

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 505

Ye Wangchuan ignored him and waited for Qiao Nian to send him a message.

He then heard his cell phone ring.

Qiao Nian had messaged him sooner than he had expected.

She had sent him a document.

“Master Wang, is it Miss Qiao?” When he saw him looking at his cell phone, Gu San also leaned over. He then said, “She really has something against Young Master Wei? Impossible.”

He didn't believe that Qiao Nian could get her hands on any important evidence against Wei Qi. He believed that she would only be able to collect information on trivial matters.

Who would have thought that he would be so surprised when he saw the message? His eyes suddenly widened and his mouth opened unconsciously. He couldn't help but blurt out, “Oh my goodness. Master Wang, this is incredible.”

After taking a glance at the documents that Qiao Nian had sent them, he didn't know what kind of expression to make. He was so surprised that he only managed to whisper. “I think that the Wei Family just wanted to bully Miss Qiao a little and make her cry. But it seems like Miss Qiao wants Wei Qi to die!”

The Wei Family just wanted to bully Qiao Nian a little. They just wanted to make her cry, but it seemed like Qiao Nian wanted Wei Qi to die. Ye Wangchuan finished reading the documents. His expression was calm and not as exaggerated as Gu San's expression. However, he was equally shocked. He didn't expect Qiao Nian to have such documents in her hands. These documents could make the Wei Family and Wei Qi overwrought. Furthermore, she had a whole folder of such documents.

He glanced at the folder's size.

It was 1GB large.

Gu San was right. These documents were more than enough to end Wei Qi's life. However...

Ye Wangchuan's eyes were very dark as he suddenly said, “What's the Wei Family doing right now?”

Gu San was still thinking about the documents when he heard the question. He thought for a while and said, “They haven't taken any action recently. Besides revoking Miss Qiao's student status, there hasn't been any news from them. I think it might be because Cai Gang is there, so they cannot take actions against Miss Qiao recklessly. Speaking of this, I remember something I need to tell you.”

“What is it?” Ye Wangchuan's voice was low, sounding like the gurgling of water in clear spring. It sounded very good.

Gu San was almost distracted by his voice. He had to pinch his hand and palm before he came back to his senses. He then said, "I don't know where the principal of Qing University heard the news from, but he now knows that Miss Qiao's student status has been revoked. He's going around looking for someone to restore Miss Qiao's student status."

Glancing at Ye Wangchuan's reaction, he swallowed his saliva and continued, "However, because of the matter regarding Wei Qi, the Wei Family is adamant about revoking Miss Qiao's student status. Both sides are now locked in a stalemate, and Miss Qiao is unable to transfer her student files over."

In other words, Qiao Nian's student status was still revoked.

Looking at the Wei Family's actions, it seemed like they were not willing to let Miss Qiao off easily.

Ye Wangchuan clasped his hands on the seat. He narrowed his eyes slightly as he leaned back in the seat, looking as though he was taking a break.

Gu San didn't know what he was thinking of and did not dare to disturb him. He calmed down and grew quiet.

After a while, Gu San heard him speak in a low voice. "Don't worry about going to the airport for now and turn the car around."

Ye Wangchuan raised his eyebrows slightly. His calm expression often caused people to misunderstand, thinking that he was a well-tempered man.

However, when you looked at his eyes carefully, you would be able to spot the pressure he exerted from its depths. Looking at the slightly red tails of his eyes, anyone would be able to tell that he wasn't a person to be taken lightly.

Ye Wangchuan fiddled with the prayer beads on his wrist. It seemed like this would calm him down, but his narrowed eyes were cold and cruel. This made people feel frightened and oppressed.

"I'm going to pay a visit to the Wei Family."
