

# The Luckiest man in the world CHAPTER 790

Omi also felt a palpitating breath from the ancient altar.

He knew that if he didn't stop him, he could be in danger.

Omi stepped out and disappeared instantly.

The insect general in front of him wanted to attack, but was stopped by Qing Song.

At this time, Omi had already arrived in front of the altar. He was about to bombard the altar when two more insect generals appeared in front of him.

"laugh!"

The two worm generals waved their claws and shot out a fierce hurricane, slashing towards Omi.

Omi had to dodge.

The two worm generals continued to chase and collided in the air, forming light and shadow.

At this time, the spirit crystals around the altar became more and more shiny, and the circles of formation symbols became more complex and mysterious.

"Crack!"

The portal finally opened a small crack.

In an instant, an ink-like aura rushed out from the gap in the portal, and the tyrannical wind blew everyone's clothes rippling.

A dark shadow of sharp claws slowly appeared on the altar.

The terrifying evil spirit, like a thunderbolt, kept beating around the phantom of the claws.

After a while, another sharp-claw phantom was suspended above the altar.

Then, the two thighs, the body, the head...

Finally, a giant insect king with a dark body and a height of 100 meters, with strange lines all over his body appeared.

Insect King, come!

The strong suffocation, even taking a breath, makes people sting for a while.

“hold head high!”

A loud cry shook the entire abyss up and down.

All the Chaos Locusts...even, including the insect generals who were still fighting with Qing Song and others, crawl to the ground in unison to express their respect for the insect emperor.

Qingsong, Ma Zheng and Fengyue’s faces turned pale.

“It’s over!”

“The Insect King is here!”

“what should I do now?”

...

At this moment, the 100-meter-high Insect Emperor opened his scarlet eyes like a cold moon.

“laugh!”

The entire abyss instantly turned into a terrifying blood-red color.

The space is frozen, and people can’t even move their eyelids.

Omi’s heart tightened when he saw these eyes.

Invincible!

Omi had a very real feeling in his heart that as long as the opponent made a move, he would instantly turn into dust.

Don’t let him go first!

Omi used the power of time with all his strength to surround the insect emperor.

Immediately, the tall body that the Insect Emperor had condensed began to become illusory.

It didn't use a pair of cold eyes, and glanced at Omi.

"How brave!"

The sound was thunderous, and the bomber's head was buzzing.

A vast aura turned into thousands of sharp knives and shot towards Omi quickly.

"Wow!"

Another power of time emerged, and the sharp blade that came rushing disappeared like smoke and dust.

Then, Omi increased the power of running time again.

"laugh!"

The claws of the insect emperor disappeared, the limbs disappeared, the torso disappeared...

Gradually, the huge body disappeared completely.

Only a cold voice remained, rippling in the abyss.

"Human, I remember you!"

Finally, the door closed, and the formation was gone.

Everything... is at peace.

Chaos Locusts are all a little dazed and puzzled.

Why is your emperor missing?

And Omi didn't give them any chance to react.

The so-called: take advantage of his illness, kill him!

Omi swung the Star Meteor Sword with all his strength, and the sword energy rushed out like a cold wind.

"call out!"

"call out!"

The three-headed worm general, the endless Chaos Locusts were chopped into pieces.

Fengyue, Ma Zheng, and Qingsong also reacted quickly and attacked the insect general together.

Blood flowed, energy erupted, and the wind howled.

After a while, all Chaos Locusts were annihilated.

It was also at this time that a clear reminder sound suddenly sounded in Omi's mind.

**【Ding! System upgrade successfully! 】**

System Upgrade?

Omi was stunned for a moment.

He didn't wait for him to come back to his senses.

A clear prompt sounded again in his mind.

**【Ding! Congratulations, you have completed the hidden mission and destroyed the insect king. 100,000 experience points will be rewarded. 】**

**【Ding! Congratulations, you have been upgraded to Planetary Level 2. 】**

**【Ding! Congratulations, you have been promoted to the 3rd tier of planetary level. 】**

Suddenly, Omi felt a warmth in his body.

A majestic energy is constantly rippling in the limbs and bones.

Really system!

Then, Omi's thoughts moved slightly, and a clear panel appeared in his mind.

**【Host: Omi】**

**[Repair: Planetary Level 3 (10,000/100,000)]**

**[Skill: Sword Eighty One]**

**[Equipment: Starfall Sword]**

Really upgraded!

Completely different panel.

Back then, when Omi was still a Chaos Dragon, he accidentally got a gem and found that it had a very strange structure inside.

After a simple refinement, he had the later red envelope and sign-in system.

Why is it still upgraded now?

Moreover, he also judged all the laws of time, space, and five elements that he mastered as primary?

The level of the system has been improved!

At this time, Ma Zheng, Feng Yue and Qing Song came over.

## The Luckiest man in the world CHAPTER 791

“Lin... Senior Lin.”

“Thank you, Senior Lin, for your action.”

“Senior Xie Lin.”

The three of them unconsciously changed the title of Omi to senior.

This is also normal.

In fact, the power that Omi showed earlier was too miraculous.

Drive away the coming insect emperor and instantly kill thousands of chaos locusts.

Omi said: "No need to be more polite."

Then, he glanced at the spirit crystals placed around the altar and said, "Let's share these things."

Ma Zheng said hurriedly: "These chaotic locusts were killed by Senior Lin, and the Insect Emperor was also driven away by you... Everything you get should be yours."

Feng Yue followed and said, "That's right."

"That's right!" Qing Song said.

Even though, in their hearts... such a thing, an expert like Omi should despise it.

However, they still did not dare to arbitrarily distribute what belonged to Omi.

Omi responded, "Okay."

With a wave of his hand, all the spirit crystals disappeared into the inner space.

"Let's go out." Omi said.

"Yes!" Qing Song, Ma Zheng and Feng Yue said in unison. UU reading

...

And when they were walking out of the abyss, or in other words, it was when Omi's system had just been successfully upgraded.

Outside Qingxing, the situation is surging, and the sun is shining.

These rays of light continued to gather and twist, and finally, four big characters like the scorching sun were formed: Congratulations, fellow Daoist.

This change immediately aroused the attention and discussion of everyone in Qingxing.

“what is this?”

“The latest high-tech?”

“But, it’s not quite like it.”

“There seems to be a strong energy fluctuation.”

...

compared to when entering the Rift.

Today, Omi’s strength and speed have all been greatly improved.

However, he did not throw away Qingsong, Ma Zheng, Fengyue and others because of this, but always kept the same pace with them.

A few hours later, the group of four finally returned to the ground.

Soon, they also noticed the gorgeous big characters suspended in the air:  
Congratulations, fellow Daoist!

“boom!”

“boom!”

Just when Omi raised his head, there was a sudden explosion in the sky, and the whole sky shook violently.

Then, around the splendid characters, large-scale fireworks appeared, just like fireworks, shaking the sky and covering the sun, extremely brilliant.

Many people in Qingxing exclaimed in admiration.

“What a big fireworks!”

“This is too beautiful!”

“Where are these fireworks from?”

.....

Even Fengyue, the master of Lingxing Xingxing next to her, had bright eyes dodging, and she couldn’t help but say, “It’s so beautiful!”

“call!”

A gust of wind blew, and the four big characters "Congratulations, Fellow Daoist" and the fireworks turned into a bubble and disappeared without a trace.

see this...

Omi was fascinated for a while, and he had a strange feeling in his heart that all these seemed to be prepared for him.

Is it the system?

If so, who is the upgrader of the system?

After a while, Omi suppressed the thoughts in his heart.

Qingsong next to him said, "Senior, and a few fellow Daoists, please move to Qingdian to rest."

"Okay." Omi nodded.

Feng Yue and Ma Zheng also had no opinion.

After a while, they came back to the palace.

Qingsong took out a treasure chest filled with spirit crystals that contained pure energy, and respectfully said, "Senior Lin, this is 100 spirit crystals, I hope you don't dislike it."

Originally, he promised Omi that the price was 10 spirit crystals.

However, the tyrannical strength displayed by Omi made Qingsong feel that 10 spirit crystals were simply not enough to pay for it.

Even if it was 100 spirit crystals, Qingsong felt that there were too few.

However, this is what he has accumulated over the years.

Omi was not polite, raised his hand and put the spirit crystal directly into the inner space.

At this moment, a clear prompt sounded in his mind.

【Ding! Complete hidden missions and reap rewards. Congratulations, you have obtained the talents of flame armor and top space law. 】

[Flame Armor: King-level armor, with strong defense and rebound attack power. ]

[Top-level space law talent: a powerful talent that can quickly perceive the space law. ]

Omi looked at the red armor in his mind, and his eyes lit up slightly.

With this armor, in this vast universe, safety should be guaranteed.

Then, he turned his attention to the top-level spatial law talent.

Omi felt the fluctuations in the surrounding space, and the idea of wanting to jump into it and swim in it was very strange.

He understands that cultivating the power of space will become very simple in the future.

When Qing Song saw that Omi accepted the spirit crystal, he was relieved.

Instead, he said to Fengyue and Ma Zheng, "This is the reward for the two fellow Daoists."

After speaking, he took out a total of 20 spirit crystals.

Then, several people chatted in the hall.

They first sighed at the abyss of the secret realm and the insect emperor, and then they talked about some things that happened in the spring domain.

While they were talking, they kept an eye on Omi's changes.

When they saw that Omi's expression had not changed, they were relieved.

Omi was not always calm on the surface, but he listened carefully to the conversation between the three.

From the conversation of the three, he learned more about things in the universe.

It turned out that above the planetary level is the star level, and further up is the domain master level and the cosmic level.

Omi couldn't help but think of his flame armor, king-level armor... What kind of equipment is it?

At this time, Ma Zheng said: "After a while, the Tianfeng Realm will be opened. Do you have any thoughts on entering it?"

When he said this, his eyes were always on Omi.

Because, the Tianfeng Realm is only limited to those who are under the age of 10,000.

Qingsong is over 30,000 years old, and Fengyue is a little younger, but she is also over 10,000 years old.

Obviously, none of them could get into it.

Only Ma Zheng, aged 9200, belongs to the category of genius.

He wants to enter the Tianfeng Realm for a while.

【Ding! Mission: Enter the Heavenly Wind Realm. Rewards king-level equipment\*1, king-level exercises\*1, heaven and earth epiphany\*1. 】

Omi said, "Let me go to the Heavenly Wind Realm with you."

Ma Zheng said with surprise and joy: "It would be great to be able to go with senior!"

The reason why he suddenly mentioned the Heavenly Wind Realm was because he had thought that Omi might not live long.

Because Omi's face looked too young.
