

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 216

She had beautiful facial features and fair skin. You could even say that her beauty was stunning. However, her eyes were cold, and it seemed as though there was nothing that could excite her on this earth.

Even with his huge reaction, Qiao Nian wasn't affected by it. She answered him nonchalantly, "Medicine."

Wei Lou pinched the pill as he examined it. He asked, "I know that it's the medicine, I'm not blind! What I'm asking is, why did it become like this?"

"No reason." You could tell from her casual attitude that she didn't care about it. She then continued with a bad excuse. "I was bored and bought a fruit-shaped mold online. Hence, I infused some grape flavors into the pills when I created them. Do they look nicer compared to last time?"

Chen Chen loved the pills more after she changed their shape and flavor.

He even asked if there were other flavors.

Wei Lou saw a strong sense of curiosity and confusion in her dark eyes. He smiled uncontrollably and finally grumbled. "These aren't meant for kids, why would you want them to look nice!"

He couldn't accept the changes in the pills' appearance. He put it back into the bottle in silence as he thought about not selling it on the black market.

"Can we change it back to its original appearance?"

It looked too childish.

He couldn't take it.

Qiao Nian raised her brow and replied to him fiercely, "Oh right, I'll be busy in the coming months and won't have the time to give you the pills. I can only pass you three pills every two or three months in the future."

The kid would need it to improve his body, and the three she was giving to Wei Loud was from her portion.

But she would need to take two of them from time to time.

As a result, she didn't have much to give around.

Since she didn't need the money and she couldn't compromise on the kid, she could only decrease Wei Lou's portion.

Qiao Nian thought for a while and felt that every two months would be too rushed for her. She looked deeply at Wei Lou with her clear eyes and said, "Two months are too rushed for me. Let's make it every quarter. We have a deal, then."

Wei Lou was speechless.

After Qiao Nian was done discussing the pills, she asked, "Oh, right. Do me a favor, please."

It was rare for her to ask for a favor. The previous time she did so was for the meat Ganoderma. Hence, Wei Lou became serious. He kept the bottle and asked, "What's the matter? You can just ask. Given our relationship, you don't need to be shy, right?"

“Help me check on someone.” The Red Alliance could check on anyone easily on the web.

However, Slim Waist Control and the rest were located overseas, after all. She would need someone in Rao City to investigate things in Rao City.

“Who is it?” asked Wei Lou as he saw the anger in her eyes.

Qiao Nian nonchalantly said, “Qiao Chen.”

She said she wouldn’t let what happened to Chen Chen slide. If she found out that Qiao Chen was responsible for the accident, she would settle things out with her once and for all.

She could find out if Chen Chen was pushed down the stairs by Qiao Chen herself. She wanted Wei Lou to investigate something else.

She then told him what she needed him to investigate. She looked down coldly and continued, “If possible, I would like to get the results as soon as possible.”

“Alright, don’t worry about it. I’ll investigate it as soon as possible.”

Wei Lou never liked the Qiao Family. He wanted to punish them when Qiao Nian left them. However, Qiao Nian wasn’t a heartless person and she never asked him for such favors. Hence, he couldn’t take things into his own hands. Now that she made up her mind to punish the Qiao Family for what they did, he was glad to aid her in her effort.

He couldn’t wait to hasten the process so that he could punish the Qiao Family!
