

M Road

Chapter 168

The weather suddenly became cold overnight. A sleet made the urban roads muddy, and the yellow and withered leaves slowly fell down. Autumn is coming to an end. In the past, Zhang Fan didn't care about clothes when he was alone. After falling in love with Zhang Fan, Shaohua's love is much better now, that is, dressing up Zhang Fan!

Shaohua wouldn't let Zhang Fan wear some of the previous clothes, because Zhang Fan didn't pay special attention to clothes, and there was no matching of clothes. In the shopping mall, there are a variety of down coats and leather clothes. It's too cold in the winter of tea vegetable city. Zhang Fan often has an emergency in the middle of the night. His down jacket can't carry the winter of tea vegetable city. He must buy a leather coat.

Zhang Fan looks at himself in the mirror. He looks good in brown leather clothes with jeans, overalls and boots. This set is really good, but he can't bear it. It's too expensive ~! This one cost more than 4000 yuan. It's really expensive.

Shao Hua is reluctant to wear expensive clothes, but he is strict with Zhang Fan's dress requirements. "I am a small employee of the bank. I wear work clothes every day and a coat after work. Moreover, I don't communicate much, but you are different. The most important thing for men is energy. You don't wear gray every day and have no spirit. Besides, if you dress decently, there is light on my face. "

"Why don't you buy some clothes? I have a decent face." Zhang fanleng counselled! Shaohua will bite Zhang Fan as soon as he hears Zhang Fan say this. Finally, when Zhang Fan came out of the mall, he felt warm in his heart. He couldn't tell what happiness and love were. That's what the light warmth was like a warm current blowing through his heart.

Compared with ordinary surgeons, Zhang Fan's technology is too comprehensive. He is directly a comprehensive deputy senior doctor of major surgery. County and township operations are directly monopolized by Zhang Fan. He can do the two most operations in general surgery and orthopedics. Although he has gained some fame in the municipal hospital, he is still young after all, and Zhang fan can't involve many things in the Department.

Now, after monopolizing the county and township operations, Zhang Fan's name appears on the list of major equipment manufacturers. Although the operation volume of county hospitals can not be compared with that of municipal hospitals, the total number is also large, which represents interests. This is the market, and various equipment manufacturers began to show their magic power.

An instrument can enter a municipal hospital. Without a certain level of leadership, it can not intervene in this field. Domestic and imported instruments and instruments from different manufacturers need to be used by doctors after entering the hospital. How can doctors use it?

The big boss is responsible for entering the hospital, and the following salesman is responsible for the Department Director and doctor. An excellent salesman can be like relatives with the Department Director or doctor.

This Kung Fu is a hard work, maintaining and contacting day after day. When a doctor is promoted to the chief physician, if he can make achievements in technology, there will be devices to contact and bet on his future achievements on behalf of businessmen.

From the beginning of contact with the attending doctor to the beginning of heavy injection by the deputy high school, the directors of a department, especially the directors of large departments in some large hospitals, the game is very cruel, not only the doctors' own struggle, but also many factors in all aspects.

First of all, we should be top-notch in technology in the Department, and then start competing for additional resources and strength. Although Zhang Fan is a resident doctor at present and has not even reached the attending level, he has emerged. Li Qiong, Lao Gao's Royal instrument manufacturer, is ready to contact Zhang Fan.

There are many brands represented by Li Qiong. After more than ten years of hard work, she has deeply penetrated into the interior of the municipal hospital. She has begun to prepare to contact Zhang Fan. It's too easy for her to master Zhang Fan's whereabouts.

In Chark hospital, Zhang Fan is doing a fracture internal fixation operation. Zhang fan can give money to the doctors in the county hospital, and the doctors are also very active in closing the source of the disease. The instruments of county-level hospitals are not stored in advance. When they need to be used, the director or competent doctor calls the instrument manufacturer one night in advance, and then sends them to the hospital for disinfection, and let the doctors use them the next day.

Because of orthopedic surgery, before Zhang Fan went to the county hospital, Li Qiong knew that Zhang Fan was going there the day before. After the operation, Zhang Fan divided the expenses and saw Li Qiong when he walked next to the car.

"Dr. Zhang, do you want to go back to the city? How about giving me a ride. " Li Qiong smiles like flowers. This woman is too good at dressing herself up. There is a seductive charm in her maturity, and there is a temptation in her movements and voices.

"Oh! Mr. Li, yes, you go back to the city, too? Then get in the car. "

Drive, let's go" Will Dr. Zhang come for the operation? "

"Yes."

"You're really good. I especially admire a young and capable person like you. You're really good! My childhood dream was to be a doctor. As a result, I was too stupid! There's no chance. "

"It's a career, not as good as you think."

"It's sacred to save the dying and heal the wounded! Doctor Zhang is so excellent that there are many girls chasing you. "

"Hehe! I'm ready to get married. " Zhang Fan didn't feel quite right. The woman's words showed a deliberate tone. Just like in those days, in order to run his own small business in the dormitory, he also courted all kinds of roommates in the dormitory. He began to guard against Li Qiong. Zhang Fan still thought of Li Qiong simply. A successful medical representative would have been abandoned early if he didn't have a certain EQ and IQ.

"Yes! It seems that Doctor Zhang has hurt many girls' hearts again. Doctor Zhang bought the house in that community. " Li Qiong asked Zhang Fan in a surprised and exaggerated tone.

"Oh, Jinghua community."

"Yes, great. I also have a house in Jinghua. It's really fate. Doctor Zhang, I should not be a few years older than you. "

"Almost. Li always looks very young."

"Doctor Zhang is really good at talking. Then we will be friends in the future. How about it?"

"Oh! Oh, yeah! It's a friend. " Zhang Fan perfunctory her.

"It's a deal. Don't be polite to me if you have anything in the future. For example, buy something at home, install furniture and appliances, and tell me. It's definitely done for you."

"Thank you, Mr. Li."

"Dr. Zhang, is there anything else to do when you go back to the city today? It's better to meet by chance and have a light meal together in the evening. Can you give me a face? " Li Qiong's tone changed from atmosphere to pity.

"Oh, I'm really sorry. I've made an appointment with my girlfriend to have dinner. I'm really sorry."
Zhang Fan refused directly. Zhang Fan knew exactly how many kilograms he had. The meal was delicious and difficult to digest. Now he has a good income. There is no need to be involved. The amount of brush surgery is his biggest goal.

"Then next time, what a pity!" Zhang Fan doesn't enter the oil and salt, and Li Qiong is not worried. If she can take Zhang Fan down at one time, she is also worried that something will happen. The more difficult it is to contact, the more safe it is, and the more able it is to withstand the temptation, the greater the success. She's not in a hurry!

When she arrived in the city, Li Qiong got off before she got to the hospital. She knew her identity and let other doctors see that she was with Zhang Fan. It was not good. She got off early and left. This was her first contact. She was very satisfied with Zhang Fan's performance, calm and cautious!
