

The Luckiest man in the world CHAPTER 820

Zhu Yan didn't expect that Omi would reject him, his face turned cold.

Shen Sheng said: "Little guy, do you know who I am? I am the Palace Master of Vulcan Palace!"

Omi said, "What does this have to do with me?"

"Buzz!"

The hot air wave turned into a giant mountain of flames, rolling down towards Omi.

"Little guy, what did you say?" Zhu Yan said sharply.

【Ding! Zhu Yan's hatred for you is increased to 4 stars.】

Since the other party constantly hates himself, he is his own enemy.

To the enemy, still need to say good things?

Omi said directly, "Tell me Nima!"

"Bastard!" Zhu Yan shouted.

"boom!"

The terrifying aura, like a cannonball, directly knocked Omi into the air.

"laugh!"

next moment.....

Omi in Panlong Villa opened his eyes.

There was hatred on his face.

Then, he turned his attention to the system again.

[Zhu Yan: The cultivation base is unknown, the master of the Vulcan Palace. You have hatred for you because of your evildoer-level cultivation talent, your refusal to accept his apprentices, and your insults to him. The current hatred is 5 stars.]

5 stars!

good guy!

Must kill!

Omi thought of the curse technique.

However, he did not use it immediately.

Because, once cursed now, Zhu Yan can easily guess that he did it.

Although, Zhu Yan did not know where he was for the time being.

But what if he searched at all costs, and found it?

After all, he is the master of the Vulcan Palace, a powerful being with an unknown cultivation base.

Wait a few years.

.....

Time flies like water.

For the past few years, Omi has been practicing silently.

With the failure of the Earth's hidden formation, more and more people in the universe came to challenge, Lin Chengzhen entered the dark universe, and the appearance of the enemy Zhu Yan...

These... made Omi even more eager to improve his cultivation.

On this day, Omi suddenly found that there were many cars around the Panlong Villa, and many people...

He didn't use his mental power to cover the past and wanted to know the reason.

Soon, the conversation of everyone fell into the ears.

"Last time, was there really a golden light here?"

"The satellites have taken pictures, so is it still fake? Also, don't you feel that this place is very special?"

"I heard that a great man from a thousand years ago was named Omi, and he also lived here... You said, could he be the Lord of the Earth?"

“Does that great man really exist?”

“It’s really hard to say.”

.....

When Omi heard this, a clear expression appeared on his face.

It seems... that some people noticed the anomaly when defeating those challenges a few years ago.

In this regard, Omi did not take it to heart, and instead focused on the curse technique.

He murmured in his heart, “It’s been a few years, and it’s time to start cursing.”

【Ding! Do you consume 100,000 spirit stones to curse Zhu Yan? 】

“Yes!”

.....

on a distant planet.

In the Vulcan Palace with a very stylish shape.

glutinous rice

Zhu Yan, who is over a hundred meters tall, frowned slightly and said, “Someone cursed me? I’m not self-sufficient!”

His mind moved slightly, and the curse dissipated instantly.

.....

10 years have gone by in a flash.

In the past 10 years, Omi has obtained 6 immortal crystals, 5 dharma-shaped golden bodies, and 2 pieces of emperor-level equipment from the system.

And his cultivation base has reached the sixth level of the universe.

On this day, in his mind, a clear prompt sounded again.

【Ding! Congratulations, 70 years of the Advanced System. Reward Avenue Fragment*1, Dharma Phase Golden Body*1, Immortal Crystal*1. 】

see this...

Omi's eyes lit up slightly, and said, "Finally there is another piece of the avenue."

He still clearly remembers the fragments of the avenue, which has the magical effect of enhancing the aptitude of living beings.

"Wow!"

With a slight movement of his mind, he directly placed the mountain-like fragments of the avenue beside the enlightenment tree.

Immediately, everyone in the world...especially those in the Panlong Villa, their whole body became extremely relaxed, their cultivation was like a duck to water, and they grew rapidly.

Omi used the ethereal breathing technique and took a deep breath. The speed of his cultivation was at least three times faster than before!

Omi praised: "Sure enough, the fragments of the avenue are extremely good."

.....

on the other hand.

On the earth, some people who are moving bricks at the construction site suddenly feel as light as swallows, as if they have endless power, and move bricks one brick after another towards the distance.

Some people fighting in the ring suddenly both broke through, possessing tyrannical power, making the battle more exciting.

.....

In the blink of an eye, 5 years have passed.

Omi's cultivation broke through again, reaching the 7th layer of the universe.

Hu Tian, Su Ningning, Huang Ling and others have entered the planetary level, and they are not too far away from breaking through to the star level.

Among them, Xia Bing and Xia Xue have reached the 8th layer of stars!

On this day, as usual, everyone is cultivating hard.

A spaceship came galloping and stopped tens of thousands of miles away from the earth.

Then, a man in a white robe appeared in front of the spaceship and glanced towards the earth with a pair of eyes filled with golden light.

In his field of vision, the earth was enveloped in dense spiritual mist, and even vaguely transformed into countless roaring spirit dragons.

The man in white robe was surprised: "There is such a strong spiritual energy! It's unbelievable."

"No wonder, this planet called Earth has a star master like Omi."

After a pause, he added: "There is such a scenery outside the planet, what does the inside look like?"

Speaking of which, he flashed his figure and was ready to enter the earth.

But soon, he was blocked by an invisible wall.

indestructible.

The man in white robe was surprised again: "This is... a protective magic circle? A large protective magic circle that protects the entire planet? Could it be from that Star Lord Omi?"

"Not only does he possess extraordinary strength, but he also possesses a powerful formation? Incredible!"

After a long while, he opened his mouth and said, "Omi, the lord of the earth, I am Qin Xian, the lord of the Spring Region, can we meet?"

.....

In fact, when the white-robed man arrived outside the earth, Omi knew of his arrival.

Because, a clear prompt sounded in his mind.

【Ding! Detected Qin Xian, a cultivator on the 9th floor of the universe~ ~ Qin Xian: A cultivator on the 9th floor of the universe, Lord Xiamu, the Lord of the Spring Domain, is trusted by the Lord of the Spring Domain and has good abilities. 】

9th floor of the universe!

This is definitely a strong one.

Omi immediately observed the opponent with the eyes of the sky, and discovered more than a dozen weaknesses of the opponent. He had six or seven ways to instantly kill the opponent.

So, he was at ease.

Just watching Qin Xian silently on earth, wanting to see what he wants to do.

At this time, after hearing Qin Xian's voice, Omi did not hesitate too much, and stepped out one step, the surrounding space was rippling like a curtain of water.

In the next instant, Omi's figure appeared directly in the void.

Qin Xian smiled and said, "Lin Xingzhu, hello."

The Luckiest man in the world CHAPTER 821

!

The so-called, reach out and do not hit the smiling face.

Even in the universe, it is equally useful.

Omi said, "Hello Mu Jun."

After a pause, he said again, "I don't know if Mu Jun came to me, is there something wrong?"

Qin Xiandao: "You should know about the cosmic hegemony in 40 years, right?"

Omi wondered, "Cosmic hegemony?"

Qin Xian said strangely, "Don't you know about fellow Daoist Lin?"

After all, this is a very big game.

Generally speaking, as long as you have a little understanding of the universe, you should have heard of Cosmic Hegemony.

Omi shook his head.

Qin Xiandao: "Then let me briefly talk about it. Cosmic hegemony is a grand competition held about once a million years, and the contestants are composed of geniuses and powerhouses in each universe."

“Anyone who can achieve excellent results in the competition will receive the attention of major forces, resound through countless universes in one fell swoop, and gain great opportunities!”

“Especially, this cosmic hegemony has attracted the attention of the holy masters!”

When talking about the Holy Master, Qin Xian’s expression became obviously admired and excited.

When Omi heard this, a thoughtful look appeared on his face.

Could this be the reason why those sects kept challenging themselves?

At this moment, a clear prompt sounded in Omi’s mind.

【Ding! Mission: Participate in the Cosmic Hegemony Tournament. Reward Avenue Fragments, Immortal Crystal*5, Advanced Law Upgrade Gem*1. 】

Omi’s heart skipped a beat when he heard the words.

Avenue Fragments, 5 Immortal Crystals, Advanced Law Upgrade Gems!

The reward for this task is not too heavy.

It’s so heavy... Omi blurted out and wanted to agree.

Qin Xian said again: “For the sake of this cosmic hegemony, our Spring Region Lord is going to select some strong people and train them in advance. I wonder if Fellow Daoist Lin is interested?”

Concentrated training?

Isn’t this just recruiting into the national team and carrying out forced training?

This is definitely a very good thing for ordinary people.

Because, this is equivalent to not participating in the hegemony competition, you can first perform in front of the Lord of Spring Realm and obtain a lot of resources.

And once you get good results in the competition because of these resources, you can be favored by the Holy Lord.

This... is definitely a skyrocketing thing.

There are rich rewards for the task before, and there is the Lord of Spring, and even the favor of the Holy Lord.

For someone else, there would be no hesitation at all, and he immediately agreed.

However, Omi shook his head slightly and said, "Sorry, I have no intention of participating in the cosmic hegemony."

He had the experience of entering the secret realm, and even stayed in it for a full 10 years.

And a large-scale competition such as Cosmic Hegemony, which is once a million years, knows that it takes a long time just by listening to it.

In addition, following the Lord of the Spring Fields, you also need to participate in 40 years of intensive training.

All in all, I don't know how long it will take.

With this time, I might as well cultivate in peace on earth, accompany my family, and protect the earth.

Furthermore, cosmic hegemony involves huge interests.

The greater the interests, the more intense the struggle.

Although, Omi believes that he has a good strength now.

However, if there is an accident in the battle, or if it is plotted by some strong people, there will always be an accident.

In that case, it is better to stay on earth.

...

Qin Xian was stunned when he heard the words.

He didn't expect Omi to reject him.

Qin Xian stammered: "Lin... Fellow Daoist Lin, this is a very rare cosmic hegemony, you... don't think about it anymore?"

"No." Omi said decisively.

Qin Xian was stunned and said, "This... okay."

Gu Cui

The two continued to chat for a few words, and Qin Xian took the spaceship and flew away.

After all, twisted melons are not sweet.

And Omi returned to Earth and started his cultivation again.

Time goes by like water.

10 years have gone by in a flash.

Omi's cultivation base successfully broke through to the 8th floor of the universe.

On this day, as in previous years, a clear prompt sounded in his mind.

【Ding! For 80 years of obtaining the advanced system, you will be rewarded with emperor-level practice upgrade gems*1, fairy crystals*1, and intermediate-level law upgrade gems*1. 】

[Emperor-level exercises upgrade gems: mysterious gems that allow emperor-level exercises to be upgraded to saint-level exercises.]

[Intermediate law upgrade gem: A mysterious gem that can upgrade the intermediate law to the advanced law.]

Seeing this, Omi's eyes completely lit up.

This is definitely a very nice baby!

Omi pondered for a while, then set his eyes on the curse technique.

Curse, this is a good practice that kills people in an invisible way.

However, its curse efficiency is a bit too low today.

For more than ten years, Omi cursed Zhu Yan every day, but he never got any hint that Zhu Yan was affected.

It is necessary to upgrade it.

【Ding! Do you use Emperor-level exercises to upgrade gems for Curse (Emperor-level)? 】

“Yes!”

【Ding! The curse technique was upgraded successfully, and the curse technique was promoted to the holy level. 】

[Are you spending 1 million spirit stones to curse Zhu Yan?]

If it was placed on the previous earth, even 1 million spirit stones would be difficult to get out.

However, now, many forbidden places have come to the earth and brought many spiritual veins.

In addition, Omi brought some spiritual crystals from the universe, as well as the immortal crystals obtained from the system, which filled with a strong spiritual energy, which caused countless new spiritual veins to appear on the earth.

Spirit Stones... Naturally, there is no shortage of them.

Omi said without any hesitation, "Yes!"

In the inner space, a large piece of spiritual stone shattered together, turned into a stream of light, and disappeared without a trace.

...

on an endlessly distant planet.

Fire Palace.

Zhu Yan is sitting cross-legged in a purple flame, silently absorbing and refining fire attribute energy.

The next moment, Zhu Yan's whole body was filled with black air, and the purple flame that was calm as water, seemed to be thrown into a big rock, and kept tossing up.

Zhu Yan's face turned pale and said: "Curse, curse again! Moreover, the power of curse has increased so much."

"Who is it? Who is cursing me?"

In Zhu Yan's mind, there are people who have good strength and status, and who have hatred or interests with him.

"Master of the Water God Palace?"

"Sect Master of Wan Yaozong?"

"Sect Master Lei Zong?"

...

"I kept cursing me more than ten years ago. Now, why is it increasing the power of cursing? He seems to be in a hurry..."

"Time... Cosmic hegemony?"

When Zhu Yan said this, a look of surprise appeared on his face.

"It turns out that I want to mess up my layout for cosmic hegemony!"

"Chaos? Since you want chaos, let's make this world a complete chaos!"

When Zhu Yan said this, there was an endless vicious aura on his face.

That look... as if he instantly transformed into a ferocious hungry wolf, ready to tear everything to pieces.

The Luckiest man in the world CHAPTER 822

Zhu Yan's curse today is just the beginning.

Next, he received a strong curse every day.

Five years later, Zhu Yan became insane and tyrannical, and had the urge to destroy everything.

Soon after, Vulcan Palace and Momen joined forces to launch a violent attack on Water God Palace, Wan Yaozong and Lei Zong, and the battle range spread to several universes.

Chaos, blood, and spreading.

...

Omi didn't know anything about this.

However, a clear reminder sounded in his mind.

Omi's eyes lit up when he heard the words.

"It cost me so many spirit stones, and it finally had some effect."

So many spirit stones?

If Omi's words were heard by others, I don't know what his expression would be.

To know...

Spiritual stones are the most low-level and ordinary cultivation objects in the universe.

Generally speaking, 1 spirit crystal can be exchanged for 100 million spirit stones.

This is only the public exchange price.

Actually, very few people will do so.

Because the pure energy contained in the spirit crystal is far from comparable to the spirit stone.

Generally speaking, only 150 million spirit stones, or even 200 million spirit stones exchanged for 1 spirit crystal, will be considered.

From the beginning of cursing Zhu Yan to now, Omi has not spent a total of 100 million spirit crystals.

And Zhu Yan is the master of the Vulcan Palace, and his cultivation base has at least reached the emperor level!

Such a small price made a strong man of at least emperor level have a demonic nature.

I have to say, the power of the Holy Curse is really amazing.

Omi is still complaining?

In order to ease his dissatisfaction, Omi gave Zhu Yan another curse package.

...

On the other hand, in the distant starry sky.

Water God Palace, Wan Yaozong and Lei Zong high-level three parties gathered together.

"Our Wan Yaozong has already had 120 planets attacked."

“We Leizong destroyed 48 planets.”

“Our Wan Yaozong has destroyed 51 planets.”

“Forget the Demon Sect, are the people in the Vulcan Palace crazy?”

“Did they really think they could eat the three of us? Who gave them the confidence?”

“I propose to form a tripartite alliance of Water God Palace, Wan Yaozong, and Lei Zong to fight Vulcan Palace and Demon Gate together.”

“agree!”

“agree!”

...

An even more violent chaos spreads.

...

Ten years have gone by in a flash.

In the past 10 years, Omi obtained 5 immortal crystals, 4 golden statues, 3 king-level equipment and 2 emperor-level equipment from the system...

Omi frowned and said, “It’s been so long, it’s still a little short of breaking through to the 9th floor of the universe, and it’s too slow.”

Too slow?

I don’t know what the expression will be if someone hears it.

To know...

Decades ago, Omi was just an ordinary planetary-level cultivator.

This kind of training speed is even faster than riding a rocket.

At this moment, a clear prompt sounded in his mind.

Omi’s heart moved slightly when he saw the intermediate law upgrade gem.

He suddenly remembered that he had also obtained a piece more than ten years ago.

But, I keep forgetting to use it.

Now, it can be used together.

He slowly focused his attention on the laws of life and death.

Immediately, Omi had a deeper understanding of life and death.

With a wave of his hand, a white energy full of vitality and a black energy full of death appeared in front of him.

The white energy is continuously condensed and transformed, and a clever little person appears indistinctly.

Valley Twig

The black energy was constantly twisted, and it vaguely turned into a ferocious demon.

is very peculiar.

“Wow!”

Omi waved his hand again, and the white energy and black energy dissipated.

Then, his mind moved slightly and entered the long river of time directly.

took one step and embarked on the road of death.

100 metres.

500 meters.

100 metres.

3000 meters.

5000 meters.

...

As he walked away, the pressure on Omi began to increase.

At 7200 meters, he finally stopped.

Then, he took a step to the left and took the path of life.

100 metres.

500 meters.

1000 meters.

3000 meters.

5000 meters.

6000 meters.

Just when Omi gradually felt a little bit tired.

Behind him, a crisp voice suddenly sounded.

“Huh! Your understanding of the laws of life has reached this level?”

After hearing the sound, Omi slowly turned around and looked over.

I see...

A woman with a graceful figure, snow-white skin and exquisite facial features appeared

This chapter is not over, please click to continue reading! Page 1 of 2 is next to it.

She...is the goddess Kaelin of the Temple of Life.

“A super genius under 2000 years old...”

Kailin looked up and down Omi with a pair of beautiful eyes.

After a while, he said, “Omi, are you willing to come to our Temple of Life? With your qualifications, you can definitely become the disciple of our temple master.”

Omi shook his head and said, “Sorry, I have no intention of becoming a teacher.”

Many people, the reason for apprenticeship is to obtain exercises, inheritance, resources and so on.

However, all of these Omis are not lacking.

On the contrary, apprenticeship will also make you lose your freedom.

In this case, Omi naturally wouldn't choose to be a teacher.

Kailen said: "Omi, don't be so anxious to refuse. You may not know much about our Temple of Life. The master of our Temple of Life is an emperor-level powerhouse!"

"Now, the Fire God Palace and the Demon Gate have jointly launched an attack on the Water God Palace, Wan Yaozong and Lei Zong, causing many universes to fall into chaos, but our Temple of Life has not been affected in any way."

"Because, the founder of our Temple of Life is the Holy Lord above!"

"If you join the Temple of Life, you are more likely to receive the attention of the Holy Lord."

Obviously, Kaelin is really optimistic about Omi.

Otherwise, she wouldn't explain so much at all.

Omi also felt Kaelin's expectation.

However, he still shook his head and said, "Sorry, I prefer to be unfettered."

Holy Lord... Undoubtedly an extremely powerful existence.

The more powerful , the more he will restrain others.

What's more, Omi was confident that he could also reach the realm of the Holy Master.

Why should be restrained by others?

Kaelin seemed to see Omi's confidence and couldn't help but glance at him.

After a while, he said: "If that's the case, then I'll pass on some of your insights and exercises on the laws of life. I hope you can go further and further on the road of life."

After finished speaking, he stretched out his slender fingers and gently tapped towards Omi's forehead.

"Wow!"

Immediately, many complex and mysterious life-system perceptions appeared in Omi's mind.

At the same time, a clear reminder sounded in Omi's mind.

Omi came back to his senses after hearing the voice.

Kailen smiled and said, "See you next time."

After that, she walked away quickly along the path of life.
