

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1481

Jiang Xianrou was slightly distracted, and all kinds of trivial matters appeared in her mind.

She didn't want to find out why Qi Yan had taken a fancy to her and wanted to acknowledge her as her goddaughter.

She didn't want to understand why Qi Yan would give her such a precious chance to enter the Pharmacy Association.

She only knew that she was about to enter a new level with the Qi family's help and was about to get rid of the haze she had been feeling recently.

Jiang Xianrou's heart beat faster as long as she thought about how she was about to set foot in the Pharmacy Association. She was so excited that she didn't feel tired even as she packed her luggage.

She wished she could set off immediately!

"I heard that Qiao Nian caused trouble again." Tang Wanru helped Jiang Xianrou put all the skincare products into a separate storage bag as she casually spoke. "She got someone to ban a female celebrity. That female celebrity even came to me through her connections."

Fu Sinian had called her this afternoon.

However, Tang Wanru didn't take the Fu family seriously, let alone Fu Sinian.

She rejected him without hesitation, not wanting to get involved before leaving for the Pharmacy Association.

Jiang Xianrou only nodded and was not interested in this matter.

Hearing this, she curled her red lips in disdain and said, "Isn't that her personality? She can't stand how anyone must make that person kneel down and beg for mercy. She's too domineering and doesn't give herself any leeway at all. One day, she'll suffer because of her personality!"

Tang Wanru pursed her lips and said with a disdainful expression, "Who knows? Anyway, it has nothing to do with us."

Jiang Xianrou thought about it and smiled.

That's right. She wouldn't be on the same level as Qiao Nian once she entered the Pharmacy Association.

She no longer cared about her.

Not to mention comparing herself to Qiao Nian. That would be lowering her status.

"Oh, yes."

Tang Wanru packed all her things. Then, she thought of something.

“Didn’t your father ask you to ask Dean Zhong for medicine for your grandfather? Don’t be silly.

“You’ve just entered the Pharmacy Association. Now is the time to show off. Dean Zhong might be dissatisfied with you if you ask him about these trivial matters.”

Tang Wanru’s eyes were cold. “To put it bluntly, you don’t have to take the risk for your grandfather. In the past, I didn’t even persuade you when your grandfather treated you well. Now, he only has Qiao Nian in his heart and doesn’t even look at you anymore. He has already chased you out of the family tree. Why do you have to stand up for him?!”

Jiang Xianrou only agreed to Jiang Zongnan’s request on the surface. In fact, she had never thought of looking for Zhong Yiliu for Old Master Jiang.

She nodded and said obediently, “I know, Mom. Don’t worry. I know what I’m doing.”

“As long as you know what you’re doing.”

Tang Wanru more or less knew her personality. She was satisfied upon seeing that she didn’t get emotional over Old Master Jiang’s health.

Coincidentally, Jiang Yao came up from downstairs to ask if they had packed their things.

Tang Wanru stopped talking about it.

The flight was at 11. They gathered at the airport at 10.

The airport was as brightly lit as if it was the day. Passengers came and went.

Many cars were also parked outside waiting to pick someone up.

Jiang Zongnan and Jiang Yao were both there.

Even Jiang Li put on a baseball cap and came over to send Jiang Xianrou off.

Qi Yan and the others were definitely unwilling to be wrapped up with the Jiang family, so they chatted with the people from the Pharmacy Association not far away.
