

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1506

Qin Si was confused.

Tang Ning was also wondering why Jiang Xianrou was looking for Zhang Yang. However, she was just a small fry here. Qin Si and the others did not ask, so she was not qualified to speak.

“Why is she looking for you?” As expected, Qin Si was the most impatient. He blew out a smoke ring impatiently and couldn’t even be bothered to mention Jiang Xianrou’s name.

Zhang Yang said, “Miss Jiang told me that she’ll be back in a week and asked me to eat with her.”

!!

Qin Si looked up at him and asked in a surprised tone, “Oh, she likes you?”

Zhang Yang’s face darkened at his words. He quickly waved his hand and explained, “Young Master Qin, don’t joke with me. Miss Jiang is arrogant. How can she take a fancy to me?”

“I reckon Miss Jiang wants to ask you and Master Wang out through me...”

Unfortunately, Jiang Xianrou had offended Miss Qiao, so Young Master Qin and the others could no longer care about Jiang Xianrou.

That was what Zhang Yang thought. It was the way to survive in this circle if one did not expose some things!

He didn’t have to spell it out.

As expected.

Qin Si immediately revealed a disgusted expression and did not hide his disdain when he heard that Jiang Xianrou wanted to ask him out. “She’s dreaming.”

He thought for a moment and pursed his lips, then said coldly, “That’s true. She went to the Pharmacy Association and hooked up with the Qi family. She was very glorious in Beijing some time ago and gathered with Ruan Sisi and the others every day.”

The forces in Beijing were also divided.

The Ruan family had a good relationship with the Wei family. They had a... nodding relationship with the Ye family and their family.

Jiang Xianrou had fallen out with them, but it did not affect her playing with Ruan Sisi and the others.

He heard that some time ago, Jiang Xianrou was still very close to the Zhou family. Zhou Hengfeng was just short of forming a small group to fight with them.

Now, she came to Zhang Yang again... Qin Si couldn’t understand what was going on in her mind. Did she think that everyone else was stupid and that she was the only one who was so smart?

“Young Master Qin, don’t say that. The Pharmacy Association is very impressive. No one expected Miss Jiang to be able to enter it.”

Zhang Yang spoke nicely, but anyone with ears could hear the mockery in his words. He was mocking Jiang Xianrou for being so self-righteous.

“She’s a member of the Pharmacy Association now. Even if she’s just an ordinary member, plenty of people in Beijing want to curry favor with her.”

The Pharmacy Association was just a research organization that developed drugs. But in that case, anyone in this world who was related to birth, aging, illness, and death had a high status.

Everyone was afraid of death.

Even those at the top of the pyramid were equally afraid of death.

At such a time, the Pharmacy Association seemed precious.

How could the advanced potions being developed in the Pharmacy Association’s laboratory not be precious?

Jiang Xianrou was indeed powerful enough to enter the Pharmacy Association and come into contact with those top-notch big shots. No wonder she was so arrogant.

“That has nothing to do with me. If that day comes, I won’t beg her even if I have to lie flat on my back.”

Qin Si was very irritable when he mentioned Jiang Xianrou, even if they were in private.

“She’s an idiot.”

Qin Si was definitely talking about Jiang Xianrou.

After saying that, he didn’t care if Zhang Yang replied to Jiang Xianrou’s message.

He raised his chin and looked at Bo Jingxing worriedly. He asked anxiously, “How is it? Your uncle hasn’t been able to contact Master Wang yet?”
