

## **MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1199**

He had come today to see what the so-called cousin who had caused a ruckus in the house looked like. He had just seen how she had a huge fight with her adoptive mother and grandmother in the cafe. Her aggressive attitude perfectly matched the image of the person he had heard about on the phone.

He originally thought that there might be a misunderstanding.

After all, Jiang Li had also mentioned his cousin.

In Jiang Li's words, Qiao Nian was actually an easy-going person.

From the looks of it, it might be as his mother and Xianrou had said. Jiang Li had also been coaxed by the other party.

!!

Otherwise, why would he think that a girl who exuded the aura of a hooligan was someone with a good personality and was easy to get along with!

"I'll introduce Xianrou to you when I get back."

At the mention of Jiang Xianrou, Jiang Yao's face softened. He finally smiled and introduced her proudly. "Xianrou is also a Qing University student. She graduated this year. She studied clinical medicine, but she wants to transfer to bioengineering when she takes the general examination this year. By then, she should enter the Ninth Branch and learn from Master Cheng."

Very few second-generation disciples in Beijing could enter Tian Chen.

Tian Chen was a very difficult place to enter. Once anyone said that they were from Tian Chen, everyone would think highly of you.

For Jiang Yao and Xu Jishen to be able to enter Tian Chen, they were definitely the most outstanding talents among their peers.

But the Ninth Branch was even harder to enter than Tian Chen!

Tian Chen's forces were in the illegal zone.

The Ninth Branch was in the country.

However, it was said that the Ninth Branch also had its own forces in the illegal district. It was just that so far, no one had figured out which forces the Ninth Branch had.

Among the people in Beijing, only Zhou Wei from the Zhou family had successfully entered the Ninth Branch.

Jiang Yao didn't know what kind of trouble the other party caused later on. He was in the illegal district. He only heard that Zhou Wei was chased out of the Ninth Branch and the Zhou family fell with her.

Zhou Wei had only entered the Ninth Branch but did not learn under Master Cheng. Because of this, the Zhou family had become glorious in Beijing for a period of time.

The Jiang family's status would rise if Xianrou could learn from Master Cheng in the future!

Jiang Yao frowned at the thought.

Originally, their family was doing well. If they did not split up, Xianrou would enter the Ninth Branch in the future and learn from Master Cheng. Her uncle and the others would also benefit from it.

Now, Grandpa had foolishly presided over the separation.

Uncle's family... had declined. They would not be successful!

Xu Jishen was not interested in his family matters. After all, the Xu family was not inferior to the Jiang family.

His grandfather, Su Huaiyuan, had yet to retire. Compared to Old Master Jiang, who had already retired for several years, to a certain extent, the Xu family had more power than the Jiang family.

It was just that their family's foundation was not in Beijing.

Initially, he was not very interested in Jiang Yao's biological sister. But he raised his eyebrows when he heard this. "You said that your sister will learn from Master Cheng in the future? You're good! Jiang Yao!"

Jiang Yao smiled and said humbly, "This matter hasn't been confirmed yet, but it shouldn't be a problem. Xianrou has always been on good terms with Young Master Ye and the others. As long as Xianrou is capable enough, I think Young Master Ye and the others will help pull the strings."

Xu Jishen sat up straight when he heard that Jiang Xianrou was on good terms with that person from the Ye family. He finally became serious. "You said that your sister knows Young Master Ye and the others?"
