

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1228

As expected.

The others immediately praised Jiang Yao. "Young Master Jiang has entered Tian Chen. Tian Chen is not an ordinary place. He probably took the time to come straight home once he could."

"Maybe." Tang Wanru picked up her coffee cup to hide her smile and said casually, "That child is like this. He's good at everything, but he takes care of the family too much. I told him not to care about the family after entering Tian Chen and to just learn from others. He just doesn't listen and always likes to come back."

Who couldn't tell that Tang Wanru was showing off that Jiang Yao had entered Tian Chen and was an elite among elites?

The ladies' expressions became interesting. No one wanted to answer, lest others thought that they wanted to flatter Tang Wanru.

The person who mentioned Jiang Yao continued reluctantly, "That's why I often ask you how you teach your children. How are they all so obedient? They're nothing like our mischievous kids. I'll say one thing and they'll talk back with another. They won't come back if they can, and sometimes they still don't return even after I call them."

Then, she smiled and immediately changed the topic. "By the way, have you heard? Tian Chen's boss attended Old Master Wei's funeral and personally went to the Wei family to pay his respects."

"You said that Tian Chen's boss went to the Wei family a few days ago? Doesn't that mean that he's still in Beijing?" A socialite who had not spoken the entire time couldn't help but ask.

Madam Zhou smiled and picked up her teacup. "I don't know about that."

She turned to look at Tang Wanru and said casually, "Young Master Jiang is also from Tian Chen. He should know if Tian Chen's boss is still in Beijing."

The others also looked at Tang Wanru.

Tang Wanru suddenly frowned and tightened her grip on the cup handle. Pretending to be magnanimous, she replied, "Jiang Yao didn't tell me. I'll ask him when I get back."

Tian Chen had a very strong background in the illegal district.

Jiang Yao was already considered a very outstanding person among the younger generation. Otherwise, he wouldn't have been able to enter Tian Chen. However, these socialites knew very well that Jiang Yao had only entered the group. He couldn't even be considered a higher-up in Tian Chen. He was just an ordinary member.

How could Jiang Yao have a relationship with the big boss!

Tang Wanru said she was going to ask Jiang Yao? Wasn't she too arrogant?

On the other hand, Madam Zhou gave Tang Wanru enough face when everyone was silent. She calmly helped her find a way out. "Alright, then I'll have to trouble Madam Jiang to help me ask Young Master Jiang. I heard from my husband that he didn't leave Beijing. I'm wondering if he has anything else to do other than coming to Beijing to pay respects to Old Master Wei. After all, Young Master Jiang came to Beijing at about the same time as the boss behind Tian Chen. Young Master Jiang might know."

Tang Wanru nodded and was also thinking about this.

Did the boss behind Tian Chen come to the capital for something other than paying respects to Old Master Wei?

What was it?

A little distracted, Tang Wanru sent a message to Jiang Yao under the table and asked him about the boss behind Tian Chen.

...

A long strip of cordon was set up outside the Qing University Arts Building. Ordinary students were no longer allowed to approach within 300 meters of the building.

Qiao Nian arrived at school at two-thirty.

She had to go through a security check before entering to participate in the competition. The security check did not allow her to bring her cell phone in.

Qiao Nian took it out and took a look.

Other than the message from Ye Wangchuan, there was also a WeChat message without a number.

[You want to compete? Why? Haven't you always disliked these things?]
