

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 528

As she thought about that, she pouted, not noticing the person who had just arrived at the door. She sounded indignant for Qiao Chen. "Chen Chen's results are so good, she shouldn't have transferred out of First High School back then. If she hadn't left, the glory would surely be First High School's. Now Fifth High School has it too easy. She was jealous of Chen Chen and wanted to chase her away, but now she didn't even make it to Qing University herself. I really wonder what she's thinking sometimes..."

She didn't speak loudly, but the restaurant was only that large.

Liang Bowen and the rest happened to hear this part and immediately got angry. "Wu Jie, who are you talking about! Who didn't make it, who's jealous of Qiao Chen? Make yourself clear!"

Damn, who the hell said that Sister Nian didn't make it? He would teach them a lesson!

Wu Jie and the Class B students didn't notice the group who had just entered. Who was the person leading Class A if not Qiao Nian?

They were caught in the act of gossiping behind someone's back. Everyone's expressions immediately turned awkward.

Wu Jie shrank back as her face went pale. She looked in shock at the people who had just entered, realizing that besides her, practically the whole of Class A was here.

Including Qiao Nian!

The girl standing in front of the rest had a cap on and revealed only half her face. Just her beautiful jawline and her posture were enough to scream her presence.

Such a wild and charismatic figure!

Recalling what she had just said about Qiao Nian, her hands clenched into fists in a moment of nervousness as dozens of pairs of eyes were fixated on her. She opened her mouth and thought to stand up, but she felt as if her feet were nailed to the ground. Unable to move, her face went pale right away. She stammered, "I- I didn't mean it that way."

"Then, what did you mean? Make yourself clear. Let us all hear you out." Liang Bowen's handsome face went slightly cold as he folded his arms across his chest, not saving her any face.

He was actually a rather gentlemanly guy and hardly raised his voice at girls, but Wu Jie had really said such terrible things. He couldn't listen on!

"Who were you referring to when you said she didn't make it and was jealous of Qiao Chen? Who was it? Don't tell me you weren't talking about anyone. You said so much about it, it can't be nobody!"

Qiao Nian wasn't petty, especially not with a girl like this who wasn't worth her time. It wasn't as if she did something overboard, so Qiao Nian couldn't be bothered by her. She pulled the furious guy back and said, "Liang Bowen, forget it."

"Sister Nian!" Liang Bowen couldn't take this lying down.

Many other Class A students were angry as well. They were mad at the girl from their class who had gone to join Class B for a meal. How could Wu Jie join outsiders to talk bad about their own classmate?

Wu Jie felt as if every gaze directed at her was a needle in her skin. She bit her lip and said out of the blue, "I'm talking about her. Am I not speaking facts? She didn't make it into Qing University, and Chen Chen did transfer schools because of her. If it wasn't for her, there would be one more student from First High School making it into Qing University. Because of her, our school lost this glorious opportunity. Can't I say a word or two?"

What was she saying?

The Class A students were fuming.

Especially Shen Qingqing. Previously, she was stopping Liang Bowen from going on as well. But now, she couldn't hold back any longer.

"What do you mean?"

"Tell me, what have you said that's right? Did Sister Nian offend you in any way? Or dig up your ancestor's grave? Did you have to be so mean!"

Wu Jie actually straightened up and retorted, "I was just speaking some facts, what does it have to do with whether someone offended me? Moreover, what have I done? Did I tell her off? How am I mean?"
