

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 592

Old Master Wei's illness was imminent. It would be too late if he didn't undergo surgery.

However, Young Master Lou insisted on not letting Professional Liang operate on Old Master Wei. If anything happened to him, the elders in the family would definitely not let Young Master Lou off.

In the past, Old Master Wei doted on Young Master Lou the most. He had also watched Wei Lou grow up. Naturally, he was on his side.

However, this matter could not be messed up. They could only hope that the divine doctor who came from Rao City had some ability!

He had just put down his phone when he saw a girl walking towards him.

At his age, he had long become indifferent to the matters between men and women. He didn't care much about appearances, either. But that woman was too eye-catching.

The black hoodie made her fair skin look dazzling. Her neck was very long, and there was a red mole on it. Probably because of the weather, her hands were in her pockets. She had her earphones in as she walked over slowly.

Finally, she stopped in front of him.

Lifting the brim of his hat, the old butler saw an overly beautiful face. Her clear eyes looked at him and she asked politely, "Hello, were you the one who called me earlier?"

The old butler was stunned and could not react for a moment. He looked at the girl in front of him, who was definitely not older than 20 years old, in astonishment. Looking at her overly young face, he couldn't help but cry out, "You are... Miss Qiao?"

This...

The miracle doctor who came from Rao City was so young?!

Qiao Nian raised her eyes and looked at his white hair. She nodded politely. "Hello, I'm Qiao Nian. Just call me by my name."

The old butler was speechless.

It wasn't a question of how he should address her now. He couldn't imagine the reaction of his family when he brought this divine doctor back.

The Wei family was going to be in chaos!

On the way to the Wei family's house, Qiao Nian sent a message to Wei Lou and told him that she was already in the car.

Afraid that she would fall asleep, she yawned and started a game.

At this moment, people were coming and going in the Wei family's residence. There were many cars with license plates starting with 0 parked at the entrance of the green tiles and white walls. Not all of the cars were good, but those who knew the industry knew that the owners of cars with 0 license plates in Beijing were usually big shots in the business world.

They were people on the news.

Qin Si had also arrived today. He arrived at the airport at nine and did not go home. When he received a call from home, he rushed over immediately.

At this moment, he was sleepy and exuded a forbidding aura.

Zhang Yang came over with him and saw him yawning non-stop. There was even a bluish-purple ring under his eyes. He joked, "Young Master Qin, why do you look like you haven't slept all night? Don't tell me..."

"Don't f\*cking think nonsense!" Qin Si kicked him and said impatiently, "I had something on and flew overseas. I just came back. It would be the same if you took a plane for more than ten hours. How energetic are you?"

Zhang Yang touched his nose. He was smart enough not to ask him why he had gone overseas.

Qin Si and Master Wang were from the same circle, and he was still lacking. What was the point of their circle? It was best not to ask around. If he did, it would be easy to be hated.

He didn't need to be kicked out of the industry for gossip.

At this moment, he saw a tall figure passing by and whispered, "Young Master Qin, it's Miss Jiang. She must have followed Professional Liang over. I'll ask her about Old Master Wei."
