

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1441

As expected.

Old Master Jiang mentioned excitedly, "Your cousin gave this to me. She said that this medicine is a very precious medicine developed by the Pharmacy Association. It's not sold on the market. It's very rare. She only obtained this medicine through her connections with the Pharmacy Association.

"Nian Nian, look at this small pill. Does it look like the medicine you gave me?"

Old Master Jiang didn't really treat the medicine that Jiang Xianrou had given him as a 'health supplement' that Qiao Nian gave him. He purely felt that it was a coincidence.

Laughing, he said, "The first time I saw this drug, I had this feeling it looked like the drug you gave me."

Qiao Nian opened the box and saw a small pill lying quietly inside. It was very familiar.

It was hers.

"Apparently, this drug is selling for seven figures on the black market."

Old Master Jiang shook his head in disbelief.

"What medicine is so expensive? She must have been cheated."

"..." In theory, they did have to sell them for seven figures each.

Because she had been busy recently, the black market had been out of stock for a long time. She didn't expect Jiang Xianrou to get a pill.

Jiang Xianrou was right about the value of this medicine.

"I think so," Qiao Nian replied casually.

She closed the lid of the box casually and handed him back the box with the small pills. Then, she turned and took a glass bottle from the shoulder bag she had brought and handed it to the old man.

Her eyebrows were restrained as she said softly, "Grandpa, I brought you a new bottle of health supplements. Put it away first."

"Why did you buy it for me again?"

Old Master Jiang looked at the familiar glass bottle. There wasn't a label. He was a little surprised that Qiao Nian had brought him another bottle.

"I haven't finished the bottle you bought for me. There's still half left. Besides, I've been much stronger recently. Don't spend money on me..."

Qiao Nian didn't explain much. She simply said, "This is a new product. Take this after you finish the previous bottle."

She had checked a lot of information some time ago and improved the prescription.

This was the little pill she had remade.

Compared to the previous ones, the new pills could be considered a strengthened version!

The small pill that Jiang Xianrou had given Old Master Jiang was a semi-finished product before she changed the prescription. It was also effective, but it was incomparable to the new one.

She only made about 20 pills after she improved the prescription this time.

She put them in three glass bottles, one for Old Master Jiang, one for Old Master Ye, and the other for her father.

There was only one left.

Wei Lou had told her many times that the black market had been out of stock for a long time. The remaining one would most likely be sold soon.

She had no shortage of money.

Therefore, she had never thought of selling these things for money.

If she could give things like small pills to her family, she would definitely give them to them first.

The rest could wait.

Old Master Jiang looked at the girl seriously.

He took the medicine and solemnly put it away.

He had specially placed the health supplements that Qiao Nian gave him in his small drawer. That level of importance was even greater than the precious medicine that Jiang Xianrou had told him about seven or eight times.

After Old Master Jiang put away the new 'health supplements', he looked at the girl with loving and gentle eyes and said, "By the way, your cousin is holding a filiation banquet next week. Are you going?"

Qiao Nian's eyebrows were sharp, and she was in low spirits. She casually zipped up her bag and stuffed her hands into her pockets. "No. No time."
