

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1511

"His friend, I guess," Bo Zheng said, but his brows were furrowed. His tone didn't sound good.

Luo Ming couldn't complain anymore upon seeing that he was also angered by Bo Jingxing wanting to bring another friend over.

So, he walked behind the technician and looked at the series of codes on the other man's screen.

"Well?" he asked in a low voice.

The technician had already taken his hands off the keyboard and repeated what he had said to Bo Zheng.

In the end, he still said, "With our current technology, there's almost no possibility of accurate positioning. Even if we can, it will take at least two to three days..."

Luo Ming fell silent with a cold expression.

It would be too late by then!

At this moment, Bo Zheng walked over and stood behind the technician. He placed his hand on the back of the chair and whispered, "I heard that Zhou Hengfeng is nearby?"

"Him?"

Luo Ming looked up at him with a hesitant expression. "He can't do it, right? Zhou Hengfeng is famous for his ability. We asked him to check on Eagle Eye previously, but he couldn't find him either. It's useless to ask him."

He was talking about the last time.

"He's the only hacker in the country who's slightly capable." Bo Zheng's gaze landed on the technician's screen; it was filled with green codes. Unfortunately, none of them were useful.

The Ye family had been urging him to locate them as soon as possible. Otherwise, he wouldn't be able to hide it from Old Master Ye.

However, the extreme weather in Shuangjiang City had not improved. The helicopter couldn't enter the city, and they didn't have a precise location. It was almost impossible to find anyone.

This time, not only were Ye Wangchuan, Gu San, and the others trapped inside but also many other people...

Be it for business or personal reasons, Bo Zheng wanted to pinpoint the location as soon as possible and send reinforcements in.

His thoughts were voluptuous before, but now they were bony!

He was thinking about one thing, but the dilemma was another.

Bo Zheng rubbed his temples and looked at his deputy. "Should we look for the Red Alliance?"

Luo Ming was also a member of the criminal investigation team and was in charge of the international side. Of course, he knew about the illegal district and the Red Alliance.

He was surprised when he heard this. After a long time, he said vaguely, "But it's not easy to find the Red Alliance. They usually don't take on private jobs, and they haven't taken on many external missions in the past two years. The last time was when they helped Young Master Qin. Many forces in the country were shocked. I didn't expect the Red Alliance to take on domestic jobs.

"Besides, they've never taken on this kind of job before. Those people are famous for being arrogant. It's probably even harder to get the Red Alliance to help!"

Of course, Bo Zheng knew that what Luo Ming said was a real problem. However, he had no choice now. He took a deep breath and said, "I'll look for them personally and see if I can contact them."

"But the Red Alliance might not care..." Luo Ming hesitated.

"We won't know until we try."

Bo Zheng interrupted him. "We don't have any other choice now! That's it, I'll try. You should also contact Zhou Hengfeng and see if it's convenient for him to come over."

Zhou Hengfeng, the number one hacker in the country.

This title was a little fake, but a dead horse was a Hail Mary. What if!

Bo Zheng couldn't think of any other way. He could only instruct Luo Ming to contact Zhou Hengfeng as soon as possible and ask him to come over.

In addition, perhaps he would also have to contact the Red Alliance through the underground black market's network...

...

An hour later.

Qin Si's Land Rover parked outside the emergency rescue office.
