

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 214

“Huh, Chen Chen, why are you not going?”

Someone suggested. “What did you forget in the classroom? I run fast. I can help you to get it.”

Qiao Chen smiled and answered, “I’m not going, you guys can go instead.”

She lied so that she wouldn’t have to face Qiao Nian. “Something that others shouldn’t be touching. I left it in a small purse in my bag.”

The girls understood what she meant immediately.

She forgot her sanitary pad.

Every girl in the school would bring a few to school during their period, and they would hide it in a small purse in their bag.

“You can go, then.” Her reasoning was perfect. The girls immediately defended her and prevented the guys from asking more.

Qiao Chen breathed a sigh of relief and glanced at Qiao Nian. She nodded and left in a hurry.

She was still shocked by Qiao Nian’s behavior at the hospital. It was as though she was crazy, hitting her in public.

She even threatened that she would never let it slide in front of the Fu family.

Technically, she was afraid. However, before she slept, she thought about it. Qiao Nian was only able to behave this way because of Ye Wangchuan, she couldn't have done anything to harm her. Hence, there was no reason for her to be afraid.

However, when she saw Qiao Nian, she would be reminded of everything that happened in the hospital and that kid.

What if the kid really became a cripple...

Qiao Chen didn't want to think about it anymore as it made her anxious. She told her classmates something and left in a hurry.

"She left?" Shen Qingqing asked, ready for a fight. She was just waiting for Qiao Chen to boast to them and taunt them.

However, just as she was prepared for it, Qiao Chen left by herself.

She scratched her head and asked, "What's the matter with Qiao Chen? She didn't boast about her achievements. This is weird for someone as prideful as her."

Liang Bowen felt that something was amiss as well and suggested. "Maybe she needed to use the bathroom?"

Shen Qingqing rolled her eyes at him and said, "I have the same problem as well, then!"

"Hehe, you must have some problems with your bladder. I'll give you a bottle of melatonin next time," Liang Bowen said. He didn't care about the confused Shen Qingqing, who was puzzled why he would give her melatonin for bladder issues. He asked Qiao Nian, "Sister Nian, why did Qiao Chen leave after she saw you?"

Shen Qingqing was dense. She didn't realize why Qiao Chen left. But he saw it. Qiao Chen left after she saw Sister Nian. She stopped in her tracks when she saw Sister Nian and left immediately.

Something must be up.

He looked at the girl emitting a fierce aura. You could see how fierce she was from the corner of her eyes. He also noticed a mole on her slender neck.

She had dark eyes and seemed to be disinterested in anything. However, when he asked her, she raised her brow. She then tore her bread and replied nonchalantly, "She might feel guilty."

She might feel guilty?

Why did he feel that something was up?

Qiao Chen must have done something!

Liang Bowen then spent the entire day trying to get Qiao Nian to say what Qiao Chen did. If she was a normal high school student, she would have blurted out everything already.

However, he was trying to get this information from Qiao Nian.

It was bound to fail.

Qiao Nian didn't tell him anything even after school was over.

When school was over, he couldn't find Qiao Nian at all. She left the classroom right after the bell rang.
