

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 1546

Jiang Yao looked at his phone hopefully.

However, after reading it quickly, it was like a bucket of cold water had been poured over his head. His heart turned cold, and his eyes were filled with disappointment.

Jiang Xianrou told him that she still had to participate in an important assessment for a new member before she could determine which master she would be assigned to.

In addition, the independent continent had an annual exchange.

If she performed well, she would have a chance to go to the independent continent with Robert to meet the faction behind the Pharmacy Association, which was the diamond big shot of the illegal district.

Jiang Yao continued reading.

Jiang Xianrou sent him seven or eight messages. Every one of them was about the Pharmacy Association and the opportunity to go to the Independent Continent in the future. He read all of them, but not a single one mentioned Jiang Li, who was still hospitalized.

This cold attitude was a stark contrast to Qiao Nian's.

Jiang Yao suddenly realized why Jiang Li didn't dote on his biological sister at home. He doted on his cousin, who had only been back for more than a year. He even fell out with his family for Qiao Nian.

If it were him...

He imagined what Jiang Li would think if he was still lying in the hospital. Jiang Yao fell silent.

...

Qiao Nian was determined to investigate it. Even though the Qi family had cleaned up their own mess, she still found out everything.

Five days later.

The Red Alliance sent her a detailed transfer record. With Yao Yu as the source, they basically found everyone.

Among them was the Qi family's driver's bank account.

He had used his relative's identity card to open an account to transfer the five million yuan to Yao Yu.

In addition, there were also several million yuan in the account books of the Hengfeng Corporation. These checks almost turned the bank system upside down.

Most importantly, Qiao Niao was awesome because of the data screening she had done through the World Bank's internal system. The security network that Hengfeng Corporation had spent a lot of money

to buy didn't even realize that their system had been attacked by a trojan horse and that their database had been stolen.

She had all the information.

Qiao Nian stayed in her room for five days.

Just as she had guessed, all the evidence she had found pointed to one person, Qi Yan.

...

The next day she went downstairs with the stack of information.

Downstairs, Qin Si, Zhang Yang, and the others were all there. Gu San was making coffee for them.

Qin Si was also talking about going to the hospital to see Jiang Li later.

At this moment, he saw Qiao Nian coming down from the corner of his eye. He immediately greeted her with a cheeky smile. "Sister Qiao, you're finally out of seclusion? I haven't seen you since I came here. I thought I wouldn't be able to see you again today."

"Ah." Qiao Nian glanced at him lazily. It could be seen that she was still a little sleepy from her half-closed eyes as she walked over.

Zhang Yang's attitude towards Qiao Nian was much more polite than Qin Si's. He sat up straight and greeted her respectfully, "Miss Qiao, good morning."

Qin Si's phone rang at this moment. He walked to the side to answer it.

Qiao Nian walked over and found a seat in a corner of the sofa.

Gu San brought her a cup of tea and placed it on the table in front of her. He said softly to the girl, "Miss Qiao, your black tea."

"Thank you." After sitting down, Qiao Nian slowly thanked him.

Gu San immediately waved his hand.

At this moment, Qin Si came back angrily and said to everyone, "Jiang Xianrou came back from the Pharmacy Association and called to ask me if I wanted to eat with her. She even said that Qi Yan was coming, too. So what if Qi Yan is coming? Do I have to go?"
