a princess!"

...

Jerry listened to everyone's praise, and the whole person also seemed very happy, her pretty face was like a flower, very bright.

"Thank you all! Thank you all for coming to my birthday party."

At this time, a tall and slender woman came over and said, "Jerry, happy birthday."

When the words fell, she handed out the beautifully packaged gift box in her hand.

"Thank you Minmin!" Jerry said.

Then, she directly opened the gift box.

Inside is a supple skirt.

Jerry said: "Wow! Such a beautiful dress, Minmin, thank you!"

Others followed suit with gifts.

"Minmin, happy birthday."

"happy Birthday."

Some send communicators, some send game consoles, some send toys...

The smile on Jieliqiao's face became more intense.

At this time, a young man of medium stature came over and said seriously, "Jerry, happy birthday."

After he finished speaking, he handed out a very luxurious gift box.

Jerry hesitated for a while, but took the gift and opened it.

Suddenly, a dazzling gem appeared in front of him.

There was a burst of admiration at the scene.

"What a beautiful gem!"

"Bola Star Stone! What a big Bora Star Stone!"

"This is at least a million universe coins!"

...

Jerry's eyes were illuminated by gems.

However, she quickly handed out the gem again and said, "This... this is too precious, I can't ask for it."

The young man said: "Birthday gifts, there is no way to say whether they are expensive or not. The important thing is that you can do it if you like it."

Jerry turned around hesitantly and looked at Jack next to him.

After all, Jack is her elder, and, moreover, has a lot of insight.

His opinion matters.

However, in the eyes of the young man, it was a completely different situation.

He likes Jerry.

I have been observing Jerry silently from a distance, and found that she came in with Omi.

And, there are jokes.

The young man had seen all of Jerry's relatives, and he was sure that Omi was definitely not one of them.

Therefore, from the beginning, he was full of hostility towards Omi.

And now, Jerry even went to ask Omi's opinion before accepting her gift.

This made the young men even more hostile.

He took a deep breath and said, "My name is Kevin, and this friend... seems to be a little shy."

Omi also felt the enemy's hostility.

However, he didn't care too much and said, "My name is Omi."

"It turned out to be Omi." Kevin nodded and said, "Today is Jerry's birthday, what gift did you prepare for her?"

He firmly believes that his gift is definitely the most valuable in the audience.

He wants to let Omi understand how big the gap is with himself, and retreat in spite of difficulties!

Jack next to him, why doesn't he understand Kevin's psychology?

His whole heart trembled.

You must know that Omi is at least a superpower of the same level as the star master!

This strong man has always been moody.

If it makes him unhappy, it will definitely be a catastrophe!

At that time, not only Kevin, himself, and even everyone on the scene would suffer a terrifying disaster!

Jack opened his mouth to stop.

However, he didn't dare to talk nonsense at all.

Omi's thoughts moved slightly, and he took out a crystal clear spiritual stone from the inner space.

This is the product of the spiritual stone vein after the forbidden land was combined with the earth thousands of years ago.

It is a very rare treasure for ordinary people.

"Jerry, happy birthday."
