

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1210

A round-faced computer teacher turned around and asked Liang Conglin, "Principal, are you going to write this name?"

Liang Conglin looked at Qiao Nian and recalled what he had experienced in the illegal district. Without thinking, he narrowed his eyes and said, "Write it! Why wouldn't I write it?"

Qiao Nian was going to participate in the competition. He was suddenly filled with confidence in this year's software competition!

They had always been in the top 16 in the past. This year, they should enter the group stages, right?

Liang Conglin looked at the girl's overly eye-catching face again and sighed in his heart. He wondered if their school would be chosen this year.

...

Qiao Nian handed in her software and registration form and left.

She didn't stay long at the registration office.

The back view was cool and sassy.

On the other hand, Zhou Yang and the others were behind Yin Wenzhi. Seeing that Qiao Nian had signed up, Zhou Yang watched as she came over to sign up like the wind and left in a carefree manner.

After returning to Room 3306 with Fu Ge.

Seeing that Wen Ziyu had just returned from playing basketball in the dormitory, he said, "Young Master Wen, do you know who I saw today?"

Wen Ziyu had been in a bad mood these past few days and went to the field every day to train himself. He wore a sports band on his forehead and looked handsome. He threw the basketball into the basket, dragged the stool away, and sat down. "Oh, who did you meet?"

He knew that Zhou Yang had gone to the principal's office with Fu Ge to sign up for the software competition. He was not interested in Fu Ge.

Unexpectedly, Zhou Yang said a name. "Your goddess, Qiao Nian."

Wen Ziyu stood up and frowned. "Who are you talking about?"

"Your goddess, Qiao Nian, also signed up for this software competition. I didn't expect her to know how to use a computer."

Wen Ziyu hadn't expected Qiao Nian to know how to use a computer.

His heart had been empty ever since he found out from his aunt that Qiao Nian was Zhui Guang on the day of the school's anniversary celebration. For the first time, the insufferably arrogant Young Master Wen realized that there was a girl more awesome than him. He was already very disappointed.

He had mixed feelings upon discovering that Qiao Nian was going to participate in a world-class software competition. He couldn't tell if he was happy or unhappy, but his feelings were quite complicated.

Zhou Yang was also a boy and saw that his reaction was not right.

Coming back to his senses, he roughly guessed what Wen Ziyu was thinking. He walked up to him and patted his shoulder to comfort him. "Aiya, don't think too much. Qiao Nian is just going to register, not represent the school in the selection. Fu Ge also registered. Do you think your goddess's computing skills are higher than Fu Ge's?"

Wen Ziyu said nothing.

He was unhappy that Zhou Yang compared Qiao Nian with Fu Ge.

However, he had been friends with Fu Ge and had lived with him for a long time. He knew that Fu Ge's computer skills were not bad. He was even better than some computer professionals.

He also liked to write software in his spare time.

He still wanted to enter Tian Chen Corporation in the future.

Qiao Nian was a Chinese medicine major and a freshman. Wen Ziyu really couldn't bring himself to say that Qiao Nian could compare to Fu Ge.

"That's why you shouldn't think too much about it." Zhou Yang patted his shoulder again and said naturally, "Anyway, the results will be out tonight. You'll know when you see the list released on the school's website."

After the Qing University's name list was selected, they would submit the competition software to the organizing committee together with the people selected from the hundreds of universities in the country.

In the end, only one person would be chosen to represent the country.

Zhou Yang said that the results would be out at night. Who knew that the results would come out even faster than that?
