

## **MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1171**

As soon as Qiao Nian went up, the computer went black, and then a lot of green garbled characters appeared.

The garbled characters also jumped fast.

It was very similar to what happened when the computer at home broke down.

Veins popped out on the back of Old Master Jiang's hand. His wise eyes had always been able to remain calm in the past, but this time, he wasn't so calm when it came to Qiao Nian. After looking at her for a long time, he still couldn't figure out what was going on. He asked Gu San worriedly, "What does Young Master Ye mean? Nian Nian said that she wants to recover the data, but Young Master Ye just let her do it?"

This was not his original intention.

!!

Old Master Jiang was indeed a little worried about Qiao Nian. He frowned and ignored Ye Wangchuan's identity. In a voice that only the three of them could hear, he lowered his voice and said, "Nian Nian has never studied anything related to computers. What if she fails if you let her do it like this?"

"Old Master Jiang." Gu San's expression was a little helpless. Facing the worries of Old Master Jiang, he didn't know how to explain it. "Don't worry! Miss Qiao's recovery of data is as simple as turning on and off the computer. There's no what if!"

This big boss was an existence that could make a difference in the Ninth Branch.

Wasn't Zhou Wei great before?

The Zhou family was about to blow up in the country.

It was said that Zhou Wei's family was the first IT company in China. Zhou Wei's talent in computing was rare in China, and she was considered a genius.

And then?

Whether it was the Zhou family or Zhou Wei, they were nothing in front of Miss Qiao!

Gu San looked in Liang Lu's direction with a contemptuous look in his eyes. He had already roughly understood the cause and effect of the incident from Old Master Jiang's side when he arrived.

He just wanted to sneer.

Initially, if Liang Lu had not wanted to please Wei Ying and did not jump out to shift the blame on Miss Qiao, then perhaps this would not have happened.

With Wei Mingxuan's character, even if he had doubts about Old Master Wei's death, he would not attack when his bones were cold.

However, both Wei Ying and Liang Lu were courting death!

They had hit the muzzle!

"Just wait, Miss Qiao will be able to restore the data! Then..." Gu San didn't say anything next.

But since Wei Ying and the others went to great lengths to format all the previous monitoring data, this behavior itself showed that there was something suspicious about it.

All turned out now.

Wei Ying and Liang Lu...

Qiao Nian did things very fast. She said that she wanted to restore the data, and after checking the internal disk of the computer, she opened the editor.

Everyone only saw her typing extremely fast, and they didn't see what she was typing.

They just felt that her expression looked serious. She wasn't taking this as a joke.

Shen Jingyan watched as the girl sat there boldly. His heart was beating fast, and he felt that something was about to rush out of his chest.

He was anxious and irritable.

But Ye Wangchuan was standing beside Qiao Nian. Other than standing there, unable to do anything, he couldn't think of anything else he could do to stop what was about to happen...

"Qiao Nian knows programming?"

Wei Ling was equally uneasy. She concealed it very well, but the tension and anxiety in her tone still betrayed her.

Shen Jingyan looked up at her, pursed his lips, and shook his head. "I don't know."

He didn't know whether Qiao Nian knew programming.

Wei Ling's heart sank again. "... I've never heard of her knowing how to use a computer before. I see that the computer is full of garbled characters. She must be trying to scare us, right?"
