

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1052

The people outside were used to calling this the illegal area.

Actually, the place was not big.

Moreover, as long as you didn't step foot into those gray areas here, it was no different from Beijing and Rao City.

Eight in the evening.

Qin Si, Ye Wangchuan, and the others prepared to go to the top floor to attend the banquet.

There was an elevator up.

When they arrived at the banquet hall on the 88th floor, their entire field of vision widened. The banquet hall was decorated in a dazzling manner. The lights were bright, and melodious zither music could be heard.

This banquet was organized by the IT Association. Almost all the 'celebrities' in the IT industry were here.

It was very high-class.

Waiters from Jin Chen Hotel were especially guarding the door. Only those with an invitation could enter. Those who didn't would be stopped outside.

Qin Si and Ye Wangchuan had just arrived. They were quite low-profile and did not show off too much. When they were outside the banquet hall, Qin Si lowered his voice and said to Ye Wangchuan, "Hengfeng Corporation will also come this time. I heard that the chip technology they developed has caused quite a stir at this exchange. If they can successfully promote the technology, they can make a huge profit..."

He was just casually talking at the side.

Although the Ninth Branch was also involved in the IT business, it did not involve much. They didn't come this time to attend this banquet.

.....

They were just attending it out of convenience.

They had received an invitation from the IT Association and were free tonight. He wanted to see if he could be lucky enough to meet his idol, so he pulled Ye Wangchuan along to accompany him.

In fact, they had come to participate in an auction this time. Master Cheng's research required a raw material. They had searched for a long time but couldn't find it. The black market would be auctioning this time, so they had specially come.

"Hengfeng Corporation?" It was rare for Ye Wangchuan to wear a formal suit. His black suit was ironed neatly, and it looked tall and straight on him. The buttons on his sleeves were very textured, but his expression was too playful. He looked casual, but it did not affect his noble aura.

Even if the people passing by did not know his identity, they could tell from his aura that his background was not simple.

"It's the Qi family." Qin Si was a lively person and knew a little about everything. He explained to him, "Do you still remember Qi Lanyin? She's the person who participated in the competition with Sister Qiao last time. In the end, Sister Qiao came in first place."

"She's from the Qi family. The Qi family has some background overseas and has been developing quite well in the past few years, especially in some high-tech industries. They've invested a lot of manpower and financial resources in research. If they successfully take down the chip technology this time, Hengfeng Corporation will be able to advance further in the IT field."

Ye Wangchuan narrowed his eyes.

Qin Si knew what he was thinking. He smacked his lips and said in a panic, "The Qi family has always been arrogant and domineering. They're famous in the industry for being monopolistic. They suppress whoever doesn't listen to them. However, it's none of our business if they don't provoke us..."

The last time, Qi Lanyin had almost provoked them, but Qiao Nian had directly crushed her and even slapped her in the face.

Qi Lanyin and the others were covered in dust and looked miserable for a long time.

What could they say?

Sister Qiao was too strong!

Qin Si sighed and was about to say something when he saw the familiar figure of a girl at the entrance of the banquet hall.

He was stunned for a moment before blurting out reflexively, "F\*ck. Sister Qiao?"

Was he seeing things?

The girl was wearing a baseball cap, and her back view was arrogant and special.
